「Touch Of Life™」

「Touch Of Life™」

In life, every touch has a meaning.

From the first day that we are born into this world,

A pair of gloves takes us to our mother's embrace. As you move through stages of life, gloves help to protect you. Across industries, from medical to food and manufacturing of many great products, gloves have become an essential part of our life.

SINCE 1989

SINCE 1989,

Sri Trang Gloves (Thailand) Public Company Limited

takes pride in our attention to detail at every production step;
from the careful selection of raw materials to the constant research and
innovation. We take pride in producing gloves that deliver 「Touch Of Life™」

Not just a glove manufacturer,
we are also part of a

"Fully integrated rubber company"

SRITRANG GLOVES THAILAND

OUR VISION IS TO DELIVER

「Touch Of Life™」

ON A GLOBAL SCALE

Since 1989

7 Factories

27 Billion Pieces Per Annual

Export to **130+** Countries

SRITRANG
GLOVES THAILAND

WE RESEARCH INTO THE SCIENTIFIC HEART OF RAW MATERIALS

We believe that great products all start with raw materials.

At **SRI TRANG GLOVES (THAILAND)**

we heavily invest in our R&D, from choosing the right type of rubber trees, the research and development of plantation techniques, which the aim of producing the best quality latex with low protein content to supply to our Gloves factories. Not just latex, we also focus on Nitrile, using rigorous sourcing and testing to ensure that all Nitrile butadiene rubber from our suppliers is up to STGT standards.

Plantaion Technique

We choose the best clone and develop plantation techniques to improve yield and quality.

Protein Control

We are expert in controlling every aspect of latex specification through our expert research and development to ensure that we create the best formula for each type of gloves.

Rigorous Sourcing

We use our expertise and detailed knowledge in sourcing and testing to ensure that all Nitrile Butadiene raw material from our Suppliers meets STGT stringent standards.

CUTTING EDGE TECHNOLOGY AND NON-STOP INNOVATION

With years of experience, **SRI TRANG GLOVES (THAILAND)**

engineering team is the expert in designing of state-of-the-art glove production process. As a result, we are able to come up with highly flexible and efficient production process to ensure high quality hand protection to satisfy all our customers on a global scale.

Machine master

We are the expert in producing highly flexible and efficient production process to ensure high quality hand protection.

Automation

We take pride in our development of the automation process from production to auto packing with the aim of improving our gloves, reducing defect and delivering the 「Touch Of Life™」 products on a global scale.

Non-stop melioarate technology

We never stop to improve the process and are committed to continuous product improvement to improve the quality of hand protection and reduce costs in order for our 「Touch Of Life™」 products to reach all users around the world.

Sharing Touch of Love

OUR PRIORITY IS TO DELIVER THE 「Touch Of Life™」 and sustainable world

We are committed to conducting business with transparency and fairness to produce quality and environmentally friendly products that deserve to be call the 「Touch Of Life™」 and we care about all stakeholders in the supply chain, from upstream to downstream. Not just for the people but for every life in this beautiful world.

Sustainability for farmers and fair trade

At SRI TRANG GLOVES (THAILAND), we have high standards and expect our suppliers to comply with our on principles on human rights, environmental impact and business integrity, all part of our 「Touch Of Life™」

The environmentally friendly technologies

Apart from production process, SRI TRANG GLOVES (THAILAND) also invests heavily in biomass energy and waste management and green energy to ensure positive environment within our facilities as well as communities around our facilities.

Human rights

We see our employees as part of the SRI TRANG GLOVES (THAILAND) family. We are committed to eliminating child labor and other abuses where they are found, and to achieving safe and healthy working conditions as well as following the 「Touch Of Life™」 principles. In addition to implementing our human rights commitment, we also joined the Business Social Compliance Initiative (BSCI).

Animal Welfare

At STGT, we appreciate and love every life that makes up this wonderful world. We strongly commit to delivering the 「Touch Of Life™」 to many of unfortunate animals around Thailand. This includes supporting charities on stray animals, wild life and we are proud to be part of a better world.

Sharing Touch of Love

At STGT, apart from creating 「Touch Of Life™」 products to serve customers globally, we also take big part in sharing to those unfortunate ones.

SRITRANG
GLOVES THAILAND

DESIGNING A HAND PROTECTION FUTURE

We offer a wide range of high-quality natural latex and nitrile examination gloves

as well as general-purpose disposable gloves, both powdered and powder-free,
catering to a wide variety of applications, including healthcare and medical, food processing,
food handling, manufacturing and operations where hygiene standards come first.

LATEX POWDERED

Latex Powdered has been part of our life for more than 100 years.

It was one of the life-changing innovations that still deliver the touch of life to people around the world today. Today latex gloves have been improved compared to when they were first produced. STGT takes pride in our knowledge and R&D in latex raw materials as well as experience in gloves production. We deliver the most comfortable gloves that remain effective in order to carry on this legacy and offer the 「Touch Of Life™」 on a global scale.
