

Laboratory Services for Inspection of
Materials and Equipment for Public
Works Projects
Resolution No. 138808

Technical Evaluation Committee (TEC) Questionnaire

Instructions

- The Technical Evaluation Committee (TEC) Questionnaire shall be used for professional services related to architecture, engineering, or survey projects.
- **The TEC Questionnaire should be completely filled out. Complete and attach ALL sections. Insert "N/A" or "None" if a section does not apply or if there is no information to provide.**
- Questionnaire must be signed by an authorized representative of the Firm. Failure to sign the questionnaire shall result in disqualification of proposer pursuant to J.P. Code of Ordinances Sec. 2-928.
- All subcontractors must be listed in the appropriate section of the Questionnaire. Each subcontractor must provide a complete copy of the TEC Questionnaire, applicable licenses, and any other information required by the advertisement. Failure to provide the subcontractors' complete questionnaire(s), applicable licenses, and any other information required by the advertisement shall result in disqualification of proposer pursuant to J.P. Code of Ordinances Sec. 2-928.
- If additional pages are needed, attach them to the questionnaire and include all applicable information that is required by the questionnaire.

TEC Professional Services Questionnaire

A. Project Name and Advertisement Resolution Number:

Laboratory Services for Inspection of Materials and Equipment for Public Works Projects
Resolution No. 138808

B. Firm Name & Address:

The Beta Group Engineering and Construction Services, LLC
1428 1/2 Claire Avenue
Gretna, LA 70053

C. Name, title and contact information of Principal, as defined in Section 2-926 of the Jefferson Parish Code of Ordinances, who is a registered, licensed architect, professional engineer, or surveyor in the State of Louisiana:

Mark A. Cheek, P.E., FACI
Vice President / Technical Manager
504-227-2273
mcheek@betagroupgc.com

D. Name and contact information of employee who is a registered and licensed architect, professional engineer, or surveyor in the State of Louisiana in the applicable discipline. A subcontractor may be substituted here only if the advertised Project requires more than one discipline.

Mark A. Cheek, P.E., FACI
Vice President / Technical Manager
504-227-2273
mcheek@betagroupgc.com

E. Please provide the number of employees whose primary function corresponds with each category:

<u>7</u> Administrative	<u> </u> Estimators	<u> </u> Specification Writers
<u> </u> Architects (Licensed)	<u> </u> Geologists	<u> </u> Structural Engineers
<u> </u> Chemical Engineers	<u>1</u> Geotechnical Engineers	<u> </u> Graduate Engineers
<u>2</u> Civil Engineers	<u> </u> Interior Designers	<u>18</u> Project Managers
<u>22</u> Construction Inspectors	<u> </u> Landscape Architects	<u>3</u> Clerical
<u> </u> Ecologists	<u> </u> Land Surveyor	<u> </u> Grant/Funding Specialist
<u> </u> Electrical Engineers	<u> </u> Mechanical Engineers	<u> </u> Sanitary Engineers
<u> </u> Engineer Intern	<u> </u> Environmental Engineers	
<u> </u> Professional Land Surveyors		<u>53</u> TOTAL

F. Is this submittal by a JOINT-VENTURE? Please check: YES ☐ NO ☒

If marked "No" skip to Section I. If marked "yes" complete Sections G-H.

TEC Professional Services Questionnaire

G. If submittal is by JOINT-VENTURE, list the firms participating and outline specific areas of responsibility (including administrative, technical, and financial) for each firm. Please attach additional pages if necessary.

1.

2.

H. Has this JOINT-VENTURE previously worked together? Please check:

YES ☐ NO ☐

I. List all subcontractors anticipated for this Project. Please note that all subcontractors must submit a fully completed copy of this questionnaire, applicable licenses, and any other information required by the advertisement. See Jefferson Parish Code of Ordinances, Sec. 2-928(a)(3). Please attach additional pages if necessary.

Name & Address:	Specialty:	Worked with Firm Before (Yes or No):
1. N/A		
2.		
3.		

J. Please specify the total number of support personnel that may assist in the completion of this Project:

53 _____

TEC Professional Services Questionnaire

K. List the professional in charge, key persons, specialists, and individual consultants anticipated for this Project and provide their relevant information below. If necessary, please attach additional documentation (i.e. resume) that demonstrates the employment history and experience of the Firm's key persons that may assist in the completion of this Project. Please attach additional pages if necessary.
PROFESSIONAL IN CHARGE OF PROJECT:
Name & Title:
Mark A. Cheek, P.E., FACI Vice President / Technical Manager (Fulfills MPRs 1, 2 and 3)
Project Assignment:
Principal Engineer, Project Manager
Name of Firm with which associated:
The Beta Group Engineering and Construction Services, LLC
Years' experience with this Firm:
23 Years with Beta 9 Years with other firms
Education: Degree(s)/Year/Specialization:
B.S. / 1993 / Civil Engineering MS-Level Coursework since 1995
Active registration: Year first registered/discipline:
1999, Civil Engineer, Louisiana No. 28531 1999, Civil Engineer, Mississippi No. 14491
Other experience and qualifications relevant to the proposed Project:
<p>As technical manager of Beta, Mr. Cheek is responsible for maintaining proper supervision and training for inspection personnel. He conducts technical classes and participates in the formulation of company policies. He solves problems with ongoing projects, reviews inspection reports for accuracy and completeness, and analyzes and interprets lab test results. When needed, he troubleshoots concrete field problems. Finally, as technical manager, he maintains the laboratory accreditation and technical competence.</p> <p>Mr. Cheek's experience was gained in positions such as: construction materials field and laboratory testing technician, resident project engineer, structural design engineer, geotechnical engineer, and construction materials testing agency manager. His certifications include: ACI (Field Grade 1, Strength, Flatwork, Aggregate and Laboratory Testing Technician), F-Number Measurement Floor Profiler, Troxler, NRMCA Inspecting Engineer, and NRMCA Examiner for Pervious Concrete.</p>

TEC Professional Services Questionnaire

KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT:
Name & Title:
Steve McCann
Project Assignment:
Materials Department Supervisor
Name of Firm with which associated:
The Beta Group Engineering and Construction Services, LLC
Years' experience with this Firm:
10 Years with Beta 4 Years with other firms
Education: Degree(s)/Year/Specialization:
A.S. / 2000 / Computer Networking Technology
Active registration: Year first registered/discipline:
N/A
Other experience and qualifications relevant to the proposed Project:
Currently as Materials Department Manager his responsibilities at Beta include: technical manager of the Materials Testing Division, review of all quality control and quality assurance data, review of pile inspection and pile logging activities, analysis of vibration monitoring reports, pile load test design and analysis. Mr. McCann is also responsible for maintaining proper supervision and training for inspection personnel. He conducts technical classes and participates in the formulation of company policies. He solves problems with ongoing projects, reviews inspection reports for accuracy and completeness, and analyzes and interprets lab test results. When needed, he troubleshoots concrete field problems. Finally, he maintains the soils and concrete laboratory accreditation for the USACE and AASHTO and all necessary technical correspondence.

TEC Professional Services Questionnaire

KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT:
Name & Title: Roy A. Glapion, P.E. Vice President, Civil Engineer
Project Assignment: Quality Assurance
Name of Firm with which associated: The Beta Group Engineering and Construction Services, LLC
Years' experience with this Firm: 9 Years with Beta 25 Years with other firms
Education: Degree(s)/Year/Specialization: B.S. / 1987 / Civil Engineering
Active registration: Year first registered/discipline: 1999, Civil Engineer, Louisiana No. 27450
Other experience and qualifications relevant to the proposed Project: <p>Mr. Glapion graduated from the University of New Orleans in 1987 with a degree, BSCE, in Civil Engineering. He has practiced his profession with numerous prominent engineering firms located throughout the greater New Orleans area. With an emphasis in Structural Design, Mr. Glapion has extensive experience in Foundation, Vertical Structure, Floodwall, Bridge and Drainage Design.</p> <p>In addition to his design experience, Mr. Glapion is the Co- Founder of Citywide Testing and Inspections, Inc. He served as the President of this organization. At its peak, Citywide employed over 100 people. Citywide was a multi-discipline construction, environmental and geotechnical testing laboratory with offices located in New Orleans, Baton Rouge, LA and Biloxi, MS. As the prime consultant, Citywide provided services on numerous prestigious projects such as: The New Orleans Sports Arena, Superdome Roof Improvements, Jordon Road Overpass, John A. Alario, Sr. Event Center, Pontchartrain Center Expansion, Ernest N. Morial Convention Center Expansion and the Katrina Recovery.</p>

TEC Professional Services Questionnaire

KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT:
Name & Title:
Alex Jaramillo, P.E. Geotechnical Engineer
Project Assignment:
Laboratory Manager
Name of Firm with which associated:
The Beta Group Engineering and Construction Services, LLC
Years' experience with this Firm:
11 Years with Beta 16 Years with other firms
Education: Degree(s)/Year/Specialization:
B.S. / 1999 / Civil Engineering
Active registration: Year first registered/discipline:
2011, Civil Engineer, Louisiana No. 36324 2018, Civil Engineer, Mississippi No. 28833
Other experience and qualifications relevant to the proposed Project:
Mr. Jaramillo is responsible for: All geotechnical activities including performing subsoil explorations, completion of soils laboratory testing, geotechnical analyses for projects and completion of the geotechnical report; Preparation, presentation and management of scope, budget, and work plan; Review daily field inspection reports for accuracy and completeness; Monitor the soil laboratory activities; Coordinate logistics; Supervise and interpret field & laboratory testing/data for use in engineering analyses; Ensure services provided are technically satisfactory and effective; Monitor that the project goals and quality objectives are being provided; Responsible for routine communication with client during the project; Prepare and review technical reports and ensure on-time delivery.

TEC Professional Services Questionnaire

KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT:
Name & Title:
Murray White President
Project Assignment:
Quality Assurance, Signature Authority
Name of Firm with which associated:
The Beta Group Engineering and Construction Services, LLC
Years' experience with this Firm:
25 Years with Beta 2 Years with other firms
Education: Degree(s)/Year/Specialization:
1994-1995, Coursework, McNeese State University 1991-1994, Coursework, University of Mississippi
Active registration: Year first registered/discipline:
NA
Other experience and qualifications relevant to the proposed Project:
Mr. White has served as President of Beta since 1999. In his years with the firm, he established and maintained an appropriate quality assurance program at various levels of the organization. He has performed all required inspections and tests to maintain quality control and assure compliance to specifications, codes, and standards on multiple projects. Further, Mr. White established and maintained equipment calibration procedures and records, and provided detailed inspection procedures for various projects. In his career, Mr. White served as a Field Technician with another firm. He performed all necessary inspections and tests required to maintain quality control and assure adherence to project specifications, codes, and standards. He also dispatched inspectors to requested project sites to perform numerous tasks for contractors.

TEC Professional Services Questionnaire

L. Work by Firm or Joint-Venture members which best illustrates current qualifications relevant to this Project. Please include any and all work performed for Jefferson Parish. Please attach additional pages if necessary.

PROJECT NO. 1		
Project Name, Location and Owner's contact information:	Nature of Firm's Responsibility:	
Terry Parkway to Browning Lane Terrytown, LA HNTB Corporation Randal Bonura (504) 872-3004	Beta is providing construction materials testing for the project which includes: Concrete Testing, Soils Testing and various Field Inspections	
Completion Date (Actual or estimated):	Estimated Cost:

PROFESSIONAL TRAINING AND EXPERIENCE

The Beta Group is a full-service geotechnical and construction materials testing laboratory. The Beta Group has provided construction materials testing and inspection on over 4,500 projects since 1997; key personnel have a combined 80 years of experience in construction materials testing. The firm is fully licensed to provide engineering services in the States of Louisiana and Mississippi.

TBG is capable of performing the following services:

Geotechnical Services. TBG provides a full range of geotechnical services relating to subsurface explorations, soils laboratory testing and geotechnical engineering analyses. Our engineering staff consists of three (3) professional engineers registered in Louisiana and has extensive experience in a wide range of projects that include buildings, drainage structures, roads, etc. Our geotechnical experience includes shallow foundations including settlement analyses, deep foundation systems including driven piles, drilled shafts and auger cast piles, pavement design including rigid and flexible pavements, full scale pile load testing and construction inspections. Our soils laboratory offers a variety of geotechnical testing such as moisture contents, atterberg limits, unconfined compression tests, sieve analyses, specific gravities, organic contents, etc.

Steel Inspection Services. The visual inspection of structural steel at the site or shop includes welded and bolted connections, steel and pipe coating sampling, welder certification, and the performance of ultrasonic and x-ray testing. These services are performed by AWS Certified technicians.

Pile Logging, Load Test, and Vibration Monitoring. Provision of inspection of timber piles and other timber products, logging of job piles and test piles, furnishing of calibrated hydraulic rams, and performance of pile load tests with formal reports interpreted and signed by a registered engineer. Use of electronic instruments to monitor construction vibrations.

Concrete Inspection Services. Design and review of mix designs, quality control at both the plant and in the field, pre-placement and post-placement inspection, aggregate sampling & testing, cementitious material sampling and testing, post tension inspection, precast inspection, and mortar and grout inspections. These services are provided by ACI certified technicians.

Asphalt Inspection Services. Review of mix designs, quality control at both the plant and in the field, materials sampling and testing. These services are performed by qualified technicians and a State certified asphalt plant inspector.

Soil/Aggregate Testing in the Laboratory. All tests are performed in accordance with ASTM, AASHTO, or LDOTD standards as per project specifications. Qualified technicians perform each test.

Soil/Aggregate Testing in the Field. The performance of field density tests (by nuclear gauge or sand cone method), fill placement inspection, and depth checks. Troxler certified technicians perform these services.

Specialty Testing Services. Including but not limited to: Moisture Vapor Emission Rate Test Using Anhydrous Calcium Chloride (ASTM F 1869), Determination of F_F Floor Flatness and F_L Floor Levelness Numbers (ASTM E 1155), Inspection of Sprayed Fire-Resistive Material Applied to Structural Members (ASTM E605).

Resident Inspection. TBG has provided RI services and program management for the following project, but not limited to: the reconstruction of concrete I-walls and T-walls, and the installation of floodgates and drainage Pumping Stations at the 17th street, London Avenue, and Orleans Avenue Canal; repairs to floodgates; the new Harvey Canal Sector Gate Complex; and levee repairs from Belle Chasse to Venice. Beta also oversaw the construction of flood gates, locks, rock, jetties, steel sheet pile walls with concrete caps, timber bulkheads, dolphins, roads, bridges, drainage culverts, earthen drainage canals, concrete structures in drainage canals, waste water treatment plants, raw water pumping stations, and water treatment plants. Beta has also provided two Construction managers and fifteen quality assurance representatives for FEMA drainage

remediation throughout the Parish. This project scope included inspection, cleaning and repairs of drain culverts and drain lines in storm damaged areas. Beta monitored over 1.6 million linear feet of drain lines that spanned across two parishes.

CAPACITY FOR TIMELY COMPLETION

TBG has over 75 employees and is expanding in order to meet our growing client base. Our work force is composed of two registered professional engineers, a business development manager, an operations manager, four secretaries, and over 50 technicians. Our laboratory has been inspected by the U.S. Army Corps of Engineers and several independent calibration laboratories. We are also **certified with the American Association of State Highway and Transportation Officials (AASHTO)**. We have the manpower and equipment to meet the deadlines and time-frame requirements set forth by our clients.

Further, TBG has an exemplary record in regards to cost control. We employ a comprehensive cost checking program throughout the execution of the project, and have had no problems in meeting budgetary guidelines.

DBE PARTICIPATION

The Beta Group is a recognized Disadvantaged Business Enterprise (DBE) by the following entities:

- Louisiana Unified Certification Program
- Mississippi Unified Certification Program
- Federal Aviation Administration (FAA)
- New Orleans Aviation Board (NOAB)
- Mayor's Office of Economic Development, City of New Orleans
- Sewerage & Water Board of New Orleans
- City of Jackson, Mississippi (MBE)
