### Fee Proposal for Puzzle Piece Phonics

Below you will find a brief description of the line items found in each year's Fee Proposal.

#### *Brief description of Each Component:*

- **Teacher's Guide:** professional development resources, review of routines, pacing guide, guided daily lessons, master motion chart for puzzle piece implementation
- **Puzzle Pieces:** sound wall reference cards
- **Learner's Notebook:** student recording space to keep the daily lessons paced, differentiated word sorts, encoding lines, spelling checks, and comprehension checks
- **Fluency Notebook:** collection of poems, chants, or reader's theaters (depending on grade-level)

#### *Digital Access:*

Puzzle Piece Phonics does not have a companion website but we are able to provide the PDF documents for each of the four components to each classroom teacher. Each year, the digital resources will need to be purchased for each classroom.

#### *Professional Development:*

The 16-hour training model that is included in the fee proposal is what we have found is successful when implementing *Puzzle Piece Phonics* into new districts. However, please note that more often than not, Professional Development is catered to the specific districts needs and can be specifically designed for Neshoba County.

*Mission: To support educators and school leaders in understanding the components of effective foundational skills instruction and provide tools to successfully plan for implementing each piece.*
