ST125F 8' Convertible Table on Floor

"The Bison scorers table we purchased was more than we bargained for! The graphics were outstanding, the quality was excellent and the price was reasonable. I was impressed with the turnaround time and how well it was constructed. It has had a positive impact on our school spirit. Anyone who walks into the gym notices the table right away. When people ask who we got it from, I direct them to Bison with positive recommendations."

ST125F/ST125F Convertible Scorers Table (Freestanding on Floor)

The most common use of our convertible 8' (ST125F) or 12' (ST125F) scorers tables is set up on the floor with chairs providing the seating. • Purchase Bison STC500BK chairs to provide seating coordinated with your scoring table.

ST125F Convertible Scorers Table (Installed in Bleachers)

When space between the court and the bleachers is limited, Bison convertible scoring tables can be used at any height in the bleachers using a wooden field constructed platform. • This allows scoring and statistical personnel to sit on existing bleacher seats. • Bison will provide a universal design platform drawing on request.

ST125B Space Saver Scorers Table (Up Against Bleachers)

This extra tall table allows the table to be positioned on the gym floor, up against the first row of bleacher seats. • The height is designed to allow personnel to sit comfortably on the second row of bleacher seats. • Space Saver is the best choice if the gym does not want to put scoring tables in the bleachers but has limited floor space outside the sidelines. • Normally requires at least 48" of space between front of bleachers and court sidelines.

"Mt. Olive is a small school and it was nice to have someone pay attention to every detail to make our scorers table the very best. Our Sports Boosters donated the money to purchase a Bison Sport Pride scorers table and they wanted our table to mirror the Wildcat painting in our gym. The customer service I received was second to none and the artwork is amazing!"

SPORT PRIDE GRAPHIC SCORERS TABLES

WARNING!!!

Always check that your wheels roll freely and that they are clean before rolling the scoring table onto your floor. Failure to do so may scratch the floors finish.

FLOOR MODEL:

1. Roll the scoring table to the desired location, lift the table top all the way up and swing out the table legs on both sides. Lower the adjustable legs to rest on the floor. Lifting the table brace slightly will allow the adjustable leg to become fully engaged and stabilize the scoring table. Lower the table top on the table braces making sure that the table braces are secured into the locks on the lower surface of the table top. (See Figure 2)
2. When placed in the bleachers, install a platform that fits securely in the bleacher seat, and will safely hold the weight of the scoring table with a ledge to keep from rolling back. (See Figure 3) Remove the pins, cotter keys, and the floor adjustable leg and install the bleacher adjustable leg, and reinstall the pins and cotter keys. (See Figure 1) Hang adjustable legs not in use on hooks provided on the back side of padding

NOTICE!!!

The power strip is located on the backside of the front padding towards the top. (Note: The power strip does not provide surge protection)

SPACE SAVER MODEL:

3. Roll the scoring table to the bleachers, lift the table top all the way up and swing out the table legs on both sides. Lower the adjustable legs so they rest on the first bleacher seat. Lift the table brace to engage the adjustable leg. Lower the table top on the table braces making sure that the table braces are secured into the locks on the lower surface of the table top. (See Figure 4)

ALL MODELS:

4. When storing the score table, lift the table top, raise the adjustable leg up to the storage position, fold the leg in, place the table top in the folded position.
5. Your new Scoring Table Graphic Padding is digitally printed with UV curable inks to enhance durability and image quality. Due to the nature of this product in its intended application; you will experience normal wear and tear from contact. You may attempt to remove light scuffmarks or stains with warm water and mild dish soap wiping gently being certain to rinse thoroughly. If mild dish soap and warm water does not remove mark or stain, lightly spray with Windex and wipe gently. (Note: Test the cleaning solution on an inconspicuous area of the padding (ie: side of pad) before trying on the original stain.) Do not use harsh solvent type cleaners. Solvent type cleaners cause cracking, hazing and general deterioration of vinyl materials.
