BID FORM
Non Public Works

All Public Work Projects are required to use the Louisiana Uniform Public Work Bid Form

All prices must be held firm unless an escalation provision is requested in this bid. Jefferson Parish will allow one escalation during the term of the contract, which may not exceed the U.S. Bureau of Labor Statistics National Index for all Urban Consumers, unadjusted 12 month figure. The most recently published figure issued at the time an adjustment is requested will be used. A request must be made in writing by the vendor, and the escalation will only be applied to purchases made after the request is made.

Are you requesting an escalation provision?

YES _____ NO ✓

MAXIMUM ESCALATION PERCENTAGE REQUESTED _____%

INITIAL BID PRICES WILL REMAIN FIRM THROUGH THE DATE OF 01/08/2021

For the purposes of comparison of bids when an escalation provision is requested, Jefferson Parish will apply the maximum escalation percentage quoted by the bidder to the period to which it is applied in the bid. The initial price and the escalation will be used to calculate the total bid price. It will be assumed, for comparison of prices only, that an equal amount of material or labor is purchased each month throughout the entire contract.

STANDARD INSURANCE REQUIREMENTS FOR BIDDING PURPOSES

All required insurance under this bid shall conform to Jefferson Parish Resolution No. 113646 or No. 113647, as applicable. Contractors may not commence any work under any ensuing contract unless and until all required insurance and associated evidentiary requirements thereto have been met, along with any additional specifications contained in the **Invitation to Bid**. Except as where otherwise precluded by law, the Parish Attorney or his designee, with the concurrence of the Director of Risk Management or his designee, may agree on a case-by-case basis, to deviate from Jefferson Parish's standard insurance requirements, as provided in this Section. Vendors requesting deviation therefrom shall submit such requests in writing, along with compelling substantiation, to the Purchasing Department prior to the bid's due date. Any changes to the insurance requirements will be reflected in the bid specifications and addenda. Prior to contract execution and at all times thereafter during the term of such contract, contractors must provide and continuously maintain all coverages as required by the foregoing Resolutions, and the contract documents. Failure to do so shall be grounds for suspension, discontinuation or termination of the contract.

For bidding purposes, bidders must submit with bid submission a current (valid) insurance certificate evidencing the required coverages. Failure to comply will cause bid to be rejected. The current insurance certificate will be used for proof of insurance at time of evaluation. Thereafter, and prior to contract execution, the low bidder will be required to provide final insurance certificates to the Parish which shall name **the Jefferson Parish, its Districts Departments and Agencies under the direction of the Parish President and the Parish Council** as additional insureds regarding negligence by the contractor for the Commercial General Liability, Workmen's Compensation Insurance and the Comprehensive Automobile Liability policies. Additionally, said certificates should reflect the name of the Parish Department receiving goods and services and reference the respective Jefferson Parish bid number.

JEFFERSON PARISH REQUIRED STANDARD INSURANCE**☒ WORKER'S COMPENSATION INSURANCE**

As required by Louisiana State Statute, exception; Employer's Liability, Section B shall be \$1,000,000 per occurrence when Work is to be over water and involves maritime exposures to cover all employees not covered under the State Worker's Compensation Act, otherwise this limit shall be no less than \$500,000 per occurrence.

Note: If your company is not required by law to carry workmen's compensation insurance, i.e. not a Louisiana company, sole employee of the company, then bidders must request a workmen's compensation insurance declaration affidavit prior to the bid opening date. This insurance declaration affidavit must be fully completed, signed, properly notarized and submitted with the bid. A scanned copy may be submitted with the bid; however, the successful bidder must submit the original affidavit in its original format and without material alteration upon contract execution. Failure to comply will result in the bid submission being

rejected as non-responsive. The Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event.

☒ **COMMERCIAL GENERAL LIABILITY**

Shall provide limits not less than the following: \$1,000,000.00 Combined Single Limit per Occurrence for bodily injury and property damage.

☒ **COMPREHENSIVE AUTOMOBILE LIABILITY**

Bodily injury liability \$1,000,000.00 each person; \$1,000,000.00 each occurrence.
Property Damage Liability \$1,000,000.00 each occurrence.

Note: This category may be omitted if bidders do not/will not utilize company vehicles for the project or do not possess company vehicles. Bidder must request an automobile insurance declaration affidavit prior to the bid opening date. This insurance declaration affidavit must be fully completed, signed, properly notarized and submitted with the bid. A scanned copy of the completed, signed and properly notarized affidavit may be submitted with the bid; however, the successful bidder must submit the original affidavit in its original format and without material alteration upon contract execution. Failure to comply will result in the bid submission being rejected as non-responsive. The Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event.

DEDUCTIBLES

No insurance required shall include a deductible not greater than \$10,000.00. The cost of the deductible shall be borne by the contractor.

NOTE: If the vendor requires a change in deductibles, the request must be submitted in writing to the Purchasing Department prior to the due date of the bid. Such request shall be reviewed by the Parish Attorney's Office with the concurrence of the Director of Risk Management.

ADDENDUM # 1

Bid No.: 50-00124819

Bid Opening Date: January 8, 2019, 2:00 PM

For: TWO (2) YEAR CONTRACT FOR LABOR, MATERIALS & EQUIPMENT TO REMOVE EXISTING & INSTALL NEW THERMOPLASTIC PAVEMENT MARKINGS FOR THE EAST BANK OF JEFFERSON PARISH, TRAFFIC ENGINEERING DIVISION

❖ CLARIFICATION OF SPECIFICATIONS

QUESTION #1:

On page 8 of 27 the specifications refer to Table 4 which states that Dry Retroreflectivity readings will be 900 MCD for White & 700 MCD for yellow for wet Retroreflectivity values.

On the bottom of page 8 of 27, there is a note that states that Jefferson Parish will accept LADOTD approved Material (Retro Numbers & Bead Packages) as long as it can be proven that it is indeed LA DOTD accepted material.

Will the 2016 LA Dotd standard specifications be allowed in lieu of table 4 of the Jefferson Parish specifications in regard to retro-reflectivity requirements and bead packages?

ANSWER:

Yes

❖ CLARIFICATION OF SPECIFICATIONS:

Question # 1:

Per addendum Number 1 we will be allowed to utilize La DOTD specifications in regard to retro-reflectivity & bead packages.

If the wet recovery and wet continuous readings are not required per LA DOTD specifications in regard to their testing procedures for retro-reflectivity, will the Jefferson parish government still require that those tests be performed?

Answer:

Yes, the tests will be required to be performed.

ADDENDUM # 3

Bid No.: 50-00124819

Bid Opening Date: January 8, 2019, 2:00 pm

For: TWO (2) YEAR CONTRACT FOR LABOR, MATERIALS & EQUIPMENT TO REMOVE EXISTING & INSTALL NEW THERMOPLASTIC PAVEMENT MARKINGS FOR THE EAST BANK OF JEFFERSON PARISH, TRAFFIC ENGINEERING DIVISION

❖ CLARIFICATION OF SPECIFICATIONS:

Question # 1:

Table 4 on page 8 of 27 states that the contractor will be required to meet Dry Reflectivity Values of 900 MCD on white & 700 MCD on yellow thermoplastic. I will not get into the wet recovery & wet continuous values at this time. Our company has been installing thermoplastic over the last 20 years and the last 8 years we have been required to meet the dry reflectivity requirements set forth by LA Dotd of 375 MCD on white and 250 MCD on yellow thermoplastic utilizing a double drop bead of M247 Type 1 & Duralux Type 4 glass bead (1.5 index). We are required to take reflectivity readings on every LA DOTD project that we stripe, and we have data for 100's of projects that we have installed and read over the last 8 years. We can consistently obtain readings of 400-450 MCD on White and 275 – 325 on Yellow utilizing a double drop bead of 11.98 Lbs per 100 sq ft of the bead type previously mentioned dropped onto the line and embedded 50-60%. Based on the specifications in the attached proposal, Jefferson Parish will require the contractor to install either a single drop utah blended bead at 14.4 lbs / 100 sq ft. or a single drop type 3 bead at 7.8 lbs / 100 sq ft. Both of these beads are 1.5 index beads just like what LA Dotd requires. Based on the reflective media requirements of the specification there is no way that a contractor will be able to obtain the required reflectivity values in table 4. So if we install the thermoplastic and reflective media per your specifications and are unable to meet the reflectivity requirements set forth in table 4 what will be the penalty?

Answer:

The reflectivity requirements listed in table 4 have been reviewed and will remain as is. All bidders shall meet the requirements of the bid specifications. If the successful bidder fails to meet the results listed in table 4 (SP Page 8 of 27), the contract will be canceled in accordance with the Jefferson Parish Ordinances and Terms and Conditions. The successful bidder will be responsible for removal of thermoplastic pavement markings that fail to meet the results listed in table 4, at no additional charge to Jefferson Parish.

Question # 2:

On Items 44 & 45, installation of retroreflective raised pavement markers the specification states that the contractor will be required to utilize a 5" x 5", 125 mil preformed thermoplastic bundy pad to install the

markers, would Jefferson parish consider allowing the utilization of other products such as bituminous adhesive to install the raised pavement markers?

Answer:

Yes, alternate products to install the raised pavement markers is acceptable.
