Product Details

The MT 700 is an all brass 7 piece deluxe torch kit. The primary torch tip, delivers a fine concentrated flame for pinpoint heating. The kit contains an alternate brush flame tip and orifice for broader less direct heat application. An all brass flame spreader can be used to create the widest style flame when needed. All components, including a spark lighter with extra flint renewals, can be stored in the custom injected molded carry case. One 14.1 oz disposable propane fuel cylinder is included.

- Brass pencil tip burner
- Replaceable orifice
- Adjustable flame knob for economy and control
- Solid brass valve body for durability
- Concentrated flame for pinpoint heating
- Brush flame tip delivers a lapping or feathered flame for broader heating
