The Best Infrastructure

At USA Medical Supply we deliver products efficiently and effectively worldwide. We pride ourselves on the relationships we are building daily with first responders, medical clinics, hospitals, globally. We are a USA Florida incorporated company committed to providing the best quality products at the most affordable pricing.

What We Do

USA Medical Supply has been in business for over five years supplying surgical masks, gowns and other medical surgical instruments, equipment and supplies to merchant wholesalers in the United States.

Most of the gowns and surgical masks delivered by USA Capital Fund

LLC are currently being used in most of the hospitals in the United States. Since January 2020 USA Capital Fund LLC has delivered over 33,000,000 gowns and masks to US suppliers, the Federal government and directly to individual states. Recently USA Capital Fund LLC has been modified onto a FEMA contract to help a struggling prime contract

with their deliveries. USA Capital Fund LLC, is unique in that they own production lines at five surgical mask factories and three of the top gown manufacturers in the world and can produce any mask or gown to any specification as needed and have them delivered in a very short period of time. USA Medical Supply will also fully fund, finance and receive payment post-delivery for any large size government award or emergency procurement purchase orders on behalf of awardees.

Eli Rouimi, CEO USA Medical Supply

With zeal to remain the most successful entrepreneur and achieve an unparalleled success, Eli works a minimum of 75 hours a week. In the most recent years, Eli started a contact lens clinic, “The Miami Contact Lens Institute” in Miami focused on scleral lenses and custom made contact lenses for ophthalmologists. In the light of the coronavirus, USA Medical Supply was born to help and aid first responders, hospitals and governments with manufactured face masks, gowns and protective body gear. Eli Rouimi has excellent skills and expertise in internet marketing and as far as vacation rentals is concerned, Rouimi makes sure that every listing stays at the top of all search engines and sees to it that customer service remains a true priority. Eli Rouimi spends his winters in his old hometown in Canada as a ski instructor and continues to compete in downhill competitions from time to time. His expertise in web marketing plays a crucial role in helping his business stay on the top, always. Mr. Rouimi is a philanthropist too and has always prioritized on helping others. He is providing financial

aid to various humanitarian organizations along with free meals to families across The United States and Israel.

2020-2021 Product Catalog

Section I: Gowns

CPE Disposable Isolation Gown

USA Medical Supply's CPE gowns are made from lightweight, breathable, comfortable and odorless chlorinated polyethylene. Gowns have no stimulus to skin while still keeping a high structure strength. CPE gowns have excellent tensile, tear and abrasion resistance to provide a reliable barrier to water, steam, blood, and other fluids. All CPE Gowns are Made of 100% virgin PE that can prevent and isolate dust particles and bacteria.

N95 9500 NIOSH Respirator Mask

Makrite® 9500 Comfort Series is designed to protect workers from exposing to solid substances free of oil. The cone style of N95 mask is the most widely used mask in all work environments. These models have been designed to easily meet NIOSH's stringent approval requirements for breathing resistance and filtration efficiency.

Standards

This product has been tested and meets the NIOSH standards of N95. The main performance tests in this standard are:

- Filter Penetration
- Breathing Resistance

Product Details

- Manufacturer: Makrite
- Sizes: Medium and large
- Filtration Rate: >95%
- TC Number: 84A-5411
- Models are cleared by FDA for use as a surgical N95 Respirator
- FDA 510(k): K020474
- Adjustable aluminum nose clip
- Ultrasonic welded head-straps

Shipping and Storage

Packaging: 20 masks per pouch. Respirators have a shelf life of 3 years. End of shelf life is marked on the packaging. Product should be stored in clean, dry conditions. When storing or transporting this product original packaging provided.

N95 Particulate Respirator with Exhalation Valve

Makrite 9500V-N95 has the same high performance respirator as our no. 9500-N95, but with an exhalation valve to make it easier to breathe through in hot or humid work conditions. Makrite's unique exhalation valve offers maximum inhalation protection while providing minimal exhalation resistance. This feature and all those of our standard no. 9500-N95 combine to offer the proper fit and durability. Special featured welding elastic which is an alternative choice for head strap.

Standards

This product has been tested and meets the NIOSH standards of N95. The main performance tests in this standard are:

- Filter Penetration
- Breathing Resistance

Product Details

- Manufacturer: Makrite
- Sizes: Medium and large
- Filtration Rate: >95%
- TC NIOSH Approval TC-84A-5460
- Models are cleared by FDA for use as a surgical N95 Respirator
- FDA 510(k): K020474

Shipping and Storage

Packaging: 20 masks per pouch. Respirators have a shelf life of 3 years. End of shelf life is marked on the packaging. Product should be stored in clean, dry conditions. When storing or transporting this product original packaging provided.

Section III: Protective Ware

Face Shield

Double side anti-fog, anti-static, no-glare lens All straps can be sonically welded or secured to the shield with an eyelet for safety. Vented foam design for increased air flow and comfort. Sonically welded band gives the face shield added strength and reliability. Available in both elastic band and adjustable Velcro band. Lightweight and comfortable to wear, quick and easy to don. Excellent protection against potential contamination from blood pathogens, body fluids, or harmful chemical splash. Hypoallergenic foam band can absorb sweat and provide enough room for eye glasses or safety goggles.

Product Details
