QUOTATION/ORDER SUMMARY

DATE: 12/12/2022
SID #: 30082654
QUOTE #: 168778-1

PRESENTED TO:

SOUTH CAMERON MEMORIAL HOSPITAL
5360 W CREOLE HWY
CAMERON, LA. 70631

AQ/LIGHTNING/V10.000

AQUILION LIGHTNING WHOLE BODY CT SCANNER (NOT FOR OSHPD CALIFORNIA)

PROMOTION

- **ADVANCED IMAGING (AI) PACKAGE PROMOTION FOR AQUILION LIGHTNING**
The Advanced Imaging (AI) Package promotion allows customers purchasing a new Aquilion Lightning to receive AiCE included at no additional charge, valued at \$150,960. This promotion expires December 31, 2022.

SPECIAL INFORMATION & TERMS

- If this quotation is not accepted by December 30, 2022, Canon Medical Systems USA, Inc. reserves the right to cancel this quotation.

This quotation shall remain valid until December 30, 2022.

All prices are F.O.B. destination.

Payment terms are: Cash - 10% down payment, 70% upon shipment, 20% net 30 days upon completion of installation and/or availability for first use, whichever is earlier.

Please return signed quotation to Canon Medical Systems USA, Inc. by email OrderAdmin@us.medical.canon or fax 714-441-9320.

FINANCE OPTIONS:

Finance options are available through Canon Medical Finance USA, a program of Canon Medical Systems USA, Inc.

CANON MEDICAL FINANCE USA OFFERINGS:

- Fair Market Value, \$1.00 Buy Out (Lease to Own), and Loan structures
- Finance terms ranging from 12 months to 84 months
- Financing for 3rd party assets (including, but not limited to leasehold improvements & I.T.)

CANON MEDICAL FINANCE USA BENEFITS:

- No progress payments. Payments begin after delivery and installation
- Upgrades to the current technology platform can be financed.
- Flexible finance structures, such as deferred payments, tiered repayments, and bridge financing, to meet cash flow needs

Finance options are subject to credit underwriting, approval, and a fully executed contract.

For more information, please contact Trish Malone, Sr. Dir. Financial Programs at:

tmalone@us.medical.canon or visit us at <https://us.medical.canon/service-and-support/financial-programs/>

AQ/LIGHTNING/V10.000**AQUILION LIGHTNING WHOLE BODY CT SCANNER (NOT FOR OSHPD CALIFORNIA)**

The Aquilion™ Lightning 40/80/160 is an open 78 cm bore scalable CT scanner with Adaptive Iterative Dose Reduction 3D Enhanced (AIDR 3D enhanced), is built and designed to include some of the premium end features included on Aquilion Genesis technology. Aquilion Lightning includes best-in-class, 0.5 mm detector elements and ^{PURE}VISION technology to provide sharp images with low exposure dose. Additionally Aquilion Lightning includes Single-Energy Metal Artifact Reduction (SEMAR) that reduces metallic artifacts in CT scans on patients with metal implants.

Aquilion Lightning consistently achieves excellent image quality with high-contrast resolution of 0.31 mm. Adaptive power management with system standby mode and detector power-save feature helps reduce daily operating costs. The system's small footprint minimizes installation down time and reduces need for costly siting renovations.

Single-Energy Metal Artifact Reduction (SEMAR)

SEMAR utilizes a sophisticated reconstruction algorithm to reduce artifacts caused by metal while improving visualization of the implant, supporting bone and adjacent soft tissues* for accurate imaging. SEMAR can be retrospectively applied to a routine low-dose scan, including volumetric and helical scans, combined with AIDR 3D Enhanced to achieve the best possible image quality without the need for additional exposure dose or a dedicated scan procedure. We will include SEMAR with each system as a value add. SEMAR is normally valued at \$50,000.

** Bone structures near the metal-tissue interface may become distorted. Metal artifacts may not be completely removed in areas near the metal material.*

Comparison with the original images is suggested when performing diagnosis using SEMAR images.

Efficient Workflow with Patient Comfort

The Aquilion Lightning boosts productivity with fast scan times and image reconstruction times of up to 50 images per second with AIDR 3D while offering comfort features such as the wide bore (78 cm) and large table capacity (660 lbs.) for patients of all sizes.

Dose-Reduction Features

Aquilion Lightning reinforces the guiding principle of ALARA for every patient. To achieve this, Aquilion Lightning has an array of adaptive and integrated dose-reduction strategies that are implemented at every stage, from patient registration to image reconstruction. In addition, patient dose

reduction is integrated into the protocol software, so it activates prior to turning on the x-ray beam.

Adaptive Iterative Dose Reduction 3D (AIDR 3D Enhanced)

AIDR 3D Enhanced is the fourth generation in the evolution of Aquilion's dose reduction technology. AIDR 3D Enhanced is an iterative algorithm intended to reduce pixel noise from the original data, the results analyzed, and the process repeated until the target level of noise-reduction is achieved. This iterative algorithm is excellent in reducing background noise while preserving diagnostic information compared to non-iterative approaches.

AIDR 3D Enhanced can be integrated into all acquisition modes for routine clinical use and is able to reduce pixel noise magnitude in a way that may result in dose reduction.

SUREkV

Auto kV can be set for protocols using SUREExposure™, and the effective kV will be automatically selected based on patient size and SUREExposure settings.

SUREExposure 3D (x, y, z automated mA modulation software)

SUREExposure 3D software automatically adjusts the mAs based on patient anatomy to adapt to and compensate for changes in attenuation level. Combined with SUREExposure, SUREkV and AIDR 3D Enhanced, this has the potential to reduce CT patient dose depending on the clinical task, patient size, anatomical location and clinical procedure.

NEMA XR 25, XR 26 and XR 29

Aquilion Lightning meets the National Electrical Manufacturers Association's (NEMA) Medical Imaging & Technology Alliance (MITA) standards XR 25, XR 26 and XR 29.

- MITA XR 25 Computed Tomography Dose Check
 - Includes dose alerts and allows facilities to set dose notification values.
- MITA XR 26 Access Controls for Computed Tomography: Identification, Interlocks, and Logs
 - Provides access control ensuring only authorized operators can alter controls of the CT equipment.
- MITA XR 29 Standard Attributes on Computed Tomography (CT) Equipment Related to Dose Optimization and Management
 - Smart Dose standard bundles four important features to ensure that equipment produces high-quality diagnostic images while supporting patient safety:
 - DICOM Structured Reporting
 - CT Dose Check
 - Automatic Exposure Controls,
 - Pediatric and adult reference protocols.

Components

- Large open 78 cm bore , slip-ring gantry
- 50.4 kW x-ray generator and tube (effective 112 kW max. equivalent with AIDR 3D)
- Ergonomic and scalable patient couch
- Microsoft Windows 10 operating system
- Ergonomic operator controls
- 3D and 4D software for display console
- High-capacity hard disks
- Image data transfer link
- Custom patient table pad and positioning accessories
- Operator manuals and quality-assurance phantoms

KEY FEATURES**Routine Fast Scanning**

The Aquilion Lightning is capable of acquiring up to 80* unique rows and reconstructing up to 160* unique slices with every helical rotation of the gantry and incorporates a host of ergonomic and automated features to streamline examinations and deliver the highest quality images while lowering radiation dose. Aquilion Lightning also achieves consistently excellent image quality with high-contrast resolution of 0.31 mm.

*Option

Optimal Space Utilization

The Aquilion Lightning has only four main components: gantry, couch, console and transformer. The recommended minimum CT room size is only 9.8 square meters with the compact 450 lb. couch.

SURE Technologies

Improve workflow with real-time imaging, which provides the ability to view a scan at 12 frames per second (512x512) during the acquisition. This allows the operator to rapidly assess if additional images are needed.

The following are standard features on Aquilion Lightning 40/80/160:

- ^{SURE}Exposure – Dose modulation based on scanogram
- ^{SURE}Start – Real-time contrast detection at 12 fps. With ^{SURE}Start there is no need to perform a timing bolus, saving up to 30 cc's of expensive contrast.

Automatic Bone Removal

Aquilion Lightning incorporates automated bone removal algorithms to quickly and accurately segment bone in CT angiography examinations. In just a few seconds, high-quality angiographic images are available for diagnosis.

Easy Operation

Aquilion Lightning is easy to operate using the 19-inch LCD monitor, mouse and ergonomic keyboard. Scan automatically by programming procedures with eXam Plan and vocal instructions through VoiceLink™.

EQUIPMENT COMPONENTS**eVolution Gantry with iStation**

The Lightning eVolution Gantry possess many work flow advantages from the iStation to the gantry controls that are accessible from the gantry or the scan console.

iStation

The iStation is a 12-inch LCD screen that uses video and voice prompts to ensure patient compliance during scanning. This is especially useful during pediatric scanning as the iStation displays a video of a small child that tells the patient when to raise their arms, when to hold their breath, and so on. These child-friendly instructions, coming from a child figure helps assure patient compliance.

eVolution Gantry

- Hybrid slip-ring technology conserves unused electricity
- Gantry tilts ± 30 degrees
- Large aperture: 78 cm
- Two scan fields of view
- Wide range of scan times provides greater flexibility for optimal image quality

Console – Acquire and Display

- Powerful, ergonomic console computer handles display, image feed, filming and transferring multi-planar reconstructions with the same interface used for axial images.
- InstaView - Full matrix real-time image review
- Capable of scanning, retrieving, archiving and filming using the optional second console. This is a genuine multi-tasking system for multi-slice and volume data sets.
- Powerful reconstruction tower with CPUs and hard drives with RAID 5 controllers.
- Includes user-friendly keyboard, mouse, monitor, CPU cabinet/reconstruction enclosure.

HeliCool™ X-ray Tube

This compact, high-performance tube is designed to minimize tube-cooling delays with heavy patient loads at all scan times. It was built on the proven, anode-grounded, MegaCool tube technology used on every Aquilion multi-slice CT.

Other features include:

- Dual focal spots
- Anode capacity of 5 MHU
- Dissipation rate of 864 kHU per minute maximum

PURE ViSION Detectors and DAS

- Unique ceramic, solid-state detector array and DAS
- Ultra-fast DAS to acquire large-volume data
- Solid-state detector array totaling 71,680 0.5 mm detector elements

System	Axial/ Vol. Slices	Helical Slices
Aquilion Lightning	40, 80*,160*	40, 80*, 160*
*Slice values are based on one rotation and the Aquilion ONE coneXact Double Slice technology (Axial/Vol.) and 0.5mm slice x 0.25 mm increment for helical scans.		

High-Power Generator

Robust, high-voltage circuits generate 50.4 kW of power (Effective 112 kW max. equivalent with AIDR 3D), providing support for the 5 MHU X-ray tube.

Multiple kV Selections: 80, 100, 120 and 135 kV.

HELICAL SCAN & FUNCTIONALITY

MultiView

Built into protocol for fast multi-planar reconstruction in batch mode specifically for multi-slice data sets. Coronal, sagittal and axial images are created and displayed for immediate viewing.

3D Imaging on Console

Provides excellent image quality with surface-shaded renderings and volume-rendered 3D images. Provides zooming and panning over the 3D surface and performs distance measurements.

Other features include:

- Easy 3D
- Automatic Bone removal
- Maximum intensity projection (MIP)
- Minimum intensity projection
- Intensity volume rendering

Quantitative Analysis

- Profile display of CT numbers along a selected line in the axial plane
- Distance measurement and display
- CT number display

- Histogram display

eXam Plan Protocols

- 600+ eXam plan protocols that can be adjusted while scanning
- Four preset reconstructions

Archiving

- Can be automated with each eXam plan
- Raw data and image data can be protected to prevent deletion

Filming

- Auto filming can be set as part of the eXam plan
- Images are displayed in 512x512 or 1024x1024

CUSTOMER CARE SERVICES

Developed with customer input, our innovative support programs have resulted in increased customer satisfaction. These include the following:

InTouch Center®

This centralized service facility provides applications and service support for customers 24 hours a day, seven days a week. InTouch Center service is provided at no charge for equipment under warranty or a service agreement. Service is available for customers without service agreements or warranty coverage at the hourly rate established at the time of the call.

InnerVision™ Plus

Remote system diagnostics are available around-the-clock to help identify problems and provide potential solutions before care is interrupted or an engineer can arrive. InnerVision Plus is included at no charge and connected while any CT is under warranty, or any service agreement including Full Service, In-House Support, Partnership and/or VISN Master Service Agreement

InTouch Agreements

Based on customer needs, InTouch customer agreements can range from an a-la-carte approach to full-security agreements that provide complete system protection.

Technical Assistance

Customer support specialists are available 24/7 to help resolve technical issues in real time. Application support specialists are also available to assist staff with protocol and image-quality issues.

Local Customer Teams

A single call mobilizes a local team of customer engineers. With an average of 10 years of experience and 105 hours of specialized training, they can resolve almost any performance issue.

CANON MEDICAL SYSTEMS USA, INC.

Made For life

Parts Support

A complete inventory of product parts is ready for shipment when and where they are needed, any time of day or night.

COMPONENT SUMMARY:

PART NUMBER QTY DESCRIPTION

1 NO - CALIFORNIA HCD STICKER REQUIRED

PARKED-BASE 1 **[KIT] AMST 42 FOOT PARKED UNIT WITH NO GENERATOR (BASE CONFIGURATION)**

The AMST 42-foot mobile base configuration, without generator, includes electronically deployed dual slide-outs that provide a single exam room and a separate changing room with curtain. The exam room window has automatic fogging capability for added privacy, as needed. The roof is heated, and the trailer is insulated to provide barrier to heat, cold and noise.

Patients can access the trailer utilizing aluminum stairs or by utilizing the patient lift with handrails, complimented by an awning, that provides easy access with limited protection from the elements.

Other amenities and features include:

- Fire Suppression System including fire detection system
- Code Blue and Nurse Call button
- Portable sink
- Single piece vinyl flooring throughout entire trailer
- Solid surface countertop in control room
- Sound reducing ceiling panels to include A/C louvers for proper dispersion of air flow
- Lighting controls located in each room, dimmable surface mount LED lighting throughout
- Manual folding floor
- Two (2) Phone, fax, and two (2) CAT 6 data connections
- Main 480 Volt AC disconnect for system
- Electrical distribution panel
- 480- volt, 3 phase, 150 AMP Power configuration
- 50' shore power cable
- 12 volt DC battery and charger/inverter provided
- DC power supply in belly box area along with another power supply for the battery charger
- Phase indicator light
- Interior emergency lighting installed if the unit has lost power.
- One (1) 5 Ton HVAC Unit
 - Merv 14 air filtration, replaceable air filters for regular maintenance
- Humidifier with 30 Gallon reservoir
- Fire extinguishers, hand-held ABC all purpose, located in Scan Room
- Steel combination Lockbox mounted on the front of the trailer for key storage
- Two (2) underbelly compartments

- 3rd party FGI compliant inspection
- Documentation Package
- Site Planning Guide to be provided as needed
- External customer graphics optional

Radiation Protection/ Lead Shielding per ALARA include:

- Lead glass window between the Scan Room and Control Room
- Lead door between Scan Room and Control Room.

Overall Trailer Dimensional Specifications

- **Overall length** 504" (42')
- **Overall Height** 162" (13'-6")
- **Overall Width** 102" (8'-6")
- **Max. overall height** 162" (13'-6")

NOTES:

Transportation to any site in continental USA. Driver will level the unit, plug unit in to shore power, set up stairs, and turn unit over to Canon FE prior to departure

STATUTORY AND REGULATORY REQUIREMENTS:

It is the responsibility of the purchaser to understand all compliance and code regulations that may govern this vehicle at the sites in which it will operate.

CTH-07A/1B

- 1 **MOBILE CT KIT FOR LIGHTNING 80 (TSX-036A/1, 4)**
This kit enables Aquilion Lightning 40-80-160 CT systems to be installed in a vehicle as a mobile CT scanner.
- 1 **[KIT] AQUILION LIGHTNING 40 WITH HIGH CAPACITY EXTENDED PATIENT COUCH OPTION**
- 1 **CT SCANNER AQUILION LIGHTNING HIGH CAPACITY EXTENDED PATIENT COUCH**
- 1 **ACCESSORY KIT FOR LIGHTNING HIGH CAPACITY EXTENDED PATIENT COUCH**
- 1 **PHANTOM, IMAGE QUALITY**
Measures CT image quality to ensure compliance to Canon Medical Systems standards for:
 - High-contrast resolution
 - Low-contrast resolution
 - Slice thickness
 - Noise

- Contrast scale
- 1 **DESK,48X30X29"**
 - 1 **MULTIFUNCTION TASK CHAIR WITH ARMS**
 - 1 **DVD-R 4.7 GB 10 PACK SLIM CASE**
 - 4.7 GB
 - 1 **NON-CORROSIVE FLOOR LEVELING EPOXY KIT**
 - 1 **DICOM 3 STORAGE SERVICE CLASS PROVIDER (SCP)**
 - Exchanges DICOM 3.0 compliant image objects on a network
 - Allows the system to perform functions requested by a Storage Class User (SCU) device
 - 1 **DICOM 3 PERFORMED PROCEDURE STEP SCU**

In combination with COT-32D (MWM), MPPS provides notification of the start and end of the examination back to an RIS that supports DICOM MPPS (SCP). Exam record and patient information can also be sent to the RIS.
 - 1 **DICOM 3 QUERY/RETRIEVE SCP**
 - Allows a Storage Class User (SCU) to query the SCP device
 - Enables user devices to retrieve patient, study, series and/or image information in conformance with the DICOM 3.0 standard
 - 1 **DICOM 3 MODALITY WORKLIST MANAGEMENT (MWM) SERVICE CLASS USER (SCU) SYSTEM**

Allows the CT system to obtain details of patients and scheduled examinations electronically from the HIS/RIS system, avoiding the potential mistakes of manual entry.

Note: This option does not include a DICOM gateway for the HIS/RIS system.
 - 1 **PRESENTATION OF GROUPED PROCEDURES (PGP) AND EXAM HARD SPLIT**

PGP is an Integrated Health Enterprise (IHE) standard designed specifically with multiple examination orders (Requested Procedures) that can be performed in a single CT examination.

 - Provides preset and automatic transfer solutions for multiple exams from a single CT exam.
 - Facilitates clinical viewing of images and reporting of individual requested procedures.
 - Use with PACS systems that are IHE PGP compliant.

- Use the study split option for PACS systems that are not yet IHE PGP compliant to physically split images into multiple examinations.

1 DICOM 3 QUERY/RETRIEVE SCU AQ/MP

Allows a device to initiate a request for patient, study, series and/or image information from the provider device in accordance with the DICOM 3.0 standard.

1 DICOM 3 STORAGE COMMITMENT SCU SOFTWARE

Verifies image transfer and storage.

- Allows operator to determine if data is stored correctly at the PACS server, avoiding unintentional image deletion.
- Improves efficiency of image management operations.
- Provides fail-safe method to prevent image data from being deleted unintentionally even in the event of a communication failure (during image transfer or during a storage verification response).

1 COUCH FOOT EXTENSION FOR AQUILION LIGHTNING

1 50 KW GENERATOR UPGRADE KIT FOR LIGHTNING

1 AQUILION LIGHTNING AERO CONFIGURATION (40 DETECTOR, 40 SLICE)

Aquilion Lightning 40. This upgrade kit enables 40 detector row capability

Requires: Aquilion Lightning (TSX-036A) series.

1 600 MSEC GANTRY ROTATION FOR AQUILION LIGHTNING

AQ/PDU

1 POWER DISTRIBUTION UNIT

The PDU is engineered to address common power problems found in the hospital environment and to isolate the CT system components to meet IEC 60601-1 Third Edition requirements. This is important to assure optimal reliability and performance of CT systems. Customer is responsible for complying with Canon Medical Systems' site specifications for electrical power.

This device provides most of the electrical site preparation requirements of Canon Medical Systems CT systems. The PDU contains a low impedance isolation step-down transformer with a shielding plate between primary and secondary.

Voltage Conversion

Wiring costs are significantly reduced since the PDU accepts a single, 480V delta input, supplying 200V to the generator and the various other parts of the system.

Distribution

The PDU comes prepackaged with the distribution breakers needed for each system feed. Having all system breakers in one location also makes it easier for service personnel to remove power.

Installation

Installation is much faster, more predictable, and less expensive with a factory-assembled and tested system.

1 LIGHTNING STANDARD APPLICATIONS TRAINING**APPLICATION TRAINING**

Each system includes a three phase education program and the industry exclusive Performance Pro guarantee.

Performance Pro is a unique approach to education utilizing blended learning with the promise of technical proficiency and optimal productivity. If for any reason the customer is not satisfied with any portion of the training, that portion of the training will be conducted again, at no charge.

Choice of two (2) Medical Imaging Consultants self-study programs; The CT CrossTrainer and/or The CT Registry Review Program.

The CT CrossTrainer is designed to acquaint the less-experienced technologist with important CT principles, technology and clinical exams. The program consists of 6 comprehensive Study Modules that have been accredited for 17 Category A CE credits; credits are earned by passing a post test for each Study Module.

The CT Registry Review Program is designed to help the experienced CT technologist prepare to pass the ARRT's post-primary exam in CT. The course consists of 8 comprehensive Study Modules that have been accredited for 19 Category A CE credits; credits are earned by passing a post-test for each Study Module.

Phase I: Two (2) attendance vouchers for a four (4) day technologist-focused course held at the Institute of Advanced Imaging in Irvine, California. This course provides the fundamentals of operating Aquilion CT systems, including a variety of CT scans performed with the latest dose reduction techniques. This course includes in-depth lectures and hands-on training. At the completion of the course, the attendee will be proficient in the following applications and operations: basic to advanced CT imaging console use, system menus, system default scan protocols, utilization of reconstruction parameters, post-processing image data, and troubleshooting image quality. This course is all inclusive of the following: tuition, airfare (booked by our internal travel department), lodging, and meals. Accredited for CE credits by the ASRT Education Foundation.

Phase II: An initial thirty-two (32) hours, of on-site education will be provided at the customer facility following system go-live. This training is provided for up to four (4) imaging professionals including the two (2) that attended Phase I training, to focus on maximizing scanning techniques and protocols. Training is scheduled consecutively, Monday through Friday, with Monday mornings and Friday afternoons scheduled as travel time for the applications specialist. CE credits are earned by participants that attend the Phase II training event in its entirety.

Phase III: An additional twenty-four (24) hours of on-site education will be provided for the same four (4) imaging professionals, which participated in Phase II training, approximately 6-8 weeks following installation to optimize staff proficiency and system productivity.

Note: Our personnel are not responsible for scanning patients, patient safety, any actual patient contact, or operation of equipment during education sessions. We will only demonstrate proper equipment operation.

The training is offered to the Customer at no charge, providing that it is completed no later than one (1) year after the warranty start date.

Additional classroom and onsite training is available for purchase.

Applications support is available by phone on the toll-free ASSIST line, 1-800-521-1968.

1 AI ADVANCED IMAGING (AI) PROMOTION PACKAGE FOR LIGHTNING V10 (TSX-036A/7 ONLY) (NOT FOR OSHPD CALIFORNIA)
Canon Medicals' Deep Learning Reconstruction (DLR) solution supports the Advanced Intelligent Clear-IQ Engine (AiCE).

AiCE

Representing a paradigm shift in image reconstruction technology, AiCE (Advanced intelligent Clear-IQ Engine) utilizes a deep learning neural network to bring you images that are sharp, clear, and distinct. Following our company philosophy of helping you achieve the best possible healthcare outcomes for all, AiCE has now been optimized and integrated as AiCE for Lightning. AiCE is trained to reconstruct images to match the spatial resolution and low-noise properties of an advanced Model-based Iterative Reconstruction (MBIR) method and store this knowledge within layers of a neural network. Applying this knowledge during image reconstruction makes AiCE extraordinarily efficient in routinely providing high spatial resolution and low noise in CT examinations that help improve your diagnostic confidence in every patient.

- Is integrated into ^{SURE}Exposure 3D, ensuring automatic dose reduction.

CANON MEDICAL SYSTEMS USA, INC.

Made For life

Note: Not for OSHPD California.

Note: TSX-036A/7

1 AICE FOR CT

OPTIONS**LIGHT-CONUPS-
6KVA.100****[KIT] POWERVER 6KVA CONSOLE UPS FOR AQUILION LIGHTNING**

Powervar Security Plus II Series UPS 6 kVA* uninterruptible power supply and connection kit for Aquilion Lightning CT consoles.

** This product has successfully passed shake table testing requirements and is pending OSHPD pre-approval. Should pre-approval not be available prior to your OSHPD project submission the manufacturer has provided the test report for site specific approval by OSHPD to accompany your project submission.*

Pre-requisite:

- *This kit is exclusive to TSX-035A/5, /8 and TSX-036A7 ONLY.*

NOTE:

- *Seismic States require Seismic Mounting Kit option IPS-42999-09R.*
- *Pricing available when purchased concurrently with the system order. Post Point of Purchase: Additional charges may apply for construction, labor and rigging, which must be paid for by the Customer. Please consult with your local sales and service team for more information about these charges.*

PRODUCT WARRANTY AND SERVICE COVERAGE

SYSTEM WARRANTY TERMS

Canon Medical Systems warrants that the Equipment will be free from defects in material and workmanship, for the duration and subject to the terms and conditions stated below. Any part furnished to Customer during the warranty period (stated in the table below) to correct a warranty failure will be warranted to the extent of the unexpired term of the warranty applicable to the Equipment.

The warranty period will commence on the date the installation of the product is complete. Notwithstanding the foregoing, in the event that the installation of the product is delayed for a total of thirty (30) days or more from the date of delivery for any reason or reasons for which Canon Medical Systems is not responsible, the warranty period for such product may, at Canon Medical Systems' option, commence on the thirtieth (30th) day from the date such product is delivered to Customer.

WARRANTY EXCLUSIONS

Warranty coverage does not include any defect which results, in whole or in part, from (1) negligent storage or handling of the product by Customer, its employees, agents, or contractors, (2) failure of Customer to prepare the site or provide power requirements or operating environmental conditions in compliance with any applicable instructions or recommendations of Canon Medical Systems, (3) absence of any product, component, or accessory recommended by Canon Medical Systems but omitted at Customer's direction, (4) any design, specification or instruction furnished by Customer, its employees, agents, or contractors, (5) any alteration of the product by persons other than Canon Medical Systems, (6) combining Canon Medical Systems' product with any product furnished by others that is not approved by Canon Medical Systems, (7) combining incompatible products of Canon Medical Systems, without Canon Medical Systems' prior approval, (8) improper use of the product, improper maintenance of the product by a party other than Canon Medical Systems, or failure to comply with any applicable instructions or recommendations of Canon Medical Systems, or (9) acts of God, fires, floods, strikes or other labor disturbances, or other causes beyond the reasonable control of Canon Medical Systems.

Canon Medical Systems does not warrant any products not manufactured by Canon Medical Systems such as, without limitation, monitors, cameras, computer equipment, injectors, and lasers. Such items will be furnished subject only to the manufacturer's warranty, if any, and without any warranty whatsoever by Canon Medical Systems.

Warranty coverage also excludes consumables, including but not limited to batteries, storage media, positioning pads, table pads, power units, and radioactive sources.

X-RAY TUBE WARRANTY

CT X-ray tubes are covered under a separate warranty. The CT X-ray tube included with the purchase of a new system is governed by the glassware warranty, described below, not the system warranty.

CT X-ray tubes carry a prorated warranty based on the number of rotations shown below or 12 months, whichever occurs first.

Tube Type	Prorated Warranty
CXB-750/D/4A: AQ/RXL, AQ/LB-SERIES, ASSUREPLUS-V, AQ64, AQ16, CELESTEION/PETCT	200,000 rotations*
CXB-750/E/2A: AQ/ONE/ASSURE	150,000 rotations*
CXB-750/F/2A: AQUILION-ONE-SERIES-V/4, ONE-VISION-640-SERIES-S, AQUILION GENESIS SERIES	100,000 rotations*
CXB-750G/2A: PRIME-SERIES-S, PRIME-S-CHOICE	200,000 rotations*
CXB-500B/1A: AQ/LIGHTNING	100,000 rotations*

* A rotation is any 360-degree or single rotation of the gantry with X-rays on.

CT X-RAY TUBE PRORATION CALCULATION:

Credits for CT X-ray tubes that fails during the warranty periods stated above will be calculated as follows:

Tubes with Prorated Rotation Warranty:

$$\text{Credit} = 1 - \frac{\text{Number of Rotations Used}}{\text{Number of Rotations Warranted}}$$

Complete glassware coverage during warranty period may be purchased from Canon Medical Systems at an additional charge.

REMEDIES

If Canon Medical Systems determines that any product fails to meet the above-mentioned warranty during the applicable warranty period, Canon Medical Systems will correct any such failure by either, at its option, repairing, adjusting, or replacing without charge to Customer any defective or nonconforming parts of the product. Canon Medical Systems will have the option to furnish either new or remanufactured replacement parts or assemblies. However, remanufactured parts will meet the manufacturer's specifications for new components as of the date of completion of installation. All defective parts replaced by Canon Medical Systems will become the property of Canon Medical Systems.

SOFTWARE UPDATES

Canon Medical Systems will furnish to Customer, free of charge for the life of the Equipment, all Canon Medical Systems software or hardware upgrades to the Equipment purchased by Customer, which are intended to correct a safety risk. Software updates offering enhancements to previously purchased software features will be provided during the term of the warranty, if they do not require hardware modifications or additions. Software upgrades providing new features or capabilities not originally purchased, will be made available for purchase by Customer upon request when compatible with the originally purchased hardware. Canon Medical Systems retains the sole right to determine whether a software release is considered an update or an upgrade for which Customer will be charged. The above items will be performed only during the Covered Hours stated in the warranty. Service required outside these hours will be billed at Canon Medical Systems' differential rates in effect at the time such items are provided to Customer.

WARRANTY SERVICE

Warranty service during the applicable warranty period will be performed without charge to Customer during Canon Medical Systems' normal business hours, Monday through Friday, excluding Canon Medical Systems holidays. Subject to the availability of personnel, after-hours service is available upon request at an additional charge.

Customer must promptly notify Canon Medical Systems within the applicable warranty period of any defect that is covered by the warranty, and make the Equipment promptly available for repair and maintenance.

DISCLAIMERS AND LIMITATIONS ON LIABILITY

Canon Medical Systems' obligations stated above will be Customer's sole and exclusive remedy for a breach of the warranty set forth above. SUCH WARRANTY WILL BE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Canon Medical Systems does not warrant that the operation of the Equipment will be uninterrupted.

ITEM TYPE	COMPUTERIZED TOMOGRAPHY
EQUIPMENT	12 Months
ACCESSORY OPTIONS	6 Months
REPLACEMENT & OPTIONAL PARTS*	90 Days
UPGRADE COMPONENTS	90 Days

* The above 90-day period applies only to parts that are not furnished pursuant to a warranty repair for the Equipment. Any part furnished to Customer during the warranty period to correct a warranty failure will be warranted to the extent of the unexpired term of the warranty applicable to the System.

TERMS AND CONDITIONS OF SALE

1. **TITLE AND RISK OF LOSS.** Title and risk of loss to the Equipment purchased under this Agreement will pass to Customer: (a) if Canon Medical Systems is to provide installation, upon Canon Medical Systems' completion of installation, or (b) if Canon Medical Systems will not provide installation, upon delivery by Canon Medical Systems to Customer.

2. **TERMS OF PAYMENT.** Prices stated are F.O.B. Customer's facility. All taxes which are payable by Canon Medical Systems in connection with the sale, use, or possession of the Equipment (excluding income taxes), will be paid by Customer in addition to the quoted price. Terms of payment will be as stated in the first page of this Quotation. All invoices paid after due date will be assessed a late payment charge of the lesser of 1 1/2% per month or the maximum rate permitted by law.

3. **DELAYS.** If Customer changes the scheduled delivery date during the period of 120 days preceding the delivery date, Customer will nevertheless pay the installment of the purchase price which would have been payable upon delivery, on the Scheduled Delivery Date as if delivery had been made on such date. In addition, Customer will pay all extra costs incurred by Canon Medical Systems as a result of such delay, including, without limitation, storage and transportation. Storage fees will be charged at commercially comparable rates for storage on Canon Medical Systems' site. If delivery is delayed by 12 months or more from the Scheduled Delivery Date, except through the fault of Canon Medical Systems, the price set forth in this Agreement may be increased by Canon Medical Systems to a level equal to the prevailing price in effect at the time of the revised delivery date.

4. **EQUIPMENT INSTALLATION.** Canon Medical Systems will provide, at no additional cost, standard labor and rigging services to unload the Product from the transport vehicle and move to the final position. The shoring of floors, the widening of doorways, and other nonstandard rigging requirements will be negotiated between the Canon Medical Systems and Customer separately if it is determined they are required. Canon Medical Systems will install all Equipment purchased under this Agreement and connect them to existing power and/or plumbing lines at no additional charge to Customer. Customer will be responsible for electrical wiring, plumbing, carpentry, plastering, painting, or all other site preparation required prior to installation and connection of the Equipment by Canon Medical Systems. Customer will provide space at the installation site for the safe storage of Canon Medical Systems' tools, test equipment and other materials used for installation at no charge to Canon Medical Systems. Customer shall, at its cost, obtain all permits and licenses required by governmental authorities in connection with the installation and operation of the Equipment. Customer acknowledges that the System and Software are designed to operate within certain power, temperature, airborne contamination, and humidity ranges. Customer will be responsible for, without limitation: (i) preparing and maintaining the Customer facility in conformance with the Site Preparation Guide; (ii) maintaining its network infrastructure; (iii) providing Canon Medical Systems, access to a network connection in or near the area of the System being serviced by the equipment service staff; and (iv) supplying computer grade AC power. The Equipment relies upon a stable grounded connection to the main power grid in order to function effectively. Customer acknowledges that AC power supply quality may be a problem in old facilities or in those facilities receiving poor quality utility service and that power conditioning may be necessary in such cases.

5. **EQUIPMENT OPERATION.** Customer agrees that all Equipment purchased under this Agreement will be operated exclusively by duly qualified technicians and/or medical doctors in a safe and reasonable manner in accordance with Canon Medical Systems' written instructions, applicable laws and regulations, and for the purposes for which such Equipment was intended.

6. **LIMITED WARRANTY AND REMEDY.** A. For the warranty period described below by product, Canon Medical Systems, as its only obligation, will replace or repair, without charge to Customer during Canon Medical Systems' normal working hours (if Customer requests warranty service outside such hours, Customer will pay overtime premium for labor), any component of the Equipment that is defective in materials or workmanship, provided such defect is reported to Canon Medical Systems within the warranty period. Canon Medical Systems' warranty period is as follows: (a) Systems and Major Components - one year from date of completion of installation; (b) Accessories/Options (except glassware) - six months from date of completion of installation. Components not manufactured by Canon Medical Systems will be furnished subject only to the manufacturer's warranty, if any, and without any warranty whatsoever by Canon Medical Systems. During the warranty period, Canon Medical Systems will furnish free of charge any parts, including software required to correct any defect in the Equipment or as required under applicable laws.

B. Canon Medical Systems does not warrant that the operation of the Equipment of the System will be uninterrupted. All defective parts replaced by Canon Medical Systems will become the property of Canon Medical Systems. Replacement parts may be re-manufactured. However, such parts will meet the manufacturer's specifications for new components as of the date of completion of installation. CANON MEDICAL SYSTEMS' OBLIGATION TO REPAIR OR REPLACE DEFECTIVE PARTS OR SOFTWARE WILL BE CUSTOMER'S SOLE AND EXCLUSIVE REMEDY FOR A BREACH OF THE WARRANTY SET IN THIS AGREEMENT. SUCH WARRANTY WILL BE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. The warranty set forth in this Agreement will not apply to, and Canon Medical Systems will not be liable for any defects resulting from misuse, repairs performed by unauthorized third parties, accidents, acts of God, or neglect of anyone other than Canon Medical Systems.

7. LATEST HARDWARE AND SOFTWARE AT TIME OF DELIVERY.

Canon Medical Systems agrees that the Equipment ordered by Customer will, at the time of delivery to Customer, contain, at no additional charge to Customer, the latest hardware and software manufactured by Canon Medical Systems for such Equipment that are commercially available in the United States and which are provided as part of Canon Medical Systems' standard configuration for such Equipment at the time of delivery. This commitment applies only to components and not an upgrade to the entire system. Furthermore, it is limited to hardware and software that (a) have been ordered by Customer, and not any optional or other items that were not ordered by Customer, and (b) are cleared by the FDA as of the date of delivery of the Equipment. This clause does not apply to Assure, Demonstration or Used Equipment.

8. LIMITATION OF LIABILITY. A. NEITHER CANON MEDICAL SYSTEMS NOR CUSTOMER WILL UNDER ANY CIRCUMSTANCES BE LIABLE FOR CONSEQUENTIAL, SPECIAL, INCIDENTAL, OR EXEMPLARY DAMAGES OR ECONOMIC LOSS ARISING OUT OF OR RELATED TO THE TRANSACTIONS CONTEMPLATED IN THIS AGREEMENT, EVEN IF EITHER PARTY IS APPRISED OF THE LIKELIHOOD OF SUCH DAMAGES OCCURRING.

B. IN NO EVENT WILL CANON MEDICAL SYSTEMS' LIABILITY TO THE CUSTOMER (WHETHER BASED ON AN ACTION OR CLAIM IN CONTRACT, TORT, INCLUDING NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE) ARISING OUT OF OR RELATING TO THE TRANSACTIONS CONTEMPLATED IN THIS AGREEMENT EXCEED THE AGGREGATE AMOUNT ACTUALLY PAID BY CUSTOMER TO CANON MEDICAL SYSTEMS UNDER THIS AGREEMENT. THE LIMITATION OF LIABILITY SET FORTH ABOVE WILL NOT APPLY TO CLAIMS FOR PERSONAL INJURY OR PROPERTY DAMAGE CAUSED BY EQUIPMENT DEFECTS.

9. SECURITY INTEREST. Canon Medical Systems hereby reserves and Customer grants to Canon Medical Systems a security interest pursuant to the Uniform Commercial Code, in and to the Equipment (and all products and proceeds of it) until full payment of the purchase price is received. In the event that Customer finances its acquisition of the Equipment through a lease, conditional sale contract, secured loan agreement or other financing agreement (collectively, "Lease") with Canon Medical Systems, then the security interest in the Equipment (and all products and proceeds thereof) shall secure all obligations of Customer due and to become due under the Lease.

10. REMOVAL OF EQUIPMENT. Until Canon Medical Systems has received full payment of the purchase price, Customer will not remove all or any part of the Equipment from Customer's premises, nor will Customer sell, lease, transfer or otherwise part with the possession of, or permit any lien or encumbrance to be placed on all or any part of the Equipment.

11. TRADE-IN. If this quotation includes the trade-in of Customer's existing equipment and the removal date of the trade-in equipment is delayed due to no fault of Canon Medical Systems or if the trade-in equipment is damaged or its condition deteriorates from the date of this quotation through the date of removal, Canon Medical Systems reserves the right to increase the pricing of the new equipment in an amount equal to the reduction in the resale price of the trade-in equipment. Customer must convey free and clear title to the trade-in equipment. If there are any liens or encumbrances on the trade-in equipment, Canon Medical Systems cannot accept the trade-in.

12. REMEDIES OF CANON MEDICAL SYSTEMS. If Customer fails to make any payment when due under this Agreement, or becomes insolvent or makes an assignment for the benefit of creditors, or if a petition in Bankruptcy is filed by or against Customer, or if the financial responsibility of Customer becomes impaired, or if Customer otherwise breaches any of the terms and conditions of this Agreement, then Canon Medical Systems may, without prior notice or demand, defer shipments, cancel the balance of the order, suspend performance of any obligation (including without limitation, all obligations set forth under Limited Warranty And Remedy above), and/or take immediate possession of the Equipment delivered, until the full purchase price of the Equipment is paid by Customer or, at Canon Medical Systems' discretion, until security satisfactory to Canon Medical Systems is given by Customer. Any costs incurred by Canon Medical Systems as a result of suspending performance or repossession or collection will be payable by Customer. Canon Medical Systems may sell repossessed Equipment with proceeds to be applied to unpaid balance and expenses incurred in sale, repossession and collection. Customer will pay any remaining deficiency. Canon Medical Systems may exercise any other rights available to it by law.

13. EXCUSED PERFORMANCES. Except for Customer's payment obligations hereunder, neither party will be liable to the other for non-performance or delay in performance resulting directly or indirectly from any occurrences beyond such party's control, including without limitation, strikes or other labor troubles, acts of God, war, accidents, fires, floods, other catastrophes, inclement weather, transportation, delays caused by suppliers, or laws, regulations, or acts of any governmental agency.

14. SOFTWARE. All rights and interest in any software that may be furnished under this Agreement, and any updates and enhancements to it, will remain the property of Canon Medical Systems. Such software is being furnished to Customer under a non-exclusive license. Customer will not, or allow others to decompile, modify, copy, reproduce, or transcribe the software nor allow third parties to use the same without Canon Medical Systems' prior written consent. In the event a third party's software is furnished to Customer, Customer may be required to execute a software license agreement as requested by such third party as a condition to delivery and/or purchase of the third party's product. Canon Medical Systems will furnish Customer with a copy of such license agreement for its review and execution. In the event Customer sells the Equipment to a third party, the purchaser thereof will have the same rights and obligations with respect to any Canon Medical Systems software as Customer. Customer will need to make its own determination whether it needs to obtain any consent from a third party for non-Canon Medical Systems software. Any Canon Medical Informatics, Inc products quoted herein are conditioned on and subject to the Software License Agreement located at:

<https://us.medical.canon/download/CMI-Capital-License-Agreement> which is incorporated herein by reference.

15. CANCELLATION. Customer may not cancel the order subject to this Agreement except with Canon Medical Systems' prior written consent. In the event of cancellation without Canon Medical Systems' written consent, Canon Medical Systems will be entitled to recover liquidated damages in an amount equal to twenty percent (20%) of the purchase price of the Equipment

16. **ASSIGNMENT.** Neither party may assign any of its obligations under this Agreement without the prior written consent of the other party. However, some of the obligations stated in this Agreement, such as the ones relating to installation of items not manufactured by Canon Medical Systems and the warranty thereof may be performed by Canon Medical Systems' contractors or suppliers.

17. **EXPORT REGULATIONS.** This Agreement involves products, and/or technical data that may be controlled under the U.S. Export Administration Regulations and may be subject to the approval of the U.S. Department of Commerce prior to export. Any export or re-export by Customer, directly or indirectly, in contravention of such Regulations is prohibited.

18. **ATTORNEY'S FEES . COSTS.** In the event of any legal proceeding involving any party to this Agreement against the other relating to the subject matter of this Agreement, the prevailing party in such proceeding will be entitled to recover reasonable attorney's fees, expert fees, and court costs against the non-prevailing party.

19. **ACCEPTANCE BY CANON MEDICAL SYSTEMS.** This Quotation/Order will not be binding on Canon Medical Systems even if signed by a Canon Medical Systems' employee, until Customer's order for the Equipment is booked by Canon Medical Systems' Headquarter office.

20. **END USER CERTIFICATION.** Purchaser represents, warrants and covenants that it is acquiring the Products for its own end use and not for reselling, leasing or transferring to a third party (except for leaseback financing).

21. **ENTIRE AGREEMENT.** This quotation contains the entire agreement between the parties and supersedes all prior and contemporaneous agreements between the parties, whether oral or written, relating to its subject matter, including, without limitation, all different or additional terms and conditions which may be contained in Customer's bid documents, purchase order or any other documents furnished by Customer. The provisions of this Agreement may not be modified unless in writing and executed by both parties.
