TAYLORTEC – Hammond, LA

TLB-75 Throw Line Bag x 75 Feet

The Throw Line Bag is the best way to store throw line and deploy it quickly in an emergency. This Taylortec original was developed to help users avoid the sloppy, haphazard way that throw lines are often stored.

The line is packed in our bag in such a way so that it flows out without tangles.

The bag is made of weather resistant fabric and features a loop that can be used to hang the bag with the ring. The line we use is highly visible yellow 3/8" hollow braid polypropylene that floats and is spliced to the inside of the bag. The line leader which is outside the bag is ultraviolet light resistant black polypropylene. The label has clear instructions and indicates the amount of line inside.

1501 River Oaks Road West, Harahan (New Orleans), La 70123-2163
