As a result, some items may get lost in translation and/or the content and subsequent interpretation of content may be different than originally intended by BBA Pumps. Should there be any disputes about the content of these documents, the Dutch instructions will be viewed as the sole and original source to determine intended content and meaning of the instructions.

GENERAL

With this writing BBA Pompen & Buizen BV (BBA Pumps hereafter) declares that all products are free from defects in materials and craftsmanship. This warranty is covered by, and limited to, the conditions and stipulations provided in this warranty book.

Should any local legislation be in place that provides additional rights, over and above the rights described by the BBA Pumps International Limited Warranty, this legislation will be applicable and will prevail over the limitations of the warranty.

Any disputes arising from or in any way connected with the subject matter of the BBA Pumps International Limited Warranty book shall be subject to the laws of the Netherlands and shall be subject to the jurisdiction of the Dutch Court in Zutphen (NL) only except that BBA Pumps may seek injunctive relief outside such jurisdiction.

CHANGES IN PRODUCT and/or SPECIFICATIONS

BBA Pumps reserves the right to change standard specifications, product descriptions, pricing and application of any product produced, designed and/or sold by BBA Pumps at any time without prior written or oral notice. Any changes made to these products will not give any rights nor give rise to claims to update products sold and/or supplied previous to the relevant changes.

BEFORE FIRST COMMISSIONING

All products produced and/or sold by BBA Pumps have been extensively tested for quality and their correct functioning prior to shipment. Due to the nature of the products, the functioning of the products is directly linked to the manner in which the products are installed and/or deployed. Damages caused by faulty installation, operator error and/or mis-use of the products will not be covered by the BBA Pumps International Limited Warranty.

Any residual time of the warranty period is transferrable to subsequent owners should this be applicable. In case of repairs, the remaining period of the original warranty will apply to any component or part that was replaced or repaired under warranty. WHAT THE WARRANTY DOES COVER

The warranty covers the costs of the replacement or repair of defective parts or of obtaining equal parts – whichever creates the least cost for BBA Pumps. A faulty product under the conditions of this warranty, is defined as a product (or part thereof) that has been found to have a technical defect at the time of delivery.

All repairs done under warranty need to be done using original BBA spare parts and by a certified BBA Pumps distributor, re-seller or mechanic during normal office hours.

WHAT THE WARRANTY DOES NOT COVER

The BBA Pumps International Warranty does not cover products or parts thereof that have been damaged during transport, installation or repairs or due to faulty use, carelessness or negligence, overloading, insufficient lubrication, cavitation, normal wear and tear, faulty installation, abuse or not following the procedures as stipulated in the user manuals. Any damages caused by foreign objects being inserted into, or passed through, the pump are also not covered by the warranty. Furthermore, shaft seals and damages caused by frost, “exploding” pump casings and shaft breakages are excluded from the warranty.

In addition, modifying or altering BBA products and using parts other than the original BBA spare parts will void the warranty as a whole. This includes modifications of any software or electronic part that has altered the function, performance and/or durability of the product, or if the changes alter the original field of use (to be determined by BBA Pumps). The warranty is also void when seals are broken, settings are changed or if the product(s) have been used for purposes for which it is clearly not intended or that are in breach of legislation. The warranty does not cover any damages resulting from coupling the pump to engines, gearboxes or any other products, including but not limited to electric components, that have not been approved by BBA Pumps.

Under no circumstance will BBA Pumps provide compensation for indirect damages, subsequent damages, incidental costs or any costs resulting from these or related to these damages. Including, but not limited to, travel expenses, transport costs, costs incurred to gain access to the product(s), costs for lifting equipment, costs for replacing products (including rental costs), time lost due to the breakage, loss of income, loss of time, loss of property, personal injury or damages to anything other than the product(s) supplied by BBA Pumps.

OBLIGATIONS OF THE OWNER

The owner of the product(s) is, at all times, responsible for the correct operation, maintenance and servicing of the BBA product(s) as described in the owner's manual and this warranty book. In order to establish that the products have been serviced as per the provided instructions, the owner is required to provide a complete service history in writing for these products. This service history needs to be provided to subsequent owners (if any) for the BBA Pumps International limited warranty to be transferred.

In order for the warranty as described in this document to apply, in any form or manner, the owner is required to comply with the regulations as stated in this publication, or any other relevant document provided by BBA Pumps. Failure to comply with these regulations and prerequisites will void the warranty as a whole.

REPORTING A DEFECT

In the case that a defect is detected, it is the responsibility of the owner to stop using the product immediately, and/or decommission it. The defect shall then be reported to a BBA Pumps importer, distributor, dealer or workshop using the accompanying warranty request form within eight (8) days.

Such notifications should be made as soon as possible, and no later than eight (8) days after the date the user has noticed the defect, or should have noticed it, and therefore no later than eight (8) days after the warranty has expired.

We recommend the owner secures some evidence with regards to the date the defect has been reported, such as a copy of a letter.

The warranty request form should be filled out completely and truthfully by a BBA importer, distributor or dealer, and handed over to the BBA Pumps BV service coordinator, together with the defective product concerned and/or explicit photographs. You can find the warranty request form at the back of this booklet (or on www.bbapumps.com/warranty)

If BBA Pumps replaces spare parts/products in order to comply with the warranty obligations, all parts/products replaced will become the property of BBA Pumps. Transport costs for any products or spare parts are to be paid by the other party.

APPROVAL OF A WARRANTY CLAIM

Warranty claims can only be considered and approved by persons appointed by BBA Pumps, and only after all materials have been delivered for assessment.

Any new parts sent in advance will be delivered and invoiced according to the BBA Pumps Terms of Delivery and all payment should be made within the specified period. Any reimbursements and/or credits due after the warranty claim has been approved will be settled afterwards.
