All quantities are estimated. The contractor will be paid based upon actual quantities as verified by the Owner.

SECTION D
BID BOND

FOR

Date: February 5, 2014

KNOW ALL MEN BY THESE PRESENTS:

Terra Renewal West LLC 201 South Denver Avenue, Suite B
That dba Denali Water Solutions of Russellville, AR 72801
as Principal, and Argonaut Insurance Company _____, as Surety, are held
and firmly bound unto the The City of Thibodaux (Obligee),
in the full and just sum of five (5%) percent of the total amount of this bid, including all alternates,
lawful money of the United States, for payment of which sum, well and truly be made, we bind
ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally firmly
by these presents.

Surety represents that it is listed on the current U. S. Department of the Treasury Financial
Management Service list of approved bonding companies as approved for an amount equal to or
greater than the amount for which it obligates itself in this instrument or that it is a Louisiana
domiciled insurance company with at least an A - rating in the latest printing of the A. M. Best's
Key Rating Guide. If surety qualifies by virtue of its Best's listing, the Bond amount may not
exceed ten percent of policyholders' surplus as shown in the latest A. M. Best's Key Rating Guide.

Surety further represents that it is licensed to do business in the State of Louisiana and that
this Bond is signed by surety's agent or attorney-in-fact. This Bid Bond is accompanied by
appropriate power of attorney.

THE CONDITION OF THIS OBLIGATION IS SUCH that, whereas said Principal is
herewith submitting its proposal to the Obligee on a Contract for:

TBS Project No. 2013-0047; Sewage Sludge Removal Project

NOW, THEREFORE, if the said Contract be awarded to the Principal and the Principal
shall, within such time as may be specified, enter into the Contract in writing and give a good and
sufficient bond to secure the performance of the terms and conditions of the Contract with surety
acceptable to the Obligee, then this obligation shall be void; otherwise this obligation shall become
due and payable.

Terra Renewal West LLC
dba Denali Water Solutions

PRINCIPAL (BIDDER)

Argonaut Insurance Company

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That the Argonaut Insurance Company, a Corporation duly organized and existing under the laws of the State of Illinois and having its principal office in the County of Cook, Illinois does hereby nominate, constitute and appoint:

William T. Krumm, Sharon A. Foulk, Harold Miller Jr., M. Moody, Betty L. Tolentino, Michael R. Pesch, Jodie Sellers

Their true and lawful agent(s) and attorney(s)-in-fact, each in their separate capacity if more than one is named above, to make, execute, seal and deliver for and on its behalf as surety, and as its act and deed any and all bonds, contracts, agreements of indemnity and other undertakings in suretyship provided, however, that the penal sum of any one such instrument executed hereunder shall not exceed the sum of:

\$35,000,000.00

This Power of Attorney is granted and is signed and sealed under and by the authority of the following Resolution adopted by the Board of Directors of Argonaut Insurance Company:

"RESOLVED, That the President, Senior Vice President, Vice President, Assistant Vice President, Secretary, Treasurer and each of them hereby is authorized to execute powers of attorney, and such authority can be executed by use of facsimile signature, which may be attested or acknowledged by any officer or attorney, of the Company, qualifying the attorney or attorneys named in the given power of attorney, to execute in behalf of, and acknowledge as the act and deed of the Argonaut Insurance Company, all bond undertakings and contracts of suretyship, and to affix the corporate seal thereto."

IN WITNESS WHEREOF, Argonaut Insurance Company has caused its official seal to be hereunto affixed and these presents to be signed by its duly authorized officer on the 18th day of July, 2013.

STATEMENT OF QUALIFICATIONS

REFERENCES

Management Team

Our management team is highly trained in the areas that are critical for success in the organic residuals industry, including:

- Environmental Regulations
- Agronomy and Soil Science
- Geology
- Logistics
- Safety
- Transportation

Andy McNeill – President and Chief Executive Officer

Andy joined the company as a partner in 2002. He brings extensive senior management experience to Terra Renewal following 10 years with Arthur Andersen in Atlanta, GA, and in Europe consulting for Fortune 500 companies. Andy graduated from Auburn University with a BS in accounting, has an MBA from the University of Notre Dame, and is a CPA. As President and CEO, Andy leads the company in its success in residuals management industry.

Jonathan Hill – General Manager, Dewatering

Jonathan joined the company in 2009, after spending nine years in the organic residuals industry. Jonathan graduated from North Carolina State University with a BS in Natural Resources, Soil and Water Systems. He is a certified Land Application Operator in several states offering such certification, and has developed and implemented regulatory compliance programs for land application and composting operations throughout the Southern and Western United States. Additionally, Jonathan offers extensive experience in managing both internal and external public relations and government affairs programs for the purpose of promoting bio-solids recycling in local and state communities. He uses his extensive environmental and technical experience to assist municipalities in identifying and developing the most cost-effective, environmentally-sound approaches for management of their bio-solids.

Henry Campbell – Operations Manager

Henry joined the company in 2009 with over 20 years experience in bio-solids processing, recycling, waste management, and land reclamation. He has extensive knowledge and experience managing productive and efficient teams, planning and executing event and contract work, and well as environmental land application process knowledge. He is most proficient in centrifuge and dewatering operations, previously managing the nation's largest centrifuge dewatering project in Lake Montebello, processing over 30,000 dry tons in one year and worth approximately 20 million dollars in revenue. Henry also oversaw the nation's largest lagoon cleanout and subsequent land application program in Austin, TX. He has also managed the modification of four dewatering and lime stabilization installations in Anne Arundel County, MD. His unique expertise allows him to identify and eliminate any foreseeable operation difficulties as well as help Terra grow into new markets. He lives in Alabama and works closely

with the environmental team to ensure that all environmental laws and regulations are strictly followed in the South East Region of the United States. He holds a BS in Industrial Education from Berea College in Berea, KY.

Steve Leblanc- Director of Dewatering

Steve joined the company in 2008 with over 18 years experience in the industry. He has extensive background and knowledge of the dewatering process. Throughout his career he has gained knowledge pertaining to the design, management and installation of Centrifuges, Belt Filter Presses, Plate and Frame Presses, and Geo-Tube technology. He has managed projects of over 17 million dollars a year including managing a multi-year contract for the City of New York, Department of Environmental Protection, which included the cleaning and dewatering of 113 anaerobic digesters. Steve also has specific knowledge and experience with Dredging, Belt Press operations, and Screen Installations, having managed a full service company in Western Canada. He plays a large role in developing new target markets and technologies at Denali Water. He is responsible for the management and oversight of Denali Water's dewatering program and its operational ability and success. As Director of Dewatering he completes and advises on all lab analysis including treatability studies and extensive polymer bench testing.

Steve Hall – Vice President Sales, East Region

Steve's experience in bio-solids dates back to 1995 when he began with Synagro South in Houston, TX. Over the next 15 years, he served as Operations Project Manager and Area Sales & Business Development Manager. Since 2006, his performance in sales growth at Synagro South was outstanding, earning him top salesman of the year awards for five straight years. Steve joined Terra Renewal in 2010. Over the years, he has been a member of many State Associations, including Alabama Water Environment Association and Georgia Association of Water Professionals. Steve has also worked on numerous committees and boards in the industry, like GAWP Biosolids and Residuals Committee, Louisiana WEA, Mississippi WEA, Mississippi Board of Directors, Mississippi WEA Chair of the Biosolids Committee. He is also a 13-year veteran of the U.S. Navy.

Gabe Timby – Environmental Director

Gabe Timby joined the company in 2003. Gabe began his professional career with ADEQ as a Regional Compliance Inspector in Little Rock. He holds a B.S. in Agriculture and a M.S. in Agronomy from the University of Arkansas at Fayetteville. Gabe has been responsible for permitting land in 14 states including Tennessee, Alabama, Mississippi and Iowa. As Environmental Director for Denali Water Solutions, Gabe supervises a national staff of environmental experts who manage compliance programs for the Municipal Residuals Division.

Environmental Services

Denali Water Solutions offers comprehensive environmental services including the following processes conducted by experienced professionals:

- Investigating, sampling, and evaluating organic waste material
- Residuals Management Plan development including nutrient management planning
- Field mapping
- Permitting
- Soil sampling
- Compliance monitoring, management, and comprehensive reporting
- Liaison with regulatory agencies and political contacts including interpreting “green” trends
- Communicating with local governmental agencies, community leaders, and landowners

Environmental Compliance

Every service that Denali Water Solutions provides is regulated by environmental laws. Many of the residual types managed by Denali are governed by layers of comprehensive federal, state, and local regulation. In addition to the required monitoring and reporting submissions, our hundreds of beneficial use sites and treatment facilities are inspected by various environmental agency regulatory staff, and are under constant observation by neighbors and community leaders in the areas in which we operate. Denali truly believes that we are providing a service not only to our paying customers, but also to the environment by providing responsible, sustainable management alternatives for millions of tons of organic residuals annually. It is on this principle that we base our continued investment in a professional Environmental Services team, and we believe it is this environmental prioritization that has led to the Company’s exemplary environmental compliance record.

Safety First

Denali Water Solutions is committed to serving our customers by considering the safety of our customers, our employees and the environment in everything we do. Denali Water Solutions structured safety programs and policies are designed to track, enhance, and reward safe behavior throughout the company and quickly and thoroughly mitigate any problems or issues. We work with our customers to identify and incorporate any customer-specific policies they require.

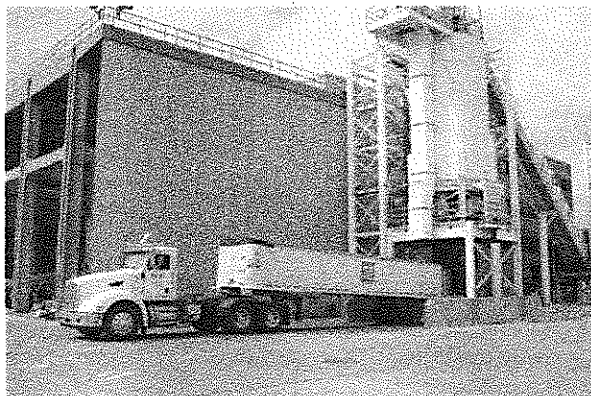

Organic Residuals

We operate a fleet of more than 60 trucks in 10 states and manage more than one million tons of dewatered residuals and 800 million gallons of liquid residuals, approximately 130 million gallons of which are municipal biosolids, annually. Our organic residuals management services include daily, long-term Residuals Management Programs, as well as shorter-term maintenance and closure projects such as:

- Mobile Dewatering
- Dredging
- Digester Cleanouts
- Lagoon Cleanouts and Closures

Denali Water Solutions offers a full range of services, for customers looking for long-term programs, or for those in need of short-term solutions for unexpected emergencies. Our experienced employees and industry-specific equipment allows us to pool resources to respond quickly to unplanned events as well as to provide cost-effective management solutions for long-term programs.

We perform these services for hundreds of customers across the U.S. in the public and private sectors, providing a variety of beneficial use and disposal options including:

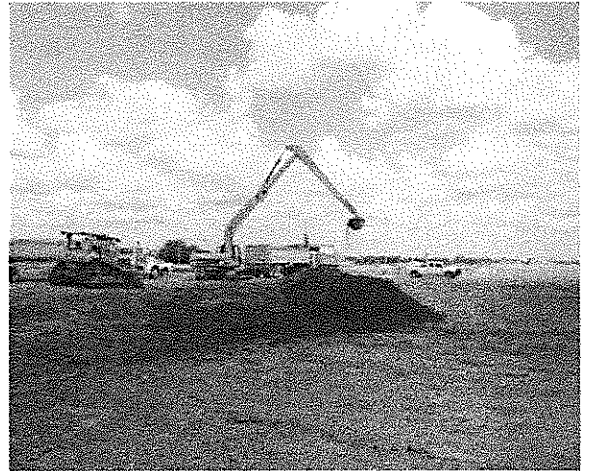

- Land Application
- Mine Reclamation
- Composting
- Landfill Disposal
- Biosolids Treatment
- Liquid Transfer

Denali Water Solutions is a service provider. We identify potential management options based on our customers' priorities and preferences, and then safely execute the solution the customer selects.

Because Denali Water Solutions is not technology-specific, we are able to continue to provide the same high level of service to our customers over many years, even as the customers' priorities and needs evolve over time and require new residuals management alternatives.

All of Denali Water Solution's Organic Residuals Services are a complete service offering including:

- Environmental and Compliance Management
- Regulatory Reporting
- Agronomic Evaluations
- Nutrient Management Planning
- Environmental Engineering Service
