# LED Linear Lighting

## 18W 4 Ft Single-Ended LED Retrofit Clear T8 with Internal Driver Ballast Bypass

### Features

- Bypass single-end connection\*
- Polycarbonate lens and aluminum heat sink
- Non-shunted lampholder included
- Extremely long life and energy efficient
- No mercury
- Easy and safe replacement for fluorescent T8 systems

### Specs

- 18W
- 120-277V
- 82 CRI
- 50,000 Average Rated Life
- 130° Beam angle
- -20°C to 40°C Ambient temperature

### Applications

- Office, retail, hospitality, warehouse

## LED Wrap Fixture

### FROSTED LENS

### Superior LED Technology and Consistent Color Rendering

Topaz's LED Wrap Fixture with Frosted Lens are an aesthetically pleasing and energy saving alternative for linear fluorescent fixtures. Available in two and four feet, these fixtures are designed to create the feel of an open space and distribute light evenly, in both vertical and horizontal work spaces. This simple installation will provide consistent, comfortable lighting with worry free maintenance, for at least 50,000 hours.

### FEATURES

- 2' and 4' LED replacement for 2x17WT8 and 2x32WT8
- Modern aesthetic design
- Steel housing with white enamel coat finish
- Equipped with heat resistant polycarbonate frosted lens
- Ceiling box mount, surface mount or chain mount
- Linkable up to 8 fixtures
- Non-Dimmable

### APPLICATIONS

- Office and industrial lighting
- Hospitals
- Schools

## LED Wrap Fixture FROSTED LENS

### GENERAL SPECIFICATIONS

## LED Post Top/High Bay Lights

### High Performance LED

Topaz's Post Top/High Bay lights are the advanced alternative to traditional acorn, globe or high bay warehouse lighting. Designed to the highest standard, these lights offer maximum efficiency, while featuring the latest technology in thermal management, optics and LEDs. Suitable for damp locations for both indoor and outdoor applications, they offer improved quality of light compared to high pressure sodium and metal halide light sources while reducing cost of ownership through minimal maintenance, lower utility costs and disposal issues.

### FEATURES

- Optimized performance with premium chipset
- Improved construction and thermal management design
- Ballast bypass model
- 6kV Surge protection
- 360° True omnidirectional light output
- Designed to produce at least 70% of initial light output after 50,000 hours

### APPLICATIONS

- Commercial indoor and outdoor settings such as acorns, post top and high bay applications
