MDC33V1 - Myers MDC33V1, Automatic Sump Pump, 48 GPM, 0.33 HP, 115V, 1 Phase, 10' Cord - Pump Products

applications.

Typical applications include basement sumps, dewatering, water transfer and light septic tank effluent.

### Features

- Removal of drainage water and light septic tank effluent
- Piggy-back vertical float switch for full automatic operation
- Oil-filled motor for maximum heat dissipation, continuous bearing lubrication
- 1/3 or 1/2 HP
- 48 GPM max capacity
- 24' shut-off head
- Shaded pole motor
- Recessed vortex impeller
- Thermal overload protection
- CSA Listed
- Carbon & ceramic shaft seal
- Heavy duty cast iron pump body and motor cover
- 115 volt, single phase motor
- 1/2" Solids handling
- 1-1/2" Discharge
- 10', 16/3, SJTW, SJTW-A power cord
- 12" minimum sump diameter
