Section 4.0 – Quantities/Inspection:

Bidders must inspect the site and perform their own measurements in order to determine the proper quantity of materials and equipment required to complete this project. All measurements given in these specifications are informational only.

Section 5.0 – Bid Specifications:

Renovation of the large dog park at Parc des Familles. The total square footage of this fenced area is approximately 70,000 square feet. Most of the material that was imported will need to be excavated and removed from the dog park areas. Once most of the material is removed, the area should be graded towards the catch basins. The area should be graded using tractors and drag boxes. Drag boxes are used as opposed to box blades as they contour the undulations in the ground better and leave a much smoother finished surface. After the initial grade work is complete, the entire area should be tilled using a reverse tine tiller to incorporate any existing imported materials and to try to bury any existing vegetation and weed seeds. Next, a 3" layer of finely ground compost should be top dressed over the whole area with a 3 cubic yard drop type top dresser to ensure an even metered application of material. This material will then be reverse tine tilled at a depth of 6". Reverse Time Tilling deposits any large material at the bottom of the tilled area leaving a more uniform root zone mix of sand and compost. This process should be repeated to achieve the 6" layer of organic material. The entire area should be regraded one last time in preparation for sod. A 2" backflow preventer should be installed inside the dog park area with a standpipe to attach the water reels. New Tifway 419 Bermudagrass should be installed. This sod should be installed as big rolls to decrease the amount of

seams in the new turf and decrease the amount of time it takes to establish the sod. A one-month grow in period should be included which includes one fertilization and 28 watering days. The new sod should be watered every day for the first 14 days and every other day for 14 days.

Section 6.0 – Bond Requirements:

Payment Bond – A Payment Bond will be required for this bid. The amount of the bond will be 50 % of the contract price. The payment bond shall be supplied at the signing of the contract.

Performance Bond –A Performance Bond will be required for this bid. The amount of the bond will be 50 % of the contract price. The payment bond shall be supplied at the signing of the contract.

Section 7.0 – Hours of Work:

Work shall be performed during normal working hours. All work must be scheduled with owner's representative 5 days in advance. The successful bidder shall work normal building working hours to provide a safe work environment at no extra charge to Jefferson Parish.

Section 8.0 – Cleaning Area and Safety:

Job site must be clean and free of all litter and debris daily and upon completion of the contract. Passageways must be kept clean and free of material, equipment and debris at all times. Inflammable material must be removed from the job site daily, because storage will not be permitted on the premises. Precautions must be exercised at all times to safeguard the welfare and safety of the general public, employees of Jefferson Parish, and other Parish officials.

Should any cutting, patching alteration, addition, or repairs to existing site be required of this project, the successful bidder shall restore the alteration to its original condition, with the same type materials, finish and workmanship.

Section 10.0 – Warranty:

The bidder must agree, upon written notice from the owner, promptly and without charge, and to the satisfaction of the owner, to make changes replacements, and corrections which may be required to make good all defects in materials and/or equipment under its intended use, within the warranty period, at no cost to the owner.

STANDARD INSURANCE REQUIREMENTS FOR BIDDING PURPOSES

All required insurance under this bid shall conform to Jefferson Parish Resolution No. 113646 or No. 113647, as applicable. Contractors may not commence any work under any ensuing contract unless and until all required insurance and associated evidentiary requirements thereto have been met, along with any additional specifications contained in the **Invitation to Bid**. Except as where otherwise precluded by law, the Parish Attorney or his designee, with the concurrence of the Director of Risk Management or his designee, may agree on a case-by-case basis, to deviate from Jefferson Parish's standard insurance requirements, as provided in this Section. Vendors requesting deviation therefrom shall submit such requests in writing, along with compelling substantiation, to the Purchasing Department prior to the bid's due date. Any changes to the insurance requirements will be reflected in the bid specifications and addenda. Prior to contract execution and at all times thereafter during the term of such contract, contractors must provide and continuously maintain all coverages as required by the foregoing Resolutions, and the contract documents. Failure to do so shall be grounds for suspension, discontinuation or termination of the contract.

For bidding purposes, bidders must submit with bid submission a current (valid) insurance certificate evidencing the required coverages. Failure to comply will cause bid to be rejected. The current insurance certificate will be used for proof of insurance at time of evaluation. Thereafter, and prior to contract execution, the low bidder will be required to provide final insurance certificates to the Parish which shall name **the Jefferson Parish, its Districts Departments and Agencies under the direction of the Parish President and the Parish Council** as additional insureds regarding negligence by the contractor for the Commercial General Liability and the Comprehensive Automobile Liability policies. Additionally, said certificates should reflect the name of the Parish Department receiving goods and services and reference the respective Jefferson Parish bid number.
