48" Professional Brass Bound Mahogany Level (6 Vials)

SKU: SL12AB48

ADD TO CART

The finest selection of mahogany wood provides the foundation for this 48" level, a favorite with masons. Angle bound brass binding is embedded in the wood for extra strength and straightness. The wood has a beautiful smooth finish. Three sets of two solid set vials include level and plumb levels for leveling from different angles. Six Cat's Eye Yellow double bent vials are solid set for accuracy. Double bent vials make leveling easier. The vials feature permanent lines that won't fade or wear away. The level is guaranteed accurate to .0004" per inch. The vials are protected by glass lenses to extend the life of the level. Shock absorbing rubber end caps are secured to the end of the level to stand up to wear and tear on the tool. Two large hand holes provide comfort and ease when moving the level. A hang hole on one end allows for easy storage when not in use. Store in a Professional Level Case (#SLPLC48) (/SLPLC48), sold separately, to protect your level and extend its life. Proudly made in the USA.

- Strong mahogany wood
- Brass binding embedded for strength
- Easy-to-read Cat's Eye Yellow vials for accuracy
- Double bent vials make leveling easier
- Strong solid set vials
- Guaranteed accurate to .0004 In. per inch
