Ms. Carol Gasper  
**Jefferson Parish Purchasing**  
General Government Building  
200 Derbigny Street, Suite 4400  
Gretna, LA 70053

Ms. Gasper,

Per your request, below is the quote for the refrigerant recovery work to be performed at the Jefferson Parish Central Plant located at 960 1<sup>st</sup> Street in Gretna, LA (Chiller # 2).

- Summit Refrigerants will provide an EPA certified refrigerant specialist and necessary equipment to perform the refrigerant recovery work described below.
- Recover approximately 800 pounds of R-123 refrigerant from a York YT 350ton Chiller.
- The recovered R-123 refrigerant will then be weighed, transferred into a 1000 pound recovery cylinder, and removed from the job site.
- Summit Refrigerants will purchase the recovered R-123 refrigerant, based on the net yield weight after processing and a minimum purity of 99.5% (non-mixed).

**Refrigerant Recovery Charges ..... \$ 2357.00**

**Purchase Price for Recovered R-123 Refrigerant ..... \$ 4.00 per pound**

Please Note:

- A purchase order number is required prior to the mobilization of equipment for this job.
- The customer must provide easy access to chiller, and availability of 115v power and water.
- Purchase price for recovered R-123 refrigerant is based on the net yield weight after processing, and a minimum purity of 99.5% (non-mixed).

Quote Accepted By: \_\_\_\_\_ PO#: \_\_\_\_\_ Date Accepted: \_\_\_\_\_

Thanks for the opportunity to quote this to you.

Sincerely,

Jeff Carver

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

APR 24 2009

OFFICE OF  
AIR AND RADIATION

Mr. Steve Trevino  
Summit Refrigerants  
3537 FM 1960, Suite A  
Humble, Texas 77338

Dear Mr. Trevino:

The Environmental Protection Agency (EPA) has reviewed the information submitted by Summit Refrigerants in support of its certification as a refrigerant reclaimer under 40 CFR §82.164. EPA has determined that this information meets the requirements of §82.164(a) - (e); therefore, the Agency recognizes Summit Refrigerants as a certified reclaimer.

As a condition of your reclaimer certification, Summit Refrigerants has agreed to meet the following requirements:

1. Reclaim used refrigerants according to practices required by 40 CFR §82.156, to the acceptable levels of contaminants set forth in 40 CFR Part 82, Subpart F - Appendix A (based upon ARI Standard 700);
2. Verify that the reclaimed refrigerant meets the standards for contaminants in accordance with 40 CFR Part 82, Subpart F - Appendix A (i.e., water, chloride, acidity, high boiling residue, particulates/solids, air and other non-condensable, and impurities including other refrigerants), using the methods set forth in Appendix A;
3. Release no more than 1.5 percent of the refrigerant during the reclamation process, as required by §82.164(c); and
4. Dispose of wastes from the reclamation process in accordance with all applicable laws and regulations, as required by §82.164(d).

Summit Refrigerants has agreed to comply with the following recordkeeping and reporting requirements:

1. Summit Refrigerants will maintain records of the names and addresses of persons sending material for reclamation and the quantity of the material (i.e., the combined mass of refrigerant and contaminants) received for reclamation. Such records must be maintained on a transactional basis, as required by §82.166(g).
2. Summit Refrigerants will maintain records and report on the quantity of material received for reclamation, the mass of refrigerant reclaimed, and the mass of waste products. The report summarizing this information must be submitted to EPA annually within 30 days of the end of the calendar year, as required by §82.166(h). The annual summary report should be sent by U.S. Postal Service to the following address:

U.S. Environmental Protection Agency  
Stratospheric Protection Division  
1200 Pennsylvania Avenue, NW  
Mail Code: 6205J  
Washington, D.C. 20460

Attn: §608 Recycling Program Manager  
Refrigerant Reclaimer Reporting

A copy of these records must be kept at the reclamation facility and must be readily available for EPA review. In addition, any equipment that is used to recover refrigerant from refrigeration or air-conditioning equipment (i.e., appliances) must be certified pursuant to §82.158.

EPA will periodically inspect reclamation facilities to ensure compliance with the Clean Air Act regulations. These inspections may include, but are not limited to, examination of records, review of equipment used by the reclaimer, measurement of the levels of refrigerant released to the atmosphere, and certification that the refrigerant has been reclaimed to all of the requirements of Subpart F prior to resale to a new owner.

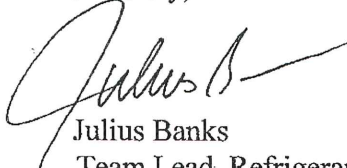

Since this certification is not transferable, Summit Refrigerants must promptly inform EPA of any changes in its operations including, but not limited to, changes of address or ownership. In the event of a change of ownership, the new owner must initiate a new certification by submitting a written request to EPA within 30 days of the change in ownership, as required by §82.164(f).

In addition to the requirements of 40 CFR Part 82 Subpart F, Summit Refrigerants should be aware of the requirements for importers of used controlled substances, (e.g., used class I or class II ozone-depleting substances such as R-12 and R-22) which were published as part of the amendments to the accelerated phase-out regulations of Subpart A. Importers of used controlled substances must submit a petition to EPA at least 40 working days before the shipment is to leave the country of export. As part of the petitioning process, the importer must document the previous use and ownership of the material. If the shipment is approved by both the government representing the country of origin and EPA, the petitioner may be issued a non-objection notice. These requirements are described in more detail at §82.13(g) (2).

Summit Refrigerants should be able to describe the diligent efforts taken to make sure that the controlled substances in its possession have not been illegally imported. EPA suggests that Summit Refrigerants representatives ask potential suppliers of used controlled substances for documentation of prior ownership and the type(s) of equipment from which the substance was recovered. If you believe that the substance was imported, we suggest that you ask for the non-objection notice or other forms of import authorization from EPA. These precautions will help to ensure that you do not become a handler of illegally imported ozone-depleting substances. The U.S. Customs and Border Protection and/or EPA may confiscate any goods that enter the United States illegally.

If at any time Summit Refrigerants fails to comply with the above requirements or with any of the provisions of 40 CFR Part 82, EPA reserves the right to revoke your refrigerant reclaimer certification. If you have any questions, please contact Sally Hamlin at (202) 343-9711 or [hamlin.sally@epa.gov](mailto:hamlin.sally@epa.gov).

Sincerely,

A handwritten signature in dark ink, appearing to read "Julius Banks", with a long horizontal flourish extending to the right.

Julius Banks
