# Gernon Brown Recreation Center

City of New Orleans - NORD Commission

Yeates Mancil Architects provided architectural services for this community center building which had formerly been undergoing renovations by a separate construction and design team when Hurricane Katrina struck. The work was abandoned and the building sat largely unused for several years other than functioning as a glorified storage facility for the city's recreation department.

Location:  
New Orleans, LA

Project Type:  
Renovation

Construction Cost:  
\$1.6 Million

Gross Area:  
15,750 ft<sup>2</sup>

Completed:  
August 2014

Yeates Mancil Architects, LLC provided full A/E Services for this recreation and community center facility. Exterior work included new parking and paving, a new modified bitumen flat roof and a standing seam sloped roof and other minor items. Repair work on the interior of the facility included the demolition and removal of former walls and equipment; construction of new partitions; installation of new athletic flooring, acoustical ceilings, doors, hardware, kitchen cabinets, plumbing fixtures and accessories; refurbishment of the existing retractable basketball goals; and installation of new HVAC, electrical, security and fire alarm systems.

Gross Area:  
5,500 ft<sup>2</sup>

Completed:  
June 2011

Yeates Mancil Architects, LLC provided full A/E Services for the replacement of the Fire Station and EMS buildings in East Pointe A La Hache. The previous buildings were destroyed by Hurricane Katrina in 2005. Due to the risk of hurricane and other coastal flooding, the living areas are located at the second level, which was constructed 17 feet above the ground floor level to comply with FEMA Base Flood Elevations. The building contains separate facilities for both the Plaquemines Parish volunteer Fire Department, and the Emergency Medical Services. Both entities have independent Kitchens, offices, common areas, bedrooms and bathrooms.

Yeates Mancil Architects, LLC | 929 South Peters St. | New Orleans, LA 70130

yeatesmancil.com

# Port Sulphur PROWM Building

Plaquemines Parish Government

Yeates Mancil Architects, LLC assisted the Plaquemines Parish Government with the design of this new Public Right-of-Way Maintenance facility, which replaced the previous building heavily damaged by Hurricane Katrina. The building contains the Parish's Sign Department, as well as storage for the Recreational Equipment. It is also a holding and repair facility for the Parish's tractors and other maintenance vehicles.

Location:  
Port Sulphur, LA

Project Type:  
New Construction

Construction Cost:  
\$3 Million

Gross Area:  
10,000 ft<sup>2</sup>

Completed:  
August 2010

Yeates Mancil Architects, LLC | 929 South Peters St. | New Orleans, LA 70130  
ph: (504) 522-7218 | fax: (504) 522-5606  
[yeatesmancil.com](http://yeatesmancil.com)

# Lake Pontchartrain Elementary School

St. John the Baptist Parish School Board

The school was divided into five wings and a detached gymnasium. This separated the building by its functions, with the cafeteria/auditorium, administration and other common spaces in the central core, and the classrooms on the side wings. The classroom wings were separated by similar grade levels, which kept similar aged students in the same corridors and limited interactions with other children outside of those respective ages.

Location:  
LaPlace, LA

Project Type:  
New Construction

Construction Cost:  
\$23.5 Million

Gross Area:  
109,000 ft<sup>2</sup>

Completed:  
December 2017

Yeates Mancil Architects, LLC provided full A/E Services for this Pre-K - 8<sup>th</sup> Grade school. A separate bid package was prepared to demolish the previous school building, damaged from the flood waters of Hurricane Isaac. In addition to the basic Architectural services of Design, Bidding, Construction Administration and Project Close-Out, detailed programming and project scoping were presented to the School Board. This included several schemes illustrated with Site Plans, Floor Plans, Exterior Elevations and 3D models.

Yeates Mancil Architects, LLC | 929 South Peters St. | New Orleans, LA 70130  
ph: (504) 522-7218 | fax: (504) 522-5606  
yeatesmancil.com

# Phoenix High School

Plaquemines Parish School Board

The school was divided into separate units, with each area containing specific functions or grade levels. The library and cafeteria are located in centralized nodes. The gymnasium, weight room and music rooms are separated away from the quieter classrooms and other spaces. The upper grades are located on the third floor level, away from the younger grades, while the youngest students are located in their own isolated unit.

Location:  
Braithwaite, LA

Project Type:  
New Construction

Construction Cost:  
\$28 Million

Gross Area:  
100,000 ft<sup>2</sup>

Completed:  
April 2014

Yeates Mancil Architects, LLC provided full A/E Services for this new Head Start (prior to Pre-K) through 12<sup>th</sup> grade school. The school is elevated approximately 16 feet above grade to meet FEMA Base Flood Guidelines. The previous school building was damaged by flood waters from Hurricanes Katrina and Rita.

**EHC Engineering, LLC**  
Attn: Darren Enamorado, Owner  
4219 Magnolia Street  
New Orleans, LA 70115

Dear Darren Enamorado:

The Louisiana Department of Transportation and Development (LADOTD) have received your firm's Disadvantaged Business Enterprise (DBE) and Small Business Element (SBE) annual affidavit. Based on the information, which you provided, it has been confirmed that your firm continues to meet the eligibility requirements of our program and remains certified for only the following specific work categories that fall under the listed NAICS and/or DOTD Work codes:

**NC 541330 – Engineering Services**  
**C09 – Civil Engineering**  
**C05 -- Structural Engineering**

*Please note that per the federal regulations, suppliers only receive 60% goal credit towards the materials they provide. Also, note that any contractor performing work in excess of \$50,000 with the exception of electrical, mechanical and plumbing requires A Louisiana Contractor's License, which are required to have a license if work is in excess of \$10,000. You may contact the State Licensing Board for Contractors at (225) 765-2301 for more information.* All participants of the Louisiana Unified Certification Program will recognize your firm's certification. This includes all entities receiving federal transportation funding within the boundaries of our state.

You will be required to submit an annual affidavit with all supporting documents (**Business taxes with all attachments, such as 1098, 1099, K-1's and/or W-2's**) stating your firm continues to meet the eligibility requirements of the program. An email informing you to submit the necessary documentation will be forwarded to you approximately six (6) weeks prior to your anniversary date of **May 31, 2025**. However, should you not receive notification from this office for your annual affidavit; it is your responsibility to contact us. Additionally, you must notify our office immediately regarding any changes, which affect the social and economic disadvantage, size, ownership or control of your firm.

The Department has contracted with Urban League of Louisiana Center for Entrepreneurship & Innovation to provide DBE Supportive Services to all certified DBEs at no cost to you. This consultant can offer your firm assistance and guidance on areas such as marketing, estimating, bidding, financial preparations, etc. Contact Klassi Duncan with Urban League of Louisiana Center for Entrepreneurship and Innovation at (504) 620-9647 for any assistance needed to grow your organization.

We reserve the right to withdraw this certification, if at any time, it is determined that **DBE and SBE** certifications was knowingly obtained by the submission of false, misleading or incorrect data. We further reserve the right to request additional information and/or conduct an on-site visit at any time during your certification period.

We are pleased to have you as a participant in the LAUCP and wish you much success.

If you have any questions regarding the content of this letter, contact the LADOTD DBE Certification Unit at (504) 376-0233

Respectfully,

*Rhonda Wallace*

Rhonda Wallace  
DBE/SBE Programs Manager

## **RE: SLDBE Certification Renewal**

Dear Darren Enamorado:

We are pleased to inform you that **E.H.C. Engineering LLC** has been approved for re-certification as a State & Local Disadvantaged Business Enterprise (SLDBE). This approval represents certification with the City of New Orleans, Sewerage & Water Board of New Orleans, and the Louis Armstrong New Orleans International Airport.

Your firm's contact information will remain active on the online SLDBE Directory (<http://neworleans.dbesystem.com>). It will reflect your areas of certification. Your specialties will be listed with the following NAICS as:

**NAICS    541330    Engineering Services  
                         Civil Engineering Services**

## **Expiration Date: September 18, 2025**

A re-certification notice will be emailed to you prior to the date of expiration. However, should you not receive notification from this office for your re-certification, it is your responsibility to contact us. The submittal of this information is necessary to ensure that there is no interruption in your certified status. **If a re-certification application is not received by the renewal date, we will proceed with decertification procedures. Additionally, you must notify our office immediately regarding any changes which affect the social and economic disadvantaged status, size, ownership, or control of your firm.**

We reserve the right to withdraw this certification if at any time it is determined that DBE certification was knowingly obtained by the submission of false, misleading, or incorrect data. We further reserve the right to request additional information and/or conduct an on-site visit at any time while your certification is active.

If you have any questions and or comments, please do not hesitate to contact me.

Sincerely,

*Lesabra Ventress*

Lesabra Ventress  
Certification Program Manager

2016 B.S. Mechanical Engineering from Louisiana State University
<b>Active registration: Year first registered/discipline:</b>
Mechanical Engineering 2020 – LA #44704 2022 – TX #144539; MS #32975; IL #062.074153; AR #21207; NC #054733; AL #51768; MD #60157; OK #33739 2023 – GA #50601; TN #128567
<b>Other experience and qualifications relevant to the proposed Project:</b>
<p>Grant McIntyre is the Senior Mechanical Engineer and oversees the design and construction management of multiple projects for the company. His experience includes complete design and construction administration of mechanical systems, plumbing and fire suppression systems for health care, educational, industrial, commercial facilities, and multifamily housing.</p> <p>Mr. McIntyre has been responsible for all aspects in preparation and issue of contract documents for his respective disciplines; including performing design calculations, selecting equipment, preparing the Division 21, 22 and 23 specifications, coordination of design requirements and equipment with the civil, electrical and structural engineers, coordinating with the architect on design requirements, and application of current applicable codes for the mechanical, plumbing and fire suppression systems. He has been responsible for all aspects of construction administration for his respective disciplines; including attending pre-bid meetings, construction meetings, reviewing submittals for compliance with drawings and specifications, review of pay applications, site walks for issuing field reports and punch list, responses to change orders and issuing clarifications. His design experience includes design of DX split systems, packaged air conditioning units, VRF systems, chilled and heating water plants, and combinations of different equipment types.</p>

## TEC Professional Services Questionnaire

<b>KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT:</b>
<b>Name &amp; Title:</b>
Sean Ghashghaee, P.E. Senior Electrical Project Manager/Electrical Engineer
<b>Project Assignment:</b>
Electrical Engineer
<b>Name of Firm with which associated:</b>
Parish Engineering
<b>Years' experience with this Firm:</b>
3 years
<b>Education: Degree(s)/Year/Specialization:</b>
2015 B.S. Electrical Engineering from Louisiana State University
<b>Active registration: Year first registered/discipline:</b>
Electrical Engineering 2019 – LA #43828
<b>Other experience and qualifications relevant to the proposed Project:</b>
<p>Sean Ghashghaee is a licensed Professional engineer in Electrical Engineering and is a Senior Electrical Project Manager with more than 9 years of design and project management experience. Sean has worked with Parish Engineering, LLC since January 2022. Prior to Parish Engineering, he worked for ADG Baton Rouge, LLC from September 2018 until December 2021 as the Senior Electrical Project Manager / Electrical Engineer. Prior to this, he worked for Daniel T. Calongne &amp; Associates from May 2015 until September 2018 as an Electrical Project Manager.</p> <p>Sean oversees the design and construction management of multiple projects for the company. His experience includes civil work such as lift stations and treatment plants, laboratories, industrial facilities, athletic facilities, and a wide range of commercial, residential, medical, and municipal projects.</p>

## TEC Professional Services Questionnaire

<b>KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT:</b>
<b>Name &amp; Title:</b>
Lance Bonadona, P.E. Senior Mechanical Engineer
<b>Project Assignment:</b>
Mechanical Engineer
<b>Name of Firm with which associated:</b>
Parish Engineering
<b>Years' experience with this Firm:</b>
3 months
<b>Education: Degree(s)/Year/Specialization:</b>
2001 B.S. Mechanical Engineering from Louisiana State University
<b>Active registration: Year first registered/discipline:</b>
Mechanical Engineering 2006 – LA #32526
<b>Other experience and qualifications relevant to the proposed Project:</b>
Lance has over 35 years of experience in the HVAC and Plumbing industry including the design of HVAC systems, domestic water systems, Fire Protection systems and medical gas piping systems. He is also responsible for specification writing, drawing preparation, and construction administration for Commercial Office Buildings, Hospital/Healthcare Facilities, Schools, Central Chilled Water Plants, Commercial and Institutional Kitchens, Laboratories, Computer Rooms and High-Rise Buildings. He also performs cooling/heating load, outdoor air and air change requirement calculations, selects and schedules air handlers, VAV boxes, chillers, boilers, pumps, variable refrigerant volume, energy recovery and pack-age/DX systems.

## **TEC Professional Services Questionnaire**

**Lance J. Bonadona, PE**

### **Grand Isle School Hurricane Ida Repairs, Grand Isle, LA**

Performed an extensive full Campus survey to document the mechanical, electrical, plumbing and fire sprinkler damage caused by the flooding and wind of Hurricane Ida. Designed Code updated replacement storm damaged mechanical, electrical and plumbing systems for the project including Chillers, Main Switchboard and DX Split Systems.

### **Jefferson Parish Fire Training Center, Bridge City, LA**

Designed the HVAC, Plumbing and Fire Protection systems for this 15,000 square foot training and operations center. The design includes Rooftop Packaged DX VAV units and natural gas distribution system serving an Emergency Generator.

### **Jefferson Parish Fire Department Garage, Bridge City, LA**

Designed the HVAC, Plumbing and Fire Protection systems for this 7,200 square foot garage and driving training center. The design includes an apparatus bay for five engines, training rooms and gear storage rooms.

### **Old Beauregard Courthouse Repairs and Alterations, Chalmette, LA**

Renovation of Historic 16,000 square foot Courthouse to original condition following extensive damage due to Hurricane Katrina. HVAC and Plumbing design includes Outbuilding Equipment Room for air cooled chiller, chilled water pumps, natural gas condensing heating water boiler, heating water pumps, natural gas domestic water heater and domestic water booster pump. A dedicated outdoor air unit was designed to serve the building.

### **St. Bernard Parish Courthouse and Jail, Chalmette, LA**

Performed an extensive site and building survey to document the mechanical damages caused by the flooding and wind of Hurricane Katrina. Designed the updated replacement mechanical systems (HVAC, Plumbing) for the project. Designed HVAC Systems for Historic Court Room and offices throughout the building.

### **New Orleans City Park Administration Building, New Orleans, LA**

Designed the Mechanical and Plumbing Systems for this two (2) story 12,000 square foot building located in City Park. A variable air volume system was utilized to provide the individual room control that was required and also provide an energy efficient system.

### **St Bernard Parish Los Islenos Museum Complex, St Bernard Parish**

Designed the HVAC and plumbing systems for the repair and replacement of facilities at the Los Islenos Complex. Los Islenos was damaged during Hurricane Katrina with repairs and upgrades required for the Museum Buildings, Multi-Purpose Building, Pavilions, Site Utilities, and Support Facilities.

## TEC Professional Services Questionnaire

**L. Work by Firm or Joint-Venture members which best illustrates current qualifications relevant to this Project. Please include any and all work performed for Jefferson Parish. Please attach additional pages if necessary.**

### PROJECT NO. 1

Project Name, Location and Owner's contact information:	Nature of Firm's Responsibility:	
Grand Isle School - Damage Repair Jefferson Parish Public School System Grand Isle, LA  Client: ADG New Orleans 2839 Hessmer Avenue Suite 201 Metairie, LA 70002	Performed an extensive full Campus survey to document the mechanical, electrical, plumbing and fire sprinkler damage caused by the flooding and wind of Hurricane Ida. Designed Code updated replacement storm damaged mechanical, electrical and plumbing systems for the project including Chillers, Main Switchboard and DX Split Systems.	
Completion Date (Actual or estimated):	Estimated Cost:	
	Entire Project:	Work for which Firm was Responsible:
2025 (est.)	\$4.16 million	\$1.2 million

### PROJECT NO. 2

Project Name, Location and Owner's contact information:	Nature of Firm's Responsibility:	
Entergy Metro Regional Service Center 4809 Jefferson Hwy Jefferson, LA 70121  Client: Holly & Smith Rohit Sood, AIA 208 North Cate Street Hammond, LA 70401	MEP Engineering - Designed and conducted all work required for the completion of construction documents for the HVAC, plumbing, power, lighting, special systems, and emergency power for a 15,000sqft service center.	
Completion Date (Actual or estimated):	Estimated Cost:	
	Entire Project:	Work for which Firm was Responsible:
January 2023	\$930,000	\$74,701

**Parish Engineering, LLC** is a Service-Disabled Veteran Owned professional engineering company offering Mechanical, Electrical and Plumbing (MEP) engineering consulting services. With an extensive client base ranging from government entities to institutional facilities and commercial ventures, both in the public and private sectors, our company has over 20 years of combined experience in delivering exceptional mechanical and electrical engineering design solutions. Our MEP consulting services cater to a diverse range of construction categories, including but not limited to Commercial – Corporate and Retail Building, Cultivation, Health care, Government, Educational Facilities, Hospitality, Industrial, Residential, Restaurants, Sports and Entertainment Venues, Transportation and Worship Centers.

Our expertise in **Electrical Engineering** extends to renovation projects for educational facilities, hospital-related buildings, and various institutions. Additionally, we possess extensive experience in Life Safety Code renovation projects, involving fire, security, intercom, AV & presentation, and emergency power systems. Furthermore, our involvement in designing voice/data communication infrastructure ranges from small office renovations to large-scale projects like multi-story hospitals, schools, and medical research centers. This includes comprehensive design services for voice and data wiring, employing a range of mediums such as single and multi-mode fiber, category 3 through category 7 copper, fiber, and coaxial cables to support various systems like voice, closed circuit TV, cable TV, imaging, security, and computer systems. With the increasing emphasis on generator inclusion in new building designs, we have successfully assisted numerous facilities in updating and upsizing their existing systems. Parish Engineering, LLC remains committed to providing top quality and timely based engineering assistance to meet the evolving needs of our clients.

Our **Mechanical Engineering** expertise spans a wide range of commercial projects, including mechanical systems ranging from 20 tons to 2,000 tons. Our proficiency lies in designing chilled water systems, including large central plants with evaporative cooling towers and chillers, as well as operating room laminar flow systems, laboratory variable supply and exhaust systems, energy audits, industrial support building design, computer room HVAC design, Hospital Pharmacy Cleanroom design, medical gas design, and plumbing and fire protection systems.

**O. To the best of my knowledge, the foregoing is an accurate statement of facts.**
