Directions for Use

Recommended for use on all types of resilient tile flooring and properly prepared hard surfaces.

RESTORATIVE MAINTENANCE:

Completely remove all old wax, finish and soil from floor surface following strip procedure instructions on Betco® stripper label. Floor surface must be clean, dry and free of residue before finish is applied. Rinse with clean water if necessary. Apply finish in uniform, thin to medium coats using a clean synthetic finish mop, microfiber mop or applicator system. Allow each coat to dry thoroughly before applying additional coats, usually 20 - 30 minutes. Elevated temperatures, heavy coats and humidity may extend dry time. A minimum of 4 coats of finish is recommended. Note: This product is a self-sealing finish, however, if tile is old, worn or porous, initially applying 1 - 2 coats of a Betco sealer will enhance gloss and long term performance.

ROUTINE MAINTENANCE:

Sweep large debris and dust mop. Damp mop or automatic scrub using a Betco floor cleaner. Buff or burnish the floor to enhance gloss as needed. Use Betco® One Step High Speed Cleaner/Restorer to condition the floor and extend the time between top scrub and recoating.

INTERIM MAINTENANCE:

Sweep large debris and dust mop. Top scrub the floor using Daily Scrub SC and maroon pad or equivalent to remove the top soiled layers of finish. Floor surface must be clean, dry and free of residue before finish is applied. Apply 1 - 2 coats of finish as directed above.

Please recycle empty containers. Note: Slip resistance meets or exceeds standard, (ASTM D 2047-11) James Machine 0.5 minimum.

PREMIER RESTROOM PRODUCTS

THE DIAMOND 3D URINAL SCREEN replaces THE PEARL 3D URINAL SCREEN in the BIG D® Premier Restroom Products line. It is a superior product with 50% more surface area. Its unique design can be installed on either side, ensuring correct placement every time. It has a more open design and increased spike height, eliminating 99% of urine splash, which saves custodial cleaning time and patrons' pant splatters.

THE DIAMOND 3D URINAL SCREEN is VOC compliant in all 50 states. It features Diamond & Spike Technology, with spikes of three varying lengths that help prevent splash back and cross contamination of urine to other areas outside the restroom. **THE DIAMOND 3D** is flexible for a proper fit to any urinal contour. The translucent design allows total viewing of the drain to ensure it remains free flowing as it collects debris before the drain is clogged. **THE DIAMOND 3D** is also safe for use in waterless urinals. The fragrance will last 30 to 45 days.

THE OPAL URINAL SCREEN is the top of the BIG D® Premier Restroom Products line, with the most fragrance and the longest anti-splash spikes. It is VOC compliant in all 50 states. It features a 1-sided anti-splash texture which helps prevent splash back and cross contamination of urine to other areas outside the restroom. **THE OPAL** is flexible for a proper fit to any urinal contour. The translucent design allows total viewing of the drain to ensure it remains free flowing as it collects debris before the drain is clogged. **THE OPAL** is also safe for use in waterless urinals.

THE MINI PEARL 3D URINAL SCREEN is reduced in size for smaller urinals found in places such as cruise ships, porta-potties, tour buses, or childcare facilities. Use **THE MINI PEARL** whenever another urinal screen is too large or too strong — in small restrooms and small spaces.

PREMIER RESTROOM PRODUCTS are made from a specially engineered copolymer that is impregnated with a powerful organic odor-counteracting compound, available in seven **PREMIER SCENTS** that match and compliment each other.

PREMIER RESTROOM PRODUCTS are 100% recyclable.
