- Keeps MIL light off
- Industry's most comprehensive OBDII BY DESIGN coverage
- 409 stainless steel shell and neck construction for longer life
- 5-year/50,000-mile warranty on converter body
- 25,000-mile warranty on emissions

The growing concern for the environment means there is a growing need for quality emission control products. AP catalysts and catalytic convert systems can be found in a vast array of engine applications. These include engines powered by a variety of fuels including gasoline, diesel, CNG, LPG and blends.

Everywhere engines are used AP catalysts and catalytic converter systems are making them energy efficient and environmentally friendly. AP designs and manufactures catalytic converters for automotive, heavy-duty, off-road vehicles and industrial applications.

AP constantly strives to go beyond the customer's expectations with regard to quality engineering of all products. Every effort is made to assure total quality throughout the AP engineering, product development, testing, and manufacturing operations. AP has built a reputation for strict adherence to exact production procedures and quality specifications.

The company's manufacturing processes assure that each converter is built to the highest quality level and to the required emission certification. Premium-grade ceramic substrate cores are processed in the company's plant to OE performance and reliability standards. Upon evaluation of the requirements of each application, AP is able to match the precise catalyst or catalyst system needed. AP's experienced team can design and develop a quality custom product or provide an existing product. Combining the latest technology and proven processes, AP attains results.

**AP Exhaust Technologies®** is a trustworthy manufacturer of high-grade exhaust and emission products. AP offers a large collection of replacement and performance products for automotive, light truck, heavy-duty as well as agricultural, industrial, and forestry applications. Since the company's earliest days in 1927, it has been improving and updating its products which resulted in numerous patented designs. For instance, its revolutionary design of the Single Cartridge Internal Muffler helps significantly boost engine performance.

## Notes:

- Installation may involve welding and cutting
- This is a CARB compliant part, legal for use on vehicles built to meet CARB standards and/or registered in California and other states which follow CARB standards (CARB EO: D-280-101)

## Specifications:

Converter Configuration: Universal Fit

Converter Body Material: Stainless Steel

Catalytic Converter Substrate Material: Ceramic

Catalytic Converter Body Shape: Large Oval

Catalytic Inlet Diameter: 2.25"

Catalytic Outlet Diameter: 2.25"

Catalytic Converter Overall Length: 14"

Air Tube: No

O2 Sensor Port: No

## Features:

- Provides professional installer with immediate installation options
- Specifically engineered for OBDII equipped vehicles
- Features "Clean By Design" ceramic substrates for maximum pollution reduction
- Larger total substrate size
- Increased precious metals loading
- Improved O2 storage and release
