ROTATRIM TECHNICAL

The Rotatrim Technical is identical in form to the DigiTech+ except that its design adds a triple roller mechanism to provide extreme down force for the cutting of heavy materials. It also features special Sheffield "tool" steel blades designed to offer enhanced durability under extreme operational loads. With high chromium content, these blades are exceptionally slow wearing, even when cutting the most abrasive materials.

- A strong 1 ½" stainless steel guide rail completely eliminates head swivel.
- A triple roller mechanism for extremely heavy-duty cutting (maximum cut depth of up to 4mm).
- Extruded aluminum baseboard, end frames and head- plus an aluminum square side rule- ensures extreme robustness.
- An auto-lifting clamping mechanism locks materials into place as the head begins to cut, then automatically releases at the completion of the cut; prevents material and substrate scratching.
- Extremely heavy-duty use.

The steel stand offers rigid support at the ideal working height of 34 inches. Black finished, this stand includes an integrated, transparent space-saving waste catcher that secures off cuts.
