CONTRACTOR'S GUIDE & RECORD  
FOR IMPLEMENTATION OF SIX GOOD FAITH EFFORTS

It is a Federal requirement that all procurement made with Federal funds utilize six (6) good faith efforts to utilize disadvantaged business enterprises (DBEs) in the areas of construction, services, equipment, and supplies. For each of the following six steps, please state what actions were taken to comply with that step or reasons that no action was taken.

1. Placing qualified DBEs on solicitation lists.  
DBE firms were identified through LA UCP & SWBNO by searching NAICS codes for potential subcontractor provided areas of work.
2. Assuring that DBEs, once identified, are solicited whenever they are potential sources.  
DBE firms identified were contacted by email, fax, and phone call.
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by DBEs.  
Murphy Pipeline Contractors, LLC identified three potential subcontracting scopes of work and solicited DBE certified firms who registered with the associated NAICS code.
4. Establishing delivery schedules, where the requirement permits, which encourage participation by DBEs.  
Solicitations sent included links to documents which show the Owner bid date, and the solicitations requested that quotes and subcontracting forms be returned to our office by 06/12/2025.
5. Using the services and assistance of the Small Business Administration, and the Minority Business Development Agency of the Department of Commerce to identify qualified DBEs.  
Advertisement was posted to SBE SubNet website.
6. Require that each party to a subagreement or contract award take the affirmative steps outlined here.

This is a solicitation for a proposal to perform work on a subcontracted basis. Neither this solicitation nor any response hereto shall be construed as a binding agreement. It is the parties' understanding that PURIS's and/or its affiliates' acceptance of any proposal submitted in response to this solicitation is non-binding and subject to the execution of a definitive, written subcontract agreement. Pending the execution of such written subcontract agreement, any company responding to this solicitation shall be deemed to have waived the argument that it relied to its detriment in anticipation of a definitive subcontract agreement being finalized.

Murphy Pipeline Contractors, LLC is willing to review any responsible quote and will negotiate terms, if appropriate. We will notify your company if your bid is accepted for this project. We require that all subcontractors be able to adhere to and acquire insurance and obtain bonding per the Owner's contract specifications. If you need assistance with obtaining bonding, loan capital, lines of credit, insurance, or joint pay agreements, contact us and we will review your needs and direct you to available agencies for assistance, if appropriate. The Company policy does not allow for providing lines of credit to subcontractors. At Puris, we make it a priority to have our subcontractors paid in a timely manner. We can review a subcontractor agreement with you if you require more information. We encourage you to bid as a consortium on the project, if it is too large for you to bid on individually. We will not be interested in joint venturing or a partnership arrangement on this project. Puris LLC is an Equal Opportunity Employer.

Under such circumstances where Your Company is intending to use subcontractors, must ensure the following steps are taken:

Step 1: Ensure DBEs are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities by placing qualified DBEs on solicitation lists whenever they are potential sources.

Step 2: Establishing delivery schedules, where the requirement permits to encourage participation by DBEs. The prime contractor should allow a 30-day minimum advertising period for bidding.

Step 3: Dividing total requirements, when economically feasible, into small tasks or quantities, to permit maximum participation of DBEs.

Step 4: Encourage contracting with a consortium of DBEs, when a contract is too large for one of these firms to handle individually.

Step 5: Using the services and assistance of the United States Small Business Administration (SBA) and the Minority Business Development Agency (MBDA), US Department of Commerce, and any local agencies available.

Thank you for your consideration. Please feel free to call us if you have questions or concerns.

Step 1: Ensure DBEs are made aware of contracting opportunities to the fullest extent practicable through

outreach and recruitment activities by placing qualified DBEs on solicitation lists whenever they are potential sources.

- Step 2: Establishing delivery schedules, where the requirement permits to encourage participation by DBEs. The prime contractor should allow a 30-day minimum advertising period for bidding.
- Step 3: Dividing total requirements, when economically feasible, into small tasks or quantities, to permit maximum participation of DBEs.
- Step 4: Encourage contracting with a consortium of DBEs, when a contract is too large for one of these firms to handle individually.
- Step 5: Using the services and assistance of the United States Small Business Administration (SBA) and the Minority Business Development Agency (MBDA), US Department of Commerce, and any local agencies available.

Thank you for your consideration. Please feel free to call us if you have questions or concerns.
