

Urrea Ball Pein Hammer With Hickory Handle

12 reviews

URREA striking tools (Hammers and Mallets) are used for direct striking. In conjunction, they are particularly useful in industry (machinery, assembly lines, maintenance) and automotive service (engines, bodywork, tires). Aside from traditional fitter's or ball hammers, some striking tools are specifically designed to avoid distorting, marking, or damaging the parts subject to striking.

Type	Ball-peen Hammer
General	
Hammer Type	Ball-Peen
Handle Material	Wood
Replaceable Head	No
Hand Tool Type	Hammer
Tools Product Type	Hand Tool
