## STANDARD INSURANCE REQUIREMENTS FOR BIDDING PURPOSES

All required insurance under this bid shall conform to Jefferson Parish Resolution No. 113646 or No. 113647, as applicable. Contractors may not commence any work under any ensuing contract unless and until all required insurance and associated evidentiary requirements thereto have been met, along with any additional specifications contained in the Invitation to Bid. Except as where otherwise precluded by law, the Parish Attorney or his designee, with the concurrence of the Director of Risk Management or his designee, may agree on a case-by-case basis, to deviate from Jefferson Parish's standard insurance requirements, as provided in this Section. Vendors requesting deviation therefrom shall submit such requests in writing, along with compelling substantiation, to the Purchasing Department prior to the bid's due date. Any changes to the insurance requirements will be reflected in the bid specifications and addenda. Prior to contract execution and at all times thereafter during the term of such contract, contractors must provide and continuously maintain all coverages as required by the foregoing Resolutions, and the contract documents. Failure to do so shall be grounds for suspension, discontinuation or termination of the contract.

For bidding purposes, bidders must submit with bid submission a current (valid) insurance certificate evidencing the required coverages. Failure to comply will cause bid to be rejected. The current insurance certificate will be used for proof of insurance at time of evaluation. Thereafter, and prior to contract execution, the low bidder will be required to provide final insurance certificates to the Parish which shall name the Jefferson Parish, Its Districts Departments and Agencies under the direction of the Parish President and the Parish Council as additional insureds regarding negligence by the contractor for the Commercial General Liability, Workmen's Compensation Insurance and the Comprehensive Automobile Liability policies. Additionally, said certificates should reflect the name of the Parish Department receiving goods and services and reference the respective Jefferson Parish bid number.

Our professional performance represents dedication to providing first class workmanship, combined with faithful conformance to the strict governing specifications at some of the industry's most competitive prices. We persist in keeping up with the current trends and products, while still providing the old fashioned service that has helped us get to where we are today.

As a family-owned business, we have stressed the commitment by our staff to provide the very best service to our customers throughout the Company's history. A philosophy and practice of caring professionalism permeates our sales and operations functions. This approach to doing business has paid off in that the majority of our customer base has been referred to Continental Flooring Company by other satisfied customers.

Our business philosophy is best described by our dedication to customer satisfaction. This philosophy can best be summed up by a statement by the late James G.F. Coleman, Founder of Continental Flooring Company, "...we believe in supporting the industry (floor covering) and providing the opportunity for customers to get the best value they can for their money." To accomplish this, Continental Flooring Company makes every effort to operate as a totally committed customer service oriented organization.

We are proud to make the statement that throughout our Company's history we never been debarred from doing business with any government agency. This is primarily due to our record of conforming to contract and/or product specifications and standards. Our project managers strive to perform within forecasted costs and should we experience cost overruns not attributed to a customer negotiated change order, we do not pass that cost overrun along to the customer.

The staff of Continental Flooring Company persists in keeping up with current trends in product innovation and installation techniques to provide our customers with the best possible products, service and price availability. With our vast knowledge and experience in the floor covering industry, Continental Flooring Company, teamed with the top floor covering manufacturers in the industry, adds a full package of the highest quality products and services available at the best value.

Our vast experience throughout the country has provided us with the knowledge and experience necessary to handle projects similar to the size and complex scope presented. Throughout the course of work, Continental Flooring Company staff has proven time and again that our leadership within the floor covering industry is second to none. No matter the size or scope of the project, our staff strives to provide the highest level of professionalism and skill to insure that the project runs as smoothly as possible, with minimal interruption to the end user. We attach references to include recently completed and current contracts.

Continental Flooring Company has extensive experience in working on floor covering projects within occupied facilities. This experience has provided our staff the knowledge necessary to complete projects within occupied facilities with minimal disruption.

Our staff attends regular training sessions for professional development, as well as industry training sessions offered by our manufacturers. This corporate commitment to continuing education ensures that our staff is able to provide the most updated installation methods on the cutting edge of the floor covering industry.

The average tenure at Continental Flooring Company is over 15 years. With minimal corporate turnover, our staff's knowledge is top notch, and continues to grow every day through training. In addition, Continental Flooring Company is committed to its customers and employees by providing cutting edge technology. Our accounting software was custom designed to fulfill the unique needs of our customers. Our sales staff and project managers work with a state-of-the-art digital CAD system, allowing us to minimize the amount of waste on a project substantially, even within the most complex situations. In addition, we have recently upgraded to Microsoft Dynamics CRM which will allow us to e-communicate with our customers even more effectively and manage our customer accounts at a whole new level.

The staff within the Operations Division of Continental Flooring Company are organized in a multitier format to insure the highest level of service to our customers. With the support of Project Coordinators, our Project Managers have the ability to efficiently manage several projects at one time. Customers are provided a primary in-office contact, a secondary in-office contact, as well as an on-site contact. Project Managers are assigned projects based on their current workload. With a rotating assignment philosophy, workload is spread evenly amongst the Project Management teams. If awarded this contract it would be the intention of Continental Flooring Company to assign the project management of this project to our Vice President of Operations, Mr. Gary McMahon.
