JEFFERSON PARISH

Department of Purchasing

Michael S. Yenni
Parish President

Renny Simno
Director

July 2018

CHANGES TO JEFFERSON PARISH BIDDING PROCEDURES

The East bank Office of Purchasing is now open! We are located in the Joseph S. Yenni Building, 1221 Elmwood Park Blvd., Suite 404, Jefferson, LA 70123. Bidders may submit bid responses at this location, pending authorization in each bid package. **Bidders should carefully read and must respond accordingly per the requirements of the bid packages. NOTE: Bidders submitting bids on the day of bid opening, bidders must submit at the West Bank location only.**

Other Changes Continued:

- For all advertised sealed bids, written evidence of signature authority must be included with bid submission.
- Current W9 Forms and vendor applications may be submitted at any time; however, if your company is not registered and/or a current W-9 form is not on file, a current W-9 form must be supplied upon contract execution, should you be awarded a contract and/or issued a purchase order.
- **Proof of insurance in the form of a current certificate evidencing coverages is required with bid submission.** Bidders must read the insurance requirements attachment included in each bid package for specific instructions. Upon contract execution, successful bidder must produce final insurance certificates in accordance with Jefferson Parish insurance requirements.

Bidders should reference the "Additional Requirements" section of the bid instructions and/or the "Important Notice to Bidders" included in the bid package for specific requirements to respond accordingly.

For more information, please call Jefferson Parish Purchasing at 504-364-2678.

JEFFERSON PARISH DEPARTMENT OF FLEET MANAGEMENT

Vehicle-Equipment Specifications

Specification Number: 010-2018

IN ORDER TO AVOID ANY UNCERTAINTY, BIDDER SHALL COMPLETE THE BIDDER SECTION WITH A DESCRIPTION OF ITEM BID LISTING BRAND NAME AND PERTINENT DETAILS OF ITEM.

A LOUISIANA'S STATE DEALER LICENSE IS REQUIRED IN ACCORDANCE WITH LA RS 32:1254 ET SEQ. VENDOR MUST PROVIDE A COPY OF THEIR VALID LOUISIANA DEALER'S LICENSE WITH BID SUBMISSION

NOTE:

THE USE OF CHECKS AND FAILURE TO PROVIDE DESCRIPTION ON ANY SPECIFICATION LISTED IN THIS BID DOCUMENT SHALL RESULT IN BID BEING FOUND NON-RESPONSIVE AND, THEREFORE, REJECTED.

NOTE:

USE OF BRAND NAMES AND STOCK NUMBERS: Where brand names and stock numbers are specified, it is for the purpose of establishing certain minimum standards of quality. Bids may be submitted for products of equal quality, provided brand names and stock numbers are specified with bid. Bidders must include substitute/equivalent brand name.

JEFFERSON PARISH DEPARTMENT OF SEWERAGE SPECIFICATIONS

TRUCK MOUNTED JET RODDER WITH VACUUM SYSTEM

500 GALLONS; 3000PSI@40GPM

DUAL HYDRAULIC HOSE REELS

GENERAL TERMS:

All equipment furnished under this specification must be new and in current production. Accessories not specifically mentioned herein, but necessary to furnish complete unit ready for use, must also be included. Unit shall conform to the best practice known to the body trade in design, quality of material and workmanship. Assemblies, sub-assemblies, and component

parts shall be standard and interchangeable throughout the entire quantity of units, as specified in this bid. The equipment furnished shall be manufactured in the USA. A Louisiana's state dealer's license is required, in accordance with LA RS 32:1254 et seq. Vendor must provide a copy of their Louisiana dealer's license with their bid.

GUARANTEE:

The body shall be covered by minimum of a 12 month warranty against manufactured defects. Extended warranty items are listed in specifications.

JETTING SYSTEM:

Tank

The capacity of the tank shall be at least 500 gallons. Construction shall be high density polyethylene with ultraviolet inhibitors to prevent undue brittleness when exposed to sunlight and shall be of round design for additional strength. White or clear tanks will not be acceptable, due to algae growth from sunlight. Tank shall have sight gauge visible from operator's station. The sight gauge shall be connected to the tank on the top and the bottom of the gauge. Open-ended gauges are not acceptable. The tank shall be mounted over the rear axle for optimum load distribution. The tank shall have a minimum five(5) year standard manufacturer's warranty.

A 2-1/2 inch overhead type tank filling assembly shall be located on the curbside. A positive air gap anti-siphon system shall be incorporated to protect the portable water supply. A 25 air gap anti-siphon system shall be incorporated to protect the portable water supply. A 25 foot x 2-1/2 inch curb side filler hose with fittings and carrying rack (aluminum construction) must be included.

The tank shall be vented and fitted with a suitable removable port to permit inspection and access into the tank.

The system shall incorporate a suction line and a slope bottom tank to permit utilizing the entire bottom portion of the tank and settling chamber for heavy materials and to eliminate the possibility of these materials reaching the pump.

A final strainer shall be provided in the main water pump feed line. The strainer cap shall be removable by hand. Strainers requiring tools to remove the cap are unacceptable.

The tank shall be mounted in such a manner as to prohibit torsional racking of the frame from transmitting through the tank.

The tie down pipes shall be aluminum. Nylon tie down straps will not be accepted.

The tank shall have a minimum 2-1/2 inch ball valve for isolating the filter strainer. Gate valves are not acceptable.

Pump:

The pump shall be belt driven L Bracket design, triplex positive displacement, heavy duty, single acting , and triple plunger type. It shall be installed to operate at 40 GPM @3000 PSI.

The water pump to be deck mounted between the water tank and cab of truck for nose suppression to operator.

The plungers shall be ceramic material.

The valves shall be stacked. Pressed in valves will not be accepted.

The water pump shall carry a two (2) year manufacturer's warranty.

Pump system shall include muti-flow feature at control panel, feature to allow pressure changes with use of needle valve without changing the rpm of the engine.

Air purge system with air valve and needle valve located on a pressure outlet on the water pump must be provided.

Winter recirculation must be provided.

Spray bar front bumper adjustable with 8 removable jets. The system to have in cab controls for auxiliary engine ignition, pressure control, engine rpm, and pressure gauge. Spray bar to operate up to 3000 psi.

DUAL HYDRAULIC ARTICULATING HOSE REEL ASSEMBLY:

The unit shall be equipped with independent dual hose reels. Hose reels to be rear mounted on a single 3/8 inch steel plate and have 800 foot capacity of 3/4 inch sewer hose and 800 foot 1/2 inch sewer hose. The hose reels shall be narrow design for easy level wind; reels shall not exceed 12 inches in width. Hose reels shall be constructed of a minimum of 3/8 inch steel to withstand maximum working pressure without distortion. 1/4 inch hose reels requiring flanges for support will not be accepted. The hose reel shall be mounted to truck frame for lower profile. The hose reel shall not exceed 35 inches from ground level for ease of operation.

The hose reels shall be driven by hydraulic power in both directions. The hydraulic drive shall have sufficient power to retract the hose when fully extended into the sewer with the cleaning nozzle in operation. The reel shall be driven dual chain drive from the reel motor.

One hose guide (double poly roller design hinged in center) shall be provided to permit proper alignment of the 3/4 inch hose on the reel. The guide shall be pinned in place when not in use.

One hose guide (single roller design) shall be provided to permit proper alignment of the 1/2 inch hose on the reel. The guide shall be pinned in place when not in use.

The reels shall be so constructed that there are no elbows or fittings inside the drum to hinder winding and to cause maintenance problems. The hose shall enter the reels through the high pressure tubing side flange to permit ease in winding and to minimize the possibility of damage to the hose.

The hose reels and center mounted aluminum control panel shall simultaneously hydraulically articulate 90 degrees to each side of center. The reels shall articulate on a heavy-duty worm gear. For operator's safety and ease of operation, the hose reels shall lock hydraulically in any position throughout its travel. Manual swing reels with locking pin are unacceptable.

A directional valve shall be supplied at operator station for alternating hydraulic drive and hydraulic articulation.

The hose reel swivels shall be greaseable and carry one (1) year warranty.

For operator's safety and ease of operation, the hose reel shall be infinitely lockable throughout its travel. Units with reset locking pins will not be accepted.

The reels shall lock in position and articulate by a lever at control panel

The jet hose reel shall be equipped with hose footage counter.

HOSE REELS DRIVE SYSTEM

The hydraulic power for driving the hose reels shall consist of a hydraulic pump gear direct driven by the engine, a direction (reel in & out), and a speed control valve with a build in overload relief and hydraulic hose rated to withstand the maximum system pressure.

The hydraulic pump shall have a minimum capacity of at least 8 GPM @2500 RPM.

The steel oil reservoir tank shall have a minimum capacity of at least 12 gallons

A directional valve shall be supplied at operator station for alternating hydraulics between the hose reels.

The hydraulic oil filter shall be the spin-on, in-line type

CONTROL PANEL:

All gauges, switches, levers, necessary for the operation of the units, shall be grouped on a single control panel mounted between the dual hose reel, so the operator may have complete control of the cleaning operation while standing at one location. The control panel shall be constructed of aluminum.

The following instruments and controls shall be located at the hose reels operator station:

- Keyed engine ignition switch/with electric throttle
- Digital gauge package and water pressure gauge

- Lever for diverting hydraulic flow to each hose reel
- Lever for diverting the water flow to each hose reel
- Lever for controlling the speed and direction of the hose reel when moved from a central position
- Flow control valve for further control of reels speed for safety of operator
- Single exterior mounted high pressure lever water control valve shall regulate direction of water to hose reel or back to tank
- The control panel shall move with the hose reels
- Safety lanyard: A safety lanyard shall be utilized when the main water pump is in use. The lanyard shall be attached to the operator and cause the water pump engine to shutdown if the operator leaves the operators station
- Control panel light

Work light mounted lower control panel

ENGINE AUXILIARY WITH TWIN DISC CLUTCH:

The engine shall have a minimum two (2) year standard manufacturer's warranty.

The engine shall be a Tier III diesel. Water-cooled, wet sleeved, heavy duty, industrial type having a rating of 80 HP at 2,400 RPM.

The engine shall be mounted between the water tank and cab of the chassis for ease of access and noise suppression for the operator.

The engine shall be installed so that it is easily accessible for maintenance and service. Engine shrouding a belt guard to be constructed of aluminum tread plate.

The fuel shall be accessible via the chassis fuel tank tie in.

All required accessories shall be furnished, including:

- Built in hi-temp low oil shut down system
- 12-volt ignition system with alternator and battery
- Electric throttle
- Starter with lock starting switch
- Replacement cartridge type oil filter
- Positive crank case ventilation system
- Governor to limit RPM
- Muffler
- Digital gauge package
- Fuel to be supplied from the chassis fuel tank

PIPING:

All piping system shall be bolted to the under frame and be removable. Construction of piping system shall be high pressure tubing to be rated to exceed pump pressure capacity. Pump suction lines and low pressure return piping systems may be standard weight pipe with malleable fittings. Heater hoses and vinyl are not acceptable for return hoses. Piping welded to frame will be unacceptable.

A strainer shall be top deck mounted for ease of operations and be installed in the suction line to prevent foreign material from damaging the pump, and at a location permitting easy accessibility for cleaning.

A relief valve adjustable from 0-3000 PSI shall regulate pressure to the sewer-cleaning nozzle. The valve must be repairable; throw away type sealed units are not acceptable.

MAIN FRAME:

The frame shall be bolted to the chassis frame utilizing shear plates. U-bolt systems will not be accepted.

All decking shall be diamond tread plate steel for operator safety.

Steps shall be provided on curbside of the unit.

The unit frame shall be a minimum of 10 inches front & rear, and 6 inches rail formed 3/16 inch channel.

STANDARD SEWER CLEANING ACCESSORIES

Following 3/4 inch cleaning hoses to be supplied:

- One 3/4 inch stainless steel sewer-cleaning nozzle having five 35-degree rearward jets
- One 1/2 inch stainless steel sewer-cleaning nozzle having five 35-degree rearward jets
- One 3/4 inch stainless steel sewer-cleaning nozzle having five 15-degree rearward jets
- One 1/2 inch stainless steel sewer-cleaning nozzle having five 15-degree rearward jets
- One 3/4 inch skid assembly, 6 inches long, threaded for hose fittings and nozzle
- One 1/2 inch skid assembly, 6 inches long, threaded for hose fittings and nozzle

Two nozzle storage rack for 3/4 inch and 1/2 inch nozzles

Following 3/4 inch cleaning hoses to be supplied:

- 600 foot 3/4 inch 3000 PSI jet hose
- 500 foot 1/2 inch 4000 PSI jet hose
- Leader hose (steel wire braid) 3/4 inch x 10 feet long
- Leader hose (steel wire braid) 1/2 inch x 10 feet long
- 3 inch tiger tail hose protector
- 2 inch tiger tail hose protector

Wash down system includes:

- 25 foot hand gun hose with hand gun
- Handgun relief valve (the relief valve shall be adjustable)
- The hand gun system shall operate at a minimum of 500 PSI and a maximum of 800 PSI. The quick disconnect for the handgun shall be mounted at the operator station.
- Upper manhole roller constructed of aluminum

TOOL BOXES:

One (1) 12 inch x 14 inch x 72 inch full toolbox shall be installed between water tank and reel mounted above frame.

Two (2) 18 inch x 18 inch x 40 inch toolbox shall be installed on unit above the frame on driver's side.

One (1) 19 inch x 33 inch x 40 inch toolbox shall be installed on unit above the frame on driver's side.

Boxes shall be made of diamond tread plate aluminum and shall lock.

One (1) 14 inch x 14 inch x 36 inch tool tray aluminum construction above the frame on driver's side.

LIGHTING:

- Stop lights
- Tail light and direction light
- Markers
- DOT/ICC lighting to meet Federal/State laws
- Two (2) upper work lights mounted on each side of the arrow stick at operator station
- One (1) strobe light with limb guard to be mounted on the unit. On/Off switched to be located in the cab.
- One (1) directional traffic arrow stick to be mounted on the rear of the unit. Controls for the arrow stick shall be located in the cab.

VACUUM SYSTEM:

The capacity of the tank shall be at least 100 gallons.

Construction shall be carbon steel.

The vacuum system shall be hydraulic driven, utilizing a direct drive hydraulic pump off the auxiliary engine. Due to emissions and securing independent operation of the sewer cleaner, vacuum systems driven off the chassis PTO will not be accepted.

The vacuum tank shall have a full opening rear door with 4 wing bolts.

The positive displacement blower system shall incorporate an electric on/off system located on control panel.

Body Wash Out System shall be installed forward in the vacuum tank. The body washout system shall have a 3-way ball valve for utilizing the main water pump pressure.

The PD (positive displacement) blower vacuum blower shall be a minimum 500 CFM.

The system shall incorporate a 4 inch port final muffler.

The pump and hydraulic motor shall be mounted for easy access.

The hydraulic system shall be installed and limit the blower from over speeding.

The filtration system shall utilize a minimum of the following:

- primary moisture trap and float ball
- final filter
- all traps shall incorporate full opening access doors for cleaning and maintenance

The blower speed controls shall be mounted on the hose reel control panel

Three (3) 3 inch aluminum vacuum tubes in the following lengths:

- 4 foot Crown with male and female cam-lock ends
- 4 foot with male and female cam-lock ends
- 5 foot with male and female cam-lock ends
- 10 foot vacuum hose with male and female ends

The piping and hose shall have storage racks for all pipes and hoses. The rack shall be accessible from ground level.

A pipe storage rack from the tubing and hose shall be permanently installed on the vacuum tank.

PAINTING AND LINER

Entire module frame, debris tank, and hose reel shall be sprayed with industrial speed liner. The frame shall be coated top and bottom 8-10 MIL. Components shall be coated separately prior to assembly. The engine compartment and guards shall not be coated. They will be constructed of aluminum diamond treat plate.

All hydraulic, water pressure fittings and hoses shall be free of the liner.

CHASSIS:

(New) cab over style, or equal

Engine 4.74 Liter Diesel Displacement 5.19L/317

Fuel system turbocharged DI

SAE net horsepower @ RPM 215 @ 2550

SAE net torque @ RPM 452 1850

Fuel tank capacity, approx. 30 gal.

Automatic transmission

Type 6-speed automatic w/OD

ELECTRICAL:

Cold cranking Amps @ 0 degrees Fahrenheit (primary) 750

Cold cranking Amps @ 0 degrees Fahrenheit (2nd) 750

Maximum alternator capacity (amps) 110

Brake type power

Brake ABS system 4-wheel

Power steering

AM/FM stereo

Electric windows

A/C, heater, defroster

Bucket driver seat, split passenger

Exhaust, brake-butterfly type

19,500 GVWR chassis rating, 109 CA

Front gross axel weight rating: 7,275 lbs.

Rear gross axle weight rating: 13,660 lbs.

Suspension type - front tapered leaf

Suspension type - rear multi-leaf

Steering type power

Turning diameter - curb to curb 28.5 ft.

Turning diameter - wall to wall 33.0 ft.

Tires 225/70R 19.5F radial tubless

Reverse Alarm Warning system camera type

WARRANTY SERVICE REPAIRS MUST BE INITIATED WITHIN TWO (2) HOURS OF NOTIFICATION.

THE BODY SHALL BE COVERED BY MINIMUM, OF A TWELVE (12) MONTH WARRANTY AGAINST MANUFACTURED DEFECTS. EXTENDED WARRANTY ITEMS ARE LISTED IN SPECIFICATIONS

WARRANTY: 12 Months

MANUALS: (2) PARTS, (2) SERVICE MANUALS, (2) WIRING DIAGRAMS IF MANUFACTURER STILL PROVIDES. IF NO MANUALS, CD'S WILL BE ACCEDPTED

SAFETY: MUST MEET OR EXCEED ALL FEDERAL AND STATE SAFETY STANDARD

DATE: 11/07/2018

JEFFERSON PARISH

PURCHASING DEPARTMENT
P.O. BOX 9
GRETN, LA. 70054-0009
504-364-2678

BUYER: MCamardelle@jeffparish.net

BIDS WILL BE RECEIVED IN THE WEST BANK PURCHASING DEPT, SUITE 4400, JEFFERSON PARISH GENERAL GOVERNMENT BUILDING, 200 DERBIGNY STREET, GRETN, LA 70053 UNTIL 2:00 PM, 11/27/2018 AND PUBLICLY OPENED THEREAFTER.

For convenience, bidders may also submit bids in the East Bank Purchasing Department, Suite 404, Jefferson Parish Joseph S. Yenni Building, 1221 Elmwood Park Blvd., Jefferson LA 70123. However, if submitting bids on the day of bid opening, bidders must submit at the West Bank location only. All bids will be publicly opened at the West Bank location.

At no charge, bidders may also submit via Jefferson Parish's electronic procurement page by visiting www.jeffparishbids.net to register for this free site. Additional instructions are included in the text box highlighting electronic procurement.

LATE BIDS WILL NOT BE ACCEPTED

Unless submitting via online (see Page 3), each bid must be submitted in a sealed envelope bearing on the outside; the name of the Bidder, his address, and the name of the project for which the bid is submitted and the bid number.

NOTE: ONLY BIDS WRITTEN IN INK OR TYPEWRITTEN, AND PROPERLY SIGNED BY A MEMBER OF THE FIRM OR AUTHORIZED REPRESENTATIVE, WILL BE ACCEPTED. PENCIL AND/OR PHOTOSTATIC FIGURES OR SIGNATURES SHALL RESULT IN BID REJECTION.

INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

THE FOLLOWING INSTRUCTIONS APPLY TO ALL BIDS

All bids submitted are subject to these instructions and general conditions and any special conditions and specifications contained herein, all of which are made part of this bid proposal reference. By submitting a bid, vendor agrees to comply with all provisions of Louisiana Law as well be in compliance with the Jefferson Parish Code of Ordinances, Louisiana Code of Ethics, applicable Jefferson Parish ethical standards and Jefferson Parish Resolution No. 113646 and/or Resolution No. 113647.

Jefferson Parish adheres to the Louisiana Code of Governmental Ethics, contained in Louisiana Revised Statutes Annotated, R.S. 42:1101, et seq. Vendor/Proposer by this submission, warrants that there are no "conflicts of interest" related to this procurement that would violate applicable Louisiana Law. Violation of the Louisiana Code of Governmental Ethics may result in rescission of contract, permit or licenses, and the imposition of fines and/or penalties, without contractual liability to the public in accordance with applicable law.

All vendors submitting bids should register as a Jefferson Parish vendor if not already yet registered. Registration forms may be downloaded from <http://purchasing.jeffparish.net> and by clicking on Vendor Information. Current W-9 forms with respective Tax Identification numbers and vendor applications may be submitted at any time; however, if your company is not registered and/or a current W-9 form is not on file, vendor registration is mandatory. Further, a current W-9 form and respective Tax Identification number must be supplied upon contract execution, should you be awarded a contract and/or issued purchase order. Failure to do so may result in delay of payment.

All quotations shall be based on F.O.B. Agency warehouse or job site, anywhere within the Parish as designated by the Purchasing Department. This provision does not apply to public works projects

JEFFERSON PARISH requires all products to be new (current) and all work must be performed according to standard practices for the project. Unless otherwise specified, no aftermarket parts will be accepted. Unless otherwise specified, all workmanship and materials must have at least one (1) year guaranty, in writing, from the date of delivery and/or acceptance of the project. Any deviations or alterations from the specifications must be indicated and/or supporting documentation supplied with bid submission.

Bidders should submit all questions in writing via email to the buyer's email address as indicated above, no later than Five (5) working days prior to the bid opening. Bid numbers should be mentioned in all requests. If submitting online, vendors may send questions via the E-Procurement site no later than Five (5) working days prior to the bid opening.

If this bid requires a pre-bid conference (see Additional Requirements section), bidders are advised that such conference will be held to allow bidders the opportunity to identify any discrepancies in the bid specifications and seek further clarification regarding instructions. The Purchasing Department will issue a written response to bidders' questions in the form of an Addendum. Please note that all official communication will be expressed in the form of an addendum.

All formal Addenda require written acknowledgement on the bid form by the bidder. Failure to acknowledge an Addendum on the bid form shall cause the bid to be rejected. JEFFERSON PARISH reserves the right to award bid to next lowest responsive and responsible bidder in this event.

JEFFERSON PARISH will accept one price for each item unless otherwise indicated. Two or more prices for one item will result in bid rejection. Bidders are required to complete, sign and return the bid form and/or complete and return the associated line item pricing forms as indicated. Vendors must not alter the bid forms. Doing so will cause the bid to be rejected.

A corporate resolution or written evidence of the individual signing the bid having such authority must be submitted with the bid. Failure to comply will cause bid to be rejected. For corporate entities, such written evidence may be a printout of the Louisiana Secretary of State's website listing the signatory as an officer. Such printout shall be included with the bid submission. Bids submitted by Owners or Sole Proprietorships must include certification that he or she owns the entity for which the bid is signed. This documentation must be submitted with the bid. Failure to do so will result in bid rejection.

NOTE: A sample corporate resolution can be downloaded from our website <http://purchasing.jeffparish.net> or you may provide your own document. A sample certification of sole proprietorship can also be downloaded from our website <http://purchasing.jeffparish.net> or you may provide your own document.

INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

A. AWARD OF CONTRACT: JEFFERSON PARISH reserves the right to award contracts or place orders on a lump sum or individual item basis, or such combination, as shall in its judgment be in the best interest of JEFFERSON PARISH. Every contract or order shall be awarded to the LOWEST RESPONSIVE and RESPONSIBLE BIDDER, taking into consideration the CONFORMITY WITH THE SPECIFICATIONS and the DELIVERY AND/OR COMPLETION DATE. SPLIT AWARDS MADE TO SEVERAL VENDORS WILL ONLY BE GRANTED TO THOSE DEEMED RESPONSIVE AND RESPONSIBLE.

All bid prices shall remain valid for 45 days. Jefferson Parish and the lowest responsive and responsible bidder(s) by mutual written consent may mutually agree to extend the deadline for award by one (1) or more extensions of thirty (30) calendar days.

PROTESTS: Only those vendors that submitted a bid in response to this solicitation may submit a protest in writing to the Director of the Purchasing within 48 hours of bid opening. The Purchasing Director will review it in connection with the Parish Attorney's Office which will then respond in writing as soon as possible.

PREFERENCE: Unless federal funding is directly spent by Jefferson Parish for this purchase, preference is hereby given to materials, supplies, and provisions produced, manufactured or grown in Louisiana, quality being equal to articles offered by competitors outside the state. "LSA - R.S. 38:2251-2261"

B. USE OF BRAND NAMES AND STOCK NUMBERS: Where brand names and stock numbers are specified, it is for the purpose of establishing certain minimum standards of quality. Bids may be submitted for products of equal quality, provided brand names and stock numbers are specified. Complete product data may be required prior to award.

C. CANCELLATION OF CONTRACT: JEFFERSON PARISH reserves the right to cancel all or any part if not shipped promptly. No charges will be allowed for parking or cartage unless specified in quotation. The order must not be filled at a higher price than quoted. JEFFERSON PARISH reserves the right to cancel any contract at anytime and for any reason by issuing a THIRTY (30) day written notice to the contractor.

For good cause and as consideration for executing a contract with Jefferson Parish, vendor conveys, sells, assigns, and transfers to Jefferson Parish or its assigns all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of Louisiana, relating to the particular good or services purchased or acquired by Jefferson Parish.

D. PRICES: Jefferson Parish is exempt from paying sales tax under LSA-R.S. 47:301 (8)(c). All prices for purchases by Jefferson Parish of supplies and materials shall be quoted in the unit of measure specified and unless otherwise specified, shall be exclusive of state and Parish taxes. The price quoted for work shall be stated in figures. In the event there is a difference in unit prices and totals, the unit price shall prevail.

Quantities listed are for bidding purposes only. Actual requirements may be more or less than quantities listed.

Bidders are not to exclude from participation in, deny the benefits of, or subject to discrimination under any program or activity, any person in the United States on the grounds of race, color, national origin, or sex; nor discriminate on the basis of age under the Age Discrimination Act of 1975, or with respect to an otherwise qualified handicapped individual as provided in Section 504 of the Rehabilitation Act of 1973, or on the basis of religion, except that any exemption from such prohibition against discrimination on the basis of religion as provided in the Civil Rights Act of 1964, or Title VI and VII of the Act of April 11, 1968, shall also apply. This assurance includes compliance with the administrative requirements of the Revenue Sharing final handicapped discrimination provisions contained in Section 51.55 (c), (d), (e), and (k)(5) of the Regulations. New construction or renovation projects must comply with Section 504 of the 1973 Rehabilitation Act, as amended, in accordance with the American National Standard Institute's specifications (ANSI A17.1-1961).

Jefferson Parish and its partners as the recipients of federal funds are fully committed to awarding a contract(s) to firm(s) that will provide high quality services and that are dedicated to diversity and to containing costs. Thus, Jefferson Parish strongly encourages the involvement of minority and/or woman-owned business enterprises (DBE's, including MBE's, WBE's and SBE's) to stimulate participation in procurement and assistance programs.

INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

The purpose and intention of this invitation to bid is to afford all suppliers an equal opportunity to bid on all construction, maintenance, repair, operating supplies and/or equipment listed in this bid proposal. JEFFERSON PARISH WILL ACCEPT ONE BID ONLY FROM EACH VENDOR. Items bid must meet specifications.

Advertised bids will be tabulated and a copy of the tabulation will be forwarded to each responding bidder.

IN ACCORDANCE WITH STATE REGULATIONS JEFFERSON PARISH OFFERS ELECTRONIC PROCUREMENT TO ALL VENDORS

This electronic procurement system allows vendors the convenience of reviewing and submitting bids online. This is a secure site and authorized personnel have limited read access only. Bidders are encouraged to submit electronically using this free service; while the website accepts various file types, one single PDF file containing all appropriate and required bid documents is preferred. Bidders submitting uploaded images of bid responses are solely responsible for clarity. If uploaded images/documents are not legible, then bidder's submission will be rejected. Please note all requirements contained in this bid package for electronic bid submission.

Please visit our E-Procurement Page at www.jeffparishbids.net to register and view Jefferson Parish solicitations. For more information, please visit the Purchasing Department page at <http://purchasing.jeffparish.net>.

The general specifications for construction projects and the purchase of materials, services and/or supplies are those adopted by the JEFFERSON PARISH Council by Resolution No. 113646 or 113647 dated 12/09/09. The general conditions adopted by this resolution shall be considered as much a part of this document as if they were written wholly herein. A copy may be obtained from the Office of the Parish Clerk, Suite 6700, Jefferson Parish General Government Building, 200 Derbigny Street, Gretna, LA 70053. You may also obtain a copy by visiting the Purchasing Department webpage at <http://purchasing.jeffparish.net> and clicking on Online Forms.

ADDITIONAL REQUIREMENTS FOR THIS BID

PLEASE MATCH THE NUMBERS PRINTED IN THIS BOX WITH THE CORRESPONDING INSTRUCTIONS BELOW.

13, 15

1. All bidders must attend the MANDATORY pre-bid conference and will be required to sign in and out as evidence of attendance. In accordance with LSA R.S. 38:2212(I), all prospective bidders shall be present at the beginning of the MANDATORY pre-bid conference and shall remain in attendance for the duration of the conference. Any prospective bidder who fails to attend the conference or remain for the duration shall be prohibited from submitting a bid for the project.
2. Attendance to this pre-bid conference is optional. However, failure to attend the pre-bid conference shall not relieve the bidder of responsibility for information discussed at the conference. Furthermore, failure to attend the pre-bid conference and inspection does not relieve the successful bidder from the necessity of furnishing materials or performing any work that may be required to complete the work in accordance with the specification with no additional cost to the owner.
3. Contractor must hold current applicable JEFFERSON PARISH licenses with the Department of Inspection and Code Enforcement. Contractor shall obtain any and all permits required by the JEFFERSON PARISH Department of Inspection and Code Enforcement. The contractor shall be responsible for the payment of these permits. All permits must be obtained prior to the start of the project. Contractor must also hold any and all applicable Federal and State licenses. Contractor shall be responsible for the payment of these permits and shall obtain them prior to the start of the project.
4. A LA State Contractor's License will be required in accordance with LSA R.S. 37-2150 et. seq. and such license number will be shown on the outside of the bid envelope. Failure to comply will cause the bid to be rejected. Additionally if submitting the bid electronically, then the license number must be entered in the appropriate field in the Electronic Procurement system. Failure to comply will cause the bid to be rejected.
5. It is the bidder's responsibility to visit the job site and evaluate the job before submitting a bid.
6. Job site must be clean and free of all litter and debris daily and upon completion of the contract. Passageways must be kept clean and free of material, equipment, and debris at all times. Flammable material must be removed from the job site daily because storage will not be permitted on the premises. Precautions must be exercised at all times to safeguard the welfare of JEFFERSON PARISH and the general public.

INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

7. **PUBLIC WORKS BIDS:** All awards for public works in excess of \$5,000.00 will be reduced to a formal contract which shall be recorded at the contractor's expense with the Clerk of Court and Ex-Officio Recorder of Mortgages for the Parish of Jefferson. A price list of recordation costs may be obtained from the Clerk of Court and Ex-Officio Recorder of Mortgages for the Parish of Jefferson. All awards in excess of \$25,000.00 will require both a performance and a payment bond. Unless otherwise stated in the bid specifications, the performance bond requirements shall be 100% of the contract price. Unless otherwise state in the bid specifications, the payment bond requirements shall be 100% of the contract price. Both bonds shall be supplied at the signing of the contract.
8. **NON-PUBLIC WORKS BIDS:** A performance bond will be required for this bid. The amount of the bond will be 100% of the contract price unless otherwise indicated in the specifications. The performance bond shall be supplied at the signing of the contract.
9. **NON-PUBLIC WORKS BIDS:** A payment bond will be required for this bid. The amount of the bond will be 100% of the contract price unless otherwise indicated in the specifications. The payment bond shall be supplied at the signing of the contract.
10. All bidders must comply with the requirements stated in the attached "Standard Insurance Requirements" sheet attached to this bid solicitation. Prior to contract executions/purchase order issuance, the successful bidder will be required to provide final insurance certificates which shall name Jefferson Parish as an additional insured in accordance with the instructions in the aforementioned "Standard Insurance Requirements" sheet.
11. A bid bond will be required with bid submission in the amount of 5% of the total bid, unless otherwise stated in the bid specifications. Acceptable forms shall be limited to cashier's check, certified check, or surety bid bond. All sureties must be in original format (no copies). If submitting a bid online, vendors must submit an electronic bid bond through the respective online clearinghouse bond management system(s) as indicated in the electronic bid solicitation on Central Auction House. No scanned paper copies of any bid bond will be accepted as part of the electronic bid submission.
12. This is a requirements contract to be provided on an as needed basis. JEFFERSON PARISH makes no representations on warranties with regard to minimum guaranteed quantities unless otherwise stated in the bid specifications.
13. Freight charges should be included in total cost when quoting. If not quoted FOB DELIVERED, freight must be quoted as a separate item. Bid may be rejected if not quoted FOB DELIVERED or if freight charges are not indicated on bid form.
14. **PUBLIC WORKS BIDS - Completed, Signed and Properly Notarized Affidavits Required;** This applies to all solicitations for construction, alteration or demolition of public buildings or projects, in conformity with the provisions contained in LSA-RS 38:2212.9, LSA-RS 38:2212.10, LSA-RS 38:2224, and Sec 2-923.1 of the Jefferson Parish Code of Ordinances. For bidding purposes, all bidders must submit with bid submission COMPLETED, SIGNED and PROPERLY NOTARIZED Affidavits, including: Non-Conviction Affidavit, Non-Collusion Affidavit, Campaign Contribution Affidavit, Debt Disclosures Affidavit and E-Verify Affidavit. For the convenience of vendors, all affidavits have been combined into one form entitled PUBLIC WORKS BID AFFIDAVIT. This affidavit must be submitted in its original format, and without material alteration, in order to be compliant and for the bid to be considered responsive. A scanned copy of the completed, signed and properly notarized affidavit may be submitted with the bid, however, the successful bidder must submit the original affidavit in its original format and without material alteration upon contract execution. Failure to comply will result in the bid submission being rejected as non-responsive. The Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event.
15. **NON PUBLIC WORK BIDS - Completed, Signed and Properly Notarized Affidavits Required** in conformity with the provisions contained in LSA - RS 38:2224 and Sec 2-923.1 of the Jefferson Parish Code of Ordinances. For bidding purposes, all bidders must submit with bid submission COMPLETED, SIGNED and PROPERLY NOTARIZED Affidavits, including: Non-Collusion Affidavit, Debt Disclosures Affidavit and Campaign Contribution Affidavit. For the convenience of vendors, all affidavits have been combined into one form entitled NON PUBLIC WORKS BID AFFIDAVIT. This affidavit must be submitted in its original format, and without material alteration, in order to be compliant and for the bid to be considered responsive. A scanned copy of the completed, signed and properly notarized affidavit may be submitted with the bid, however, the successful bidder must submit the original affidavit in its original format and without material alteration upon contract execution. Failure to comply will result in the bid submission being rejected as non-responsive. The Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event.
16. The ensuing contract for this bid solicitation may be eligible for FEMA reimbursement and/or Federal funding/reimbursement. As such, the referenced appendix will be applicable accordingly and shall be considered a part of the bid documents. All applicable certifications must be duly completed, signed and submitted with bid submission. Failure to submit applicable certifications with bid submission will result in bid rejection.
17. For this project, the Contractor shall not pay any state or local sales or use taxes on materials and equipment which are affixed and made part of the immovable property of the project or which permanently incorporated in the project (hereinafter referred to as "applicable materials and equipment"). All purchases of applicable materials or equipment shall be made by the contractor on behalf of and as the agent of Jefferson Parish (Owner), a political subdivision of the State of Louisiana. No state and local sales and use taxes are owned on applicable materials and equipment under the provisions of Act 1029 of the 1991 Regular Session - Louisiana Revised Statute 47:301(8)(c). Owner will furnish contractor a certificate form which certifies that Owner is not required to pay such state or local sales and use taxes, and contractor shall furnish a copy of such certificate to all vendors or suppliers of the applicable materials and equipment.

It shall be the duty of every parish officer, employee, department, agency, special district, board, and commission: and the duty of every contractor, subcontractor, and licensee of the parish, and the duty of every applicant for certification of eligibility for a parish contract or program, to cooperate with the Inspector General in any investigation, audit, inspection, performance review, or hearing pursuant to Jefferson Parish Code of Ordinances Section 2-155.10(19). By submitting a bid, vendor acknowledges this and will abide by all provisions of the referenced Jefferson Parish Code of Ordinances.

BID NO.: 50-00124610

BID FORM
Non Public Works

All Public Work Projects are required to use the Louisiana Uniform Public Work Bid Form

All prices must be held firm unless an escalation provision is requested in this bid. Jefferson Parish will allow one escalation during the term of the contract, which may not exceed the U.S. Bureau of Labor Statistics National Index for all Urban Consumers, unadjusted 12 month figure. The most recently published figure issued at the time an adjustment is requested will be used. A request must be made in writing by the vendor, and the escalation will only be applied to purchases made after the request is made.

Are you requesting an escalation provision?

YES _____ NO X

MAXIMUM ESCALATION PERCENTAGE REQUESTED _____%

INITIAL BID PRICES WILL REMAIN FIRM THROUGH THE DATE OF 4-1-2019

For the purposes of comparison of bids when an escalation provision is requested, Jefferson Parish will apply the maximum escalation percentage quoted by the bidder to the period to which it is applied in the bid. The initial price and the escalation will be used to calculate the total bid price. It will be assumed, for comparison of prices only, that an equal amount of material or labor is purchased each month throughout the entire contract.

Non-Public Works Bid Affidavit Instructions

- Affidavit is supplied as a courtesy to Affiants, but it is the responsibility of the affiant to insure the affidavit they submit to Jefferson Parish complies, in both form and content, with federal, state and parish laws.
- Affidavit must be signed by an authorized representative of the entity or the affidavit will not be accepted.
- Affidavit must be notarized or the affidavit will not be accepted.
- Notary must sign name, print name, and include bar/notary number, or the affidavit will not be accepted.
- Affiant **MUST** select either A or B when required or the affidavit will not be accepted.
- Affiants who select choice A must include an attachment or the affidavit will not be accepted.
- If both choice A and B are selected, the affidavit will not be accepted.
- Affidavit marked N/A will not be accepted.
- It is the responsibility of the Affiant to submit a new affidavit if any additional campaign contributions are made after the affidavit is executed but prior to the time the council acts on the matter.

Instruction sheet may be omitted when submitting the affidavit

Non-Public Works Bid**AFFIDAVIT**STATE OF LOUISIANAPARISH/COUNTY OF TERREBONNE

BEFORE ME, the undersigned authority, personally came and appeared: SCOTT OLIPHANT, (Affiant) who after being by me duly sworn, deposed and said that he/she is the fully authorized PRESIDENT of HIHO OF BATON ROUGE (Entity), the party who submitted a bid in response to Bid Number 50-00124610, to the Parish of Jefferson.

Affiant further said:

Campaign Contribution Disclosures

(Choose A or B, if option A is indicated please include the required attachment):

Choice A X

Attached hereto is a list of all campaign contributions, including the date and amount of each contribution, made to current or former elected officials of the Parish of Jefferson by Entity, Affiant, and/or officers, directors and owners, including employees, owning 25% or more of the Entity during the two-year period immediately preceding the date of this affidavit or the current term of the elected official, whichever is greater. Further, Entity, Affiant, and/or Entity Owners have not made any contributions to or in support of current or former members of the Jefferson Parish Council or the Jefferson Parish President through or in the name of another person or legal entity, either directly or indirectly.

Choice B _____

there are **NO** campaign contributions made which would require disclosure under Choice A of this section.

AMOUNT	\$1,000.00
OFFICE	JEFFERSON PARISH COUNCIL
NAME	PAUL JOHNSTON
DATE	09/26/11

Debt Disclosures

(Choose A or B, if option A is indicated please include the required attachment):

Choice A _____ Attached hereto is a list of all debts owed by the affiant to any elected or appointed official of the Parish of Jefferson, and any and all debts owed by any elected or appointed official of the Parish to the Affiant.

Choice B ^X_____ There are **NO** debts which would require disclosure under Choice A of this section.

Affiant further said:

That Affiant has employed no person, corporation, firm, association, or other organization, either directly or indirectly, to secure the public contract under which he received payment, other than persons regularly employed by the Affiant whose services in connection with the construction, alteration or demolition of the public building or project or in securing the public contract were in the regular course of their duties for Affiant; and

[The remainder of this page is intentionally left blank.]

That no part of the contract price received by Affiant was paid or will be paid to any person, corporation, firm, association, or other organization for soliciting the contract, other than the payment of their normal compensation to persons regularly employed by the Affiant whose services in connection with the construction, alteration or demolition of the public building or project were in the regular course of their duties for Affiant.

BUILD SPECIFICATIONS
TRUCK MOUNTED JET RODDER WITH VACUUM SYSTEM
PIPEHUNTER 5934 TMV
500 Gallon / 3000 PSI @ 40 GPM
DUAL HYDRAULIC HOSE REELS

INTENT:

This specification describes a 500-gallon high-pressure truck mounted sewer jetter. The sewer cleaner shall be manufactured in a way that will utilize a water pump driven by an auxiliary diesel engine with dual hydraulic drive sewer hose reels. The machine is equipped with a self-contained, non-corrosive, non-metallic water tank supply as the water source for the high-pressure pump. The machine will be equipped with vacuum system driven by the auxiliary engine & 100 gallon debris tank with 500 CFM and capable of being operated by one man, with all operating controls for high-pressure, dual hose reels, and vacuum system located on a single control panel at the rear of the machine for operator safety.

GENERAL TERMS:

All equipment furnished under this contract shall be new and current production. Accessories not specifically mentioned herein, but necessary to furnish complete unit ready for use, shall also be included. Unit shall conform to the best practice known to the body trade in design, quality of material and workmanship. Assemblies, sub-assemblies and component parts shall be standard and interchangeable throughout the entire quantity of units as specified in this invitation to bid. The equipment furnished shall be manufactured in the USA.

GUARANTEE:

The body shall be covered by minimum a twelve (12) month warranty against manufactured defects. Extended warranty items are listed in specifications.

PARTS MANUAL:

Bidder shall furnish complete parts, maintenance, and operator's manual with each body sold.

BID QUOTATION:

Bidder shall complete every space in the specification bidder's proposal column with a check mark to indicate if the item being bid is exactly as specified. If not, the "NO" column must be checked and a detailed description of the deviation from the specification to be supplied.

JETTING SYSTEM

TANK

The capacity of the tank shall be at least 500 gallons

Construction shall be black high density polyethylene with ultraviolet inhibitors to prevent undue brittleness when exposed to sunlight and shall be of round design for additional strength. Tank shall have sight gauge visible from operator's station. The sight gauge shall be connected to the tank on the top and the bottom of the gauge.

The tank shall be mounted over the rear axle for optimum load distribution.

The tank shall have a minimum five (5) year standard manufacturer's warranty.

A 2 ½" overhead type tank filling assembly shall be located on the curbside. A positive air gap anti-siphon system shall be incorporated to protect the portable water supply. The tank shall be capable of being filled without removal of inspection lid. One 25' x 2 ½" curb side filler hose with fittings and carrying rack (Aluminum Construction) will be included.

The tank shall be vented and fitted with a (separate from fill system) removable port to permit inspection and access into the tank.

The system shall incorporate a suction line and a slope bottom tank to permit utilizing the entire bottom portion of the tank and settling chamber for heavy materials and to eliminate the possibility of these materials reaching the pump.

A final strainer shall be provided in the main water pump feed line. The strainer cap shall be removable by hand. Strainers requiring tools to remove the cap are unacceptable.

The tank shall be mounted in such a manner as to prohibit torsional racking of the frame from transmitting through the tank.

The tie down pipes shall be aluminum.

The tank shall have a minimum 2 ½" ball valve for isolating the filter strainer.

PUMP

The pump shall be PTO clutch belt driven L Bracket design, triplex positive displacement, heavy duty, single acting, and triple plunger type. It shall be installed to operate at 40 GPM @ 3000 PSI

The water pump to be deck mounted between the water tank and cab of truck for noise suppression to operator.

The plungers shall be ceramic material.

The valves shall be stacked.

The water pump to carry a (2) year manufactures' warranty.

Pump system shall include multi-flow feature at control panel, feature to allow pressure changes with use of needle valve with out changing the rpm of the engine.

Air purge system with air valve and needle valve located on a pressure outlet on the water pump will be provided.

Winter recirculation will be provided.

Spray bar front bumper adjustable with 8 removable jets. The system to have in cab controls for auxiliary engine ignition, pressure control, engine rpm, and pressure gauge and. Spray bar to operate up to 3000 psi.

DUAL HYDRAULIC ARTICULAING HOSE REEL ASSEMBLY

The unit shall be equipped with independent dual hose reels. Hose reels to be rear mounted on a single 3/8" steel plate and have 800 ft capacity of 3/4" sewer hose & 800 ft. 1/2" sewer hose. The hose reels shall be narrow design for easy levelwind; reels shall not exceed 10" in width. Hose reels shall be constructed of a minimum of 3/8" steel to withstand maximum working pressure without distortion. The hose reel shall be mounted to truck frame for lower profile The hose reel shall not exceed 35" from ground level for ease of operation.

The hose reels shall be driven by hydraulic power in both directions. The hydraulic drive shall have sufficient power to retract the hose when fully extended into the sewer with the cleaning nozzle in operation. The reel shall be driven dual chain drive from the reel motor.

One hose guide (Double Poly Roller Design Hinged In Center) shall be provided to permit proper alignment of the 3/4" hose on the reel. The guide shall be pinned in place when not in use.

One hose guide (Single Roller Design) shall be provided to permit proper alignment of the 1/2" hose on the reel. The guide shall be pinned in place when not in use.

The reels shall be so constructed that there are no elbows or fittings inside the drum to hinder winding and to cause maintenance problems. The hose shall enter the reels through the high pressure tubing side flange to permit ease in winding and to minimize the possibility of damage to the hose.

The hose reels and center mounted aluminum control panel shall simultaneously hydraulically articulate 90 degrees to each side of center. The reels shall articulate on a heavy-duty worm gear. For operator's safety and ease of operation, the hose reels shall lock hydraulically in any position throughout its travel.

A directional valve shall be supplied at operator station for alternating hydraulic drive and hydraulic articulation.

The hose reel swivels shall be greaseable and carry a (1) year warranty.

For operator's safety and ease of operation, the hose reel shall be infinitely lockable throughout its travel. Units with reset locking pins will not be accepted.

The reels shall lock in position and articulate by a lever at control panel.

The 3/4" jet hose reel shall be equipped with hose footage counter.

HOSE REELS DRIVE SYSTEM

The hydraulic power for driving the hose reels shall consist of a hydraulic pump gear direct driven by the engine, a direction (reel in & out) and a speed control valve with a built in overload relief and hydraulic hose rated to withstand the maximum system pressure.

The hydraulic pump shall have a minimum capacity of at least 8 GPM @ 2500 RPM.

The aluminum oil reservoir tank shall have a minimum capacity of at least 15 gallons.

A directional valve shall be supplied at operator station for alternating hydraulics between the hose reels.

The hydraulic oil filter shall be the spin-on, in-line type.

CONTROL PANEL

All gauges, switches, levers, necessary for the operation of the unit, shall be grouped on a single control panel mounted between the dual hose reels, so the operator may have complete control of the cleaning operation while standing at one location. The control panel shall be constructed of aluminum.

The following instruments and controls shall be located at the hose reels operator station.

- Keyed engine ignition switch/ With Electric throttle
- Digital gauge package and water pressure gauge.
- Lever for diverting the hydraulic flow to each hose reel.
- Lever for diverting the water flow to each hose reel.
- Lever for controlling the speed and direction of the hose reel when moved from a central position.
- Flow control valve for further control of reels speed for safety of operator.
- Single exterior mounted high pressure lever water control valve shall regulate direction of water to hose reel or back to tank.
- The control panel shall move with the hose reels.
- Safety Lanyard: A safety lanyard shall be utilized when the main water pump is in use. The Lanyard shall attach to the operator and cause the water pump engine to shutdown if the operator leaves the operators station.
- Control panel light (LED).
- Work light mounted lower control panel (LED).

ENGINE AUXILIARY

The engine shall have a minimum two (2) year standard manufacturer's warranty.

The engine shall be a Tier III diesel. Water-cooled, heavy duty, industrial type having a rating of 91 HP at 2,400 RPM.

The engine shall be mounted between the water tank and cab of the chassis for ease of access and noise suppression for the operator.

The engine shall be installed so that it is easily accessible for maintenance and service.

The engine shall be installed so that it is easily accessible for maintenance and service. Engine shrouding and belt guards to be constructed of aluminum tread plate.

The fuel shall be accessible via the chassis fuel tank tie in.

All required accessories shall be furnished, including:

- Built in Hi-temp low oil shut down system
- 12-volt ignition system with alternator and battery
- Electric throttle

- Starter with lock starting switch
- Replacement cartridge type oil filter
- Positive crank case ventilation system
- Governor to limit RPM
- Muffler
- Digital gauge package
- Fuel to be supplied from the chassis fuel tank

PIPING

All piping systems shall be bolted to under frame and be removable. Construction of piping system shall be high pressure tubing to be rated to exceed pump pressure capacity. Pump suction lines and low pressure return piping systems may be standard weight pipe with malleable fittings.

A strainer shall be top deck mounted for ease of operations and be installed in the suction line to prevent foreign material from damaging the pump, and at a location permitting ease accessibility for cleaning.

A relief valve adjustable from 0-3000 PSI shall regulate pressure to the sewer-cleaning nozzle. The valve must be repairable.

MAIN FRAME

The frame shall be bolted to the chassis frame utilizing shear plates.

All decking shall be diamond tread plate steel for operator safety.

Steps Shall be provided on curbside of the unit.

The unit frame shall be a minimum of 10" Front & rear and 6" rail formed 3/16" channel.

STANDARD SEWER CLEANING ACCESSORIES

Following cleaning tools to supplied:

- One ¾" stainless steel sewer-cleaning nozzle having five 35-degree rearward jets.
- One ½" stainless steel sewer-cleaning nozzle having five 35-degree rearward jets.
- One ¾" stainless steel sewer-cleaning nozzle having five 15-degree rearward jets.
- One ½" stainless steel sewer-cleaning nozzle having five 15-degree rearward jets.
- One ¾" skid assembly, 6" long, threaded for hose fittings and nozzle
- One ½" skid assembly, 6" long, threaded for hose fittings and nozzle
- Two Nozzle storage racks for ¾" & ½" nozzles

Following ¾" cleaning hoses to be supplied:

600 ft ¾" 3000 PSI jet hose

500 ft. ½" 4000 PSI jet hose

Two Leader Hoses (steel wire braid) (1) ¾" x 10' long (1) ½" x 10' long.

(1) 3" Tiger Tail hose protector.

(1) 2" Tiger Tail hose protector.

Wash down system includes:

- 25 ft Handgun gun hose with hand gun.
- Handgun relief valve (the relief valve shall be adjustable)
- The hand gun system shall operate at a minimum of 500 psi and a maximum of 800 PSI. The quick disconnect for the handgun shall be mounted at the operator station

(1) Upper manhole roller constructed of aluminum.

TOOL BOXES

One (1) 12" x 14" x 72" Full locking toolbox shall be installed between water tank and dual hose reel mounted above frame

Two (2) 18" x 18" x 36" toolbox shall be installed on unit below frame.

One (1) 19" x 33" x 40" toolbox shall be installed on unit above frame driver side

Boxes shall be made of diamond tread plate aluminum and shall lock.

One (1) 14" x 14" x 36" Tool tray aluminum construction above frame driver side.

LIGHTING

Stop Lights

Tail light & direction light

Markers

DOT/ICC lighting to meet Federal/State laws

Two (2) upper work lights mounted each side arrowstick at operator station (LED).

(1) Strobe light with limb guard to be mounted on unit on/off switch to be located in cab (LED).

(1) Directional traffic arrowstick to be mounted on the rear of the unit. Controls for the arrowstick shall be located in the cab (LED).

VACUUM SYSTEM

The capacity of the tank shall be at least 100 gallons

Construction shall be carbon steel.

The vacuum system shall be Hydraulic driven utilizing a direct drive hydraulic pump off the auxiliary engine. Due to emissions and securing independent operation of the sewer cleaner vacuum systems driven of the chassis pto will not be accepted.

The vacuum tank shall have a full opening rear door with 4 wing bolts

The positive displacement blower system shall incorporate an electric on off system located on control panel.

Body Wash Out System shall be installed forward in the vacuum tank. The body washout system shall have a 3-way ball valve for utilizing the main water pump pressure.

The PD (positive displacement) blower vacuum blower shall be a minimum 500 CFM

The system shall incorporate a 4" port final muffler.

The pump and hydraulic motor shall be mounted for easy access

The hydraulic system shall be installed and limit the blower from over speeding.

The filtration system shall utilize a minimum of the following:

- Primary moisture trap and float ball
- Final filter
- All trap shall incorporate full opening access doors for cleaning and maintenance

The blower speed controls shall be mounted on the hose reel control panel.

3-3" aluminum vacuum tubes in the following lengths :

4' Crown with male and female cam-lock ends

4' With male and female cam-lock ends

5' with male and female cam-lock ends

10' vacuum hose with male and female ends.

The piping and hose shall have storage racks all pipes and hoses. The rack shall be accessible from ground level.

A pipe storage rack for the tubing and hose shall be permanently installed on the vacuum tank.

PAINTING & LINER

Entire module frame, debris tank and hose reel shall be sprayed with Black industrial speed liner. The frame shall be coated top and bottom 8-10 MIL. Components shall be coated separately prior to assembly. The engine compartment and guards shall not be coated they will be constructed of aluminum diamond tread plate.

All hydraulic, water pressure fittings and hoses shall be free of the liner.

PIPEHUNTER

Truck Mount Jetter

Unit Features

- One Piece Roto-Molded Water Tank
- Capacities from 500 to 4000 Gallons
- Structural Steel Frame with Liner Coating
- Application Specific Hydraulic Hose Reel Design
- Diesel-Power Auxiliary Engine
- Giant Triplex Water Pump
- "Tank" 90 Deg. Swivel Union
- Aluminum Fuel and Hydraulic Tanks

Municipality and Contractor-Duty Rated Equipment

1.800.373.1318

www.pipehunter.com

Truck Mount Jetter

Medium-Duty Setup

Our medium-duty configuration is any truck jet up to 26,000 GVWR. This allows for many combinations of water tank size and reel setup to meet your specific build needs. We can customize the toolbox configuration as well for your crews specific hardware and gear.

Features

- Water Tanks up to 1,000 Gallon Capacity
- Custom Built Frame
- Diesel Powerplant
- Giant Triplex water pump
- Hydraulic Reel Drive & Articulation
- Optional Dual Reel
- Optional Lowered Reel Deck
- Optional Residential Muffler

Truck Mount Jetter

Heavy-Duty Setup

Our heavy-duty configuration is any truck jet over 26,000 GVWR. This allows for many combinations of 1,000+ gallons water tank capacity and reel setup. The toolbox configuration can be specific to your crews needs for gear and hardware.

Features

- Water tanks up to 4,000 Gallon Capacity
- Custom Built Frame
- Diesel Powerplant
- Giant Triplex water pump
- Hydraulic Reel Drive & Articulation
- Optional Dual Reel
- Optional Lowered Reel Deck
- Optional Residential Muffler

PIPEHUNTER

Truck Mount Jetter

Front-Mount Reel Option

Make sure your operators are safe from traffic with this outstanding front-mount reel design. Hydraulic drive articulation lets the reel be positioned and locked exactly where it needs to be. Operators will appreciate the added flexibility of this option.

Features

- Hydraulic-Drive Reel
- Hydraulic-Reel Articulation
- Remote Gauges
- Available on chassis under 25,999 GVWR

www.pipehunter.com

Truck Mount Jetter

Water System

Deliver smooth and reliable pressure with this triplex water pump. The highest quality components are used in building up these industry-standard powerhouse pumps. Systems available in these hose sizes: 3/8" - 1/2" - 3/4" - 1"

Features

Triplex water pump with ceramic plungers [optional stainless steel]
Strained suction line
V-Belt Drive design
Rebuildable Relief Valve
Diesel or Gas Power

Options

Optional PTO Clutch
Optional Air Purge System

Available Water Systems

- 18 GPM @ 4000 PSI
- 25 GPM @ 4000 PSI
- 35 GPM @ 2000 PSI
- 40 GPM @ 2000 PSI
- 40 GPM @ 3000 PSI
- 50 GPM @ 3000 PSI
- 60 GPM @ 3000 PSI
- 60 GPM @ 2000 PSI
- 80 GPM @ 2000 PSI

Truck Mount Jetter

Hose Reel

We don't use off-the-shelf components, we design every part. Our reels are made for our equipment specifically, to make your job easier. Features like auto-levelwind reel design, or our 10" ID slewing bearing help make this the toughest reel in the industry.

Features

- Optional 10" articulating worm-gear drive bearing
- PipeHunter Liner Coated
- Hydraulic Drive
- Capacities available up to 1200'
- "Tank" 90 deg. Swivel Union w- Optional Auto Lube

Easy Swap Main Ball Valve

10" ID Hydraulic Slewing Bearing

PipeHunter Tank Swivel

PIPEHUNTER

Truck Mount Jetter

Frame

Our structural ANSI steel frame & drawbar frame rails help us make the longest lasting frames in the industry. All of our frames are 100% coated in our PipeHunter Lining before assembly begins.

Features

- 6" Structural ANSI Steel Frame & Drawbar Rails
- Integrated Pump Mounting Pad
- Welded Construction
- Integrated Storage Tray
- Locking Drawbar Tool Box
- Recessed DOT Trailer Lighting
- Liner Coating

Liner Color Options

- Camo Brown
- Desert Tan
- Emerald Green

- Black
- Dove Gray
- Charcoal Gray

- Red
- Orange
- Yellow

- Medium Green
- Medium Blue
- Camo Green

Manufacture Defects

WARRANTY

Underground, Inc., as Manufacturer of PipeHunter Equipment, warrants that all equipment produced by it and bearing the PipeHunter name shall be free from defects in material and workmanship, under normal use and service as determined by Underground, Inc. for a period of twelve (12) months from the date of delivery to the first retail purchaser. If the unit is first placed into service as a demonstrator, the warranty period shall begin on the date the unit is first placed in such service.

Should any equipment or part of such equipment sold hereunder prove to be defective in material or workmanship within said period, and be returned to Manufacturing facility no later than 15 days after the expiration date of the warranty, transportation charges prepaid by the Buyer, and upon examination be found to be defective, such part will be replaced at the factory by the Manufacturer free of charge. Duly the Manufacturer shall be under no further liability in respect to such warranty. It is expressly understood that Manufacturer's liability is limited to furnishing of such replacement parts within a reasonable length of time and that Manufacturer will not be liable for any damages, losses or expenses arising in connection with the use of or inability to use the unit(s) whatsoever. Buyer shall be responsible for the payment of duties or taxes on warranty parts, if applicable. The Manufacturer shall be under no liability because of normal wear and tear or operation or maintenance contrary to the manufacturer's official Operator's manual. The Buyer accepts any liability for damage or injury resulting from the removal or alteration of safety guards and safety precautions provided on the unit at the time of delivery. This warranty shall not apply and Underground shall have no liability under it or otherwise if the unit shall have been injured by accident, careless handling or improper applications of if any repairs have been made to the unit by other than UNDERGROUND, its agents or employees.

Warranties covering major components not of Pipehunter manufacture (power plants, hydraulics, trucks, transmissions, electrical components, batteries, tires, etc.) are warranted by their respective manufacturers.

THIS WARRANTY IS NOT TRANSFERABLE

PREVENTIVE CARE PROGRAM

A Group Company

HINO INSIGHT CONNECTED VEHICLE

A Toyota Group Company

HINOCARE PREVENTIVE MAINTENANCE

Controlling vehicle maintenance costs are a challenge that fleet managers and business owners are faced with everyday. HinoCare meets that challenge by locking in planned maintenance costs for up to 7 years.

You're not only able to plan more accurately but can rest easy knowing that your vehicles are current with preventive service and delivering the most cost effective ownership available.

With Hino INSIGHT it's never been easier to schedule your maintenance. INSIGHT CASE MANAGEMENT keeps track of your mileage and provides reminders when your vehicle needs a service. It can even facilitate scheduling your preventive service with a knowledgeable Hino service technician and keeps a record of your vehicle's service history.

HINOCARE BENEFITS:

KNOWN COST: HinoCare locks in your preventive maintenance at today's labor rate and parts cost. It is easier to plan your business when you know what your operational costs are going to be for the life of your vehicle.

FINANCE OPTION: Through Toyota Commercial Finance or Hitachi Capital America, you can finance your HinoCare plan right along with your vehicle financing.

VALUE: Receive complete and detailed preventive maintenance records to maximize vehicle resale value.

HINOWATCH COVERAGE

2019MY COE HINO TRUCKS

HinoWatch is a 24/7/365 roadside assistance program that covers your new Hino truck for the first 3 years of ownership regardless of mileage. HinoWatch offers Hino owners roadside assistance throughout the United States and Canada.

Simply call the toll free number, 1-866-365-HINO (4466), and provide your Vehicle Identification Number (VIN), current truck location and problem description. All calls to HinoWatch are at no charge to Hino customers. A HinoWatch representative can assist customers in one of sixty-five languages and will help you with arrangements to get you back on the road quickly.

HINOWATCH COVERS THE FOLLOWING SERVICES AT NO-CHARGE TO THE CUSTOMERS.

LOCKOUT SERVICE

If you are locked out of your truck, HinoWatch will coordinate help to get you into your truck so you can get back on the road quickly.

BATTERY JUMPSTART

If your batteries are dead, HinoWatch will coordinate help with a jumpstart to get you back on the road quickly.

INFORMATION

Customers can call anytime for information such as the nearest authorized Hino dealer or simply to get answers to basic vehicle questions.

ADDITIONAL SERVICES HINOWATCH CAN COORDINATE FOR CUSTOMERS (CHARGES NOT COVERED BY HINOWATCH)

TOWING

HinoWatch will help owners arrange a tow truck if needed. If towing is required to an authorized Hino dealer due to a failure that is covered by Hino warranty, the customer will be reimbursed for the towing expense at the completion of the repairs through the dealer¹.

If the tow is not due to a warranty covered failure, the tow bill will be not be reimbursed to the customer.

1. Towing is covered for warrantable failures for 24 months after the in-service date.

ROADSIDE SERVICE

HinoWatch will assist the customer in arranging for roadside service assistance if requested. Expenses for roadside service assistance are not covered by HinoWatch or Hino warranty.

TIRE SERVICE

HinoWatch will assist the customer in arranging for roadside tire service if requested. HinoWatch will connect you to a local tire service provider that can assist you with roadside tire repairs.

OUT OF FUEL / DIESEL EXHAUST FLUID (DEF)

A HinoWatch vendor will arrive with fuel¹ or DEF¹ to get you on your way.

1. Customer is responsible for fuel, DEF, and roadside service costs.

Enter the tax classification (D=disregarded entity, C=corporation, P=partnership) ▶ <input type="checkbox"/> Other (see instructions) ▶</div><div style="width:30%; text-align:center;"><input type="checkbox"/> Exempt payee</div></div>				
	Address (number, street, and apt. or suite no.) 3699 WEST PARK AVE		Requester's name and address (optional) PLEASE REMIT TO: PO BOX 1450 GRAY LA 70359		
City, state, and ZIP code GRAY LA 70359		List account number(s) here (optional)			
Part I Taxpayer Identification Number (TIN)					
<div style="display:flex; justify-content:space-between;"><div style="width:60%;">Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see <i>How to get a TIN</i> on page 3. Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.</div><div style="width:35%; border:1px solid black; padding:5px;"><div style="border-bottom:1px solid black; text-align:center;">Social security number</div><div style="text-align:center;">OR</div><div style="border-bottom:1px solid black; text-align:center;">Employer identification number</div><div style="text-align:center;">90 : 0196371</div></div></div>					
Part II Certification					
Under penalties of perjury, I certify that:					
<div style="display:flex;"><div style="width:20px;">1.</div><div>The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and</div></div>					
<div style="display:flex;"><div style="width:20px;">2.</div><div>I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and</div></div>					
<div style="display:flex;"><div style="width:20px;">3.</div><div>I am a U.S. citizen or other U.S. person (defined below).</div></div>					
Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

General Instructions					
Section references are to the Internal Revenue Code unless otherwise noted.					
Purpose of Form					
A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.					
Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:					
<div style="display:flex;"><div style="width:20px;">1.</div><div>Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),</div></div>					
<div style="display:flex;"><div style="width:20px;">2.</div><div>Certify that you are not subject to backup withholding, or</div></div>					
<div style="display:flex;"><div style="width:20px;">3.</div><div>Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.</div></div>					
Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.					
Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are: <ul style="list-style-type: none">• An individual who is a U.S. citizen or U.S. resident alien,• A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,• An estate (other than a foreign estate), or• A domestic trust (as defined in Regulations section 301.7701-7).					
Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.					
The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases: <ul style="list-style-type: none">• The U.S. owner of a disregarded entity and not the entity,
