ADDENDUM # 2

Bid Number: 50-00147124

Bid Opening Date: January 16, 2025 at 11:00 AM

Description of Bid: Purchase of Banners for Jefferson Parish Department of Traffic Engineering

QUESTIONS & ANSWERS

Question #1: Do you know what size pole pocket these need to have to fit on the poles?

Answer #1: Pole pocket shall be large enough to fit a 1-inch diameter banner arm.

Question #2: Question about banner vs. bracket quantities regarding total banners as per addendum #1 bid #5000147124. Is the total quantity of banners (1,200 banners total) correct for a total of only 450 banner bracket sets?

Answer #2: Traffic Engineering has a sufficient amount of existing banner arms on poles throughout the Parish already. The 450 banner brackets/arms will be added to poles that currently do not have arms.

Question #3: Pole banners are now made with double sided material rather than two pieces of banner material sewn together. The specific request of...

All banners shall be an 18 oz., heavy duty block out banner for outdoor applications. Banners shall be two-sided custom design with both sides having a matte finish and compatible for use with solvent, eco-solvent, UV and latex inks. Banners are to be of double-sided construction with liner, air vents, top and bottom sleeves and corner grommets. All edges and all seams and edge folds must be double-stitched with heavy-duty cord. ...is no longer needed. There will be double stitch for the pole pockets. The way that you requested can be done but is much more costly and labor intensive.

So my question is, do we have to quote as requested or can I use double sided banner material that is not hemmed on left and right?

Answer #3: Double sided material that does not require seams/hems on the left and right is acceptable.

Sincerely,

Stacey Champagne
