DOF Creations would like to thank you for the opportunity to respond to  
your 470 request #: 240018628

**5 March, 2024**

DOF will honor the SPI or BEAR payment options for our e-rate customers.

DOF Creations, LLC (DOF) is a DMS Certified Minority-Owned Business formed in 2016 focused on software development and DevOps consulting before transitioning to a heavy emphasis on enterprise technology, networking, and cybersecurity to better respond to customer needs.

(DOF) is a full-service technology partner to public and private sector entities. Our customers include capital cities, state agencies, school districts colleges, and major US stadiums.

While we work with customers of all sizes, we believe we have a special knack for supporting and serving organizations of all sizes, including our smallest and most resource-deprived customers. We're incredibly grateful that our customers allow us to help them and build resilient, future-ready solutions to address their wireless, cyber & physical security, coding & development, in-class technology, and infrastructure modernization efforts.

DOF sets itself apart by building unique solutions, strategies, and offerings for its customers. We've built managed service offerings to help customers deal with the national IT staff shortage; grant funding strategies for a diverse array of projects and customer needs; new product offerings for industry-specific emerging threats, security operations, and wireless demands. We'd love to show you how we support our customers and why we believe in "Measuring Success Through Service".

Thank you for the opportunity to provide our response.

Melanie Vialpando

DOF Creations would like to thank you for the opportunity to respond to your 470 request #: 240018628

### DOF Management Team

#### **Mission Statement**

We believe in “*Success Through Service*”. We believe in being a partner that adjusts as your needs do, and as problems arise, we believe in sticking with you, so you’re never stuck.

#### **Saeed Gordon CEO/President**

DOF Creations Was founded By Saeed while he was still at Vanderbilt Law School, he took the mission and values of his entrepreneurial parents and used it to build the core values of DOF. The leadership is undeniable, Saeed has worked every aspect of DOF from the ground up, this gives him the deep understanding of every level of service and sales to our customers. The knowledge and understanding of Grants, e-rate, technology solutions in Cybersecurity, M.I.B.S and Networking along with execution of promised services has helped DOF grow immensely.

#### **Viv Gordon – Director of Sales**

As a veteran technology professional, Viv blends a diverse technical knowledge base with a keen eye for problem solving of procurement and finance challenges. With almost 3 decades in IT, and a decade and a half supporting the public sector, Viv has gained immense experience building solutions, leading projects, and supporting continuous transition and change for our customers. Technology is often one piece of a multifaceted issue. Over many years, she learned to help our customers build holistic solutions that consider staffing challenges, budget constraints, tight schedules, and relevant technology concerns or implementation issues. Viv has a holistic understanding of E-rate, IT audits, Grants and other Federal programs. Prior to changing careers to Technology Viv was a finance professional at Citibank in management of Latin American debt.

Warm regards,

Melanie Vialpando  
Senior Account Executive  
melanie@dofcreations.com

## Online RT1/RTX1

Power Protection from 1000VA to 3000VA

**IDEALLY SUITED FOR:**  
Medical and lab equipment  
Data processing  
Network closets  
VoIP and Telecom  
Security recording devices

## KEY FEATURES

ONE series high power factor inverter provides more output Watts per VA

Rotating LCD display includes battery time remaining indicator and much more

Remote control load segment allows remote rebooting of devices

Automatic maintenance reminders reduce field failures

Adjustable charger from 1 to 8 amps for long run times.

Stay informed with Free monitoring Software or optional SNMP management

RTX1 version has available add-on battery modules

37 Month Plus Gold Warranty covers electronics and battery

Lifetime \$ 150,000 Equipment Protection Policy

## Online RT1/RTX1

Power Protection from 1000VA to 3000VA

### Ultimate Power Quality

Ensure your sensitive equipment lasts longer and is more reliable by supplying it with quality power. The Online RT1/RTX1 series uses double conversion technology to regulate voltage  $\pm 1\%$  and outputs a pure sine wave. During a power outage, there is no transfer time when going to battery power.

### Advanced Communications

Online RT1/RTX1 features advanced SNMP communications. SNMP Monitoring includes voltage in/out, battery time remaining, power logs, UPS specific information, and remote outlet control. Receive alerts via text or email for the following: on battery, battery fail, battery change due, UPS warranty expired, and more.

### LCD

State of the Art LCD display rotates to accommodate tower or rack mount installations. Provides real time status information and allows configuration of ups setup parameters. LCD display reports volts in, volts out, runtime remaining in minutes, percentage load, and more.

### Hot Swappable Batteries

Maintenance is easy and inexpensive with user replaceable, hot-swappable battery trays. Save money on maintenance by using in-house personnel to change batteries when necessary.

#### Specifications:

##### Electrical Input

Nominal Voltage	120V or 208V
Voltage Range	55-150 VAC $\pm 5\%$ 160-300 VAC $\pm 5\%$ 208V
Frequency(HZ)	40hz ~ 70Hz
Power Factor	>.99 (Full load)

##### Electrical Output

Output Voltage	(120V) 100/110/115/120/127V (208V) 208/220/230/240V
Voltage Regulation	$\pm \leq 1\%$
Frequency (Hz)	$\pm 0.1\%$ (0.05 ~ 0.06Hz) unless
Power Factor	>.99 (Full load)
Load Segments	Remote controlled load segment
Wave Form	True Sine Wave

##### Communications

Interface Type	1 *USB port+ 1*RS- 232 port
SNMP (Optional)	Power management from SNMP

##### Monitoring/Shutdown Software

Windows Vista/7/8,10, Linux, etc.  
Included at no charge

##### Environmental

Operation Temperature	0-40 C
Noise Level	<50dBA
Relative Humidity	0 to 90% (without condensation)

##### Standards and Certification

Markings	UL 1778 - tested by TUV, FCC
----------	------------------------------

# Online RT1/RTX1

Power Protection from 1000VA to 3000VA

## Online RT1 / RTX1 Adapts to Your Needs

- Tower or Rack-mount installation
- With RTX1 models, add backup time when needed with extended battery modules  
Load shedding allows shutdown of non-critical equipment during prolonged outages
- Adjustable output voltage (120V) 100/110/115/120/127 VAC or (208V) 208/220/230/240 VAC
- Auto restart after battery depletion from extended outage

## **Case Study: Seminole County Schools**

**Application: Network Closet Protection**

Location: Orlando, FL

Application: Network Closet power protection

Solution: Orion Power Systems Network Pro RTX

Results: Seminole county schools saved over \$ 200,000 versus APC with a comparable product.

“ Orion provided the best power protection possible for the lowest cost”

- Daniel White  
- Network Manager

### **Customer**

Seminole County Public Schools (SCPS) is a public school district that covers Seminole County, Florida. As of September, 2006, the total district wide enrollment was 66,351. The district operates 57 traditional schools: 9 high schools, 12 middle schools, and 36 elementary schools.

### **Challenges**

Seminole County needed to replace their aging APC ups systems in their network closets to minimize downtime and maintenance costs. In order to gain the highest value, SCPS decided to open the selection process to other brands of UPS systems. After looking at many different brands and thorough testing, Seminole County selected the Orion Power Systems Network Pro 2200RTX to power all 502 of their network closets. SCPS found the Orion product was excellent quality and would save the district over \$ 200,000.

### **The Solution**

Orion Power Systems provided the Network Pro RTX 2200VA ups system to provide the highest level of power quality possible for SCPS network closets. The Network Pro RTX uses line interactive technology to ensure clean computer grade power.

### **Results**

The Orion Network Pro RTX ups system has provided Seminole County Public Schools the reliable power needed for their network closets with easy setup network management. Orion and United Data Technology worked closely with SCPS to provide the ups systems on time and ensure a smooth installation. All 502 ups systems were factory load tested at the Orion facility in Jacksonville, FL to ensure proper operation and fast implementation at the customer site.
