BID FORM
Non Public Works

All Public Work Projects are required to use the Louisiana Uniform Public Work Bid Form

All prices must be held firm unless an escalation provision is requested in this bid. Jefferson Parish will allow one escalation during the term of the contract, which may not exceed the U.S. Bureau of Labor Statistics National Index for all Urban Consumers, unadjusted 12 month figure. The most recently published figure issued at the time an adjustment is requested will be used. A request must be made in writing by the vendor, and the escalation will only be applied to purchases made after the request is made.

Are you requesting an escalation provision?

YES _____ NO X

MAXIMUM ESCALATION PERCENTAGE REQUESTED _____%

INITIAL BID PRICES WILL REMAIN FIRM THROUGH THE DATE OF 1-31-2018.

For the purposes of comparison of bids when an escalation provision is requested, Jefferson Parish will apply the maximum escalation percentage quoted by the bidder to the period to which it is applied in the bid. The initial price and the escalation will be used to calculate the total bid price. It will be assumed,for comparison of prices only, that an equal amount of material or labor is purchased each month throughout the entire contract.

DELIVERY: FOB JEFFERSON PARISH

INDICATE DELIVERY DATE ON EQUIPMENT AND SUPPLIES 120 - 180 DAYS

LOUISIANA CONTRACTOR'S LICENSE NO.: (if applicable) _____

CHANGES TO JEFFERSON PARISH BIDDING PROCEDURES

The East bank Office of Purchasing is now open! We are located in the Joseph S. Yenni Building, 1221 Elmwood Park Blvd., Suite 404, Jefferson, LA 70123. Bidders may submit bid responses at this location, pending authorization in each bid package. **Bidders should carefully read and must respond accordingly per the requirements of the bid packages. NOTE: Bidders submitting bids on the day of bid opening, bidders must submit at the West Bank location only.**

Other Changes Continued:

- Effective June 1, 2017, bidders may no longer send bid responses via facsimile, as some bid solicitations may provide. Vendors responding to bid solicitations may only submit via USPS, courier service, hand delivery or via online by registering free of charge at www.jeffparishbids.net. For more information, please contact the Purchasing Department or visit .jeffparish.net.
- Affidavits (Non-Public Works Affidavit or Public Works Affidavit) – as you are aware, bidders are required to submit affidavits pursuant to LA public bid law and Jefferson Parish Code of Ordinances. Bidders must read each bid package to ensure compliance. Effective August 1, 2016, ***affidavits are required with bid submission.*** While copies are acceptable to include with bid submission, original affidavits are required upon contract execution. Original affidavits are encouraged with bid submission.
- Current W9 Forms and vendor applications may be submitted at any time; however, if your company is not registered and/or a current W-9 form is not on file, a current W-9 form must be supplied upon contract execution, should you be awarded a contract and/or issued a purchase order.
- Upon contract execution, successful bidder must continue producing final insurance certificates per standard Jefferson Parish insurance requirements. Proof of insurance is required for bidding purposes. Bidders must read the insurance requirements attachment included in each bid package for specific instructions.

Bidders should reference the "Additional Requirements" section of the bid instructions and/or the "Important Notice to Bidders" included in the bid package for specific requirements to respond accordingly.

For more information, please call Jefferson Parish Purchasing at 504-364-2678.

CONTRACT FOR MODEL YEAR 2017 HEAVY DUTY VEHICLES FOR JEFFERSON PARISH DEPARTMENT OF FLEET MANAGEMENT

Louisiana State Dealer's License:
In accordance with LA RS 32:1254 et seq and LA RS 38:2212.8, a Louisiana State Dealers License is required. All bidders must provide a copy of their Louisiana Dealer's License with their bid submission. Failure to submit this copy shall result in bid rejection.

Order Placement and Delivery of New Vehicles:
Upon order placement approved by Fleet Management, the successful vendor shall deliver vehicles within 220 days of order placement. All vehicles shall be delivered with 4 sets of keys.

Color of Vehicles (Exterior and Interior):
Exterior: Vehicles must be delivered in either white or red as specified by Fleet Management upon order placement.
Interior: Jefferson Parish will accept any available interior color, however this will be subject to approval by Jefferson Parish Fleet Management.

Servicing of Vehicles:
Successful vendor must pick up and/or deliver vehicles for factory maintenance and/or warranty services within one (1) hour of notification by the Jefferson Parish Fleet Management Department. The vehicles will be picked up and delivered to 4901 Jefferson Hwy., Suite A, Jefferson, LA 70121.

Brand Names:
Where brand names are specified, it is for the purpose of establishing minimum standard of quality. Bids may be submitted for products for equal quality, provided the brand names are specified in the respective line items as indicated. Complete equivalent product data will be required with bid submission. Failure to provide this documentation will result in bid rejection.

Pricing:
All pricing shall be firm until end of the 2017 model year or until contract expiration whichever is later. All pricing for dealer options must be invoiced at manufacturer's cost. Bidders must submit complete manufacturer's cost list with bid submission. Failure to submit will result in bid rejection.

Vehicle Warranty Information:
All new vehicles must be delivered complete with standard factory warranty. Warranty period (years/mileage) must be provided with bid submission. Failure to submit will result in bid rejection.

Vehicle Manuals:
Upon delivery of new vehicles, the successful vendor must provide (2) sets of manuals as indicated by each appropriate line item. Electronic copies of these manuals may be supplied at the successful vendor's cost.

Safety Specifications for All Vehicles:
Must meet or exceed all federal and state safety standards.

DATE: 1/25/2017

BID NO.: 50-00118654

INVITATION TO BID
THIS IS NOT AN ORDER

JEFFERSON PARISH

PURCHASING DEPARTMENT
P.O. BOX 9
GRETNA, LA. 70054-0009
504-364-2678

BUYER: MCamardelle@jeffparish.net

BIDS WILL BE RECEIVED IN THE WEST BANK PURCHASING DEPT, SUITE 4400, JEFFERSON PARISH GENERAL GOVERNMENT BUILDING, 200 DERBIGNY STREET, GRETNA, LA 70053 UNTIL 2:00 PM, 2/09/2017 AND PUBLICLY OPENED THEREAFTER.

For convenience, bidders may also submit bids in the East Bank Purchasing Department, Suite 404, Jefferson Parish Joseph S. Yenni Building, 1221 Elmwood Park Blvd., Jefferson LA 70123. However, if submitting bids on the day of bid opening, bidders must submit at the West Bank location only. All bids will be publicly opened at the West Bank location.

At no charge, bidders may also submit via Jefferson Parish's electronic procurement page by visiting www.jeffparishbids.net to register for this free site. Additional instructions are included in the text box highlighting electronic procurement.

LATE BIDS WILL NOT BE ACCEPTED

Unless submitting via online (see Page 3), each bid must be submitted in a sealed envelope bearing on the outside; the name of the Bidder, his address, and the name of the project for which the bid is submitted and the bid number.

NOTE: ONLY BIDS WRITTEN IN INK OR TYPEWRITTEN, AND PROPERLY SIGNED BY A MEMBER OF THE FIRM OR AUTHORIZED REPRESENTATIVE, WILL BE ACCEPTED. PENCIL AND/OR PHOTOSTATIC FIGURES OR SIGNATURES SHALL RESULT IN BID REJECTION.

INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

THE FOLLOWING INSTRUCTIONS APPLY TO ALL BIDS

All bids submitted are subject to these instructions and general conditions and any special conditions and specifications contained herein, all of which are made part of this bid proposal reference. By submitting a bid, vendor agrees to comply with all provisions of Louisiana Law as well be in compliance with the Jefferson Parish Code of Ordinances, Louisiana Code of Ethics, applicable Jefferson Parish ethical standards and Jefferson Parish Resolution No. 113646 and/or Resolution No. 113647.

All vendors submitting bids should register as a Jefferson Parish vendor if not already yet registered. Registration forms may be downloaded from http://purchasing.jeffparish.net and by clicking on Vendor Information. Current W-9 forms with respective Tax Identification numbers and vendor applications may be submitted at any time; however, if your company is not registered and/or a current W-9 form is not on file, vendor registration is mandatory. Further, a current W-9 form and respective Tax Identification number must be supplied upon contract execution, should you be awarded a contract and/or issued purchase order. Failure to do so may result in delay of payment.

All quotations shall be based on F.O.B. Agency warehouse or job site, anywhere within the Parish as designated by the Purchasing Department. This provision does not apply to public works projects

JEFFERSON PARISH requires all products to be new (current) and all work must be performed according to standard practices for the project. Unless otherwise specified, no aftermarket parts will be accepted. Unless otherwise specified, all workmanship and materials must have at least one (1) year guaranty, in writing, from the date of delivery and/or acceptance of the project. Any deviations or alterations from the specifications must be indicated and/or supporting documentation supplied with bid submission.

Bidders should submit all questions in writing and fax them to the Purchasing Department at (504) 364-2693 no later than FIVE (5) working days prior to bid opening. Bid numbers should be mentioned in all requests. Questions may also be emailed to the buyer for this bid at the email address listed above. If submitting online, vendors may send questions via the E-Procurement site no later than Five (5) working days prior to the bid opening.

If this bid requires a pre-bid conference (see Additional Requirements section), bidders are advised that such conference will be held to allow bidders the opportunity to identify any discrepancies in the bid specifications and seek further clarification regarding instructions. The Purchasing Department will issue a written response to bidders' questions in the form of an Addendum. Please note that all official communication will be expressed in the form of an addendum.

All formal Addenda require written acknowledgement on the bid form by the bidder. Failure to acknowledge an Addendum on the bid form shall cause the bid to be rejected. JEFFERSON PARISH reserves the right to award bid to next lowest responsive and responsible bidder in this event.

The purpose and intention of this invitation to bid is to afford all suppliers an equal opportunity to bid on all construction, maintenance, repair, operating supplies and/or equipment listed in this bid proposal. JEFFERSON PARISH WILL ACCEPT ONE BID ONLY FROM EACH VENDOR. Items bid must meet specifications.

JEFFERSON PARISH will accept one price for each item unless otherwise indicated. Two or more prices for one item will result in bid rejection. Bidders are required to complete, sign and return the bid form and/or complete and return the associated line item pricing forms as indicated. Vendors must not alter the bid forms. Doing so will cause the bid to be rejected.

If the bid exceeds $30,000.00 and the company is duly authorized to do business in the state of Louisiana, a corporate resolution must be submitted with the bid or the person signing the bid documents must be listed on the Louisiana Secretary of State's website as an officer of the corporation, unless bidder has otherwise complied with LSA-R.S. 38:2212 (B)(5). If the bid is in excess of $30,000 and bidder is registered out of the state of Louisiana, a corporate resolution must be submitted with the bid, unless bidder has otherwise complied with LSA-R.S. 38:2212 (B)(5). Failure to comply will cause bid to be rejected; the Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event. Bids submitted by Owner or Sole Proprietorships must include certification that he or she owns the entity for which the bid is signed. This documentation must be submitted with the bid. Failure to do so will result in bid rejection.

NOTE: A sample corporate resolution can be downloaded from our website http://purchasing.jeffparish.net or you may provide your own document. A sample certification of sole proprietorship can also be downloaded from our website http://purchasing.jeffparish.net or you may provide your own document.

INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

A. AWARD OF CONTRACT: JEFFERSON PARISH reserves the right to award contracts or place orders on a lump sum or individual item basis, or such combination, as shall in its judgment be in the best interest of JEFFERSON PARISH. Every contract or order shall be awarded to the LOWEST RESPONSIVE and RESPONSIBLE BIDDER, taking into consideration the CONFORMITY WITH THE SPECIFICATIONS and the DELIVERY AND/OR COMPLETION DATE. SPLIT AWARDS MADE TO SEVERAL VENDORS WILL ONLY BE GRANTED TO THOSE DEEMED RESPONSIVE AND RESPONSIBLE.

All bid prices shall remain valid for 45 days. Jefferson Parish and the lowest responsive and responsible bidder(s) by mutual written consent may mutually agree to extend the deadline for award by one (1) or more extensions of thirty (30) calendar days.

Preference is hereby given to materials, supplies, and provisions produced, manufactured or grown in Louisiana, quality being equal to articles offered by competitors outside the state. "LSA-R.S.38:2251-2261"

B. USE OF BRAND NAMES AND STOCK NUMBERS: Where brand names and stock numbers are specified, it is for the purpose of establishing certain minimum standards of quality. Bids may be submitted for products of equal quality, provided brand names and stock numbers are specified. Complete product data may be required prior to award.

C. CANCELLATION OF CONTRACT: JEFFERSON PARISH reserves the right to cancel all or any part if not shipped promptly. No charges will be allowed for parking or cartage unless specified in quotation. The order must not be filled at a higher price than quoted. JEFFERSON PARISH reserves the right to cancel any contract at anytime and for any reason by issuing a THIRTY (30) day written notice to the contractor.

For good cause and as consideration for executing a contract with Jefferson Parish, vendor conveys, sells, assigns and transfers to Jefferson Parish or its assigns all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of Louisiana, relating to the particular good or services purchased or acquired by Jefferson Parish.

D. PRICES: Jefferson Parish is exempt from paying sales tax under LSA-R.S. 47:301 (8)(c). All prices for purchases by Jefferson Parish of supplies and materials shall be quoted in the unit of measure specified and unless otherwise specified, shall be exclusive of state and Parish taxes. The price quoted for work shall be stated in figures. In the event there is a difference in unit prices and totals, the unit price shall prevail.

Quantities listed are for bidding purposes only. Actual requirements may be more or less than quantities listed.

Bidders are not to exclude from participation in, deny the benefits of, or subject to discrimination under any program or activity, any person in the United States on the grounds of race, color, national origin, or sex; nor discriminate on the basis of age under the Age Discrimination Act of 1975, or with respect to an otherwise qualified handicapped individual as provided in Section 504 of the Rehabilitation Act of 1973, or on the basis of religion, except that any exemption from such prohibition against discrimination on the basis of religion as provided in the Civil Rights Act of 1964, or Title VI and VII of the Act of April 11, 1968, shall also apply. This assurance includes compliance with the administrative requirements of the Revenue Sharing final handicapped discrimination provisions contained in Section 51.55 (c), (d), (e), and (k)(5) of the Regulations. New construction or renovation projects must comply with Section 504 of the 1973 Rehabilitation Act, as amended, in accordance with the American National Standard Institute's specifications (ANSI A17.1-1961).

INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

Advertised bids will be tabulated and a copy of the tabulation will be forwarded to each responding bidder.

IN ACCORDANCE WITH STATE REGULATIONS JEFFERSON PARISH OFFERS ELECTRONIC PROCUREMENT TO ALL VENDORS

This electronic procurement system allows vendors the convenience of reviewing and submitting bids online. This is a secure site and authorized personnel have limited read access only. Bidders are encouraged to submit electronically using this free service; while the website accepts various file types, one single PDF file containing all appropriate and required bid documents is preferred. Bidders submitting uploaded images of bid responses are solely responsible for clarity. If uploaded images/documents are not legible, then bidder's submission will be rejected. Please note all requirements contained in this bid package for electronic bid submission.

Please visit our E-Procurement Page at www.jeffparishbids.net to register and view Jefferson Parish solicitations. For more information, please visit the Purchasing Department page at http://purchasing.jeffparish.net.

The general specifications for construction projects and the purchase of materials, services and/or supplies are those adopted by the JEFFERSON PARISH Council by Resolution No. 113646 or 113647 dated 12/09/09. The general conditions adopted by this resolution shall be considered as much a part of this document as if they were written wholly herein. A copy may be obtained from the Office of the Parish Clerk, Suite 6700, Jefferson Parish General Government Building, 200 Derbigny Street, Gretna, LA 70053. You may also obtain a copy by visiting the Purchasing Department webpage at http://purchasing.jeffparish.net and clicking on Online Forms.

ADDITIONAL REQUIREMENTS FOR THIS BID

PLEASE MATCH THE NUMBERS PRINTED IN THIS BOX WITH THE CORRESPONDING INSTRUCTIONS BELOW.

10, 12, 13, 15

1. All bidders must attend the MANDATORY pre-bid conference and will be required to sign in and out as evidence of attendance. In accordance with LSA R.S. 38:2212(I), all prospective bidders shall be present at the beginning of the MANDATORY pre-bid conference and shall remain in attendance for the duration of the conference. Any prospective bidder who fails to attend the conference or remain for the duration shall be prohibited from submitting a bid for the project.

2. Attendance to this pre-bid conference is optional. However, failure to attend the pre-bid conference shall not relieve the bidder of responsibility for information discussed at the conference. Furthermore, failure to attend the pre-bid conference and inspection does not relieve the successful bidder from the necessity of furnishing materials or performing any work that may be required to complete the work in accordance with the specification with no additional cost to the owner.

3. Contractor must hold current applicable JEFFERSON PARISH licenses with the Department of Inspection and Code Enforcement. Contractor shall obtain any and all permits required by the JEFFERSON PARISH Department of Inspection and Code Enforcement. The contractor shall be responsible for the payment of these permits. All permits must be obtained prior to the start of the project. Contractor must also hold any and all applicable Federal and State licenses. Contractor shall be responsible for the payment of these permits and shall obtain them prior to the start of the project.

4. A LA State Contractor's License will be required in accordance with LSA R.S. 37-2150 et. seq. and such license number will be shown on the outside of the bid envelope. Failure to comply will cause the bid to be rejected. Additionally if submitting the bid electronically, then the license number must be entered in the appropriate field in the Electronic Procurement system. Failure to comply will cause the bid to be rejected.

5. It is the bidder's responsibility to visit the job site and evaluate the job before submitting a bid.

6. Job site must be clean and free of all litter and debris daily and upon completion of the contract. Passageways must be kept clean and free of material, equipment, and debris at all times. Flammable material must be removed from the job site daily because storage will not be permitted on the premises. Precautions must be exercised at all times to safeguard the welfare of JEFFERSON PARISH and the general public.

INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

7. PUBLIC WORKS BIDS: All awards for public works in excess of $5,000.00 will be reduced to a formal contract which shall be recorded at the contractor's expense with the Clerk of Court and Ex-Officio Recorder of Mortgages for the Parish of Jefferson. A price list of recordation costs may be obtained from the Clerk of Court and Ex-Officio Recorder of Mortgages for the Parish of Jefferson. All awards in excess of $25,000.00 will require both a performance and a payment bond. Unless otherwise stated in the bid specifications, the performance bond requirements shall be 100% of the contract price. Unless otherwise state in the bid specifications, the payment bond requirements shall be 100% of the contract price. Both bonds shall be supplied at the signing of the contract.

8. NON-PUBLIC WORKS BIDS: A performance bond will be required for this bid. The amount of the bond will be 100% of the contract price unless otherwise indicated in the specifications. The performance bond shall be supplied at the signing of the contract.

9. NON-PUBLIC WORKS BIDS: A payment bond will be required for this bid. The amount of the bond will be 100% of the contract price unless otherwise indicated in the specifications. The payment bond shall be supplied at the signing of the contract.

10. Unless otherwise stated in the bid specifications, the successful bidder will be required to procure standard insurance policies evidencing Parish-mandated insurance requirements as indicated on the attached "insurance requirements" sheet. All bidders must comply with the instructions in this sheet. Failure to comply will cause bid to be rejected.

11. A bid bond will be required with bid submission in the amount of 5% of the total bid, unless otherwise stated in the bid specifications. Acceptable forms shall be limited to cashier's check, certified check, or surety bid bond. All sureties must be in original format (no copies) If submitting a bid online, vendors must submit an electronic bid bond through the respective online clearinghouse bond management system(s) as indicated in the electronic bid solicitation on Central Auction House. No scanned paper copies of any bid bond will be accepted as part of the electronic bid submission.

12. This is a requirements contract to be provided on an as needed basis. JEFFERSON PARISH makes no representations on warranties with regard to minimum guaranteed quantities unless otherwise stated in the bid specifications.

13. Freight charges should be included in total cost when quoting. If not quoted FOB DELIVERED, freight must be quoted as a separate item. Bid may be rejected if not quoted FOB DELIVERED or if freight charges are not indicated on bid form.

14. PUBLIC WORKS BIDS - Completed, Signed and Properly Notarized Affidavits Required; This applies to all solicitations for construction, alteration or demolition of public buildings or projects, in conformity with the provisions contained in LSA-RS 38:2212.9, LSA-RS 38:2212.10, LSA-RS 38:2224, and Sec 2-923.1 of the Jefferson Parish Code of Ordinances. For bidding purposes, all bidders must submit with bid submission COMPLETED, SIGNED and PROPERLY NOTARIZED Affidavits, including: Non-Conviction Affidavit, Non-Collusion Affidavit, Campaign Contribution Affidavit, Debt Disclosures Affidavit and E-Verify Affidavit. For the convenience of vendors, all affidavits have been combined into one form entitled PUBLIC WORKS BID AFFIDAVIT. This affidavit must be submitted in its original format, and without material alteration, in order to be compliant and for the bid to be considered responsive. A scanned copy of the completed, signed and properly notarized affidavit may be submitted with the bid, however, the successful bidder must submit the original affidavit in its original format and without material alteration upon contract execution. Failure to comply will result in the bid submission being rejected as non-responsive. The Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event.

15. NON PUBLIC WORK BIDS - Completed, Signed and Properly Notarized Affidavits Required in conformity with the provisions contained in LSA – RS 38:2224 and Sec 2-923.1 of the Jefferson Parish Code of Ordinances. For bidding purposes, all bidders must submit with bid submission COMPLETED, SIGNED and PROPERLY NOTARIZED Affidavits, including: Non-Collusion Affidavit, Debt Disclosures Affidavit and Campaign Contribution Affidavit. For the convenience of vendors, all affidavits have been combined into one form entitled NON PUBLIC WORKS BID AFFIDAVIT. This affidavit must be submitted in its original format, and without material alteration, in order to be compliant and for the bid to be considered responsive. A scanned copy of the completed, signed and properly notarized affidavit may be submitted with the bid, however, the successful bidder must submit the original affidavit in its original format and without material alteration upon contract execution. Failure to comply will result in the bid submission being rejected as non-responsive. The Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event.

16. The ensuing contract for this bid solicitation may be eligible for FEMA reimbursement and/or Federal funding/reimbursement. As such, the referenced appendix will be applicable accordingly and shall be considered a part of the bid documents. All applicable certifications must be duly completed, signed and submitted with bid submission. Failure to submit applicable certifications with bid submission will result in bid rejection.

17. For this project, the Contractor shall not pay any state or local sales or use taxes on materials and equipment which are affixed and made part of the immovable property of the project or which permanently incorporated in the project (hereinafter referred to as "applicable materials and equipment"). All purchases of applicable materials or equipment shall be made by the contractor on behalf of and as the agent of Jefferson Parish (Owner), a political subdivision of the State of Louisiana. No state and local sales and use taxes are owned on applicable materials and equipment under the provisions of Act 1029 of the 1991 Regular Session – Louisiana Revised Statute 47:301(8)(c). Owner will furnish contractor a certificate form which certifies that Owner is not required to pay such state or local sales and use taxes, and contractor shall furnish a copy of such certificate to all vendors or suppliers of the applicable materials and equipment

It shall be the duty of every parish officer, employee, department, agency, special district, board, and commission: and the duty of every contractor, subcontractor, and licensee of the parish, and the duty of every applicant for certification of eligibility for a parish contract or program, to cooperate with the Inspector General in any investigation, audit, inspection, performance review, or hearing pursuant to Jefferson Parish Code of Ordinances Section 2-155.10(19). By submitting a bid, vendor acknowledges this and will abide by all provisions of the referenced Jefferson Parish Code of Ordinances.

CORPORATE RESOLUTION

EXCERPT FROM MINUTES OF MEETING OF THE BOARD OF DIRECTORS OF KENWORTH OF SOUTH LOUISIANA LLC dba KENWORTH OF LOUISIANA INCORPORATED.

AT THE MEETING OF DIRECTORS OF KENWORTH OF SOUTH LOUISIANA LLC dba KENWORTH OF LOUISIANA INCORPORATED, DULY NOTICED AND HELD ON 01/27/2017, A QUORUM BEING THERE PRESENT, ON MOTION DULY MADE AND SECONDED. IT WAS:

RESOLVED THAT SCOTT OLIPHANT, BE AND IS HEREBY APPOINTED, CONSTITUTED AND DESIGNATED AS AGENT AND ATTORNEY-IN-FACT OF THE CORPORATION WITH FULL POWER AND AUTHORITY TO ACT ON BEHALF OF THIS CORPORATION IN ALL NEGOTIATIONS, BIDDING, CONCERNS AND TRANSACTIONS WITH THE PARISH OF JEFFERSON OR ANY OF ITS AGENCIES, DEPARTMENTS, EMPLOYEES OR AGENTS, INCLUDING BUT NOT LIMITED TO, THE EXECUTION OF ALL BIDS, PAPERS, DOCUMENTS, AFFIDAVITS, BONDS, SURETIES, CONTRACTS AND ACTS AND TO RECEIVE ALL PURCHASE ORDERS AND NOTICES ISSUED PURSUANT TO THE PROVISIONS OF ANY SUCH BID OR CONTRACT, THIS CORPORATION HEREBY RATIFYING, APPROVING, CONFIRMING, AND ACCEPTING EACH AND EVERY SUCH ACT PERFORMED BY SAID AGENT AND ATTORNEY-IN-FACT.

I HEREBY CERTIFY THE FOREGOING TO BE A TRUE AND CORRECT COPY OF AN EXCERPT OF THE MINUTES OF THE ABOVE DATED MEETING OF THE BOARD OF DIRECTORS OF SAID CORPORATION, AND THE SAME HAS NOT BEEN REVOKED OR RESCINDED.

DATE

Non-Public Works Bid
Affidavit Instructions

- **Affidavit is supplied as a courtesy to Affiants, but it is the responsibility of the affiant to insure the affidavit they submit to Jefferson Parish complies, in both form and content, with federal, state and parish laws.**
- **Affidavit must be signed by an authorized representative of the entity or the affidavit will not be accepted.**
- **Affidavit must be notarized or the affidavit will not be accepted.**
- **Notary must sign name, print name, and include bar/notary number, or the affidavit will not be accepted.**
- **Affiant MUST select either A or B when required or the affidavit will not be accepted.**
- **Affiants who select choice A must include an attachment or the affidavit will not be accepted.**
- **If both choice A and B are selected, the affidavit will not be accepted.**
- **Affidavit marked N/A will not be accepted.**
- **It is the responsibility of the Affiant to submit a new affidavit if any additional campaign contributions are made after the affidavit is executed but prior to the time the council acts on the matter.**

Instruction sheet may be omitted when submitting the affidavit

Non-Public Works Bid

AFFIDAVIT

STATE OF LOUISIANA

PARISH/COUNTY OF TERREBONNE

BEFORE ME, the undersigned authority, personally came and appeared: SCOTT OLIPHANT, (Affiant) who after being by me duly sworn, deposed and said that he/she is the fully authorized PRESIDENT of KENWORTH OF SOUTH LOUISIANA LLC dba KENWORTH OF LOUISIANA (Entity), the party who submitted a bid in response to Bid Number 50-00118654, to the Parish of Jefferson.

Affiant further said:

Campaign Contribution Disclosures

(Choose A or B, if option A is indicated please include the required attachment):

Choice A X — Attached hereto is a list of all campaign contributions, including the date and amount of each contribution, made to current or former elected officials of the Parish of Jefferson by Entity, Affiant, and/or officers, directors and owners, including employees, owning 25% or more of the Entity during the two-year period immediately preceding the date of this affidavit or the current term of the elected official, whichever is greater. Further, Entity, Affiant, and/or Entity Owners have not made any contributions to or in support of current or former members of the Jefferson Parish Council or the Jefferson Parish President through or in the name of another person or legal entity, either directly or indirectly.

Choice B _____ — there are **NO** campaign contributions made which would require disclosure under Choice A of this section.

AMOUNT	$1,000.00
OFFICE	JEFFERSON PARISH COUNCIL
NAME	PAUL JOHNSTON

Debt Disclosures

(Choose A or B, if option A is indicated please include the required attachment):

Choice A	_____	Attached hereto is a list of all debts owed by the affiant to any elected or appointed official of the Parish of Jefferson, and any and all debts owed by any elected or appointed official of the Parish to the Affiant.
Choice B	X _____	There are **NO** debts which would require disclosure under Choice A of this section.

Affiant further said:

That Affiant has employed no person, corporation, firm, association, or other organization, either directly or indirectly, to secure the public contract under which he received payment, other than persons regularly employed by the Affiant whose services in connection with the construction, alteration or demolition of the public building or project or in securing the public contract were in the regular course of their duties for Affiant; and

[*The remainder of this page is intentionally left blank.*]

That no part of the contract price received by Affiant was paid or will be paid to any person, corporation, firm, association, or other organization for soliciting the contract, other than the payment of their normal compensation to persons regularly employed by the Affiant whose services in connection with the construction, alteration or demolition of the public building or project were in the regular course of their duties for Affiant.

BID NO.: 50-00118654

STANDARD INSURANCE REQUIREMENTS – PUBLICLY ADVERTISED BIDS

All required insurance under this bid shall conform to Jefferson Parish Resolution No. 113646 or No. 113647, as applicable. Contractors may not commence any work under any ensuing contract unless and until all required insurance and associated evidentiary requirements thereto have been met, along with any additional specifications contained in the advertised bid. Except as where otherwise precluded by law, the Parish Attorney or his designee, with the concurrence of the Director of Risk Management or his designee, may agree on a case-by-case basis, to deviate from Jefferson Parish's standard insurance requirements, as provided in this Section. Vendors requesting deviation therefrom shall submit such requests in writing, along with compelling substantiation, to the Purchasing Department prior to the bid's due date. Any changes to the insurance requirements will be reflected in the bid specifications and addenda. Prior to contract execution and at all times thereafter during the term of such contract, contractors must provide and continuously maintain all coverages as required by the foregoing Resolutions, and the contract documents. Failure to do so shall be grounds for suspension, discontinuation or termination of the contract.

For bidding purposes, bidders must submit with bid submission a current (valid) insurance certificate evidencing the required coverages. Failure to comply will cause bid to be rejected. The current insurance certificate will be used for proof of insurance at time of evaluation. Thereafter, and prior to contract execution, the low bidder will be required to provide final insurance certificates to the Parish which shall name **the Jefferson Parish, its Districts Departments and Agencies under the direction of the Parish President and the Parish Council** as additional insureds regarding negligence by the contractor for the Commercial General Liability, Workmen's Compensation Insurance and the Comprehensive Automobile Liability policies. Additionally, said certificates should reflect the name of the Parish Department receiving goods and services and reference the respective Jefferson Parish bid number.

JEFFERSON PARISH REQUIRED STANDARD INSURANCE

☑ **WORKER'S COMPENSATION INSURANCE**

As required by Louisiana State Statute, exception; Employer's Liability, Section B shall be $1,000,000 per occurrence when Work is to be over water and involves maritime exposures to cover all employees not covered under the State Worker's Compensation Act, otherwise this limit shall be no less than $500,000 per occurrence.

Note: If your company is not required by law to carry workmen's compensation insurance, i.e. not a Louisiana company, sole employee of the company, then bidders must request a workmen's compensation insurance declaration affidavit prior to the bid opening date. This insurance declaration affidavit must be fully completed, signed, properly notarized and submitted with the bid. A scanned copy may be submitted with the bid; however, the successful bidder must submit the original affidavit in its original format and without material alteration upon contract execution. Failure to comply will result in the bid submission being rejected as non-responsive. The Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event.

☑ **COMMERCIAL GENERAL LIABILITY**

Shall provide limits not less than the following: $1,000,000.00 Combined Single Limit per Occurrence for bodily injury and property damage.

☑ **COMPREHENSIVE AUTOMOBILE LIABILITY**

Bodily injury liability $1,000,000.00 each person; $1,000,000.00 each occurrence. Property Damage Liability $1,000,000.00 each occurrence.

Note: This category may be omitted if bidders do not/will not utilize company vehicles for the project or do not possess company vehicles. Bidder must request an automobile insurance declaration affidavit prior to the bid opening date. This insurance declaration affidavit must be fully completed, signed, properly notarized and submitted with the bid. A scanned copy of the completed, signed and properly notarized affidavit may be submitted with the bid; however, the successful bidder must submit the original affidavit in its original format and without material alteration upon contract execution. Failure to comply will result in the bid submission being rejected as non-responsive. The Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event.

DEDUCTIBLES

No insurance required shall include a deductible not greater than $10,000.00. The cost of the deductible shall be borne by the contractor.

NOTE: If the vendor requires a change in deductibles, the request must be submitted in writing to the Purchasing Department prior to the due date of the bid. Such request shall be reviewed by the Parish Attorney's Office with the concurrence of the Director of Risk Management.

UMBRELLA LIABILITY COVERAGE

An umbrella policy or excess may be used to meet minimum requirements.

FOR CONSTRUCTION AND RENOVATION PROJECTS:

The following are required unless otherwise specified in the bid. Such insurance is due upon contract execution.

1) **OWNER'S PROTECTIVE LIABILITY**

   To be for the same limits of liability for bodily injury and property damage liability established for commercial general liability.

2) **BUILDER'S RISK INSURANCE**

   The contractor shall maintain Builder's Risk Insurance at his own expense to insure both the owner (Parish of Jefferson) and contractor as their interest may appear.

However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number
: :

or

Employer identification number
90 : 0196371

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

Sign Here Signature of U.S. person ▶  Date ▶ 2/9/17

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,

4) This warranty does not cover: damage due to accident; environment; impact; misuse; negligence; improper operation, storage, transport; improper or insufficient maintenance service; any vehicle on which the odometer has been altered; or any vehicle that has been altered or modified in a manner unauthorized by Kenworth.

Warranty Quick Reference Guide – Class 8 Standard Service only

*This is a Quick Reference Guide **ONLY***

This is an itemized listing of the components and/or items used in the assembly of a Kenworth truck and their respective level of warranty coverage. This list is NOT to be construed as all inclusive
Refer to the Kenworth Warranty Agreement for specific details on the terms, conditions and limitations of said Warranty Agreement

BASIC VEHICLE WARRANTY

12 Months or 100,000 Miles/160,000 Kilometers whichever shall occur first
100% Parts and Labor

- Aerodynamic Devices
- Air Cleaner System (excluding Filter Element)
- Air Dryer
- Air Tanks
- Alternator
- Antenna
- Anti-Lock Brakes
- Axle Housing Gaskets
- Axles - Dual Speed (except Axle Shaft Gaskets and Wheel Seals)
- Batteries - PACCAR Brand Only
- Brake Chambers and Slack Adjusters
- Brake Drums (except when scored or heat checked)
- Bumper
- Cab Heater and Ducts
- Cab Paint (see below)
- Cab Suspension (including shock absorbers)
- Cab Water Leaks
- Charge Air Cooler
- Chassis Fairings (optional full length or partial)
- Clean Power Sysem (including batteries)
- Clutch, Clutch Brake, Clutch Linkage
- Control Cables
- Cruise Control Components
- Deck Plate
- Door Latches and Locks
- Door Pads and Soft Trim
- Drivelines, U-Joints and Center Bearing
- Electrical Power Distribution Box
- Electrical Printed Circuits
- Engine Dipstick and Tube (KW Only)
- Engine Fan
- Engine Fan Clutch and Sending Unit
- Engine Fan Shroud
- Engine Heater
- Engine Mounts
- Engine Shutdown System
- Exhaust Stanchion
- Exhaust System (excluding emmisions system)
- Frame Paint - black only (see below)
- Freon Leaks
- Fuel Tank Straps, Cap and Vent
- Fuel Tanks (excluding finish)
- Fuel Water Separator and/or Heater
- Gauges and Sending Units
- GPS
- Heat Shields
- Hood Assist Springs and Hooks
- Horn - Air or Electric
- Hoses and Fittings
- Hub Assemblies (including Bearings)
- Hub Caps
- Hubometer
- HVAC System
- Instruments
- Lamp Fixtures (excluding Bulbs)
- Mirrors
- Mud Flap Brackets (excluding Mud Flaps)
- Oil Coolers
- O-Rings
- Plating (including Chrome)
- Power Steering Box Assembly
- Power Steering Pump
- Power Steering Reservoir
- Power Take Off
- Quarter Fenders
- Radiator (including Header Gaskets)
- Radio
- Roof Fairing
- Seat Belts
- Seat Structure
- Shift Controls
- Shock Absorbers and brackets
- Side Extenders
- Sleeper Boot, Shelves & Cabinets
- Smartwheel
- Speakers
- Starter
- Steering Arm
- Steering Drag Link
- Steering Pitman Arm
- Steering Wheel
- Steps
- Suspension
- Switches
- Throttle Linkage and Cable
- Trailer Hitch and Stinger
- Transfer Case - Spicer Only (except Seals and Gaskets)
- Upholstery
- Valves, All
- Vents - Fresh Air
- Visor (outside and inside)
- Weather Stripping
- Wheel Bearings (except Seals and Gaskets)
- Window Defroster Fan
- Window Lift (including Power Lift)
- Windshield Washer
- Wiper Arms (excluding Blades)
- Wiper Motor and Control Valve
- Wiring and Connectors

****Mounting brackets and bolts for above items****

EXTENDED COMPONENTS WARRANTY

36 Months or 300,000 Miles/480,000 Kilometers whichever shall occur first
100% Parts and Labor

- Axles, Non-Driving and Driving, On-Highway with a capacity of 46,000 lbs. or less
  (including Axle Input and Output Seals)
  (except Axle Shaft Flange Gaskets, Brake Drums, Brake Shoes, Filters, Hub Assemblies, Hub Caps and Gaskets, Wheel Bearings and Wheel Seals)
- Brakes
  Applies to Brackets, Cam Shafts and Spiders
- Cab, Hood and Sleeper Structure (includes Door Hinges)
- Huck-Bolts (Cab and sleeper only)
- Transmissions - Manual

EXTENDED COMPONENTS WARRANTY

60 Months or 500,000 Miles/800,000 Kilometers whichever shall occur first
100% Parts and Labor

- Frame Side Rails, Crossmembers, Gussets and Cab Corrosion
  Cab corrosion warranty applies to perforation - an actual hole in a cab panel due to corrosion.
  Warranty does not apply to corrosion caused by damage to a cab panel or finish paint

OTHER COMPONENT WARRANTY

12 Months or 50,000 Miles/80,000 Kilometers whichever shall occur first
100% Parts and Labor

- Axle Shaft Flange Gaskets
- Hub Cap Gaskets
- Wheel Seals

CAB PAINT
12 Months or 100,000 Miles/160,000 Kilometers whichever shall occur first
100% Parts and Labor

Excludes Paint Chip and/or Fade

FRAME PAINT (BLACK ONLY)
12 Months or 100,000 Miles/160,000 Kilometers whichever shall occur first
100% Parts and Labor

Excludes Paint Chip and/or Fade
Excluded Vehicle Applications:
Logger, Mixer, Dump, Refuse, Oilfield & Construction

FRAME PAINT (OTHER THAN BLACK)
6 Months or 50,000 Miles/80,000 Kilometers whichever shall occur first
100% Parts and Labor

Excludes Paint Chip and/or Fade
Excluded Vehicle Applications:
Logger, Mixer, Dump, Refuse, Oilfield & Construction

FRAME PAINT
3 Months or 25,000 Miles/40,000 Kilometers whichever shall occur first
100% Parts and Labor

Logger, Mixer, Dump, Refuse, Oilfield & Construction applications

BREAK-IN ITEMS
90 days or 25,000 Miles/40,000 Kilometers whichever shall occur first

Vibrations, Squeaks, Fitting & Hose Leaks, Unusual Noises, Rattles, Loose Bolts & Electrical Connections

NON-WARRANTABLE COMPONENTS/ITEMS

Add-on Aerodynamic Devices (dealer installed)
Air Compressor
Air Starter
Anti-freeze Solutions
Automatic Transmission (except Fuller Ceemat)
Batteries other than Kenworth std Data book brand
Cellular Telephone
Chains
Cigar Lighter
C.B. Radio and Microphone
Diesel Exhaust Fluid (DEF)
Electronic Trip Recorders
Engines
Engine Accessories
Engine Brake
Engine Governor
Filters for Fuel, Oil and Water
Fifth Wheel
Filter Elements
Fire Extinguisher
Flag and Flare Kit
Fuel
Headlights and Light Bulbs
Lubricants

Tires
Tools
Tow Pins
Trade Accessories
Tubes
Turbocharger
Turboconveyor or blower
Vehicle Theft Alarm
Wheels
Winter Front and Bug Screen
Wiper Blades

This list is NOT to be construed as all inclusive.

NON-WARRANTABLE: WEAR, DETERIORATION and/or ADJUSTMENTS

Kenworth assumes no responsibility for wear and/or deterioration of parts or changes in adjustment as a result of normal service.

Examples:
Aluminum, Chrome or Stainless Steel:
Discoloration or pitting
Axle and/or Wheel Alignment
Belts
Brake Adjustment
Brake Linings
Circuit Breakers
Clutch Facings
Door Adjustment
Fuses
Hood Adjustment
Leveling of Vehicle
Soft Trim and Upholstery
Tightening Bolts and/or Fittings
Window and Windshield Glass

This list is NOT to be construed as all inclusive.

NON-WARRANTABLE FUNCTIONS OR ACTS

Any vehicle on which the odometer has been altered.
Any vehicle that has been altered or modified in a manner unauthorized by Kenworth.

Damage due to accidents
Environment
Dyno testing (without prior regional authorization)
Impact
Improper operation
Improper or insufficient maintenance service
Misuse
Negligence
Overtime Labor
Storage (including deterioration)
Towing and Road Calls
Transport
Troubleshooting and Road Testing

This list is NOT to be construed as all inclusive.

Off-Highway /Severe Service Vehicles

Severe Service Warranty is based on a Kenworth chassis having one of the following: Unlicensed off-road registration, all-wheel drive, twin steer axles, all front steer axles rated @ 21,000 lbs. GAWR or greater, single rear drive axles rated @ 26,000 lbs. GAWR or greater, tandem rear axles rated @ 52,000 lbs. GAWR or greater, or 10% or more class C and/or D usage.

April 23, 2010

KENWORTH TRUCK COMPANY LIMITED WARRANTY AGREEMENT

Medium Duty Warranty

UNITED STATES

THIS LIMITED WARRANTY AGREEMENT ("AGREEMENT") LISTS THE RESPECTIVE RIGHTS AND RESPONSIBILITIES OF YOU, KENWORTH TRUCK COMPANY ("KENWORTH"), AND THE SELLING KENWORTH DEALER ("SELLING DEALER"). PLEASE READ THIS LIMITED WARRANTY CAREFULLY.

Kenworth warrants directly to you that the Kenworth vehicle ("Vehicle") identified below will be free from defects in materials and factory workmanship ("Warrantable Failures") appearing under normal commercial use and service during the time or mileage limitations set forth in the attached Warranty Schedule (dated 11/09). **The Vehicle warranty extends only to you, the First Purchaser.**

YOUR SOLE AND EXCLUSIVE REMEDY AGAINST KENWORTH AND THE SELLING DEALER ARISING FROM YOUR PURCHASE AND USE O THIS VEHICLE IS LIMITED TO THE REPAIR OR REPLACEMENT OF "WARRANTABLE FAILURES" AT AUTHORIZED UNITED STATES AN CANADIAN KENWORTH DEALERS, SUBJECT TO KENWORTH'S TIME AND MILEAGE LIMITATIONS LISTED IN THE ATTACHED VEHICLE ONL WARRANTY SCHEDULE. The maximum time and mileage limitations in the Warranty Schedule begin on the Date of Delivery to the First Purchaser, a shown below. **The accrued time and mileage is calculated when this Vehicle is brought into an Authorized Dealer for correction of Warrantab Failures.**

WARRANTY DISCLAIMER AND LIMITATIONS OF LIABILITY

This limited warranty is the sole warranty made by Kenworth and the Selling Dealer. Except for the above limited warranty, Kenworth and the Selling Dealer make no other warranties, express or implied. KENWORTH AND THE SELLING DEALER EXPRESSLY DISCLAIM ANY WARRANT OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

IT IS AGREED THAT KENWORTH AND THE SELLING DEALER SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGE INCLUDING, BUT NOT LIMITED TO: LOSS OF INCOME OR LOST PROFITS; VEHICLE DOWNTIME; THIRD PARTY DAMAGE, INCLUDING DAMAG OR LOSS TO OTHER VEHICLES OR PROPERTY, ATTACHMENTS, TRAILERS AND CARGO; LOSS OR DAMAGE TO PERSONAL CONTENT COMMUNICATION EXPENSES; LODGING AND/OR MEAL EXPENSES; FINES; APPLICABLE TAXES OR BUSINESS COSTS OR LOSSE ATTORNEY'S FEES; AND ANY LIABILITY YOU MAY HAVE IN RESPECT TO ANY OTHER PERSON OR ENTITY.

The following components may be warranted directly to you by their respective manufacturers and are NOT warranted by Kenworth: engine and engine accessories, Allison automatic transmission, fifth wheel, tires, wheels and rims, tubes, pintle hook, hitch, batteries not listed in the Vehicle Schedule, refrigerator, trade accessories (such as fire extinguishers, chains, emergency kits, and tools), customer-furnished components installed by the Kenworth factory, and items not installed by the Kenworth factory at the time of the Vehicle's manufacture.

Kenworth does not warrant antifreeze, lubricants, bulbs, fuses, filters, mud-flaps, winter front, wiper nozzles, wiper blades, filter elements, or any other part which is considered a maintenance item.

You are responsible for the safe operation and maintenance of the Vehicle, as specified in the applicable Operator's Manuals. You are responsible for providing proof that all recommended inspections and maintenance have been performed. Before the expiration of the applicable warranty, you must notify an Authorized Dealer of any Warrantable Failures and make the Vehicle available for repair by such Authorized Dealer. You are responsible for delivery of the Vehicle to the Authorized Dealer. Locations in the United States and Canada of authorized Kenworth dealers may be found on WWW.KENWORTH.COM.

KENWORTH IS NOT RESPONSIBLE FOR WEAR AND TEAR OR WEAROUT OF COVERED PARTS, storage deterioration, or changes in adjustment resulting from your use of the Vehicle. This includes, but is not limited to, wear or damage to brake and clutch linings, clutch brake, belts, upholstery, wheel balancing or axle alignment. This list is offered as an example only and shall not be construed as all inclusive.

Kenworth does not warrant metallic chassis (frame) paint. Kenworth is not responsible for paint chipping or fading, peeling paint from frame bolts relatin to maintenance, paint peeling from road chemical or salt damage, or corrosion caused by damage to a cab or hood panel or to finish paint.

Damage due to accident, misuse, abuse, neglect, negligence, improper or insufficient maintenance, or unauthorized modification is not warranted.

All warranties are null and void should a Vehicle be converted to a motor coach, motor home, or recreational vehicle.

Vibrations, squeaks, and unusual noises, rattles, loose nuts/bolts can develop during the early use of the vehicle. Kenworth will make the necessary adjustments under warranty up to the earlier of the first 25,000 miles or the first 90 days after the Date of Delivery.

Parts used to repair a Warrantable Failure may be new parts, approved remanufactured parts, or repaired parts. Kenworth is not responsible for failures resulting from the use of parts not approved by Kenworth. A new or approved remanufactured part used to repair a Warrantable Failure assumes the identity of the part it has replaced and is entitled to the remaining warranty coverage, if any.

Vehicle Telematics Subscription. Your Kenworth vehicle may include an activated subscription service that records and sends diagnostic and system data from your Kenworth for the purpose of assuring that your vehicle is operating properly and to permit us to communicate with you regarding vehicle fault codes (Collectively, Vehicle Information). The Vehicle Information that we collect will also help s to improve our vehicles in the future, and enable us to locate your vehicle under certain limited circumstances. Kenworth has implemented information and data security controls to safeguard the Vehicle Information we collect. By using the vehicle, you consent to Kenworth's collection and use of the Vehicle Information in the manner described. If you choose not to allow Kenworth access to your data, you may suspend your subscription by contacting an authorized PACCAR dealer.

Chassis Number(s) (17-digit VIN)

Customer Initials _____

Kenworth is not responsible for towing or roadside assistance should there be a defect in the Vehicle. **Kenworth is not responsible for damage or los resulting from engine horsepower/torque upgrades.**

Kenworth reserves the right to inspect and download data from the Vehicle and Engine Electronic Control Modules (ECM) for purposes of failure analysis.

TIME LIMIT ON COMMENCING LEGAL ACTION / OTHER TERMS

It is agreed that you have 12 months from the accrual of the cause of action to commence any legal action arising from the purchase or use of th Vehicle, or be barred forever.

To the extent any provision of this limited warranty is found to contravene the law of any jurisdiction, the remainder of the warranty shall not be affected thereby.

KENWORTH AND THE SELLING DEALER EXPRESSLY DISCLAIM ANY WARRANT OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

IT IS AGREED THAT KENWORTH AND THE SELLING DEALER SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGE INCLUDING, BUT NOT LIMITED TO: LOSS OF INCOME OR LOST PROFITS; VEHICLE DOWNTIME; THIRD PARTY DAMAGE, INCLUDING DAMAG OR LOSS TO OTHER VEHICLES OR PROPERTY, ATTACHMENTS, TRAILERS AND CARGO; LOSS OR DAMAGE TO PERSONAL CONTENT COMMUNICATION EXPENSES; LODGING AND/OR MEAL EXPENSES; FINES; APPLICABLE TAXES OR BUSINESS COSTS OR LOSSE ATTORNEY'S FEES; AND ANY LIABILITY YOU MAY HAVE IN RESPECT TO ANY OTHER PERSON OR ENTITY.

The following components may be warranted directly to you by their respective manufacturers and are NOT warranted by Kenworth: engine and engine accessories, Allison automatic transmission, fifth wheel, tires, wheels and rims, tubes, pintle hook, hitch, batteries not listed in the Vehicle Schedule, refrigerator, trade accessories (such as fire extinguishers, chains, emergency kits, and tools), customer-furnished components installed by the Kenworth factory, and items not installed by the Kenworth factory at the time of the Vehicle's manufacture.

Kenworth does not warrant antifreeze, lubricants, bulbs, fuses, filters, mud-flaps, winter front, wiper nozzles, wiper blades, filter elements, or any other part which is considered a maintenance item.

You are responsible for the safe operation and maintenance of the Vehicle, as specified in the applicable Operator's Manuals. You are responsible for providing proof that all recommended inspections and maintenance have been performed. Before the expiration of the applicable warranty, you must notify an Authorized Dealer of any Warrantable Failures and make the Vehicle available for repair by such Authorized Dealer. You are responsible for delivery of the Vehicle to the Authorized Dealer. Locations in the United States and Canada of authorized Kenworth dealers may be found on WWW.KENWORTH.COM.

KENWORTH IS NOT RESPONSIBLE FOR WEAR AND TEAR OR WEAROUT OF COVERED PARTS, storage deterioration, or changes in adjustment resulting from your use of the Vehicle. This includes, but is not limited to, wear or damage to brake and clutch linings, clutch brake, belts, upholstery, wheel balancing or axle alignment. This list is offered as an example only and shall not be construed as all inclusive.

Kenworth does not warrant metallic chassis (frame) paint. Kenworth is not responsible for paint chipping or fading, peeling paint from frame bolts relatin to maintenance, paint peeling from road chemical or salt damage, or corrosion caused by damage to a cab, hood, or sleeper panel or to finish paint.

Damage due to accident, misuse, abuse, neglect, negligence, improper or insufficient maintenance, or unauthorized modification is not warranted.

All warranties are null and void should a Vehicle be converted to a motor coach, motor home, or recreational vehicle.

Vibrations, squeaks, and unusual noises, rattles, loose nuts/bolts can develop during the early use of the vehicle. Kenworth will make the necessary adjustments under warranty up to the earlier of the first 25,000 miles or the first 90 days after the Date of Delivery.

Parts used to repair a Warrantable Failure may be new parts, approved remanufactured parts, or repaired parts. Kenworth is not responsible for failures resulting from the use of parts not approved by Kenworth. A new or approved remanufactured part used to repair a Warrantable Failure assumes the identity of the part it has replaced and is entitled to the remaining warranty coverage, if any.

Vehicle Telematics Subscription. Your Kenworth vehicle may include an activated subscription service that records and sends diagnostic and system data from your Kenworth for the purpose of assuring that your vehicle is operating properly, and to permit us to communicate with you regarding Vehicle Information. The Vehicle Information that we collect will also help us to improve our vehicles in the future, and enable us to locate your vehicle under certain limited circumstances. Kenworth has implemented information and data security controls to safeguard the Vehicle Information we collect. By usin the vehicle, you consent to Kenworth's collection and use of the Vehicle Information in the manner described. If you choose not to allow Kenworth acces to your data, you may suspend your subscription by contacting an authorized PACCAR dealer.

Chassis Number(s) (17-digit VIN)

PACCAR ENGINE LIMITED WARRANTY AGREEMENT

UNITED STATES

THIS LIMITED WARRANTY AGREEMENT ("AGREEMENT") LISTS THE RESPECTIVE RIGHTS AND RESPONSIBILITIES OF YOU, PACCAR INC ("PACCAR"), AND THE SELLING PACCAR ENGINE DEALER ("SELLING DEALER"). PLEASE READ THIS LIMITED WARRANTY CAREFULLY.

PACCAR warrants directly to you that the PACCAR PX-7 engine ("Engine") identified below will be free from defects in materials and factory workmanship ("Warrantable Failures") appearing under normal commercial use and service during the time or mileage or hour limitations set forth in the attached Warranty Schedule (dated 12/09). **The Engine warranty extends only to you, the First Purchaser.** The Emissions warranty is made to all owners of the Engine in the chain of distribution until the end of the Emissions warranty coverage period. Warranty coverage relating to the Emissions components is outlined in the Emission Warranty section of the applicable PACCAR Operator's Manual, the terms and conditions of which are incorporated herein by reference.

YOUR SOLE AND EXCLUSIVE REMEDY AGAINST PACCAR AND THE SELLING DEALER ARISING FROM YOUR PURCHASE AND USE OF TH ENGINE IS LIMITED TO THE REPAIR OR REPLACEMENT OF "WARRANTABLE FAILURES" AT AUTHORIZED UNITED STATES AND CANADIA PACCAR ENGINE DEALERS, OR AN AUTHORIZED PACCAR ENGINE FACILITY OR AN AUTHORIZED CUMMINS DISTRIBUTOR WHER APPLICABLE, (REFERRED TO AS "AUTHORIZED DEALER" OR "AUTHORIZED DEALERS") SUBJECT TO PACCAR'S TIME, MILEAGE, AND HOU LIMITATIONS LISTED IN THE ATTACHED WARRANTY SCHEDULES. The maximum time, mileage and hour limitations in the Warranty Schedul begin running on the Date of Delivery to the First Purchaser, as shown below. **The accrued time, mileage, or hours is calculated when this engine brought into an Authorized Dealer for correction of Warrantable Failures.**

WARRANTY DISCLAIMER AND LIMITATIONS OF LIABILITY (ENGINE AND EMISSIONS)

This limited warranty is the sole warranty made by PACCAR and the Selling Dealer. Except for the above limited warranty, PACCAR and the Selling Dealer make no other warranties, express or implied. PACCAR AND THE SELLING DEALER EXPRESSLY DISCLAIM ANY WARRANTY C MERCHANTABILITY OR WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

IT IS AGREED THAT PACCAR AND THE SELLING DEALER SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGE INCLUDING, BUT NOT LIMITED TO: LOSS OF INCOME OR LOST PROFITS; ENGINE OR VEHICLE DOWNTIME; THIRD PARTY DAMAG INCLUDING DAMAGE OR LOSS TO OTHER ENGINES, VEHICLES OR PROPERTY, ATTACHMENTS, TRAILERS AND CARGO; LOSS OR DAMAG TO PERSONAL CONTENTS; COMMUNICATION EXPENSES; LODGING AND/OR MEAL EXPENSES; FINES; APPLICABLE TAXES OR BUSINES COSTS OR LOSSES; ATTORNEYS' FEES; AND ANY LIABILITY YOU MAY HAVE IN RESPECT TO ANY OTHER PERSON OR ENTITY.

This warranty does not apply to accessories supplied by the vehicle OEM which are covered by the OEM vehicle warranty.

Failures of belts and hoses supplied by PACCAR are covered during the first year from the Date of Delivery of the Engine to the First Purchaser. PACCAR does not warrant antifreeze, lubricants, filters, filter elements, or any other part which is considered a maintenance item. However, in its discretion, PACCAR will pay for lubricating oil, antifreeze, filter elements, belts, hoses, and other maintenance items only if the need for replacing such items is due to a Warrantable Failure to the PACCAR PX-7 engine.

You are responsible for the safe operation and maintenance of the Engine and Emissions equipment as specified in the applicable Operator's Manuals. You are responsible for providing proof that all recommended inspections and maintenance have been performed. Before the expiration of the applicabl warranty, you must notify an Authorized Dealer of any Warrantable Failures and make the Engine available for Engine repair by such Authorized Dealer. You are responsible for delivery of the Engine to the Authorized Dealer. Locations in the United States and Canada of authorized PACCAR Engine dealers may be found on WWW.PACCARENGINES.COM.

PACCAR IS NOT RESPONSIBLE FOR WEAR AND TEAR OR WEAROUT OF COVERED PARTS, storage deterioration, and changes in adjustment resulting from your use of the Engine.

Damage due to accident, misuse, abuse, neglect, negligence, improper or insufficient maintenance, or unauthorized modification is not warranted. This may include, but is not limited to: operation without adequate coolants, lubricants, or other fluids; over-fueling; over-speeding; lack of maintenance of the lubricating, cooling or air intake systems; improper storage, starting, warm-up, run-in or shutdown practices; and unauthorized modifications to the Engine.

Parts used to repair a Warrantable Failure may be new parts, approved remanufactured parts, or repaired parts. PACCAR is not responsible for failures resulting from the use of parts not approved by PACCAR. A new or approved remanufactured part used to repair a Warrantable Failure assumes the identity of the part it has replaced and is entitled to the remaining warranty coverage, if any.

PACCAR is not responsible for damage or loss resulting from Engine horsepower/torque upgrades.

Chassis Number(s) (17-digit VIN)

Engine Serial Number

Customer Initials _____

PACCAR reserves the right to inspect and download data from the Vehicle and Engine Electronic Control Modules (ECM) for purposes of failure analysis.

PACCAR IS NOT RESPONSIBLE FOR DAMAGE OR LOSSES CAUSED BY INCORRECT OIL, FUEL, DIESEL EXHAUST FLUID, COOLANT, OR ADDITIVES; WATER, DIRT OR OTHER CONTAMINANTS IN THE FUEL, OIL OR DIESEL EXHAUST FLUID; OPERATION WITHOUT ADEQUATE COOLANTS OR LUBRICANTS; OVER-FUELING; OVER-SPEEDING; IMPROPER STORAGE, STARTING, WARM-UP, RUN-IN OR SHUT-DOWN PRACTICES; OR UNAUTHORIZED MODIFICATIONS OF THE ENGINE. Failure of replacement parts used in repairs due to the above non-warrantabl conditions is not warrantable.

If your Vehicle is disabled by a Warrantable Failure to the Engine during the base warranty period, PACCAR will pay the reasonable cost of towing the Vehicle to the nearest Authorized Dealer, or other facility authorized by PACCAR. In lieu of the towing expense and at the sole discretion of PACCAR, PACCAR will pay the reasonable costs of an authorized mechanic to travel to and from the location of the disabled Vehicle in order to perform the Engin repair.

PACCAR will pay for reasonable labor costs for Engine removal and reinstallation when necessary to repair a Warrantable Failure.

Warrantable Failures resulting in excessive oil consumption are covered for the duration of the coverage or 100,000 miles or 6,250 hours from the date of delivery of the Engine to the first user, whichever the three occurs first. Before a claim for excessive oil consumption, low power, or excessive fuel consumption will be considered for payment, you must submit adequate documentation to show that consumption exceeds PACCAR published standards.

TIME LIMIT ON COMMENCING LEGAL ACTION / OTHER TERMS

IT IS AGREED THAT YOU HAVE 12 MONTHS FROM THE ACCRUAL OF THE CAUSE OF ACTION TO COMMENCE ANY LEGAL ACTION ARISING FROM THE PURCHASE OR USE OF TI ENGINE, OR BE BARRED FOREVER.

To the extent any provision of this limited warranty is found to contravene the law of any jurisdiction, the remainder of the warranty shall not be affected thereby.

PACCAR PX-7 Engine

Basic Engine Coverage - (All applications except fire apparatus truck) - **Twenty-four (24) months – no mileage limitation.**

Fire Apparatus Truck Applications – 60 Months or 100,000 miles, whichever occurs first. (Owner is responsible for a US$100 deductible per each service visit in the 3rd, 4th and 5th years of warranty.)

PACCAR ENGINE LIMITED WARRANTY AGREEMENT

UNITED STATES

THIS LIMITED WARRANTY AGREEMENT ("AGREEMENT") LISTS THE RESPECTIVE RIGHTS AND RESPONSIBILITIES OF YOU, PACCAR INC ("PACCAR"), AND THE SELLING PACCAR ENGINE DEALER ("SELLING DEALER"). PLEASE READ THIS LIMITED WARRANTY CAREFULLY.

PACCAR warrants directly to you that the PACCAR PX-9 engine ("Engine") identified below will be free from defects in materials and factory workmanship ("Warrantable Failures") appearing under normal commercial use and service during the time or mileage or hour limitations set forth in the attached Warranty Schedule (dated 12/09). **The Engine warranty extends only to you, the First Purchaser.** The Emissions warranty is made to all owners of the Engine in the chain of distribution until the end of the Emissions warranty coverage period. Warranty coverage relating to the Emissions components is outlined in the Emission Warranty section of the applicable PACCAR Operator's Manual, the terms and conditions of which are incorporated herein by reference.

YOUR SOLE AND EXCLUSIVE REMEDY AGAINST PACCAR AND THE SELLING DEALER ARISING FROM YOUR PURCHASE AND USE OF TH ENGINE IS LIMITED TO THE REPAIR OR REPLACEMENT OF "WARRANTABLE FAILURES" AT AUTHORIZED UNITED STATES AND CANADIA PACCAR ENGINE DEALERS, OR AN AUTHORIZED PACCAR ENGINE FACILITY OR AN AUTHORIZED CUMMINS DISTRIBUTOR WHER APPLICABLE, (REFERRED TO AS "AUTHORIZED DEALER" OR "AUTHORIZED DEALERS") SUBJECT TO PACCAR'S TIME, MILEAGE, AND HOU LIMITATIONS LISTED IN THE ATTACHED WARRANTY SCHEDULES. The maximum time, mileage and hour limitations in the Warranty Schedul begin running on the Date of Delivery to the First Purchaser, as shown below. **The accrued time, mileage, or hours is calculated when this engine brought into an Authorized Dealer for correction of Warrantable Failures.**

WARRANTY DISCLAIMER AND LIMITATIONS OF LIABILITY (ENGINE AND EMISSIONS)

This limited warranty is the sole warranty made by PACCAR and the Selling Dealer. Except for the above limited warranty, PACCAR and the Selling Dealer make no other warranties, express or implied. PACCAR AND THE SELLING DEALER EXPRESSLY DISCLAIM ANY WARRANTY C MERCHANTABILITY OR WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

IT IS AGREED THAT PACCAR AND THE SELLING DEALER SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGE INCLUDING, BUT NOT LIMITED TO: LOSS OF INCOME OR LOST PROFITS; ENGINE OR VEHICLE DOWNTIME; THIRD PARTY DAMAG INCLUDING DAMAGE OR LOSS TO OTHER ENGINES, VEHICLES OR PROPERTY, ATTACHMENTS, TRAILERS AND CARGO; LOSS OR DAMAG TO PERSONAL CONTENTS; COMMUNICATION EXPENSES; LODGING AND/OR MEAL EXPENSES; FINES; APPLICABLE TAXES OR BUSINES COSTS OR LOSSES; ATTORNEYS' FEES; AND ANY LIABILITY YOU MAY HAVE IN RESPECT TO ANY OTHER PERSON OR ENTITY.

This warranty does not apply to accessories supplied by the vehicle OEM which are covered by the OEM vehicle warranty.

Failures of belts and hoses supplied by PACCAR are covered during the first year from the Date of Delivery of the Engine to the First Purchaser. PACCAR does not warrant antifreeze, lubricants, filters, filter elements, or any other part which is considered a maintenance item. However, in its discretion, PACCAR will pay for lubricating oil, antifreeze, filter elements, belts, hoses, and other maintenance items only if the need for replacing such items is due to a Warrantable Failure to the PACCAR PX-9 engine.

You are responsible for the safe operation and maintenance of the Engine and Emissions equipment as specified in the applicable Operator's Manuals. You are responsible for providing proof that all recommended inspections and maintenance have been performed. Before the expiration of the applicabl warranty, you must notify an Authorized Dealer of any Warrantable Failures and make the Engine available for Engine repair by such Authorized Dealer. You are responsible for delivery of the Engine to the Authorized Dealer. Locations in the United States and Canada of authorized PACCAR Engine dealers may be found on WWW.PACCARENGINES.COM.

PACCAR IS NOT RESPONSIBLE FOR WEAR AND TEAR OR WEAROUT OF COVERED PARTS, storage deterioration, and changes in adjustment resulting from your use of the Engine.

Damage due to accident, misuse, abuse, neglect, negligence, improper or insufficient maintenance, or unauthorized modification is not warranted. This may include, but is not limited to: operation without adequate coolants, lubricants, or other fluids; over-fueling; over-speeding; lack of maintenance of the lubricating, cooling or air intake systems; improper storage, starting, warm-up, run-in or shutdown practices; and unauthorized modifications to the Engine.

Parts used to repair a Warrantable Failure may be new parts, approved remanufactured parts, or repaired parts. PACCAR is not responsible for failures resulting from the use of parts not approved by PACCAR. A new or approved remanufactured part used to repair a Warrantable Failure assumes the identity of the part it has replaced and is entitled to the remaining warranty coverage, if any.

PACCAR is not responsible for damage or loss resulting from Engine horsepower/torque upgrades.

		Customer Initials _____

Allison Transmission

For Transmissions Used In On-Highway Applications

IMPORTANT

This booklet contains warranty information for Allison On-Highway Transmissions. It provides the starting dates and mileage (same as vehicle delivery date and mileage) of each transmission warranty.

Keep it with the vehicle and make it available to any authorized Allison Transmission distributor or service dealer if warranty work is required.

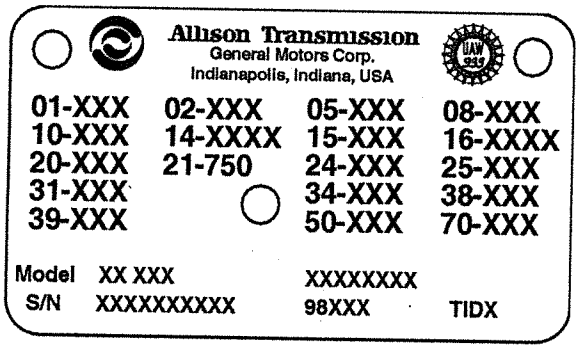
INTRODUCTION

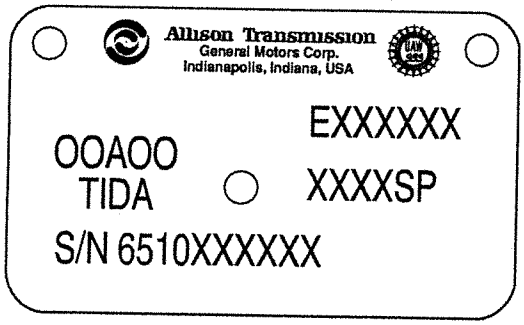
This booklet contains warranty information applicable to the transmission you have purchased. There are instances that require information located on the transmission nameplate.

Shown here is a transmission nameplate which contains a sample serial number and model number.



BEFORE JULY, 2005

V05116.01



ON OR AFTER JULY, 2005

V10410.00.00

The nameplate location of each transmission covered by this booklet is listed in Table 1. The location is viewed from the rear of the transmission.

Table 1. Nameplate Location

Transmission Models	Location
AT, B, MT, MD, HT, HD, MH, CLBT 750, 1000 Series™, 2000 Series™, 2400 Series™ EVS, HS, MHS, PTS, RDS, TRV, SP	Right Side of Transmission Case
DPIM, ESS, H 40/50 EP™	
V730/1	Left Side of Transmission Case

NOTICE TO PURCHASER OF ALLISON TRANSMISSIONS INSTALLED IN VEHICLES SOLD OUTSIDE THE U.S.

Vehicles may be equipped with odometers reading in kilometers. To convert warranty and maintenance mileage limitations to kilometers, refer to Table 2.

LIMITED WARRANTY ON NEW ALLISON TRANSMISSIONS USED IN ON-HIGHWAY VEHICLE APPLICATIONS	Allison Transmission.

TERMS OF COVERAGE:

Uses

This warranty covers new model AT, B, MD, HT, HD, MH, 1000 Series™, 2000 Series™, 2400 Series™, BUS, EVS, HS, MH, PTS, RDS, TRV, SP, H 40/50 EP™, DPIM, ESS and V 700 Allison transmissions (referred to as transmission) manufactured by Allison Transmission which are used in on-highway vehicle applications.

Repairs Covered

The warranty covers repairs or replacement, at Allison Transmission's option, to correct any transmission malfunction resulting from defects in materials or workmanship occurring during the warranty period. Necessary repairs or replacements will be performed using the method Allison Transmission determines most appropriate under the circumstances. Allison remanufactured parts and/or transmissions may be used for the warranty repairs or replacements.

Towing

Towing is covered to the nearest Allison Transmission distributor or authorized Dealer only when necessary to prevent further damage to your transmission.

Payment Terms

Warranty repairs, including parts and labor, are covered per the schedule shown in Table 3.

Obtaining Repairs

To obtain warranty repairs, take the vehicle to any Allison Transmission distributor or authorized dealer within a reasonable amount of time and request the needed repairs. Allow a reasonable amount of time for the distributor or dealer to perform necessary repairs.

Transmission Removal and Reinstallation

Labor costs for transmission removal and reinstallation, when necessary to make a warranty repair, are covered by the warranty.

Warranty Period

The warranty period for all coverages shall begin on the date the transmission is delivered to the first retail purchaser, with the following exception:

Demonstration Service—A transmission in a new truck or bus may be demonstrated to a total of 5000 miles (8000 kilometers). If the vehicle is within this limit when sold to a retail purchaser, the warranty start date is the date of purchase. Normal warranty services are applicable to the demonstrating dealer. Should the truck or bus be sold to a retail purchaser after these limits are reached, the warranty period begins on the date the vehicle was first placed in demonstration service and the purchaser is entitled to the remaining warranty.

WARRANTY DOES NOT COVER:

Damage Due To Accident, Misuse, or Alteration

Defects and damage caused as the result of any of the following are not covered:

- Flood, collision, fire, theft, freezing, vandalism, riot, explosion, or object striking the vehicle
- Misuse of the vehicle
- Installation into unapproved applications and installations
- Alterations or modifications to the transmission or the vehicle
- Damage resulting from improper storage (refer to long-term storage procedure outlined in the applicable Allison Service Manual)
- Anything other than defects in Allison Transmission material or workmanship.

NOTE: This warranty is void on transmissions currently used in vehicles or previously titled as salvaged, scrapped, junked, or totaled.

Chassis, Body, and Components

The chassis and body company (assemblers) and other component and equipment manufacturers are solely responsible for warranties on the chassis, body, component(s), and equipment they provide.

Any transmission repair caused by an alteration(s) made to the Allison transmission, or the vehicle which allows the transmission to be installed or operated outside of the limits defined in the appropriate Allison Installation Guideline, is the sole the responsibility of the entity making the alteration(s).

Damage Caused by Lack of Maintenance or by the Use of Transmission Fluid not Recommended in the Operator's Manual

Defects and damage caused by any of the following are not covered:

- Failure to follow the recommendations of the maintenance schedule intervals applicable to the transmission
- Failure to use transmission fluids approved by Allison Transmission or to maintain the transmission fluid levels recommended in the Operator's Manual.

Maintenance

Normal maintenance (such as replacement of filters, screens, and transmission fluid) is not covered and is the owner's responsibility.

Repairs by Unauthorized Dealers

Defects and damage caused by a service outlet that is not an authorized Allison Transmission distributor or dealer are not covered.

Use of Other Than Genuine Allison Transmission Parts

Defects and damage cause by the use of parts that are not genuine Allison Transmission parts are not covered.

Extra Expenses

Economic loss and extra expenses are not covered. Examples include but are not limited to:

- Loss of vehicle use
- Inconvenience
- Storage
- Payment for loss of time or pay
- Vehicle rental expense
- Lodging, meals, or other travel expenses

"Denied Party" Ownership

Warranty repair parts and labor costs are not reimbursed to any participating or non-participating OEMs, dealers, or distributors who perform warranty work for, or on behalf of, end users identified by the United States as being a "denied party" or who are citizens of sanctioned or embargoed countries as defined by the U.S. Department of Treasury Office of Foreign Assets Control. Furthermore, warranty reimbursements are not guaranteed if the reimbursement would be contrary to any United States export control laws or regulations as defined by the U.S. Department of Commerce, the U.S. Department of State, or the U.S. Department of Treasury.

Other Terms Applicable to Consumers as Defined by the Magnuson-Moss Warranty Act

This warranty gives you specific legal rights and may also have other rights which vary from state to state.

Allison Transmission does not authorize any person to create for it any other obligation or liability in connection with these transmissions.

NOTE: Any implied warranty of merchantability or fitness for a particular purpose applicable to these transmissions is limited in duration to the duration of this written warranty. Performance of repairs and necessary adjustments is the exclusive remedy under this written warranty or any implied warranty. Allison Transmission shall not be liable for incidental or consequential damage (such as, but not limited to lost wages or vehicle rental expenses) resulting from breach of this written warranty or any implied warranty.*

NOTE: This warranty is the only warranty applicable to the Allison Transmission models listed in this booklet and is expressly in lieu of any other warranties, expressed or implied, including any implied warranty of merchantability or fitness for a particular purpose. Allison Transmission does not authorize any person to create for it any other obligation or liability in connection with such transmissions. Allison Transmission shall not be liable for incidental or consequential damages resulting from breach of this warranty or any implied warranty.

Questions

If you have any questions regarding this warranty or the performance of warranty obligations, you may contact any Allison Transmission distributor or dealer, or write to:

Allison Transmission, Inc.
P.O. Box 894
Indianapolis, IN 46206-0894
Attention: Warranty Administration PF9

* Some states do not allow limitations on how long an implied warranty will last or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

OEM-SPECIFIC PROGRAM COVERAGE BEYOND WARRANTY

Certain Allison transmissions built after July 1, 2006 include additional coverage beyond the standard warranty period, dependent on the Original Equipment Manufacturer (OEM) which manufactured the vehicle. This OEM-specific program coverage is provided at no extra cost to the end-user and does not require registration. Consult with your OEM or authorized Allison Transmission distributor or dealer to confirm whether your transmission carries this coverage.

This additional OEM-specific program coverage requires continued use of genuine Allison filters and an Allison approved TES 295 automatic transmission fluid.

An Allison approved TES 295 automatic transmission fluid is installed in these transmissions at the OEM and must be continued to be used. Failure to use genuine Allison filters and an Allison approved TES 295 automatic transmission fluid will result in forfeiture of this OEM-specific program coverage beyond the standard warranty period.

An Extended Transmission Coverage (ETC) offered by Allison Transmission presents the opportunity to buy additional service protection beyond the warranty period. ETC helps give added control over the cost of vehicle ownership and improved residual value at trade-in.

EXTENDED TRANSMISSION COVERAGE	

ETC Eligibility

Most Allison automatic transmissions purchased at retail for use in on-highway vehicle applications are eligible for coverage. ETC may be purchased only within 12 months after delivery of the vehicle to the first retail purchaser.

COVERAGE REQUIREMENTS: Use of an Allison Approved TES 295 transmission fluid and Genuine Allison Filters is required. Failure to use Allison Approved TES 295 transmission fluid and Genuine Allison Filters will result in no coverage for repair beyond Standard Limited Warranty coverage. Transmissions that are not OEM factory filled with Allison Approved TES 295 transmission fluid and Genuine Allison Filters must have Allison Approved TES 295 transmission fluid and Genuine Allison Filters installed at the time of Extended Transmission Coverage purchase. Transmissions that are not OEM factory filled with Allison approved TES 295 transmission fluid, or transmissions operating with non-TES 295 fluids, must be drained and filled with Allison Approved TES 295 transmission fluid to achieve 100% concentration. One Hundred percent concentration is not achieved until the second consecutive fluid change using Allison approved TES 295 transmission fluid. The second consecutive fluid change must be achieved at the time of Extended Transmission Coverage purchase.

ETC Agreement

The ETC for Allison Transmissions extends the coverage period of the standard new product warranty and/or provides that Allison Transmission will pay up to 100 percent of parts and labor expenses for covered repairs, depending on the selected coverage.

The ETC begins at the expiration of the 100 percent parts and labor portion of the standard new product warranty or OEM-specific program coverage, if applicable, and extends to the time specified by the coverage selected. Coverage time is measured from the end of the standard warranty period or OEM-specific program coverage, if applicable.

The ETC for Allison automatic transmissions provides only for conditions resulting from any part covered by the Agreement that fails to perform due to defects in materials or workmanship. Except for the term of the service protection and/or the adjustment charge, the terms, conditions and limitations of the standard new product warranty continue to apply to the ETC coverage.

ETC Coverage

ETC may be available for purchase on your Allison Transmission. You may purchase this additional coverage from any Allison authorized Distributor or Dealer Location.

ETC Coverage Prices

The suggested retail price is established for each transmission model/application combination for each of the three coverages available. The ETC price is based on the application of the vehicle for which the transmission model was purchased, and whether the transmission includes any OEM-specific program coverage beyond standard warranty.

Prices and/or coverage are subject to change without notice.

For current prices and coverage information, consult www.allisontransmission.com or your authorized Allison Transmission distributor, service dealer, or Allison Transmission Regional Office.

POLICY ON OWNER SERVICE	Allison Transmission.

MAINTENANCE SERVICES

Proper maintenance and care of the transmission will help achieve lower overall operating costs. Use of recommended lubricants and regular maintenance performed by competent service personnel will help avoid conditions arising from neglect which are not covered by Allison Transmission new product warranties.

The maintenance services described in the applicable Driver's Handbook, Owner's/Operators's Manual, or Owner's/Driver's Guide should be performed by an authorized Allison Transmission service outlet or any qualified service outlet at the time and/or mileage intervals stated.

PRODUCTION CHANGE

Allison Transmission reserves the right to make changes(s) in design or add improvement(s) to the products at any time without incurring any obligations to install same on products previously purchased. Authorized service outlets reserve a similar right.

WARRANTY REPAIR ORDER

For the owner's records, the authorized service outlet will provide a copy of the warranty repair order listing all warranty repairs performed.

OWNER ASSISTANCE

The satisfaction and goodwill of the owners of Allison transmissions are of primary concern to Allison Transmission, its distributors, and their dealers.

As an owner of an Allison transmission, there are service locations throughout the world that are eager to meet your parts and service needs with:

- Expert service by trained personnel
- Emergency service 24 hours a day in many areas
- Complete parts support
- Sales teams to help determine your transmission requirements
- Product information and literature

Normally, any situation that arises in connection with the sale, operation, or service of your transmission is handled by the distributor or dealer in your area. Check the telephone directory for the Allison Transmission service outlet nearest you or use Allison Transmission's Sales and Service Locator tool on the Allison Transmission web site at www.allisontransmission.com. You may also refer to Allison Transmission's Worldwide Sales and Service Directory (SA2229EN).

We recognize, however, that despite the best intentions of everyone concerned, misunderstandings may occur. To further assure your complete satisfaction, we have developed the following three-step procedure to be followed in the event a problem has not been handled satisfactorily.

Step One—Discuss the problem with a member of management from the distributorship or dealership.

Frequently, complaints are the result of a breakdown in communication and can be quickly resolved by a member of management. If you have already discussed the problem with the Sales or Service Manager, contact the General Manager. All Allison Transmission dealers are associated with an Allison Transmission distributor. If the problem originates with a dealer, explain the matter to a management member of the distributorship with whom the dealer has his service agreement. The dealer will provide his Allison Transmission distributor's name, address, and telephone number on request.

Step Two—Contact the Allison Transmission Regional Office

When it appears the problem cannot be readily resolved at the distributor level without additional assistance, **contact the Allison Technical Assistance Center at 800-252-5283.** They will place you in contact with the Regional Customer Support Manager for your area.

For prompt assistance, please have the following information available:

- Name and location of authorized distributor or dealer.
- Type and make of vehicle/equipment.
- Transmission model number, serial number, and assembly number (if equipped with electronic controls, also provide the Transmission Control Module (TCM) assembly number).
- Transmission delivery date and accumulated miles and/or hours of operation.
- Nature of problem.
- Chronological summary of your transmission's history.

Step Three—Contact the Home Office

If you are still not satisfied after contacting the Regional Customer Support Manager, present the entire matter to the Home Office by writing to the following address:

Allison Transmission, Inc.
Manager, Warranty Administration
PO Box 894, Mail Code PF9
Indianapolis, IN 46206-0894

The inclusion of all pertinent information assists the Home Office in expediting the matter.

When contacting the Home Office, please keep in mind that ultimately the problem will likely be resolved at the distributorship or dealership using their facilities, equipment, and personnel. Therefore, it is suggested that Step One be followed when experiencing a problem.

Your purchase of an Allison Transmission product is greatly appreciated, and it is our sincere desire to assure complete satisfaction.

Eaton Warranty Guide TCWY0900 EN-US

December 2015

Powering Business Worldwide

BACKED BY
Roadranger
SUPPORT

General Information

Knowing and understanding Roadranger warranty is the responsibility of the vehicle owner. It is also the responsibility of the selling dealer to identify the Roadranger products in the vehicle and inform the purchaser of the warranty for those products, based on the vehicle vocation at the time of sale.

The combined use of the Eaton Warranty Manual TCWY0600 and the Eaton Warranty Guide TCWY0900 expresses Eaton component time and mileage warranty coverages for the Roadranger products. Roadranger warranty training is also available to assist dealers in understanding and identifying vocation coverage and warranty parameters. See your Roadranger Representative for details.

TCWY0900, Eaton Warranty Guide

Roadranger component warranty is identified using the Eaton Warranty Guide TCWY0900. The Warranty Guide explains Roadranger vocation definitions, component time and mileage limits per vocation, aftermarket component / part warranties, and extended purchase warranty options.

How do I define my vocation coverage?

1. Review all the "Vocational Definitions" listed and select the one that most accurately describes the use and configuration of the vehicle.
2. Ensure your vehicle vocation is listed in the "Typical Vehicle Types" under the selected Vocational Definition.
3. Once the vocation is defined refer to the "Product Time and Mileage Coverage Per Vocation" section.
4. Identify the component in question using the product model number for the time and mileage coverage.
5. Refer to and understand any notes that pertain to a specific coverage (i.e. lube requirements).
6. Vocational requirements do not apply for most Aftermarket parts/components. Reference the Service/Aftermarket Parts Warranty Coverage section of this manual for warranty coverages specific to Service/Aftermarket Parts.
7. If you cannot determine coverage, contact your Roadranger Representative or call the Roadranger Call Center at the time of sale at 1-800-826-HELP (4357).

TCWY0600, Eaton Warranty Manual

The Eaton Warranty Manual TCWY0600 documents the specifics of Roadranger product warranty. This manual includes:

- Product Warranty Statements for Eaton Truck Business Group
- Warranty terminology
- Warranty programs
- Claim procedures and claim information
- Important information regarding claim approval
- Component repair or replacement guidelines
- Labor hour guidelines (SRTs)
- Limits, exclusions, and requirements
- Other important resources

Change Control Log 28

Introduction

Our experience in extended warranty coverage dates back to the mid 80's. Since then, we have pioneered many new programs designed to deliver warranties, which meet the demands of an ever-changing trucking industry.

From our first versions of the on/off-highway coverages, to our more recent vocational warranties, released in January 1997, customization and customer satisfaction, have always been our goals. The recently released warranties, covered in this Warranty Guide, are no exception.

Moving to vocational warranties in 1997, was certainly a change from the way coverages were defined in the past. But, we considered the move as a means to significantly reduce incidents of misapplied products and customer disappointment. It has done exactly that.

When first released, the vocational warranties were a fairly complete package, which allowed for many variations in coverage. However, the introduction of new models and the resulting need to expand extended warranty coverages, have necessitated updates to this Warranty Guide.

Effective Date

Warranties listed in this guide are effective for vehicles placed in service after the first day for the month / year of this publication month / year revision.

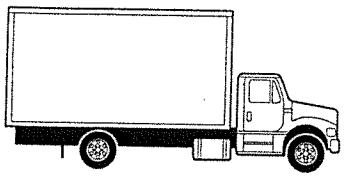
Don't Be Confused - Help is Available

We realize, there are many different warranties available. Manufacturers and suppliers have established coverages to suit their specific products. Remembering all these guidelines, can be very difficult.

If, at any time, you have questions regarding Roadranger warranty coverages or model eligibility, contact the Roadranger Call Center at 1-800-826-HELP (4357). A customer service coordinator will be glad to assist you in getting the answers you need.

For warranty limits, exclusions, and requirements see the Eaton Warranty Manual TCWY0600. Additional limits, exclusions, and requirements for the Extended Protection Plan are available within this guide.

See the Change Log a the end of this guide for detailed updates to both the Eaton Warranty Manual and the Eaton Warranty Guide.



Pick Up and Delivery

Vocational Description:

- Pick up and delivery service consists of the movement of freight typically within a 100 mile radius in cities and/or sub-urban areas.
- Operation on road surfaces of concrete, asphalt and maintained gravel.
- Three (3) to thirty (30) miles between starts/stops (typical).
- Annual mileage less than 50,000 miles (80,000 Km).
- 100% load going / 40% load return (typical).
- 40% load going / 100% load return.

Typical Vehicle Types

Beverage Truck	Municipal Truck	Stake Truck	Step Van
Flatbed Truck	City Delivery	Tanker	Grain Hauler (grain hopper/bottom dump trailers)
Moving Van	Refrigerated Truck	Wrecker	

Warranty Coverage for Vehicles Meeting Vocation Definitions and Application Guidelines
(For U.S. and Canada Only)

Clutches	All Models except UltraShift® *PLUS* and Advantage Series (**Note 2**)	Per OEM Standard Chassis Warranty Coverage
	Ultrashift - HV Models	3 years/ 150,000 Mileage
	UltraShift *PLUS* LAS Clutch & Low Capacity Inertia Brake (LCIB) (**Note 1**)	3 years / 350,000 Mileage

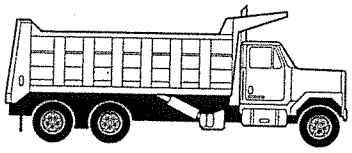
	FS Series, RT-6609A, FO-6406-ASX, FO-8406-ASX **(Notes 1, 3)** (Excludes clutch module)	2 years / Unlimited Mileage
	FO-6406-ASW, FO-8406-ASW **(Note 1)** (Includes clutch module)	3 years / 150,000 miles (240,000 Km)
	UltraShift HV: F-5405B-DM3, FO-5406B-DM3, F-5505B-DM3, F-6505B-DM3, FO-5506B-DM3	3 years / Unlimited Mileage
	Procision **(Note 8)**	3 years / Unlimited Mileage
	Hybrid: **(Notes 1, 4, 5)** EH-8E306A-CD EH-6E606B-CD EH-8E406A-CD EH-6E706B-CD EH-6FL0706B-CD EH-8FA0706A-CD EH-8E306A-T EH-8E406A-T EH-8FA0706A-T EH-8E306A-CDR EH-8E306A-CDG EH-8FA0806A-CDG EH-8E406A-CDR EH-8FA0706A-CDR EH-8E406A-CDG	3 years/ 150,000 miles (240,000 Km)
Oil-to-Water Heat Exchangers	All Models **(Note 1)**	3 years / Unlimited Mileage
Auxiliary Transmission	Models: AT-1202, 2A-92	1 year / Unlimited Mileage

Note 1: All transmission models require the use of a Roadranger approved lubricant. Automated transmissions and transmissions with Purchased Extended Protection Plans must use Roadranger Synthetic Lubricant meeting Eaton PS-386 specification (Refer to Lubrication Manual, TCMT0021.) All transmission and clutch models must meet and have Eaton Engineering Application Approval prior to sale to qualify for any warranty coverage, and then be operated in the approved applications. Those that do not will void their warranty. No blanket approvals are available at this time for UltraShift ***PLUS*** models and Hybrid Systems.
Note 2: Refer to "Extended Protection Plan Matrix" section on www.roadranger.com
Note 3: FS Series synchronizer wear coverage (synchronizers with Eaton Friction Material) is only available for transmissions that use Eaton approved synthetic lubricant in conjunction with either a Solo Adjustment Free or a 365 MM Clutch (Transmission Robust Package). Without stated package requirements, synchronizer wear is not covered.
Note 4: EH-8E306A-T model restricted to "4x2 tractor only.
Note 5: EH-6E606B-CD model for Low Profile use restricted to Step Van and GVW. See engineering approval.
Note 6: Eaton highly recommends when a replacement is necessary that a like for like, should be used. Example: Solo Advantage for Solo Advantage.
Note 7: Eaton highly recommends installing a Solo clutch in vehicles with hydraulic release systems for optimal performance, reduced maintenance and increased clutch life.
Note 8: Procision transmissions require the use of PS-278 approved lubricants.



Construction

- Movement of material to and from a job site.
- Or vehicles used in transfer / relocation on a maximum grade of 8%, typically greater than 10 miles per trip.
- 90% of loaded operation on road surfaces of concrete, asphalt, gravel, crushed rock or hard packed dirt and up to 10% of loaded operation into sandy or muddy job sites. Vehicles operating less than 90%, refer to Specialized Applications "Off-Highway" coverages.

Typical Vehicle Types

Asphalt Truck	Dump Truck	Roll-off	Tank Truck	Concrete Pumper	Mixer
Block Truck	Flatbed Truck	Snowplow	Utility Truck	Landscape Truck

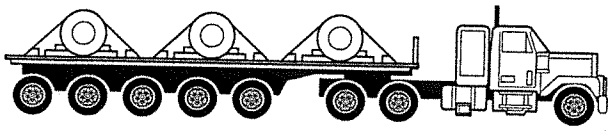
Without stated package requirements, synchronizer wear is not covered.
Note 5: Eaton highly recommends when a replacement is necessary that a like for like, should be used. Example: Solo Advantage for Solo Advantage.
Note 6: Eaton highly recommends installing a Solo clutch in vehicles with hydraulic release systems for optimal performance, reduced maintenance and increased clutch life.



Heavy Haul

- Movement of heavy equipment or materials at legal maximums or special permit loadings, typically with GCW at or above 140,000 lbs.
- Operation on road surfaces of concrete, asphalt and maintained gravel.
- High horsepower engines and auxiliary gear boxes might be used.
- Vehicles may be equipped with two retarders.
- 100% load going and empty return.

Typical Vehicle Types

Equipment Hauling Lowboy Steel Hauling

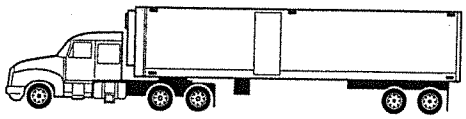
Note 1: All transmission models require the use of a Roadranger approved lubricant. Automated transmissions and transmissions with Purchased Extended Protection Plans must use Roadranger Synthetic Lubricant meeting Eaton PS-386 specification (Refer to Lubrication Manual, TCMT0021.) All transmission and clutch models must meet and have Eaton Engineering Application Approval prior to sale to qualify for any warranty coverage, and then be operated in the approved applications. Those that do not will void their warranty. No blanket approvals are available at this time for UltraShift *PLUS* models and Hybrid Systems.
Note 2: Refer to "Extended Protection Plan Matrix" on www.roadranger.com
Note 3: Eaton highly recommends when a replacement is necessary that a like for like, should be used. Example: Solo Advantage for Solo Advantage.
Note 4: Eaton highly recommends installing a Solo clutch in vehicles with hydraulic release systems for optimal performance, reduced maintenance and increased clutch life.



Linehaul

Vocational Description:

- Linehaul is moving different types of freight in high mileage operation [over 50,000 miles (80,000 km) / year].
- Operation on road surfaces of good to excellent concrete or asphalt.
- 80% of distances are more than 30 miles between starting and stopping with remaining 20% being within 30 miles between starting and stopping.
- Typical vehicle configurations are 4X2, 6X2, and 6X4 tractor / trailer combinations and straight trucks.

Typical Vehicle Types

Auto Hauler	Flatbed Trailer	Livestock Hauler	Tanker
Bulk Hauler	General Freight	Moving Van	Triples
Doubles	Grain Hauler (grain hopper/bottom dump trailers)	Refrigerated Freight	Regional Hauler

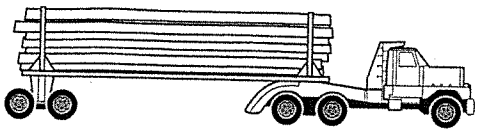
Warranty Coverage for Vehicles Meeting Vocation Definitions and Application Guidelines
(For U.S. and Canada Only)

Clutches	All Models Except DM, UltraShift ***PLUS***, and Advantage Series. (**Note 2**)	Per OEM Standard Chassis Warranty Coverage
	Fuller Advantage ECA, UltraShift *PLUS* LAS, LSE, MXP, MHP Clutch & Low Capacity Inertia Brake (LCIB) (**Note 1**)	3 years / 350,000 Mileage
	UltraShift *PLUS* VCS, VMS, VXP Clutch and LCIB (**Note 1**)	3 years / Unlimited Mileage
	Medium-Duty DM Models	3 years / Unlimited Mileage
	Heavy-Duty DM Models	3 years / 350,000 (560,000 km) parts and labor
	Solo Advantage **(Notes 1, 6)**	3 years / 350,000 Mileage
	Easy Pedal Advantage **(Notes 1, 6)**	2 years / 200,000 Mileage
Hydraulic Clutch Actuator (Adapter Assembly and Release Fork Assembly)	Assembly	3 years / 300,000 miles (480,000 km)
Electronic Clutch Actuator	Electronic Clutch Actuator	Same as Transmission Coverage
Transmissions	All Models: 7, 9, 10 Speeds (1750 lb-ft and below) Includes AutoShift (AS), Top 2 models, and Fuller UltraShift LST (DM). (Excludes DM clutch) for above models (**Notes 1, 3, 4**) (Model exceptions shown below)	5 years / 750,000 miles (1,200,000 km)
	8600/8700 Series	3 years / Unlimited Mileage
	FS Series, RT-6609A (**Note 5**) FO-6406-ASX, FO-8406-ASX (**Note 1**) (excludes clutch module)	2 years/ Unlimited Mileage

Transmissions, Continued	FO-6406-ASW, FO-8406-ASW. (Includes clutch module.) **(Note 1)**	3 years / 150,000 miles (240,000 km)
	UltraShift HV Models: FO-6406B-DM3, FO-6506B-DM3, F-6405B-DM3, F-6505B-DM3	3 years / Unlimited Mileage
	FRO-18210C,RTLO-18610B, RTO-18910B-AS2 **(Notes 1, 3)**	5 years / 500,000 miles (800,000 km)
	Multi-speeds: 13,15,18, 8LL Includes AutoShift (AS), Top 2 models for 13, 18 speed models. **(Notes 1, 2)**	3 years / 300,000 miles (480,000 km)
	UltraShift *PLUS* LAS, LSE. (Excludes Clutch & LCIB) **(Note 1)**	5 years / 750,000 Mileage
	Fuller Advantage Automated **(Note 1)**	5 years / 750,000 Mileage
	Fuller Advantage Mechanical **(Note 1)**	5 years / 750,000 Mileage
	UltraShift *PLUS* MXP, MHP. (Excludes Clutch & LCIB). **(Note 1)**	5 years / 500,000 Mileage
	UltraShift *PLUS* VCS, VMS, VXP. (Excludes Clutch & LCIB.) **(Note 1)**	3 years / 300,000 miles (480,000 km)
	RTLO/RTLOM-16913L-DM3 **(Notes 1, 4)**	5 years / 500,000 miles (800,000 km)
	FO/FOM-16D313E-LEP	5 years / 500,000 miles (800,000 km)
	Convertible Models: RTOC/RTOFC-16909A/E RTLOC/RTLOFC-16909A-T2 RTLOC-16709A, RTOC-18909A RTLC-16609E, RTLOC-18909A-T2 **Scenario 1** [converted within first 3 years/ 300,000 miles (480,000 km) of service] **Scenario 2** [converted after the expiration of 3 years/300,000 miles (480,000 km) but prior to the expiration of 5 years/500,000 miles (800,000 km) of service]	**Original 9 Speed Configuration** (prior to conversion) 5 years / 500,000 miles (800,000 km) **Converted to 13 Speed Configuration** 1 year/100,000 miles(160,000 km) or to the expiration of 3 years/300,000 miles (480,000 km) whichever is greater 1 year/100,000 miles (160,000 km) **Note:** In any case, there is no warranty coverage beyond 6 years/600,000 miles (960,000 km) of service.
External Oil-to-Water Heat Exchangers	All Models **(Note 1)**	3 years / 300,000 (480,000 km)
Auxiliary Transmission	Models: AT-1202, 2A-92	1 year / Unlimited Mileage

Note 1: All transmission models require the use of a Roadranger approved lubricant. Automated transmissions and transmissions with Purchased Extended Protection Plans must use Roadranger Synthetic Lubricant meeting Eaton PS-386 specification (Refer to Lubrication Manual, TCMT0021.) All transmission and clutch models must meet and have Eaton Engineering Application Approval prior to sale to qualify for any warranty coverage, and then be operated in the approved applications. Those that do not will void their warranty. No blanket approvals are available at this time for UltraShift *PLUS* models and Hybrid Systems.
Note 2: Refer to "Extended Protection Plan Matrix" on www.roadranger.com
Note 3: For manual transmissions with Approved Synthetic Lube, Without Approved Synthetic Lube, Warranty = 3 years/300,000 miles (480,000 km).
Note 4: Fuller UltraShift LST (DM) transmission warranty less the DM clutch (see "Clutch" for DM clutch warranty).

Note 5: FS Series synchronizer wear coverage (synchronizers with Eaton Friction Material) is only available for transmissions that use Eaton approved synthetic lubricant in conjunction with either a Solo Adjustment Free or a 365 MM Clutch (Transmission Robust Package). Without stated package requirements, synchronizer wear is not covered.
Note 6: Eaton highly recommends when a replacement is necessary that a like for like, should be used. Example: Solo Advantage for Solo Advantage.
Note 7: Eaton highly recommends installing a Solo clutch in vehicles with hydraulic release systems for optimal performance, reduced maintenance and increased clutch life.



Logging

- Movement of logs, chips, and pulp between logging sites and / or mills.
- High horsepower engines and multiple retarders are typically used in this vocation.
- 3 to 30 miles between starts and stops (typical).
- 90% of loaded operation on road surfaces of concrete, asphalt, maintained gravel, crushed rock or hard packed dirt and up to 10% of loaded operation into sandy or muddy job sites. Vehicles operating less than 90%, refer to Specialized Applications "Off-Highway" coverages.
- 100% load going and empty return.

Typical Vehicle Types

Tractors with Pole Trailers Tractor / Trailer Excluding Log Skidders

Log Hauler

Warranty Coverage for Vehicles Meeting Vocation Definitions and Application Guidelines
(For U.S. and Canada Only)

Clutches	All Models except UltraShift *PLUS* and Advantage Series. (**Note 2**)	Per OEM Standard Chassis Warranty Coverage
	UltraShift *PLUS* Clutch & Low Capacity Inertia Brake (LCIB) (**Note 1**)	2 years / Unlimited Mileage

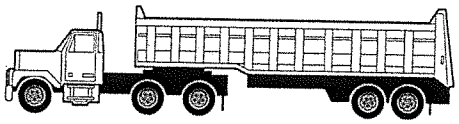
Hydraulic Clutch Actuator (Adapter Assembly and Release Fork Assembly)	Assembly	3 years / Unlimited Mileage
Electronic Clutch Actuator	Electronic Clutch Actuator	Same as Transmission Coverage
Transmissions	Models: 9, 10 Speeds (**Note 1**) (Excludes Fuller UltraShift LST (DM) & LHP) Multispeed: 13, 15, 18, 8LL (**Notes 1,2**)	2 years / Unlimited Mileage
	UltraShift PLUS VCS, VMS, VXP, LAS, MHP, MXP (**Note 1**)	2 years / Unlimited Mileage
	FASA 10C	2 years / Unlimited Mileage
Oil-to-Water Heat Exchangers	All Models (**Note 1**)	2 years / Unlimited Mileage
Auxiliary Transmission	Models: AT-1202, 2A-92	1 year / Unlimited Mileage

Note 1: All transmission models require the use of a Roadranger approved lubricant. Automated transmissions and transmissions with Purchased Extended Protection Plans must use Roadranger Synthetic Lubricant meeting Eaton PS-386 specification (Refer to Lubrication Manual, TCMT0021.) All transmission and clutch models must meet and have Eaton Engineering Application Approval prior to sale to qualify for any warranty coverage, and then be operated in the approved applications. Those that do not will void their warranty. No blanket approvals are available at this time for UltraShift *PLUS* models and Hybrid Systems.
Note 2: Refer to "Extended Protection Plan Matrix" on www.roadranger.com
Note 3: Eaton highly recommends when a replacement is necessary that a like for like, should be used. Example: Solo Advantage for Solo Advantage.
Note 4: Eaton highly recommends installing a Solo clutch in vehicles with hydraulic release systems for optimal performance, reduced maintenance and increased clutch life.



Mining

- Movement of rock, ore, gravel, and minerals between mine sites and delivery sites.
- High horsepower engines are typically used in this vocation.
- 3 to 30 miles between starts and stops (typical).
- 90% operation on-highway and up to 10% into sandy or muddy job site. Vehicles operating less than 90%, refer to Specialized Applications "Off-highway" coverages.
- 100% load going and empty return.

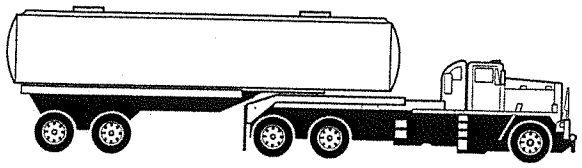
Typical Vehicle Types

Bottom Dump Trailer	Semi-End Dump
Hopper Trailer Combinations	Transfer Dump

Warranty Coverage for Vehicles Meeting Vocation Definitions and Application Guidelines
(For U.S. and Canada Only)

Clutches	All Models except UltraShift *PLUS* and Advantage Series. (**Note 2**)	Per OEM Standard Chassis Warranty Coverage
	UltraShift *PLUS* Clutch & Low Capacity Inertia Brake (LCIB) (**Note 1**)	2 years / Unlimited Mileage
	Easy Pedal Advantage and Solo Advantage™ (**Note 1, 3**)	2 years / 200,000 Mileage
Hydraulic Clutch Actuator (Adapter Assembly and Release Fork Assembly)	Assembly	3 years / Unlimited Mileage
Electronic Clutch Actuator	Electronic Clutch Actuator	Same as Transmission Coverage
Transmissions	Models: 9, 10 Speeds (**Note 1**) (Excludes Fuller UltraShift LST (DM) & LHP) 8600 / 8700 Series Multispeed: 13, 15, 18, 8LL (**Note 1**)	2 years / Unlimited Mileage
	UltraShift *PLUS* VCS, VMS, VXP, LAS, MHP, MXP (**Note 1**)	2 years / Unlimited Mileage
	FASA 10C	2 years / Unlimited Mileage
Oil-to-Water Heat Exchangers	All Models (**Note 1**)	2 years / Unlimited Mileage
Auxiliary Transmission	Models: AT-1202, 2A-92	1 year / Unlimited Mileage

Note 1: All transmission models require the use of a Roadranger approved lubricant. All transmission and clutch models must meet and have Eaton Engineering Application Approval prior to sale to qualify for any warranty coverage, and then be operated in the approved applications. Those that do not will void their warranty.
Note 2: Contact your OEM for details. Refer to "Extended Protection Plan Matrix" on www.roadranger.com
Note 3: Eaton highly recommends when a replacement is necessary that a like for like, should be used. Example: Solo Advantage for Solo Advantage.
Note 4: Eaton highly recommends installing a Solo clutch in vehicles with hydraulic release systems for optimal performance, reduced maintenance and increased clutch life.



Oil Field

- Movement of production related products, supplies, and tools between job sites.
- Movement of processing equipment and laboratories on job sites.
- Low mileage operation on road surfaces made of concrete, asphalt, maintained gravel, crushed rock or hard packed dirt.

Typical Vehicle Types

Cementing Vehicle	Drill Rig	Geophysical Exploration	Winch Truck
Demolition	Fracturing Truck	Tanker	

Warranty Coverage for Vehicles Meeting Vocation Definitions and Application Guidelines
(For U.S. and Canada Only)

Clutches	All Models except UltraShift *PLUS* and Advantage Series. (**Note 2**)	Per OEM Standard Chassis Warranty Coverage

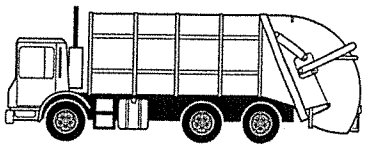
Note 4: Eaton highly recommends when a replacement is necessary that a like for like, should be used. Example: Solo Advantage for Solo Advantage.
Note 5: Eaton highly recommends installing a Solo clutch in vehicles with hydraulic release systems for optimal performance, reduced maintenance and increased clutch life.



Refuse

- Vehicles used for residential refuse / recycle pickup, typically a high number of stops per mile.
- Or vehicles operated in commercial / industrial pickup, typically a low number of stops per mile.
- Or vehicles used in transfer / relocation, typically greater than 10 miles per trip.
- 90% of loaded operation on road surfaces of concrete, asphalt, or maintained gravel and up to 10% of loaded operation into landfill, transfer or recycling sites. Vehicles operating less than 90%, refer to Specialized Applications "Off-Highway" coverages.

Typical Vehicle Types

Front / Rear / Side Loader	Sewer / Septic / Waste	Transfer Vehicle
Residential / Commercial Pickup	Scrap Truck	

Warranty Coverage for Vehicles Meeting Vocation Definitions and Application Guidelines
(For U.S. and Canada Only)

Clutches	All Models except UltraShift *PLUS* and Advantage Series. (**Note 2**)	Per OEM Standard Chassis Warranty Coverage

Note 5: Eaton highly recommends installing a Solo clutch in vehicles with hydraulic release systems for optimal performance, reduced maintenance and increased clutch life.

Specialized Applications

School Bus

- Transporting students to and from school and /or school related events.
- Operation on road surfaces made of concrete, asphalt, maintained gravel, crushed rock, hard packed dirt, or other similar surfaces.

Typical Vehicle Types

Front Engine Commercial Chassis	Rear Engine Integral Coach
Front Engine Integral Coach	Rear Engine Commercial Chassis

Yard Tractor

- Moving and spotting trailers and containers around freight terminals, port facilities, and warehouses (short distances).
- Operation on well maintained concrete, asphalt, or gravel surfaces at yards, terminals, or docks.

Typical Vehicle Types

Load-On/ Load-Off	Roll-On/Roll-Off	Stevedoring Tractor	Yard Jockey
Port Tractor	Rail Yard Spotter	Trailer Spotter	

Rescue Vehicle

- Specialized vehicles for rapid acceleration to crash sites away from hydrant hookups.
- Airport rescue is the most common.
- Low mileage operation.

Typical Vehicle Types

Airport Rescue Fire (ARF)	Emergency Service
Crash Fire (CFR)	Rapid Intervention Vehicle (RIV)

Recreation Vehicle

- A privately owned recreational vehicle.
- Truck chassis based
- Bus chassis based

Typical Vehicle Types

Recreational Vehicles	Motor Homes Class A

Fire Service

- Pumpers, tankers, or aerial ladders used in fighting structural fires.
- Low mileage operation.

Typical Vehicle Types

Ambulance	Aerial Platform	Tanker Truck
Aerial Ladder Truck	Pumper	

Transit Coach

- Transporting people and sometimes light freight between cities and/or suburban areas.
- Transporting people in and around city or suburban areas.

Heavy Haul Military

- Vehicles often operate under extreme conditions of load, weight, road conditions and grade

Typical Vehicle Types

Equipment Hauling

Off-Highway

- Operation exceeding 10% of the time on unimproved surfaces such as loose dirt, mud, and sand.

Industrial Equipment

- Non-vehicle applications such as generator sets, winches, and cranes.

InterCity Bus

- Transporting people and sometimes light freight between cities and/or suburban areas.
- Transporting people in and around city or suburban areas.

Typical Vehicle Types

Airport Shuttle	Trolley
City Bus	Shuttle Bus

Agriculture

Vocational Description:

- Vehicles used in the agriculture industry. Use typically involves transportation of agricultural & dairy products to/from/on/around farm sites
- Includes operation off of improved surfaces while on the farm.

Typical Vehicle Types

Milk Tankers for Farm Pickup	Feed Trucks	Grain Silage, and Hay Haulers (which load in the field)

Warranty Coverage for Vehicles Meeting Vocation Definitions and Application Guidelines (For U.S. and Canada Only)

Note 1: All transmission models require the use of a Roadranger approved lubricant. Automated transmissions and transmissions with Purchased Extended Protection Plans must use Roadranger Synthetic Lubricant meeting Eaton PS-386 specification (Refer to Lubrication Manual, TCMT0021.) All transmission and clutch models must meet and have Eaton Engineering Application Approval prior to sale to qualify for any warranty coverage, and then be operated in the approved applications. Those that do not will void their warranty. No blanket approvals are available at this time for UltraShift *PLUS* models and Hybrid Systems.

Note 2: Per OEM Standard Chassis Warranty Coverage.

Note 3: Eaton highly recommends when a replacement is necessary that a like for like, should be used. Example: Solo Advantage for Solo Advantage.

Note 4: Procision transmissions require the use of PS-278 approved lubricants.

Eaton Service / Aftermarket Parts Warranty Coverage - U.S. and Canada Only

The following warranty coverages apply for all genuine Eaton service/aftermarket parts, subcomponents, and complete components (subject to the exceptions, notes, and definitions stated therein):

<table>
<tr><th>Product Supplied</th><th>Warranty Term</th><th>Exceptions</th></tr>
<tr><td>Service / Aftermarket Parts</td><td rowspan="6">12 months / Unlimited Mileage (km)</td><td rowspan="8">Parts and Labor*</td></tr>
<tr><td>New, Exchange and Remanufactured Electronics</td></tr>
<tr><td>Clutch Service / Remanufactured / ECA Clutch / DM Clutch / Diaphragm Spring Clutch</td></tr>
<tr><td>Clutch EverTough Brand™ (see Note 3)</td></tr>
<tr><td>Reman™ Power Electronics Carrier (PEC)</td></tr>
<tr><td>Clutch Advantage Series™ see (Note 3)</td><td>24 months / Unlimited Mileage (km)</td></tr>
<tr><td>New Exchange Power Electronics Carrier (PEC)</td><td>36 months / Unlimited Mileage (km)</td></tr>
<tr><td>New or Reman™ Medium Duty Transmissions</td><td>12 months / Unlimited Mileage (km)</td><td>Parts and Labor*</td></tr>
<tr><td>Lightning Reman™</td><td>12 months / Unlimited Mileage (km)</td><td rowspan="5">Excludes Output Shaft Seals
&
Parts and Labor*</td></tr>
<tr><td>Reman™ Heavy Duty Transmissions (see Notes 1)</td><td rowspan="3">24 months / Unlimited Mileage (km)</td></tr>
<tr><td>Reman™ Glider Kit Heavy Duty Transmissions (see Notes 1)</td></tr>
<tr><td>FLEX Reman™ Heavy Duty Transmissions (see Notes 1)</td></tr>
<tr><td>Reman™ Heavy Duty, Reman™, FLEX Reman™ and Glider Kit Heavy Duty Transmissions with:
Enhanced Warranty Upgrade -
Eaton Advantage Clutch or EverTough® with Roadranger approved lube (PS-386) specified (see Notes 2)</td><td rowspan="2">36 months / Unlimited Mileage (km)</td></tr>
<tr><td>New Exchange Heavy Duty Transmissions</td></tr>
<tr><td>Bendix Brake and VORAD Collision Warning System</td><td colspan="2">See Bendix Warranty Web Site</td></tr>
</table>

Note: 1 - Warranty terms apply to all purchases effective January 1, 2012. All transmissions purchased prior to January 1, 2012 carry their warranty terms at time of sale.

Note: 2 - The Enhanced Warranty Upgrade for 36 months / Unlimited Mileage (km) is available for all applications (must be registered within one year of transmission purchase on the Eaton warranty web site, Roadranger.com)(UltraShift, UltraShift *PLUS* and Lightning Reman, and Stationary Applications not included). If purchased with an EverTough Clutch, clutch coverage will be 24 months / Unlimited Mileage and if purchased with Advantage Clutch, clutch coverage will be 36 months / Unlimited Mileage.

Note: 3 - Warranty terms apply to all purchases effective on or after August 1, 2015. When purchased and installed with a Genuine Eaton Clutch Installation kit, EverTough Clutch coverage will be 24 months / Unlimited Mileage and Advantage Clutch coverage will be 36 months / Unlimited Mileage.

* Parts and Labor will be reimbursed for warranty repairs performed through OEM approved channel.

Exceptions

If a non-warrantable failure occurs within the ***Standard*** warranty coverage period, and the customer purchases a new Eaton Exchange Transmission to complete the repair; warranty coverage shall be the remainder of the *original* warranty period, or the coverage period of the new Exchange, whichever is greater. If an Eaton Remanufactured Transmission is purchased to complete a non-warrantable repair during the ***Standard*** warranty period, warranty coverage shall be the coverage period of the Eaton Remanufactured Transmission.

If a non-warrantable failure occurs within the ***Extended*** warranty coverage period, and the customer purchases a genuine New Exchange Transmission or an Eaton Remanufactured transmission to complete the repair; warranty coverage shall be the remainder of the original warranty period, or the defined coverage period of the purchased replacement transmission, whichever is greater.

If a non-warrantable failure occurs during the ***Original*** warranty period *(Standard or Extended)* and the customer purchases genuine Eaton service/aftermarket parts to complete the repair; the warranty coverage period of the service/aftermarket parts shall be one year from the date of installation. Remaining parts and subcomponents, which were not replaced at the time of the non-warrantable repair, shall maintain the coverage of the *original* warranty period.

See the Eaton Warranty Manual TCWY0600 for replacement matrix.

Definitions

Standard Warranty - The base warranty coverage, offered to all purchasers of a product. It is sometimes called, "the OEM warranty period."

Extended Warranty - Additional coverage, which becomes effective when the Standard warranty period ends. Usually, there are other requirements for eligibility and, in some cases, a service charge must be paid to purchase the coverage.

Original Warranty - The total warranty coverage for which a product is eligible. A combination of the Standard and Extended warranty periods.

Notes

- Warranty coverages for genuine Eaton service / aftermarket parts, subcomponents, and complete components commence on the date of retail sale.
- Warranty coverages, stated herein, ***apply only*** to genuine Eaton service / aftermarket parts, subcomponents, and complete components, which are purchased by the customer at normal retail prices.
- Warranty coverages, stated herein, ***do not apply*** to genuine Eaton service / aftermarket parts, or subcomponents for which Eaton has contributed, to any extent, to the purchase and/or installation by full or partial reimbursement in the form of check, coupon, or no charge parts to the customer as a goodwill or policy transaction. Such service/aftermarket parts shall be covered for a period of ninety (90) days from the date of installation. REMAN™ and New Exchange transmissions provided as the result of a good will or policy transaction, are warranted for 12 months from the installation date.
- To continue warranty coverage, the purchased component model must be the same as the failed component model, unless substitution is authorized by Eaton.
- All other Eaton warranty exclusions and limitations apply to the coverages stated herein and in the Eaton Warranty Manual TCWY0600. Special aftermarket programs and products not listed in this manual have warranty parameters and requirements specified individually per released documentation.
- New / REMAN / Part Product warranty starts the date of RETAIL Sale when used in Glider Kits and vehicle refurbishing. IF a product is transferred to a Glider Kit or a vehicle / chassis other than the original vehicle / chassis, the warranty of the transferred product is VOID.

Extended Protection Plan Requirements, Limitations, and Exclusions

- Application for purchased warranty must be made within one (1) year of the in-service date of the vehicle to avoid a late registration fee.
- Vehicles registered beyond the one year limitation are subject to the following late registration fees:
  - Vehicles registered from the 13th month through the 24th month of service require payment of:
    - HD Transmission: $100 USD/$115 CAD
    - MD Transmission: $50 USD/$55 CAD
    - Clutch: $50 USD/$55 CAD
  - Vehicles registered from the 25th month through the 36th month of service require payment of:
    - HD Transmission: $300 USD/$340 CAD
    - MD Transmission: $100 USD/$155 CAD
    - Clutch: $100 USD/$155 CAD
  - Warranty coverage for vehicles registered in the 2nd and 3rd year take effect 30 days from the date of registration.
- A vehicle or component may not be registered if it has exceeded:
  - Clutch - the basic published OEM clutch warranty.
  - Transmission - the time of the Eaton published standard warranty.
- Extended warranty is only available for the eligible models listed or referenced herein.
- Warranty applies only to clutches and transmissions installed in vehicles as original equipment.
- A Roadranger approved synthetic lubricant must be used. Lubricant must be changed per Roadranger prescribed maintenance schedules (Reference Roadranger publication TCMT0021). Lube change records might be requested for verification purposes.
- Transmission oil temperatures must be maintained per Roadranger publication TCMT0021.
- Warranty applies exclusively to vehicles licensed and operating in the United States of America or Canada.
- Warranty is transferable to only one subsequent vehicle owner. Warranty is only transferable within the same vehicle vocation. Changing vehicle vocations voids the warranty coverage.
- Re-rating engine torque above the approved torque capacity of the component, voids the warranty coverage. Dealer/ Purchaser shall be responsible for verifying the engine torque does not exceed the torque capacity of the drivetrain.
- Warranty covers parts and labor per Eaton established guidelines.
- Oil to water heat exchangers are not covered under the Roadranger Extended Protection Plans.
- See the Eaton Warranty Manual TCWY0600 for time and mileage examples and warranty information, requirements, limits, and exclusions.

For complete information on requirements, limitations or exclusions available warranty coverages, warranty claim filing procedures, and authorized repair times, reference the Warranty Manual (TCWY0600) and the Warranty Guide (TCWY0900) both available on Roadranger.com or contact the Roadranger Call Center at 1-800-826-HELP (4357).

Please refer to www.roadranger.com for a complete list of Extended Protection Plan options.

Note: Automated transmissions and transmissions with Purchased Extended Protection Plans must use Roadranger Synthetic Lubricant meeting Eaton PS-386 specification (Refer to Lubrication Manual, TCMT0021.) All transmission and clutch models must meet and have Eaton Engineering Application Approval prior to sale to qualify for any warranty coverage, and then be operated in the approved applications. Those that do not will void their warranty. No blanket approvals are available at this time for UltraShift *PLUS* models and Hybrid Systems.

Lubricant Specifications

Transmission Lubricants

Eaton Recommends the Use of Roadranger Lubricants for Extended Drain

Use the Heavy-Duty and Medium-Duty charts, starting with transmission type, to locate the correct lubricant and change interval.

Note: See line haul and vocational definitions for more information.

⚠ WARNING

Automated and above 1,850 lb-ft. must use PS-386 approved fluid.

Transmission Oil Filters

Transmission filters should be changed during regular lube intervals.
Inspection of the transmission filter should be conducted during preventative maintenance checks for damage or corrosion. Replace as necessary.

Heavy-Duty

Product	Synthetic or Mineral	Lubricant Specification	SAE Viscosity Grade	Change Interval for Linehaul	Change Interval for Vocational
Automated and above 1,850 lb-ft. Hybrid (HEV) FRW Transmissions All Transmissions with Extended Warranty	Synthetic	PS-386	SAE 50	500,000 miles [800,000 Km] or 5 years	180,000 miles [288,000 Km] or 3 years (mobile applications) 2,000 hours or 5 years (stationary applications)
Mechanical	Synthetic	PS-386	SAE 50	500,000 miles [800,000 Km] or 5 years	180,000 miles [288,000 Km] or 3 years (mobile applications) 2,000 hours or 5 years (stationary applications)

Change Control Log

Last Revised Date	Description of Clarifications and Updates
December 2015	Removed references to VAS and VHP models Added warranty coverage for LAS and MHP models Added warranty coverage for FASA 10C transmissions.
September 2015	**Pick Up and Delivery section:** Added Procision coverage and lubricant requirements. **Specialized Applications Section** Added Procision coverage and lubricant requirements to School Bus applications.
July 2015	**Eaton Service / Aftermarket Parts Warranty Coverage - U.S. and Canada section:** Added EverTough Clutch to the Enhanced Warranty Upgrade and updated Note 2 and Note 3. **Specialized Applications Section** Added the Heavy Haul Military Application **Warranty Coverage for Vehicles Meeting Vocation Definitions and Application Guidelines Section** Added Fuller Advantage coverage information
July 2014	**Eaton Service / Aftermarket Parts Warranty Coverage - U.S. and Canada section:** Added ECA Clutch / DM Clutch for clarification Removed Linehaul applications requirement **Clutch Lubricants section:** Amended Lubricants to read: **Required:** NLGI #2 or #3, LB/GC Lithium Complex Temperature operating range -40–325 °F **Recommended:** Roadranger Grease EP-2
January 2014	Added Fuller Advantage, New Exchange, and Lightning Reman information as noted: **Linehaul section:** Added Fuller Advantage ECA coverage Added Fuller Advantage Automated Mechanical and Manual Transmission coverage Removed Note 6 (Note 6: FOM-16E310C-LAS is rated at 1850 lb-ft. due to multi-torque feature.) **Eaton Service / Aftermarket Parts Warranty Coverage - U.S. and Canada section:** Added Lightning Reman coverage Amended sentence in the note section to read: REMAN™ and New Exchange transmissions provided as the result of a good will or policy transaction, are warranted for 12 months from the installation date.
March 2013	Added UltraShift *PLUS* LSE information. **Eaton Service / Aftermarket Parts Warranty Coverage - U.S. and Canada section:** Reflect current business practice and to simplify the language.

Change Control Log

Last Revised Date	Description of Clarifications and Updates
February 2013	**General Information section:** Added a new Step 6 to "How do I define my vocation coverage?" for TCWY0900, Eaton Warranty Guide: Vocational requirements do not apply for most Aftermarket parts/components. Reference the Service/ Aftermarket Parts Warranty Coverage section of this manual for warranty coverages specific to Service/ Aftermarket Parts.
January 2013	**Eaton Service / Aftermarket Parts Warranty Coverage - U.S. and Canada Table:** Added new products: • New Exchange Power Electronics Carrier (PEC) • REMAN™ Power Electronics Carrier (PEC)
December 2012	Heavy Haul GCW spec now reads "with GCW at or above 140,000 lbs."
November 2012	• Added Hybrid models to Pick Up and Delivery, Construction, and Specialized Applications sections • Added the note "Eaton highly recommends installing a Solo clutch in vehicles with hydraulic release systems for optimal performance, reduced maintenance and increased clutch life." to Pick Up and Delivery, Construction, Heavy Haul, Line Haul, Logging, Mining, Oil Field, and Refuse sections • Updated Lubrication Specifications section to align with Lubrication Specification Manual TCMT0021
October 2012	**Mining section:** Removed "No blanket approvals are available at this time for UltraShift PLUS models and Hybrid Systems." from Note 1. **Eaton Service / Aftermarket Parts Warranty Coverage - U.S. and Canada Table:** • Added Flex Reman™ to 36 months / Unlimited Mileage (km) Warranty Terms • Replaced "Flex Reman™ not included." with "Lightning Reman™ not included." in Note 2. **Warranty Coverage for Vehicles Meeting Vocation Definitions and Application Guidelines (For U.S. and Canada Only) Table:** Changed MPH models to 5 years/Unlimited Miles for Transmission UltraShift *PLUS* Models in Recreational Vehicle column

Last Revised Date	Description of Clarifications and Updates
May 2012	**Re-named the City Delivery section to "Pick Up and Delivery".** **Changed the Pick Up and Delivery Table:** Transmission section - "UltraShift *PLUS* VCS, VAS, VHP" to "UltraShift *PLUS* VCS, VHP, VMS, VXP, MXP, MHP". "UltraShift *PLUS* LAS- VMS, VXP, MXP, MHP" to "UltraShift *PLUS* LAS - VAS". **Specialized Section:** Added "AutoShift" to the UltraShift LST, LHP row. **Changed in the Pick Up and Delivery Section:** First bullet - Original sentence read: "Pick up and delivery service within cities and/or suburban areas." to "Pick up and delivery service consists of the movement of freight typically within a 100 mile radius in cities and/or suburban areas." Third bullet - Original sentence read: "Three (3) miles between starts/stops (typical)." to "Three (3) to thirty (30) miles between starts/stops (typical)." Added Bullet to list - "Annual mileage less than 60,000 miles (95,000 Km)." Under the Typical Vehicle Types section: Changed "City Delivery" to "Pickup and Delivery" Added "Grain Hauler (grain hopper/bottom dump trailers)" **Changed in the Line Haul Section:** Under the Typical Vehicle Types section: Added to "Grain Hauler", "(grain hopper/bottom dump trailers)" **Changed in the Specialized Applications Section:** Under the Agriculture - Typical Vehicle Types section: Added "Grain Silage, and Hay Haulers (which load in the field)"

Change Control Log

Last Revised Date	Description of Clarifications and Updates
April 2012	**Changed in the Line Haul Table:** Adjusted all of the "Note" numbers to re-align numerically starting at 1. Removed from the Transmissions section, Model # FOM-16E310C-LAS and (original **Note 14**) from the row: "All Models: 7, 9, 10 Speeds (1750 lb-ft. and below). Includes AutoShift (AS), Top 2 models, and Fuller UltraShift LST (DM), FOM-16E310C-LAS. (Excludes DM clutch) for above models (**Notes 1, 3, 4, 14**),(Model exceptions shown below)" The "UltraShift *PLUS* LAS - 1750 lb-ft. and above. Excludes Clutch and LCIB (**Note 1**)" section was changed to "UltraShift *PLUS* LAS - LAS, VAS. (Excludes Clutch and LCIB). (**Note 1**)" The "UltraShift *PLUS* LAS - 1850 lb-ft. and above. Excludes Clutch and LCIB." section was removed entirely. Added a new row under the UltraShift *PLUS* types: "VCS, VMS, VXP, VHP (Excludes Clutch & LCIB) (**Note 1**) - 3 years / 300,000 miles (480,000 km)" **Changed in the Logging Table:** Added "VAS & MXP" to the transmissions section; "UltraShift *PLUS* VCS, VMS, VXP, VHP, VAS, MXP (**Note 1**)". **Changed in the Mining Table:** Added "VAS, VHP & MXP" to the transmissions section; "UltraShift *PLUS* VCS, VMS, VXP, VHP, VAS, VHP, MXP (**Note 1**)". **Changed in the Oil Field Table:** Added "MXP" to the transmissions section; "UltraShift *PLUS* VCS, VMS, VXP, VHP, VAS, VHP, MXP (**Note 1**)". **Changed in the Refuse Table:** Added "MXP" to the transmissions section; "UltraShift *PLUS* VCS, VMS, VXP, VHP, VAS, VHP, MXP (**Note 1**)". **Changed in the Specialized Applications Table:** Added to the "Hybrid Model row, language under the following column: Rescue Vehicle - "VCS, VMS, VXP, VAS & VHP 3 years/ Unlimited miles" Fire Service - "VCS, VMS, VXP, VAS & VHP 3 years/ Unlimited miles" Transit Coach - "MXP, MHP, LAS, VAS. VHP, VCS, VMS VXP, VAS 3 years/ Unlimited miles" Off Highway - "VCS, VMS, VXP, VCS, VMS, MXP 3 years/ Unlimited miles" Recreational Vehicles - "MXP, MHP, LAS, VAS. VHP, VCS, VMS VXP, VAS 3 years/ Unlimited miles" Agriculture - "VCS, VMS, VXP, VAS, VHP, MXP 3 years/ Unlimited miles"
April 2012	**Changed in the City Delivery Section:** Title of section changed from City Delivery to "Pick Up and Delivery". Added the Header of "Vocational Description:" after the title. Changed the first sentence from "Pickup and delivery service within cities and/or suburban areas." to "Pick up and delivery service consists of the movement of freight typically within a 100 mile radius in cities and/or suburban areas." Changed the third sentence from "Three (3) miles between starts/stops (typical)" to "Three (3) to thirty (30) miles between starts/stops (typical)." Added new line (4) that states; "Annual mileage less than 60,000 miles (95,000 Km)." Changed the Typical Vehicle Types table for the Pickup and delivery to "City Delivery" and added "Grain Hauler (grain hopper/bottom dump trailers)" to the table.

Last Revised Date	Description of Clarifications and Updates
April 2012	**Changed in the Line Haul Section:** Added "Grain Hauler (grain hopper/bottom dump trailers)" to the Typical Vehicle Types table. **Changed in the Specialized Applications Section:** Agriculture Section - Removed from the table - "Grain Haulers (which load in the field)" and added "Semi-End Dump".
March 2012	**Changed in the City Delivery Table:** The "UltraShift *PLUS* LAS - 1750 lb-ft. and above. Excludes Clutch and LCIB" section was changed to "UltraShift *PLUS* LAS - VMS, VXP, MXP & MHP. Excludes Clutch and LCIB" The "UltraShift *PLUS* LAS - 1850 lb-ft. and above. Excludes Clutch and LCIB. Includes FOM-16310C-LAS" section was removed entirely. Removed Note 11: "FOM-16E310C-LAS is rated at 1850 lb-ft. due to multi-torque feature." entirely. Note 12 became new Note 11. **Changed in the Construction Table:** The "UltraShift *PLUS* VCS, VMS, VXP, VAS & VHP" section was changed to "UltraShift *PLUS* VCS, VMS, VXP, VAS, VHP & MXP". **Changed in the Specialized Applications Table:** Added "Vehicle" to the "Recreational" column header.
January 2012	**Changed in the Eaton Service / Aftermarket Parts Warranty Coverage - U.S. and Canada Table:** The New or Reman Medium Duty Transmissions had "Parts Only" in the Exceptions Column, this was changed to "Parts and Labor*".
December 2011	**Changed in the Eaton Service / Aftermarket Parts Warranty Coverage - U.S. and Canada Table:** Removed vertical columns, "Line Haul Only" and "All Other" Removed "Clutch Service / Remanufactured / Aftermarket parts" row Moved "New, Exchange and Remanufactured Electronics" up two rows Combined Reman Transmissions and Medium Duty Transmissions from the All Other group of rows and made one row called "New or Reman™ Medium Duty Transmissions" Added the words "Heavy Duty" to Reman, FLEX Reman and Reman Glider Kit Transmissions Split the Reman Glider Kit Transmission row into two - separating Standard Warranty from Enhanced Warranty Upgrade. <u>Revised Note - 2 from:</u> "The Enhanced Warranty Upgrade for 36 months / Unlimited Mileage (km) applies only to the transmission. To match warranty for the Advantage Clutch™, a 1 year EPP purchase is required for the clutch" <u>Revised Note - 3 from:</u> "Reman™ Performance Models 50R sold in the US and Reman™ Performance Models 50C sold in Canada have an 18 month parts and labor warranty. All Reman™ transmission warranty covers "Parts and Labor" for warrantable repairs performed per the OEM Approved Channel."

Change Control Log

Last Revised Date	Description of Clarifications and Updates
November 2011	**Changed in the Line Haul Table:** Transmissions - UltraShift *PLUS* LAS - 1850 lb-ft. and above. to remove FOM-16E310C-LAS and move it to: Transmissions - All Models: 7, 9, 10 Speeds(1750 lb-ft. and below)
October 2011	**Changed in the City Delivery Table:** Transmissions - UltraShift Plus LAS - 1850 lb-ft and above from 5 years/500,000 miles to 5 years / 750,00 miles warranty coverage **Changed in the Line Haul Table:** Transmissions - UltraShift Plus LAS - 1850 lb-ft and above from 5 years/500,000 miles to 5 years / 750,00 miles warranty coverage
September 2011	Revised Cover for new September 2011 Warranty Changes Release

Last Revised Date	Description of Clarifications and Updates
July 2011	**Added into the City Delivery table:** Clutches - **VAS** and **VHP** to the UltraShift PLUS VCS Clutch & LCIB section Transmissions - **VAS** and **VHP** to the UltraShift PLUS VCS section **Added into the Construction table:** Transmissions - **VAS** and **VHP** to the UltraShift PLUS VCS, VMS & VXP section **Added into the Heavy Haul table:** Transmissions - **VHP** to the UltraShift PLUS VXP, MXP & MHP section **Added into the Line Haul table:** Clutches - **VAS** to the UltraShift PLUS LAS Clutch & LCIB section **VHP** to the UltraShift PLUS MHP & MXP Clutch and LCIB section Transmissions - **VAS** to the UltraShift PLUS LAS - 1750 lb-ft and below section **VAS** to the UltraShift PLUS LAS - 1850 lb-ft and above section **VHP** to the UltraShift PLUS MXP & MHP section **Added into the Logging table:** Transmissions - **VHP** to the UltraShift PLUS VCS, VMS & VXP section **Added into the Oil Field table:** Transmissions - **VHP** and **VAS** to the UltraShift PLUS VCS, VMS & VXP section **Added into the Refuse table:** Transmissions - **VHP** and **VAS** to the UltraShift PLUS VCS, VMS & VXP section **Added into the Specialized Applications table:** Transmission UltraShift PLUS Models - Transit Coach: **VHP** and **VAS** to the MXP, MHP & LAS section Recreational: **VHP** and **VAS** to the MXP, MHP & LAS section
July 2011	Edited typo in Warranty Terms for the Eaton Service / Aftermarket Parts Warranty Coverage - U.S. and Canada Only section from Se to See.
June 2011	Edited the word "PLans" to "Plans" in Note 1 of the "Warranty Coverage for Vehicles Meeting Vocation Definition Applications" sections and changed Warranty Terms for the Eaton Service / Aftermarket Parts Warranty Coverage - U.S. and Canada Only section.
February 2011	UltraShift HV Models (F-5505B-DM3, F-6505b-DM3, FO-5506B-DM3 & F06506-DM3) added to City Delivery Warranty Section.
	UltraShift HV Models(FO-6406B-DM3, FO-6506B-DM3, F-6405B-DM3 & F-6505B-DM3) added to the Line Haul Warranty Section.
October 2010	**Clutch Product:** Added Warranty coverages for Advantage Series and EverTough Brands.
	Added hybrid model to Specialized applications.

Change Control Log

Last Revised Date	Description of Clarifications and Updates
July 2010	**Refuse Vocation** Added Warranty coverage for Hydraulic Launch Assist (HLA).
February 2010	Changed UltraShift PLUS clutch warranty for the MHP / MXP transmission in the line haul vocation from 3 Year / Unlimited miles to 3 Year / 350,000 Mileage.
January 2010	**All Vocations** Added the 'Low Capacity Inertia Brake' to each of the Vocations approved for the UltraShift PLUS Clutch. The coverage is aligned to the UltraShift PLUS Clutch for the associated UltraShift PLUS transmission model. **City Delivery Vocation** Increased the UltraShift PLUS - LAS transmission standard warranty coverage from a 3 Year / Unlimited Mileage warranty to: TransmissionUltraShift PLUS - LAS - 1750 lb-ft. and below (Note 1) (Excludes clutch and LCIB)5 years / 750,000 Mileage UltraShift PLUS - LAS - 1850 lb-ft. and above; Includes FOM-16E310C-LAS (Note 1 & new Note) (Excludes clutch and LCIB)5 years / 500,000 Mileage New Note: Note # FOM-16E310C-LAS is rated at 1850 lb-ft. due to multi-torque feature. Clarified the UltraShift PLUS - LAS Clutch warranty from 3 years / Unlimited mileage to a 3 Year / 350,000 Mile coverage. **Line Haul Vocation** Restated the UltraShift PLUS - LAS transmission standard warranty coverage from 5 year / 750,000 miles to: TransmissionUltraShift PLUS - LAS - 1750 lb-ft. and below (Note 1) (Excludes clutch and LCIB)5 years / 750,000 Mileage UltraShift PLUS - LAS - 1850 lb-ft. and above; Includes FOM-16E310C-LAS (Note 1 & new Note) (Excludes clutch and LCIB)5 years / 500,000 Mileage New Note: Note # FOM-16E310C-LAS is rated at 1850 lb-ft. due to multi-torque feature. Clarified the UltraShift PLUS - LAS Clutch warranty from 3 years / Unlimited mileage to a 3 Year / 350,000 Mile coverage. **Off-Highway Vocation** Increased the UltraShift PLUS - VCS, VMS, VXP Transmission, Clutch and Low Capacity Inertia Brake coverage from a 1 Year / Unlimited Mileage to a 2 Year / Unlimited Mileage. **Construction, Mining, Oil Field, Refuse Vocation** Removed the "Maximum Grade percent" limitation from the Vocational Definition. Maximum Grade will be determined by the Engineering Application Approvals.

Last Revised Date	Description of Clarifications and Updates
September 2009	Changed reference of Eaton Truck Components Division to Eaton Truck Business Group Added new Hybrid Transmission models and notes (EH-8E306A-T, EH-6E606B-CD, EH-8E306A-UPG) Removed Hybrid Transmission models (EH-8E306A, EH8E306A-UP) from City Delivery Vocation Removed Hybrid Transmission models (EH-8E306A-U, EH-8E306A-CD) from construction Vocation Added Ultrashift PLUS transmission model family (Transmission and clutch products) Updated transmission note #1 on all vocations from "Note 1: All automated transmission models require the use of a Roadranger approved synthetic lubricant. Transmission must meet and have Eaton application approval. Refer to TCMT-0021." Removed the Extended Protection Plan Matrix from the Warranty Guide. EPP Matrix is available at Roadranger.com/Warranty tab. Eaton Service Parts Warranty - added note to clarify labor. * Labor reimbursed for repairs at OEM approved repair facilities
March 2009	Update pricing on pg. 30
April 2008	Updated Eaton Service/Aftermarket Parts Warranty Coverage to include Clutch Service/Aftermarket parts information.
Jul 2007	Updated Service/Aftermarket Parts Warranty Coverage to specify REMAN Performance Models.
Apr 2007	Updated Purchased Warranty Matrix and Warranty Registration Form

Change Control Log

Last Revised Date	Description of Clarifications and Updates

Dec 2006	Clutch Warranty listed for all vocations
	• Change From: 1 year / 100,000 (160,000 km)
	• Change To: Contact OEM for Warranty Coverage
	• Rational: This change is necessary to eliminate confusion for the dealer and customers as the clutch warranty varies by OEM and chassis.
	
	Clutch DM Models Warranty (Line Haul Vocation Only)
	• Change From: 1st year - Parts and Labor, 2nd and 3rd year - Parts Only
	• Change To: 1st year / Unlimited Miles - Parts and Labor, 2nd and 3rd year / 300,000 mi (480,000 km) - Parts Only
	• Rational: Clarify the mileage limit for DM Warranty that was communicated to the OEM on the product introduction and sales literature.
	
	Purchased Warranty Matrix
	• Change From: A vehicle may not be registered if it has exceeded three (3) years or thirty-six (36) months of service.
	• Change To: A vehicle or component may not be registered if it has exceeded:
	  • Clutch - the basic published OEM clutch warranty.
	  • Transmission - the time and mileage of the Eaton published standard warranty.
	• Rational: To clarify and limit the interrupted warranty coverage for a customer who elects to purchase warranty outside the first year of operation.

Last Revised Date	Description of Clarifications and Updates

Nov 2005	Added Change Control Log
	
	Further clarified the Roll Off application within Refuse (for trucks built prior to November 1, 2004) and Construction (for trucks built after November 1, 2004)
	
	Added "Other Important Resources"
	
	All Vocations
	• Clarified the "Includes" and "Excludes" of the following models where appropriate
	  • Fuller Ultrashift LST (DM)
	  • Fuller Ultrashift LHP
	• Modified Note 1 to include "Transmissions must meet and have Eaton application approval."
	• Added FS Transmission Series "wear coverage" note were applicable to appropriate vocation
	
	Line Haul Vocation
	• Transmission
	  • Added the RTO-18910B-AS2 (Note 1) model transmission @ 5 years / 500,000 miles (800,000 km)
	  • Added the RTLO/RTLOM-16913L-DM3 (Notes 1 & 12) model transmission @ 5 years / 500,000 miles (800,000 km)
	  • Multispeed note: "Includes Autoshift (AS), Top 2 models for 13, 18 speed models (Note 1)
	  • Added Note 12 "Ultrashift transmission warranty less the DM clutch (see 'Clutch" for DM warranty).
	
	Purchased Warranty Matrix
	• Requirements, Limitations, and Exclusions
	  • Added note "Dealers / Purchaser shall be responsible for verifying the engine torque does not exceed the torque capacity of the drivetrain."
	• All Transmissions Matrix and the Purchase Warranty Registration Form
	  • Added the Canadian extended warranty premium pricing for premium after 12 months in service.
	• Heavy Duty Transmission Models matrix
	  • Added "Note 1: All transmission models require the use of a Roadranger approved synthetic lubricant. Transmissions must meet and have Eaton application approval. Refer to TCMT-0021."

Change Control Log

Last Revised Date	Description of Clarifications and Updates

Nov 2005	• Heavy Duty Automated Transmission Models matrix
	(Added the following models to the Matrix)
	  • Fuller Ultrashift LST (DM)
	  • Fuller Ultrashift LHP
	  • Added "Note 1: All automated transmission models require the use of a Roadranger approved synthetic lubricant. Transmissions must meet and have Eaton application approval. Refer to TCMT-0021."
	• Medium Duty Automated Transmission Models matrix
	(Added the following models to the Matrix)
	  • Fuller Ultrashift HP (ASW)
	  • Added "Note 1: All automated transmission models require the use of a Roadranger approved synthetic lubricant. Transmissions must meet and have Eaton application approval. Refer to TCMT-0021."
	• Purchase Warranty Registration Form
	  • Reduced the information required

Nov 2004	Vocation Definitions
	• Under Typical Vehicle Types - "Roll Off' was changed from "Refuse Vocation" to "Construction Vocation." The construction definition must apply for coverage of Roll Off within the construction vocation. (For trucks built after November 1, 2004.)
	
	Product Time and Mileage Coverage by Vocation
	• Added the following components and sub-components for clarification of communication (all have been previously communicated to the OEM's regarding warranty coverage):
	  • Hydraulic Actuator
	  • Oil-To-Water Heat Exchanger
	• Added model numbers to the components to identify actual component coverage.
	
	Service / Aftermarket Parts for Eaton Transmission Products
	• Added specifics to product coverage matrix that is communicated on aftermarket publications for REMAN transmission and Eaton Canadian Rebuilt Transmission.
	
	Purchased Warranty
	• Added purchased warranty information (Requirements, Limitations, Exclusions, Component and Price Matrix and form) from "Purchased Warranty Registration TCWY-0750." Only the form will be available within the TCWY-0750 for the convenience of dealers. Both forms are identical.
	
	Relocated the Eaton - Truck Division Product Warranty Statements to the Eaton Warranty Manual (TCWY-0600).

KENWORTH.
The World's Best.

KENWORTH
THE WORLD'S BEST.

T170 / T270 / T370

VERSATILE

PRODUCTIVE

EFFICIENT

RELIABLE

MANEUVERABLE

IF YOU DEPEND ON MEDIUM-DUTY TRUCKS TO MAKE A LIVING, INVEST IN ONE THAT HAS SOME HEAVY-DUTY THINKING BEHIND IT.

Ready for a medium-duty truck that will likely outlive the body you put on it? Then take a close look at the Kenworth T170, T270 and T370 – trucks custom engineered and built with your long-term business goals in mind.

No matter which model you select, you start with a versatile, rugged and reliable chassis capable of tackling the toughest jobs you've got. Then add advantages like contemporary aerodynamic styling, great visibility, excellent maneuverability, a driver-pleasing premium interior and quick single point daily maintenance checks.

These are trucks you can count on – day in, day out.

A straight truck in a 4 x 2 configuration with a gross vehicle weight rating up to 19,500 lbs, the Kenworth T170 is a robust Class 5 model designed to go the distance. The T270 is a true Class 6 vehicle, rated at 26,000 lbs GVW. Available as a straight truck, it can be configured for non-CDL operation to broaden your pool of drivers. The Class 7 T370, as a straight truck or tractor, offers a GVW range from 26,001 to 66,000 lbs.

Custom built from the ground up for your specific application, you can choose manual or automatic transmissions, air or hydraulic brakes and select from components by proven North American manufacturers.

OF COURSE YOU HAVE CHOICES. THIS IS YOUR KENWORTH.

Your medium-duty Kenworth is available with job-specific and appearance options. Here are just a few of them.

Kenworth-built polished aluminum fuel tanks in multiple diameters and capacities to meet your needs. New options include end of frame between rails fuel tanks.

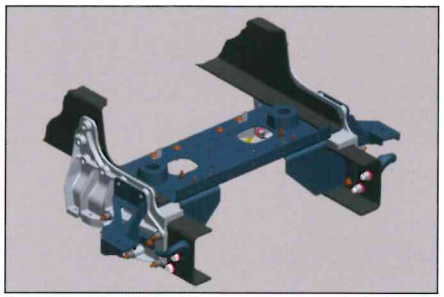
Heated and electronically-adjusted aerodynamic mirrors.

Easy-to-operate dash control panel for Eaton automated and Allison automatic transmissions.

The optional narrow battery box under cab with DEF tank give you the room you need. You can also spec out an optional narrow toolbox on the passenger side.

Factory installed front drive axles with capacities from 10,000 to 16,000 lbs. Non-driving front axles from 8,000 to 20,000 lbs.

In addition to the standard peeper window in the passenger door, optional cab corner windows are available to help improve visibility in tight places.



Add a Heavy-Duty Front Frame Extension to simplify the addition of outriggers, winches and specialty bumpers to the Kenworth T370.

Optional center console with two power ports, cup holder and convenient storage.

An advanced forward lighting system provides up to 30% more down-road coverage than conventional sealed beam designs. Choose the standard halogen or optional HID Xenon lamps.

The four-piece hood and fenders are molded from SMC, a high-tech light weight composite material for added durability and repairability.

All new instrumentation with increased gauge and switch options, plus the updated gray dash panels complement the standard Pinnacle Kenworth interior. Shown with optional Nav+ HD display and tilt and telescoping steering column.

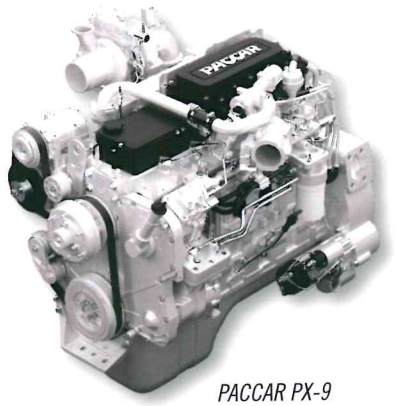
The optional Apex interior sets new standards in driver comfort for medium duty trucks, providing a cloth headliner and back panel. Optional Trust Walnut dash panels add to the Kenworth World's Best image and quality. Shown with optional Nav+ HD display.

SAVING MONEY ON MAINTENANCE STARTS RIGHT HERE

With the Kenworth T170, T270 and T370, things are quicker to get to, less strenuous to take apart and faster to put back together – which means less downtime and lower repair bills. The hood tilts a full 90 degrees for wide-open access to the engine and all service points. Even daily inspections have been simplified with all fluid level checks – coolant, oil, power steering and windshield washer reservoir – located in one easy-to-reach place.

At the heart of these vehicles beats a fully optimized and integrated drivetrain featuring the quality and proven reliability of the PACCAR PX engine. Expect longer service intervals, increased uptime, lower operating costs and higher resale value.

PACCAR PX-7



PACCAR PX-9

T170 AND T270 CLASS 6 AND T370 CLASS 7 SPECIFICATIONS

Power / Drivetrain

- **PACCAR PX-7 Engine, 6.7 Liter, 200-325 HP, 520 – 750 lb-ft of Torque**
- *PACCAR PX-9 Engine, 8.9 Liter, 260-350 HP, 660 – 1,150 lb-ft of Torque*
- *CARB Emission Reduction Feature Available*

Starting & Charging

- **Multiplex Electrical System With Centralized Power Distribution Incorporating Plug-In Style Relays & Circuit Protection For Serviceability**
- **12 Volt Lighting System With Circuit Protection**
- **Circuits Numbered & Color Coded**
- **Key Switch Start & Shutdown**
- **PACCAR 130 Amp Brushless Alternator**
- **PACCAR 12 Volt Starter**
- **Two PACCAR Dual Purpose Batteries**
- *Three PACCAR Dual Purpose Batteries*
- *Two or Three Optima Deep Cycle Batteries*
- **Horizontal Muffler/DPF/SCR and Tailpipe**

Transmission Options

- **Eaton Fuller FS5406A Synchronized 6-Speed**
- **Clutch - Eaton Fuller**
- *Eaton Fuller 6, 9 & 10 Speed Transmissions*
- *Eaton Ultrashift Plus 10-Speed Automated Manual*
- *Allison 5 & 6 Speed Automatic Transmissions*
- *PTO Options*

Frame / Axle / Suspension / Brakes

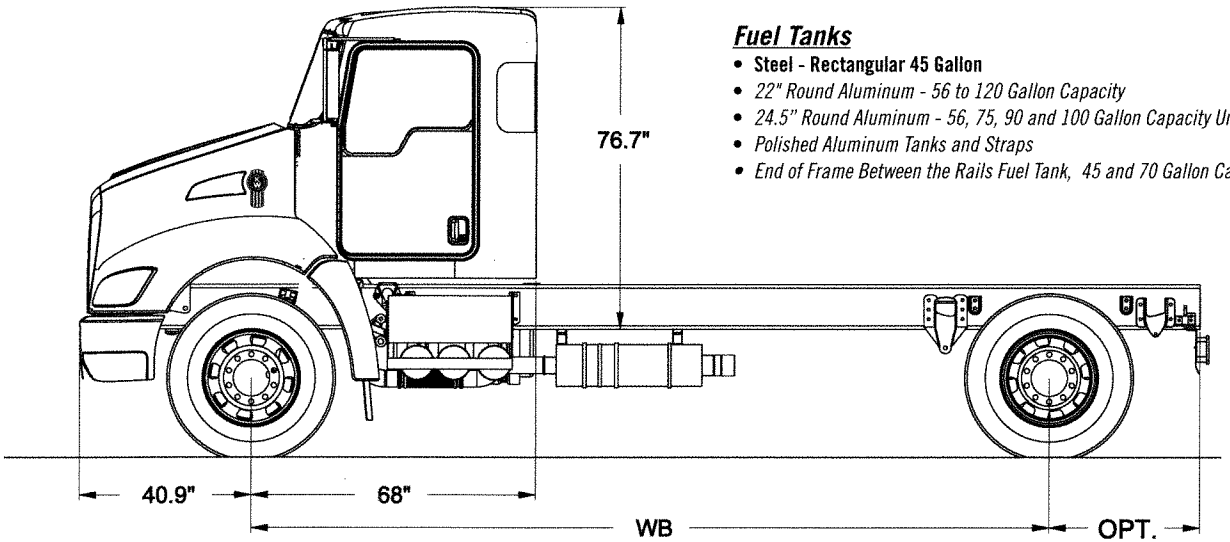
- **Frame - 10 5/8" Steel - 120,000 psi - Heat Treated**
- *Frame - 9 7/8" Steel - 120,000 psi - Heat Treated*
- *Frame - 10 3/4" Steel - 132,000 psi - Heat Treated*
- *Heavy Duty Front Frame Reinforcement Brackets*
- **Front Axles - 10,000 lb.**
- *Front Axles - Meritor 12,000 to 20,000 lbs.*
- *Front Axles - Dana Spicer 8,000 to 20,000 lbs.*
- *Front Drive Axles - Fabco 10,000 to 16,000 lbs.*
- **Front Springs - Taperleaf w/Shocks, 10,000 lb.**
- *Front Springs - Taperleaf w/Shocks, 12,000, 13,200, 14,600, 16,000 , 18,000 and 20,000 lb.*
- **Rear Axle - 21,000 lb.**
- *Single Rear Axles - Meritor from 21,000 to 30,000 lb.*
- *Tandem Rear Axles - Meritor 40,000 and 46,000 lb.*
- *Tandem Rear Axles - Dana Spicer, 40,000 and 44,000 lb.*
- **Rear Suspension - Reyco, 20,000 lb.**
- *Single Rear Axle Suspensions - Kenworth, Reyco and Hendrickson with capacities from 20,000 to 31,000 lbs.*
- *Dual Rear Axle Suspensions - Kenworth, Reyco, Hendrickson and Chalmers with capacities up to 46,000 lbs.*
- **Brakes - Air**
- *Brakes - Hydraulic*
- **ABS System - Bendix**
- *Hydraulic Brake Configurations with Meritor ABS*

Wheels / Tires

- **Wheels - Steel 22.5"**
- **Tires - Bridgestone 295/75R22.5 R250F**
- *Polished Aluminum Wheels*
- *19.5" Tires and Wheels*

Fuel Tanks

- **Steel - Rectangular 45 Gallon**
- *22" Round Aluminum - 56 to 120 Gallon Capacity*
- *24.5" Round Aluminum - 56, 75, 90 and 100 Gallon Capacity Under Cab*
- *Polished Aluminum Tanks and Straps*
- *End of Frame Between the Rails Fuel Tank, 45 and 70 Gallon Capacity*



Hydraulic Brake Wheelbases: 153", 162", 176", 188", 206", 218", 236", 245", 254", 260" & 272"
Air Brake Wheelbases available in custom lengths.

Battery Boxes / Bumpers

- **Steel Battery Box with Aluminum Step Cover**
- **Steel Aero-Style Painted Bumper**
- *Chrome Steel Aero-Style Bumper*
- *Narrow Battery Box Under Cab*
- *Toolbox*

Cab / Hood / Interior

- **Cab - Aluminum and Composite**
- **Hood - 4-Piece SMC - Sloped Aerodynamic Hood**
- **Standard Pinnacle Vinyl Headliner and Cab Back Panel**
- *Apex Cloth Headliner and Cab Back Panel*
- **Kenworth Air-Cushion Plus Intermediate Back Driver Seat**
- **Kenworth Intermediate Back Toolbox Plus Rider Seat**
- *2-Person Bench Seat*
- **Power Door Locks**
- **Passenger-side Electric Window**
- *Rear Cab Corner Windows*
- *Trust Walnut Wood Dash Panels*
- *Workstation Between Seats*
- *Aerodynamic Roof Fairings*

Special Equipment & Options

- *Aerodynamic Heated Mirrors*
- *Back-up Alarm*
- *Daytime Running Lights*
- *Multi-function Engine Connector For Body Builder Interface*
- *Bodybuilder Harness to End of Frame*
- *Adjustable Telescoping Tilt Steering Column*
- *Remote Keyless Entry*
- *Nav+ HD*

KENWORTH
THE WORLD'S BEST®
T470

PUSHING FOUR FEET OF SNOW OR HAULING 10 YARDS OF SAND, THIS IS YOUR HEAVY-DUTY CHOICE FOR MEDIUM-DUTY APPLICATIONS

The versatile new Kenworth T470 merges just the right mix of brain and brawn to forge a whole new class at the heavy end of what is usually termed "medium duty." It's the ideal workhorse solution for snowplow, and other heavy front-axle vocational and municipal applications that require full parent rail extensions.

Available in GVW ratings from 33,000 lbs. to 68,000 lbs., the T470 features modern styling, superior ergonomics, and a fuel efficient powertrain – all, in a robust chassis design meant to deliver a lot more value over the long haul.

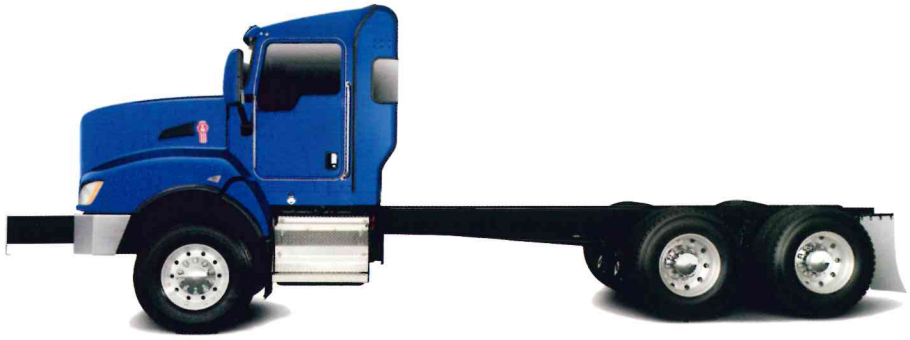
With full parent rail extensions providing maximum resistance to bending moment (RBM) from one end of the rail to the other, the T470 supplies a solid and durable mounting platform for hydraulic pumps, winches, front stabilizers and snowplows.

Front axles are rated from 12,000 to 22,000 lbs., single rear axles from 21,000 to 30,000 lbs., and tandem rear axles from 40,000 to 46,000 lbs. allowing for GVW rating from 33,000 lbs. to 68,000 lbs. Powerplant choices include the powerful yet low cost of ownership PACCAR PX-8 engine rated to 350 hp and 1,000 lb-ft of torque or the Cummins ISL9 engine with 380 hp and 1,300 lb-ft of torque.

Featuring a set-back front axle, a tight turning radius and an optional automatic transmission, the T470 is agile, comfortable and easy to drive for new and experienced drivers alike – even in congested urban situations.

Standard equipment includes best-in-class forward lighting with Halogen projector headlamps, a 3-piece aluminum or box steel bumper, multiplexed dash incorporating Kenworth's Driver Information Center and a productive, doghouse-free premium interior. Optionally, Kenworth offers its spacious Extended Day Cab with an additional six inches of length and five inches of cab height, high intensity discharge (HID) lighting, cab air suspension, factory-installed power take-off (PTO) and one lift axle.

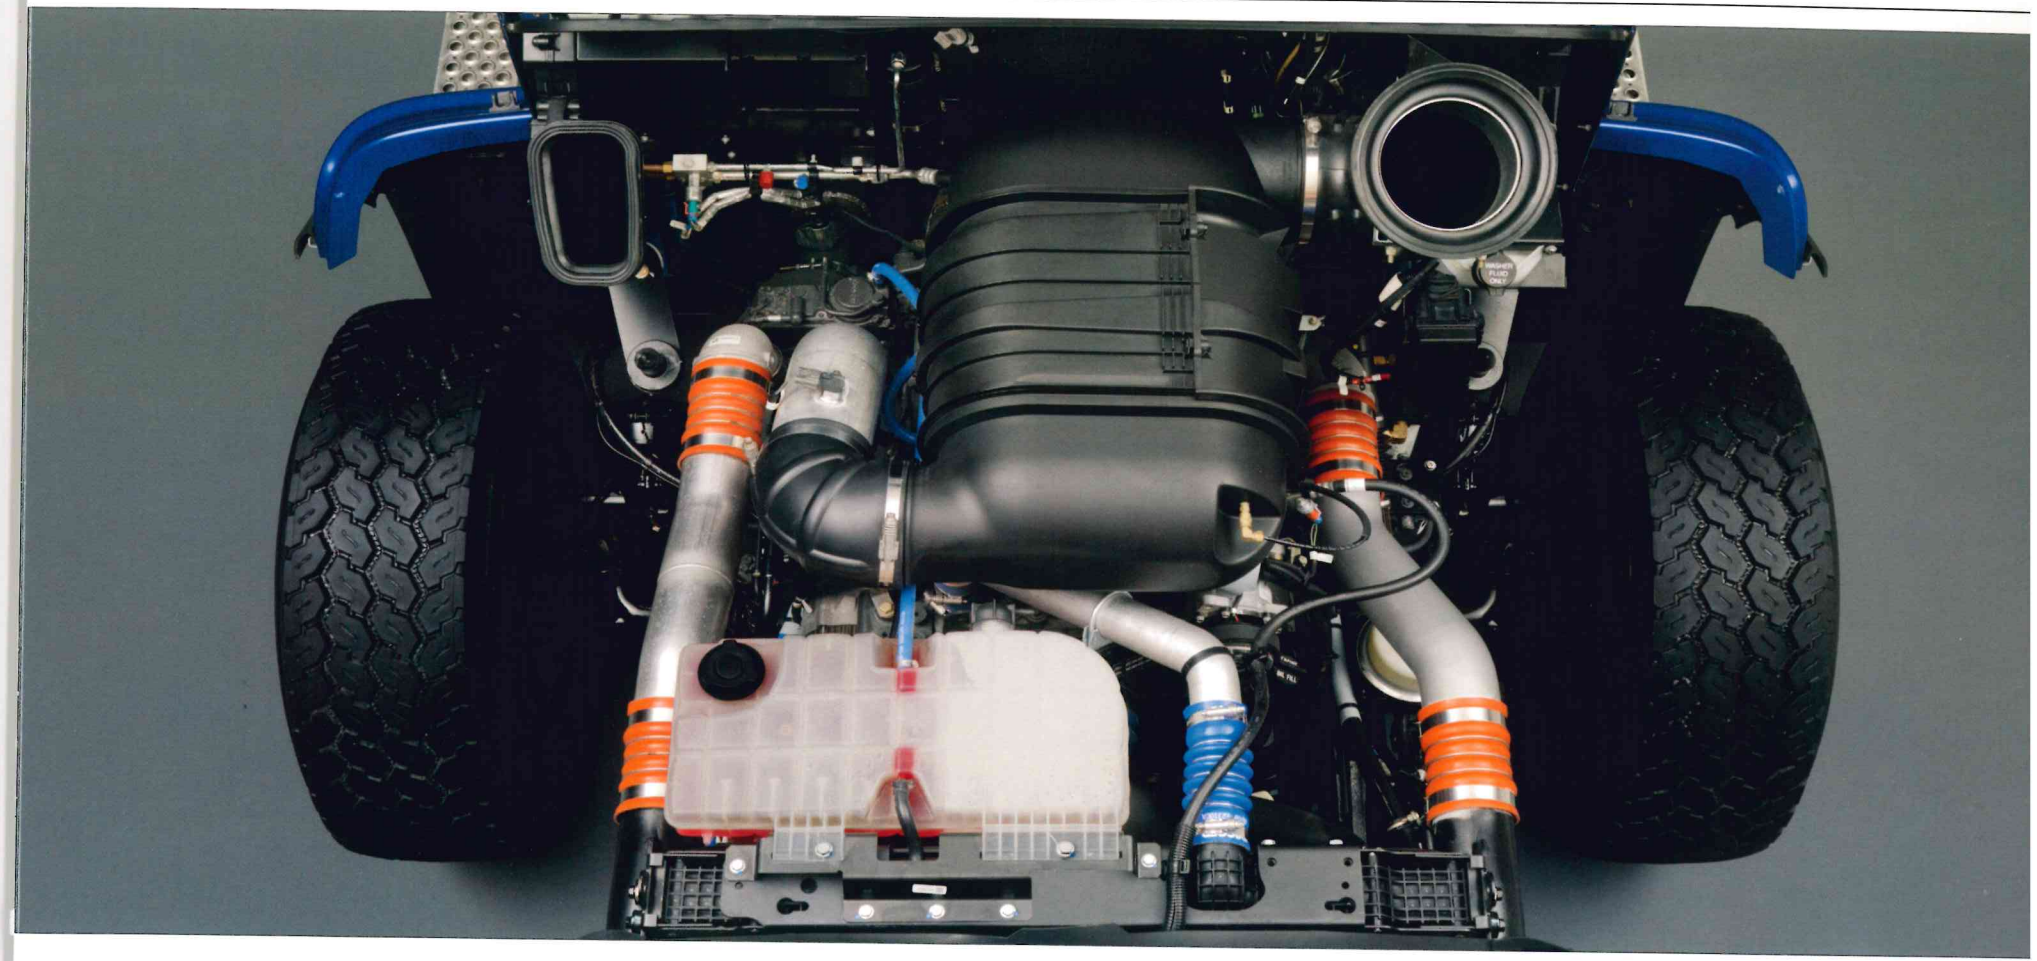
KENWORTH.
The World's Best.



Clean frame rails and an exhaust-free back of cab clear the way for quick and efficient installation of a wide range of bodies and chassis-mounted equipment. A weather-tight pigtail simplifies final wiring assembly. These features provide for cost effective body installations. Shown with Kenworth's extended cab option.

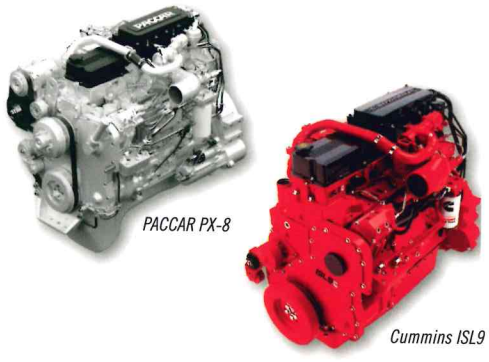
The T470 incorporates the same highly reliable and ergonomic multiplexed dash installed in Kenworth's Class 8 product line. Body specific controls and gauge installation is facilitated by the reserved dash panel which is conveniently located and easy for drivers to reach.

SAVING MONEY ON MAINTENANCE STARTS RIGHT HERE



On a Kenworth T470, things are quicker to get to, less strenuous to take apart and faster to put back together which means less downtime and lower repair bills. Even daily inspections have been simplified with all fluid level checks – coolant, oil, power steering and windshield washer reservoir – located in one strategic location.

At the heart of the T470 is a fully optimized and integrated drivetrain featuring the quality and proven reliability of the PACCAR PX-8 engine. Expect longer service intervals, increased uptime, lower operating costs and higher resale value.



PACCAR PX-8

Cummins ISL9

To meet your specific job requirement, you can choose between the rugged PACCAR PX-8 engine rated at 350 HP and 1,000 lb-ft of torque or the Cummins ISL9 at 380 HP and 1,300 lb-ft of torque.

Kenworth's stylish grille is made of stamped stainless steel – nc plastic or pot metal – for enhanced strength and long lasting gc looks. It's mounted to the radiator allowing the hood to swing cl of front mounted equipment. The bumper is constructed of thre pieces for fast, economical installation of winches, PTOs and otl front-end equipment.

OF COURSE YOU HAVE CHOICES. THIS IS YOUR KENWORTH.

Your T470 is available with plenty of job-specific and appearance options. Here are just a few of them.

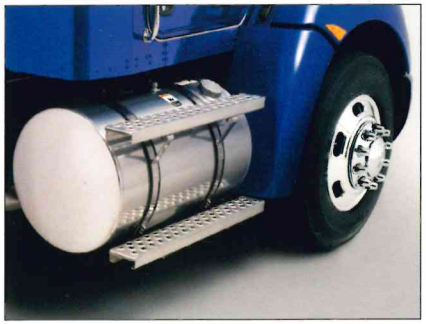
The fully-trimmed standard Summit interior is shown with optional Kenworth Air Cushion Plus high back driver seat and Kenworth Toolbox Plus low back passenger seat.

Optional center console with two power ports, cup holder and convenient storage makes the perfect in-cab workstation.

Easy-to-reach and operate dash control panel for Allison automatic transmissions. Also incorporates a handy cup holder.

DEF tanks in three sizes complement your choice of fuel tank size and provide fill interval options appropriate for your application. Fuel tanks in 22" and 24.5" range in size from 56 to 150 gallons and offer clear back of cab configurations.

Cab corner windows greatly enhance visibility in tight places.



To add a distinctive look to your T470, Kenworth offers a wide variety of chrome and polished options. Polished aluminum wheels, fuel tanks and DEF tank covers are just a few.

An advanced forward lighting system provides up to 30% more down-road coverage than conventional sealed beam designs.

Heated and electronically-controlled aerodynamic mirrors minimize road spray, keeping visibility at a maximum.

HEAVY-DUTY SUPPORT WHENEVER – AND WHEREVER – YOU NEED IT

The reliability and money-making potential of your business relies on the dependability of your support system – another great reason to invest in a Kenworth.

The minute you take delivery of your Kenworth, you gain 24/7 access to one of the most extensive and reliable parts and service organizations in the trucking industry. People who know your truck inside out and can show you how to lower operating expenses, maximize uptime, optimize truck performance and profit from your investment. Comprehensive preventive maintenance programs, expedited servicing, complimentary roadside assistance and cost management service cards are among the valuable programs available through Kenworth PremierCare®.

KENWORTH
THE WORLD'S BEST
T440

MAKING DELIVERIES OR WORKING CONSTRUCTION, GET HEAVY-DUTY PERFORMANCE FOR MEDIUM-DUTY APPLICATIONS

When "medium duty" just doesn't seem heavy duty enough for the job you have in mind, here's a great idea: Kenworth T440. A workhorse solution for more demanding regional haul, pickup and delivery, municipal and vocational applications, the T440 far outpaces other trucks in this category.

Available as a straight truck or tractor in GVW ratings from 33,000 lbs to 68,000 lbs, the T440 features modern aerodynamic styling, excellent visibility and maneuverability, superior ergonomics, and a fuel efficient powertrain – all, in a robust chassis design meant to deliver a lot more value over the long haul.

Featuring a set-back front axle, a tight turning radius and an optional automatic transmission, the T440 is agile, comfortable and easy to drive for new and experienced drivers alike – even in congested urban situations.

KENWORTH.
The World's Best.®

Perfect for the toughest jobs, the T440 features clear frame rails and a variety of exhaust packages to easily support a wide range of bodies and chassis-mounted equipment. It comes standard with the powerful yet economical-to-operate PACCAR PX-8 engine, or the optional Cummins ISL engine.

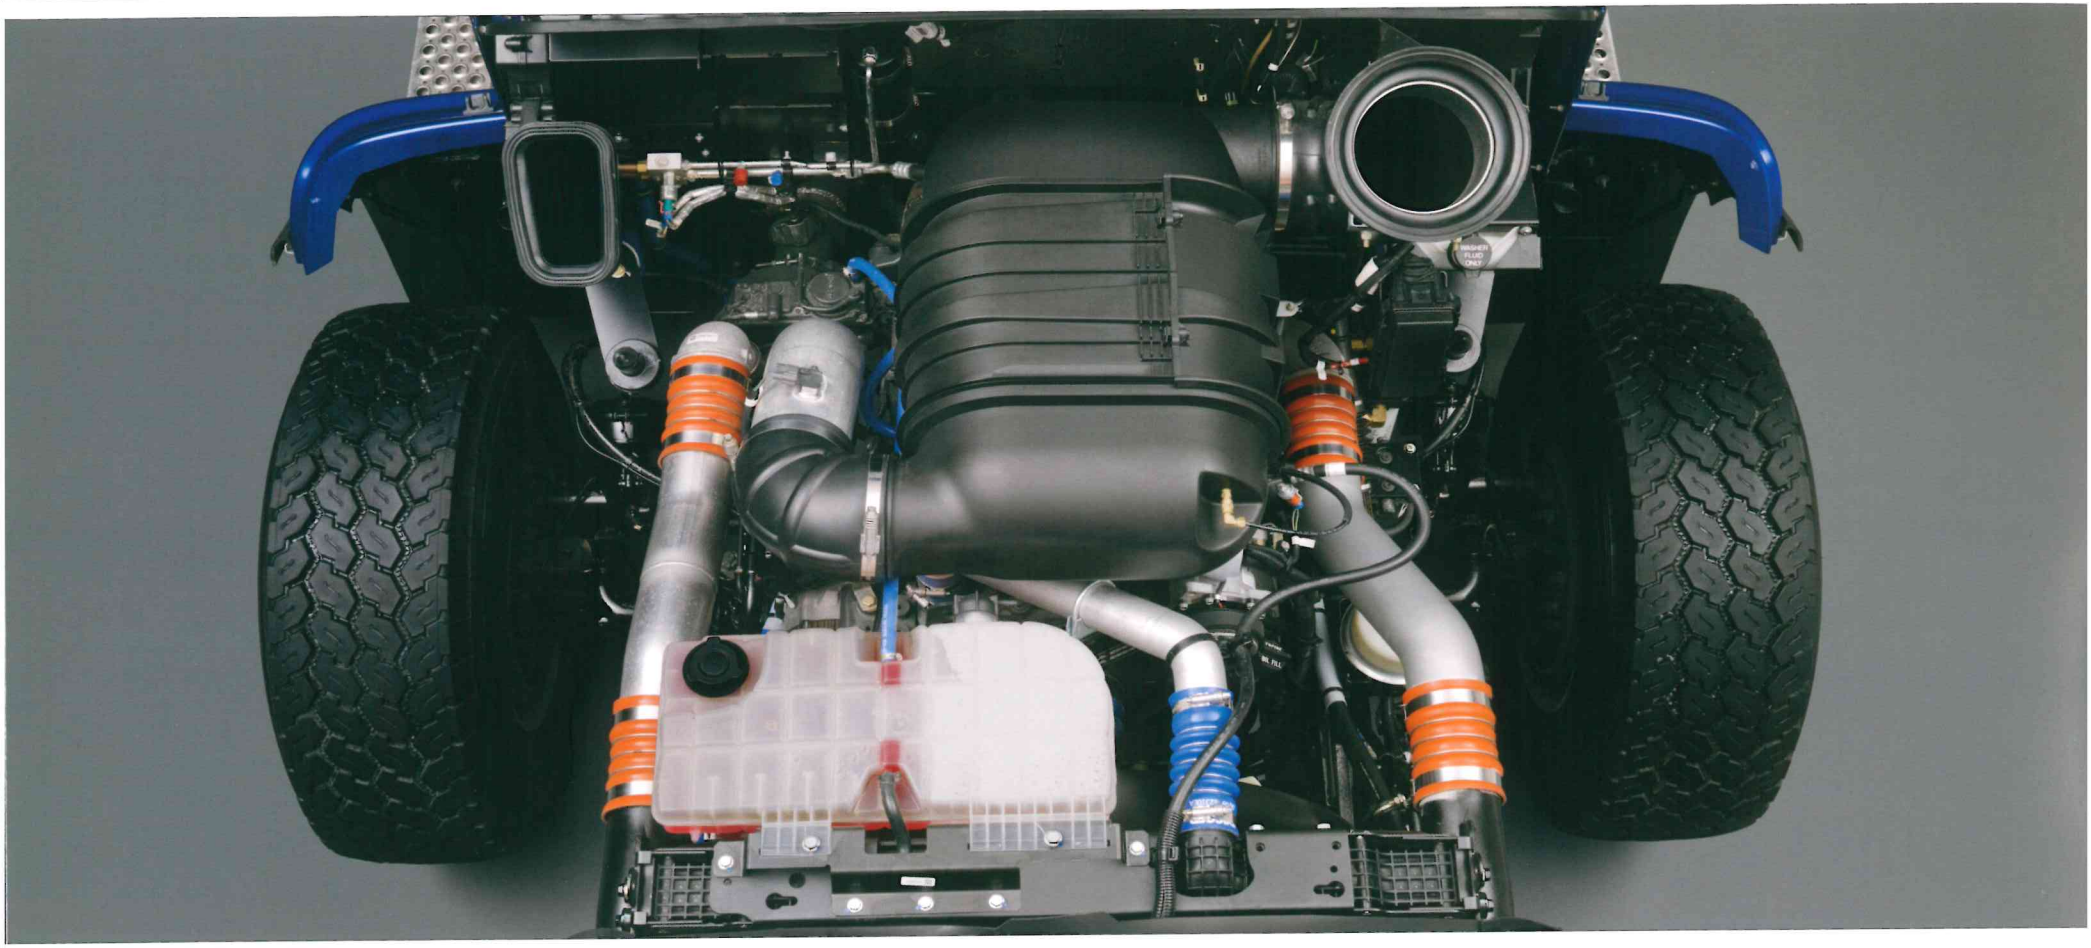
Standard equipment includes best-in-class forward lighting with Halogen projector headlamps, multiplexed dash incorporating Kenworth's Driver Information Center and a productive, doghouse-free premium interior.

Optionally, Kenworth offers its spacious Extended Day Cab with an additional six inches of length and five inches of cab height, a 38-inch Kenworth AeroCab sleeper, an aluminum or 3-piece aerodynamic bumper and high intensity discharge (HID) lighting. The T440 can also be ordered with an air ride cab, factory-installed power take-off (PTO) and one lift axle.

The T440 is available in three cab/sleeper configurations, standard day cab and the optional extended cab and 38" AeroCab sleeper. Clean frame rails and an exhaust-free back of cab clear the way for quick and efficient installation of a wide range of bodies and chassis-mounted equipment. A weather-tight pigtail simplifies final wiring assembly. These attributes provide cost effective body installations.

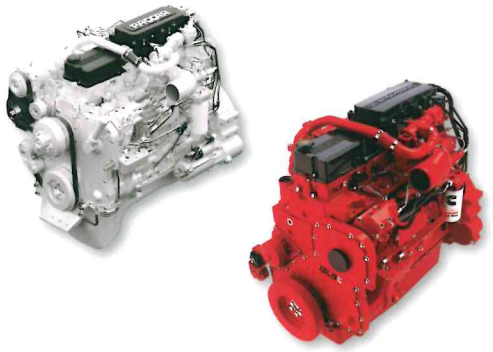
The T440 incorporates the same highly reliable and ergonomic multiplexed dash installed in Kenworth's Class 8 product line. The popular Driver Information Center helps drivers optimize vehicle performance. Shown with optional Kenworth's NavPlus™ business tool incorporating truck route navigation, vehicle monitoring, Bluetooth, diagnostics, telematics, SIRIUS Satellite Radio®, an MP3 player, a back-up camera option and much more. NavPlus offers laptop computer functionality right in the dash.

SAVING MONEY ON MAINTENANCE STARTS RIGHT HERE



On a Kenworth T440, things are quicker to get to, less strenuous to take apart and faster to put back together which means less downtime and lower repair bills. Even daily inspections have been simplified with all fluid level checks – coolant, oil, power steering and windshield washer reservoir – located in one easy-to-reach place.

At the heart of the T440 is a fully optimized and integrated drivetrain featuring the quality and proven reliability of the PACCAR PX engine. Expect longer service intervals, increased uptime, lower operating costs and higher resale value.



To meet your specific job requirement, you can choose between the rugged PACCAR PX-8 engine rated at 350 HP and 1,000 lb-ft of torque or the Cummins ISL at 380 HP and 1,300 lb-ft of torque.

The stylish grille is made of aluminum mesh for enhanced strength and long lasting good looks. An advanced forward lighting system provides up to 30% more down-road coverage than conventional sealed beam designs. The bumper is constructed of three pieces for easier, less expensive repair.

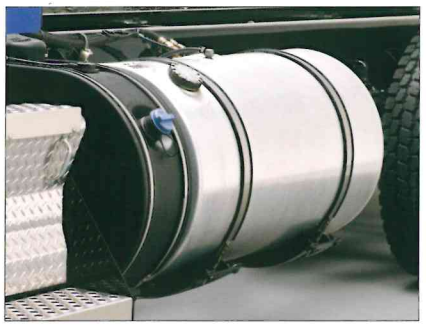
OF COURSE YOU HAVE CHOICES. THIS IS YOUR KENWORTH.

Your T440 is available with plenty of job-specific and appearance options. Here are just a few of them.

The fully-trimmed standard Summit interior shown with optional Kenworth Air Cushion Plus high back driver seat and Kenworth Toolbox Plus low back passenger seat.

Optional center console with two power ports, cup holder and convenient storage makes the perfect in-cab workstation.

Easy-to-reach and operate dash control panel for Allison automatic transmissions. Also incorporates a handy cup holder.



DEF tanks in three sizes complement your choice of fuel tank size and provide fill interval options appropriate for your application. Fuel tanks in 22" and 24.5" range in size from 56 to 150 gallon, to offer clear back of cab configurations.

Cab corner windows greatly enhance visibility in tight places.

To add a distinctive look to your T440, Kenworth offers a wide variety of chrome and polished options. Polished aluminum wheels, fuel tanks and DEF tank covers are just few.

An advanced forward lighting system provides up to 30% more down-road coverage than conventional sealed beam designs. Choose the standard halogen or optional HID Xenon lamps.

Heated and electronically-controlled aerodynamic mirrors minimize road spray, keeping visibility at a maximum.

HEAVY-DUTY SUPPORT WHENEVER – AND WHEREVER – YOU NEED IT

The reliability and moneymaking potential of your business relies on the dependability of your support system – another great reason to invest in a Kenworth.

The minute you take delivery of your Kenworth, you gain 24/7 access to one of the most extensive and reliable parts and service organizations in the trucking industry. People who know your truck inside out and can show you how to lower operating expenses, maximize uptime, optimize truck performance and profit from your investment. Comprehensive preventive maintenance programs, expedited servicing, complimentary roadside assistance and cost management service cards are among the valuable programs available through Kenworth PremierCare®.

THE RUGGED-DUTY, ALL-BUSINESS WORK TRUCK YOU CAN COUNT ON.

The work you do requires everything you've got and then some. Same for your trucks and the people who drive them. With the T880, you've got a dependable, versatile vehicle capable of performing your toughest jobs. Day in, day out. A truck designed at its core with the strength, stamina and operating economy you need to move your business ahead.

Bulk tractor. Tanker. Dump truck. Mixer. Heavy hauler. Refuse truck. Logger. The next time your job requires maximum effort, dispatch the one truck that's equipped to handle it: your Kenworth T880.

It's The World's Best® way to get work done.

T880 Day Cab

T880 40 Inch Flat Top Slee

T880 52 Inch Mid-Roof Sleeper

T880 76 Inch Mid-Roof Sl

DESIGNED SPECIFICALLY FOR THE CHALLENGES YOU FACE EVERY DAY

Advanced technology and street-smart design – sloped hood, fuel-efficient drive train, aerodynamic and job-specific options, unconventional maneuverability and supremely comfortable driving environment – make a Kenworth T880 the ideal business partner. Spec it lean for payload-hungry applications. Dress it down in a no-frills day cab configuration. Or order it as a decked out thoroughbred with factory-installed, signature-setting Kenworth exclusives.

Made of durable Metton, the 5-piece T880 hood offers bolt-on fenders for quick replacement to get you back on the work site. Each fender can be replaced in less than two hours.

The optional pre-cleaner is a great addition when operating in dusty environments like feed lots, road building or ready-mix operations.

Keep dirt, mud and spray at bay with Kenworth's optional forward fender close-out accessory, a great idea when you're running off the beaten path or with bigger tires.

Complex reflector halogen headlights offer the lighting performance of projector beam systems without the extra cost. Designed with extra thick polycarbonate lens and UV inhibitor, the headlamps will stand up to years of service without any complaints.

Open the door on a T880 and you'll notice a marked difference in how Kenworth defines comfort. The door pad, for example, presents a soft, low-gloss finish and the look of fine hand craftsmanship. Robust and extraordinarily strong, the door is triple sealed against the elements and road noise.

Robust aerodynamic side mirrors are cowl mounted for better stability and located further forward and lower to optimize rearward visibility. The convex portion is 37% larger than Kenworth's standard convex mirror design.

Powering the Kenworth T680 are the high quality and reliability of the PACCAR MX engines. The 12.9-liter PACCAR MX-13 engine is designed to meet the demands of linehaul heavy duty truck applications — delivering the increased horsepower and torque needed to move large payloads with ease, even on steep grades. The 10.8-liter, six-cylinder, in-line PACCAR MX-11 engine is perfect for weight sensitive pickup and delivery, less-than truckload and regional applications.

*Multi Torque Ra

KENWORTH
THE WORLD'S BEST.

If you use heavy-duty trucks to get a heavy job done, depend on the rock-solid foundation of Kenworth engineering. It's the reason your T880 will likely be more productive, less expensive to maintain and more satisfying to drive than any other truck you've ever owned.

Chassis Crossmembers
- Backbone of the rugged, durable chassis
- Lightweight, durable 1-piece aluminum crossmembers standard
- Optional 5-piece aluminum or steel bolted crossmembers
- Customizable locations including clear-space requirements to meet body installation needs

Exhaust System/Aftertreatment
- High-route piping to increase ground clearance
- Right-hand under cab (RHUC) DPF & SCR with optimized packaging to provide clear back-of-cab options
- Variety of tailpipe options to meet application needs
- Clear back of cab DEF system to minimize frame space impact

Transmission
- Eaton Ultrashift Plus automated transmissions
- Fuller manual transmissions
- Allison automatic transmissions
- Options tailored to specific chassis needs

PACCAR MX-11 and MX-13 Engines
- High durability engine for rugged applications
- High pressure common rail fuel system
- Compacted graphite iron (CGI) material for improved strength and reduced weight

Rear Suspension
- Kenworth Airglide™ suspensions to match intended service (low-cost, lightweight, and highly durable options available)
- Hendrickson, Neway, Chalmers, and Reyco mechanical and air suspension systems also available
- Single, tandem, or tridem installations with up to 26,000-lb rating per axle from Meritor or Dana
- Air disc brakes or drum brakes to meet stopping distance requirements

Lift Axles:
- Factory-installed and warrantied options from Watson & Chalin
- 8K, 10k, 13.5K, 20k, and 23k steerable axles available
- 23K non-steerable (rigid) axles available
- Ride height optimized to provide best ground clearance available

Fuel System
- 45-177 Gallon tanks in 22", 24.5", Or 28.5" diameters
- Heavy duty 7" strap options for excellent appearance
- Highly-polished options to dress-up the chassis
- Raised options for additional ground clearance

Bumper
- Aluminum or steel tapered or channel options
- Painted, polished or chrome options
- Box bumper for heavy-duty applications
- Center-mounted or removable tow hook options

Front Suspension
- 12K-22K axles from Meritor or Dana
- Taperleaf springs designed for durability and optimized for smooth operation
- Steering system integrated to provide outstanding maneuverability with minimal effort
- Air disc brakes or drum brakes to meet stopping distance requirements

T880 40 Inch Flat Top Sleeper

T880 40 Inch Flat Top Sleeper

40 Inch Flat Top Sleeper

For applications where length and tare weight are at a premium, Kenworth's 40-inch sleeper is a perfect match. It offers a compact, yet comfortable sleeping environment, 22 cubic feet of storage space, overhead shelves, a cell phone cubby and extra large coat hooks specifically designed to hold hard hats as well as coats.

52 Inch Mid-Roof Sleeper

When the schedule requires a layover, the Kenworth's 52-inch sleeper is a welcome sanctuary. It measures 94 inches wide with a generous walk-through and stand-up-and-stretch headroom. Also available with an aerodynamic roof fairing.

76 Inch Mid-Roof Sleeper

For lower-profile and weight-sensitive applications, the Kenworth T880 with a 76-inch mid-roof sleeper can be ordered with either the optional back wall storage system or folding upper bunk to meet your individual needs.

OF COURSE YOU HAVE CHOICES. THIS IS YOUR KENWORTH.

Kenworth trucks are still custom-built from the ground up to match your specifications, your loads and your lifestyle. Resulting in a superior level of craftsmanship and luxury. Along with more amenities, interior configurations and choices. It's why the T880 is the driver's truck. Personalize your 76-inch sleeper with the following options to create a customized "fit" to meet your needs.

Sturdy work/ dining table swivels for easy access from bunk or passenger seat (which rotates 105 degrees).

A spacious on-top organizer for keys, cell phone and other necessities; hand-hold cubby for stable access to upper bunk.

TV wall mount for flat screen monitors up to 23 inches; extends and revolves for viewing from anywhere.

Large capacity, drawer-style refrigerator/freezer mounted at mid-level for wide open access without bending over.

Upper storage unit includes a tie-down to accommodate your microwave; inverter optional.

A larger under-wardrobe cabinet shown with optional door; easily removable for added convenience.

INTERIOR COLORS AND OPTIONS

The T880 is available in two interior trim levels, the Vantage and the Diamond VIT. Offered in Slate Gray or Tan, either choice comes with three shades of vinyl plus a complementary trim color.

REWARDING

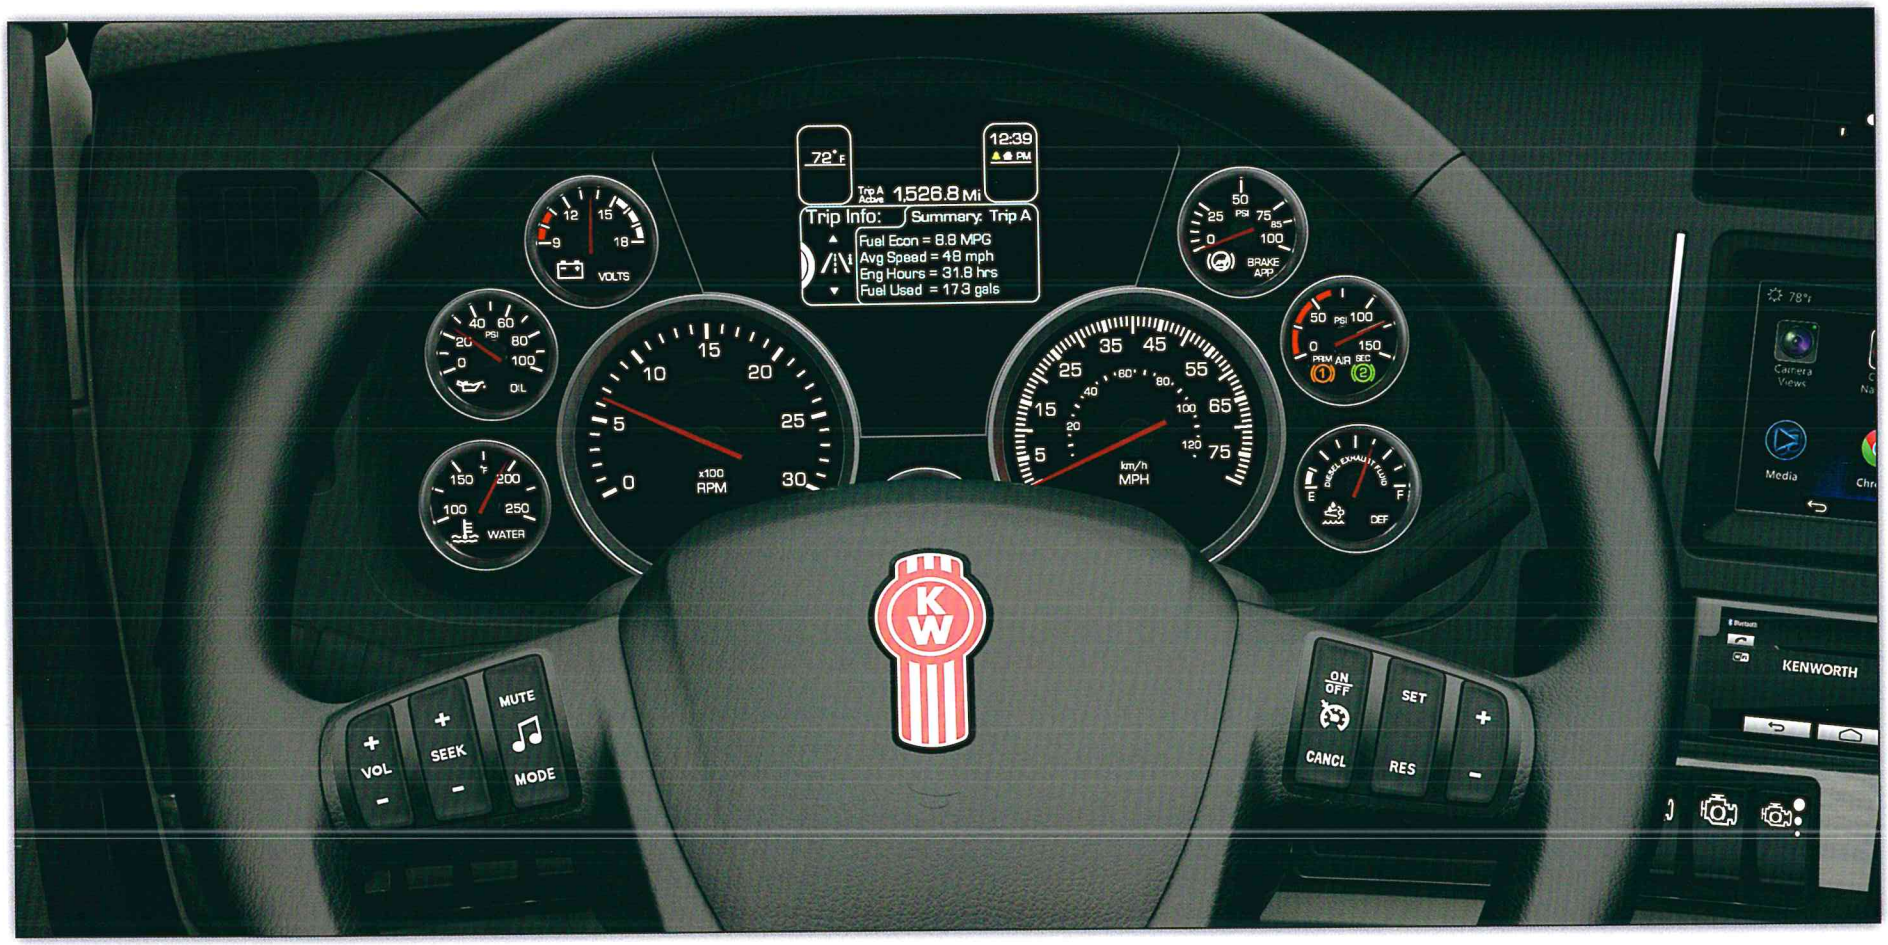
A TRUCK THIS ADVANCED COULD TAKE YOU PLACES YOU'VE NEVER BEEN.

The T880 employs a suite of ingenious technologies and design features that elevate the driving experience to new heights of safety, efficiency and satisfaction. These intelligent support systems empower the driver to make better, more informed decisions, remain connected 24/7, and dial in the perfect work environment. At the end of the day, this is all about helping the driver feel less fatigued and more fulfilled.

T880
Driver Performance Technology

DRIVER PERFORMANCE CENTER

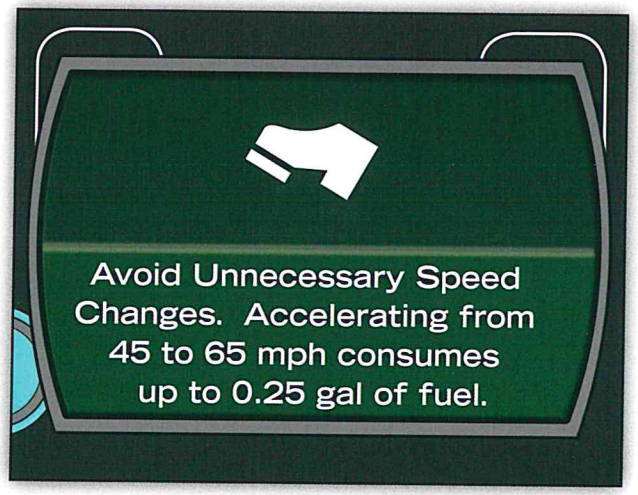
To drive a truck efficiently, you need real-time information — especially true today when drivers must track fuel, vehicle and safety systems performance on the go. But good information isn't the only thing the new Kenworth Driver Performance Center offers. The quality, clarity and visual interest of the presentation also means a lot when you're focused on the road. The 5 inch full color, high resolution screen is an industry first — and so much easier on the eyes. At a glance, it tells you everything you need to know about operating in the sweet spot between performance and efficiency. Truck diagnostics and performance indicators pop up to alert the driver. Trip details and multi-route comparisons allow them to maximize performance every day.

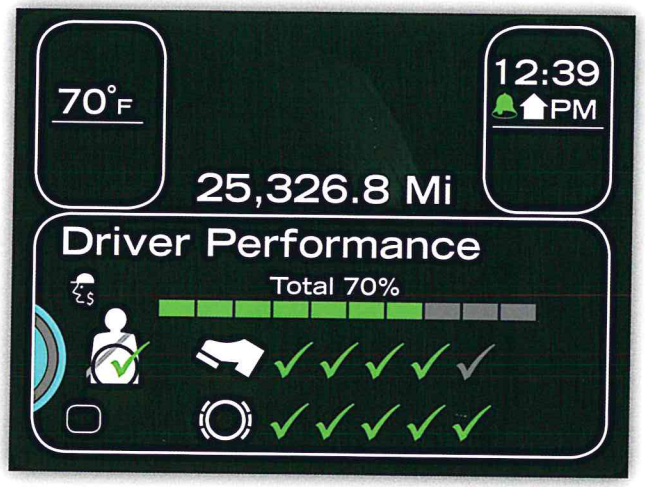


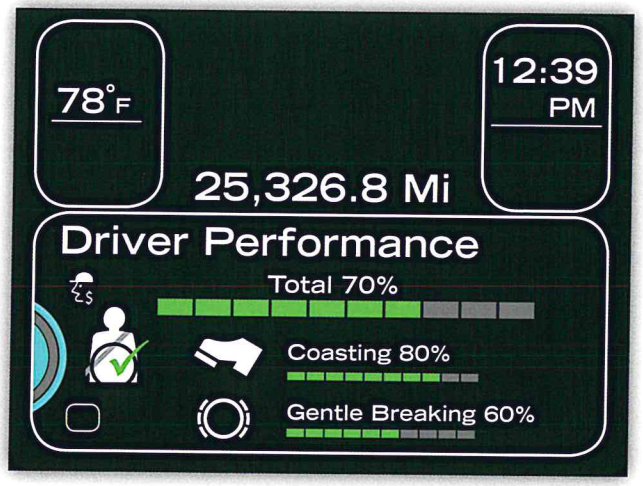
KENWORTH
THE WORLD'S BEST.

DRIVER PERFORMANCE ASSISTANT

Standard on every Kenworth with a PACCAR MX-11 or MX-13 engine, the Driver Performance Assistant module monitors and scores driving technique in real-time — encouraging behavior that supports better fuel economy and longer brake life. The system coaches improvements by showing drivers how to best optimize the truck's performance — by coasting longer, utilizing the engine brake, anticipating the road ahead and braking with less force.







T880 Connected Truck

KENWORTH TRUCKTECH+

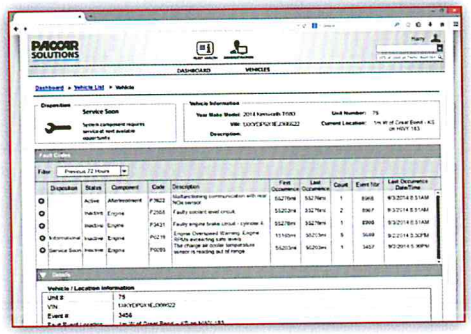
Running your business just became a whole lot easier, more productive, more efficient and more profitable. Introducing KENWORTH TRUCKTECH+ is an innovative new technology that helps you diagnose and solve potential problems — before they impact your operation. Standard in every new Class 8 Kenworth with a PACCAR MX-11 or MX-13 engine.

When an engine fault code is triggered, TruckTech+ sends a notification to the fleet operations manager and to designated Kenworth dealers immediately.

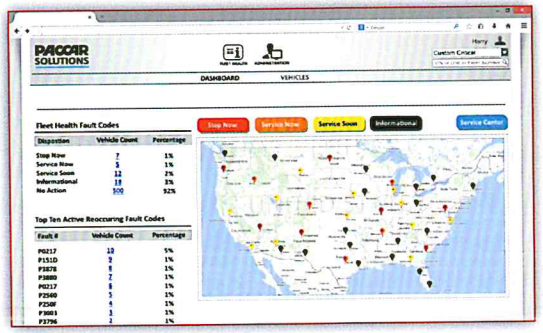
The fleet operations manager will have enough information to determine the course of action, whether to direct the driver to keep driving, or proceed to a Kenworth dealer to be serviced.

Kenworth dealers will have visibility to the fault code diagnosis prior to a truck arriving in order to expedite service.

Immediate recommended action is provided to the operator through the driver performance center.



The system generates a comprehensive fault report that can be viewed online or emailed to the fleet manager.



Detailed reports are readily available on each truck currently presenting an actionable code. You can filter the information by specific chassis, severity, make, model, year it was manufactured and location.

KENWORTH
THE WORLD'S BEST.

KENWORTH NAV+ HD

Introducing NAV+ HD, an in-dash display designed specifically for life on the road. Consider it your personal assistant. With a simple touch to the high-resolution 7-inch color screen — or a spoken command — you have direct access to a full range of valuable and productive features: Truck-specific navigation, roadside assistance, vehicle data, hands-free phoning, audio controls (including satellite radio, AM/FM/CD/MP3/USB/Bluetooth), blind-spot camera inputs and the internet. NAV+ HD. Enjoy the road.

On-board navigation is becoming commonplace, but the NAV+ HD is the first system in the industry to offer optimized routes customized to your truck parameters and your load.

With Google Chrome, choose from results and suggestions that appear as you type, including your recent searches and visited websites while Autofill lets you complete forms with just one tap.

NAV+ HD makes adding a camera system quick and easy. Real-time screen views for up to four cameras are directly and instantly accessible.

Pre-loaded virtual gauges include oil temperature, transmission temperature, manifold boost, present and average fuel economy, DPF status and engine torque.

NAV+ HD audio features AM/FM/Weather bands, CD player, USB port for memory devices containing MP3 or audio files, and Bluetooth wireless audio streaming from Bluetooth enabled devices.

NAV+ HD integrates Bluetooth wireless technology with an in-cab microphone and speaker. Just pair it with your compatible Bluetooth phone and talk hands-free.

REWARDING

WHEN IT COMES TO MAINTENANCE, GOOD DESIGN SAVES YOU MONEY BY SAVING TIME.

Superior design and engineering helps you stay on the road logging revenue miles. That subtle distinction will make a big difference to your operation. Another reason Kenworth is such a good decision. Durable state-of-the-art materials, reliable long-lived components with less frequent service intervals and easier-to repair innovative engineering combine to make the T880 perhaps the most productive truck you've ever owned.

IN A 24/7 WORLD WHERE CUSTOMERS RIGHTFULLY EXPECT TO HAVE IT ALL, YOU NEED YOUR NETWORK MORE THAN EVER BEFORE.

We're in this together. From the moment you put your new T880 to work, Kenworth and its extensive dealer network – with over 360 locations throughout North America – are standing by. You will never be far away from expert parts and service support. Trust your Kenworth network to be there, to be smart, to have your best interests at heart and to be quick about it, whatever it is. You can find your nearest Kenworth location at www.kenworth.com/find-a-dealer.

KENWORTH PremierCare®

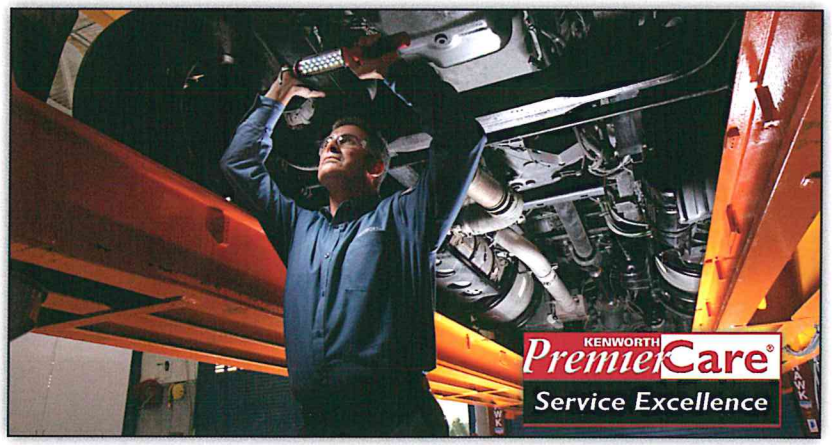
PREMIERCARE SETS THE STANDARD FOR CUSTOMER SERVICE

When you selected your Kenworth, you chose The World's Best heavy duty truck. You deserve the same level of passion, excellence and attention to detail from those who care for it. Kenworth PremierCare is committed to increasing productivity of every truck in your fleet by offering extended hours of operation, expedited diagnostics, mobile roadside assistance and expert factory-trained technicians. PremierCare Gold Certified Dealers are certified by Kenworth and offer a complete range of PremierCare services that are all focused on maximizing uptime.

KENWORTH
THE WORLD'S BEST.

EXPRESSLANE: KNOW ALL YOUR OPTIONS – FAST.

When the unexpected happens, PremierCare ExpressLane provides an expert diagnosis and estimate of the time and cost of repair – within two hours. By knowing what to expect, you can make important decisions regarding the driver and the load faster than ever before.



PROMPT, PROFESSIONAL SERVICE YOU CAN COUNT ON

Trust factory-certified technicians with advanced engine training and immediate access to a vast inventory of quality parts to streamline your service solution. In addition, TruckTech+ professionals can help diagnose issues leveraging Kenworth's TruckTech+ before the truck arrives at the dealer.

EXPERT ASSISTANCE THAT NEVER TAKES A DAY OFF.

Kenworth PremierCare Roadside Assistance is on call 24 hours a day, 365 days a year to connect you with the help you need anywhere in North America. 1-800-KW-ASSIST puts you in touch with a highly trained Kenworth heavy truck specialist who can manage emergency service needs.

ALL THE CONVENIENCES OF A HOME OFFICE.

PremierCare Driver's Lounges offer a comfortable environment that make it easy to relax – or remain productive – for as long as your truck is in the shop. Just another way to say we appreciate your business and value your time.

Engine/Powertrain		
• PACCAR MX-13 Engine, 12.9 Liter, 380-500 HP, 1,450 – 1,850 lb-ft of Torque	●	
• PACCAR MX-11 Engine, 10.8 Liter, 355-430 HP, 1,250 – 1,550 lb-ft of Torque		●
• PACCAR PX-9 Engine, 8.9 Liter, 345-380 HP, 1,150 – 1,250 lb-ft of Torque		●
• Cummins ISX12 Engine, 11.9 Liter, 320-425 HP, 1,150 – 1,650 lb-ft of Torque		●
• Cummins ISX12-G Engine, 11.9 Liter, 320-400 HP, 1,150 – 1,450 lb-ft of Torque		●
• Cummins ISX15 Engine, 14.9 Liter, 450-600 HP, 1,450 – 2,050 lb-ft of Torque		●
Exhaust/Aftertreatment		
• Horizontal Muffler/DPF/SCR and Tailpipe	●	
• RH Under DPF/SCR with Side of Cab Tailpipe		●
• Horizontal Muffler DPF/SCR with Back of Sleeper Vertical Tailpipe		●
• Vertical Independent DPF/SCR with Back of Cab Single Tailpipe		●
• Small Round DEF Tank – 11 Usable Gallons	●	
• Medium Round DEF Tank – 21 Usable Gallons		●
• Large Round DEF Tank – 31 Usable Gallons		●
• Polished Tank Cover and Polished Straps		●
Transmission Options		
• Eaton Fuller FRO16210C 10-Speed	●	
• Eaton Fuller 9, 10, 13, 15 & 18 Speed Manual and Automated Transmissions		●
• Allison 5, 6 & 7 Speed Automatic Transmissions		●
• PTO Options: REPTO and Factory Installed Transmission Mounted PTOs		●
• Fabco and Namco Split-Shaft PTO's and Transfer Cases		●
Electrical		
• Multiplex Electrical System With Centralized Power Distribution Incorporating Plug-In Style Relays & Circuit Protection For Serviceability	●	
• 12 Volt Lighting System With Circuit Protection	●	
• Circuits Numbered & Color Coded	●	
• Key Switch Start & Shutdown	●	

	Standard	Optional
Starting and Charging		
• 160 Amp Alternator	●	
• PACCAR 12 Volt Starter	●	
• Three PACCAR Dual Purpose Batteries	●	
• Two or Four PACCAR Dual Purpose Batteries		●
• Two or Three AGM Deep Cycle Batteries		●
• Maxwell ESM Ultracapacitor Starting Module		●
Frame		
• Frame - 10 5/8" Steel - 120,000 psi - Heat Treated	●	
• Frame - 10 3/4" Steel - 120,000 psi - Heat Treated		●
• Frame - 11 5/8" Steel - 120,000 psi - Heat Treated		●
• Single and Double Frame Inserts		●
Axle and Suspension		
• Front Axles - Meritor, 12,000 lb.	●	
• Front Axles - Meritor or Dana Spicer 12,000 to 22,000 lbs.		●
• Front Springs - Taperleaf w/Shocks, 12,000 lb.	●	
• Front Springs - Taperleaf w/Shocks, 13,200, 14,600, 16,000, 18,000, 20,000 and 22,000 lb.		●
• Rear Axle - Meritor, 40,000 lb. Tandem	●	
• Single Rear Axles - Meritor or Dana Spicer from 16,000 to 30,000 lbs.		●
• Tandem Rear Axles - Meritor or Dana Spicer, 40,000 to 52,000 lbs.		●
• Tridem Rear Axles - Meritor or Dana Spicer, 69,000 and 78,000 lbs.		●
• Rear Suspension - Reyco 102, 38,000 lb. Tandem	●	
• Single Rear Axle Suspensions - Kenworth, Reyco, Neway and Hendrickson with capacities from 20,000 to 31,000 lbs.		●
• Tandem Rear Axle Suspensions - Kenworth, Reyco, Hendrickson, Chalmers and Neway with capacities up to 52,000 lbs.		●
• Tridem Rear Axle Suspensions - Kenworth, Hendrickson, and Neway with capacities up to 78,000 lbs.		●

KENWORTH

	Standard	Optional
Brakes		
• Brakes - Air Drum	●	
• Brakes - Air Disc		●
• ABS System - Bendix	●	
• ATC and ESP available		●
Wheels / Tires		
• Wheels - Steel 22.5"	●	
• Tires - Bridgestone 295/75R22.5	●	
• Bridgestone, Michelin, Goodyear and Yokohama Tires Available		●
• Polished and Non-Polished Alcoa Aluminum Wheels		●
• 24.5" Tires and Wheels		●
Fuel Tanks		
• 24.5" Round Aluminum - 100 Gallon Capacity	●	
• 22" Round Aluminum – 56 to 120 Gallon Capacity Under and Back of Cab		●
• 24.5" Round Aluminum – 60 to 150 Gallon Capacity Under and Back of Cab		●
• 28.5" Round Aluminum – 60 to 177 Gallon Capacity Under and Back of Cab		●
• Hydraulic and Split Tanks Available		●
• Heavy Duty 7" Fuel Tank Support/Straps		●
• Polished Aluminum Tanks and Polished Straps		●
Battery Boxes		
• Steel Battery Box with Aluminum Step Cover	●	
• Aluminum Battery Box		●
• Cantilever Back of Cab Battery Box		●
• In Cab Battery Box		●
Bumpers		
• Steel Painted Channel Bumper	●	
• Tapered Channel in Brushed, Polished Aluminum or Chrome Steel		●
• Stainless Clad Aluminum Channel Bumper		●
• Box Bumper - Painted or Chrome (1/4" or 3/8" Thick)		●

	Standard	Optional
Cab / Hood / Interior		
• Cab - Stamped Aluminum	●	
• Hood - 5-Piece Metton Sloped Vocational Hood with Bolt on Fenders	●	
- T880 MX Hood - 116.5" BBC	●	
- T880 Hood - 122.5" BBC		●
• 40" Low-Roof Flat Top Sleeper		●
• 52" Mid-Roof Aerodyne Sleeper		●
• 76" Mid-Roof Aerodyne Sleeper		●
• Complex Reflector Halogen Headlamps	●	
• Aerodynamic Breakaway Heated Mirrors	●	
• Adjustable Telescoping Tilt Steering Column	●	
• Standard Vantage Vinyl Headliner and Cab Back Panel	●	
• Diamond VIT Deluxe Interior		●
• Kenworth GT701 High Back Driver Seat	●	
• Kenworth GT701 High Back Toolbox Plus Rider Seat	●	
• Kenworth GT702 High Back Driver and Rider Seats		●
• Kenworth GT703 Heated and Ventilated High Back Driver and Rider Seats		●
• Power Door Locks	●	
• Passenger-side Electric Window	●	
• 3-Window Back of Cab Window Option		●
• Full Burl Wood Dash Panels		●
Special Equipment & Options		
• Back-up Alarm		●
• Daytime Running Lights		●
• Multi-function Engine Connector For Body Builder Interface		●
• Bodybuilder Harness to End of Frame		●
• Custom Frame Drilling and Frame Layout		●
• Factory Installed Transmission PTO's		
- Muncie and Chelsea		●
• Factory Installed Watson Chalin Lift Axles		
- 8K, 10K, 13.5K, 20K and 22K		●
- Pusher and Tag Axle configurations		●
- Steerable and Non-Steerable Options		●

HEAVY-DUTY SUPPORT WHENEVER - AND WHEREVER - YOU NEED IT

The reliability and moneymaking potential of your business relies on the dependability of your support system – another great reason to invest in a Kenworth.

PacLease

Combining premium Kenworth trucks and personalized local service, PacLease provides customized full-service lease, rental and contract maintenance programs designed to meet the specific needs of customers.

PACCAR FINANCIAL

For over 50 years and through all economic cycles, PACCAR Financial has been providing Kenworth owners with innovative financing solutions that can be customized to meet individual business needs.

PACCAR GENUINE PARTS

PACCAR Genuine parts are first-fit parts that keep a Kenworth as original and reliable as the day it rolled out of the factory. Keep your truck and engine well-maintained with the quality, performance and warranty delivered from PACCAR Genuine parts.

Option	Description	Price	Weight
	Intended Service		
0093000	Linehaul: Vehicles (trucks or tractors) used in over-the-road freight hauling. Pickup to delivery distance is typically over 300 miles, & annual mileage is typically over 60,000 miles per year. Operation is typically on-highway. Road usage: minimum 1% Class B, do not code for Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * Linehaul is not a typical vocation for a Medium-Duty vehicle. * The road use profile for linehaul service should be: CLASS A 25-99% ; CLASS B 1-100% ; CLASS C 0-90% ; CLASS D 0%	$0	0#
0093005	Local pickup & delivery: Vehicles which haul freight, typically operating within a 100-mile radius, on public streets & highways, & other paved surfaces, including limited Class C roads. Includes package & freight delivery, as well as fuel oil or petroleum distribution, etc. Road usage: minimum 3% Class B, do not code for Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for pick-up and delivery service should be: CLASS A 0-97% ; CLASS B 3-100% ; CLASS C 0-20% ; CLASS D 0%	$0	0#
0093007	Regional Haul: Vehicles used to haul freight on public roads consisting of a mixture of over the road, urban and/or suburban hauling. Pickup to delivery distance typically in the 100 to 300 miles range but some LTL applications may exceed 300 mile limit (FedEx for example). Road usage: minimum 19% Class B, do not code for Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road class profile for chassis in regional haul service is: CLASS A 0-81% ; CLASS B 19-100% ; CLASS C 0-20% ; CLASS D 0%	$0	0#
0093015	Concrete ready mix: Vehicles which deliver Ready-Mix concrete from batch plant to job site. Typically includes some operation off of paved roads. Road usage: any combination, which includes minimum 5% Class B. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for mixer service should be: CLASS A 0-95% ; CLASS B 5-100% ; CLASS C 0-10% ; CLASS D 0-5% * The T270 is not well suited in applications of logger, mixer, mining hauler, heavy equipment transport, refuse packer, fire truck, or crane/cherry picker. mining hauler and heavy equipment transport. See TE1482.	$0	0#
0093025	Snowplow: Vehicles which are configured for mounting a snowplow to the front. May also have dump or other body. Typically includes some operation off of paved roads. Road usage: majority of Class A & B, do not code for Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for snowplow service should be: CLASS A 0-95% ; CLASS B 5-100% ; CLASS C 0-10% ; CLASS D 0%	$0	0#
0093035	Mining service: Vehicles used to service earthmoving & mining equipment. Includes bodies such as mechanic's service bodies, tire hoists, fuel/lube, etc. Typically includes some operation off of paved roads. Road usage: any combination, which includes some Class C. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for mining service should be: CLASS A 0-97% ; CLASS B 0-95% ; CLASS C 1-100%; CLASS D 0-99%	$0	0#

Option	Description	Price	Weight
	Intended Service		
0093090	Utility vehicle: Used to service utility or communication equipment. Typically operates within 100 mile radius on public roads & may or may not have a man lift. Duty cycle includes long engine idle times. Road usage: any combination of A & B, may include some class C roads. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * Typical road use profile for a vehicle operating in Utility service is: CLASS A 0-99% ; CLASS B 1-100% ; CLASS C 0-10% ; CLASS D 0 %	$0	0#
0093091	Refuse hauler: Vehicles which haul refuse, recycled material, etc. Includes Roll-on/roll-off container movement, as well as hauling refuse from transfer stations to landfills. Typically includes operation in landfills, over rough, uneven surfaces. Road usage: any combination, which includes some Class B. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for refuse haulers should be: CLASS A 0-99% ; CLASS B 1-100% ; CLASS C 0-99% ; CLASS D 0-99%	$0	0#
0093095	Refuse packer: Vehicles which pick up refuse or recycled material from curbside containers in residential areas. Operation typically includes very frequent stops & starts. Unloading can be at transfer station or at landfill. Road usage: some Class B required, with maximum of 5% Class D. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * AD-IS Extended Purge air dryer is required with Refuse Packer intended service or Refuse Loader/Packer body type. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * Intended service of refuse packer requires use of a 30.4 CFM air compressor, or 8205021 Large flip valve and piping to apply front and rear service brakes. * Refuse loader/packer body type is only for use with refuse packer intended service. * The road use profile for refuse packer service should be: CLASS A 0-80% ; CLASS B 1-100% ; CLASS C 0-99% ; CLASS D 0-5% * The T270 is not well suited in applications of logger, mixer, mining hauler, heavy equipment transport, refuse packer, fire truck, or crane/cherry picker. mining hauler and heavy equipment transport. See TE1482.	$0	0#
0093105	Oil field well servicing: Vehicles which carry well servicing equipment, e.g., pumpers, blenders, cementers, data loggers, etc. Typically involve considerable hours of stationary operation, but low mileage. Typically operate on prepared (although often unpaved) roadways. Road usage: any combination, w/minimum 5% Class C. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for oil field well service should be: CLASS A 0-80% ; CLASS B 0-95% ; CLASS C 5-100% ; CLASS D 0-95% * This vocation presents a high likelihood that the vehicle will include some stationary operation. This service type will be reviewed by engineering to determine cooling requirements.	$0	0#
0093111	Wrecker service: Vehicles w/ recovery bodies used for recovering & towing stranded vehicles & equipment. Road usage: minimum 5% Class B & maximum 10% Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for use with wrecker service should be: CLASS A 0-95% ; CLASS B 5-100% ; CLASS C 0-95% ; CLASS D 0-10% * To assist engineering communicate the wrecker body manufacturers frame RBM requirements using narrative lines on the DTPO.	$0	0#

Option	Description	Price	Weight
	Intended Service		
0093121	Fire truck service: Vehicles used in fighting fires. Typically have pumps, etc., mounted in the body. Road usage: minimum 5% Class B & maximum 5% Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * NFPA compliance 1901 kit is required with Fire service. * PACCAR requires a fire rated engine for use in fire service. * The road use profile for fire or EMT service should be: CLASS A 0-80% ; CLASS B 5-100% ; CLASS C 0-95% ; CLASS D 0-5% * The T270 is not well suited in applications of logger, mixer, mining hauler, heavy equipment transport, refuse packer, fire truck, or crane/cherry picker. mining hauler and heavy equipment transport. See TE1482. * With fire truck service an ember separator may be required to meet local or NFPA compliance.	$0	0#
0093122	EMT/rescue service: Vehicles used responding to emergencies & rescue operations. Typically configured for rapid response, & carry medical & other rescue equipment. Road usage: minimum 5% Class B & maximum 5% Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for fire or EMT service should be: CLASS A 0-80% ; CLASS B 5-100% ; CLASS C 0-95% ; CLASS D 0-5%	$0	0#
0093125	Crane/cherry picker: Vehicles equipped w/ cranes, man-lifts, hoists, cherry-pickers, bridge inspection units, etc. Road usage: any combination, w/minimum 5% Class B. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for crane/cherry picker service should be: CLASS A 0-95% ; CLASS B 5-100% ; CLASS C 0-80% ; CLASS D 0-80% * The T270 is not well suited in applications of logger, mixer, mining hauler, heavy equipment transport, refuse packer, fire truck, or crane/cherry picker. mining hauler and heavy equipment transport. See TE1482.	$0	0#
0093130	Construction: Vehicles used in the construction industry, other than those listed above. Use typically involves operating on the jobsite, to pick up or deliver construction materials, or to position the vehicle for its intended use at the construction site. Includes such activities as delivery of precast concrete, concrete pumpers, flatbeds or roll-offs for delivery of construction materials or equipment, etc. Typically includes some operation off of paved roads. Road usage: any combination, which includes some Class C. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for construction service should be: CLASS A 0-97% ; CLASS B 0-99% ; CLASS C 1-100% ; CLASS D 0-99%	$0	0#
0093135	Agriculture: Vehicles used in the agriculture industry, other than those listed above. Use typically involves transportation of agricultural & dairy products to/from/on/around farm sites, & includes operation off of improved surfaces while on the farm. Includes applications such as milk tankers for farm pickup, feed trucks, grain haulers which load in the field, etc. Can be trucks or tractors. Road usage: any combination, which includes both Class C & D. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for chassis in agriculture service should be: CLASS A 0-95% ; CLASS B 0-98% ; CLASS C 1-95% ; CLASS D 1-95%	$0	0#

Option	Description	Price	Weight

Commodity Hauled

Building Materials

0091010	Pre-cast concrete (blocks, pavers, etc.). * Precast concrete commodity is applicable with intended service codes of regional haul, pickup and delivery, construction or agriculture.	$0	0#
0091020	Ready-mix concrete. * Ready-mix concrete commodity is applicable with intended service codes of mixer, pickup and delivery, construction or crane/cherry picker [pumper trucks].	$0	0#
0091030	Lumber. * Lumber commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, construction or crane/cherry picker.	$0	0#
0091040	Other building materials. * Building material commodity is for use with intended services of linehaul, pickup and delivery, regional haul, construction, crane/cherry picker, or utility service.	$0	0#
0091041	Asphalt. * Asphalt commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, or construction. * Beam or spring rear suspensions are typically used with an asphalt spreader.	$0	0#
0091042	Gravel/crushed rock/sand. * Gravel/crushed rock commodity is for use with intended services of linehaul, pickup and delivery, regional haul, snowplow, construction or agriculture.	$0	0#
0091043	Topsoil/bark. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * The commodity of bark or topsoil most closely matches the intended service of pick-up and delivery, agriculture, or construction.	$0	0#

Food-Farm Products

0091130	Grain. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Grain commodity is applicable to intended services of agriculture, pickup and delivery or regional haul.	$0	0#
0091135	Livestock feed. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * The commodity of livestock feed is most closely matched with intended services of agriculture, pick-up and delivery, or linehaul [flatbed sacked feed].	$0	0#
0091140	Hay. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Hay commodity is applicable to intended services of agriculture, line haul, regional haul, or pickup and delivery.	$0	0#

Option	Description	Price	Weight

Commodity Hauled

Food-Farm Products

0091150	Livestock. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Livestock commodity is applicable to intended services of agriculture, line haul, regional haul, or pickup and delivery.	$0	0#
0091160	Hanging meat. * Hanging meat commodity is applicable to intended services of agriculture, line haul, regional haul, or pickup and delivery.	$0	0#
0091170	Other food/farm products. * Farm products commodity is applicable to intended services of agriculture, line haul, regional haul, or pickup and delivery.	$0	0#

Bulk Goods

0091050	Dry bulk goods. * Dry bulk goods commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, construction or agriculture.	$0	0#
0091060	Dairy products - milk. * Dairy commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, or agriculture.	$0	0#
0091070	Liquid petroleum products. * For vehicles operating in fuel rich environments an engine overspeed device is strongly recommended * Liquid petroleum commodity is for use with intended services of linehaul, pickup and delivery, mining service, oil field well service or regional haul.	$0	0#
0091080	Other bulk goods. * Dry bulk commodity is applicable to intended services of linehaul, local pickup and delivery, regional haul, snowplow, utility service, refuse hauler or EMT/rescue.	$0	0#
0091115	Compressed gas. * Compressed gas commodity is for use with intended services of mining service, pickup and delivery or regional haul.	$0	0#
0091121	Water. * Water commodity is for use with intended services of mining service, oil field well service, construction or fire service.	$0	0#
0091122	Crude oil. * Crude oil commodity is for use with intended services of mining service, pickup and delivery or regional haul.	$0	0#
0091123	Liquefied gas. * Liquid gas commodity is for use with intended services of linehaul, pickup and delivery or regional haul.	$0	0#
0091125	Steel structural/coil. * Structural/coiled steel commodity is for use with intended services of linehaul, pickup and delivery, construction or regional haul.	$0	0#

Option	Description	Price	Weight

Commodity Hauled

Forest Products

0091190	Wood chips.	$0	0#
	* Wood chips commodity is applicable to intended services of agriculture, construction, line haul, regional haul, or pickup and delivery.		
0091200	Other forest products.	$0	0#
	* Other forest products commodity is applicable to intended services of agriculture, construction, line haul, regional haul, or pickup and delivery.		

Minerals

0091210	Coal.	$0	0#
	* Coal commodity is for use with intended services of pickup and delivery, regional haul, or agriculture.		
0091220	Excavated earth.	$0	0#
	* Excavated earth commodity is for use with intended services of pickup and delivery, regional haul, agriculture or construction.		
0091230	Rock.	$0	0#
	* Rock commodity is for use with intended services of pickup and delivery, regional haul, snowplow, construction or agriculture.		
0091240	Other minerals.	$0	0#
	* Other minerals commodity is for use with intended service of snowplow.		

Dry Goods

0091090	General freight.	$0	0#
	* General freight commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, construction or agriculture.		
0091100	Heavy machinery.	$0	0#
	* Heavy machinery commodity is for use with intended services of pickup and delivery, regional haul, snowplow, mining service, oil field well service, wrecker or EMT/rescue.		
0091110	Oil field equipment.	$0	0#
	* Oil field equipment commodity is for use with intended services of mining service or oil field well service.		
0091120	Other dry goods.	$0	0#
	* Other/dry goods commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, construction or agriculture.		
0091124	Auto transporter.	$0	0#
	* Automobile transport commodity is for use with intended services of linehaul, pickup and delivery or regional haul.		

Miscellaneous

0091250	Empty cans.	$0	0#
	* Empty cans commodity is for use with intended services of refuse hauler, pickup and delivery or regional haul.		

Option	Description	Price	Weight

Commodity Hauled

Miscellaneous

0091260	Refuse/recycled material. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Refuse/recycle commodity is for use with intended services of refuse hauler or refuse packer.	$0	0#
0091270	Fire apparatus. * Fire apparatus commodity is applicable to intended services of fire truck, oil field well service, construction or agriculture. * NFPA compliance 1901 kit is required with Fire service.	$0	0#
0091271	EMT/rescue. * EMT/rescue equipment commodity is applicable with intended service code of EMT/rescue.	$0	0#

Body Type

0095010	End dump. * End dump body type is for use in the following services: linehaul, local P&D, regional haul, snowplow, oil field well service, construction, refuse hauler or agriculture. * The road use profile for dump truck service should be: CLASS A 0-97% ; CLASS B 0-99% ; CLASS C 1-100% ; CLASS D 0-99%	$0	0#
0095015	Super dump with flying tag axle.	$0	0#
0095035	Stone slinger.	$0	0#
0095040	Concrete mixer, non-booster-axle. * Air suspensions are not for use with body types of refuse, roll-on/roll-off, concrete mixers, drilling derricks, oil field rig up, oil field service, crane or boom, concrete pumper, or logger of any type. * Non-booster axle concrete mixer body is for use in the following services: concrete ready mix or construction. * This body type is generally unacceptable for use in a Medium-Duty application. Consult with Application Engineering before submitting a request for this vocation.	$0	0#
0095055	Concrete pump. * Air suspensions are not for use with body types of refuse, roll-on/roll-off, concrete mixers, drilling derricks, oil field rig up, oil field service, crane or boom, concrete pumper, or logger of any type. * Concrete pump body type is for use in the following services: local P&D, regional haul, concrete ready mix, or construction. * Concrete pumper body type is used for the commodity of ready mix concrete only. * This body type is compatible with full trucks only.	$0	0#
0095056	Volumetric mixer. * Volumetric mixer body is for use in the following services: local P&D, regional haul, concrete ready mix, oil field well service or construction.	$0	0#
0095060	Roll on/roll off. * Air suspensions are not for use with body types of refuse, roll-on/roll-off, concrete mixers, drilling derricks, oil field rig up, oil field service, crane or boom, concrete pumper, or logger of any type. * Roll on/roll off body type are for use in the following services: local P&D, regional haul, mining service, refuse hauler, oil field well service, wrecker service, EMT/rescue service, construction or agriculture.	$0	0#

Body Type

Option	Description	Price	Weight
0095065	Roll back flatbed. * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained. * Roll back flat bed body is for use in the following services: local P&D, regional haul, mining service, refuse hauler, oil field well service, wrecker service, EMT/rescue service, construction or agriculture. * This body type is compatible with full trucks only.	$0	0#
0095070	Refuse loader/packer. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * AD-IS Extended Purge air dryer is required with Refuse Packer intended service or Refuse Loader/Packer body type. * Body type refuse loader/packer requires use of a 30.4 CFM air compressor, or 8205021 large flip valve and piping to apply front and rear service brakes. * Refuse loader/packer body type is only for use with refuse packer intended service.	$0	0#
0095080	Refuse, other. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Other refuse body types are for use in the following services: local P&D, regional haul, or refuse hauler.	$0	0#
0095090	Oil field rig-up. * Air suspensions are not for use with body types of refuse, roll-on/roll-off, concrete mixers, drilling derricks, oil field rig up, oil field service, crane or boom, concrete pumper, or logger of any type. * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained. * Oil field rig up body type is for use in the following services: oil field well service or crane. * This body is indicative types that utilize an aftermarket headache rack. In those cases the frame access package must be altered after the vehicle is delivered to accommodate the installation of a headache rack and retain compliance with FMCSR 399. * This body type is generally unacceptable for use in a Medium-Duty application. Consult with Application Engineering before submitting a request for this vocation.	$0	0#
0095095	Beverage. * Beverage body type is for use in the following services: linehaul, regional haul, l or local P&D.	$0	0#
0095099	Oil Field Winch/Equipment BOC for use w/Tractors.	$0	0#
0095100	Oil well servicing equipment. * Air suspensions are not for use with body types of refuse, roll-on/roll-off, concrete mixers, drilling derricks, oil field rig up, oil field service, crane or boom, concrete pumper, or logger of any type. * Oil field well service equipment body type is for use in the following services: mining service, oil field well service, or crane.	$0	0#
0095105	Drilling derrick. * Drilling derrick body type is for use in the following services: mining service, oil field well service or construction. * This body type is compatible with full trucks only.	$0	0#

Option	Description	Price	Weight

Body Type

0095110	Tank.	$0	0#
	* Tank bodies should specify a commodity the is a liquid or some other type of bulk product.		
	* Tanker body type is for use in the following services: linehaul, local P&D, regional haul, snowplow, mining service, refuse hauler, oil field well service, fire truck, EMT/rescue, construction or agriculture.		
0095115	Dry bulk hopper.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found.		
	* A dry bulk hopper body type is used for the commodities of bark/topsoil, dry bulk goods, other food/farm products, other forest products, grain, dry bulk, or feedlot type commodities		
	* Dry bulk hopper body type is for use in the following services: linehaul, local pickup & delivery, regional haul, snowplow, construction or agriculture.		
	* This body type is compatible with full trucks only.		
0095120	Van.	$0	0#
	* Van body type is for use in the following services: linehaul, local P&D, regional haul, mining service, refuse hauler, EMT/rescue, construction or agriculture.		
0095125	Service body.	$0	0#
	* Service Body type is for use in the following services: local P&D, snowplow, mining service, oil field well service, wrecker, EMT/rescue, crane, construction or utility service.		
	* This body type is compatible with full trucks only.		
0095130	Dromedary box or automobile rack.	$0	0#
	* Drom box or automobile rack body type are for use in the following services: linehaul, local P&D, regional haul, wrecker or construction.		
	* This body type can be used in tractor or full truck configurations.		
0095135	Cotton module.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found.		
	* A cotton module body is used for commodities of 'other' food/farm products . 'other' bulk goods, or dry bulk goods		
	* Cotton module body type is for use in the following services: agriculture.		
	* This body type is compatible with full trucks only.		
0095140	Flatbed.	$0	0#
	* Flatbed body type is for use in the following services: linehaul, local P&D, regional haul, snowplow, mining service, refuse hauler, oil field well service, EMT/rescue, crane, construction or agriculture.		
	* Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained.		
	* This body is indicative types that utilize an aftermarket headache rack. In those cases the frame access package must be altered after the vehicle is delivered to accommodate the installation of a headache rack and retain compliance with FMCSR 399.		

Option	Description	Price	Weight
	Body Type		
0095145	Flatbed with utility crane. * Flatbed with utility crane body type is for use in the following services: linehaul, local P&D, regional haul, snowplow, mining service, refuse hauler, oil field well service, EMT/rescue, crane, construction, agriculture, or utility. * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained. * This body type is compatible with full trucks only.	$0	0#
0095146	Wrecker. * A wrecker body for commodities of auto transporter or heavy machinery. * This body type is compatible with full trucks only. * Wrecker body type is for use in the following services: local P&D, regional haul, mining service, wrecker, EMT/rescue or crane.	$0	0#
0095155	Fire truck-pumper. * Fire truck pumper body type is for use in the following services: local P&D, regional haul, mining service, oil field well service, fire truck. Removed EMT/Rescue per M Hampson * NFPA compliance 1901 kit is required with Fire service.	$0	0#
0095160	OTHER - NARRATIVE REQUIRED * A narrative describing the actual body type is required to help engineering determine the application of vehicles where the body type of 'other' has been specified.	$0	0#
0095165	Vacuum tank. * Vacuum tank body type is for use in the following services: local P&D, regional haul. mining service, refuse hauler, oil field well service, construction or agriculture.	$0	0#
0095175	Reefer van. * Reefer van body is applicable to line haul, local pickup and delivery, or regional haul intended services	$0	0#
	Trailer Type		
0096020	End dump. * End dump trailer type is for use in the following services: linehaul, local P&D, regional haul, construction, refuse hauler or agriculture. * The T170 is available in a full truck application, no trailers are applicable. See TE1482.	$0	0#
0096025	SIDE DUMP * For use with: Local Pickup & Delivery 0093005 Regional Haul 0093007 Refuse Hauler 0093091 Construction 0093130 Agriculture 0093135 * Not for use with AG400L (3730028)	$0	0#
0096030	Bottom dump. * Bottom dump trailer type is for use in the following services: linehaul, local P&D, regional haul, construction or agriculture. * The T170 is available in a full truck application, no trailers are applicable. See TE1482. * Trailer types of doubles, triples, bottom dump or automobile carrier are for use with tractors only.	$0	0#

Trailer Type

Option	Description	Price	Weight
0096040	Flatbed. * Flatbed trailer type is for use in the following services: linehaul, local P&D, regional haul, refuse hauler, oil field well service, wrecker, crane, construction or agriculture * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained. * The T170 is available in a full truck application, no trailers are applicable. See TE1482. * This body is indicative types that utilize an aftermarket headache rack. In those cases the frame access package must be altered after the vehicle is delivered to accommodate the installation of a headache rack and retain compliance with FMCSR 399. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#
0096045	Beverage.	$0	0#
0096050	Lowboy. * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained. * Lowboy trailer type is for use in the following services: linehaul, local P&D, regional haul, oil field well servicing, wrecker, crane, construction or agriculture. * The T170 is available in a full truck application, no trailers are applicable. See TE1482. * This body is indicative types that utilize an aftermarket headache rack. In those cases the frame access package must be altered after the vehicle is delivered to accommodate the installation of a headache rack and retain compliance with FMCSR 399. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#
0096055	Automobile/marine carrier. * Auto or marine carrier trailer is for use in the following services: linehaul, local P&D, regional haul, wrecker, crane. * The T170 is available in a full truck application, no trailers are applicable. See TE1482. * Trailer types of doubles, triples, bottom dump or automobile carrier are for use with tractors only.	$0	0#
0096060	Reefer van. * Reefer van trailer type is for use in the following services: linehaul, local P&D, regional haul or agriculture. * The T170 is available in a full truck application, no trailers are applicable. See TE1482. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#
0096070	Tank. * Tank trailers should specify a commodity the is a liquid or some other type of bulk product. * Tanker trailer is for use in the following services: linehaul, local P&D, regional haul, mining service, oil field well service, fire truck, EMT/Rescue, construction or agriculture. * The T170 is available in a full truck application, no trailers are applicable. See TE1482. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#
0096075	OIL FIELD WELL SERVICE * For use with Oil Field Well Servicing 0093105 * Not for use with AG400L (3730028)	$0	0#

Stationary Application

0072000	Chassis operation will not include a stationary application. Stationary operation is defined as running the engine under load while stationary at a substantial fraction of engine gross horsepower (60% or greater) for an extended period of time (longer than 5 - 10 minutes). * Stationary application use codes are required when vehicle service or components are indicative applications requiring special cooling review. Vocations where stationary operation may exist include concrete pumper, oil well service, Coil Tubing Unit, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO.	$0	0#
0072001	Chassis operation will include stationary application used in lower 48 states [US only]. Stationary operation is defined as running the engine under load while stationary at a substantial fraction of engine gross horsepower (60% or greater) for an extended period of time (longer than 5 - 10 minutes). * Stationary application use codes are required when vehicle service or components are indicative applications requiring special cooling review. Vocations where stationary operation may exist include concrete pumper, oil well service, Coil Tubing Unit, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO.	$0	0#

	Stationary Application		
0072002	Chassis operation will include stationary application used in Canada or Alaska. Stationary operation is defined as running the engine under load while stationary at a substantial fraction of engine gross horsepower (60% or greater) for an extended period of time (longer than 5 - 10 minutes). * Stationary application use codes are required when vehicle service or components are indicative applications requiring special cooling review. Vocations where stationary operation may exist include concrete pumper, oil well service, Coil Tubing Unit, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO.	$0	0#
0072003	Chassis operation will include export stationary application. Stationary operation is defined as running the engine under load while stationary at a substantial fraction of engine gross horsepower (60% or greater) for an extended period of time (longer than 5 - 10 minutes). * Stationary application use codes are required when vehicle service or components are indicative applications requiring special cooling review. Vocations where stationary operation may exist include concrete pumper, oil well service, Coil Tubing Unit, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO.	$0	0#
	Model Series		
0070004	T170 Class 5: medium-duty Conventional. * T170 [Class 5 product] requires 9-7/8 inch rail material. * The S14-110 or S14-130 rear axle is required for use on the T170. * The T170 cannot be configured as a hybrid vehicle. * The T170 has a GVWR limit of 21,500 lbs for Class 6. * The T170 is a Class 5 vehicle and as such has a GVWR limit of 19,500 lbs. * The T170 is available in a full truck application, no trailers are applicable. See TE1482. * The T170 is available only with hydraulic brakes. This style of braking system utilizes pre-formed brake lines which limit wheelbases to 153, 176, 188, 206, 218, 236, or 245 inches. * The T170 is confined to road use of A, B, and less than 10% class C service. See TE1482. * The T170 is for use only with 13.5K version of the Reyco 79KB rear suspensions. * The T170 is suited for vocations of linehaul, pick-up and delivery, regional haul, wrecker, construction of crane/cherry picker service. Other vocations must be reviewed on a case by case basis. * The T170 requires a D800F front axle for use with hydraulic brakes. * The T170 requires a PACCAR PX-7 engine. * The T170 requires application review if class C road use exceed 4%. * The T170 with NAMUX dash has five [5] standard non-coded gauges are included with this dash: Engine coolant temperature, Electronic fuel level, Engine oil pressure, Voltmeter and DEF level are standard. The vehicle has room for 5 optional coded gauges. * This model is not applicable for use with a trailer.	$0	0#

Option	Description	Price	Weight
	Model Series		
0070005	T270 Class 6: medium-duty Conventional.	$0	0#
	* Available with 8,000 lb air braked front axle with 16,000 - 18,000 lb rear axle, or 10,000 air braked front axle with 16,000 lb rear axle. Available with 8,000 lb hydraulic braked front axle with 16,000 - 17,000 lb rear axle.		
	* Class 6 vehicles are not for use on class C roads over 10% or operation on more than 2% class D roads. Narratives can be added for OAR/T-Supt review if these conditions exist and are questionable.		
	* The T270 air brakes vehicle with NAMUX dash has seven [7] standard non-coded gauges are included with this dash: Engine coolant temperature, Electronic fuel level, Engine oil pressure, Voltmeter, two air pressure reservoirs and DEF level are standard. The vehicle has room for 3 optional coded gauges.		
	* The T270 hybrid vehicle with NAMUX dash has seven [7] standard non-coded gauges are included with this dash: Engine coolant temperature, Electronic fuel level, Engine oil pressure, Voltmeter, two air pressure reservoirs and DEF level are standard. Due to the NavPlus HD monitoring system the vehicle has room for 1 optional coded gauge.		
	* The T270 hydraulic braked vehicle with NAMUX dash has five [5] standard non-coded gauges are included with this dash: Engine coolant temperature, Electronic fuel level, Engine oil pressure, Voltmeter and DEF level are standard. The vehicle has room for 5 optional coded gauges.		
0070006	T370 Class 7: medium-duty Conventional.	$0	0#
	* Class 7 vehicles are not for use on class C roads over 10% or operation on more than 2% class D roads. Narratives can be added for OAR/T-supt review if these conditions exist and are questionable.		
	* The T370 air braked vehicle with NAMUX dash has seven [7] standard non-coded gauges are included with this dash: Engine coolant temperature, Electronic fuel level, Engine oil pressure, Voltmeter, two air pressure reservoirs and DEF level are standard. CARB Emission Reduction Feature

0080050	CARB Idle Emissions Reduction Feature for PX-7 and PX-9 * Anti-idle feature for PACCAR PX-7 and PX-9 engines. California and Georgia require an idle emissions reduction feature for trucks primarily intended for operation or registration within their borders. North Carolina requires an idle emissions reduction feature for trucks leased or registered within its borders. Other states may adopt similar requirements. This option includes a sticker affixed to the exterior of the driver's side door which indicates this vehicle complies with the restriction of 30 grams/hour Nox emissions. Use this sales code if your operating area dictates the necessity. * CARB Engine idle emissions reduction feature for PACCAR engines.	$100	0#
0080070	CARB Exempt Application Emergency Vehicle Only. * The exemption for CARB labeling can be added to fire truck or emergency service/rescue vehicles but must accompany a CARB feature code.	$0	0#
0080075	Dealer/Customer declines engine w/CARB Idle Emissions Reduction Feature.	$0	0#

PACCAR

PX-7

0120202	PACCAR PX-7 200 2017 200@2400 195@2600 520@1600 Includes turbo exhaust brake, no code is used. Diagnostic Plug for data link, Oil Cooler, Aluminum Flywheel Housing. * 2007+ engines utilize silicone coolant hoses wherever possible. This does not include all pre-formed pieces. There are no optional coolant hose materials available. * Front axles rated at 16K/18K/20K and over can be used with a PX-9 and ISC engines only. * Hybrids are limited to PX-7 engine ratings of 200/520, 260/660 and 325/750. * PACCAR does not allow PX-7 engines with GCW in excessive of 50K without special approval. * PACCAR recommends the cruise speed for 6 Liter engines be in the range of 2100-2400 rpm when used with an Allison transmission. * Rear axle ratios numerically lower than 4.10 are typically not recommended with manual transmissions on Medium-Duty models. * The PACCAR PX-7 and PX-9 engines are standard with an exhaust brake, no code is required. * The T170 requires a PACCAR PX-7 engine. * This engine is not for use in Fire or EMT service. Air Compressor

1002060	Air compressor: Cummins 18.7 CFM FOR Cummins AND PACCAR PX engines.	STD	0#
	* Air compressor for use with an air system with PACCAR PX-7 or PX-9 engines only. Not available on the T170.		
	* An air compressor is available with hydraulic brakes when the optional air accessory system is specified. Without accessory air the compressor must be deleted.		
1002065	Air compressor: Cummins 30.4 CFM ISL, PX-8, PX-9 replacing 18.7.	$1,768	30#
	* 30.4 CFM air compressor is not available with any of the following: Dual steering gears, Hydraulic brakes, ASO overspeed shutdown.		
	* Available only with PX-9 engines		
	* Body type refuse loader/packer requires use of a 30.4 CFM air compressor, or 8205021 large flip valve and piping to apply front and rear service brakes.		
	* Intended service of refuse packer requires use of a 30.4 CFM air compressor, or 8205021 Large flip valve and piping to apply front and rear service brakes.		
1006800	Delete air compressor for hydraulic brakes.	$0	0#
	* An air compressor is available with hydraulic brakes when the optional air accessory system is specified. Without accessory air the compressor must be deleted.		
	* For use with hydraulic brakes only.		
	* Only hydraulic brakes can be used on the T170 and there is no option for an accessory air system on this model. The air dryer and air compressor must be deleted.		

Option	Description	Price	Weight

Air Intake System

Air Cleaner

Firewall-Mounted

1031130	Air Cleaner: Dry-type firewall mounted w/filter restriction indicator.	STD	0#
	* This intake system is for Cummins or PACCAR engines.		

Air Intake Equipment

1098005	Filter minder air restriction indicator mounted on air cleaner replacing standard pop-up indicator.	$46	0#
1099300	Air inlet ember separator NFPA compliant for fire applications.	$197	8#
	* An ember separator is for use on fire trucks or emergency service vehicles only.		
	* With fire truck service an ember separator may be required to meet local or NFPA compliance.		
1099301	Pre-filter hood mounted for air cleaner & HVAC.	$210	13#
	* This option is not available on the T170 model.		
1600130	Overspeed shutdown for PX-8 PX-9 Includes manual switch and test switch. Currently not available on the T4 series	$4,195	0#
	* Engine overspeed shutdown for use on PX-9 engines.		
	* For vehicles operating in fuel rich environments an engine overspeed device is strongly recommended		

Cooling System

1121200	Cooling module: 1000 square inches T170/T270/T370/T470. Includes metal surge tank on T170/T270/T370.	STD	0#
	* 2010+ engines utilize the 1000 sq inch cooling modules.		
1121210	Cooling module: 1000 square inches. Clog resistant. Includes metal surge tank on T170/T270/T370.	$368	0#
	* 2010+ engines utilize the 1000 sq inch cooling modules.		
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found.		
	* Low clog radiators have reduced cooling capacity compared to a standard radiator. Chassis configuration may be subject to engineering review for cooling capacity.		

Cooling System Equipment

1105230	Fan Hub: Horton 2-Speed for ISL9, ISL-G, PX-8 or PX-9	$438	0#
1105231	Fan Hub: Horton On/Off for PX-9 or ISLG	$0	0#
	* Horton on/off fan hubs are available in Linehaul, Regional Haul and Pickup & Delivery intended services.		
1105260	Fan Hub: Horton 2-Speed for PX-7	$255	0#
1105261	Fan Hub: Horton On/Off for PX-7	STD	0#
	* Horton on/off fan hubs are available in Linehaul, Regional Haul and Pickup & Delivery intended services.		
1107060	Fan Hub: Borg Warner On/Off for PX-9 or ISLG	$25	0#
1107170	Fan Hub: Borg Warner On/Off for PX-7	$24	0#

Option	Description	Price	Weight
	Cooling System Equipment		
1160205	Bug screen: Front of grille on C500 ,T800, T880, and W900. Behind grille on T660, T680, and T300 (Medium Duty).	$207	2#
1160728	Lower radiator drain valve Okay for use w/2010+ engine cooling modules, other than 1780 square inches.	$15	0#
	* This drain valve is for use with 864 sq inch cooling modules with pre-2010 engines, or 950 sq inch cooling modules with export engines. 2010+ engine cooling modules are standard with a coolant drain plug.		
	Exhaust Systems		
1247137	EXH: HORIZONTAL UNDER RAIL DPF/SCR FOR PX-7 WITH HORIZONTAL TAILPIPE BELOW RH RAIL, BACK OF CAB, 2017 EPA.	STD	0#
	* 2017 emissions PX-7 engines on the T170 require a horizontal exhaust system with a RH DPF/SCR.		
	* Exhaust system for use with PACCAR PX-7 engines.		
	* Front drive axles are restricted from use with exhaust styles that do not have a DPF/SCR combined in right hand in the cab access assembly.		
	* Horizontal under rail exhaust cannot be used with a DEF tank on the right hand rail behind the cab.		
	* Horizontal under rail exhaust with a PX-7 or with a PX-9 with a 260-350 horsepower rating is not available with 22 inch by 100 gallon fuel tanks right hand back of cab.		
	* With horizontal under frame exhaust the minimum wheelbase is 159 inches for a T270/T370 single rear axle air braked configuration with 200-260 hp engine.		
	* With horizontal under frame exhaust the minimum wheelbase is 162 inches for a T270/T370 single rear axle air braked configuration with 280-360 hp engine.		
	* With horizontal under frame exhaust the minimum wheelbase is 184 inches for a T270/T370 52 inch spaced tandem rear axle air braked configuration with 200-260 hp engine.		
	* With horizontal under frame exhaust the minimum wheelbase is 185 inches for a T270/T370 54 inch spaced tandem rear axle air braked configuration with 200-260 hp engine.		
	* With horizontal under frame exhaust the minimum wheelbase is 187 inches for a T270/T370 52 inch spaced tandem rear axle air braked configuration with 280-360 hp engine.		
	* With horizontal under frame exhaust the minimum wheelbase is 188 inches for a T270/T370 54 inch spaced tandem rear axle air braked configuration with 280-360 hp engine.		
	* With horizontal under frame exhaust wheelbases of 153, 162, 176, 188, 206, 218, 236, 245, 254, 260, or 272 inches must be used for a T170 single rear axle hydraulic braked configuration.		
	* With horizontal under frame exhaust wheelbases of 162, 176, 188, 206, 218, 236, 245, 254, 260, or 272 inches must be used for a T270/T370 single rear axle hydraulic braked configuration.		
1247138	EXH: RH UNDER CAB DPF/SCR FOR PX-7 W/HORIZONTAL TAILPIPE, 2017 EPA	$1,948	0#
	* A DPF/SCR cover step assembly is required with this exhaust style. The step is located RH under the cab in all cases.		
	* Exhaust system for use with PACCAR PX-7 engines.		
	* Not available on model T170.		
	* Not available with RH BOC battery box.		
	* This exhaust is not available with either 22 inch by 56 gallon fuel tanks right hand back of cab or 45 gallon rectangular fuel tanks right hand back of cab except with a front drive axle or a right-hand DEF tank.		

Option	Description	Price	Weight

Exhaust Systems

1247142	EXH: HORIZONTAL SERIES DPF/SCR FOR PX-9 WITH HORIZONTAL TAILPIPE BELOW RH RAIL, 2017 EPA. * Exhaust system for use with PACCAR PX-9 engines. * Front drive axles are restricted from use with exhaust styles that do not have a DPF/SCR combined in right hand in the cab access assembly. * Horizontal under rail exhaust cannot be used with a DEF tank on the right hand rail behind the cab. * Horizontal under rail exhaust with a PX-7 or with a PX-9 with a 260-350 horsepower rating is not available with 22 inch by 100 gallon fuel tanks right hand back of cab. * With horizontal under frame exhaust the minimum wheelbase is 162 inches for a T270/T370 single rear axle air braked configuration with 260-350 hp engine. * With horizontal under frame exhaust the minimum wheelbase is 165 inches for a T270/T370 single rear axle air braked configuration with 370-450 hp engine. * With horizontal under frame exhaust the minimum wheelbase is 187 inches for a T270/T370 52 inch spaced tandem rear axle air braked configuration with 260-350 hp engine. * With horizontal under frame exhaust the minimum wheelbase is 188 inches for a T270/T370 54 inch spaced tandem rear axle air braked configuration with 260-350 hp engine. * With horizontal under frame exhaust the minimum wheelbase is 190 inches for a T270/T370 52 inch spaced tandem rear axle air braked configuration with 370-450 hp engine. * With horizontal under frame exhaust the minimum wheelbase is 191 inches for a T270/T370 54 inch spaced tandem rear axle air braked configuration with 370-450 hp engine. * With horizontal under frame exhaust wheelbases of 162 (with 260-350 hp engine only), 176, 188, 206, 218, 236, 245, 254, 260, or 272 inches must be used for a T270/T370 single rear axle hydraulic braked configuration.	$0	2#
1247147	EXH: RH UNDER CAB DPF/SCR FOR PX-9 WITH SINGLE HORIZONTAL TAILPIPE, 2017 EPA. * A DPF/SCR cover step assembly is required with this exhaust style. The step is located RH under the cab in all cases. * Exhaust system for use with PACCAR PX-9 engines. * Not available with RH BOC battery box. * This exhaust is not available with either 22 inch by 56 gallon fuel tanks right hand back of cab or 45 gallon rectangular fuel tanks right hand back of cab except with a front drive axle or a right-hand DEF tank.	$2,503	170#
1247193	EXH: RH UNDER CAB DPF/SCR FOR PX-7 WITH SINGLE VERTICAL RH SIDE OF CAB TAILPIPE, 2017 EPA * A DPF/SCR cover step assembly is required with this exhaust style. The step is located RH under the cab in all cases. * Exhaust system for use with PACCAR PX-7 engines. * Not available on model T170.	$2,573	220#
1247194	EXH: RH UNDER CAB DPF/SCR FOR PX-9 WITH SINGLE VERTICAL RH SIDE OF CAB TAILPIPE, 2017 EPA * A DPF/SCR cover step assembly is required with this exhaust style. The step is located RH under the cab in all cases. * Exhaust system for use with PACCAR PX-9 engines.	$2,406	215#

Option	Description	Price	Weight

Exhaust Systems

Export Exhaust Systems

1201308	Exhaust: single cab side-mount RH side export only vertical muffler & tailpipe. * Aerodynamic mirrors are not for use with this exhaust system. * NFPA compliance requires NFPA grab handles. There is an interference issue with side of cab exhaust. When this exhaust is specified the body builder is required to add compliant handles. * Non-Catalytic converter exhaust systems are used only for export operating areas. * Side of cab exhaust requires a 22 inch diameter x 56 gallon tank when a fuel tank is located under the cab on the same side. * Single side of cab exhaust for export engines only requires the use of a muffler shield. * The single side of cab exhaust with vertical RH tailpipe is for use only with round 22 inch x 56 gallon fuel tank RH under the cab. * This exhaust style routing may interfere with some body installations.	$527	6#
1241317	Exhaust: horizontal w/vertical pipe RH cab side export. * Non-Catalytic converter exhaust systems are used only for export operating areas. * Side of cab exhaust requires a 22 inch diameter x 56 gallon tank when a fuel tank is located under the cab on the same side.	$631	6#
1241328	Exhaust: horizontal w/vertical pipe BOC cab export. * Non-Catalytic converter exhaust systems are used only for export operating areas.	$785	6#

Exhaust Accessories

Single Tailpipes

1290124	Tailpipe: 5 in. single 24 in. 45 degree curved. * Single five or seven inch diameter vertical tailpipes are for use with RH DPF/SCR exhaust and side of cab mounted tailpipe positions.	($33)	-2#
1290130	Tailpipe: 5 in. single 30 in. 45 degree curved. * Single five or seven inch diameter vertical tailpipes are for use with RH DPF/SCR exhaust and side of cab mounted tailpipe positions.	$0	0#
1290136	Tailpipe: 5 in. single 36 in. 45 degree curved. * Single five or seven inch diameter vertical tailpipes are for use with RH DPF/SCR exhaust and side of cab mounted tailpipe positions.	$21	1#
1290142	Tailpipe: 5 in. single 42 in. 45 degree curved. For use with any Exhaust other than SCR Independent. * Single five or seven inch diameter vertical tailpipes are for use with RH DPF/SCR exhaust and side of cab mounted tailpipe positions.	$42	3#
1290148	Tailpipe: 5 in. single 48 in. 45 degree curved. For use with any Exhaust other than SCR Independent. * Single five or seven inch diameter vertical tailpipes are for use with RH DPF/SCR exhaust and side of cab mounted tailpipe positions.	$63	5#
1290154	Tailpipe: 5 in. single 54 in. 45 degree curved. For use with any Exhaust other than SCR Independent. * Single five or seven inch diameter vertical tailpipes are for use with RH DPF/SCR exhaust and side of cab mounted tailpipe positions.	$83	7#
1290160	Tailpipe: 5 in. single 60 in. 45 degree curved. For use with any Exhaust other than SCR Independent. * Single five or seven inch diameter vertical tailpipes are for use with RH DPF/SCR exhaust and side of cab mounted tailpipe positions.	$117	8#

	Exhaust Accessories		
	Single Tailpipes		
1290336	Tailpipe: 7 in. single 36 in. 45 degree curved.	$174	5#
	* Single five or seven inch diameter vertical tailpipes are for use with RH DPF/SCR exhaust and side of cab mounted tailpipe positions.		
1290342	Tailpipe: 7 in. single 42 in. 45 degree curved. For use with any Exhaust other than SCR Independent.	$198	8#
	* Single five or seven inch diameter vertical tailpipes are for use with RH DPF/SCR exhaust and side of cab mounted tailpipe positions.		
1290348	Tailpipe: 7 in. single 48 in. 45 degree curved. For use with any Exhaust other than SCR Independent.	$224	10#
	* Single five or seven inch diameter vertical tailpipes are for use with RH DPF/SCR exhaust and side of cab mounted tailpipe positions.		
1290354	Tailpipe: 7 in. single 54 in. 45 degree curved. For use with any Exhaust other than SCR Independent.	$246	12#
	* Single five or seven inch diameter vertical tailpipes are for use with RH DPF/SCR exhaust and side of cab mounted tailpipe positions.		
1290360	Tailpipe: 7 in. single 60 in. 45 degree curved. For use with any Exhaust other than SCR Independent.	$265	15#
	* Single five or seven inch diameter vertical tailpipes are for use with RH DPF/SCR exhaust and side of cab mounted tailpipe positions.		
1290524	Tailpipe: 5 in. single 24 in. 45 degree curved.	($5)	-2#
	* Single five inch diameter vertical tailpipes are for use with DPF/SCR back of cab independent mounted tailpipe positions.		
1290530	Tailpipe: 5 in. single 30 in. 45 degree curved.	$29	-1#
	* Single five inch diameter vertical tailpipes are for use with DPF/SCR back of cab independent mounted tailpipe positions.		
1290536	Tailpipe: 5 in. single 36 in. 45 degree curved. For use with SCR Independent Exhaust.	$50	1#
	* Single five inch diameter vertical tailpipes are for use with DPF/SCR back of cab independent mounted tailpipe positions.		
1291736	Tailpipe: single 36 in. curved vertical polished.	$31	0#
	* Tailpipes for use with export engine style exhaust systems.		
	Miscellaneous		
1000039	Catalytic converter muffler not installed.	$0	0#
	* Catalytic converter is not for use in Export areas.		
1291321	Export muffler shield: full length perforated single stainless steel.	$230	2#
	* Muffler shield for use with export engine only. 2007+ engines utilize exhausts styles that include a shield when applicable.		
	Filters		
	Fuel-Water Separator		
1321109	Fuel Filter:PACCAR Standard Service Interval Fuel/Water Separator. 2017 Emissions	STD	0#
1321125	Fuel Filter:Davco 382 Fuel/Water Separator	$324	8#
1321145	Fuel Filter:Fleetguard FS1003 Fuel/Water Separator for PX-9	$0	0#

Option	Description	Price	Weight

Filters

Fuel-Water Separator

1321200	Run Aid:None *For Fuel Filter	STD	0#
1321205	Run Aid:Fuel Heat *For Fuel Filter	$0	0#
1321225	Run Aid:Coolant Heat *For Fuel Filter	$174	1#

1321305	Start Aid:12V Heat *For Fuel Filter	$60	1#
1321320	Start Aid:120V Heat *For Fuel Filter	$156	1#
1323003	Fuel filter PACCAR PX-7 engines and Cummins ISB Euro Engines, Unheated.	$0	0#
1323004	Fuel filter W/12V Heat PACCAR PX-7 engines and Cummins ISB Euro Engines	$54	2#
1323109	Fleetguard filter/Water separator FS1003 w/WIF (water in fuel) sensor. For PACCAR PX-8/PX-9 or Cummins ISL engines. * Fuel/water separator for use with PACCAR PX-9 engine.	$0	0#
1323119	Fleetguard Filter/Water separator FS1003 12V Heat w/WIF (water in fuel) sensor. * Fuel/water separator for use with PACCAR PX-9 engine.	$118	0#

Heating & Starting Aids

Block Heater

1504006	Block heater, PACCAR 1750 watt 120V for PX-6 and PX-7, 1000 watt for PX-8 and PX-9 or ISL9 engines . * Engine block heater for Medium-Duty PACCAR engines. 120 volt /750 watt heater on PX-7 and 120 volt /1000 watt heater on PX-9. Not available on the T170.	$109	2#

In-tank Fuel Heater

1509058	Fuel tank heater: single Arctic Fox w/thermostat.	$415	6#

Heater Accessories

1500035	Engine block heater plug mounted LH fender bracket. * The combination of the narrow under cab battery box (6404411) and an engine block heater requires the engine block heater receptacle to be mounted to the left hand fender (1500035).	$22	0#

Governors & Controls

1405074	Ambient temperature sensor for idle shutdown for use with Cummins ISM, ISX12, X15, and PACCAR PX engines.	$0	0#

Engine Equipment Miscellaneous

1000170	Enable engine regeneration in PTO mode Cummins	$0	0#
1000242	Gearing Analysis: Fuel Economy fuel efficiency results.	$0	0#
1000243	Gearing Analysis: Performance power before economy results.	$0	0#
1000244	Gearing Analysis: Balance power/economy blend results.	$0	0#

1000257	Customer's Typical Operating Spd: 70 mph.	$0	0#
1000275	Customer's Typical Operating Spd: 75 MPH	$0	0#
1000306	T300: 4x2 truck w/hydraulic brakes. * Hydraulic braked chassis utilize preformed steel brake lines are limited in wheelbase options to 153, 162, 176, 188, 206, 218, 236, 245, 254, 260 or 272 inches. * No PTOs from the factory are available with hydraulic brakes.	$0	0#
1000307	Accessory air system T300 4 x 2 hydraulic brakes. Includes an air system pressure gauge. * An accessory air system along with an air dryer are required when an air rear suspension is used on hydraulic braked chassis. * For use with hydraulic brakes only. * This option provides an air system to run air controlled options such as air horns or air seats on hydraulic brakes vehicles. Accessory air is not for use on the T170. * When optional air accessory system is specified an air compressor is required.	$1,525	0#
1600713	Oil pressure sender for pump panel gauge VDO 360-009.	$52	0#
1900082	Multi-function engine connector for body builder interface for Cummins. * Hybrid vehicles cannot be used with remote throttle controls or the multi-function body builder engine connector. * Remote throttle is applicable to full trucks, not tractors. Requires a multi-function engine connector.	$38	0#
1900976	Body Builder Control Harness coiled EOF for customer installed remote throttle and remote PTO controls. Harness includes Remote PTO control and Remote Throttle controls. T680/T880 models do not require 12-way engine connector sales codes. All other models require (1900082 or 1900084). * Hybrid vehicles cannot be used with remote throttle controls or the multi-function body builder engine connector. * Remote throttle can be used with an Allison transmission only when auto neutral functionality or a split shaft PTO are specified. * This option is not available on the T170 model.	$71	2#
1901008	Body Builder Connector 500mm Back of Cab Requires 1900082 * Body builder connector code 1901008 is only available with Allison transmissions. * This body builder connector requires 1900082.	$225	0#
1901084	Body Builder Battery Power Prewire	$81	2#

Option	Description	Price	Weight

Retarders

1700149	Retarder Jacobs for PX-8/9 ISL w/ 3-way switch.. Replaces the standard turbo brake for PX-8 engines. * The PX-9 engines are standard with an exhaust brake. When the optional PX-9 compression brake is selected the exhaust brake is removed from the turbo. * This compression brake is available for the PACCAR PX-9 engine. The engine brakes requires an accessory air system when specified on hydraulic braked chassis.	$2,103	57#
1700364	Pacbrake for Cummins ISC. Export engines only. * Optional engine brake for use with ISC export engines only. Requires accessory air on hydraulic braked chassis.	$1,060	15#

Starting & Recharging

Alternator

1812162	Alternator: 160 amp brushless with battery voltage sense. *This code replaced 1812160.	$201	9#
1812451	Alternator: Delco 40SI 320 amp Brushless with battery voltage sense	$1,027	14#
1816160	Alternator: 160 amp brush type T3	($52)	0#
1816200	Alternator: Bosch 200 amp, brush type	$133	0#
1816260	Alternator: PACCAR 160 amp, brush type	STD	0#

Battery

1821210	Batteries: 3 PACCAR GP31 threaded post (700) 2100 CCA dual purpose.	$134	57#
1821215	Batteries: 4 PACCAR GP31 threaded post (700) 2800 CCA dual purpose. * Selection of four batteries requires either the standard T3 left-hand under cab battery box or the BOC cantilever battery box.	$347	114#
1821220	Batteries: 2 PACCAR GP31 threaded post (700) 1400 CCA dual purpose. * The use of two batteries only in cold weather climates may result in insufficient starting power for some truck applications over time. Consider selecting three batteries.	STD	0#
1821225	Batteries: 2 PACCAR GP31 threaded post (1000) 2000 CCA starting. * The use of two batteries only in cold weather climates may result in insufficient starting power for some truck applications over time. Consider selecting three batteries. * This option is not available on the T170 model.	$18	4#
1825006	Batt: 4 Odyssey GP 31 AGM threaded post (1150) 4600 CCA * Selection of four batteries requires either the standard T3 left-hand under cab battery box or the BOC cantilever battery box.	$1,467	188#
1825612	Batteries: 2 Optima 31A Threaded post (900) 1800 CCA. * Hybrid vehicles must use AGM or Optima batteries. * Optima batteries are required with in-cab battery box or hybrid chassis when AGM style is not specified. They are not available for other configurations. * The use of two batteries only in cold weather climates may result in insufficient starting power for some truck applications over time. Consider selecting three batteries.	$598	6#
1825623	Batteries: 3 Optima 31A Threaded post (900) 2700 CCA. * Optima batteries are required with in-cab battery box. They are not available for other configurations.	$1,001	66#

Option	Description	Price	Weight

Starting & Recharging

Battery Equipment

1840005	Battery disconnect switches 2, mounted on battery box. * Not available with standard air dryer location back of battery box. * Only available with the standard left hand under cab battery box (6404406) or back of cab cantilever battery box (6400636).	$332	2#
1840006	Battery disconnect switches 2, mounted in cab Requires battery box LH under. * Battery disconnect switches located on the driver's side cab floor require that the battery box be located LH under the cab due to proximity. The temporary across rails installation is also acceptable on class 7. * Battery disconnect switches on the cab floor are available only with an under cab battery box on the LH rail.	$391	0#
1840066	Cab Power Cutoff SW on Cab Floor NFPA Compliant - Engine Shut off	$185	2#
1900996	Jump start terminals under hood.	$179	0#
1901005	Jump start terminals frame mounted BOC below top of frame flange. * The minimum wheelbase with hybrid transmission and jumpstart terminals rail mounted behind the cab is 186 inches. * This option is not available on the T170 model.	$195	0#

Starter

1836100	Starter: PACCAR 12 volt electrical system. W/ centralized power distribution incorporating plug-in style relays. Circuit protection for serviceability, 12-volt light system w/circuit protection circuits number & color coded.	STD	0#

Option	Description	Price	Weight

Eaton

6-Speed

2050121	Transmission: Eaton Fuller FS5406A 6-spd synchro. *Torque Limit: 560 pound-feet.	STD	0#
	* A transmission oil temperature gauge is not available with Eaton Fuller FS, UltraShift, Hybrid or Allison 1000/2000 series transmissions. * The T170 is available only with an Allison 1000/2100/2200 series automatic or FS5406/FS6406 manual transmission. * This transmission is available with a maximum engine torque of 560 ft lbs.		
2050406	Transmission: Eaton FO-5406B-DM3 UltraShift *Torque Limit: 560 pound-feet.	$4,173	33#
	* A transmission oil temperature gauge is not available with Eaton Fuller FS, UltraShift, Hybrid or Allison 1000/2000 series transmissions. * Front drive axles are not available with an Eaton UltraShift transmission, an Allison 6-speed transmission, or on hybrid vehicles. * Not available with greater than 260hp. * Regardless of input torque capacity this transmission is for use only with PX-7 engines. GCW/GVWR cannot exceed 33,000 lbs. No class D road use will be approved. Export chassis require review for any engine applicable to export operating areas. * The class 5/6/7 UltraShift Plus transmissions are approved for use in services of: linehaul, P&D, and regional haul services only. * The T170 is available only with an Allison 1000/2100/2200 series automatic or FS5406/FS6406 manual transmission. * This transmission is available with a maximum engine torque of 560 ft lbs. * UltraShift Transmissions are not available with PX-7 rated over 260 HP. * UltraShift transmissions require the Kenworth Driver Information Center.		
2051121	Transmission: Fuller FSO6406A 6-speed synchro. *Torque Limit: 660 pound-feet.	$870	0#
	* A transmission oil temperature gauge is not available with Eaton Fuller FS, UltraShift, Hybrid or Allison 1000/2000 series transmissions. * Engines that exceed 2100 rpm may require an additional driveline centerbearing when used with an overdrive transmission. Request a driveline review prior to quoting this combination to your customer. * Overdrive transmissions require a minimum wheelbase of 141 inches. * The T170 is available only with an Allison 1000/2100/2200 series automatic or FS5406/FS6406 manual transmission. * This transmission is available with a maximum engine torque of 660 ft lbs.		
2051122	Transmission: Fuller FSO8406A 6-speed synchro. *Torque Limit: 860 pound-feet.	$1,527	0#
	* A transmission oil temperature gauge is not available with Eaton Fuller FS, UltraShift, Hybrid or Allison 1000/2000 series transmissions. * Engines that exceed 2100 rpm may require an additional driveline centerbearing when used with an overdrive transmission. Request a driveline review prior to quoting this combination to your customer. * Overdrive transmissions require a minimum wheelbase of 141 inches. * This transmission is available with a maximum engine torque of 860 ft lbs.		
2051123	Transmission: Fuller FS6406A 6-speed synchro. *Torque Limit: 660 pound-feet.	$772	0#
	* A transmission oil temperature gauge is not available with Eaton Fuller FS, UltraShift, Hybrid or Allison 1000/2000 series transmissions. * The T170 is available only with an Allison 1000/2100/2200 series automatic or FS5406/FS6406 manual transmission. * This transmission is available with a maximum engine torque of 660 ft lbs.		

Option	Description	Price	Weight

Eaton

6-Speed

2051137	Transmissions:Eaton Ultrashift FO-6406B-DM3 6-spd *Torque Limit: 660 pound-feet.	$5,665	0#

* Front drive axles are not available with an Eaton UltraShift transmission, an Allison 6-speed transmission, or on hybrid vehicles.
* Not available with greater than 260hp.
* Regardless of input torque capacity this transmission is for use only with PX-7 engines. GCW/GVWR cannot exceed 33,000 lbs. No class D road use will be approved. Export chassis require review for any engine applicable to export operating areas.
* The class 5/6/7 UltraShift Plus transmissions are approved for use in services of: linehaul, P&D, and regional haul services only.
* The T170 is available only with an Allison 1000/2100/2200 series automatic or FS5406/FS6406 manual transmission.
* This transmission is available with a maximum engine torque of 660 ft lbs.
* UltraShift Transmissions are not available with PX-7 rated over 260 HP.
* UltraShift transmissions require the Kenworth Driver Information Center.

9-Speed

2051302	Transmission: Fuller RT8709B 9-speed. *Torque Limit: 860 pound-feet.	$1,305	182#

* This transmission requires an accessory air system when specified on a hydraulic braked chassis.

10-Speed

2051362	Transmission: Fuller RT8908LL 10-speed. *Torque Limit: 860 pound-feet.	$2,740	291#

* Hydraulic brakes not for use with RT8908LL transmission.
* This transmission is available with a maximum engine torque of 860 ft lbs.

2052360	Transmission: Fuller FR9210B 10-speed. *Torque Limit: 950 pound-feet.	$1,742	191#

* Exhaust systems for the PX-7 engine interfere with Concept 2000 [FR/FRO series] transmissions.
* This transmission is available with a maximum engine torque of 950 ft lbs.
* This transmission requires an accessory air system when specified on a hydraulic braked chassis.

2057360	Transmission: Fuller FRO14210C 10-speed Standard with synthetic lubricant. Includes severe-duty pilot bearing on all class 8 models. *Torque Limit: 1450 pound-feet.	$2,995	0#

* Engines that exceed 2100 rpm may require an additional driveline centerbearing when used with an overdrive transmission. Request a driveline review prior to quoting this combination to your customer.
* Exhaust systems for the PX-7 engine interfere with Concept 2000 [FR/FRO series] transmissions.
* Overdrive transmissions require a minimum wheelbase of 141 inches.
* This transmission requires an accessory air system when specified on a hydraulic braked chassis.

2057371	Transmission: Fuller RTO14908LL 10-speed. Standard with synthetic lubricant. Includes severe-duty pilot bearing on all class 8 models. *Torque Limit: 1450 pound-feet.	$4,327	0#

* Engines that exceed 2100 rpm may require an additional driveline centerbearing when used with an overdrive transmission. Request a driveline review prior to quoting this combination to your customer.

Option	Description	Price	Weight

Allison

5-Speed

2010210	Transmission: Allison 1000HS 5-speed w/o PTO drive gear. 5th Generation controls. Includes heat exchanger. Highway Service only as defined by Allison. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison 1000 series transmissions are for use only on the T170 model. * Allison 1000 series transmissions require SPL100 series drivelines. * Allison 1000 transmissions are not available with engine torque in excess of 660 ft lbs. * The Allison 1000HS transmission is available only with vocations of linehaul, pick-up and delivery, or regional haul. * The T170 is available only with an Allison 1000/2100/2200 series automatic or FS5406/FS6406 manual transmission. * This transmission cannot be used with a pre-2010 enmission engine with a torque rating greater than 575 ft.lbs.	$5,153	8#
2010220	Transmission: Allison 1000RDS 5-speed w/PTO drive gear. 5th Gen controls. Includes heat exchanger. Rugged Duty Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison 1000 series transmissions are for use only on the T170 model. * Allison 1000 series transmissions require SPL100 series drivelines. * Allison 1000 transmissions are not available with engine torque in excess of 660 ft lbs. * The T170 is available only with an Allison 1000/2100/2200 series automatic or FS5406/FS6406 manual transmission. * This transmission cannot be used with a pre-2010 enmission engine with a torque rating greater than 575 ft.lbs.	$5,303	48#
2010822	Transmission: Allison 2100HS 5-speed w/o PTO drive gear. 5th Gen controls. Includes heat exchanger. Highway Service only as defined by Allison. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison 2000 series transmissions are not for use with PX-9 engines. * Allison 2000HS transmissions are for use in linehaul, pick-up and delivery, or regional haul services only. For other applications including those that may require a provision for a PTO consider the 2100/2200RDS. * Refuse Hauler, refuse packer, oil field well servicing, loggers and mixers are prohibited with the HS transmission. Class C or D road service is restricted to 4% maximum. * The minimum wheelbase for hydraulic braked vehicles using this transmission is 141 inches. For air braked chassis 150 inches is the minimum. * The T170 is available only with an Allison 1000/2100/2200 series automatic or FS5406/FS6406 manual transmission. * There is no PTO provision available for this transmission. If an aftermarket PTO will be used then an RDS series transmission is the only option. * This transmission cannot be used with a pre-2010 enmission engine with a torque rating greater than 575 ft.lbs. * This transmission has a GCW limitation of 26K. * This transmission is available with a maximum engine torque of 660 ft lbs.	$5,720	8#

Allison

5-Speed

2011203	Transmission: Allison 3000RDS 5-speed w/PTO drive gear. 5th Gen Controls. Includes heat exchanger & oil level sensor. Rugged Duty Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. Requires a push button shift control code. Oil temperature gauge is standard on class 8 models. * 5-speed Allison transmissions are suited primarily for use on single drive axle trucks where GVWR does not exceed 40K. In other applications startability will be improved using a 6-speed transmission which allows deeper rear axle gearing. Contact Application Engineering for more information. * Allison 3000 series transmissions used in off-road conditions require wheel slip which cannot be met with a rear axle ratio faster [numerically lower] than 5.91. * The right hand mounted 10 bolt PTO position is obscured by DPF pipe routing with the PX-7 engine. * This transmission is not available for use in fire or EMT/rescue service.	$11,495	291#
2011228	Transmission: Allison 3500RDS 5-speed w/PTO drive gear. Limited to 860 lb.-ft. 5th Gen controls. Includes heat exchanger & oil level sensor. Rugged Duty Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * 5-speed Allison transmissions are suited primarily for use on single drive axle trucks where GVWR does not exceed 40K. In other applications startability will be improved using a 6-speed transmission which allows deeper rear axle gearing. Contact Application Engineering for more information. * The right hand mounted 10 bolt PTO position is obscured by DPF pipe routing with the PX-7 engine. * This transmission is not available for use in fire or EMT/rescue service.	$11,427	291#
2012193	Transmission: Allison 3000EVS 5-speed w/PTO drive gear. 5th Gen controls. Includes heat exchanger & oil level sensor. Emergency Vehicle Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * 5-speed Allison transmissions are suited primarily for use on single drive axle trucks where GVWR does not exceed 40K. In other applications startability will be improved using a 6-speed transmission which allows deeper rear axle gearing. Contact Application Engineering for more information. * Allison 3000EVS transmission available only with fire or EMT/rescue service. * EVS transmissions require auto neutral since they are only for use on emergency service vehicles. * The right hand mounted 10 bolt PTO position is obscured by DPF pipe routing with the PX-7 engine.	$13,724	291#

6-Speed

2010823	Transmission: Allison 2100HS 6-speed w/o PTO drive gear. 5th Gen controls. Includes heat exchanger. Highway Service only as defined by Allison. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions.	$5,720	0#
2010831	Transmission: Allison 2500HS 6-speed w/o PTO drive gear. 5th Gen controls. Includes heat exchanger. Highway Service only as defined by Allison. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions.	$5,838	0#
2010852	Transmission: Allison 2100RDS 6-speed w/PTO drive gear. 5th Gen Controls. Includes heat exchanger. Rugged Duty Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions.	$6,069	0#
2010860	Transmission: Allison 2500RDS 6-speed w/PTO drive gear. 5th Gen controls. Includes heat exchanger. Rugged Duty Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions.	$6,188	0#

Option	Description	Price	Weight

Allison

6-Speed

2011194	Transmission: Allison 3000HS 6-speed w/o PTO drive gear. 5th Gen controls. Includes heat exchanger & oil level sensor. Highway Service only as defined by Allison. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison 3000 series transmissions used in off-road conditions require wheel slip which cannot be met with a rear axle ratio faster [numerically lower] than 5.91. * Allison 3000HS transmissions are for use in linehaul, pick-up and delivery, or regional haul services only. For other applications including those that may require a provision for a PTO consider the 3000RDS. * Allison 6-speed transmissions used on hydraulic braked vehicles with wheelbases in excess of 205 inches require a two centerbearing driveline configuration. * In some instances when a 6-speed Allison transmission is specified an upgraded driveline is required. Contact Application Engineering to verify which driveline is required for specific chassis. * There is no PTO provision available for this transmission. If an aftermarket PTO will be used then an RDS series transmission is the only option. * This transmission is not available for use in fire or EMT/rescue service.	$10,167	244#
2011205	Transmission: Allison 3000RDS 6-speed w/PTO drive gear. 5th Gen controls. Includes heat exchanger & oil level sensor. Rugged Duty Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. Requires a push button shift control code. Oil temperature gauge is standard on class 8 models. * Allison 3000 series transmissions used in off-road conditions require wheel slip which cannot be met with a rear axle ratio faster [numerically lower] than 5.91. * Allison 6-speed transmissions used on hydraulic braked vehicles with wheelbases in excess of 205 inches require a two centerbearing driveline configuration. * Front drive axles are not available with an Eaton UltraShift transmission, an Allison 6-speed transmission, or on hybrid vehicles. * In some instances when a 6-speed Allison transmission is specified an upgraded driveline is required. Contact Application Engineering to verify which driveline is required for specific chassis. * The right hand mounted 10 bolt PTO position is obscured by DPF pipe routing with the PX-7 engine. * This transmission is not available for use in fire or EMT/rescue service.	$11,495	291#
2011232	Transmission: Allison 3500RDS 6-speed w/PTO drive gear. 5th Gen Controls. Limited to 860 lb.-ft. Includes heat exchanger & oil level sensor. Rugged Duty Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison 6-speed transmissions used on hydraulic braked vehicles with wheelbases in excess of 205 inches require a two centerbearing driveline configuration. * Front drive axles are not available with an Eaton UltraShift transmission, an Allison 6-speed transmission, or on hybrid vehicles. * In some instances when a 6-speed Allison transmission is specified an upgraded driveline is required. Contact Application Engineering to verify which driveline is required for specific chassis. * The right hand mounted 10 bolt PTO position is obscured by DPF pipe routing with the PX-7 engine. * This transmission is not available for use in fire or EMT/rescue service.	$11,427	291#
2012195	Transmission: Allison 3000EVS 6-speed w/PTO drive gear. 5th Gen controls. Includes heat exchanger & oil level sensor. Emergency Vehicle Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison 3000EVS transmission available only with fire or EMT/rescue service. * EVS transmissions require auto neutral since they are only for use on emergency service vehicles. * Front drive axles are not available with an Eaton UltraShift transmission, an Allison 6-speed transmission, or on hybrid vehicles. * The right hand mounted 10 bolt PTO position is obscured by DPF pipe routing with the PX-7 engine.	$13,588	291#

Allison

6-Speed

2012196	Transmission: Allison 3500EVS 6-speed w/PTO drive gear. 5th Gen controls. Includes heat exchanger & oil level sensor. Emergency Vehicle Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison 3000EVS transmission available only with fire or EMT/rescue service. * EVS transmissions require auto neutral since they are only for use on emergency service vehicles. * Front drive axles are not available with an Eaton UltraShift transmission, an Allison 6-speed transmission, or on hybrid vehicles. * The right hand mounted 10 bolt PTO position is obscured by DPF pipe routing with the PX-7 engine.	$13,880	291#

Transmission Equipment

2410047	High Capacity Input Shaft Bearing for High PTO Duty Cycle	$22	0#
2410072	Auto neutral not required this application. * With split-shaft PTO applications that specify an Allison transmission the auto neutral functionality is not normally required. In this instance there is an option to decline auto neutral, and a code which indicates that an aftermarket split shaft pto will be installed is required.	$0	0#
2410203	Allison FuelSense Base: Includes EcoCal, 5th Gen Controls, and Dynamic Shift Sensing	$0	0#
2410204	Delete Allison FuelSense	$0	0#
2410205	Allison FuelSense Plus: Includes EcoCal, 5th Gen Controls, Neutral at Stop, and Dynamic Shift Sensing. There is a cost associated with FuelSense Plus or Max on all Medium Duty with Allison 1000/2000 series.	$180	0#
2410206	Allison FuelSense Max: Base Economy, Features Acceleration Rate Management. There is a cost associated with FuelSense Plus or Max on all Medium Duty with Allison 1000/2000 series.	$180	0#
2410207	Allison FuelSense Max: High Economy, Features Acceleration Rate Management. There is a cost associated with FuelSense Plus or Max on all Medium Duty with Allison 1000/2000 series.	$180	0#
2410208	Allison FuelSense Max: Ultra Economy, Features Acceleration Rate Management. There is a cost associated with FuelSense Plus or Max on all Medium Duty with Allison 1000/2000 series.	$180	0#
2410244	J1939 Park Brake Auto Neutral	$0	0#
2429065	PTO interlock for parking brakes.	$116	2#

Transfer Case

2322238	FABCO TC-237 2-SPEED TRANSFER CASE W/O PTO, W/O NEUTRAL (873-1144-004). *Use with SPL140 Main Driveline. * Fabco Applications Approval required for all Transfer Case PTO Installations * Fabco transfer cases are limited to a maximum road speed of 72 MPH. * T3 with FABCO TC 237 is not available with Allison 6-speed transmission due to overspeed concerns, heat (no pump for a cooler) durability, driveline torsionals, vibration, ride complaints warranty, etc. * This transfer case is not available with 9 and 10 speed manual transmissions due to torque capacity. * Transfer case is required and only available with front drive axles. Includes two switches, one for front axle engage and the other to toggle between high and low gear operation. Includes a tell tale that denotes axle engage state which occupies one gauge spot. Warning message in Kenworth Driver Information Center will alert the operator when vehicle is traveling faster than 25 mph with the front axle engaged. * Transfer case occupies inside frame space from 36 - 52 inches behind the back of cab plane.	$14,905	503#

Option	Description	Price	Weight

Transfer Case

2322239	FABCO TC-237 2-SPEED TRANSFER CASE W/O PTO, W/O NEUTRAL (873-2144-004) *Use with SPL170 Main Driveline. * Fabco Applications Approval required for all Transfer Case PTO Installations * Fabco transfer cases are limited to a maximum road speed of 72 MPH. * T3 with FABCO TC 237 is not available with Allison 6-speed transmission due to overspeed concerns, heat (no pump for a cooler) durability, driveline torsionals, vibration, ride complaints warranty, etc. * This transfer case is not available with 9 and 10 speed manual transmissions due to torque capacity. * Transfer case is required and only available with front drive axles. Includes two switches, one for front axle engage and the other to toggle between high and low gear operation. Includes a tell tale that denotes axle engage state which occupies one gauge spot. Warning message in Kenworth Driver Information Center will alert the operator when vehicle is traveling faster than 25 mph with the front axle engaged. * Transfer case occupies inside frame space from 36 - 52 inches behind the back of cab plane.	$14,905	503#
2322247	Fabco TC-237 2-speed Transfer Case with PTO, and with neutral 873-0061-008. * Fabco Applications Approval required for all Transfer Case PTO Installations * Fabco transfer cases are limited to a maximum road speed of 72 MPH. * For chassis with Allison automatic transmissions, 4th gear lockup is required. Only RDS version of Allison transmissions is available with transfer case PTO and 4th gear lockup. * Requires PTO interlock for parking brake. For chassis coded for both TC-237 PTO and C/I PTO controls, all PTOs will be interlocked with parking brake. * T3 with FABCO TC 237 is not available with Allison 6-speed transmission due to overspeed concerns, heat (no pump for a cooler) durability, driveline torsionals, vibration, ride complaints warranty, etc. * This transfer case is not available with 9 and 10 speed manual transmissions due to torque capacity. * Transfer case is required and only available with front drive axles. Includes two switches, one for front axle engage and the other to toggle between high and low gear operation. Includes a tell tale that denotes axle engage state which occupies one gauge spot. Warning message in Kenworth Driver Information Center will alert the operator when vehicle is traveling faster than 25 mph with the front axle engaged. * Transfer case occupies inside frame space from 36 - 52 inches behind the back of cab plane.	$20,495	530#

Split-Shaft PTO

2410073	Customer-installed split shaft PTO Informational only, nothing additional is provided. * Not for use with a front drive axle. * Only to be used with Allison transmissions, this code indicates that an aftermarket split-shaft PTO will be installed.	$0	0#

Clutch

Manually Adjusting

2240001	Clutch: ceramic to 605 lb-ft 14 in. Fuller. Includes manual adjusting clutch cover, extended grease fitting for clutch bearing and cross shaft, and synthetic lubricant for the transmission. * Fuller 14 inch ceramic clutch for use when engine torque doesn't exceed 605 ft lbs.	STD	0#
2240012	Clutch: ceramic low inertia 606 to 860 lb-ft 14 in. Fuller required for export. Includes manual adjusting clutch cover, extended grease fitting for clutch bearing and cross shaft, and synthetic lubricant for the transmission. * Fuller 14 inch manual adjustment clutch for use when engine torque is in the range of 606 - 860 ft lbs.	$137	30#

Option	Description	Price	Weight
	Clutch		
	Manually Adjusting		
2240035	Clutch: Eaton Fuller 14in. medium-duty manual adjustment 606-1000. Includes manual adjusting clutch cover, extended grease fitting for clutch bearing and cross shaft, and synthetic lubricant for the transmission. * This clutch is for use with engine torque 606 - 1000 lbs..	$235	0#
2240202	Clutch: Eaton 14 in. Potted Easy Pedal Manual ADJ *Use with 1150 lb-ft engines only	$106	0#
2240210	Clutch: for UltraShift transmission. Includes manual adjusting clutch cover, extended grease fitting for clutch bearing and cross shaft, and synthetic lubricant for the transmission. * This clutch is required with and for use only with UltraShift transmissions.	$0	0#
	Solo		
2240023	Clutch: Fuller 14 in. solo severe 606 to 860 lb-ft. For severe service. Includes adjustment free clutch cover, extended grease fitting for clutch bearing and cross shaft, and synthetic lubricant for the transmission. * This clutch is limited to engine torque range of 620 - 860 ft lbs.	$388	30#
2240040	Clutch: Fuller 14 in. MD solo 606-1050 lb-ft. Includes adjustment free clutch cover, extended grease fitting for clutch bearing and cross shaft, and synthetic lubricant for the transmission.	$329	30#
	Miscellaneous		
2410018	Torque converter included w/Allison Transmission. * Allison transmissions require a torque converter, not a clutch.	$0	0#
	PTO		
2429358	Rear transmission support springs for transmission PTO applications are required to ensure that engine flywheel housings are not overloaded when transmission PTO's are installed. * Transmission support spring required with Allison 3000/3500-series transmissions with PTO provisions.	$71	0#
	Driveline		
2401205	Driveline:1 Dana standard-duty; no centerbearing. *Std duty is 1710 series.	STD	0#
2401405	Driveline: 2 Dana standard-duty; 1 centerbearing. *Std duty is 1710 series. * Allison 2000 series transmissions require 1710 series drivelines with the S21/23/26-170 or S21/23/26-190 series rear axles when a non-driving front axle is specified.	$643	77#
2401905	Driveline: 3 Dana standard-duty; 2 centerbearing. *Std duty is 1710 series. * Allison 2000 series transmissions require 1710 series drivelines with the S21/23/26-170 or S21/23/26-190 series rear axles when a non-driving front axle is specified.	$1,237	169#
2401915	Driveline: 4 Dana standard-duty 3 centerbearings *Std duty is 1710 series. * Allison 2000 series transmissions require 1710 series drivelines with the S21/23/26-170 or S21/23/26-190 series rear axles when a non-driving front axle is specified.	$1,689	273#
2406201	Driveline: 1 SPL100 w/o centerbearing T170 only. * This driveline series is unique to the T170 product. Shift Energy Management programming is required for all Allison transmission on the T170.	($145)	-17#
2406204	Driveline: 1 SPL170XL no centerbearing requires 3500057 interaxle driveline.	$256	-24#

Driveline

Option	Description	Price	Weight
2406419	Driveline: 2 Dana SPL100 1 centerbearing light duty. * Allison 2000 series transmissions are limited to the SPL100/140 series drivelines, except for when an S23-170/-190 rear axle is specified with a non-driving front axle. In this case a 1710 driveline must be used. * Available with any hydraulic brake configuration or with air brakes only when an Allison 2000 series transmission is specified. * Hydraulic braked trucks require an SPL100 or SPL140 series driveline to accommodate the parking brake configuration. * Insert is unavailable with SPL100 drivelines.	$303	27#
2406420	Driveline: 2 SPL100 1 centerbearing light duty T170 only. * Hydraulic braked trucks require an SPL100 or SPL140 series driveline to accommodate the parking brake configuration. * This driveline series is unique to the T170 product. Shift Energy Management programming is required for all Allison transmission on the T170.	$582	-24#
2406440	Driveline: 2 Dana SPL140 1 centerbearing. * Hydraulic braked trucks require an SPL100 or SPL140 series driveline to accommodate the parking brake configuration. * Not available with Meritor rear axles * This driveline is for use with hydraulic brakes only.	$762	44#
2406452	Driveline: 2 SPL170XL 1 centerbearing requires 3500057 interaxle driveline.	$758	70#
2406801	Driveline: 3 Dana SPL100 2 centerbearings light duty. * Allison 2000 series transmissions are limited to the SPL100/140 series drivelines, except for when an S23-170/-190 rear axle is specified with a non-driving front axle. In this case a 1710 driveline must be used. * Available with any hydraulic brake configuration or with air brakes only when an Allison 2000 series transmission is specified. * Hydraulic braked trucks require an SPL100 or SPL140 series driveline to accommodate the parking brake configuration. * Insert is unavailable with SPL100 drivelines.	$762	71#
2406802	Driveline: 3 SPL170XL 2 centerbearing requires 3500057 interaxle driveline.	$1,677	152#
2406804	Driveline: 4 Dana SPL100; 3 centerbearings light duty. * Allison 2000 series transmissions are limited to the SPL100/140 series drivelines, except for when an S23-170/-190 rear axle is specified with a non-driving front axle. In this case a 1710 driveline must be used. * Available with any hydraulic brake configuration or with air brakes only when an Allison 2000 series transmission is specified. * Hydraulic braked trucks require an SPL100 or SPL140 series driveline to accommodate the parking brake configuration. * Insert is unavailable with SPL100 drivelines.	$1,176	115#
2406811	Driveline: 3 Dana SPL100a 2 centerbearings light duty, T170 only. * Hydraulic braked trucks require an SPL100 or SPL140 series driveline to accommodate the parking brake configuration. * This driveline series is unique to the T170 product. Shift Energy Management programming is required for all Allison transmission on the T170.	$1,310	71#
2406820	Driveline: 4 SPL170XL 3 centerbearing requires 3500057 interaxle driveline.	$2,627	235#

Driveline

Option	Description	Price	Weight
2406840	Driveline: 3 SPL140 2 centerbearing.	$1,995	127#
	* Hydraulic braked trucks require an SPL100 or SPL140 series driveline to accommodate the parking brake configuration.		
	* Not available with Meritor rear axles		
	* This driveline is for use with hydraulic brakes only.		
2406860	Driveline:4 SPL140 For Transfer Case w/1 C/B	$658	243#
	* Front drive axle configurations using the Allison 2000 series transmission require SPL140 drivelines when rear axle is not in the S21/23/26 series.		
	* Front drive axles combined with an S21-170, S23-170, S23-190 or S26-190 rear axle are not available with this driveline.		
	* Not available with Meritor rear axles		
	* This driveline is required for use and only available with a transfer case in combination with a front drive axle only. A minimum of one centerbearing will be required in all cases.		
2406862	Driveline:3 Dana SPL140 F/ T/C w/1 C/B & 1 SPL170 to rear axle.	$556	258#
	* For 6x6 applications SPL140 forward and SPL170 rear drivelines are required.		
	* Front drive axle configurations using the Allison 2000 series transmission require SPL140 drivelines when rear axle is not in the S21/23/26 series.		
	* Front drive axle configurations using the Allison 2000 series transmissions require SPL140 series forward with SPL170 rear driveline with the S21/23/26-170 or S21/23/26-190 series rear axles.		
	* This driveline is required for use and only available with a transfer case in combination with a front drive axle only. A minimum of one centerbearing will be required in all cases.		
2406865	Driveline:5 SPL140 For Transfer Case w/2 C/B	$1,195	354#
	* Front drive axle configurations using the Allison 2000 series transmission require SPL140 drivelines when rear axle is not in the S21/23/26 series.		
	* Front drive axles combined with an S21-170, S23-170, S23-190 or S26-190 rear axle are not available with this driveline.		
	* Not available with Meritor rear axles		
	* This driveline is required for use and only available with a transfer case in combination with a front drive axle only. A minimum of one centerbearing will be required in all cases.		
2406867	Driveline:3 SPL140 for T/C w/1 C/B & 2 SPL170 with one centerbearing to rear axle.	$1,242	339#
	* For 6x6 applications SPL140 forward and SPL170 rear drivelines are required.		
	* Front drive axle configurations using the Allison 2000 series transmissions require SPL140 series forward with SPL170 rear driveline with the S21/23/26-170 or S21/23/26-190 series rear axles.		
	* This driveline is required for use and only available with a transfer case in combination with a front drive axle only. A minimum of one centerbearing will be required in all cases.		
2406870	Driveline:6SPL140 For Transfer Case w/3 C/B	$1,726	465#
	* Front drive axle configurations using the Allison 2000 series transmission require SPL140 drivelines when rear axle is not in the S21/23/26 series.		
	* Front drive axles combined with an S21-170, S23-170, S23-190 or S26-190 rear axle are not available with this driveline.		
	* Not available with Meritor rear axles		
	* This driveline is required for use and only available with a transfer case in combination with a front drive axle only. A minimum of one centerbearing will be required in all cases.		

Option	Description	Price	Weight

Driveline

2406872	Driveline:3 SPL140 for T/C w/1 C/B & 3 SPL170 with two centerbearing to rear axle. * For 6x6 applications SPL140 forward and SPL170 rear drivelines are required. * Front drive axle configurations using the Allison 2000 series transmissions require SPL140 series forward with SPL170 rear driveline with the S21/23/26-170 or S21/23/26-190 series rear axles. * This driveline is required for use and only available with a transfer case in combination with a front drive axle only. A minimum of one centerbearing will be required in all cases.	$1,818	510#

Driveline Equipment

2406005	45 degree yokes on interaxle drivelines.	$334	11#
3500037	Interaxle driveline:1 Dana 1710 Series	$363	0#
3500057	Interaxle driveline 1 Dana SPL170XL	$409	-4#

Centerbearing Crossmembers

2409916	One bolted centerbearing crossmember. This option upgrades an existing crossmember. The cost does not include the centerbearing and bracket. Crossmember location will be in accordance with Kenworth engineering standards, using the major components specified on the DTPO. * * Required with front axles 13K and greater. * Required with frame rail inserts. * Required with 10-3/4 inch frame rail. * Required with front drive axle. * Bolted crossmembers are only available and required with 13K and greater front axles, front drive axles, 10-3/4 inch rails, or inserted rails. These codes switch from the medium-duty welded crossmembers to heavy-duty style bolted crossmembers, and are not optional with other Medium-Duty configurations. * Required with front axles 13K and greater.	$70	11#
2409917	Two bolted centerbearing crossmembers. This option upgrades existing crossmembers. The cost does not include the centerbearing and bracket. Crossmember location will be in accordance with Kenworth engineering standards, using the major components specified on the DTPO. * * Required with front axles 13K and greater. * Required with frame rail inserts. * Required with 10-3/4 inch frame rail. * Required with front drive axle. * Bolted crossmembers are only available and required with 13K and greater front axles, front drive axles, 10-3/4 inch rails, or inserted rails. These codes switch from the medium-duty welded crossmembers to heavy-duty style bolted crossmembers, and are not optional with other Medium-Duty configurations. * Required with front axles 13K and greater.	$140	19#
2409918	Three bolted centerbearing crossmembers. This option upgrades existing crossmembers. The cost does not include the centerbearing and bracket. Crossmember location will be in accordance with Kenworth engineering standards, using the major components specified on the DTPO. * * Required with front axles 13K and greater. * Required with frame rail inserts. * Required with 10-3/4 inch frame rail. * Required with front drive axle. * Bolted crossmembers are only available and required with 13K and greater front axles, front drive axles, 10-3/4 inch rails, or inserted rails. These codes switch from the medium-duty welded crossmembers to heavy-duty style bolted crossmembers, and are not optional with other Medium-Duty configurations. * Required with front axles 13K and greater.	$210	19#

Option	Description	Price	Weight

Front Axles

2513013 MERITOR MFS14 14.6K Rated @ 14K 3 1/2 in. DROP STD TRACK — $419 — 68#

* 14600 lb rated steering gear for use on T270/T370 with air brakes and an E-1462I, MFS14, FSD-13A, FSD-14A front axle.
* Air Braked 13.2k or 14.6k front axles require the 14.6k air braked hub package.
* Front axles with capacity of 13.2K or greater require 10-5/8 or 10-3/4 inch frame rail material.
* Not available with 385 front tires.
* Requires bolted rear cab support crossmember. s/c 6490430.

10K & Under

2500881 Dana Spicer D800F Front Axle rated 8K 3-1/2in. drop, hydraulic brakes. — $829 — -135#

* D800 axle not available with PX-9 engine.
* Not available with 385 front tires.
* The D800F axle is available only with 8-bolt hydraulic brake/hub combination on T170 or 10-bolt hydraulic brake/hub combination on T270/370.
* The T170 requires a D800F front axle for use with hydraulic brakes.
* This front axle can be used with front springs rated to 12K.
* Tractors not applicable to hydraulic brake systems.

2501008 Dana Spicer D-800F Front Axle rated 8K 3-1/2in. drop. — $220 — -135#

* Air Braked Dana D800F front axle is available with a front spring capacity of 8K, 10K and 12K.
* D800 axle not available with PX-9 engine.
* Not available with 385 front tires.
* Not available with RSD-compliant vehicle or air disc brakes.
* The D800F air braked 8K front axle is available on full trucks with single rear axles only.
* The D800F air braked front axle is available with P20060S rear axles only.
* The D800F axle is restricted from use in logging, mixer, oil field well service, fire truck, crane and refuse packer applications. No class C or D road use is permitted.
* This axle is available with a 10K air brake package with 8-bolt or 10-bolt mounting style.

2501010 Dana Spicer E-1002IL Front Axle rated 10K 3-1/2in. drop. USE W/AIR BRAKES ONLY — $192 — -52#

* 10K air braked front axle with 16,000 lb or 17,000 lb rear axles requires 15x4 inch front brakes.
* Air Braked Dana E-1002IL front axles is available with 15 x 4 inch or 16.5 x 5 inch front brakes or air disc brakes.
* Dana 10k light weight beam axles are not available with tires that have SLR greater than 19.5 inches.
* Dana E-1002IL and D-1001IL front axles are only for use on full trucks.
* Not available with 385 front tires.

2501011 Dana Spicer E-1002IL Front Axle rated 10K 3-1/2in. drop, hydraulic brakes. — $1,175 — -24#

* Dana 10k light weight beam axles are not available with tires that have SLR greater than 19.5 inches.
* Hydraulic brake front axles do not require slack adjusters, no sales code is required.
* Hydraulic braked Dana Spicer E-1002IL or E-1202IL front axles are available with 2 x 73 mm front brakes rated to 12K.
* Not available with 385 front tires.
* The E-1002IL or E-1202IL front axles are for use with a 12k power steering gear with 2010 engines.
* This front axle has the brake code included with the hub package.

Front Drive Axles

2561010	Fabco FSD-10A Front Drive Axle at 10,000 lbs. capacity. Includes cast iron hubs, 16.5x5 in. S-cam brakes, automatic slack adjusters, with ABS provision.	$14,928	771#

* * Requires bolted crossmembers w/ 12 mm frame fasteners: center and rear frame. s/c 6490123.
  * Requires bolted rear cab support crossmember. s/c 6490430.
* Cab door bearing blocks are required when a front drive axle is specified.
* Front drive axles are available for use with air brakes on the T270 and T370 models.
* Front drive axles are not available for use on tractors.
* Front drive axles require the Kenworth Driver Information Center. Operator will receive a warning when vehicle is traveling faster than 25 mph with front drive axle engaged.
* Not available with RSD-compliant vehicle or air disc brakes.
* Single 13.5K steering gear is required for use with the FSD-10A, -12A front drive axles.
* This axle must be accompanied by a drive ratio. See 2590307 - 2590650.
* This component requires a long lead-time. Refer to the long lead-time report for potential delivery date availability.
* Vehicles with front drive axles have dust shields included with the hub and brake package. There are no options.
* Vehicles with front drive axles include dust shields on all axles. There are no options.

Front Drive Axles

2563014 Fabco FSD-14A Front Drive Axle at 14,000 lbs. capacity. Includes cast iron hubs, 16.5x5 in. S-cam brakes, automatic slack adjusters, with ABS provision. — $16,088 — 771#

* * Requires bolted crossmembers w/ 12 mm frame fasteners: center and rear frame. s/c 6490123.
  * Requires bolted rear cab support crossmember. s/c 6490430.
* 14600 lb rated steering gear for use on T270/T370 with air brakes and an E-1462I, MFS14, FSD-13A, FSD-14A front axle.
* Cab door bearing blocks are required when a front drive axle is specified.
* Front drive axles are available for use with air brakes on the T270 and T370 models.
* Front drive axles are not available for use on tractors.
* Front drive axles require the Kenworth Driver Information Center. Operator will receive a warning when vehicle is traveling faster than 25 mph with front drive axle engaged.
* Not available with RSD-compliant vehicle or air disc brakes.
* Single 14.6K rated steering gear is required for use with the FSD-13 and -14A front drive axles.
* This axle must be accompanied by a drive ratio. See 2590307 - 2590650.
* This component requires a long lead-time. Refer to the long lead-time report for potential delivery date availability.
* Vehicles with front drive axles have dust shields included with the hub and brake package. There are no options.

2564016 Fabco FSD-16A Front Drive Axle at 16,000 lbs. capacity. Includes cast iron hubs, 16.5x6 in. S-cam brakes, automatic slack adjusters, and ABS provision. — $16,110 — 771#

* * Requires bolted centerbearing crossmembers (2409916, or 2409917, or 2409918).
  * Requires bolted crossmembers w/ 16 mm frame fasteners: center and rear frame. s/c 6490124.
  * Requires bolted rear cab support crossmember. s/c 6490430.
* Cab door bearing blocks are required when a front drive axle is specified.
* Dual 16K steering gears are required for use with the D1600 non-driving front axle and FSD-16A front drive axle.
* Front axles rated at 16K/18K/20K and over can be used with a PX-9 and ISC engines only.
* Front drive axles are available for use with air brakes on the T270 and T370 models.
* Front drive axles are not available for use on tractors.
* Front drive axles rated at 16K can be used with a PX-9 engine only.
* Front drive axles require the Kenworth Driver Information Center. Operator will receive a warning when vehicle is traveling faster than 25 mph with front drive axle engaged.
* Not available with RSD-compliant vehicle or air disc brakes.
* The 16K/18K/20K lb rated front axles are not compatible with rectangular fuel tanks.
* This axle must be accompanied by a drive ratio. See 2590307 - 2590650.
* This component requires a long lead-time. Refer to the long lead-time report for potential delivery date availability.
* Vehicles with front drive axles have dust shields included with the hub and brake package. There are no options.

Brakes

10K & Under

2703000 Front Brake: 8,000 lb.hydraulic brake package 2x66mm. disc brakes, rotors, iron 10-bolt hub pilot hubs, hub caps, oil seals & dust shields. For use w/ 22.5in. wheels or alcoa aluminum 19.5in.x7.5in. wheels, code 5042236. — ($879) — -111#

* Front axle 8K hub package for use with hydraulic brakes. 2 x 66 mm 10-bolt style for use with 22.5 inch wheels. 2 x 66 mm 8-bolt style for use with 19.5 inch wheels.
* Hydraulic braked chassis utilize preformed steel brake lines are limited in wheelbase options to 153, 162, 176, 188, 206, 218, 236, 245, 254, 260 or 272 inches.
* The specification of 2 x 66 mm 10-bolt hubs on one axle requires matching hub size on the other axle.
* The T170 model cannot be used with 22.5 inch wheels.
* Tractors not applicable to hydraulic brake systems.

2703002 Front Brake: 10,000 lb. Bendix air brake package 15x4 brakes, cast drums, iron 8-bolt hub pilot hubs, hub caps, oil seals & slack adjusters. For use w/ 19.5 x 6.75in. wheels. — $69 — -48#

* Hub package for use with air brakes on full trucks. Not for use on tractors.
* The 15 x 4 inch air braked hub packages are available with rear axles capacities up to 19K. When specifying a 10K front axle with rear axles over 19K the 16.5 x 5 inch front hub package should be used.
* The specification of 8-bolt hubs on one axle requires matching 8-bolt hubs on the other axle.

2703003 Front Brake: 10,000 lb. Bendix air brake package 15x4 brakes, cast drums, iron 10-bolt hub pilot hubs, hub caps, oil seals & slack adjusters. For use w/ 22.5in. wheels. — ($24) — -48#

* Hub package for use with air brakes on full trucks. Not for use on tractors.
* The 15 x 4 inch air braked hub packages are available with rear axles capacities up to 19K. When specifying a 10K front axle with rear axles over 19K the 16.5 x 5 inch front hub package should be used.
* The specification of 10-bolt hubs on one axle requires matching 10-bolt hubs on the other axle.

12K to 13.2K

2701012 RSD-Compliant Front Air Brakes, 13.2k package includes Bendix RSD-Compliant HP-ES S-Cam 16.5x5 in. drum brake, cast drums, aluminum 10-bolt LMS hubs, hubcaps, oil seals, and automatic slack adjusters. Max GAWR 13.2k. For use with 22.5 in. wheels. — $216 — 0#

* Air Braked 13.2k or 14.6k front axles require the 14.6k air braked hub package.
* Front axle 16.5 x 5 inch brakes with 10-bolt mounting style are available with single or tandem rear axle 10-bolt hub packages.
* Maximum axle GAWR for this code: 13,200 lbs.
* Not for use with P20060 axles rated at 16K or 17K.

2703001 Front Brake: 12000 lb. hydraulic brake package 2x73mm. disc brakes, rotors, iron 10-bolt hub pilot hubs, hub caps, oil seals & dust shields. For use w/ 22.5in. wheels. — ($823) — -45#

* Hydraulic braked chassis utilize preformed steel brake lines are limited in wheelbase options to 153, 162, 176, 188, 206, 218, 236, 245, 254, 260 or 272 inches.
* Only for use with 22.5in wheels.
* The specification of 2 x 73 mm 10-bolt hubs on one axle requires matching hub size on the other axle.
* This hub package is rated at 12K for use with hydraulic brakes. 2 x 73 mm 10-bolt for use with 22.5 wheels.
* Tractors not applicable to hydraulic brake systems.

3001110 Single Dana Spicer S14-110 single reduction rear axle for T170 w/ hydraulic brakes. Single rear axle 13.5K capacity rated at 11.5K. — $607 — -226#

* Hydraulic brakes do not use slack adjusters, no sales code is required.
* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.
* The S14-110 or S14-130 rear axle is required for use on the T170.
* The S14-110 or S14-130 rear axles require an 8-bolt hydraulic brake packages. No other outer end codes are required.
* This rear axle is available only in combination with a D800F front axle.
* This rear axle is not available with engine torque in excess of 520 ft lbs when used in construction or wrecker service.
* This rear axle is not available with engine torque in excess of 560 ft lbs when used in linehaul, regional haul, or pickup and delivery service.
* Tractors not applicable to hydraulic brake systems.

3001111 Single Dana Spicer S14-110 single reduction rear axle for T170 w/ hydraulic brakes. Single rear axle rated at 13.5K capacity. — $607 — -226#

* For T170 only allow use of Allison 2100(w/o park pawl)/2200(w/park pawl) series transmissions with 13.5K rated S14-110/-130.
* Hydraulic brakes do not use slack adjusters, no sales code is required.
* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.
* The S14-110 or S14-130 rear axle is required for use on the T170.
* The S14-110 or S14-130 rear axles require an 8-bolt hydraulic brake packages. No other outer end codes are required.
* This rear axle is available only in combination with a D800F front axle.
* This rear axle is not available with engine torque in excess of 520 ft lbs when used in construction or wrecker service.
* This rear axle is not available with engine torque in excess of 560 ft lbs when used in linehaul, regional haul, or pickup and delivery service.
* Tractors not applicable to hydraulic brake systems.

3001114 Single Dana Spicer S14-130 single reduction rear axle for T170 w/ hydraulic brakes. Single rear axle 13.5K capacity rated at 11.5K. — $906 — -223#

* Hydraulic brakes do not use slack adjusters, no sales code is required.
* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.
* The S14-110 or S14-130 rear axle is required for use on the T170.
* The S14-110 or S14-130 rear axles require an 8-bolt hydraulic brake packages. No other outer end codes are required.
* This rear axle is available only in combination with a D800F front axle.
* Tractors not applicable to hydraulic brake systems.

3011024 Single Dana Spicer P20060S single reduction rear axle for T300 w/ air brakes. Single rear axle 20K capacity rated at 17K. — $199 — 0#

* P20060 axles rated at 16k or 17k are not for use with 14.6K brake package.
* P20060S single reduction rear axles are not available with the wheel differential lock due to the smaller housing. Use P22060S single reduction rear axles with similar weight rating if you require the diff lock.
* Rear axle for use with air brakes only.
* Rear axles rated at 18K plus with a 10K front drive axle, or front drive axles rated at 12K or greater are applicable as a T370.
* The P20060S air brake rear axle is available only with Reyco 79KB or Hendrickson HAS210L suspensions.
* The P20060S air brake rear axle is available with 19K or 26K hub packages in U.S. or Canada. Available in export operating areas with Meritor hub packages as well.
* The selected rear axle cannot be used with a 315 hp/950 torque engine rating.
* This axles has a brake drum included with the hub package.
* This rear axle comes with slack adjusters included with the hub package.
* This rear axle has oil seals included with the hub package.
* This rear axle is for use with air brakes only.
* This spring brake is required for use with P20060S axles rated at 16,000 or 17,000 lbs.

3011025 Single Dana Spicer P20060S single reduction rear axle for T300/K300 w/ air brakes. Single rear axle 20K capacity rated at 16K. — $199 — 0#

* P20060 axles rated at 16k or 17k are not for use with 14.6K brake package.
* P20060S single reduction rear axles are not available with the wheel differential lock due to the smaller housing. Use P22060S single reduction rear axles with similar weight rating if you require the diff lock.
* Rear axle for use with air brakes only.
* Rear axles rated at 16K with a 10K front drive axle are applicable as a T270.
* The P20060S air brake rear axle is available only with Reyco 79KB or Hendrickson HAS210L suspensions.
* The selected rear axle cannot be used with a 315 hp/950 torque engine rating.
* This 16K rated rear axle is available on air braked chassis with 19K-23K air braked hub packages. No outer end codes required.
* This rear axle is for use with air brakes only.
* This spring brake is required for use with P20060S axles rated at 16,000 or 17,000 lbs.

3011026 Single Dana Spicer P20060S single reduction rear axle for T300 w/ hydraulic brakes. Single rear axle 20K capacity rated at 16K. — $1,304 — 0#

* Hydraulic brakes do not use slack adjusters, no sales code is required.
* P20060S single reduction rear axles are not available with the wheel differential lock due to the smaller housing. Use P22060S single reduction rear axles with similar weight rating if you require the diff lock.
* Rear axle for use with hydraulic brakes only.
* The selected rear axle cannot be used with a 315 hp/950 torque engine rating.
* This 16K rated rear axle is available on hydraulic braked chassis with an 18K hydraulic braked hub packages. No outer end codes required.
* Tractors not applicable to hydraulic brake systems.

Single Drive Rear Axles

21K to 23K

3041190	Single Dana Spicer S23-190 single reduction rear axle. Single rear axle rated at 23K.	$1,485	255#
	* Allison 2000 series transmissions are limited to the SPL100/140 series drivelines, except for when an S23-170/-190 rear axle is specified with a non-driving front axle. In this case a 1710 driveline must be used.		
	* Rear axles rated at 18K plus with a 10K front drive axle, or front drive axles rated at 12K or greater are applicable as a T370.		
	* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.		
	* The S21/S23/S26 rear axles cannot be used with SPL100 or SPL140 [aside from the SPL140 used for transfer cases] series drivelines.		
3042150	Single Meritor R23-160 rear axle rated @ 21K.	$798	184#
	* Meritor RS23-160 rear axle is not for use with GCW exceeding 105,000 lbs.		
	* Rear axle for use with air brakes only.		
	* Rear axles rated at 18K plus with a 10K front drive axle, or front drive axles rated at 12K or greater are applicable as a T370.		
	* RS23-160 axle is available with Reyco 79KB or Hendrickson HAS		
	* This xxK rated rear axle is available on air braked chassis with 19K-23K air braked hub packages. No other outer end codes required.		
3042160	Single Meritor R23-160 rear axle rated at 23K.	$798	184#
	* Meritor RS23-160 rear axle is not for use with GCW exceeding 105,000 lbs.		
	* Rear axles rated at 18K plus with a 10K front drive axle, or front drive axles rated at 12K or greater are applicable as a T370.		
	* RS23-160 axle is available with Reyco 79KB or Hendrickson HAS		
	* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.		
3047082	Single Dana Spicer 23082T rear axle; 23K capacity rated at 23K. Single rear axle with dual range for T300 w/ air brakes.	$2,789	367#
	* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.		
	* The 23082T 2-speed rear axle for use only with Reyco 79KB rear suspensions.		
	* Two-speed rear axles are not available with a front drive axle.		

24K & Above

3061190	Single Dana Spicer S26-190 rear axle; 26K capacity rated at 26K. Single rear axle.	$2,065	325#
	* Rear axles rated at 18K plus with a 10K front drive axle, or front drive axles rated at 12K or greater are applicable as a T370.		
	* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.		
	* The Dana S26-190 single rear axle with any combination of 10% C and D road service requires a Severe Service Warranty.		
	* The S21/S23/S26 rear axles cannot be used with SPL100 or SPL140 [aside from the SPL140 used for transfer cases] series drivelines.		
	* This component requires a long lead-time. Refer to the long lead-time report for potential delivery date availability.		
3062186	Single Meritor RS26-185 rear axle rated at 26K.	$2,653	256#
	* RS26-185 or RS30-185 axle is available with Reyco 79KB suspension only		
	* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.		

Option	Description	Price	Weight

Single Drive Rear Axles

24K & Above

3081093	Single Dana Spicer S30-190 rear axle; 30K capacity rated at 30K. Single rear axle with 74in. track, outer ends included w/ axle.	$6,602	311#
3082320	Single Meritor RS30-185 rear axle rated at 30K.	$6,915	273#
	* Meritor 30k rated air braked axle for use with 30k air braked hub package. No outer end codes required.		
	* RS26-185 or RS30-185 axle is available with Reyco 79KB suspension only		
	* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.		

Tandem Drive Rear Axle

40K & Under

3122245	Dual Meritor MT40-14X3 Hypoid rear axle rated at 40K. Tandem rear axle.	$8,698	2,096#
	* The DSP40, MP40 or MT40 14x3 rear axles are not available with Hendrickson or Chalmers beam-type or Hendrickson air rear suspensions.		
3122247	Dual Meritor MT40-14x4 Hypoid rear axle rated at 40K, with heavy-wall housing. Tandem rear axles.	$8,695	2,136#
	* Meritor RT41-145 and MT40-14x4 MP40-14x4 tandem rear axles includes brakes and other outer end components, no options.		
3122250	Dual Meritor MP40-14x3 rear axle rated at 40K. Tandem rear axles with pump.	$8,947	2,106#
3122251	Dual Meritor MP40-14x3 DualTrac rear axle rated at 40K. Tandem rear axles with pump.	$9,525	2,138#
	* Meritor Dualtrac axles using single wheels/tires require the following wheels: 5245278. Dual wheels and tires are also allowed.		
3122252	Dual Meritor MP40-14x4 rear axle rated at 40K. w/ heavy-wall housing with pump. Tandem rear axles.	$9,250	2,146#
3123001	Dual Paccar axle rated at 40K, standard track, 9.5 mm housing. Tandem rear axle.	$8,698	747#
	* 45 Degree yokes is not available for PACCAR 40K Dual rear axles.		
	* Linehaul or Regional haul with PACCAR 40K Dual rear axle has a max GCWR of 80K.		
	* PACCAR 40K Dual rear axle is not compatible for Dana 1710 series D/L.		
	* PACCAR 40K Dual rear axle road class restrictions. Class A - 90% or greater. Class B - 10% or less. Road Class C or Class D is not allowed.		
	* PACCAR 40K tandem rear axle is only available for the following intended services: Linehaul, Regional haul and Pickup & Delivery.		
	* PACCAR 40K Tandem rear axle requires AG400L rear suspension for T3 series.		
3124403	Dual Dana Spicer DSP41 rear axle rated at 40K. (DSP40 w/ heavy-wall housing) w/ 11mm housing and 1.88in. shaft diameter. Tandem rear axles.	$8,883	2,126#
	* RT403 with 6" or 7.19" saddle height and DSP40/41(P) require 45 degree interaxle yokes.		
	* Tandem rear axle requires an air braked hub package. No other outer end codes are required.		
	* The DSP41 rear axle is insufficient for use in the refuse packer application.		
3124404	Dual Dana Spicer DSP41P rear axle rated at 40K. (DSP40P w/ heavy-wall housing) w/ 11mm housing and 1.88in. shaft diameter. Includes pump. Tandem rear axles.	$9,283	2,144#
	* RT403 with 6" or 7.19" saddle height and DSP40/41(P) require 45 degree interaxle yokes.		
	* Tandem rear axle requires an air braked hub package. No other outer end codes are required.		
	* The DSP41 rear axle is insufficient for use in the refuse packer application.

3403026	Single Axle RSD-Compliant Rear Air Brakes, 23k package includes Meritor RSD-Compliant Q+ 16.5x7" drum brake, cast drums, iron 10-bolt LMS hubs, oil seals, and automatic slack adjusters. Max GAWR 23k. For use with 22.5" wheels. * For use with 22.5 inch wheels. Not available with 19.5 inch wheels. * Hub package for use with single rear axles only. * Maximum axle GAWR for this code: 23,000 lbs.	($66)	0#

Rotors

3401022	Single 23K Bendix RSD Air Disc Brake package includes rear air disc brakes, splined rotor for air disc brakes with aluminum LMS hub pilot hubs. For use w/ 22-1/2in. wheels. * Hub package for use with single rear axles only.	$1,705	-49#
3401023	Single 23K Bendix Air Disc Brake package include splined rotor for air disc brakes with aluminum LMS hub pilot hubs. For use w/ 22-1/2in. wheels. * Available only on T370. * Available with rear GAWR between 19,000-23,000 lbs * Hub package for use with single rear axles only. * Not available with 19.5 inch wheels or 22.5 inch tires in 255 or 275 widths. * Requires the use of front air disc brakes * Specifying air disc brakes on any axle requires that the wheels on all axles be air disc brake compatible	$1,705	-49#
3403013	Single 23K Bendix Air Disc Brake package includes splined rotor for air disc brakes with iron LMS hub pilot hubs. For use w/ 22-1/2in. wheels. * Available only on T370. * Available with rear GAWR between 19,000-23,000 lbs * Hub package for use with single rear axles only. * Not available with 19.5 inch wheels or 22.5 inch tires in 255 or 275 widths. * Requires the use of front air disc brakes * Specifying air disc brakes on any axle requires that the wheels on all axles be air disc brake compatible	$1,612	28#
3403022	Single 23K Bendix RSD Air Disc Brake package includes splined rotor for air disc brakes with iron LMS hub pilot hubs. For use w/ 22-1/2in. wheels. * Hub package for use with single rear axles only.	$1,612	28#

Hubs

3401001	23K air brake package includes 16-1/2x7 in. brakes, cast drums, aluminum 10-bolt hub pilot LMS hubs, automatic slack adjusters and oil seals for use w/ 22.5 in. wheels. * Hub package for use with single rear axles only. * The specification of 10-bolt hubs on one axle requires matching 10-bolt hubs on the other axle.	STD	0#
3401007	23K Meritor air brake package includes 16-1/2 x7 in. brakes, cast drums, aluminum 10-bolt hub pilot LMS hubs, slack adjusters. * Hub package for use with single rear axles only. * Meritor hub packages which use brake package for single rear axle installation. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.	$68	55#

Option	Description	Price	Weight

Single Axle Outer End Equipment

Hubs

3401019	19K air brake package includes 15x8-5/8 in. brakes, cast drums, aluminum 8-bolt hub pilot hubs, slack adjusters and oil seals for use w/ 19.5 in. wheels. * 19k air brake package with 15x8-5/8 inch brakes is not compatible with dust shields on the axle. * Hub package for use with single rear axles only. * The 19k air brake package with 15 x 8-5/8 inch brakes and 8-bolt aluminum hubs is for use on the P20060 and P22060 axles. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.	$850	-25#
3402998	18K hydraulic brake package includes 2x66 mm. disc brakes, rotors, iron 8-bolt hub pilot hubs, hub caps, oil seals and dust shields for use w/ 19.5 x 6.75 in. wheels. * 18k rated hydraulic brakes hub package for use with S14-110 or S14-130 rear axles only. * Hub package for use with single rear axles only. * Hub packages for use with hydraulic brakes. No slack adjuster sales code is required. * The specification of 2 x 66 m 8-bolt hubs on one axle requires matching 2 x 66 mm 8-bolt hubs on the other axle, requiring 19.5 inch wheels on all axles. * Tractors not applicable to hydraulic brake systems.	$0	-171#
3403000	18K hydraulic brake package includes 2x66 mm. disc brakes, rotors, iron 10-bolt hub pilot hubs, hub caps, oil seals and Dust Shields for use w/ 22.5in. wheels or Alcoa aluminum 19.5in.x7.5in. wheels, code 5242236. * Hub package for use with single rear axles only. * Hub packages for use with hydraulic brakes. No slack adjuster sales code is required. * Rear axle hubs for use with P20060 or P22060 rear axles only. * The specification of 2 x 66 mm 10-bolt hubs on one axle requires matching hub size on the other axle. * This wheel is required and only available with the iron 10-bolt hub and hydraulic brakes with P20060 or P22060 rear axles. * Tractors not applicable to hydraulic brake systems.	$0	-171#
3403001	21K hydraulic brake package includes 2x73 mm. disc brakes, rotors, iron 10-Bolt hub pilot hubs, hub caps, oil seals and dust shields for use w/ 22.5 in. wheels. * Hub package for use with single rear axles only. * Hub packages for use with hydraulic brakes. No slack adjuster sales code is required. * Only for use with 22.5in wheels. * Rear axle hubs for use with P20060 or P22060 rear axles only. * The specification of 2 x 73 mm 10-bolt hubs on one axle requires matching hub size on the other axle. * Tractors not applicable to hydraulic brake systems.	$0	-105#
3403003	26K air brake package includes 16-1/2x7 in. brakes, cast drums, iron 10-bolt hub pilot hubs, slack adjusters and oil seals for use w/ 22.5 in. wheels. * Hub package for use with single rear axles only. * The specification of 10-bolt hubs on one axle requires matching 10-bolt hubs on the other axle.	$55	0#
3403004	30K air brake package includes 16-1/2x7 in. brakes, cast drums, iron 10-bolt hub pilot hubs and slack adjusters.	$0	0#

Option	Description	Price	Weight

Single Axle Outer End Equipment

Hubs

3403006	30K Meritor Air Brake package includes 16-1/2 x7 in. Brakes, Cast Drums, Iron 10-Bolt Hub Pilot Hubs, Slack Adjusters. * Hub package for use with single rear axles only. * Meritor hub packages which use brake package for single rear axle installation. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.	$55	55#
3403007	23K Meritor Air Brake package includes 16-1/2 x7 in. Brakes, Cast Drums, Iron 10-Bolt Hub Pilot Hubs, Slack Adjusters. * Hub package for use with single rear axles only. * Meritor hub packages which use brake package for single rear axle installation. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.	($36)	55#

Spring Brakes & Parking Brakes

3485001	Bosch Parking Brake 3x12 in. high lever actuated. Axle mounted for medium duty. * The axle mounted parking brake is for use with hydraulic braked chassis, and requires an SPL100 or SPL140 driveline series.	$0	0#
3485004	Spring brakes included w/ single rear air disc brakes.	$0	0#
3485007	Spring Brake: 3030 long stroke single 3 in. travel replace standard 2-1/2 in. travel. Helps keep brakes in adjustment longer. * Spring brake chambers for single rear axle installations.	$18	2#
3485008	Spring Brake: 3036 single. * Not for use with rear air disc brakes * Spring brake chambers for single rear axle installations. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use long stroke brake chambers instead.	$80	8#
3485009	Spring Brake: 3030 high output single. * Not for use with rear air disc brakes * Spring brake chambers for single rear axle installations. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use long stroke brake chambers instead.	STD	0#
3485019	Spring Brake: 2430 single for medium duty T300; maximum capacity 17K. * Not for use with rear air disc brakes * The 2430 spring brake chambers are not available with rear axle capacities exceeding 19K. * This spring brake is required for use with P20060S axles rated at 16,000 or 17,000 lbs.	$25	-2#

Wheel Differential Locks & Limited Slip

3511080	Meritor driver controlled differential lock for single rear axle. * Crosslock for use on Meritor single rear axles.	$654	0#
3531000	Wheel Differential Lock for Dana Spicer Axle P22060S; changes S to D to the axle part number. * Diff lock requires accessory air when used on hydraulic braked chassis.	$1,100	15#

Option	Description	Price	Weight

Single Axle Outer End Equipment

Wheel Differential Locks & Limited Slip

3531001	Wheel Differential Lock for Dana Spicer Axles S21-170, S21-190, S23-170, S23-190, S26-190 & S30-190; adds D to the end of the axle part number.	$899	28#
3531002	Limited slip for S14-130.	$768	0#
	* Traction control [no-slip] option for use with S14-130 rear axles.		
3531005	Limited slip for S14-110.	$676	0#
	* Limited slip traction control for use with S14-110 rear axles.		

Miscellaneous

3490901	Rear air disc brake dustshields for single axle; includes pads and rotor shields.	$279	6#
	* Only for use with single axle rear air disc brakes.		
3490904	Rear air disc brake dustshields for single axle; includes pads only.	$70	1#
	* Only for use with single axle rear air disc brakes.		
3490905	Rear air disc brake dustshields for dual axle; includes pads only.	$139	2#
	* Only for use with tandem axle rear air disc brakes.		

Tandem Axle Outer End Equipment

Brakes

3300002	Dual rear brakes included w/rear hub package.	$0	0#
	* Brake included with hub for tandem rear axle chassis.		

Rotors

3401038	Dual 46K Bendix Air Disc Brake package includes splined rotor for air disc brakes with aluminum LMS hub pilot hubs. For use w/ 22-1/2in. wheels.	$3,367	-97#
	* Available only on T370.		
	* Maximum rear GAWR is 46,000 lbs.		
	* Not available with 19.5 inch wheels or 22.5 inch tires in 255 or 275 widths.		
	* Only available with Kenworth AG400L suspension, HAS402, RT403 and Chalmers 854.		
	* Requires the use of front air disc brakes		
	* Specifying air disc brakes on any axle requires that the wheels on all axles be air disc brake compatible		
3401039	Dual 46K Bendix RSD Air Disc Brake package includes splined rotor for air disc brakes with aluminum LMS hub pilot hubs. For use w/ 22-1/2in. wheels.	$3,367	-97#
3403038	Dual 46K Bendix Air Disc Brake package includes splined rotor for air disc brakes with iron LMS hub pilot hubs. For use w/ 22-1/2in. wheels.	$3,273	51#
	* Available only on T370.		
	* Maximum rear GAWR is 46,000 lbs.		
	* Not available with 19.5 inch wheels or 22.5 inch tires in 255 or 275 widths.		
	* Only available with Kenworth AG400L suspension, HAS402, RT403 and Chalmers 854.		
	* Requires the use of front air disc brakes		
	* Specifying air disc brakes on any axle requires that the wheels on all axles be air disc brake compatible		

Option	Description	Price	Weight

Tandem Axle Outer End Equipment

Rotors

3403039	Dual 46K Bendix RSD Air Brake Bendix package includes splined rotor for air disc brakes with iron LMS hub pilot hubs. For use w/ 22-1/2in. wheels.	$3,273	51#

Hubs

3401002	Dual 46K Air Brake package includes 16-1/2x7 in. brakes, cast drums, aluminum 10-bolt hub pilot hubs, slack adjusters and oil seals for use w/ 22.5 in. wheels. * Hub package for use with tandem rear axles only. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.	$0	0#
3401003	Dual 46K Meritor Air Brake package includes 16-1/2 x7 in. brakes, cast drums, aluminum 10-bolt LMS hub pilot hubs, slack adjusters and oil seals. * Hub package for use with tandem rear axles only. * Meritor hub packages which use brake package for tandem rear axle installation. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.	$64	110#
3401040	Tandem axle RSD-Compliant Rear Air Brakes, 46k package includes Bendix RSD-Compliant HP-ES S-Cam 16.5x7 in. drum brake, cast drums, aluminum 10-bolt LMS hubs, oil seals, and automatic slack adjusters. Max GAWR 46k. For use with 22.5 in. wheels. * Hub package for use with tandem rear axles only. * Long stroke brake chambers are required with RSD compliant brakes. * Maximum axle GAWR for this code: 46,000 lbs. * RSD Compliant rear brakes are for use with tires that have a Static Load Radius [SLR] of 16.6 - 21.5 inches. * This brake complies with August 1, 2011 Reduced Stopping Distance laws required for any tandem rear axle tractor built for use in the U.S. or Canada after July 1, 2011 with a rear GAWR of 40,000 lbs or less.	$55	0#
3403009	46K Meritor Air Brake package includes 16-1/2 x7 in. brakes, cast drums, iron 10-bolt hub pilot hubs, slack adjusters. * Hub package for use with tandem rear axles only. * Meritor hub packages which use brake package for tandem rear axle installation. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.	$233	110#

Spring Brake & Service Chambers

Single on Dual

3485101	Spring Brake: 3030 long stroke single spring brake on dual axle. This option reduces rear tandem GAWR to 36,000 lbs. * Long stroke brake chambers are required with RSD compliant brakes. * Not for use with rear air disc brakes	($26)	-20#
3485103	Spring brakes included w/ rear air disc brakes single spring brake on dual axle installation. Derates tandem to 38,000 lbs. * For use on tractors only. * Spring brakes for use only, and required, with air disc brakes on single rear axle chassis. * Spring brakes for use only, and required, with air disc brakes on tandem rear axle chassis. * With single spring brake on dual axles, rear GAWR is limited to 36,000 and GVWR is limted to 48,000	($37)	-20#

Option	Description	Price	Weight

Tandem Axle Outer End Equipment

Spring Brake & Service Chambers

Dual

3485002	Spring brakes included w/ dual rear air disc brakes. * Spring brakes for use only, and required, with air disc brakes on tandem rear axle chassis.	$0	0#
3485207	Spring Brake: 3030 long stroke dual 30 square inches travel; replaces standard 2-1/2 in. travel. Helps keep brakes in adjustment longer. * Long stroke brake chambers are required with RSD compliant brakes. * Not for use with rear air disc brakes * Spring brake chambers for tandem rear axle installations. * These brake chambers are not available for use in fire service.	$20	4#
3485208	Spring Brake: 3036 dual 30 square inches; 36 square inches spring chamber. * Hendrickson HAS402 is incompatible with the DSP40 rear axle or with 3036 spring brake chambers. * Not for use with rear air disc brakes * Spring brake chambers for tandem rear axle installations. * The minimum spring brake size for use on tandem rear axle chassis specified in fire service is 3036 sq inch. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use long stroke brake chambers instead.	$162	16#
3485209	Spring Brake: 3030 high output dual. * Not for use with rear air disc brakes * Spring brake chambers for tandem rear axle installations. * These brake chambers are not available for use in fire service. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use long stroke brake chambers instead.	$0	0#

Differential Lock & Crosslock

3511500	Driver Controlled Differential Lock (Crosslock) for Paccar Axles 40K rated, forward rear axle, with cab control.	$955	19#
3532125	Wheel Differential Lock for Dana Spicer axles DSP40/DSP41(P)/DSH40(P)/DSH44(P)/D40-155 rear rear axle. Under Speed Interlock is standard on T680.	$976	15#
3532130	Wheel Differential Lock for Dana Spicer axles DSP40/DSP41(P)/DSH40(P)/DSH44(P)/D40-155 forward rear axle & rear rear. Under Speed Interlock is standard on T680.	$1,827	37#

Miscellaneous

3490902	Rear air disc brake dustshields for tandem axles; includes pads and rotor shields. * Only for use with tandem axle rear air disc brakes.	$558	12#

Anti-Lock Brake System

4-Channel

3495013	Meritor WABCO 4S/4M anti-lock brake system. T300: w/ hydraulic brakes only. K300 all configurations. * For use with hydraulic brakes only.	$1,135	0#

Option	Description	Price	Weight

Anti-Lock Brake System

4-Channel

3495226	Bendix 4S/4M anti-lock brake system. * This anti-lock brake system is not available for use on hydraulic braked chassis.	STD	0#
3495228	Bendix 4S/4M anti-lock brake system w/ air traction control (ATC). * This anti-lock brake system is not available for use on hydraulic braked chassis.	$494	2#
3495233	Bendix 4S/4M anti-lock brake system w/ air traction control (ATC) and electronic stability program (ESP) for full truck. Must code for additional body information.	$2,687	0#

6-Channel

3495232	Bendix 6S/6M anti-lock brake system w/ air traction control (ATC) and electronic stability program (ESP) for full truck. Must code for additional body information. * ESP is restricted based on the following specifications: -Model -Vocation -Towing Connections -Drive Configuration -Wheelbase -Front Axle -Front Axle GAWR -Front Suspension -Steering Gear -Front Brakes -Rear Axle(s) GAWR -Rear Suspension -Rear Brakes -Auxiliary Axle(s) See ESP Guidelines at Truck Sales/Product Information/Applications Guidelines for restrictions	$2,865	15#

Other

3495500	Delete standard anti-lock brake system. * Anti-lock brakes are required chassis operating in the US and Canada specing Medium-Duty products. Allowed on class 8 units when axle capacity dictates full time off highway use.	($780)	-33#

Body Builder ESP Information

3500072	Tanker height less than 75 in. from top of frame rail	$0	0#
3500073	Tanker height between 75 in. and 85 in. from top of frame rail.	$0	0#
3500096	Flatbed top of deck not more than 20 in. above top of deck or frame rail. Guidelines associated with anti-lock brakes systems that include ESP for full truck chassis can be found in Kenworth TE1647 on DealerNet.	$0	0#
3500097	Van body top of deck not more than 20 in. above top of rail-Guidelines associated with anti-lock brakes systems that include ESP for full truck chassis can be found in Kenworth TE1647 on DealerNet.	$0	0#

Miscellaneous

3407046	Longer studs for aluminum wheels w/ steel hub pilot wheels. * Longer stud length on rear axles is available with steel rear wheels only. * Longer studs for use on tandem rear axles with hub-pilot steel wheels facilitate the change to aluminum wheels in field. Aluminum material thickness is greater so standard length steel wheel studs are too short accommodate the after market swap.	$20	6#

Option	Description	Price	Weight
	Miscellaneous		
3490046	Dustshields for drum brakes: all rear axles, required and only available with T270/T370 front drive axles	$0	11#
	* Vehicles with front drive axles include dust shields on all axles. There are no options.		
3490047	Dustshields for drum brakes: all rear axles.	$97	11#
	* 19k air brake package with 15x8-5/8 inch brakes is not compatible with dust shields on the axle.		

Option	Description	Price	Weight

Single

31K & Under

3622215	Rear suspension: single Hendrickson HAS210L 21K. Welded steel crossmember and gussets w/shocks at 8.3 in. laden height, 8.5 in. unladen height. Medium-duty. Includes air suspension dump valve. Not rear air disc brake compatible. * A heavy-duty rear suspension crossmember is required for use with front axle 13K or greater, a frame insert, or 10-3/4 inch rail. Add sales code 3830313. * Beam or spring rear suspensions are typically used with an asphalt spreader. * Engineering review and/or vendor approval will be required for Hendrickson air suspensions used as fire trucks. * Hendrickson HAS suspensions are not available with refuse packer applications. * Hendrickson HAS210L rear suspension requires use of accessory air system if hydraulic brakes are specified. Hendrickson air suspensions cannot be used in fire service. Not available with logger, mixer, roll-off, concrete pump, oil field rig-up, oil well service, drilling derrick, or crane/boom operation. * Not compatible with rear air disc brakes. * Not compatible with rear air disc brakes. * The minimum wheelbase with hybrid transmission and Hendrickson air suspension is 153 inches. * With 385 front tires this suspension requires 24.5" rear tires for proper frame rake.	$1,123	-121#
3622218	Rear suspension: single Hendrickson HAS210 21K. Steel crossmember and gussets w/shocks at 8.8 in. height. Medium-duty for use with air disc brakes only. Engine < 1351 Lb Ft. Includes air suspension dump valve. * Available on T370 only. * Hendrickson HAS suspensions are not available with refuse packer applications. * Not available with Dana S14-110 rear axle. * The minimum wheelbase with hybrid transmission and Hendrickson air suspension is 153 inches. * With 385 front tires this suspension requires 24.5" rear tires for proper frame rake.	$1,511	-111#
3626430	Rear suspension: single Reyco 79KB multileaf 20K. Medium duty FDA only. Without helper spring. Unladen height: 16.5 in. Laden height: 14.7 in. Not rear air disc brake compatible. * Bolted rear suspension crossmember for use with Reyco 79KB rear suspensions when a frame insert or front drive axle is specified. * Not compatible with rear air disc brakes. * Rear suspension equipment for use on Reyco 79KB rear suspensions. Not available with 30K or greater rear axles or with front drive axles. * Requires a minimum wheelbase of 180 inches when used with a PACCAR PX-9 or Cummins ISC engine. * Requires a minimum wheelbase of 190 inches when used with a PX-7 engine. * Reyco 79KB with front drive axle and PX-7 engine has a minimum wheelbase of 190 inches. * This rear suspension for use with a single rear drive axle. * This rear suspension is for use with a single drive axle only. Not available with body types of fire pumper or tank. * This suspension is required with and for use with a front drive axle only.	$811	90#

Option	Description	Price	Weight

Single

31K & Under

3626431 Rear suspension: single Reyco 79KB multileaf 21K. Medium duty FDA only. Without helper spring. Unladen height: 16.5 in. Laden height: 14.6 in. Not rear air disc brake compatible. — $811 — 90#

* Bolted rear suspension crossmember for use with Reyco 79KB rear suspensions when a frame insert or front drive axle is specified.
* Not compatible with rear air disc brakes.
* Rear suspension equipment for use on Reyco 79KB rear suspensions. Not available with 30K or greater rear axles or with front drive axles.
* Requires a minimum wheelbase of 180 inches when used with a PACCAR PX-9 or Cummins ISC engine.
* Requires a minimum wheelbase of 190 inches when used with a PX-7 engine.
* Reyco 79KB with front drive axle and PX-7 engine has a minimum wheelbase of 190 inches.
* This rear suspension for use with a single rear drive axle.
* This rear suspension is for use with a single drive axle only. Not available with body types of fire pumper or tank.
* This suspension is required with and for use with a front drive axle only.

3626477 Rear suspension: single Reyco 79KB taperleaf 13.5K. Medium-duty. Unladen height: 7.8 in. Laden height: 6.2 in. Not rear air disc brake compatible. — ($22) — 0#

* For use only with hydraulic brakes.
* Not compatible with rear air disc brakes.
* The T170 is for use only with 13.5K version of the Reyco 79KB rear suspensions.

3626479 Rear suspension: single Reyco 79KB taperleaf 20K. Medium-duty. Unladen Height: 9 in. Laden Height: 7.6 in. Not rear air disc brake compatible. — STD — 0#

* A bolted rear suspension crossmember is required with Reyco 79kb rear suspensions and front axle 13K or greater, a frame insert, 10-3/4 inch rails, or front drive axle.
* If the vehicle will be a fire truck Reyco rear suspensions rated under 26K are not available.
* Not available with 385 front tires.
* Not compatible with rear air disc brakes.
* Reyco recommends stabilizer bars for the 79KB rear suspension when the vehicle will be used as a refuse packer.
* The minimum wheelbase with hybrid transmission and Reyco beam suspension is 157 inches.

3626482 Rear suspension: single Reyco 79KB taperleaf 20K. Medium-duty. For use with rear air disc brakes. Unladen Height: 9.3 in. Laden Height: 7.9 in. — $528 — 17#

* Available with T370 only
* Bolted rear suspension crossmember for use with Reyco 79KB rear suspensions when a frame insert or front drive axle is specified.
* If the vehicle will be a fire truck Reyco rear suspensions rated under 26K are not available.
* Not available with 385 front tires.
* Not available with S14-110 or s14-130 (any dana rear axles with wall thickness less than 0.38in (9.5mm))
* Only available with rear air disc brakes.
* Review frame rake with Division Applications Engineering for this suspension when used Fire truck service and front end ratings (non-FDA) of 13K or greater.
* Reyco recommends stabilizer bars for the 79KB rear suspension when the vehicle will be used as a refuse packer.
* The minimum wheelbase with hybrid transmission and Reyco beam suspension is 157 inches.

Option	Description	Price	Weight

Single

31K & Under

3626490	Rear suspension: single Reyco 79KB taperleaf 21K. Medium-duty. Unladen Height: 11.4 in. Laden Height: 9.8 in.	$0	0#
3630021	Rear suspension: single Kenworth Airglide 210L 21K. 6.5 in. ride height w/single leveling valve. Includes air suspension dump valve. * Available for use on trucks with body types of beverage, flatbed, or van. For tractors a trailer type of van or flatbed is allowed. Some additional body types are subject to engineering review. For complete definition of approved body/trailer types and intended services, please see Application Guidelines on DealerNet. * Cannot be used in any class D road service when specified for a Medium-Duty chassis. * Frame reinforcement is required with 9-7/8 rail and AG210 together. * GCW limit of 60,000 lbs. maximum. * Meritor RS23, RS26, and RS30 rear axles are not for use with AG210L. * Not available with 385 front tires. * Not compatible with rear air disc brakes. * S23 and S26 rear axles are not for use with the Kenworth AG210L rear suspension. * This rear suspension cannot be used with greater than 3% class C road service when specified on a Medium-Duty chassis.	$1,009	-145#
3632015	Rear suspension: Single Hendrickson Primaax EX23 23K. 15.5 in. ride height. Not rear air disc brake compatible. * Not compatible with rear air disc brakes. * Recommend to only keep it published for models which have PX9 engine published. Then add restriction in prospector to only allow 130 amp alternator when there is a PX9 engine on the order. * Requires a minimum wheelbase of 180 inches when used with a PACCAR PX-9 or Cummins ISC engine. * Requires a minimum wheelbase of 190 inches when used with a PX-7 engine. * This rear suspension for use with a single rear drive axle. * This suspension is required with and for use with a front drive axle only.	$4,725	243#
3632277	Rear suspension: single Hendrickson HAS230L 23K. Welded steel crossmember & gussets w/shocks at 8.3 in. laden height, 8.5 in. unladen height. Medium-duty. Includes air suspension dump valve. Not rear air disc brake compatible. * A heavy-duty rear suspension crossmember is required for use with front axle 13K or greater, a frame insert, or 10-3/4 inch rail. Add sales code 3830313. * Beam or spring rear suspensions are typically used with an asphalt spreader. * Engineering review and/or vendor approval will be required for Hendrickson air suspensions used as fire trucks. * Hendrickson HAS suspensions are not available with refuse packer applications. * Hydraulic brakes are not available with this suspension. Not for use with logger, mixer, roll-off, concrete pump, oil field rig-up, oil well service, drilling derrick, or crane/boom operation. * Not compatible with rear air disc brakes. * Not compatible with rear air disc brakes. * Single Hendrickson HAS rear suspensions require 10-5/8 inch or 10-3/4 inch parent rail material. * The minimum wheelbase with hybrid transmission and Hendrickson air suspension is 153 inches. * The P22060S rear axle is incompatible with the 23K rated HAS 230L rear suspension. * With 385 front tires this suspension requires 24.5" rear tires for proper frame rake.	$1,151	-59#

3636425 Rear suspension: single Reyco 79KB taperleaf 23K. Medium-duty. For use with rear air disc brakes. Unladen Height: 9.3 in. Laden Height: 8.0 in. — $784 — 58#

* Available with T370 only
* Bolted rear suspension crossmember for use with Reyco 79KB rear suspensions when a frame insert or front drive axle is specified.
* If the vehicle will be a fire truck Reyco rear suspensions rated under 26K are not available.
* Not available with 385 front tires.
* Not available with RS23-160 (any Meritor rear axles with wall thickness less than 0.5in (12.7mm))
* Not available with S14-110 or s14-130 (any dana rear axles with wall thickness less than 0.38in (9.5mm))
* Not available with S14-110 or s14-130 or P20060 (any dana rear axles with wall thickness less than 0.43in (11mm))
* Only available with rear air disc brakes.
* Review frame rake with Division Applications Engineering for this suspension when used Fire truck service and front end ratings (non-FDA) of 13K or greater.
* Reyco recommends stabilizer bars for the 79KB rear suspension when the vehicle will be used as a refuse packer.
* The minimum wheelbase with hybrid transmission and Reyco beam suspension is 157 inches.

3636427 Rear suspension: single Reyco 79KB taperleaf 23K. Medium-duty fire truck tankers. For use with rear air disc brakes. Unladen Height: 11.0 in. Laden Height: 9.3 in. — $807 — 58#

* Available with T370 only
* Bolted rear suspension crossmember for use with Reyco 79KB rear suspensions when a frame insert or front drive axle is specified.
* If the vehicle will be a fire truck Reyco rear suspensions rated under 26K are not available.
* Not available with RS23-160 (any Meritor rear axles with wall thickness less than 0.5in (12.7mm))
* Not available with S14-110 or s14-130 (any dana rear axles with wall thickness less than 0.38in (9.5mm))
* Not available with S14-110 or s14-130 or P20060 (any dana rear axles with wall thickness less than 0.43in (11mm))
* Only available with rear air disc brakes.
* Review frame rake with Division Applications Engineering for this suspension when used Fire truck service and front end ratings (non-FDA) of 13K or greater.
* Reyco recommends stabilizer bars for the 79KB rear suspension when the vehicle will be used as a refuse packer.
* The minimum wheelbase with hybrid transmission and Reyco beam suspension is 157 inches.

3636430 Rear suspension: single Reyco 79KB taperleaf 23K with helper spring. Medium-duty. Unladen Height: 11.4 in. Laden Height: 9.7 in. — $456 — 57#

Tandem

40K & Under

Kenworth

3730028 Rear suspension: Tandem Kenworth Airglide 400L 40K. 52 in. axle spacing. Air suspension w/ 8.5 in. ride height. Includes single leveling valve. Includes air suspension dump valve. — $2,891 — 258#

* Beam or spring rear suspensions are typically used with an asphalt spreader.
* Cannot be used in any class D road service when specified for a Medium-Duty chassis.
* Kenworth AG400L rear suspension is available for use with DSP41, DSP41/P, DSH44, D40-145 Pro40, and RT41-145 or MT40-145x4 or MP40-14x4 or PACCAR 40K rear axles.
* Kenworth AG400L rear suspension is for use on trucks only with body types of Beverage, Flatbed, Flatbed utility crane, Service body or Van. See DealerNet for a complete list of application guidelines.
* Kenworth AG400L rear suspension use as a tractor is limited to trailer types of Auto carrier, Bottom dump, Doubles, Triples, Dry van, End dump, Flatbed, Reefer van, and Tank. See DealerNet for a complete list of application guidelines.
* This rear suspension cannot be used with greater than 3% class C road service when specified on a Medium-Duty chassis.
* With 385 front tires this suspension requires 24.5" rear tires for proper frame rake.

Reyco

3726416 Rear suspension: Tandem Reyco 102 40K 4-spring multileaf. 52 in. axle spacing. Steel crossmembers & gussets. 9.6 in. low mount. Unladen height: 9.6 in. Laden height: 8 in. Not rear air disc brake compatible. — $3,544 — 482#

* Not compatible with rear air disc brakes.
* This suspension is only for use with tandem axles.
* With 385 front tires this suspension requires 24.5" rear tires for proper frame rake.

Chalmers

3739202 Rear suspension: Tandem Chalmers 854-40-XL-HS 40K 54 in. axle spacing. Underslung. Unladen Height: 9.3 in. Laden Height: 7.6 in. Not rear air disc brake compatible. — $5,518 — 476#

* Chalmers 854- rear suspensions are for use with tandem axles.
* Not available with 385 front tires.
* Not compatible with rear air disc brakes.
* Tandem Hendrickson beam and Chalmers rear suspensions require an end of frame crossmember with cutoff of 60 inches or less. When cutoff exceeds this length a rear intermediate crossmember will be installed by the factory.

3739203 Rear suspension: Tandem Chalmers 854-40-XL 40K. 54 in. axle spacing. Underslung. Unladen Height: 9.3 in. Laden Height: 6.9 in. Standard restrictor can. Not rear air disc brake compatible. — $5,518 — 476#

* Chalmers 854- rear suspensions are for use with tandem axles.
* Not available with 385 front tires.
* Not compatible with rear air disc brakes.
* Tandem Hendrickson beam and Chalmers rear suspensions require an end of frame crossmember with cutoff of 60 inches or less. When cutoff exceeds this length a rear intermediate crossmember will be installed by the factory.

Chalmers

3739205 Rear suspension: Tandem Chalmers 854-40-L 40K. 54 in. axle spacing. Laden height 8.9 inches, unladen height 11.1 inches. Standard restrictor can. — $5,466 — 462#

* Chalmers 854- rear suspensions are for use with tandem axles.
* Not compatible with rear air disc brakes.
* Tandem Hendrickson beam and Chalmers rear suspensions require an end of frame crossmember with cutoff of 60 inches or less. When cutoff exceeds this length a rear intermediate crossmember will be installed by the factory.
* With 385 front tires this suspension requires 24.5" rear tires for proper frame rake.

3739209 Rear suspension: Tandem Chalmers 854-40-XXH-HS 40K. 54 in. axle spacing. High center of gravity application. For front drive axle only. Not rear air disc brake compatible. — $8,168 — 642#

* Chalmers 854- rear suspensions are for use with tandem axles.
* Not compatible with rear air disc brakes.
* Requires a minimum wheelbase of 195 inches when used with a PX-7 engine and a DSP40/DSP41 and Pro40 rear axle.
* Requires a minimum wheelbase of 199 inches when used with a PX-7 engine and a MT40-14x4 rear axle.
* Requires a minimum wheelbase of 199 inches when used with a PX-9 engine and a DSP40/DSP41 and Pro40 rear axle.
* Requires a minimum wheelbase of 203 inches when used with a PX-9 engine and a MT40-14x4 rear axle.
* This suspension is required with and for use with a front drive axle only.

Hendrickson

3732100 Rear suspension: Tandem Hendrickson HAS402 40K. 52 in. axle spacing. Steel crossmember & gussets with shocks at 7.9 in. height. Includes air suspension dump valve. Not rear air disc brake compatible. — $4,625 — 449#

* Beam or spring rear suspensions are typically used with an asphalt spreader.
* Engineering review and/or vendor approval will be required for Hendrickson air suspensions used as fire trucks.
* Hendrickson HAS suspensions are not available with refuse packer applications.
* Hendrickson HAS402 is incompatible with the DSP40 rear axle or with 3036 spring brake chambers.
* Not available with 385 front tires.
* Not compatible with rear air disc brakes.
* Not for use with refuse roll-off, concrete mixer, oil field rig-up, oil well service, crane/boom, concrete pump, or logger vocations.
* Tandem Hendrickson beam and Chalmers rear suspensions require an end of frame crossmember with cutoff of 60 inches or less. When cutoff exceeds this length a rear intermediate crossmember will be installed by the factory.
* The Hendrickson HAS402 rear suspension is not for use in fire truck application with a body type other than pumper or tank.
* This suspension is only for use with tandem axles.

3732104 Rear suspension: Tandem Hendrickson HAS402 40K. 52 in. axle spacing, 8.8 in. ride height. Steel crossmember and gussets. With shocks. Includes air suspension dump valve. For use with rear air disc brakes only. — $5,207 — 489#

* Hendrickson HAS suspensions are not available with refuse packer applications.
* Only available with rear air disc brakes.
* With 385 front tires this suspension requires 24.5" rear tires for proper frame rake.

40K & Under

Hendrickson

3732114 Rear suspension: Tandem Hendrickson HAS402 40K. 54 in. axle space, 10 in. ride height. Aluminum crossmember and gussets with shocks. Includes air suspension dump valve. Not rear air disc brake compatible. — $4,635 — 450#

* Engineering review and/or vendor approval will be required for Hendrickson air suspensions used as fire trucks.

3737455 Rear suspension: Tandem Hendrickson RT403 40K. 52 in. axle spacing. 7.19 in. saddle height w/barpin bushing. Unladen Height: 10.7 in. Laden Height: 9.7 in. Advertised axle spacing for this rear suspension is a nominal value. Actual spacing may be up to two inches greater than noted. This is important in situations where the body is likely to be pre-built before the chassis is delivered. Tire to body or bracket to body interference may be encountered. Communicate clear space requirements on the sales order. DSP40/P rear axles are not for use with Hendrickson HAS 402, Hendrickson Primaax, or Hendrickson beam-type rear suspensions. Hendrickson RT403 rear suspension for use with tandem axles up to 46K on T8 series. Hendrickson RT403 rear suspension requires bronze center bushings when used in refuse loader or packer applications. — $4,583 — 957#

* Not compatible with rear air disc brakes.
* RT403 with 6" or 7.19" saddle height and DSP40/41(P) require 45 degree interaxle yokes.
* Tandem Hendrickson beam and Chalmers rear suspensions require an end of frame crossmember with cutoff of 60 inches or less. When cutoff exceeds this length a rear intermediate crossmember will be installed by the factory.
* This suspension is only for use with tandem axles.

3737456 Rear suspension: Tandem Hendrickson RT403 40K. 52 in. axle spacing. 6 in. saddle height w/ barpin bushing. Unladen Height: 8.6 in. Laden Height: 7.6 in. — $4,720 — 462#

* Not available with 385 front tires.
* Not compatible with rear air disc brakes.
* RT403 with 6" or 7.19" saddle height and DSP40/41(P) require 45 degree interaxle yokes.
* Tandem Hendrickson beam and Chalmers rear suspensions require an end of frame crossmember with cutoff of 60 inches or less. When cutoff exceeds this length a rear intermediate crossmember will be installed by the factory.
* This suspension is only for use with tandem axles.

44K to 52K

Chalmers

3749201 Rear suspension: Tandem Chalmers 854-46-L 46K. 54 in. axle spacing. Unladen Height: 11.3 in. Laden Height: 8.9 in. Standard restrictor can. — $6,613 — 592#

* Tandem Hendrickson beam and Chalmers rear suspensions require an end of frame crossmember with cutoff of 60 inches or less. When cutoff exceeds this length a rear intermediate crossmember will be installed by the factory.
* Tandem rear suspension for use with axles rated up to 52K.

3749203 Rear suspension: Tandem Chalmers 854-46-L-HS 46K. 54 in. axle spacing. High center of gravity application. Unladen Height: 11.3 in. Laden Height: 9.6 in. — $6,613 — 592#

* Tandem Hendrickson beam and Chalmers rear suspensions require an end of frame crossmember with cutoff of 60 inches or less. When cutoff exceeds this length a rear intermediate crossmember will be installed by the factory.

Hendrickson

3742020	Rear suspension: Tandem Hendrickson Primaax EX462 46K. Steel crossmember & gussets. 54 in. axle spacing. 10 in. ride height. * Hendrickson Primaax 46K rear suspensions for use with tandem rear axles capacities up to and including 46K. Not available in services of mixer or oil field rig-up. * Hendrickson Primaax rear suspensions are available with tandem rear axle capacities under 52K.	$6,717	569#
3742970	Tandem Hendrickson HAULMAAX (HMX) 460 46K. 54 in. axle spacing. With shocks, track rods, rubber bolster bushings and 16.5 in. saddle height. Unladen Height: 10.6 in. Laden Height: 9.5 in. * Tandem Hendrickson beam and Chalmers rear suspensions require an end of frame crossmember with cutoff of 60 inches or less. When cutoff exceeds this length a rear intermediate crossmember will be installed by the factory. * The body type of 'other' is not available, the manufacturer requires definition of what the vehicle body will be installed. * The Hendrickson HMX rear suspensions are not for use on tractor chassis. Incompatible with front drive axles.	$5,621	543#
3747460	Rear suspension: Tandem Hendrickson RT463 46K. 54 in. axle spacing. Steel beams & barpin bushing. 6 in. saddle height. Unladen Height: 11.1 in. Laden Height: 10 in. * Tandem Hendrickson beam and Chalmers rear suspensions require an end of frame crossmember with cutoff of 60 inches or less. When cutoff exceeds this length a rear intermediate crossmember will be installed by the factory. * Tandem rear suspension for use with axles rated up to 52K.	$4,676	1,055#

Suspension Equipment

3830313	Bolted rear suspension crossmembers for AG210L. Replaces T3 standard. * * Required with front axles 13K and greater. * Required with frame rail inserts. * Required with 10-3/4 inch frame rail.	$44	0#
3830502	Delete dash mounted control for air suspension dump valve. Only available with an air suspension.	$0	0#
3832001	Torque rods for 46K PRIMAAX EX using disc brakes. Replacing standard.	$398	23#
3832026	Chalmers shock absorbers. 52K and under suspension.	$423	35#
3832030	Bronze center bushings for Hendrickson 403. * Bronze center bushings for Hendrickson RT403 rear suspensions. * The Hendrickson RT403 rear suspension requires bronze center bushings when used in the refuse loader or packer application.	$200	6#
3832033	Inboard mounted shock absorbers for Hendrickson HAS single or dual. Mounted outboard on forward rear & inboard on rear rear axle. * Inboard mounted shock absorbers are for use on end dumps used to haul and spread asphalt. There is no other application for this option. * This option is for use on Hendrickson air suspensions only. Relocation applies only to the rear axle in a tandem set, forward axle will have the standard outboard mounting.	$47	0#

Suspension Equipment

Option	Description	Price	Weight
3832313	Bolted rear suspension crossmembers for HAS 210/210L or 230/230L. Replaces T3 standard.	$181	4#
	* * Required with front axles 13K and greater. * Required with frame rail inserts. * Required with 10-3/4 inch frame rail.		
	* A heavy-duty rear suspension crossmember is required for use with front axle 13K or greater, a frame insert, or 10-3/4 inch rail. Add sales code 3830313.		
	* Bolted rear suspension crossmember for use with Hendrickson HAS 210 or 230.		
3832315	Bolted rear suspension crossmembers for RT403 or HAS402. Replaces T3 standard.	$12	15#
	* * Required with front axles 13K and greater. * Required with frame rail inserts. * Required with 10-3/4 inch frame rail. * Required with front drive axle.		
	* Bolted rear suspension crossmember for use with RT403 or HAS402 rear suspensions.		
3836300	Rear axle stabilizer bar for Reyco 79KB.	$1,106	66#
	* Rear suspension equipment for use on Reyco 79KB rear suspensions. Not available with 30K or greater rear axles or with front drive axles.		
	* Reyco recommends stabilizer bars for the 79KB rear suspension when the vehicle will be used as a refuse packer.		
3836310	Rear shock absorbers for Reyco 79KB.	$257	35#
	* Rear suspension equipment for use on Reyco 79KB rear suspensions. Not available with 30K or greater rear axles or with front drive axles.		
	* Reyco recommends stabilizer bars for the 79KB rear suspension when the vehicle will be used as a refuse packer.		
3836315	Bolted rear suspension crossmembers for Reyco 79KB. Replaces T3 standard.	$80	41#
	* * Required with front axles 13K and greater. * Required with frame rail inserts. * Required with 10-3/4 inch frame rail. * Required with front drive axle.		
	* * Required with front axles 13K and greater. * Required with frame rail inserts. * Required with 10-3/4 inch frame rail. * Required with front drive axle. * Not available with hydraulic brakes.		
	* A bolted rear suspension crossmember is required with Reyco 79kb rear suspensions and front axle 13K or greater, a frame insert, 10-3/4 inch rails, or front drive axle.		
	* Not available with hydraulic brakes.		
	* Not available with hydraulic brakes.		
3839140	Chalmers 40K severe service upgrade. Use with Chalmers 8xx-40 series suspensions. Separate suspension code required.	$279	16#

Rails & Inserts

Full Frame Inserts

9.875 x 2.875 x 0.25 Steel Insert

6141650	Full Steel Insert for 10-5/8 in. or 10-3/4 in. main rail. Insert length is >348 - 480 in. Adds 1,149,000 in-lb to main rail RBM. Insert weight is 2.05 lb.-in. per pair of rails. Insert length is equal to wheelbase plus rear frame cutoff plus 20.7 in. forward of front axle.	$1,743	0#
	* * Requires bolted centerbearing crossmembers (2409916, or 2409917, or 2409918). * Requires bolted crossmembers: center and rear frame. (6490123, or 6490124). * Requires bolted rear cab support crossmember. s/c 6490430		
	* Frame insert is only for use on the T270/T370 with air brakes. Cannot be used on tractors, full trucks only.		
	* Insert is unavailable with SPL100 drivelines.		
	* This insert is for use with a 10-5/8 or 10-3/4 inch parent rail.		

Partial Frame Inserts

Inserts for 10.625 or 10.75 Main Rail

6289325	Partial Steel Insert: 10-5/8 in. or 10-3/4 in. main rail. Insert length is 10 - 25 ft. Adds 1,149,000 in-lb to main rail RBM. Insert weight is 2.05 lb.-in. per pair of rails.	$1,413	570#
	* * Requires bolted centerbearing crossmembers (2409916, or 2409917, or 2409918). * Requires bolted crossmembers: center and rear frame. (6490123, or 6490124). * Requires bolted rear cab support crossmember. s/c 6490430		
	* Frame insert is only for use on the T270/T370 with air brakes. Cannot be used on tractors, full trucks only.		
	* Insert is unavailable with SPL100 drivelines.		
	* Partial frame insert requires location 6279005.		
	* This insert is for use with a 10-5/8 or 10-3/4 inch parent rail.		
6289335	Partial Steel Insert for 10-5/8 in. or 10-3/4 in. main rail. Insert length is >25 - 35 ft. Adds 1,149,000 in-lb to main rail RBM. Insert weight is 2.05 lb.-in. per pair of rails.	$1,685	798#
	* * Requires bolted centerbearing crossmembers (2409916, or 2409917, or 2409918). * Requires bolted crossmembers: center and rear frame. (6490123, or 6490124). * Requires bolted rear cab support crossmember. s/c 6490430		
	* Frame insert is only for use on the T270/T370 with air brakes. Cannot be used on tractors, full trucks only.		
	* Insert is unavailable with SPL100 drivelines.		
	* Partial frame insert requires location 6279005.		
	* This insert is for use with a 10-5/8 or 10-3/4 inch parent rail.		

Partial Frame Insert Location

6279005	Locate Partial Frame Inserts under cab to end-of-frame.	$0	0#
	* Frame insert is only for use on the T270/T370 with air brakes. Cannot be used on tractors, full trucks only.		

Bumpers

Bumper Style

Aerodynamic

6308710	Bumper: Aerodynamic, Painted. Requires a bumper setting code.	STD	0#
6308714	Bumper: Aerodynamic Chrome. Requires a bumper setting code. Use with T170 only.	$586	0#
6308715	Bumper: Aerodynamic Chrome Requires a bumper setting code.	$465	0#

Option	Description	Price	Weight

Bumpers

Bumper Style

Steel Channel

6301210	Bumper: Steel painted gray.	$308	0#
	* The T170 model uses a steel bumper, no options. Standard bumper color is painted gray.		
6301438	Bumper straight heavy duty .25 in. steel, painted channel. Requires a bumper setting code.	$670	57#

Other Bumper Style

6309910	Delete bumper: Requires a bumper setting code.	($240)	-24#
	* Chassis specified without a bumper are considered incomplete vehicles and cannot be driven on the highway with the component missing. This restriction dictates special delivery requirements.		
	* The delete bumper option requires a do not drive warning. Standard delivery may not be available.		
	* The deletion of a bumper is applicable only to incomplete vehicles. Only a full truck meets the incomplete vehicle requirements for the Medium-Duty product line.		
6309912	Delete bumper: For use with heavy duty front frame brackets for customer installed winch bumper. Requires a bumper setting code.	$0	-24#
	* Chassis specified without a bumper are considered incomplete vehicles and cannot be driven on the highway with the component missing. This restriction dictates special delivery requirements.		
	* The delete bumper option requires a do not drive warning. Standard delivery may not be available.		
	* The deletion of a bumper is applicable only to incomplete vehicles. Only a full truck meets the incomplete vehicle requirements for the Medium-Duty product line.		

Bumper Setting

6319409	40.9 in. Bumper setting. Requires a bumper code.	$0	0#
	* A bumper setting is required in addition to a bumper style on vehicles with a 2007+ engine.		

Bumper Equipment

6321005	Removable Front Tow Hooks: 2.	$253	15#
	* Heavy duty front frame brackets for C/I winch bumper not compatible with the removable front tow hooks code 6321005. Front frame includes a pair of Rams Horn tow hooks.		
	* If this chassis is being delivered to a body builder you may want to consider ordering tow pins to help facilitate undecking per TA005 Section 7.		
	* This tow hook is NFPA compliant when specified on the T270 and T370 models.		

Front Frame Miscellaneous

6390031	Steel plate reinforcement .25in. thick. Required w/combination of AG210 & 9-7/8 steel frame rail.	$1,393	30#
	* Frame reinforcement is required with 9-7/8 rail and AG210 together.		
6390078	Heavy duty front frame brackets provide structure for customer installed winch bumper	$1,395	101#
	* 10-3/4 inch frame rail is required with any intended services or body types for crane application (codes 0093125, 0085145, 0095151, 0095153).		
	* Heavy duty front frame brackets for C/I winch bumper not compatible with the removable front tow hooks code 6321005. Front frame includes a pair of Rams Horn tow hooks.		
	* Heavy duty front frame brackets for C/I winch bumper requires delete bumper code 6309912.		
	* Not available with 16K or greater non front drive axles with front frame raised 1.5".		
6390103	Front mudflaps.	STD	0#

Option	Description	Price	Weight

Battery Boxes

Parallel

6404400	Battery box: Steel parallel under cab w/ABS cover * The battery box required for and only for use on the T170 model.	($450)	-92#
6404406	Battery box: Steel parallel under w/ aluminum diamond plate cover w/ step w/ aluminum step brackets. * Parallel steel battery box under the cab is not for use with on the T170 model.	STD	0#
6404411	Battery box: Narrow steel parallel under cab with aluminum diamond plate cover with step. LH under cab. Battery box is 150 mm narrower than the standard battery box. Use with two or three batteries and small round DEF tank LH under cab. Air tanks will be frame mounted. Air dryer must be frame mounted or under the hood. Use with RH under exhaust. * The combination of the narrow under cab battery box (6404411) and an engine block heater requires the engine block heater receptacle to be mounted to the left hand fender (1500035).	$793	-25#

Cantilever

6400636	Battery box cantilever aluminum BOC w/ fiberglass cover. * A battery box across the rails behind the cab or in the cab is only available on the T170 when dual 45 gallon rectangular fuel tanks are located under the cab. * Behind cab battery box cannot be used in combination with horizontal crossover style exhaust systems. * The optional cantilever battery box is available in the LH back of cab position only.	$29	0#

Across or Between Rails BOC

6400631	Battery box: Temporary across the rails. * Behind cab battery box cannot be used in combination with horizontal crossover style exhaust systems.	$105	-99#

In-Cab

6405000	In-cab steel battery box: under rider seat or in stand alone box. Requires appropriate AGM battery code, which varies by model, and appropriate rider seat code be selected prior to entering the workscreen. Includes 1 battery disconnect switch. * A battery box across the rails behind the cab or in the cab is only available on the T170 when dual 45 gallon rectangular fuel tanks are located under the cab. * Jump start terminals are recommended for use with an in-cab battery box. * The in-cab battery box can be used with either a passenger side battery box style seat or with deletion of the passenger seat. * The in-cab battery box requires Optima batteries, quantities of two or three.	$1,724	-41#

Battery Box Locations

6409901	Battery box location: LH Side.	$0	0#
6409906	In-Cab battery box location: Under rider seat.	$0	0#
6409908	Battery box location: BOC across the rails. * A battery box across the rails behind the cab or in the cab is only available on the T170 when dual 45 gallon rectangular fuel tanks are located under the cab.	$0	0#

Option	Description	Price	Weight

Center Frame Equipment

Frame Access

Grabhandles

6410010	Frame access grabhandle(s) LH mounted. Placement and quantity of grabhandles may vary due to FMCSR frame access requirements. * All orders must have complete frame access if any one of the three components is selected. Step and grab handle on the same side of the vehicle accompanied by deck plate. * Any changes to the rear cab area must comply with FMCSR 399. * Grab handles on the back of the cab or sleeper are for use on tractors only.	$48	0#
6410011	Frame access grabhandle(s) RH mounted. Placement and quantity of grabhandles may vary due to FMCSR frame access requirements. * All orders must have complete frame access if any one of the three components is selected. Step and grab handle on the same side of the vehicle accompanied by deck plate. * Any changes to the rear cab area must comply with FMCSR 399. * Grab handles on the back of the cab or sleeper are for use on tractors only.	$48	0#

Deckplate

6414002	Short aluminum frame access deck plate, 24 in. unless only 12 in. fits.	$103	10#
6414003	Medium aluminum frame access deck plate, 36 in.	$184	15#
6414006	Full aluminum frame access deck plate. Provides up to 72 in. of deck plate filling the space from hoses to fifth wheel.	$261	24#

Steps

6417007	Frame access steps: 2 ladder-type, RH mount. Available when rear of tank extends less than 24 in. behind rear of cab, sleeper, or side extender. * Ladder steps require deck plate or box between the rails which has deck plate attached to the cover to help complete the frame access package. Total package involves a grab handle on any side of the chassis where a frame access step is present.	$133	15#
6417009	Frame access steps: 2 for fuel/hydraulic tank BOC, RH mount. Available when rear of tank under extends more than 14 in. behind rear of cab, sleeper, or side extender. For tanks located totally behind a cab or sleeper the front of the tank must be within 14 in. from the rear of cab, sleeper, or side extender. * Fuel/Hydraulic frame access steps require deck plates, grab handles and the tanks located back of cab.	$147	6#
6418006	Frame access steps: 2 ladder-type, LH mount. Available when rear of tank extends less than 24 in. behind rear of cab, sleeper, or side extender. * Ladder steps require deck plate or box between the rails which has deck plate attached to the cover to help complete the frame access package. Total package involves a grab handle on any side of the chassis where a frame access step is present.	$133	15#
6418008	Frame access steps: 2 for fuel/hydraulic tank BOC, LH mount. Available when rear of tank under extends more than 14 in. behind rear of cab, sleeper, or side extender. For tanks located totally behind a cab or sleeper the front of the tank must be within 14 in. from the rear of cab, sleeper, or side extender. * Fuel/Hydraulic frame access steps require deck plates, grab handles and the tanks located back of cab.	$147	6#

Box Step Options

6409715	Ladder-type step LH under cab below battery box or toolbox. * Left hand under cab battery box requires that a step be added under the box for cab ingress/egress when a front drive axle is specified.	$188	20#

Option	Description	Price	Weight
	Center Frame Equipment		
	Box Step Options		
6409716	Ladder-type step RH under cab below battery box or toolbox or DPF - SCR.	$188	20#
	* Right hand under cab battery box, toolbox, or DPF/SCR cab access assembly requires that a step be added under the box for cab ingress/egress when a front drive axle is specified.		
6474400	Steel cab access: Under cab, use location code.	$585	0#
	* Cab access step required for and only for use on the T170 model.		
	* The cab entry step is exclusive to the T170 product and can never be used in combination with a toolbox under the cab.		
6479940	Cab access location: RH side.	$585	0#
	Toolboxes		
6474349	Steel toolbox: Under cab, aluminum diamond plate cover w/step, w/o lock.	$613	138#
	* The optional toolbox can be used in the RH under cab position only.		
	* The toolbox will be located in the RH under cab position and cannot be used with exhaust styles that include a DPF/SCR in this location.		
	* There is no option for a toolbox under the cab on a T170.		
6474352	Tool box: Narrow steel parallel under cab with aluminum diamond plate cover with step. RH under cab. Tool box is 150 mm narrower than other parallel under tool boxes. Use with small round DEF tank RH under cab. Use with horizontal exhaust.	$1,369	139#
	Toolbox Locations		
6479902	Toolbox location: RH side.	$0	0#
	DPF-SCR Covers		
6451059	T270/370 Non-polished 2010 or later DPF/SCR cover with cab access step assembly, RH under. End plates will be painted standard black frame color.	$0	0#
	* DPF/SCR under cab assembly for Medium-Duty chassis with 2010 EPA compliant engines.		
	Frame Crossmembers & Upgrades		
6490122	Welded Steel Crossmembers: Center and Rear Frame. Standard crossmember.	$0	0#
	* * Not available with front axles 13K and greater * Not available with front drive axles * Not available with frame inserts * Not available with 10-3/4 in frame rails		
6490123	Bolted crossmembers with 12mm frame fasteners. For center and rear frame.	$166	-22#
	* Not available on T170		
	* Required with front axles 13K to 14.6K without frame inserts		
	* Required with front axles up to 14.6K with 10-3/4 in frame rails		
	* Required with front axles up to 14.6K with frame inserts		
	* Required with front drive axles up to 14K		

Option	Description	Price	Weight

Frame Crossmembers & Upgrades

6490124	Bolted crossmembers with 16mm frame fasteners. For center and rear frame. * * Required with front axles 16K and greater with 10-3/4 in frame rails * Required with front axles 16K and greater with or without frame inserts. * Required with front drive axle at 16K * Not available on T170	$173	-22#
6490430	Bolted Rear Cab Support Crossmember. Replaces T3 standard. * * Required with front axles 13K and greater. * Required with front drive axles. * Required with frame inserts. * Required with 10-3/4" frame rails. * Required with tractors. * Bolted style rear cab support crossmember is not for use with hydraulic brakes unless the chassis is a hybrid. * Hybrid vehicles require the use of the bolted style rear cab support crossmember. * Medium-duty tractors require a bolted rear cab support crossmember. * Not available on T170	$127	17#

Center Frame Clear Space

6491011	One clear frame space area without custom frame layout. Use with first clear frame space area code or customer-installed APU code when not using a custom frame layout code.	$293	0#
6491012	Two clear frame space areas without custom frame layout. Use with first and second clear frame space area codes or customer-installed APU code when not using a custom frame layout code.	$585	0#

First Request Area

6497101	First - LH outside rail only. Clear frame space area. Does not include fasteners or piping. Requires a supplemental length and location code. The actual chassis layout will be determined at time of engineering.	$0	0#
6497102	First - RH outside rail only. Clear frame space area. Does not include fasteners or piping. Requires a supplemental length and location code. The actual chassis layout will be determined at time of engineering.	$0	0#
6497103	First - LH below rail only. Clear frame space area. Does not include fasteners or piping. Requires a supplemental length and location code. Sales tool graphics do not depict interference between requested location and other frame-mounted components. The actual chassis layout will be determined at time of engineering.	$0	0#
6497104	First - RH below rail only. Clear frame space area. Does not include fasteners or piping. Requires a supplemental length and location code. Sales tool graphics do not depict interference between requested location and other frame-mounted components. The actual chassis layout will be determined at time of engineering.	$0	0#
6497105	First - LH outside and LH below rail only. Clear frame space area. Does not include fasteners or piping. Requires a supplemental length and location code. Sales tool graphics do not depict interference between requested location and other frame-mounted components. The actual chassis layout will be determined at time of engineering.	$0	0#
6497106	First - RH outside and RH below rail only. Clear frame space area. Does not include fasteners or piping. Requires a supplemental length and location code. Sales tool graphics do not depict interference between requested location and other frame-mounted components. The actual chassis layout will be determined at time of engineering.	$0	0#
6497107	First - between rails only. Clear frame space area. Does not include BOC crossmember, fasteners or piping. Requires a supplemental length and location code. Sales tool graphics do not depict interference between requested location and other frame mounted components. The actual chassis layout will be determined at time of engineering.	$0	0#

Miscellaneous Center Frame Equipment

6679904	Fifth wheel setting is outside standard range. Required when fifth wheel setting is more than 30 in. from bogie. * Fifth wheels positioned with a rear or fixed setting more than 30 inches from bogie are subject to an additional charge. This includes factory installed fifth wheels, angles or drillings for aftermarket fifth wheels.	$585	0#

Body Builder Requirements

6390091	Frame layout picture to dealer prior to build date. Information only, no changes. This provides basic frame layout illustration in a PDF file. Adobe Reader or other software capable of viewing PDF files is required on your computer. A copy of the frame layout can be obtained once the engineering work has been completed. This drawing will help the body builder define clearance requirements for the chassis.	$585	0#
6390097	DXF frame layout to dealer prior to build date. Information only, no changes. This provides a frame layout in a .DXF format data file suitable for use w/ many CAD programs. * With this option an electronic copy of the chassis frame layout will be forwarded to the dealership. The data is not viewable without the use of CAD oriented software. There is another option to have a paper copy of the chassis dimensions faxed to the dealership.	$1,171	0#
6391201	Custom Frame Layout: one chassis	$1,380	0#
6391202	Custom Frame Layout: two chassis	$690	0#
6391203	Custom Frame Layout: 3-4 chassis	$375	0#
6391205	Custom Frame Layout: 5-9 chassis	$200	0#
6391210	Custom Frame Layout: 10-24 chassis	$100	0#
6391225	Custom Frame Layout: 25-49 chassis	$40	0#

Option	Description	Price	Weight
	Body Builder Requirements		
6391250	Custom Frame Layout: 50 or more chassis	$30	0#
6679860	Final end-of-frame cut-off dimension will be modified to less than or equal to 65 inches.	$0	0#
6679862	Final end-of-frame cut-off dimension will be modified to 66 in. to 74 in.	$0	0#
6679864	Final end-of-frame cut-off dimension will be modified to greater than or equal to 75 in.	$0	0#
6679914	Any changes to rear cab/sleeper area must comply w/FMCSR 399.	$0	0#
6679915	Customer-installed bulkhead and/or headache rack. * This body is indicative types that utilize an aftermarket headache rack. In those cases the frame access package must be altered after the vehicle is delivered to accommodate the installation of a headache rack and retain compliance with FMCSR 399.	$0	0#
6679995	Customer will install structural end-of-frame crossmember before vehicle is placed in service. * This warning states the dealers intent for the body builder to meet the structural end of frame requirement associated the installation of a heavy-duty end of frame crossmember.	$0	0#
6790003	Special frame drill: dealer to provide drawing with dimensions and revision level. Acceptable hole diameters range from 10.2 mm to 40.4 mm. Preferred file format is .pdf. Not for use for rear suspension, fifth wheel or other published frame drilling code. Does not replace clear frame space requests or custom frame layout.	$1,171	0#
	Fifth Wheels		
	Holland Fixed Fifth Wheels		
6541232	Fifth Wheel: Fixed, Holland FW17Y700XL00 7.12 in. height. Outboard mounting angles, 50K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,255	378#
6541234	Fifth Wheel: Fixed, Holland FW17Y800XL00 8.12 in. height. Outboard mounting angles, 50K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,253	383#
6541236	Fifth Wheel: Fixed, Holland FW17Y900XL00 9.12 in. height. Outboard mounting angles, 50K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,275	388#
6541401	Fifth Wheel: Fixed, Holland FW31Z700XL00 7.00 in. height. No lube. Outboard mounting angles, 55K vertical rating. Accomodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,605	392#
6541403	Fifth Wheel: Fixed, Holland FW31Z800XL00 8.00 in. height. No lube. Outboard mounting angles, 55K vertical rating. Accomodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,603	402#
6541670	Fifth Wheel: Fixed, Holland FW35Y600XL00 6.00 in. height. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,346	396#
6541672	Fifth Wheel: Fixed, Holland FW35Y700XL00 7.00 in. height. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,344	402#
6541673	Fifth Wheel: Fixed, Holland FW35Y700XR00 7.00 in. height. Outboard mounting angles, 55K vertical rating, RH release. The code for additional factory drilled settings is available. Accomodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,344	402#
6541675	Fifth Wheel: Fixed, Holland FW35Y800XL00 8.00 in. height. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,343	401#

Jost Fixed Fifth Wheels

6591043	Fifth Wheel: Fixed, Jost JSK37USB-PM7X 7.16 in. height. Outboard mounting angles, 50K vertical rating, retractable LH handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,398	427#
6591046	Fifth Wheel: Fixed, Jost JSK37USB-PM9X 9.16 in. height. Outboard mounting angles, 50K vertical rating, retractable LH handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,399	438#
6591059	Fifth Wheel: Fixed, Jost JSK37USB-DB6X 5.85 in. height. Outboard mounting angles, 50K vertical rating, retractable LH handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Medium-duty tractors require a bolted rear cab support crossmember.	$1,276	359#
6591060	Fifth Wheel: Fixed, Jost JSK37USB-DB7X 6.85 in. height. Outboard mounting angles, 50K vertical rating, LH retractable handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Medium-duty tractors require a bolted rear cab support crossmember.	$1,276	361#
6591061	Fifth Wheel: Fixed, Jost JSK37USB-DB8X 7.85 in. height. Outboard mounting angles, 50K vertical rating, LH retractable handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Medium-duty tractors require a bolted rear cab support crossmember.	$1,316	365#
6591062	Fifth Wheel: Fixed, Jost JSK37USB-DB9X 8.85 in. height. Outboard mounting angles, 50K vertical rating, LH retractable handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,315	372#
6591176	Fifth Wheel: Fixed, Jost JSK37USA-DB8X 7.85 in. height. Outboard mounting angles, 50K vertical rating, LH air kingpin release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,574	368#
6591610	Fifth Wheel: Fixed, Jost JSK36NSL-DB6X 5.85 in. height. Lightweight top plate. Outboard mounting angles, 45K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,174	329#
6591611	Fifth Wheel: Fixed, Jost JSK36NSL-DB7X 6.85 in. height. Lightweight top plate. Outboard mounting angles, 45K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,174	331#
6591612	Fifth Wheel: Fixed, Jost JSK36NSL-DB8X 7.85 in. height. Lightweight top plate. Outboard mounting angles, 45K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,174	335#
6591613	Fifth Wheel: Fixed, Jost JSK36NSL-DB9X 8.85 in. height. Lightweight top plate. Outboard mounting angles, 45K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,174	342#

Fifth Wheels

Holland Air-Sliding Fifth Wheels

6542430	Fifth Wheel: ILS<=40K air Hol FW17J936XL00 36 in. slide, 8.8 in. height. Outboard mounting angles, 50K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. Limited to use with 40K & under suspensions. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Medium-duty tractors require a bolted rear cab support crossmember.	$1,879	544#
6543021	Fifth Wheel: ILS<=40K air Hol FW35J712XL00 12 in. slide, 6.8 in. height. Outboard mounting angles, 55K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. Limited to use with 40K & under suspensions. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Medium-duty tractors require a bolted rear cab support crossmember.	$1,818	466#
6543046	Fifth Wheel: ILS<=40K air Hol FW17J912XL00 12 in. slide, 8.8 in. height. Outboard mounting angles, 50K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Medium-duty tractors require a bolted rear cab support crossmember.	$1,628	449#
6543047	Fifth Wheel: ILS<=40K air Hol FW17J812XL00 12 in. slide, 7.8 in. height. Outboard mounting angles, 50K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Medium-duty tractors require a bolted rear cab support crossmember.	$1,629	445#
6543052	Fifth Wheel: ILS<=40K air Hol FW35J836XL00 36 in. slide, 7.8 in. height. Outboard mounting angles, 55K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. Limited to use with 40K & under suspensions. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Medium-duty tractors require a bolted rear cab support crossmember.	$2,086	566#
6543054	Fifth Wheel: ILS<=40K air Hol FW35J924XL00 24 in. slide, 8.8 in. height. Outboard mounting angles, 55K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. Limited to use with 40K & under suspensions. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Medium-duty tractors require a bolted rear cab support crossmember.	$1,779	522#
6543086	Fifth Wheel: ILS<=40K air Hol FW31J812XL00 12 in. slide, 8.1 in. height. No lube. Outboard mounting angles. 55K. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. Limited to use with 40K & under suspensions. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Medium-duty tractors require a bolted rear cab support crossmember.	$2,105	496#
6543210	Fifth Wheel: ILS<=40K air Hol FW35J724XL00 24 in. slide, 6.8 in. height. Outboard mounting angles, 55K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. Limited to use with 40K & under suspensions. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Medium-duty tractors require a bolted rear cab support crossmember.	$1,781	513#

Fuel Tank Steps

7831008	6in. wide lower fuel tank step, for one 22in. or 24.5in. tank LH. * Six inch wide lower step mounted to fuel tank under the cab requires a 56, 75 or 100 gallon round fuel tank under the cab on the same side. * This 6 inch wide lower step option is for use with a single fuel tank in the LH under cab position.	$28	2#
7831016	Lower fuel tank step 6in. wide for one 22in. 56 gallon RH under tank. * Six inch wide lower step mounted to fuel tank under the cab requires a 56, 75 or 100 gallon round fuel tank under the cab on the same side. * This 6 inch wide lower step option is for use only with a 22 inch x 56 gallon tank is specified in the RH under cab position.	$27	4#
7831030	Fuel Tank Steps: 6in. wide upper & lower F/1 RH under round tank 22in. NFPA Compliant. * For 56 gallon x 22 inch diameter fuel tank RH under cab. * Not for use with tanks steps extended BOC for frame access.	$158	8#
7831032	Fuel Tank Steps: 6in. wide upper & lower F/1 LH under round tank 22in. NFPA Compliant. * For 56 gallon x 22 inch diameter fuel tank LH under cab. * Not for use with tanks steps extended BOC for frame access.	$158	8#
7831034	Fuel Tank Steps: 6in.wide upper & lower 1RH/1LH under round tank 22in. Only NFPA Compliant. * For 56 gallon x 22 inch diameter fuel tanks LH & RH under cab. * Not for use with tanks steps extended BOC for frame access.	$317	16#
7831040	Fuel Tank Steps: 6in. wide upper & lower F/1 RH under round tank 24.5in. NFPA Compliant. Includes fuel tank crossbrace. * Not for use with tanks steps extended BOC for frame access.	$150	8#
7831042	Fuel Tank Steps: 6in. wide upper & lower F/1 LH under round tank 24.5in. NFPA Compliant. Includes fuel tank crossbrace.	$150	8#
7831044	Fuel Tank Steps: 6in.wide upper & lower 1RH/1LH under round tank 24.5in. NFPA Compliant. Includes fuel tank crossbrace. * Not for use with tank steps extended BOC for frame access.	$300	16#
7839715	Ladder-type step below fuel tank under cab - LH side. * Left hand under cab fuel tank requires that a step be added under the box for cab ingress/egress when a front drive axle is specified.	$204	20#
7839716	Ladder-type step below fuel tank under cab - RH side. * Right hand under cab fuel tank requires that a step be added under the box for cab ingress/egress when a front drive axle is specified.	$204	20#

Option	Description	Price	Weight

Fuel Tank Equipment

Tank Supports

7814003	Steel raised tank supports 1 in.under cab. For T3 two 22in. fuel tanks only.	$305	0#
	* Not available with 16K or greater non front drive axles with front frame raised 1.5".		
	* Not available with 16K/18K/20K front axle or front drive axle.		
	* Not available with combination of front tires over 42.5 inches in diameter and fuel tank steps.		
	* Not available with fuel tanks mounted back of cab on tractors.		
	* Not available with the combination of LH under fuel tank and trailer connections.		
	* Only available on T270/T370 with 22" round aluminum fuel tanks.		
	* Required when front 19.5 inch tires and 22 inch diameter fuel tanks are used together.		
	* Required when rear 19.5 inch tires and 22 inch diameter fuel tanks are used together.		
7814004	Steel raised tank supports 1 in.under cab. For T3 one 22in. fuel tank only.	$153	0#
	* Not available with 16K or greater non front drive axles with front frame raised 1.5".		
	* Not available with 16K/18K/20K front axle or front drive axle.		
	* Not available with combination of front tires over 42.5 inches in diameter and fuel tank steps.		
	* Not available with fuel tanks mounted back of cab on tractors.		
	* Not available with the combination of LH under fuel tank and trailer connections.		
	* Only available on T270/T370 with 22" round aluminum fuel tanks.		
	* Required when front 19.5 inch tires and 22 inch diameter fuel tanks are used together.		
	* Required when rear 19.5 inch tires and 22 inch diameter fuel tanks are used together.		
7814013	Steel raised tank supports 1 in BOC. For two T3 22in. fuel tanks only.	$305	0#
	* Not available with 16K or greater non front drive axles with front frame raised 1.5".		
	* Not available with 16K/18K/20K front axle or front drive axle.		
	* Not available with combination of front tires over 42.5 inches in diameter and fuel tank steps.		
	* Not available with fuel tanks mounted back of cab on tractors.		
	* Not available with the combination of LH under fuel tank and trailer connections.		
	* Only available on T270/T370 with 22" round aluminum fuel tanks.		
	* Required when front 19.5 inch tires and 22 inch diameter fuel tanks are used together.		
	* Required when rear 19.5 inch tires and 22 inch diameter fuel tanks are used together.		
7814014	Steel raised tank supports 1 in.BOC. For one T3 22in. fuel tank only.	$153	0#
	* Not available with 16K or greater non front drive axles with front frame raised 1.5".		
	* Not available with 16K/18K/20K front axle or front drive axle.		
	* Not available with combination of front tires over 42.5 inches in diameter and fuel tank steps.		
	* Not available with fuel tanks mounted back of cab on tractors.		
	* Not available with the combination of LH under fuel tank and trailer connections.		
	* Only available on T270/T370 with 22" round aluminum fuel tanks.		
	* Required when front 19.5 inch tires and 22 inch diameter fuel tanks are used together.		
	* Required when rear 19.5 inch tires and 22 inch diameter fuel tanks are used together.		

Option	Description	Price	Weight

Fuel Tank Equipment

Tank Miscellaneous

7889021	Fuel tank locking cap(s). Not available w/ hydraulic tank. Tank lock does not match ignition/cab/sleeper locks. * If your order is a fleet you may consider requesting all fuel caps for the chassis be keyed alike. See code 7889227. * Locking fuel caps and fuel anti-siphon devices are not compatible with rectangular steel fuel tanks. * Locking fuel caps are incompatible with the fuel anti-siphon device. When the locking caps are ordered the anti-siphon device will not be present.	$60	0#
7889227	Fuel tank caps for a fleet keyed alike. Use w/ locking fuel tank cap code 7889021. * Locking fuel caps and fuel anti-siphon devices are not compatible with rectangular steel fuel tanks.	$25	0#
7889245	Anti-siphon device swaged in place. For any number of fuel tanks. * Locking fuel caps and fuel anti-siphon devices are not compatible with rectangular steel fuel tanks. * Locking fuel caps are incompatible with the fuel anti-siphon device. When the locking caps are ordered the anti-siphon device will not be present.	$53	1#

Diesel Fuel Tank Location

7910030	Location: 30 gal fuel tank RH under cab.	$0	0#

DEF Tanks & Equipment

Tanks

7722008	Rectangular DEF tank. 7.5 gallons of useable volume. The tank will be located just forward of the under cab component on the side you specified. Standard capacity is calculated by fuel capacity of the vehicle and will accommodate two diesel fill-ups for every DEF fill-up. For 1:1 DEF fuel fill ratio, add 7889204.	STD	0#
7722011	Small round DEF tank. 11 gallons of useable volume. The DEF tank will be located on the side you specified. If you have specific configuration or body builder concerns, please utilize the Custom Frame Layout option. Standard capacity is calculated by fuel capacity of the vehicle and will accommodate two diesel fill-ups for every DEF fill-up. For 1:1 DEF fuel fill ratio, add 7889204.	$261	0#
7722019	Medium round DEF tank. 20.7 gallons of useable volume. The DEF tank will be located on the side you specified. If you have specific configuration or body builder concerns, please utilize the Custom Frame Layout option. Standard capacity is calculated by fuel capacity of the vehicle and will accommodate two diesel fill-ups for every DEF fill-up. For 1:1 DEF fuel fill ratio, add 7889204.	$338	32#

DEF Tank Miscellaneous

7840038	Polished cover for 1 DEF tank any size. * The polished DEF tank cover obstructs the view of the DEF tank/straps. There is no provision to order polished straps in combination with the polished cover. * This DEF tank polish option is for use only with the round tanks. Not available with the clear BOC or rectangular shaped tanks.	$272	3#

Option	Description	Price	Weight

DEF Tanks & Equipment

DEF Tank Miscellaneous

7889098	Polished straps for 1 DEF Tank any size.	$52	0#
	* The polished DEF tank cover obstructs the view of the DEF tank/straps. There is no provision to order polished straps in combination with the polished cover.		
	* This DEF tank polish option is for use only with the round tanks. Not available with the clear BOC or rectangular shaped tanks.		
7889203	Standard DEF to fuel fill ratio: 2:1 or greater.	$0	0#
7889204	Optional DEF to fuel fill ratio between 1:1 and 2:1.	$0	0#

DEF Tank Location

7889603	DEF tank location is on the RH.	$0	0#
	* Horizontal under rail exhaust cannot be used with a DEF tank on the right hand rail behind the cab.		
7889604	DEF tank location is on the LH.	$0	0#
	* Horizontal exhaust cannot be used with a DEF tank on the left hand rail except for a small round DEF tank located directly behind the narrow under cab battery box.		

Option	Description	Price	Weight

Cabs

8024310	Cab: Curved Glass Conventional. Cab Includes aluminum & fiberglass fully hucked cab w/ all aluminum bulkhead doors & continuous stainless steel piano-style door hinges. Single electric horn standard. Incandescent exterior lights include diagnosable bulb detection and warning. Trailer cable on tractors includes integrity detection. Standard features include multiplex wiring for interior lights, automated pre-trip inspection, short and open check diagnostics. Warning alarm will sound when lights are left on.	STD	0#

Windows

Rear Cab

8871438	Rear Cab Stationary Window 17 in. x 36 in.	STD	0#
8873795	Rear cab sliding window 17 in. x 36 in.	$106	2#
8879922	Solid rear wall. Deletes rear cab window.	$0	-15#

Corner & Rear Cab

8879911	Two corner & one rear cab stationary windows 17.5 in. x 16 in. (two) & 17 in. x 36 in. (one). * Rear cab corner windows are not for use with side extenders as the options cover the cab corners.	$550	24#

RH Peeper Door

8879590	Fresnel lens for peeper window, RH door 10-1/8 in. X 11-1/8 in. Replaces standard peeper window.	$62	0#

Hoods, Fenders & Grilles

Hoods, Fenders & Grilles

8090310	Hood: Sloped aerodynamic hood includes grill & separate bumper.	STD	0#
8890347	Wheelwell FNDR Extension: 4.9in Thermoplastic. Covers Tread Width Up To 102in.	$273	6#

Cab & Sleeper Aerodynamic Devices

Airshield Roof Fairing

8823010	One piece roof fairing without side trim tabs. Brackets are painted and installed at plant. Roof fairing is shipped to dealer from supplier for paint and installation. *No rubber extender included. * Not available with any roof mounted lights.	$940	88#
8824302	Two piece Cab roof fairing without side trim tabs. Fairing has base/clear coat (EB) finish and is nested for delivery. *No rubber extender. * 2 piece roof fairings are not available with metallic or pearl paint. * Must be used with sunvisor that includes integrated marker lights. * Not for use with cab mounted markeror beacon lights.	$2,237	76#
8824402	Two piece Cab roof fairing without side trim tabs. Fairing has single stage paint (EA) finish (single stage paint with no clear coat) and is nested for delivery. *No rubber extender. * 2 piece roof fairings are not available with metallic or pearl paint. * Must be used with sunvisor that includes integrated marker lights. * Not for use with cab mounted markeror beacon lights.	$2,250	76#

Option	Description	Price	Weight

Cab & Sleeper Aerodynamic Devices

Airshield Roof Fairing

8824902	Two piece Cab roof fairing without side trim tabs. Fairing has White Gel-coat finish and is nested for delivery. *No rubber extender. * 2 piece roof fairings are not available with metallic or pearl paint. * Must be used with sunvisor that includes integrated marker lights. * Not for use with cab mounted markeror beacon lights.	$2,250	76#

Other

8821914	Brackets only for TWO-piece roof fairing. *Dealer to source roof fairing. * Must be used with sunvisor that includes integrated marker lights. * Not for use with cab mounted markeror beacon lights.	$202	11#
8821916	Brackets only for ONE-piece roof fairing. *Dealer to source roof fairing. * Not available with any roof mounted lights.	$174	11#

Cab Structure Miscellaneous

8080137	Cab door bearing blocks, top & bottom. * Cab door bearing blocks are required when a front drive axle is specified. * This option is not available on the T170 model.	$29	0#

Cab Access

8800200	Cab access contoured grabhandles, LH/RH.	STD	0#
8800377	LH & RH NFPA Compliant Grabhandles * Intended Service must be Fire Related (Fire Truck Service with NFPA Compliance Kit *or* EMT/ Rescue Service) * NFPA compliance requires NFPA grab handles. There is an interference issue with side of cab exhaust. When this exhaust is specified the body builder is required to add compliant handles. * This option is not available on the T170 model.	$280	4#
8800400	Grabhandle LH inside door frame above dash.	$28	0#
8800401	Grabhandle RH inside door frame above dash.	$28	2#
8800733	Grabhandle LH w/ short extension over door. * Grab handles on both sides of cab must match. * Grab handles with short extension over the doors interfere with side of cab exhaust for export engines. * This option is not available on the T170 model.	$37	4#
8800734	Grabhandle RH w/ short extension over door. * Grab handles on both sides of cab must match. * Grab handles with short extension over the doors interfere with side of cab exhaust for export engines. * This option is not available on the T170 model.	$37	4#

Option	Description	Price	Weight

Horns

Air Horns

8841303	Single Rectangular Air Horn 23 in. LH Top of Roof Includes Air Horn Cover. * Air horns can be used on hydraulic brakes chassis only if the accessory air system is coded. * Air horns require air brakes or an accessory air system on hydraulic braked chassis.	$162	6#
8841411	Single air horn under cab. * Air horns require air brakes or an accessory air system on hydraulic braked chassis. * Not available on T3 tractor with RH Under DPF/SCR.	$102	3#
8841618	Dual rectangular air horn 23 in. LH & RH top of roof. Includes air horn covers. * Air horns can be used on hydraulic brakes chassis only if the accessory air system is coded. * Air horns require air brakes or an accessory air system on hydraulic braked chassis.	$247	11#
8841629	Air Horn Mounted On Rear Side of LHUC Battery Box	$109	2#
8841630	Air Horn Mntd Inbd On LH Under Cab Fuel Tank Supp * Air horns require air brakes or an accessory air system on hydraulic braked chassis. * Requires round aluminum fuel tank mounted LH under cab	$109	2#

Other

8845105	Solenoid, switch & wiring for customer-installed air horn on T300 chassis. If the chassis has hydraulic brakes, it will require code 1000307 for Accessory air system for hydraulic brakes. * Air horns can be used on hydraulic brakes chassis only if the accessory air system is coded. * Air horns require air brakes or an accessory air system on hydraulic braked chassis.	$45	0#

Mirrors & Equipment

Dual Rear View Mirrors

8862101	Mirror: Dual Prutsman mirror 7 in. x 16 in. polished stainless steel, and non-heated.	STD	0#
8865000	Mirror: Dual Kenworth aerodynamic heated motorized 7 in. x 13 in. mirrors. Mirror shell painted cab color, mirror arms black. LH/RH convex mirrors 5 in. x 7 in. heated. Mirror brackets set for 8-1/2 ft load width. Switch located on door pad. * The aerodynamic mirrors include brackets, there are no optional mirror brackets available.	$448	26#
8865001	Mirror: Dual Kenworth aerodynamic heated motorized 7 in. x 13 in. mirror w/ chrome shell. LH/RH convex mirrors 5 in. x 7 in. heated. Mirror brackets set for 8 1/2 ft load width. Switch located on door pad. * The aerodynamic mirrors include brackets, there are no optional mirror brackets available.	$382	26#
8866101	Mirror: Dual Prutsman mirror 7 in. x 16 in. polished stainless steel, thermostatically controlled. switch located on door pad.	$45	0#
8866102	Mirror: Dual Prutsman Lighted Mirrors 7 in. x 16 in. Polished Stainless Steel, Thermostatically Controlled & Lighted. Switch Located On Door Pad.	$92	2#
8867200	Mirror: Dual Moto Heated Mirrors 7 in. x 16 in. LH Fixed, RH Remote Controlled. Switch Located On Door Pad.	$309	-2#
8867202	Mirror: Dual Moto heated mirrors 7 in. x 16 in. LH & RH remote controlled. Switch located on door pad.	$491	4#

Option	Description	Price	Weight

Mirrors & Equipment

Mirror Brackets

8869005	Mirror brackets 8-1/2 ft load width.	STD	0#

Diminishing Convex Mirror

Rider Side

8850300	Look-Down, Pass. Door, Stainless 8.5x4.4	STD	0#
	* The RH downward facing convex mirror is required on all chassis. This code must be present on all orders.		

Bracket Mounted Below Regular Mirror

8850210	Dual convex mirrors 7-1/2 in. w/ offset mounting, and non-heated.	STD	0#
	* Optional convex mirrors cannot be mounted on the bracket of the Aerodynamic mirrors, a style which include integrated convex mirrors.		
8850235	Dual convex mirror 8.5 inch w/ offset mounting below regular mirror, and non-heated.	$42	0#
	* Optional convex mirrors cannot be mounted on the bracket of the Aerodynamic mirrors, a style which include integrated convex mirrors.		
8863570	Dual convex heated mirror 8.5 inch w/ offset mounting below regular mirror.	$48	11#
	* Heated convex mirrors require heated primary mirrors.		
	* Optional convex mirrors cannot be mounted on the bracket of the Aerodynamic mirrors, a style which include integrated convex mirrors.		

Fender Mounted

8850717	RH Fender Mtd, Blind Spt	$98	4#
	* This option is not available on the T170 model.		
8850817	Dual Fender Mtd, Blind Spt	$217	8#
	* This option is not available on the T170 model.		

Window Equipment

Door Window Lifts

8879200	Manual LH & electric-powered RH door window. Switch located on door.	STD	0#
8879213	Electric-powered LH & RH door window lifts. Switch located on door.	$122	0#

Windshield & Equipment

8890105	Two-Piece Roped-In Windshield, W/ Curved Glass.	$108	2#

Exterior Sunvisors

8890134	Exterior aerodynamic sunvisor w/ integral marker lights.	$268	6#
	* Roof mounted marker lights require an appropriate sunvisor, not aerodynamic with integral lights.		
	* This option is not available on the T170 model.		
8890135	Exterior stainless steel sunvisor.	$353	11#
	* Stainless steel exterior sunvisor is incompatible with integral mounted cab roof marker lights.		

Option	Description	Price	Weight

Doors & Equipment

Doors

8832115	DAYLITE DOOR: LH/RH INCL RH PEEPER WINDOW	STD	0#

Door Lock Options

8203060	5 sets of keys. Replaces standard 2 sets of keys.	$28	0#
8203088	All chassis on this order keyed alike. Only includes ignition & doors.	$110	0#
8203190	Key Lock: Customer Specified Tumbler Part Number. Only Includes Ignition and Doors.	$293	0#

Other

8700188	Remote Keyless Entry	$341	0#

Option	Description	Price	Weight

Cabs & Sleepers

Interior

8330003	Cab interior: Pinnacle. Includes vinyl headliner & cab back panel, slate gray interior, dark slate gray seats, floormats, LH/RH inside sunvisor & door courtesy lights. * This cab interior is not available on the T170 model.	STD	0#
8330013	Cab interior: Apex. Includes cloth headliner & cab back panel, slate gray interior color, dark slate gray seats, floormats, LH/RH inside sunvisors & door courtesy lights. * This cab interior is not available on the T170 model.	$286	0#
8330014	Class 5 interior: Includes cloth headliner & vinyl cab back panel. * The T170 requires gray vinyl lining with cloth headliner.	$0	0#

Interior Lights

8700144	Dome lamp over driver door.	$22	0#

Heaters & Air Conditioning

8104004	Cab heater: W/integral defrosters. 5 mode rotary control in dash. 45,000 btu cab heater w/o AC. No sleeper heater/AC. Includes 5 mode rotary control. * This cab HVAC option does not include air conditioning.	($217)	-68#
8108010	Cab heater: W/integral defrosters & A/C 45,000 btu cab heater. No sleeper heater/AC. Includes 5 mode rotary control. T660 include filter media. * R134a excise tax is required on Canadian registered vehicles whenever air conditioning is requested.	STD	0#

Miscellaneous

8190564	Air Conditioning Excise Tax: Canadian Registry * Canada requires an excise tax on refrigerant when air conditioning is specified.	$175	0#

Steering Wheels & Equipment

Other

8201200	Adjustable telescoping tilt steering column.	$557	10#
8201201	Tilt steering column. Available for T170 Only. * The T170 requires a tilt steering column. Not for use on the T270 or T370 models.	$322	8#

Instruments & Controls

8240620	Canadian instrument package: KPH speedometer replaces MPH. * The KPH instrument package can be complimented with an option for all specified 2 inch gauges to report in metric as well. * The KPH instrument package converts the standard speedo/tachograph instrument cluster to metric units. This is not available for chassis registered in the U.S. * The secondary readout on the standard speedometer is in KPH, even without the metric speedo request. This option replaces the primary scale of MPH with KPH.	$0	0#

Option	Description	Price	Weight
	Instruments & Controls		
8282004	KW Driver Information Center: Includes fuel economy, RPM display, trip information, truck information, diagnostics, gear display, alarm clock. * Front drive axles require the Kenworth Driver Information Center. Operator will receive a warning when vehicle is traveling faster than 25 mph with front drive axle engaged. * Kenworth Driver Information Center can only be used with a 2010 engine. * UltraShift transmissions require the Kenworth Driver Information Center.	$229	0#
8282006	Odometer units locked to match speedometer dial. Locks instrumentation to record the units of measure indicated by the primary scale. For instance, U.S. Domestic trucks would not be able to toggle from miles to kilometers on the trip odometer.	$15	0#
8282009	Instrument package: Includes speedometer, tachometer, fuel gauge, engine coolant temperature gauge, engine oil pressure, voltmeter. Class 8 also includes primary & secondary air reservoir gauges & an air application gauge. DEF level gauge and warning lamp are included with 2010+ engines. Engine hour meter and outside air temperature readouts are standard. Primary read out will be MPH. Add 8240620 to switch primary scale to KPH in Canada. * For the PX-7 engine the engine oil pressure reading will be a calculated value. * The Instrument Package occupies the center information cluster above the steering wheel. The package includes a 5 inch speedometer with trip meter, a 5 inch tachometer with engine hour meter, turn signal and high beam indicators with warning lights, and an outside air temperature display.	STD	0#
	Gauges		
8220106	Gauge: Dash mounted air filter restriction gauge. * Not available with hydraulic brakes.	$117	0#
8220110	Direct drive lockup w/PTO engagement. Locks up in 1:1 gear: 4th gear on 6-speed, 5th gear on 7-speed. * 4th gear lockup w/ PTO engagement is only available on Allison 3000 and 3500 series transmissions. * Only RDS version of Allison transmissions is available with transfer case PTO and 4th gear lockup.	$208	0#
8221105	Gauge: Air application gauge. * Air pressure gauge is not available with hydraulic brakes.	$48	0#
8221144	Gauge: Air suspension pressure gauge.	$78	0#
8222115	Gauge: All metric gauges. * The KPH instrument package can be complimented with an option for all specified 2 inch gauges to report in metric as well.	$0	0#
8222712	Gauge: Fuel filter restriction gauge.	$140	0#
8226667	Gauge: Oil Temperature Gauge Transmission. The NavPlus HD unit includes a virtual transmission oil temperature gauge.	$34	0#
	Controls		
8203044	Four position ignition switch, keyless. Available for fire truck service & EMT/emergency service only. * The four position keyless ignition switch is available for fire truck or EMT/rescue services only. * This option is not available on the T170 model.	$15	0#
8203072	Flip Valve/LT/Piping To End-of-Frame: Air Acc . Dash Mounted	$88	0#

Option	Description	Price	Weight

Instruments & Controls

Controls

8496575	Driver/Rider seat belts: Red, replace standard. Driver & Rider NFPA compliant. Includes rider bench seat.	$14	0#
8498452	Delete dual DR seat armrests. Not available on GT703 series seats.	$0	-6#
8498552	Delete dual rider armrests. * Deleting standard armrests on bench seats is not an option. The bench seat has no armrests.	$0	-6#

Cab Accessories

Storage

8700044	Beverage holder between seats. * Optional work station between seats not available with a bench seat, with request for a beverage holder between the seats, or with an in-cab battery box. * The option for a beverage holder located between the seats is not for use with hydraulic brakes or a full bench seat.	$86	0#
8700083	Under-dash center console: W/2 cup holders, 1 ashtray, 1 lighter, 1 12V outlet & a storage compartment.	$86	0#
8700092	Workstation between seats: Includes cupholder, 2 accessory power outlets, hanging file space & writing surface. * Not available with Air Cushion Premium Plus rider seats as the seat includes a flip out cup holder that interferes with the workstation. * Optional work station between seats not available with a bench seat, with request for a beverage holder between the seats, or with an in-cab battery box.	$575	19#
8700097	Delete glovebox door w/locking latch.	$0	-4#
8716000	Two holders: For 2 removable front tow hooks. Rider seat must be toolbox style seat. * This tow hook holder option requires that the passenger seat be the toolbox style.	$83	0#

Option	Description	Price	Weight

Cab Accessories

Other

8721405	Nameplates shipped loose: French. In addition to standard or optional nameplates. * French language nameplates and manuals are not for US or Canada outside of Quebec	$0	0#
8721410	Spanish nameplates.	$286	0#
8721455	Delete shipped loose French nameplates. In addition to standard or optional nameplates. * French language nameplates and manuals are not for US or Canada outside of Quebec	$0	0#
9399996	Kenworth operator manual: Spanish. * Optional documentation for Export destinations only.	$0	0#
9399997	Kenworth operator manual: Delete French. Replace w/standard English. * French language nameplates and manuals are not for US or Canada outside of Quebec	$0	0#
9399998	Kenworth operator manual: French replacing English. * French language nameplates and manuals are not for US or Canada outside of Quebec	$0	0#

Sound Systems

Kenworth Radios

8601420	Kenworth Radio with AM/FM/WB	$266	4#
8601421	Kenworth Radio with AM/FM/WB/USB and Bluetooth	$356	4#
8601422	Kenworth Radio with AM/FM/WB/CD/USB and Bluetooth	$458	4#

Sound System Equipment

8699017	Telescoping Antenna: Mounted Behind LH Door. Replaces Top-of-Cab Antenna.	$39	1#
8699147	Solid post antenna: Mounted on LH cowl. Replaces top-of-cab antenna. Recommended for dump trucks, loggers, & where overcab clearance is limited. * This option is not available on the T170 model.	$26	0#
8699191	Antenna, wiring, radio cutout & bracket: For din-mounted radio. Includes speakers. * Aftermarket radio installation is not for use in combination with a factory installed radio.	$146	4#

CB & Equipment

CB Installation Kit

8699913	Dash-mounted CB assembly: Includes bracket & binding posts. Dual antenna leads located on mirror bracket.	$161	4#
8699916	Dash mounted CB assembly: W/leads & antennas. Includes dual antenna leads & dual antennas.	$192	4#

Information & Communication Systems

8700895	Exterior Initiation or Inhibition of Regen Thru J1939 BCan Communications.	$35	0#

Option	Description	Price	Weight
	Information & Communication Systems		
8700966	Kenworth NavPlus HD Navigation System: Vantage, Splendor, APEX, Summit, or Pinnacle interior. System hardware includes: head unit that mounts in radio opening and 7in. high resolution touchscreen display mounted in dash area four. Includes: Truck specific navigation by ALK, Sirius and XM satellite radio receiver.	$2,055	0#

Option	Description	Price	Weight
	Headlamps		
9010401	Headlamps: High Intensity Discharge (Xenon) Projector Module Low Beam, Halogen Complex Reflector High Beam. * High density headlights can only be used with an air rear suspension. Maximum dimension to bottom of front frame is 32.4 inches. The frame rake as well as the use of an air ride cab/sleeper suspension can impact the height. * The high density lamps are for use only with an air rear suspension. Not an option for the T170.	$369	0#
9010801	Headlamps: Halogen Projector Low Beam, Halogen Complex Reflector High Beam	STD	0#
	Marker Lights		
9020164	Marker Lights: with small round base, Five cab roof mounted. * Roof mounted marker lights require an appropriate sunvisor, not aerodynamic with integral lights.	STD	0#
9020166	Marker Lights: Five cab roof mounted. * Roof mounted marker lights for use only on the T170. * Roof mounted marker lights require an appropriate sunvisor, not aerodynamic with integral lights.	$0	0#
9022135	Marker Lights: Five rectangular.	$44	0#
9022137	Marker Lights: Five, rectangular, LED * Roof mounted marker lights require an appropriate sunvisor, not aerodynamic with integral lights. * This option is not available on the T170 model.	$96	0#
9026200	Marker Lights: Five aerodynamic mounted in sunvisor. * This option is not available on the T170 model.	$11	0#
9090039	Marker Lights: Interrupter Switch. Included in Turn Signal For All Models Except T3. The T3 Switch Is In The Dash.	$57	0#
9090115	Reflectors: Two Midframe * Amber mid-frame reflectors for use on full trucks over 30 feet in length. Compliance with FMVSS 108 is the responsibility of the final stage manufacturer. * Trucks over 30 feet in length require mid frame reflectors, sales code 9090115.	$19	0#
	Turn Signal Lights		
9030010	Turn Signal Lights: Mounted on fender	STD	0#
9039110	Turn Signal Flasher: Kysor solid state.	$44	0#
	Taillights		
9030051	LED Stop,Turn,Tail: With One Non LED Backup Light and With An LED License Plate.	$57	3#
9030052	LED Stop,Turn,Tail: With Two LED Backup Lights and With An LED License Plate. * This option is not available on the T170 model.	$74	3#
9030054	Stop,Turn,Taillight: Trucklite 44 Series 6 LED Red With Two LED Backup Lights. Flange Mounted. Taillights Come On When Fog Lights Are On. With An LED License Plate. * This option is not available on the T170 model.	$148	3#

Option	Description	Price	Weight
	Taillights		
9030056	Stop,Turn,Taillight: Trucklite 44 Series 6 LED red with two LED backup lights and LED License Plate. Grommet mounted. Taillights come on when fog lights are on. * This option is not available on the T170 model.	$174	4#
9070138	Combination Stop, Tail, Turn & Backup Lights RH & LH.	STD	0#
9070144	Additional 6 ft. Taillamp & ABS Harness: In frame * Additional 6 ft harness length available on full truck with wheelbase under 280 inches.	$38	0#
9090040	Delete Stop, Tail, Turn & Backup Lights: only the lights & small jumper that connects the lights to the aft harness are deleted on Medium-Duty. Nothing is provided on Gliders. * Chassis specified without lights or safety equipments are considered incomplete vehicles and cannot be driven on the highway with the component/s missing. This restriction dictates special delivery requirements.	($54)	-6#
	Miscellaneous		
9090000	Daytime Running Lamps. * Daytime running lamps required for Canada or on USA registered chassis with Canadian certification.	$162	0#
9090126	Electric Backup Alarm: Meets SAE J994 & OSHA requirements.	$104	4#
9090151	Wiring:Cust. Install Trlr Elec. Brake Controller. Class 8/T4 Content Includes Dash Signals: Ignition Power (20A), Ground, Stop Lamp and Electric Trailer Brake Controller Wired To EOF Junction Box. These Signals Are Located Near The NavPlus HD Area. No Need To Code For An Additional End of Frame Junction Box. EOF Junction Box Signals Are: Ground, Tail Lamp, Marker Lamp, Left Turn, Right Turn, Stop Lamp and Electric Trailer Brake Controller Wired To Dash. Medium Duty (not T4) Content Includes A MP 280 Series Connector In Dash Near Driver Door Connections With Signals: Battery Power (40A), Ground, Stop Lamp and Electric Trailer Brake Controller Wired To Chassis Connector. Medium Duty (not T4) 2 Way Deutsch Chassis Connector Located Near Back of Cab, With Signals: Ground and Electric Trailer Brake Controller Wired To Dash Connector.	$132	1#
9090312	Body Builder Lighting Harness Coiled End Of Frame For Additional Customer Installed Exterior Lighting. Harness Includes Circuits for Additional Customer Installed Tail Lamps, Turn Lamps, Stop Lamps, and Marker Lamps. * Provides circuits for additional customer-installed tail lamps, turn lamps, stop lamps, and marker lamps.	$109	0#
9090845	Circuit Breakers: Replacing fuses. Does not apply to any 5-amp fuse box position. Breakers include stop/brake/turn, tail lamp, high & low beams, marker/clearance lamps, horn, fuel heat, gauges, air dryer, HVAC controls, panel lamps. Some circuits will remain fuses.	$36	0#
	Beacon Lights		
	Single		
9080026	Amber Beacon Lamp:Single strobe,12V, daycab roof, mounted at rear on centerline of roof without bracket. SAE J1318 Class 2. * This option is not available on the T170 model.	$279	6#
	Dual		
9080126	Amber Beacon Lamp: Dual strobe, 12V centered over cab door w/ stainless steel brackets. SAE J1318 Class 2. * This option is not available on the T170 model.	$861	11#
	Customer-Installed		
9080202	Switch & Wiring: Customer-installed dual beacon lights w/o insulators. Coiled wire behind dash.	$89	1#

Option	Description	Price	Weight

Floodlights

First Set

9052011	Dual Flush Floodlights: First set.	$67	2#
	* Dual floods interfere with back of cab mounted exhaust pipes.		
	* This option is not available on the T170 model.		

Switches for Customer-Installed

9058037	Switch & Wiring for Customer-installed Floodlight w/o electrical pass-through - 1st set. Wire coiled BOC/BOS.	$105	0#
	* Coding for switch and wire for a set of aftermarket flood lights requires definition as the primary lights. Any additional flood lights must use a code that is specific to a second or third set.		

Location Codes

9059901	Floodlight Location: Located high - first set	$0	0#
9059911	Floodlight Location: Located mid - first set.	$0	0#

Miscellaneous

9058030	Dual Floodlights: Top-Mirror Mounted - First Set.	$301	11#
	* Flood lights will be located on the mirror brackets.		

Option	Description	Price	Weight

Air Drying Equipment

Moisture Ejection Valve

9102040	Moisture ejection valve: Two Bendix DV-2 drain valves on service tanks use w/ AD-IS only. Heated. * DV-2 heated drain valves are for use only with the AD-IS air dryer. * When used with a parallel battery box left-hand under cab this option is not available with 385 front tires.	$259	0#
9108001	Moisture ejection valve w/ pull cable drain.	$13	0#

Air Dryer

9101022	Delete standard air dryer. * Cannot delete the air dryer on a hydraulic braked chassis with the accessory air system. * Only hydraulic brakes can be used on the T170 and there is no option for an accessory air system on this model. The air dryer and air compressor must be deleted. * This air dryer option is not available with air brakes. AD-IP can be used on hydraulic brakes when the accessory air system is specified.	($337)	-11#
9101023	Air dryer: Bendix AD-SP heated. With 2010 engine installations the dryer is mounted under the hood. * AD-IS is the preferred air dryer with hydraulic brakes and an accessory air system. * This air dryer is unnecessary on hydraulic braked chassis without an accessory air system.	$0	0#
9101215	Air Dryer Bendix AD-IS heated Puraguard * This air dryer is unnecessary on hydraulic braked chassis without an accessory air system.	STD	0#
9101235	Air Dryer: Bendix AD-IS Extended Purge heated. with PuraGuard	$125	4#

Air System Miscellaneous

9140236	Locate air dryer outside LH rail BOC. This code requires the use of a custom frame layout code.	$0	0#
9140238	Locate air dryer outside RH rail BOC. This code requires the use of a custom frame layout code.	$0	0#
9140248	Locate air dryer under LH rail BOC This code requires the use of a custom frame layout code.	$0	0#
9140249	Locate air dryer under RH rail BOC. This code requires the use of a custom frame layout code.	$0	0#
9140267	Locate air dryer inside RH rail BOC	$585	0#
9140268	Locate air dryer inside LH rail BOC	$585	0#
9140269	Locate air dryer outside LH rail BOC	$585	0#
9140270	Locate air dryer outside RH rail BOC	$585	0#

Air Tank Locations

9140286	Air tanks: clear of left side of transmission area. This code requires the use of a custom frame layout code.	$0	0#
9140287	Air tanks: clear of right side of transmission area. This code requires the use of a custom frame layout code.	$0	0#
9140288	Air tanks: clear of transmission area. This code requires the use of a custom frame layout code.	$0	0#

Option	Description	Price	Weight

Air System Miscellaneous

Air Tank Locations

9140289	Air tanks: mounted inside frame flanges where possible. This code requires the use of a custom frame layout code.	$0	0#

Air & Electrical Supply Kits

Tractor

9110037	Air & Electrical Supply Kits: Tractor BOC-mounted kit w/ slidebar, spring hanger and composite gladhand/light plug holder mounted on back of cab/sleeper. Kit includes dash mounted trailer air supply valve, trailer hand control valve, and hoses/fittings for the valves. Dash mounted parking brake valve and tractor protection valve are standard. Air lines are detachable at one end only, light lines are detachable at both ends. Conspicuity components are standard. * Back of cab mounted tractor kits interfere with 2010+ vertical DPF/SCR exhaust systems. Must use a frame mounted tractor kit in that tractor application. * Tractor kit mounted on the rear cab face is not available on full trucks. Incompatible with request for NFPA compliance kit.	$597	19#
9110068	Air & Electrical Supply Kits: Tractor LH frame- mounted kit w/ hosetenna. Includes composite gladhand/light plug holder. Kit includes dash mounted trailer air supply valve, trailer hand control valve, and hoses/fittings for the valves. Dash mounted parking brake valve and tractor protection valve are standard. Air lines are detachable at one end only, light lines are detachable at both ends. Conspicuity components are standard. Use code 9140177 for short hosetenna option, this is not available on the T3 series.	$655	24#

Full Truck

9110020	Full truck kit: Gladhands mounted at end-of- frame.Seven-way female receptacle mounted at end-of-frame in taillamp bracket. Kit includes dash mounted trailer air supply valve, trailer hand control valve, and hoses/fittings for the valves. Dash mounted parking brake valve, tractor protection valve, and spring brake inversion/relay valves are standard.	$574	15#

Air & Light Line Options

9120012	Air & light line length: 12 feet, Straight lines * Air and light lines are only required with an air system on vehicles with trailer connections. Trailer connections are unavailable on hydraulic braked chassis.	$0	0#
9120014	Air & light line length: 14 feet, Straight lines * Air and light lines are only required with an air system on vehicles with trailer connections. Trailer connections are unavailable on hydraulic braked chassis.	$0	0#
9120016	Air & light line length: 16 feet, Straight lines * Air and light lines are only required with an air system on vehicles with trailer connections. Trailer connections are unavailable on hydraulic braked chassis.	$0	0#
9121051	Philatron 15 ft Coiled Air Line. Must code for tractor kit. use code 9121115	$103	0#
9121112	Coiled air & light lines replacing straight lines . Included in tractor kit. 12ft working length. * Air and light lines are only required with an air system on vehicles with trailer connections. Trailer connections are unavailable on hydraulic braked chassis.	$75	0#
9121115	Coiled air & light lines replacing straight lines Included in tractor kit. 15ft working length.	$118	2#

Trailer ABS Provisions

9140326	Additional 7-way electrical receptacle mounted end-of-frame.	$477	2#

Option	Description	Price	Weight

Air & Electrical Supply Kits

Trailer ABS Provisions

9140328	Trailer ABS electric supply through SAE J560 7-pin connector per TMC RP137). * This option is for use with trailer connections. There are no trailer connections available for use with hydraulic brakes. * This option is not available on the T170 model.	$0	0#

Miscellaneous

9140252	Locate air dryer inside LH rail BOC. This code requires the use of a custom frame layout code.	$0	0#
9140254	Locate air dryer inside RH rail BOC. This code requires the use of a custom frame layout code.	$0	0#

3031170	Single Dana Spicer S21-170 single reduction rear axle. Single rear axle rated at 21K.	$0	0#

Single Axle Outer End Equipment

3330004	Single Rear Brakes 16-1/2x7 in. Bendix ES- extended service S-cam.	$0	0#
3392007	Single Rear Brake Drums: cast.	$0	0#
3401010	Single Rear Hubs: Aluminum hub pilot 23K; 11-1/4 in. bolt circle.	$0	0#
3441971	ConMet PreSet Plus Hub package; single rear axle.	$0	0#
3485009	Spring Brake: 3030 high output single.	$0	0#
3465001	Single Rear axle automatic slack adjusters.	$0	0#

Anti-Lock Brake System

3495226	Bendix 4S/4M anti-lock brake system.	$0	0#

REAR SUSPENSION

Single

3626478	Rear suspension: single Reyco 79KB taperleaf 21K. Unladen Height: 11.0 in. Laden Height: 9.4 in. Not available with shocks or swaybars.	$0	0#

TIRES & WHEELS

Front & Rear Axle Tires

4070020	FR BR R283A ECOPIA 295/75R22.5 14PR	$0	0#
4270020	RR BR R283A ECOPIA 295/75R22.5 14PR	$0	0#

Front & Rear Axle Wheels & Rims

5042264	Front wheel: Accuride 50487 22.5x8.25 steel Steel Armor[TM] powder coat, hub pilot mount. 7400lb. maximum rating. 5-hand hole. Air disc brake compatible.	$0	0#

Option	Description	Price	Weight

TIRES & WHEELS

Front & Rear Axle Wheels & Rims

5242264	Rear wheel: Accuride 50487 22.5x8.25 steel Steel Armor[TM] powder coat, hub pilot mount. 7400lb. maximum rating. 5-hand hole. Air disc brake compatible. Code is priced per pair of wheels.	$0	0#

FRAME & EQUIPMENT

Rails & Inserts

6054200	Frame Rails: 10-5/8 x 3-1/2 x 5/16 in. Steel to 284 in. Truck frame weight is 2.91 lb.-in. per pair of rails. Section modulus is 14.80, RBM is 1,776,000 in-lbs per rail. Frame rail availability may be restricted based upon application, axle/suspension capacity, fifth wheel setting, or component/dimensional specifications. The results of the engineering review may result in a change to the requested frame rail. If a change is required Kenworth Application Engineering will advise the dealer of the appropriate material specification for a substitute rail.	$0	0#

Bumpers

6302460	Bumper: Tapered painted steel channel. Requires a bumper setting code.	$0	0#

Front Frame Miscellaneous

6390103	Front mudflaps.	$0	0#
6390304	Brackets, Front Drive: Aluminum up to 15,999 lbs.	$0	0#

Battery Boxes

6405048	Battery box module: Short length aluminum parallel under cab, aluminum diamond plate cover w/ step. Up to 2 air tanks may mount to bottom of box. Batteries will be oriented perpendicular on rail.	$0	0#

DPF-SCR Covers

6451090	T470,C5, T6, T8 non-polished DPF/SCR or CNG cover diamond plate w/ step. For use w/ 2010 or later exhaust systems. For T8, use extended length non-polished battery box on opposite rail to match the length of under cab components. End plates will be painted standard black frame color.	$105	0#

Rear Frame Equipment

6742009	Square end-of-frame w/ o crossmember;non-towing.	$0	0#
6721102	Rear mudflap arms: Betts B-25 standard-duty, straight. Includes B1732 mounting brackets as standard.	$0	0#
6722000	Rear mudflap shields: White plastic antisail w/ Kenworth logo.	$0	0#

FUEL TANKS & EQUIPMENT

Round

7014056	Fuel Tank: 56 US gallon 22in. aluminum BOC replace. Class 8 fuel tank includes an anti-siphon device on the filler neck.	$0	0#

DEF Tanks & Equipment

7722011	Small round DEF tank. 11 gallons of useable volume. The DEF tank will be located on the side you specified. If you have specific configuration or body builder concerns, please utilize the Custom Frame Layout option. Standard capacity is calculated by fuel capacity of the vehicle and will accommodate two diesel fill-ups for every DEF fill-up. For 1:1 DEF fuel fill ratio, add 7889204.	$0	0#

Option	Description	Price	Weight

CAB EXTERIOR

Cabs

8024310	Cab: Curved Glass Conventional. Cab Includes aluminum & fiberglass fully hucked cab w/ all aluminum bulkhead doors & continuous stainless steel piano-style door hinges. Single electric horn standard. Incandescent exterior lights include diagnosable bulb detection and warning. Trailer cable on tractors includes integrity detection. Standard features include multiplex wiring for interior lights, automated pre-trip inspection, short and open check diagnostics. Warning alarm will sound when lights are left on.	$0	0#

Windows

8871438	Rear Cab Stationary Window 17 in. x 36 in.	$0	0#

Hoods, Fenders & Grilles

8090450	Hood: Sloped Aerodynamic T440 Hood. Includes hood and mounted grille, split fenders w/ mudflaps, & separate bumper.	$0	0#

Cab Access

8800200	Cab access contoured grabhandles, LH/RH.	$0	0#
8800400	Grabhandle LH inside door frame above dash.	$0	0#
8800401	Grabhandle RH inside door frame above dash.	$0	0#

Horns

8841411	Single air horn under cab.	$0	0#

Mirrors & Equipment

8862101	Mirror: Dual Prutsman mirror 7 in. x 16 in. polished stainless steel, and non-heated.	$0	0#
8869005	Mirror brackets 8-1/2 ft load width.	$0	0#
8850300	Look-Down, Pass. Door, Stainless 8.5x4.4	$0	0#

Window Equipment

8879200	Manual LH & electric-powered RH door window. Switch located on door.	$0	0#
8890100	One-piece windshield, w/ curved glass.	$0	0#

Doors & Equipment

8832112	Daylite doors, includes RH peeper window. Ignition and doors are keyed alike. Electric locks are standard on both cab doors.		
8832115	DAYLITE DOOR: LH/RH INCL RH PEEPER WINDOW	$0	0#
8700186	Electric LH & RH door locks.	$0	0#

CAB INTERIOR

Cabs & Sleepers

8331140	Cab Interior: Summit. T440/T470 Only. Includes smooth upholstered side & back panels w/stitched accent lines, upholstered door pads, full vinyl headliner, black dash panels & black rubber floormats.	$0	0#
8343304	Interior color: Slate Gray w/trim Dark Slate Gray	$0	0#

Heaters & Air Conditioning

8108010	Cab heater: W/integral defrosters & A/C 45,000 btu cab heater. No sleeper heater/AC. Includes 5 mode rotary control. T660 include filter media.	$0	0#

Option	Description	Price	Weight
	CAB INTERIOR		
	Steering Wheels & Equipment		
8201013	Steering wheel: 18 in. 4-spoke.	$0	0#
	Instruments & Controls		
8282004	KW Driver Information Center: Includes fuel economy, RPM display, trip information, truck information, diagnostics, gear display, alarm clock.	$0	0#
8282009	Instrument package: Includes speedometer, tachometer, fuel gauge, engine coolant temperature gauge, engine oil pressure, voltmeter. Class 8 also includes primary & secondary air reservoir gauges & an air application gauge. DEF level gauge and warning lamp are included with 2010+ engines. Engine hour meter and outside air temperature readouts are standard. Primary read out will be MPH. Add 8240620 to switch primary scale to KPH in Canada.	$0	0#
8700168	Non-self cancelling turn signal: W/column-mounted headlight dimmer switch & intermittent wiper control.	$0	0#
8282107	Large flat panel on dash For customer-installed controls. Reduces gauge count by 6.	$0	0#
	Seats		
8410091	Driver seat: Kenworth Air cushion Plus HB cloth. Standard features includes 7 in. fore and aft slide adjustment w/isolator, 6-23 degree recline, air suspension with cover, dual armrests, and single chamber air lumbar support. Seat cushion is 20 inches wide w/ 2-position tilt and 2-position front cushion extension. Seat material has a horizontal stitch pattern and is 2-tone in color. Seat back is carpeted and includes a map pocket. Seat is manufactured by National. Includes inside visor and retractable 3-point matching seat belts. Grey seat belts.	$0	0#
8480090	Rider seat: Kenworth Toolbox Plus HB cloth. Standard features include fixed base and backrest, tool box seat base w/ door, and dual armrests. Seat cushion is 19.5 inches. Seat material has a horizontal stitch pattern and is 2-tone in color. Seat back is carpeted with a map pocket. Seat is manufactured by National. Includes inside visor and retractable 3-point matching seat belts. Grey seat belts.	$0	0#
8490110	Seat color: Dark Slate Gray.	$0	0#
	LIGHTS & SIGNALS		
	Headlamps		
9010801	Headlamps: Halogen Projector Low Beam, Halogen Complex Reflector High Beam	$0	0#
	Marker Lights		
9020164	Marker Lights: with small round base, Five cab roof mounted.	$0	0#
9090039	Marker Lights: Interrupter Switch. Included in Turn Signal For All Models Except T3. The T3 Switch Is In The Dash.	$0	0#
	Turn Signal Lights		
9030010	Turn Signal Lights: Mounted on fender	$0	0#
	Taillights		
9070138	Combination Stop, Tail, Turn & Backup Lights RH & LH.	$0	0#
	AIR EQUIPMENT		
	Air Drying Equipment		
9108001	Moisture ejection valve w/ pull cable drain.	$0	0#
9101215	Air Dryer Bendix AD-IS heated Puraguard	$0	0#
	Air System Miscellaneous		
9140020	Nylon air tubing in frame & cab, excluding hoses subject to excessive heat or flexing.	$0	0#

Option	Description	Price	Weight

EXTENDED WARRANTY

Warranty

9200021	Standard Warranty.	$0	0#
9200022	Medium-duty Warranty: 1-year/unlimited mi.	$0	0#

PAINT

Paint Designs

9943050	Day Cab Standard Paint	$0	0#
9944820	1 - Color Paint - Day Cab Color will be White if no other color is specified.	$0	0#

Paint Options

9965510	Base coat/clear coat. The Kenworth Color Selector contains additional instructions, as well as information on Kenworth paint guidelines and surface finish applications. Kenworth is standard with Dupont Imron Elite paint.	$0	0#

Option	Description	Price	Weight
	Intended Service		
0093005	Local pickup & delivery: Vehicles which haul freight, typically operating within a 100-mile radius, on public streets & highways, & other paved surfaces, including limited Class C roads. Includes package & freight delivery, as well as fuel oil or petroleum distribution, etc. Road usage: minimum 3% Class B, do not code for Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for pick-up and delivery service should be: CLASS A 0-97% ; CLASS B 3-100% ; CLASS C 0-20% ; CLASS D 0% * This intended service strongly suggests a Horton 2-speed Fan Clutch. Benefits include reduced fan cycling (especially fan cycling due to A/C) resulting in increased friction liner life, increased belt life, reduced vibration and reduced dust generation.	$0	0#
0093007	Regional Haul: Vehicles used to haul freight on public roads consisting of a mixture of over the road, urban and/or suburban hauling. Pickup to delivery distance typically in the 100 to 300 miles range but some LTL applications may exceed 300 mile limit (FedEx for example). Road usage: minimum 19% Class B, do not code for Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road class profile for chassis in regional haul service is: CLASS A 0-81% ; CLASS B 19-100% ; CLASS C 0-20% ; CLASS D 0% * This intended service strongly suggests a Horton 2-speed Fan Clutch. Benefits include reduced fan cycling (especially fan cycling due to A/C) resulting in increased friction liner life, increased belt life, reduced vibration and reduced dust generation.	$0	0#
0093015	Concrete ready mix: Vehicles which deliver Ready-Mix concrete from batch plant to job site. Typically includes some operation off of paved roads. Road usage: any combination, which includes minimum 5% Class B. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for mixer service should be: CLASS A 0-95% ; CLASS B 5-100% ; CLASS C 0-10% ; CLASS D 0-5%	$0	0#
0093025	Snowplow: Vehicles which are configured for mounting a snowplow to the front. May also have dump or other body. Typically includes some operation off of paved roads. Road usage: majority of Class A & B, do not code for Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for snowplow service should be: CLASS A 0-95% ; CLASS B 5-100% ; CLASS C 0-10% ; CLASS D 0%	$0	0#
0093035	Mining service: Vehicles used to service earthmoving & mining equipment. Includes bodies such as mechanic's service bodies, tire hoists, fuel/lube, etc. Typically includes some operation off of paved roads. Road usage: any combination, which includes some Class C. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for mining service should be: CLASS A 0-97% ; CLASS B 0-95% ; CLASS C 1-100%; CLASS D 0-99%	$0	0#
0093090	Utility vehicle: Used to service utility or communication equipment. Typically operates within 100 mile radius on public roads & may or may not have a man lift. Duty cycle includes long engine idle times. Road usage: any combination of A & B, may include some class C roads. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * Typical road use profile for a vehicle operating in Utility service is: CLASS A 0-99% ; CLASS B 1-100% ; CLASS C 0-10% ; CLASS D 0 %	$0	0#

Option	Description	Price	Weight
	Intended Service		
0093091	Refuse hauler: Vehicles which haul refuse, recycled material, etc. Includes Roll-on/roll-off container movement, as well as hauling refuse from transfer stations to landfills. Typically includes operation in landfills, over rough, uneven surfaces. Road usage: any combination, which includes some Class B. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * In off-road areas where tanks may tend to rotate the 7 inch tank supports or mechanical anti-roll options are recommended. * The road use profile for refuse haulers should be: CLASS A 0-99% ; CLASS B 1-100% ; CLASS C 0-99% ; CLASS D 0-99%	$0	0#
0093095	Refuse packer: Vehicles which pick up refuse or recycled material from curbside containers in residential areas. Operation typically includes very frequent stops & starts. Unloading can be at transfer station or at landfill. Road usage: some Class B required, with maximum of 5% Class D. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * Intended service of refuse packer requires use of a 37.4 CFM air compressor on ISX * Intended service refuse packer requires use of a 30.4 CFM air compressor. * MX engines not approved for refuse loader/packer applications except for the following MX-11 engines: 0700198 and 0700199. * Refuse loader/packer body type is only for use with refuse packer intended service. * The DSP41/P rear axle is not for use in refuse packer service per TE1568. * The road use profile for refuse packer service should be: CLASS A 0-80% ; CLASS B 1-100% ; CLASS C 0-99% ; CLASS D 0-5%	$0	0#
0093105	Oil field well servicing: Vehicles which carry well servicing equipment, e.g., pumpers, blenders, cementers, data loggers, etc. Typically involve considerable hours of stationary operation, but low mileage. Typically operate on prepared (although often unpaved) roadways. Road usage: any combination, w/minimum 5% Class C. * A Severe Service kit is required on all chassis operating in the Canadian oil fields. * A steel bumper with center mounted tow hook is required on Canadian chassis used in logging or oil field service. * Accurate body data is required to help engineering determine the vehicle application. Specification of oil field service or oil well service covers a broad spectrum and requires a narrative line that describes the body type. * Body builders must frequently add sub-frame to meet rail RBM requirements in services of oil field rig up or with oil field well service bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis. * Cab door bearing blocks are required on all chassis operating in Canada in the logging or oil field vocations. This is included as part of a Severe Service kit. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for oil field well service should be: CLASS A 0-80% ; CLASS B 0-95% ; CLASS C 5-100% ; CLASS D 0-95%	$0	0#

Option	Description	Price	Weight

Intended Service

0093111	Wrecker service: Vehicles w/ recovery bodies used for recovering & towing stranded vehicles & equipment. Road usage: minimum 5% Class B & maximum 10% Class D. * Body manufacturer's often have specific RBM requirements in excess of Kenworth standards. It is the dealer's responsibility to contact the body builder and communicate the frame RBM or section modulus requirements to Kenworth engineering. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * For the purpose of frame strength analysis the body load is assumed to be a distributed load. It is further understood that the load of the crane and it's payload will be supported by outriggers in contact with the ground during operation of the crane. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance. * The road use profile for use with wrecker service should be: CLASS A 0-95% ; CLASS B 5-100% ; CLASS C 0-95% ; CLASS D 0-10%	$0	0#
0093121	Fire truck service: Vehicles used in fighting fires. Typically have pumps, etc., mounted in the body. Road usage: minimum 5% Class B & maximum 5% Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * NFPA compliance 1901 kit is required with Fire service. * The road use profile for fire or EMT service should be: CLASS A 0-80% ; CLASS B 5-100% ; CLASS C 0-95% ; CLASS D 0-5% * With fire truck service an ember separator may be required to meet local or NFPA compliance.	$0	0#
0093122	EMT/rescue service: Vehicles used responding to emergencies & rescue operations. Typically configured for rapid response, & carry medical & other rescue equipment. Road usage: minimum 5% Class B & maximum 5% Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for fire or EMT service should be: CLASS A 0-80% ; CLASS B 5-100% ; CLASS C 0-95% ; CLASS D 0-5%	$0	0#
0093125	Crane/cherry picker: Vehicles equipped w/ cranes, man-lifts, hoists, cherry-pickers, bridge inspection units, etc. Road usage: any combination, w/minimum 5% Class B. * Body builders must frequently add sub-frame to meet rail RBM requirements with crane/cherry picker bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis. * Body manufacturer's often have specific RBM requirements in excess of Kenworth standards. It is the dealer's responsibility to contact the body builder and communicate the frame RBM or section modulus requirements to Kenworth engineering. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for crane/cherry picker service should be: CLASS A 0-95% ; CLASS B 5-100% ; CLASS C 0-80% ; CLASS D 0-80% * When Crane/Cherry Picker is listed as the intended service the vehicle is considered to be used exclusively in crane operation. If this does not describe your application consider using pick up and delivery or construction as your intended service.	$0	0#
0093130	Construction: Vehicles used in the construction industry, other than those listed above. Use typically involves operating on the jobsite, to pick up or deliver construction materials, or to position the vehicle for its intended use at the construction site. Includes such activities as delivery of precast concrete, concrete pumpers, flatbeds or roll-offs for delivery of construction materials or equipment, etc. Typically includes some operation off of paved roads. Road usage: any combination, which includes some Class C. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for construction service should be: CLASS A 0-97% ; CLASS B 0-99% ; CLASS C 1-100% ; CLASS D 0-99%	$0	0#

Option	Description	Price	Weight

Intended Service

0093135	Agriculture: Vehicles used in the agriculture industry, other than those listed above. Use typically involves transportation of agricultural & dairy products to/from/on/around farm sites, & includes operation off of improved surfaces while on the farm. Includes applications such as milk tankers for farm pickup, feed trucks, grain haulers which load in the field, etc. Can be trucks or tractors. Road usage: any combination, which includes both Class C & D. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for chassis in agriculture service should be: CLASS A 0-95% ; CLASS B 0-98% ; CLASS C 1-95% ; CLASS D 1-95%	$0	0#

Commodity Hauled

Building Materials

0091010	Pre-cast concrete (blocks, pavers, etc.). * Precast concrete commodity is applicable with intended service codes of regional haul, pickup and delivery, construction or agriculture.	$0	0#
0091020	Ready-mix concrete. * Ready-mix concrete commodity is applicable with intended service codes of mixer, pickup and delivery, construction or crane/cherry picker [pumper trucks].	$0	0#
0091030	Lumber. * Lumber commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, construction or crane/cherry picker.	$0	0#
0091040	Other building materials. * Other/building material commodity is applicable with intended service codes of heavy equipment transport, line haul, regional haul, pickup and delivery, construction or crane/cherry picker.	$0	0#
0091041	Asphalt. * Asphalt commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, or construction. * Beam or spring rear suspensions are typically used with an asphalt spreader. * For dump trucks used to spread asphalt there is an option to switch ABS off to improve performance on loose surfaces. Use 8205012 if the road conditions require this. * Vocations of snowplow, mining haulers, construction, pick-up and delivery or regional haul are appropriate for this commodity.	$0	0#
0091042	Gravel/crushed rock/sand. * Gravel/crushed rock commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, snowplow, mining hauler, or construction. * Vocations of snowplow, mining haulers, construction, pick-up and delivery or regional haul are appropriate for this commodity.	$0	0#
0091043	Topsoil/bark. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * The commodity of bark or topsoil most closely matches the intended service of pick-up and delivery, agriculture, or construction.	$0	0#

Option	Description	Price	Weight

Commodity Hauled

Food-Farm Products

0091130	Grain.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Grain commodity is applicable to intended services of agriculture, pickup and delivery or regional haul.		
0091135	Livestock feed.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found. * The commodity of livestock feed is most closely matched with intended services of agriculture, pick-up and delivery, or linehaul [flatbed sacked feed].		
0091170	Other food/farm products.	$0	0#
	* Farm products commodity is applicable to intended services of agriculture, line haul, regional haul, or pickup and delivery.		

Bulk Goods

0091050	Dry bulk goods.	$0	0#
	* Dry bulk goods commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, construction or agriculture.		
0091060	Dairy products - milk.	$0	0#
	* Dairy commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, or agriculture.		
0091070	Liquid petroleum products.	$0	0#
	* For chassis hauling flammable liquids driveline guards are recommended to help retain the driveline position in the event of U-joint failure. * Liquid petroleum commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, mining service, oil field well service, or oil field rig move. * The Hendrickson HMX rear suspension is not available for use as a petroleum tanker.		
0091080	Other bulk goods.	$0	0#
	* Dry bulk commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, snowplow, mining hauler, refuse hauler, or EMT/rescue.		
0091115	Compressed gas.	$0	0#
	* Compressed gas commodity is applicable with intended service codes of regional haul, pickup and delivery, oil field rig move, or mining service.		
0091121	Water.	$0	0#
0091122	Crude oil.	$0	0#
	* Crude oil commodity is applicable with intended service codes of regional haul, pickup and delivery, oil field rig move or mining service.		
0091123	Liquefied gas.	$0	0#
	* Liquid gas commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, or oil field rig move.

Forest Products

0091190	Wood chips.	$0	0#
	* In some chip hauling vocations the entire chassis is inclined during unloading. For this operation a front filler neck on fuel tanks is important.		
	* Wood chips commodity is applicable to intended services of agriculture, construction, line haul, regional haul, or pickup and delivery.		
0091200	Other forest products.	$0	0#
	* Other forest products commodity is applicable to intended services of agriculture, construction, line haul, regional haul, or pickup and delivery.		

Minerals

0091210	Coal.	$0	0#
	* Coal commodity is applicable to intended services of agriculture, construction, line haul, regional haul, or pickup and delivery.		
	* Vocations of snowplow, mining haulers, construction, pick-up and delivery or regional haul are appropriate for this commodity.		
0091220	Excavated earth.	$0	0#
	* Vocations of snowplow, mining haulers, construction, pick-up and delivery or regional haul are appropriate for this commodity.		
0091230	Rock.	$0	0#
	* Rock commodity is applicable to intended services of mining hauler or snowplow.		
	* Vocations of snowplow, mining haulers, construction, pick-up and delivery or regional haul are appropriate for this commodity.		
0091240	Other minerals.	$0	0#
	* Other minerals commodity is applicable to intended services of mining hauler or snowplow.		
	* Vocations of snowplow, mining haulers, construction, pick-up and delivery or regional haul are appropriate for this commodity.		

Dry Goods

0091090	General freight.	$0	0#
	* General freight commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, construction or agriculture.		
0091100	Heavy machinery.	$0	0#
	* Heavy machinery commodity is applicable with intended service codes of snowplow, heavy equipment transport, crane/cherry picker, regional haul, pickup and delivery, oil field rig move, mining service, oil field well service, wrecker or EMT/rescue.		
0091110	Oil field equipment.	$0	0#
	* A steel bumper with center mounted tow hook is required on Canadian chassis used in logging or oil field service.		
	* Oil field equipment commodity is applicable with intended service codes of heavy equipment transport, oil field rig move, oil field well service, or mining service.

Miscellaneous

0091260	Refuse/recycled material.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Refuse/recycle commodity is applicable to intended services of oil field rig move, refuse hauler, or refuse packer.		
0091270	Fire apparatus.	$0	0#
	* Fire apparatus commodity is applicable to intended services of fire truck, oil field well service, construction or agriculture. * NFPA compliance 1901 kit is required with Fire service.		
0091271	EMT/rescue.	$0	0#
	* EMT/rescue equipment commodity is applicable with intended service code of EMT/rescue.		

Body Type

0095010	End dump.	$0	0#
	* End dump body type is for use in the following services: linehaul, local P&D, regional haul, snowplow, mining hauler, oil field well service, construction, refuse hauler or agriculture. * For the purpose of frame strength analysis the body load is assumed to be a distributed load and also as a two-point load supported on a lifting ram located approximately 2ft behind the cab and at the hinge point at the end of the frame. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance. * Not approved for use with AG400L rear suspensions. * The road use profile for dump truck service should be: CLASS A 0-97% ; CLASS B 0-99% ; CLASS C 1-100% ; CLASS D 0-99% * This body type is generally prohibited with tag axles. OAR review can be requested when customer need dictates the tag axle.		
0095030	Transfer dump.	$0	0#
	* AutoShift transmission are not suited for use in transfer dump applications. * For the purpose of frame strength analysis the body load is assumed to be a distributed load and also as a two-point load supported on a lifting ram located approximately 2ft behind the cab and at the hinge point at the end of the frame. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance. * Not approved for use with AG400L rear suspensions. * This body type is generally prohibited with tag axles. OAR review can be requested when customer need dictates the tag axle. * Transfer dump body type is for use in the following services: linehaul, local P&D, mining hauler or construction.		
0095035	Stone slinger.	$0	0#
	* A stone slinger body type is used for the commodities of rock or other minerals. * Not approved for use with AG400/AG460/AG690 rear suspensions. * Not approved for use with AG400L rear suspensions. * Stone slinger body type is for use in the following services: local P&D, regional haul or construction * This body type is compatible with full trucks only.		

Option	Description	Price	Weight

Body Type

0095040	Concrete mixer, non-booster-axle.	$0	0#

* For mixers other than boost-a-load the minimum rail material for use without an insert is 10-11/16 inch
* For the purpose of frame strength analysis the body load is assumed to be a two-point load. The forward pedestal is located close to the back of cab and the rear pedestal is located near the end of the frame. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance.
* Mixer body manufacturers often have very specific requirements regarding frame strength and crossmember placement. This should be discussed with the customer and communicated to engineering using sales codes or narrative lines on the DTPO.
* Non-booster axle concrete mixer body is for use in the following services: concrete ready mix or construction.
* Not approved for use with AG400L rear suspensions.
* PX-9 with this body type is not available with a GCW over 80,000 lbs.

0095050	Booster axle mixer w/ approved frame reinforcement.	$0	0#

* Boost-a-load mixers require that reinforcement side plates for the frame be installed at the factory.
* Booster axle concrete mixer is for use in the following services: concrete ready mix or construction.
* Concrete mixers that will use a lift axle must specify an 11-5/8 inch main rail.
* Concrete mixers with a wheelbase over 260 inches require a minimum rail material of 11-5/8 inches when there is no lift axle specified.
* Concrete mixers with a wheelbase under 261 inches require a minimum rail material of 10-3/4 inches when there is no lift axle specified.
* For the purpose of frame strength analysis the body load is assumed to be a two-point load. The forward pedestal is located approximately 4ft from the back of cab and the rear pedestal is located near the end of the frame. It is understood that the chassis will be equipped with a lift axle of 12000lb capacity located approximately 12.5ft from the centerline of the rear drive axle. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance.
* Mixer body manufacturers often have very specific requirements regarding frame strength and crossmember placement. This should be discussed with the customer and communicated to engineering using sales codes or narrative lines on the DTPO.
* Not approved for use with AG400L rear suspensions.
* PX-9 with this body type is not available with a GCW over 80,000 lbs.

0095055	Concrete pump.	$0	0#

* Concrete pump body type is for use in the following services: local P&D, regional haul, concrete ready mix, or construction.
* Concrete pumper body type is used for the commodity of ready mix concrete only.
* If this concrete pump is equipped with an aerial boom the body manufacturer may have RBM requirements in excess of Kenworth's frame requirements. The dealer should contact the body manufacturer and communicate the requirements in a narrative line on the DTPO.
* Not approved for use with AG400/AG460/AG690 rear suspensions.
* Not approved for use with AG400L rear suspensions.
* This body type is compatible with full trucks only.

0095056	Volumetric mixer.	$0	0#

* PX-9 with this body type is not available with a GCW over 80,000 lbs.
* Volumetric mixer body is for use in the following services: local P&D, regional haul, concrete ready mix, oil field well service or construction.

Option	Description	Price	Weight

Body Type

0095060	Roll on/roll off.	$0	0#
	* For the purpose of frame strength analysis the body load is assumed to be a distributed load and also as a point load supported on the tail roller at the end of the frame. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance. * Not approved for use with AG400/AG460/AG690 rear suspensions. * Not approved for use with AG400L rear suspensions. * Roll on/roll off body type are for use in the following services: local P&D, regional haul, mining hauler, mining service, heavy equipment transport, refuse hauler, oil field rig move, oil field well service, wrecker service, EMT/rescue service, construction or agriculture * Roll-off/back body types are generally prohibited with tag axles. OAR review can be requested when customer need dictates the tag axle.		
0095065	Roll back flatbed.	$0	0#
	* For the purpose of frame strength analysis the body load is assumed to be a distributed load and also as a point load supported on the tail roller at the end of the frame. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance. * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained. * Roll back flat bed body is for use in the following services: local P&D, regional haul, mining hauler, mining service, heavy equipment transport, refuse hauler, oil field rig move, oil field well service, wrecker service, EMT/rescue service, construction or agriculture. * Roll-off/back body types are generally prohibited with tag axles. OAR review can be requested when customer need dictates the tag axle. * This body type is compatible with full trucks only.		
0095070	Refuse loader/packer.	$0	0#
	* 18.7 CFM compressor N/A with body type refuse loader/packer. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Body type refuse loader/packer requires 30.4 CFM compressor * Body type refuse loader/packer requires use of the 37.4 CFM air compressor on MX engines. * Hendrickson recommends track rods on refuse loader or packer vehicles specifying a beam suspension with axle spacing of 52 or 54 inches. * MX engines not approved for refuse loader/packer applications except for the following MX-11 engines: 0700198 and 0700199. * Not approved for use with AG400/AG460/AG690 rear suspensions. * Not approved for use with AG400L rear suspensions. * PX-9 with this body type is not available with a GCW over 80,000 lbs. * Refuse loader/packer body type is only for use with refuse packer intended service.		
0095080	Refuse, other.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Not approved for use with AG400L rear suspensions. * Other refuse body types are for use in the following services: local P&D, regional haul, or refuse hauler.		
0095095	Beverage.	$0	0#
	* Beverage body type is for use in the following services: linehaul, regional haul, l or local P&D.		

Body Type

Option	Description	Price	Weight
0095099	Oil Field Winch/Equipment BOC for use w/Tractors. * For use with intended service of Oil Field Rig Move. * For use with tractors. * Requires the selection of oil field equipment for commodity hauled.	$0	0#
0095100	Oil well servicing equipment. * A Severe Service kit is required on all chassis operating in the Canadian oil fields. * Accurate body data is required to help engineering determine the vehicle application. Specification of oil field service or oil well service covers a broad spectrum and requires a narrative line that describes the body type. * Cab door bearing blocks are required on all chassis operating in Canada in the logging or oil field vocations. This is included as part of a Severe Service kit. * Not approved for use with AG400/AG460/AG690 rear suspensions. * Not approved for use with AG400L rear suspensions. * Oil field well service equipment body type is for use in the following services mining service, oil field rig move, oil field well service or crane. * The body installed on oil field rig up or oil field well servicing trucks may make a substantial contribution to the available frame RBM. To assist in engineering these vehicle a narrative line should be added to the DTPO describing the body sub-frame characteristics. Contact Application Engineering for assistance as needed.	$0	0#
0095102	Coil Tubing Unit.	$0	0#
0095105	Drilling derrick. * Body manufacturer's often have specific RBM requirements in excess of Kenworth standards. It is the dealer's responsibility to contact the body builder and communicate the frame RBM or section modulus requirements to Kenworth engineering. * Drilling derrick body type is for use in the following services: mining service, oil field rig move, oil field well service or construction. * For the purpose of frame strength analysis the body load is assumed to be a distributed load. It is further understood that the load of the crane and it's payload will be supported by outriggers in contact with the ground during operation of the crane. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance. * Not approved for use with AG400/AG460/AG690 rear suspensions. * Not approved for use with AG400L rear suspensions. * This body type is compatible with full trucks only.	$0	0#
0095110	Tank. * Tank bodies should specify a commodity the is a liquid or some other type of bulk product. * Tanker body type is for use in the following services: linehaul, local P&D, regional haul, snowplow, mining service, refuse hauler, oil field well service, fire truck, EMT/rescue, construction or agriculture.	$0	0#
0095115	Dry bulk hopper. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * A dry bulk hopper body type is used for the commodities of bark/topsoil, dry bulk goods, other food/farm products, other forest products, grain, dry bulk, or feedlot type commodities * Dry bulk hopper body type is for use in the following services: linehaul, pickup & delivery, regional haul, mining hauler, construction or agriculture. * This body type is compatible with full trucks only.	$0	0#

Option	Description	Price	Weight

Body Type

0095120	Van.	$0	0#
	* Van body type is for use in the following services: linehaul, local P&D, regional haul, mining hauler, mining service, refuse hauler, EMT/rescue, construction or agriculture.		
0095125	Service body.	$0	0#
	* Service body type is for use in the following services: local P&D, regional haul, snowplow, mining service, oil field well service, wrecker, EMT/rescue, crane or construction. * This body type is compatible with full trucks only.		
0095135	Cotton module.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found. * A cotton module body is used for commodities of 'other' food/farm products . 'other' bulk goods, or dry bulk goods * Cotton module body type is for use in the following services: agriculture. * For the purpose of frame strength analysis the body load is assumed to be a distributed load and also as a point load supported on the tail roller at the end of the frame. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance. * Not approved for use with AG400L rear suspensions. * This body type is compatible with full trucks only. * This body type is generally prohibited with tag axles. OAR review can be requested when customer need dictates the tag axle.		
0095140	Flatbed.	$0	0#
	* Flatbed body type is for use in the following services: linehaul, local P&D, regional haul, snowplow, mining hauler, mining service, heavy equipment transport, refuse hauler, oil field rig move, oil field well service, EMT/rescue, crane, construction or agriculture. * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained.		
0095145	Flatbed with utility crane.	$0	0#
	* Flatbed with utility crane body type is for use in the following services: linehaul, local P&D, regional haul, snowplow, mining hauler, mining service, heavy equipment transport, refuse hauler, oil field rig move, oil field well service, EMT/rescue, crane, construction or agriculture. * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained. * PX-9 with this body type is not available with a GCW over 80,000 lbs. * This body type is compatible with full trucks only.		
0095146	Wrecker.	$0	0#
	* A wrecker body for commodities of auto transporter or heavy machinery. * This body type is compatible with full trucks only. * Wrecker body type is for use in the following services: local P&D, regional haul, mining service, heavy equipment transport, oil field rig move, wrecker, EMT/rescue or crane.		

Option	Description	Price	Weight
	Body Type		
0095151	Crane/boom. * Body manufacturer's often have specific RBM requirements in excess of Kenworth standards. It is the dealer's responsibility to contact the body builder and communicate the frame RBM or section modulus requirements to Kenworth engineering. * Crane or boom body types are for use in the following services: local P&D, regional haul, mining service, heavy equipment transport, oil field rig move, oil field well service, crane or construction. * For the purpose of frame strength analysis the body load is assumed to be a distributed load. It is further understood that the load of the crane and it's payload will be supported by outriggers in contact with the ground during operation of the crane. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance. * Not approved for use with AG400L rear suspensions. * PX-9 with this body type is not available with a GCW over 80,000 lbs.	$0	0#
0095155	Fire truck-pumper. * Fire truck pumper body type is for use in the following services: local P&D, regional haul, mining service, oil field well service, fire truck. Removed EMT/Rescue per M Hampson * NFPA compliance 1901 kit is required with Fire service.	$0	0#
0095160	OTHER - NARRATIVE REQUIRED * Accurate body data is required to help engineering determine the vehicle application. Specification of 'other' as the body type requires a narrative line that describes the body type or vehicle usage. * This body or trailer type will result in engineering review if a Kenworth air suspension is specified. Consider using a narrative to help define actual vehicle use.	$0	0#
0095165	Vacuum tank. * Not approved for use with AG400L rear suspensions. * Vacuum tank body type is for use in the following services: local P&D, regional haul. mining service, refuse hauler, oil field well service, construction or agriculture.	$0	0#
0095175	Reefer van. * Reefer van body is applicable to line haul, local pickup and delivery, or regional haul intended services	$0	0#
	Trailer Type		
0096010	Doubles. * Double trailers are for use in the following services: linehaul, local P&D, regional haul, construction or agriculture. * Trailer types of doubles, triples, bottom dump or automobile carrier are for use with tractors only.	$0	0#
0096020	End dump. * End dump trailer type is for use in the following services: linehaul, local P&D, regional haul, mining hauler, refuse hauler, construction or agriculture.	$0	0#
0096025	SIDE DUMP * For use with: Local Pickup & Delivery 0093005 Regional Haul 0093007 Mining Haulers 0093030 Refuse Hauler 0093091 Construction 0093130 Agriculture 0093135 * Not for use with AG400L (3730026, 3730028) or AG380 (3730053)	$0	0#

Trailer Type

Option	Description	Price	Weight
0096030	Bottom dump. * Bottom dump trailer type is for use in the following services: line haul, local P&D, regional haul, mining hauler, construction or agriculture. * Trailer types of doubles, triples, bottom dump or automobile carrier are for use with tractors only.	$0	0#
0096040	Flatbed. * Flatbed trailer type is for use in the following services: linehaul, local P&D, regional haul, mining hauler, heavy equipment transport, refuse hauler, oil field rig move, oil field well service, wrecker, crane, construction or agriculture. * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#
0096045	Beverage.	$0	0#
0096050	Lowboy. * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained. * Lowboy trailer type is for use in the following services: linehaul, local P&D, regional haul, mining hauler, heavy equipment transport, oil field rig move, oil field well servicing, wrecker, crane, construction or agriculture * Not approved for use with AG400L rear suspensions. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#
0096055	Automobile/marine carrier. * Auto or marine carrier trailer is for use in the following services: linehaul, local P&D, regional haul, heavy equipment transport, wrecker, or crane. * Trailer types of doubles, triples, bottom dump or automobile carrier are for use with tractors only.	$0	0#
0096060	Reefer van. * Reefer van trailer type is for use in the following services: linehaul, local P&D, regional haul or agriculture. * Reefer van trailers typically have increased swing clearance requirements. Contact Kenworth Application Engineering if you have concerns. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#
0096070	Tank. * Tank trailers should specify a commodity the is a liquid or some other type of bulk product. * Tanker trailer is for use in the following services: linehaul, local P&D, regional haul, mining hauler, mining service, oil field well service, fire truck, EMT/Rescue, construction or agriculture. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#
0096075	OIL FIELD WELL SERVICE * For use with Oil Field Well Servicing 0093105 * Not for use with AG400L (3730026, 3730028) or AG380 (3730053)	$0	0#
0096080	Dry van beverage trailer, curtain trailer, chip trailer. * Dry van trailer type is for use in the following services: linehaul, local P&D, regional haul, refuse hauler, EMT/Rescue, construction or agriculture. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#

Option	Description	Price	Weight
	Trailer Type		
0096090	OTHER - NARRATIVE REQUIRED	$0	0#
	* This body or trailer type will result in engineering review if a Kenworth air suspension is specified. Consider using a narrative to help define actual vehicle use.		
	* This trailer type is for use in tractors or full truck pulling a trailer configurations.		
	Special Requirements		
0098010	California Registry	$0	0#
0098015	Mexico registry.	$0	0#
	* Specifying Mexico registry requires that operator manuals be written in Spanish.		
	* Vehicles registered in Mexico should use metric gauges.		
0098025	U.S. Domestic registry, 50-state.	$0	0#
0098050	Canadian registry.	$0	0#
	* Daytime running lights are required with any Canada registration.		
	* Special permits may be required for tractors operating in Canada with wheelbase in excess of 244 inches.		
0098060	Quebec registry.	$0	0#
	* Chassis registered in Quebec must code for French language documentation, or replace those documents with English. There are additional options to select a preference for name plates and manuals as well.		
	* Daytime running lights are required with any Canada registration.		
	* Special permits may be required for tractors operating in Canada with wheelbase in excess of 244 inches.		
	Export Destination		
9400071	Specify Ship Destination by Narrative.	$0	0#
	Stationary Application		
0072000	Chassis operation will not include a stationary application. Stationary operation is defined as running the engine under load while stationary at a substantial fraction of engine gross horsepower (60% or greater) for an extended period of time (longer than 5 - 10 minutes).	$0	0#
	* Stationary application use codes are required when vehicle service or components are indicative applications requiring special cooling review. Vocations where stationary operation may exist include concrete pumper, oil well service, Coil Tubing Unit, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO.		
0072001	Chassis operation will include stationary application used in lower 48 states [US only]. Stationary operation is defined as running the engine under load while stationary at a substantial fraction of engine gross horsepower (60% or greater) for an extended period of time (longer than 5 - 10 minutes).	$0	0#
	* Required for Cummins engines with single fuel tank; for PACCAR PX-9 with single fuel tank Restricted for PACCAR MX engines w/o stationary applications (ref 0072001, 0072002, and 0072003)		
	* Stationary application use codes are required when vehicle service or components are indicative applications requiring special cooling review. Vocations where stationary operation may exist include concrete pumper, oil well service, Coil Tubing Unit, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO.		
	* Stationary cooling definition for US lower 48 states only. Indicates that the chassis will not be operating in conditions considered to be a stationary application. Vocations where stationary operation may exist include concrete pumper, oil well service, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO.		

Option	Description	Price	Weight
	Stationary Application		
0072002	Chassis operation will include stationary application used in Canada or Alaska. Stationary operation is defined as running the engine under load while stationary at a substantial fraction of engine gross horsepower (60% or greater) for an extended period of time (longer than 5 - 10 minutes). * Required for Cummins engines with single fuel tank; for PACCAR PX-9 with single fuel tank Restricted for PACCAR MX engines w/o stationary applications (ref 0072001, 0072002, and 0072003) * Stationary application use codes are required when vehicle service or components are indicative applications requiring special cooling review. Vocations where stationary operation may exist include concrete pumper, oil well service, Coil Tubing Unit, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO.	$0	0#
0072003	Chassis operation will include export stationary application. Stationary operation is defined as running the engine under load while stationary at a substantial fraction of engine gross horsepower (60% or greater) for an extended period of time (longer than 5 - 10 minutes). * Required for Cummins engines with single fuel tank; for PACCAR PX-9 with single fuel tank Restricted for PACCAR MX engines w/o stationary applications (ref 0072001, 0072002, and 0072003) * Stationary application use codes are required when vehicle service or components are indicative applications requiring special cooling review. Vocations where stationary operation may exist include concrete pumper, oil well service, Coil Tubing Unit, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO.	$0	0#

CARB Emission Reduction Feature

Option	Description	Price	Weight
0080040	ISL-G CARB CA Registry only N/A 49 States.	$0	0#
	* ISL-G / ISX12G engines should always be labeled as alternative fuel use.		
	* ISL-G / ISX12G engines should always be labeled as alternative fuel use.		
	* This code is required with California registration and a ISL-G engine.		
	* Vehicles registered in California that utilize alternative fuels require special consideration. If this is the operating area of the vehicle then 0080040 is required.		
0080050	CARB Idle Emissions Reduction Feature for PX-7 and PX-9	$100	0#
	* Anti-idle feature for PACCAR PX-9 engines. California and Georgia require an idle emissions reduction feature for trucks primarily intended for operation or registration within their borders. North Carolina requires an idle emissions reduction feature for trucks leased or registered within its borders. Other states may adopt similar requirements. This option includes a sticker affixed to the exterior of the driver's side door which indicates this vehicle complies with the restriction of 30 grams/hour Nox emissions. Use this sales code if your operating area dictates the necessity.		
	* Dealer must add one of the sales codes which either identifies the chassis as containing a 50-state CARB idle/anti-idle compliant engine or declines the need.		
0080055	CARB Idle Emissions Reduction Feature. Cummins engines.	$100	0#
	* Anti-idle feature for Cummins engines. California and Georgia require an idle emissions reduction feature for trucks primarily intended for operation or registration within their borders. North Carolina requires an idle emissions reduction feature for trucks leased or registered within its borders. Other states may adopt similar requirements. This option includes a sticker affixed to the exterior of the driver's side door which indicates this vehicle complies with the restriction of 30 grams/hour NOx emissions. Use this sales code if your operating area dictates the necessity.		
	* Dealer must add one of the sales codes which either identifies the chassis as containing a 50-state CARB idle/anti-idle compliant engine or declines the need.		
0080070	CARB Exempt Application Emergency Vehicle Only.	$0	0#
	* The exemption for CARB labeling can be added to fire truck or emergency service/rescue vehicles but must accompany a CARB feature code.		
	* The exemption for CARB labeling must accompany a CARB feature code.		
0080075	Dealer/Customer declines engine w/CARB Idle Emissions Reduction Feature.	$0	0#
	* Dealer must add one of the sales codes which either identifies the chassis as containing a 50-state CARB idle/anti-idle compliant engine or declines the need.		
0080085	CARB Idle - Alternative fuel exempt from CARB anti-idle.	$0	0#
	* Dealer must add one of the sales codes which either identifies the chassis as containing a 50-state CARB idle/anti-idle compliant engine or declines the need.		
	* Engine idle shutdown not required with CNG/LNG engines. This alternative fuel source is exempt from the CARB idle regulations add should be branded as Alternative Fuel Exempt.		
	* ISL-G / ISX12G engines should always be labeled as alternative fuel use.

Cummins

ISL

0128901	ISL-G 300 2010 300@2100 860@1300 Natural gas engine. Includes a fuel filter as standard, no code is required. * A natural gas fueled chassis requires the selection of a tank mounting position sales-code. * Back of sleeper, or back of cab mounted natural gas fuel placements require a sales-code indicating the height of the fuel cabinet. * CNG vehicles are available in configurations without a sleeper only. * ISL-G / ISX12G engine does not utilize a fuel cooler. * ISL-G and ISX12-G engines do not utilize any fuel heat components designed for diesel engines. * Natural gas tank mounting positions and cab height codes are only available with natural gas engines. * The ISL-G engines are available only with an Allison transmission. * The ISL-G is for use on W900S, T440, & T470	$27,794	33#

Option	Description	Price	Weight

Cummins

ISL

0128920	ISL-G 320 Gov @2200 320@2000 1000@1300 Natural gas engine. Includes a fuel filter as standard, no code is required.	$31,196	33#

* A natural gas fueled chassis requires the selection of a tank mounting position sales-code.
* Back of sleeper, or back of cab mounted natural gas fuel placements require a sales-code indicating the height of the fuel cabinet.
* CNG vehicles are available in configurations without a sleeper only.
* ISL-G 320 HP is not available with T470 due to cooling limitations.
* ISL-G and ISX12-G do not receive a fuel, DEF or hydraulic tank of any type. No equipment for these tanks is required.
* ISL-G and ISX12-G do not utilize any diesel tanks. Use code 7210000.
* ISL-G and ISX12-G engines are not available for use on T660 with aero hood.
* ISLG limited to 66k GCW. Except for Intended use: Agriculture, Construction, Refuse Packer, or Utility/Dump Truck, which are limited to 80k GCW. Cummins indicates that Agriculture, Construction, and Utility/Dump Truck applications with occasional trailer use (66k to 80k GCW) are limited to 30,000 miles per year.
* Natural gas tank mounting positions and cab height codes are only available with natural gas engines.
* PX-9 engines do not have a port that can be plumbed to add the heater shutoff valve option.
* PX-9 engines require an engine mounted air cleaner.
* PX-9 engines specified with an Allison 3000 series transmissions may require a deep rear axle ratio to meet the manufacturer's wheel slip requirements. If required, it will impact the top speed of the vehicle
* The ISL-G engines are available only with an Allison transmission.
* The ISL-G is for use on W900S, T440, & T470
* Vehicles registered in California that utilize alternative fuels require special consideration. If this is the operating area of the vehicle then 0080040 is required.

Air Compressor

1002060	Air compressor: Cummins 18.7 CFM FOR Cummins AND PACCAR PX engines. * 18.7 cfm air compressor for use on Cummins or PACCAR PX-9 engines. Not for use on 2017 emissions X15 engines. * 18.7 CFM compressor N/A with body type refuse loader/packer. * Required with ISX12G engine.	$0	0#
1002065	Air compressor: Cummins 30.4 CFM ISL, PX-8, PX-9 replacing 18.7. * Body type refuse loader/packer requires 30.4 CFM compressor * Intended service refuse packer requires use of a 30.4 CFM air compressor. * The 30.4 CFM air compressor can be used on T4 series chassis in combination with a 2010 PX-9 engine only.	$1,849	30#

Air Intake System

Air Cleaner

Engine-Mounted

1051092	Engine mount Powercore air cleaner. w/constant torque SS clamps, pop-up air restriction indicator. Pop-up indicator is standard. * Inside/outside air intake is available with engine mounted Powercore air cleaners. * PX-9 engines require an engine mounted air cleaner.	STD	0#

Option	Description	Price	Weight

Air Intake System

Air Intake Equipment

1093108	Inside/outside air intake: for Powercore engine mounted w/cowl inlet. * Inside/outside air intake is available with engine mounted Powercore air cleaners. * Inside/outside air not available with PACCAR MX-11 or MX-13 engines.	$464	0#
1098005	Filter minder air restriction indicator mounted on air cleaner replacing standard pop-up indicator.	$48	0#

Cooling System

1121200	Cooling module: 1000 square inches T170/T270/T370/T470. Includes metal surge tank on T170/T270/T370. * This cooling module is available with a 2010+ EPA compliant engine. * This radiator can be used with straight through rails on the T470. Not for use on the T440.	($402)	0#
1121210	Cooling module: 1000 square inches. Clog resistant. Includes metal surge tank on T170/T270/T370. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Low clog radiators have reduced cooling capacity compared to a standard radiator. Chassis configuration may be subject to engineering review for cooling capacity. * Not availible on T440 or ISL-G. * This cooling module is available with a 2010+ EPA compliant engine. * This radiator can be used with straight through rails on the T470. Not for use on the T440.	($166)	0#
1122505	Cooling module: 1300 square inches. Includes aluminum radiator core, aluminum charge air cooler, translucent surge tank and washer bottle, silicone hoses, and extended life coolant. Drain valve is not available w/Allison transmissions. * 1300 sq inch cooling module for W900S with 2007 engine or 2013 PX-9 or ISL-G and T440 with 2010+ engines. * This cooling module is available with a 2010+ EPA compliant engine.	STD	0#

Cooling System Equipment

1105230	Fan Hub: Horton 2-Speed for ISL9, ISL-G, PX-8 or PX-9 * This fan hub is required on PX-9 engines with Intended Service Logger, Concrete Ready-Mix, Mining Haulers, Heavy Equipment Transport, Refuse Packer, Oil Field Rig Mover, Oil Field Well Servicing, SnowPlow, Mining Service, Utility Vehicle, Refuse Hauler, Wrecker Service, Fire Truck Service, EMT/Rescue Service, Crane/Cherry Picker, Construction or Agriculture.	$419	0#
1105231	Fan Hub: Horton On/Off for PX-9 or ISLG * ENGINE COOLING OPTIONS; For PX-9 and ISL-G only * Horton on/off fan hubs are available in Linehaul, Regional Haul and Pickup & Delivery intended services. * Not available on T470.	STD	0#
1107060	Fan Hub: Borg Warner On/Off for PX-9 or ISLG	$25	0#
1160105	Radiator winterfront. * Radiator Winterfront (1160105) available only on T470 models only w/ 8090410 (Hood) * Winterfront required for T680 ISX12G models. Optional for diesel engines.	$111	2#
1160205	Bug screen: Front of grille on C500 ,T800, T880, and W900. Behind grille on T660, T680, and T300 (Medium Duty).	$217	2#

Option	Description	Price	Weight
	Cooling System Equipment		
1160728	Lower radiator drain valve Okay for use w/2010+ engine cooling modules, other than 1780 square inches. * Lower radiator drain valve is not for use with 1780 sq inch radiator, or when the chassis specifies an Allison transmission.	$15	0#
	Exhaust Systems		
1247166	EXH: RH UNDER DPF/SCR W/ RH SIDE OF CAB VERTICAL TAILPIPE WITH DAYCABS, EXTENDED DAYCABS, OR MODULAR SLEEPERS, 2017 EPA * Not available with ISX-12. * Not available with under cab fairings. * Side of cab exhaust not available with roof fairing code 8823012. * Side of cab exhaust on T680 is not available with the high roof sleeper configuration. * The NFPA compliant grab handles are required with the NFPA kit in all cases where SOC exhaust is not specified. The grab handle installation interferes with side of cab exhaust, so in that instance the body builder is responsible for installing compliant handles. * This exhaust is only for use with a daycab or 42 inch modular sleeper. Cannot be used on twin steer chassis, or with wide sheet metal fenders. * With this exhaust style a RH under cab step assembly is combined with a DPF/SCR cover. You will not be able to request an alternate under cab component on the RH rail.	STD	0#
1247173	EXH: RH UNDER CAB DPF/SCR WITH SINGLE VERTICAL RH BACK OF CAB TAILPIPE - NOT AVAILABLE WITH SLEEPER, 2017 EPA * Not available with ISX-12. * Not available with under cab fairings. * Right hand frame access ladder steps are not available with this exhaust on T680 as it has been identified as posing a safety concern due to proximity to the exhaust. * This exhaust cannot be used on twin steer chassis, or with wide sheet metal fenders. Must use side extenders if an extended daycab is specified. Not for use with a sleeper. * With this exhaust style a RH under cab step assembly is combined with a DPF/SCR cover. You will not be able to request an alternate under cab component on the RH rail.	$416	13#
1247178	EXH: RH UNDER CAB DPF/SCR WITH SINGLE RH SLEEPER MOUNTED TAILPIPE - N/A WITH FEPTO, 2017 EPA. For use w/ AeroCab sleepers only (modular sleepers use side of cab codes). * Cannot be used on T800SH models with a 22K rated taperleaf front spring. * Cannot be used on twin steer chassis, or with wide sheet metal fenders. Not for use with PX-9 engines except on the T4 series. * Cannot be used on W900B models with a 22K rated taperleaf front spring. * Exhaust system cannot be used on T800 with the AG130 front spring. * Not available with ISX-12. * Not available with under cab fairings. * The AeroCab style exhaust is incompatible with the Allison 4500 transmission w/o PTO when used in conjunction with the AG130 front air suspension. * This exhaust restricts access for jackshaft with RH mounted PTOs. * With this exhaust style a RH under cab step assembly is combined with a DPF/SCR cover. You will not be able to request an alternate under cab component on the RH rail.	$466	67#

Option	Description	Price	Weight

Exhaust Systems

1247192	EXH: RH UNDER CAB DPF/SCR WITH RH HORIZONTAL TAILPIPE BELOW RAIL, 2017 EPA	$2,525	-21#

* Due to heat issues, battery boxes BOC on the RH rail are not available with this exhaust.
* Not available with auxiliary transmission on T4 models.
* Not available with ISX-12.
* Not available with under cab fairings.
* This exhaust is not available on T440/470 with wheelbase less than 182 inches.
* When used on T880SH or T4 models, this exhaust is only available with a PX-9 engine.
* With this exhaust style a RH under cab step assembly is combined with a DPF/SCR cover. You will not be able to request an alternate under cab component on the RH rail.

Independent BOC DPF

1227050	Exhaust: Single Independent CNG Catalyst RH BOC, with BOC Vertical Mounted Muffler.	$1,202	148#

* This exhaust style is exclusive to ISL-G and ISX12-G engines.

Horizontal DPF

1247016	Exh: Single Horizontal CNG catalyst with Single Horizontal Tailpipe.	$0	0#

* Due to heat issues, battery boxes BOC between the rails or on the RH rail are not available with this exhaust.
* This exhaust style is exclusive to ISL-G and ISX12-G engines.

CNG

LNG

1247030	EXH: RH Under Single CNG Catalyst MTD Cab Access Assembly Single Vertical Pipe RH Side of Cab	$911	0#

* With this exhaust style a RH under cab step assembly is combined with a DPF/SCR cover. You will not be able to request an alternate under cab component on the RH rail.

Exhaust Accessories

Single Tailpipes

1290124	Tailpipe: 5 in. single 24 in. 45 degree curved.	($54)	-3#

* Single five inch diameter vertical tailpipe is for use with SCR/DPF exhaust and side of cab, side of sleeper, back of cab mounted, or independent mounted tailpipe positions.
* This tailpipe does not meet the minimum length requirement of 36 inches required for use with AeroCab flattop sleepers.
* This tailpipe does not meet the minimum length requirement of 48 inches required for use with AeroCab Aerodyne or Aerodynamic sleepers.
* This tailpipe does not meet the minimum length requirement of 48 inches required for use with T680 high roof sleeper.
* This tailpipe is available only with 2010+ engines.
* This tailpipe is not available on the T440 or T470 with independent mounted SCR/DPF exhaust.

Exhaust Accessories

Single Tailpipes

Option	Description	Price	Weight
1290130	Tailpipe: 5 in. single 30 in. 45 degree curved. * Single five inch diameter vertical tailpipe is for use with SCR/DPF exhaust and side of cab, side of sleeper, back of cab mounted, or independent mounted tailpipe positions. * This tailpipe does not meet the minimum length requirement of 36 inches required for use with AeroCab flattop sleepers. * This tailpipe does not meet the minimum length requirement of 48 inches required for use with AeroCab Aerodyne or Aerodynamic sleepers. * This tailpipe does not meet the minimum length requirement of 48 inches required for use with T680 high roof sleeper. * This tailpipe is available only with 2010+ engines. * This tailpipe is not available on the T440 or T470 with independent mounted SCR/DPF exhaust.	($21)	-1#
1290136	Tailpipe: 5 in. single 36 in. 45 degree curved. * Single five inch diameter vertical tailpipe is for use with SCR/DPF exhaust and side of cab, side of sleeper, back of cab mounted, or independent mounted tailpipe positions. * This tailpipe does not meet the minimum length requirement of 48 inches required for use with AeroCab Aerodyne or Aerodynamic sleepers. * This tailpipe does not meet the minimum length requirement of 48 inches required for use with T680 high roof sleeper. * This tailpipe is available only with 2010+ engines. * This tailpipe is not available on the T440 or T470 with independent mounted SCR/DPF exhaust.	$0	0#
1290142	Tailpipe: 5 in. single 42 in. 45 degree curved. For use with any Exhaust other than SCR Independent. * Single five inch diameter vertical tailpipe is for use with SCR/DPF exhaust and side of cab, side of sleeper, back of cab mounted, or independent mounted tailpipe positions. * This tailpipe does not meet the minimum length requirement of 48 inches required for use with AeroCab Aerodyne or Aerodynamic sleepers. * This tailpipe does not meet the minimum length requirement of 48 inches required for use with T680 high roof sleeper. * This tailpipe is available only with 2010+ engines. * This tailpipe is not available on the T440 or T470 with independent mounted SCR/DPF exhaust.	$22	2#
1290148	Tailpipe: 5 in. single 48 in. 45 degree curved. For use with any Exhaust other than SCR Independent. * Single five inch diameter vertical tailpipe is for use with SCR/DPF exhaust and side of cab, side of sleeper, back of cab mounted, or independent mounted tailpipe positions. * This tailpipe is available only with 2010+ engines. * This tailpipe is not available on the T440 or T470 with independent mounted SCR/DPF exhaust.	$44	3#
1290154	Tailpipe: 5 in. single 54 in. 45 degree curved. For use with any Exhaust other than SCR Independent. * Single five inch diameter vertical tailpipe is for use with SCR/DPF exhaust and side of cab, side of sleeper, back of cab mounted, or independent mounted tailpipe positions. * This tailpipe is available only with 2010+ engines. * This tailpipe is not available on the T440 or T470 with independent mounted SCR/DPF exhaust.	$66	5#
1290160	Tailpipe: 5 in. single 60 in. 45 degree curved. For use with any Exhaust other than SCR Independent. * Single five inch diameter vertical tailpipe is for use with SCR/DPF exhaust and side of cab, side of sleeper, back of cab mounted, or independent mounted tailpipe positions. * This tailpipe is available only with 2010+ engines. * This tailpipe is not available on the T440 or T470 with independent mounted SCR/DPF exhaust.	$101	7#

Option	Description	Price	Weight

Exhaust Accessories

Single Tailpipes

1290336	Tailpipe: 7 in. single 36 in. 45 degree curved. * Not available with roof fairing and back of cab exhaust on a T680 or T880. * Single seven inch diameter vertical tailpipe is for use with SCR exhaust and side of cab, side of sleeper, back of cab mounted, or with stanchion mounted back of cab tailpipe positions. * This tailpipe does not meet the minimum length requirement of 48 inches required for use with AeroCab Aerodyne or Aerodynamic sleepers. * This tailpipe does not meet the minimum length requirement of 48 inches required for use with T680 high roof sleeper. * This tailpipe is available only with 2010+ engines.	$160	4#
1290342	Tailpipe: 7 in. single 42 in. 45 degree curved. For use with any Exhaust other than SCR Independent. * Not available with roof fairing and back of cab exhaust on a T680 or T880. * Single seven inch diameter vertical tailpipe is for use with SCR exhaust and side of cab, side of sleeper, back of cab mounted, or with stanchion mounted back of cab tailpipe positions. * This tailpipe does not meet the minimum length requirement of 48 inches required for use with AeroCab Aerodyne or Aerodynamic sleepers. * This tailpipe does not meet the minimum length requirement of 48 inches required for use with T680 high roof sleeper. * This tailpipe is available only with 2010+ engines.	$185	6#
1290348	Tailpipe: 7 in. single 48 in. 45 degree curved. For use with any Exhaust other than SCR Independent. * Not available with roof fairing and back of cab exhaust on a T680 or T880. * Single seven inch diameter vertical tailpipe is for use with SCR exhaust and side of cab, side of sleeper, back of cab mounted, or with stanchion mounted back of cab tailpipe positions. * This tailpipe is available only with 2010+ engines.	$212	9#
1290354	Tailpipe: 7 in. single 54 in. 45 degree curved. For use with any Exhaust other than SCR Independent. * Not available with roof fairing and back of cab exhaust on a T680 or T880. * Single seven inch diameter vertical tailpipe is for use with SCR exhaust and side of cab, side of sleeper, back of cab mounted, or with stanchion mounted back of cab tailpipe positions. * This tailpipe is available only with 2010+ engines.	$235	11#
1290360	Tailpipe: 7 in. single 60 in. 45 degree curved. For use with any Exhaust other than SCR Independent. * Not available with roof fairing and back of cab exhaust on a T680 or T880. * Single seven inch diameter vertical tailpipe is for use with SCR exhaust and side of cab, side of sleeper, back of cab mounted, or with stanchion mounted back of cab tailpipe positions. * This tailpipe is available only with 2010+ engines.	$255	13#
1290524	Tailpipe: 5 in. single 24 in. 45 degree curved. * Single five inch diameter vertical tailpipe is for use with SCR independent exhaust. * This tailpipe does not meet the minimum length requirement of 36 inches required for use with AeroCab flattop sleepers. * This tailpipe is available only with 2010+ engines. * W900: Available only on W900S with PX-9 engine.	($26)	-3#

Option	Description	Price	Weight

Exhaust Accessories

Single Tailpipes

1290530	Tailpipe: 5 in. single 30 in. 45 degree curved. * Single five inch diameter vertical tailpipe is for use with SCR independent exhaust. * This tailpipe does not meet the minimum length requirement of 36 inches required for use with AeroCab flattop sleepers. * This tailpipe is available only with 2010+ engines. * W900: Available only on W900S with PX-9 engine.	$9	-2#
1290536	Tailpipe: 5 in. single 36 in. 45 degree curved. For use with SCR Independent Exhaust. * Single five inch diameter vertical tailpipe is for use with SCR independent exhaust. * This tailpipe is available only with 2010+ engines. * W900: Available only on W900S with PX-9 engine.	$31	0#

Filters

Fuel-Water Separator

1321125	Fuel Filter:Davco 382 Fuel/Water Separator * Not available for export * Not available with PX-9	$339	8#
1321145	Fuel Filter:Fleetguard FS1003 Fuel/Water Separator for PX-9 * Not available for export * Not available on T880S model.	STD	0#
1321155	Fuel Filter:Rail Mounted for Natural Gas Engines Fuel/Water Separator, ISX12-G AND ISL-G Engines	$0	0#
1321200	Run Aid:None *For Fuel Filter	STD	0#
1321205	Run Aid:Fuel Heat *For Fuel Filter	$0	0#

1321320	Start Aid:120V Heat *For Fuel Filter	$163	1#
1323109	Fleetguard filter/Water separator FS1003 w/WIF (water in fuel) sensor. For PACCAR PX-8/PX-9 or Cummins ISL engines.	$0	0#
1323119	Fleetguard Filter/Water separator FS1003 12V Heat w/WIF (water in fuel) sensor.	$123	0#

Heating & Starting Aids

Block Heater

1504002	Immersion block heater 120V 1000W w/plug under door on C500, T660, T800 & W900. * The 1000 watt immersion-type block heater is for use with ISL, PX-8 and PX-9 engines.	$114	0#
1504006	Block heater, PACCAR 1750 watt 120V for PX-6 and PX-7, 1000 watt for PX-8 and PX-9 or ISL9 engines .	$114	2#

Option	Description	Price	Weight

Heating & Starting Aids

Oil Pan Heater

1506055	Engine oil pan heater 120V 300W w/plug under door on C500, T660, T800 & W900.	$132	2#
	* The 300 watt oil pan heater is applicable to any 2010+ engine.		
	* Using a 300 watt oil pan heater in combination with a block heater will result in the chassis using a 20 amp style plug. Use 1507008 if this is undesirable.		

In-tank Fuel Heater

1509058	Fuel tank heater: single Arctic Fox w/thermostat.	$434	6#
	* Arctic Fox in-tank fuel heater requires a minimum tank size of 22 inches x 56 gallons, 24.5 inches x 75 gallons, or 28.5 inches x 105 gallons.		
	* In-tank fuel heaters are unavailable with steel fuel tank material.		
	* ISL-G and ISX12-G engines do not utilize any fuel heat components designed for diesel engines.		
	* Single in-tank fuel heater is for use only with one fuel tank.		
1509065	Fuel tank heater: dual Arctic Fox w/thermostat.	$684	15#
	* Arctic Fox in-tank fuel heater requires a minimum tank size of 22 inches x 56 gallons, 24.5 inches x 75 gallons, or 28.5 inches x 105 gallons.		
	* Dual in-tank fuel heaters are for use only with two fuel tanks.		
	* In-tank fuel heaters are unavailable with steel fuel tank material.		
	* ISL-G and ISX12-G engines do not utilize any fuel heat components designed for diesel engines.		

Heater Accessories

1507008	Block heater & oil pan heater wired to separate plugs.	$0	0#
	* This option provides two separate 15amp plugs in situations where one 20 amp plug would normally be supplied [engine/block heater wattage exceeds 1750].		
1509000	Shutoff valves for trailer heat w/a short loop of hose.	$133	0#

Fuel Cooler

1500029	Kenworth Fuel Cooler Required for Cummins engines with a single fuel tank. Required for PACCAR MX-13 engine with a single fuel tank and stationary use: High RPM, low vehicle speed, sustained for longer than 1 hour. Optional for all other applications.	$193	6#
	* On the T470 the fuel cooler and power steering cooler are a single unit. Add a power steering cooler when a fuel cooler is specified.		
	* On the T470 the fuel cooler and power steering cooler are a single unit. The power steering cooler must be added to orders specifying a single fuel tank, since a fuel cooler in required is this instance.		
	* Required for Cummins engines with single fuel tank; for PACCAR PX-9 with single fuel tank Restricted for PACCAR MX engines w/o stationary applications (ref 0072001, 0072002, and 0072003)		

Option	Description	Price	Weight
	Front Engine PTO - FEPTO		
2429038	PTO adapter for front engine PTO.	$347	8#
	* A 66 or 73 inch bumper setting is required for use with a front engine PTO on the T800.		
	* Front engine PTO provision is not available on a T800 with an X15 engine or with a PX-9 or ISL-G engine.		
	* PTO WIRING; Can only have one remote throttle contol harness, either to BOC or to EOF.		
	* Rams horn front tow hooks are required on T800 with request for front engine PTO.		
	* T470 with front engine PTO requires the 73 inch bumper setting.		
	* T800 twin steer not available with FEPTO		
	* The 102 inch bumper setting is required on the C500 twin steer when a front engine PTO is requested in the standard front axle configuration.		
	* The 126 inch bumper setting is required on the C500 when a front engine PTO is requested in a set back front axle configuration.		
	* The T800 model requires extended frame rails when used with a front engine PTO.		
	* Unitglas straight split-fender hood is required for use on T800B with front engine PTO or with extended frame rails. Can be used with a 1440 sq inch radiator only.		
	Rear Engine PTO - REPTO		
6340040	Rear Engine PTO PX-8, PX-9, ISL9 Torque Capacity 435 lb-ft continuous, Drive ratio 1.15:1. Includes access provision in toe board.	$3,411	150#
	* Rear engine PTO for PX-9 or ISL-G engines on models T470/T800/W900S, or PX-9 on the T4 or T880 Series. Not compatible with dual exhaust. Not for use with an UltraShift DM3.		
	* Rear engine PTOs cannot be added to chassis in the aftermarket. If your vocation is a mixer discuss the requirement with your customer.		
	* W900S chassis which specify a rear engine PTO must use an SPL driveline if a manual transmission is selected.		
	Governors & Controls		
1405074	Ambient temperature sensor for idle shutdown for use with Cummins ISM, ISX12, X15, and PACCAR PX engines.	$0	0#
	Engine Equipment Miscellaneous		
1000170	Enable engine regeneration in PTO mode Cummins	$0	0#
	* Not available with PACCAR MX-13 engine.		
1000242	Gearing Analysis: Fuel Economy fuel efficiency results.	$0	0#
1000243	Gearing Analysis: Performance power before economy results.	$0	0#

1000275	Customer's Typical Operating Spd: 75 MPH	$0	0#
1900082	Multi-function engine connector for body builder interface for Cummins. * Optional multi-function engine connector for use on pre-2010 EPA engines or with 2010+ Cummins and PACCAR PX-9 engines. * T680/T880 models do not require multifunction engine connector sales codes. All other models require a multifunction engine connector (1900082 or 1900084).	$54	0#
1900086	Connection between PTO switch & engine requires code 1900082 or 1900084. T680/T880: This feature is standard, no code required. * Connection between PTO and engine requires the multi-function engine connector. * With this harness between the PTO control and the engine you must add a PTO control.	$59	0#
1900089	Connect BTWN C/I PTO SW & Eng,Warn LMP use 1900086 W/PTO Cntrl, REQs 1900082 OR 84 * Connection between PTO and engine requires the multi-function engine connector. * This harness between the PTO control is for use with an aftermarket PTO control. For factory installed controls use the 1900086 connection.	$140	0#
1900976	Body Builder Control Harness coiled EOF for customer installed remote throttle and remote PTO controls. Harness includes Remote PTO control and Remote Throttle controls. T680/T880 models do not require 12-way engine connector sales codes. All other models require (1900082 or 1900084). * T680/T880 models do not require multifunction engine connector sales codes. All other models require a multifunction engine connector (1900082 or 1900084). * With an Allison transmission, requires auto-neutral functionality, unless a split-shaft PTO.	$74	2#
1901084	Body Builder Battery Power Prewire	$85	2#
	Retarders		
1700149	Retarder Jacobs for PX-8/9 ISL w/ 3-way switch.. Replaces the standard turbo brake for PX-8 engines. * Compression brake for use on PX-9 engine. With PX-9 engines this option will replace the turbo brake. Not available on ISL-G engines.	$2,200	57#
	Starting & Recharging		
	Alternator		
1812162	Alternator: 160 amp brushless with battery voltage sense. *This code replaced 1812160. * For use with 2010+ or Euro 3 engines.	$211	9#
1812451	Alternator: Delco 40SI 320 amp Brushless with battery voltage sense	$1,075	14#

Option	Description	Price	Weight

Starting & Recharging

Alternator

1816200	Alternator: Bosch 200 amp, brush type	$139	0#
	* 2010+ compliant engines in T4 series require an alternator that supports engine electronic requirement for J180.		
	* Alternators over 160A are not for use with an ammeter as the gauge only senses up to 150A.		
	* For use only with 2010+ engines.		
1816260	Alternator: PACCAR 160 amp, brush type	STD	0#
	* 2010+ compliant engines in T4 series require an alternator that supports engine electronic requirement for J180.		
	* For use with 2010+ or Euro 3 engines.		

Battery

1821210	Batteries: 3 PACCAR GP31 threaded post (700) 2100 CCA dual purpose.	$139	57#
1821215	Batteries: 4 PACCAR GP31 threaded post (700) 2800 CCA dual purpose.	$330	114#
1821220	Batteries: 2 PACCAR GP31 threaded post (700) 1400 CCA dual purpose.	STD	0#
	* The use of two batteries only in cold weather climates may result in insufficient starting power for some truck applications over time. Consider selecting three or four batteries.		
	* Two battery configuration with 1400 CCA is available with day cab, 38 inch and 40 inch sleeper only unless an Electronic Starting Module is selected.		
1821225	Batteries: 2 PACCAR GP31 threaded post (1000) 2000 CCA starting.	($25)	4#
	* The use of two batteries only in cold weather climates may result in insufficient starting power for some truck applications over time. Consider selecting three or four batteries.		
	* Two batteries with a total of 2000 CCA are for non-sleepers, 38 inch AeroCab sleepers and 40 inch NGP unless an Electronic Starting Module is selected.		
1825612	Batteries: 2 Optima 31A Threaded post (900) 1800 CCA.	$624	6#
	* Specific batteries (1825612, 1825623, 1821271 or 1821275) required for an in-cab battery box.		
	* The use of two batteries only in cold weather climates may result in insufficient starting power for some truck applications over time. Consider selecting three or four batteries.		
1825623	Batteries: 3 Optima 31A Threaded post (900) 2700 CCA.	$1,047	66#
	* Specific batteries (1825612, 1825623, 1821271 or 1821275) required for an in-cab battery box.		

Battery Equipment

1840005	Battery disconnect switches 2, mounted on battery box.	$347	2#
	* Battery disconnect switches located on the battery box end are not for use with full length chassis fairings or with a battery box located BOC between the rails.		
	* Constant power to the radio for clock and memory pre-sets is advised for use with battery disconnect switches.		
	* Disconnect switches on the battery box are not available with dual side of cab exhaust on AeroCab chassis due to LH tailpipe routing.		
	* Not for use with battery box under rider seat.		
	* The in-cab battery box cannot be used with optional disconnect switches, box insulation, steel battery hold downs, or the Canadus battery energizer.		
	* This cantilever style box is labeled vocational and is 3 inches narrower than a regular cantilever style box. The batteries are positioned parallel to the frame rail with a maximum quantity of three. Jumpstart terminals or disconnect switches cannot be located on this box.		

Option	Description	Price	Weight

Starting & Recharging

Battery Equipment

1840006	Battery disconnect switches 2, mounted in cab Requires battery box LH under. * A fire extinguisher on the driver's side floor is incompatible with battery disconnects in the same location. * Allison transmissions are incompatible with items mounted on the floor LH side of the drivers seat. * Battery disconnect switches located on the driver's side cab floor are not for use with dual cab mounted exhaust [except AeroCab style exhaust which is not restricted]. Requires that the battery box be located LH under the cab due to proximity. * Constant power to the radio for clock and memory pre-sets is advised for use with battery disconnect switches. * The in-cab battery box cannot be used with optional disconnect switches, box insulation, steel battery hold downs, or the Canadus battery energizer.	$409	0#
1840010	Steel battery holddowns standard w/3 batteries. * Steel battery box hold downs are not available with air tank module [ATM style] battery boxes. * Steel battery hold downs are standard with severe service, no code required. * The battery box required on Aerodynamic models is located LH under the cab and is not available with steel hold downs or battery box insulation. * The in-cab battery box cannot be used with optional disconnect switches, box insulation, steel battery hold downs, or the Canadus battery energizer.	$34	4#
1840061	Low voltage disconnect day cab or w/sleeper except 72 in., 75 in., & 86 in. * Low voltage disconnect option available for daycabs, extended daycabs, 38 or 62 inch AeroCabs, with a 42 inch modular sleeper..	$117	0#
1900996	Jump start terminals under hood. * Jump start terminals are recommended when an in-cab battery box is specified. * Jump start terminals under the hood are not for use on LNG chassis due to interference with LH fuel piping. Not for use on CNG vehicles.	$206	12#
1901003	Jump start terminals frame mounted BOC or sleeper. * Jump start terminals are recommended when an in-cab battery box is specified. * Not available with crossover or horizontal underframe exhaust.	$269	12#

Starter

1836100	Starter: PACCAR 12 volt electrical system. W/ centralized power distribution incorporating plug-in style relays. Circuit protection for serviceability, 12-volt light system w/circuit protection circuits number & color coded.	STD	0#

Option	Description	Price	Weight

Eaton

6-Speed

2051122	Transmission: Fuller FSO8406A 6-speed synchro. *Torque Limit: 860 pound-feet.	$790	0#
	* This transmission is available with a maximum engine torque of 860 ft lbs.		
2051123	Transmission: Fuller FS6406A 6-speed synchro. *Torque Limit: 660 pound-feet.	STD	0#
	* Fuller overdrive transmissions with 400hp+ engine and GCW exceeding 90K require a code for transmission oil cooler.		
	* This transmission is available with a maximum engine torque of 660 ft lbs.		

9-Speed

2051302	Transmission: Fuller RT8709B 9-speed. *Torque Limit: 860 pound-feet.	$558	182#
	* Fuller overdrive transmissions with 400hp+ engine and GCW exceeding 90K require a code for transmission oil cooler.		
	* This transmission is available with a maximum engine torque of 860 ft lbs.		

10-Speed

2051362	Transmission: Fuller RT8908LL 10-speed. *Torque Limit: 860 pound-feet.	$2,059	292#
	* For 62 inch AeroCab sleepers requesting a ten speed transmission and horizontal DPF/SCR exhaust the intermediate duty driveline with a single centerbearing is not available.		
	* Fuller overdrive transmissions with 400hp+ engine and GCW exceeding 90K require a code for transmission oil cooler.		
	* This transmission is available with a maximum engine torque of 860 ft lbs.		
2052360	Transmission: Fuller FR9210B 10-speed. *Torque Limit: 950 pound-feet.	$1,015	191#
	* For 62 inch AeroCab sleepers requesting a ten speed transmission and horizontal DPF/SCR exhaust the intermediate duty driveline with a single centerbearing is not available.		
	* Fuller overdrive transmissions with 400hp+ engine and GCW exceeding 90K require a code for transmission oil cooler.		
	* This transmission is available with a maximum engine torque of 950 ft lbs.		
2057360	Transmission: Fuller FRO14210C 10-speed Standard with synthetic lubricant. Includes severe-duty pilot bearing on all class 8 models. *Torque Limit: 1450 pound-feet.	$2,341	0#
	* For 62 inch AeroCab sleepers requesting a ten speed transmission and horizontal DPF/SCR exhaust the intermediate duty driveline with a single centerbearing is not available.		
	* Fuller FR transmissions with an internal oil cooler will not support a 6-bolt PTO mounting.		
	* This transmission is available with a maximum engine torque of 1450 ft lbs.		
2057371	Transmission: Fuller RTO14908LL 10-speed. Standard with synthetic lubricant. Includes severe-duty pilot bearing on all class 8 models. *Torque Limit: 1450 pound-feet.	$4,419	345#
	* For 62 inch AeroCab sleepers requesting a ten speed transmission and horizontal DPF/SCR exhaust the intermediate duty driveline with a single centerbearing is not available.		
	* Fuller overdrive transmissions with 400hp+ engine and GCW exceeding 90K require a code for transmission oil cooler.		
	* Russian compliance does not support the use of this transmission.		
	* The Fuller -8LL transmissions are incompatible with a tachograph.		
	* This transmission is available with a maximum engine torque of 1450 ft lbs.		

Option	Description	Price	Weight

Eaton

10-Speed

2057384	Transmission:Eaton FO14E308LL-VCS UltraShift Plus 10-speed w/Hill Start Aid feature. Standard with synthetic lubricant. This product has extended forward and reverse gear ratio coverage specifically designed for dump truck or other construction applications. C500, T660, T800 & W900 models utilize a cobrahead shift lever. *Torque Limit: 1450 pound-feet. * For 62 inch AeroCab sleepers requesting a ten speed transmission and horizontal DPF/SCR exhaust the intermediate duty driveline with a single centerbearing is not available. * Fuller overdrive transmissions with 400hp+ engine and GCW exceeding 90K require a code for transmission oil cooler. * Not available with an ISX12G engine. * This transmission is available with a maximum engine torque of 1450 ft lbs. * UltraShift Plus transmissions require ABS that includes air traction control. * UltraShift Plus VCS transmissions are approved for use in pickup & delivery, linehaul, construction, concrete ready-mix, wrecker, utility, logging, mining, oil field, refuse, fire service, rescue, agriculture, crane/cherry picker, mixer, or snowplow. It is not available for use in heavy haul. * With 2007+ EPA engines the transmission gear display for AutoShift or UltraShift transmissions will be located in the Kenworth Driver Information Center.	$12,786	453#
2058422	FLR ADV AUTOMATED FAO-14810C-EA3 10SPD NO COOLER W/HSA *USE W/2250385 ONLY * For use with clutch for Ultrashift or Fuller Advantage * Limited to 100,000 GCW. * The combination of ISX12G and EA3 Transmissions is restricted to only Linehaul and Regional Haul Applications for the US and Canada * This transmission is approved for use in pickup & delivery, linehaul, construction, concrete ready-mix, wrecker, utility, logging, mining, oil field, refuse, fire service, rescue, agriculture, crane/cherry picker, mixer, or snowplow. It is not available for use in heavy haul. * This transmission is available with a maximum engine torque of 1450 ft lbs.	$8,659	367#

11-Speed

2057420	Transmission: Eaton FO-14E309ALL-VMS UltraShift Plus 11-speed w/Hill Start Aid feature. Standard with synthetic lubricant. This product has a deep drive ratio intended for use in mixer applications, or where deep reduction is needed. C500, T660, T800 & W900 models utilize a cobrahead shift lever. *Torque Limit: 1450 pound-feet. * Fuller overdrive transmissions with 400hp+ engine and GCW exceeding 90K require a code for transmission oil cooler. * Not available with an ISX12G engine. * The UltraShift Plus VMS requires written manufacturers approval when used in vocations of linehaul, regional haul, city delivery, logging, oil field, or mining services. * This transmission is available with a maximum engine torque of 1450 ft lbs. * UltraShift Plus transmissions require ABS that includes air traction control. * UltraShift Plus VMS transmissions are not approved for use in heavy haul applications. * With 2007+ EPA engines the transmission gear display for AutoShift or UltraShift transmissions will be located in the Kenworth Driver Information Center.	$13,932	453#
2057422	Transmission: Fuller RTO14909ALL 11-speed. Standard with synthetic lubricant. Includes severe-duty pilot bearing on all class 8 models. *Torque Limit: 1450 pound-feet. * Eaton Fuller 11-speed transmissions require Powertrain protection programming when specified with an ISM or ISX12G or Export engines and Meritor tandem rear axles rated under 52K. * Fuller overdrive transmissions with 400hp+ engine and GCW exceeding 90K require a code for transmission oil cooler. * This transmission is available with a maximum engine torque of 1450 ft lbs.	$5,056	326#

Option	Description	Price	Weight

Allison

5-Speed

2011192	Transmission: Allison 3000HS 5-speed w/o PTO drive gear. 5th Gen Controls. Includes heat exchanger & oil level sensor. Highway Service only as defined by Allison. CTransynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * A PTO provision is not available with this Allison transmission. * Allison 3000-series transmissions are for use with engines rated at 370 HP or less. * Allison World transmissions require the additional selection of a push button or lever shift module. * The Allison 3000 series transmissions will accept engine torque up to 1250 ft lbs. * The Allison 3000RDS is available on the T800 with a short hood [T800SH] or W900 with a sloped hood [W900S] due to PX-9 engine limitation,T680 and T4 series models only. Limited to use in linehaul or pick-up and delivery services only. For emergency services of fire or EMT/rescue use the EVS version. For other vocations use the RDS version. * The selected transmission is only available with MX-11 (0700191, 0700192, and 0700198), or ISX12 (0125719, 0125730) engines. * There is no PTO provision available with this transmission. If a PTO will be required in the future use the RDS series transmission.	$12,914	244#
2011203	Transmission: Allison 3000RDS 5-speed w/PTO drive gear. 5th Gen Controls. Includes heat exchanger & oil level sensor. Rugged Duty Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. Requires a push button shift control code. Oil temperature gauge is standard on class 8 models. * Allison 3000-series transmissions are for use with engines rated at 370 HP or less. * Allison World transmissions require the additional selection of a push button or lever shift module. * The Allison 3000 series transmissions will accept engine torque up to 1250 ft lbs. * The Allison 3000RDS is available on the T800 with a short hood [T800SH] or the W900 with a sloped hood [W900S] due to PX-9 engine limitation, and the T680, T4 series models only. Not available for emergency services of fire or EMT/rescue. * The maximum GVWR for this transmission when used in mixer or refuse service is 60,000 lbs. * The selected transmission is only available with MX-11 (0700191, 0700192, and 0700198), or ISX12 (0125719, 0125730) engines.	$14,303	291#
2011228	Transmission: Allison 3500RDS 5-speed w/PTO drive gear. Limited to 860 lb.-ft. 5th Gen controls. Includes heat exchanger & oil level sensor. Rugged Duty Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison World transmissions require the additional selection of a push button or lever shift module. * The Allison 3500RDS is available on the T800 with a short hood [T800SH] or W900 with a sloped hood [W900S] due to PX-9 engine limitation, and T4 series models only. Not available for emergency services of fire or EMT/rescue. * This transmission is available with a maximum engine torque of 1050 ft lbs.	$14,232	291#

Option	Description	Price	Weight

Allison

5-Speed

2012193	Transmission: Allison 3000EVS 5-speed w/PTO drive gear. 5th Gen controls. Includes heat exchanger & oil level sensor. Emergency Vehicle Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * A PTO provision is not available with this Allison transmission. * Allison EVS transmissions are not available with ISL-G or ISX12-G engines. * Allison World transmissions require the additional selection of a push button or lever shift module. * Available for T800, T4 series or W900S with a PX-9. EVS transmissions are available only for fire or EMT/rescue service. * The Allison 3000 series transmissions will accept engine torque up to 1250 ft lbs. * The Allison 3000EVS is limited to emergency services only. See HS or RDS version for services other than fire or EMT/rescue. * The selected transmission is only available with MX-11 (0700191, 0700192, and 0700198), or ISX12 (0125719, 0125730) engines.	$16,492	291#
2016153	Transmission: Allison 4000RDS 5-speed w/o Retarder w/PTO provision 5th generation. For vocational applications. Includes shift control, transmission oil temperature gauge, oil level sensor & heat exchanger. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison RDS transmissions are restricted to 1550 ft lbs of engine torque when used as a refuse hauler. * Allison World transmissions require the additional selection of a push button or lever shift module. * This transmission is available with a maximum engine torque of 1850 ft lbs.	$26,252	647#
2016156	Transmission: Allison 4500RDS 5-speed w/o Retarder w/PTO provision 5th generation. For vocational applications. Includes shift control, transmission oil temperature gauge, oil level sensor & heat exchanger. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison RDS transmissions are restricted to 1550 ft lbs of engine torque when used as a refuse hauler. * Allison transmissions are not available on the W900L. * Allison World transmissions require the additional selection of a push button or lever shift module. * This transmission is available with a maximum engine torque of 1850 ft lbs.	$27,467	647#

6-Speed

2011194	Transmission: Allison 3000HS 6-speed w/o PTO drive gear. 5th Gen controls. Includes heat exchanger & oil level sensor. Highway Service only as defined by Allison. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * A PTO provision is not available with this Allison transmission. * Allison 3000-series transmissions are for use with engines rated at 370 HP or less. * Allison World transmissions require the additional selection of a push button or lever shift module. * The Allison 3000 series transmissions will accept engine torque up to 1250 ft lbs. * The Allison 3000RDS is available on the T800 with a short hood [T800SH] or W900 with a sloped hood [W900S] due to PX-9 engine limitation,T680 and T4 series models only. Limited to use in linehaul or pick-up and delivery services only. For emergency services of fire or EMT/rescue use the EVS version. For other vocations use the RDS version. * The selected transmission is only available with MX-11 (0700191, 0700192, and 0700198), or ISX12 (0125719, 0125730) engines. * There is no PTO provision available with this transmission. If a PTO will be required in the future use the RDS series transmission.	$12,914	244#

Option	Description	Price	Weight

Allison

6-Speed

2011205	Transmission: Allison 3000RDS 6-speed w/PTO drive gear. 5th Gen controls. Includes heat exchanger & oil level sensor. Rugged Duty Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. Requires a push button shift control code. Oil temperature gauge is standard on class 8 models. * Allison 3000-series transmissions are for use with engines rated at 370 HP or less. * Allison World transmissions require the additional selection of a push button or lever shift module. * The Allison 3000 series transmissions will accept engine torque up to 1250 ft lbs. * The Allison 3000RDS is available on the T800 with a short hood [T800SH] or the W900 with a sloped hood [W900S] due to PX-9 engine limitation, and the T680, T4 series models only. Not available for emergency services of fire or EMT/rescue. * The maximum GVWR for this transmission when used in mixer or refuse service is 60,000 lbs. * The selected transmission is only available with MX-11 (0700191, 0700192, and 0700198), or ISX12 (0125719, 0125730) engines.	$14,303	291#
2011232	Transmission: Allison 3500RDS 6-speed w/PTO drive gear. 5th Gen Controls. Limited to 860 lb.-ft. Includes heat exchanger & oil level sensor. Rugged Duty Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison World transmissions require the additional selection of a push button or lever shift module. * The Allison 3500RDS is available on the T800 with a short hood [T800SH] or W900 with a sloped hood [W900S] due to PX-9 engine limitation, and T4 series models only. Not available for emergency services of fire or EMT/rescue. * This transmission is available with a maximum engine torque of 1050 ft lbs.	$14,232	291#
2012195	Transmission: Allison 3000EVS 6-speed w/PTO drive gear. 5th Gen controls. Includes heat exchanger & oil level sensor. Emergency Vehicle Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison EVS transmissions are not available with ISL-G or ISX12-G engines. * Allison World transmissions require the additional selection of a push button or lever shift module. * EVS transmissions require auto neutral. NFPA requires this feature on automatic transmissions. * The Allison 3000 series transmissions will accept engine torque up to 1250 ft lbs. * The selected transmission is only available with MX-11 (0700191, 0700192, and 0700198), or ISX12 (0125719, 0125730) engines.	$16,492	291#
2012196	Transmission: Allison 3500EVS 6-speed w/PTO drive gear. 5th Gen controls. Includes heat exchanger & oil level sensor. Emergency Vehicle Series for vocational applications. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison EVS transmissions are not available with ISL-G or ISX12-G engines. * Allison World transmissions require the additional selection of a push button or lever shift module. * EVS transmissions require auto neutral. NFPA requires this feature on automatic transmissions. * The selected transmission is only available with MX-11 (0700191, 0700192, and 0700198), or ISX12 (0125719, 0125730) engines. * This transmission is available with a maximum engine torque of 950 ft lbs.	$16,798	291#
2016154	Transmission: Allison 4000RDS 6-speed w/o retarder, w/PTO provision. 5th generation. For vocational applications. Includes shift control, transmission oil temperature gauge, oil level sensor & heat exchanger. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison RDS transmissions are restricted to 1550 ft lbs of engine torque when used as a refuse hauler. * Allison World transmissions require the additional selection of a push button or lever shift module. * This transmission is available with a maximum engine torque of 1850 ft lbs.	$26,252	641#

Option	Description	Price	Weight

Allison

6-Speed

2016158	Transmission: Allison 4500RDS 6-speed w/o retarder, w/PTO provision. 5th generation. For vocational applications. Includes shift control, transmission oil temperature gauge, oil level sensor & heat exchanger. Transynd transmission fluid is standard on all Allison 1000, 2000, 3000 & 4000 series transmissions. * Allison RDS transmissions are restricted to 1550 ft lbs of engine torque when used as a refuse hauler. * Allison transmissions are not available on the W900L. * Allison World transmissions require the additional selection of a push button or lever shift module. * This transmission is available with a maximum engine torque of 1850 ft lbs.	$27,467	647#

Transmission Equipment

2410005	Optional neutral start switch. * The option for a neutral start switch is not compatible with UltraShift transmissions.	$51	0#
2410047	High Capacity Input Shaft Bearing for High PTO Duty Cycle * This option is available with the following transmissions: all 10-speed FR, all 13-speed, RTOC-16909A, RTOCM-16909A, and all 18-speed except the RTLO-22918B. All other Eaton transmissions have this feature as standard.	$23	0#
2410151	Pushbutton control center console mounted. Class 8 with Allison Transmission. * The shift control is located in the left-most cup holder.	$0	0#
2410203	Allison FuelSense Base: Includes EcoCal, 5th Gen Controls, and Dynamic Shift Sensing	$0	0#
2410204	Delete Allison FuelSense	$0	0#
2410205	Allison FuelSense Plus: Includes EcoCal, 5th Gen Controls, Neutral at Stop, and Dynamic Shift Sensing. There is a cost associated with FuelSense Plus or Max on all Medium Duty with Allison 1000/2000 series.	$180	0#
2410206	Allison FuelSense Max: Base Economy, Features Acceleration Rate Management. There is a cost associated with FuelSense Plus or Max on all Medium Duty with Allison 1000/2000 series.	$180	0#
2410207	Allison FuelSense Max: High Economy, Features Acceleration Rate Management. There is a cost associated with FuelSense Plus or Max on all Medium Duty with Allison 1000/2000 series.	$180	0#
2410208	Allison FuelSense Max: Ultra Economy, Features Acceleration Rate Management. There is a cost associated with FuelSense Plus or Max on all Medium Duty with Allison 1000/2000 series.	$180	0#
2410244	J1939 Park Brake Auto Neutral	$0	0#
2429065	PTO interlock for parking brakes. * PTO interlock for parking brakes for use with a transmission PTO or a split-shaft PTO. PTO will not engage without park brakes set.	$122	2#
2429100	Chassis will be fitted w/LH transmission PTO. (PREVENTS ECU F/INTERFERING W/PTO ONLY) * If a harness between the PTO control and the engine is desired you must either add factory installed PTO controls and 1900086, or 1900089. * PTO installations with 2010+ exhaust systems can be problematic in some instances. A code is required to indicate the PTO requirements for the chassis. * When a PTO will be installed in the aftermarket you may consider coding for air tank clear space to ease the installation process.	$0	0#

Option	Description	Price	Weight
	Transmission Equipment		
2429101	Chassis will be fitted w/RH transmission PTO. (PREVENTS ECU F/INTERFERING W/PTO ONLY) * If a harness between the PTO control and the engine is desired you must either add factory installed PTO controls and 1900086, or 1900089. * PTO installations with 2010+ exhaust systems can be problematic in some instances. A code is required to indicate the PTO requirements for the chassis. * When a PTO will be installed in the aftermarket you may consider coding for air tank clear space to ease the installation process.	$0	0#
2429102	Chassis will not be fitted w/transmission PTO. (PREVENTS ECU F/INTERFERING W/PTO ONLY) * PTO installations with 2010+ exhaust systems can be problematic in some instances. A code is required to indicate the PTO requirements for the chassis. * This code is not intended to be used along with a customer installed PTO info code. If a PTO will be installed in the aftermarket use 2429100 or 2429101.	$0	0#
2450114	ADD TRANS FILTER: EATON ULTRASHIFT PLUS *Optional below 2050 lb-ft torque. Filter is installed on the transmission by Eaton. * This option is no available with transmissions rated for 2050 ft.lbs. of torque.	$192	0#
2480315	Severe Service rear transmission support spring(s). * PACCAR MX engines utilize a flywheel housing design that makes this option unnecessary. * Transmission support springs are upgraded when required, except with PACCAR MX engines, when Severe Service is coded.	$75	15#
	Auxiliary Transmissions		
2154321	Aux: AT1202 2-speed electric over air shift 3-position rocker switch dash mounted and includes synthetic lubricant	$16,792	522#
	Split-Shaft PTO		
2329430	Fabco PTO-180 Split Shaft 873-0116-030 * A transmission oil cooler is required with this split-shaft PTO. * Auxiliary transmissions have dash mounted controls that eliminate four optional gauge spots. * Special delivery requirements may be required with auxiliary transmissions. See shipping policy TA005. * This component requires a long lead-time. Refer to the long lead-time report for potential delivery date availability.	$21,922	725#
2410073	Customer-installed split shaft PTO Informational only, nothing additional is provided.	$0	0#
	Clutch		
	Manually Adjusting		
2240012	Clutch: ceramic low inertia 606 to 860 lb-ft 14 in. Fuller required for export. Includes manual adjusting clutch cover, extended grease fitting for clutch bearing and cross shaft, and synthetic lubricant for the transmission.	($98)	0#
2240035	Clutch: Eaton Fuller 14in. medium-duty manual adjustment 606-1000. Includes manual adjusting clutch cover, extended grease fitting for clutch bearing and cross shaft, and synthetic lubricant for the transmission.	STD	0#
2250385	Clutch:UltraShift Plus OR Fuller Advantage Series Automated transmissions. * Clutch code for use with the UltraShift Plus transmissions.	$0	0#

Option	Description	Price	Weight

Clutch

Manually Adjusting

2250600	Clutch: Eaton 4 paddle ceramic 1650 lb-ft Eaton 15-1/2 in. Easy Pedal Advantage Manual Adjust Clutch cover. Torque limiting clutch brake. Severe duty pilot bearing. Synthetic lubrication for Eaton Fuller & axles. Extended grease fitting. * Heavy-duty 6-paddle clutches are strongly recommended in services where there are frequent start and stop cycles, or when shifting is especially frequent.	($77)	3#
2250670	Clutch: Eaton ceramic 6-paddle 1650 lb-ft Eaton 15-1/2 in. Easy Pedal Advantage Manual adjusting, clutch brake. SD pilot bearing. Synthetic lube f/manual transmissions & axles. Extended grease fitting.	$214	6#

Solo

2240023	Clutch: Fuller 14 in. solo severe 606 to 860 lb-ft. For severe service. Includes adjustment free clutch cover, extended grease fitting for clutch bearing and cross shaft, and synthetic lubricant for the transmission.	$61	0#
2240040	Clutch: Fuller 14 in. MD solo 606-1050 lb-ft. Includes adjustment free clutch cover, extended grease fitting for clutch bearing and cross shaft, and synthetic lubricant for the transmission.	$98	0#
2250630	Clutch: Eaton 15-1/2 in Solo Advantage 1650 lb-ft Eaton 15-1/2 in Ceramic. 4 paddle self adjusting. Clutch brake. Severe duty pilot bearing. Synthetic lubrication for Eaton Fuller transmission & axles. Extended grease fit. * Heavy-duty 6-paddle clutches are strongly recommended in services where there are frequent start and stop cycles, or when shifting is especially frequent.	$169	5#

Miscellaneous

2294004	Kenworth Air Assisted clutch booster for mechanical clutch linkage * Air assist clutch booster is not for use with any AutoShift or UltraShift.	$605	0#
2294035	Grease bank for clutch & cross shaft. * Clutch related components are not for use with UltraShift transmissions, including the optional grease bank. * No clutch equipment required with an Allison transmission.	$355	11#
2410018	Torque converter included w/Allison Transmission. * Allison automatic transmissions require the use of a torque converter, not a clutch.	$0	0#

PTO

2410044	Thru-shaft PTO provision (PTO not included) 10-speed RTO14908LL. * Requires full round yokes or SPL drivelines. * Thru-shaft PTO provision is not available with an 11908LL or 15-speed transmission.	$193	6#
2429358	Rear transmission support springs for transmission PTO applications are required to ensure that engine flywheel housings are not overloaded when transmission PTO's are installed. * PACCAR MX engines utilize a flywheel housing design that makes this option unnecessary.	$75	0#

Driveline

2403205	Driveline:1 Dana medium-duty no centerbearing. *Med duty is 1760 series.	STD	0#
2403405	Driveline: 2 Dana medium-duty 1 centerbearing. *Med duty is 1760 series. * For 62 inch AeroCab sleepers requesting a ten speed transmission and horizontal DPF/SCR exhaust the intermediate duty driveline with a single centerbearing is not available.	$820	55#

Driveline

Option	Description	Price	Weight
2403410	Driveline: 3 Dana medium-duty 2 centerbearing *Med duty is 1760 series.	$1,533	169#
2403605	Driveline: 2 medium-duty; no centerbearing, for use w/Aux transmission or transfer case. *Med duty is 1760 series.	$180	0#
2405605	Driveline: 2 Dana 1810 hvy-duty no centerbearing for use w/auxiliary transmission or transfer case. *Hvy duty is 1810 series. * Three heavy-duty drivelines can only be used for split-shaft PTOs [PTO-170]. Regular auxiliary transmissions require SPL250 series drivelines.	$499	0#
2406204	Driveline: 1 SPL170XL no centerbearing requires 3500057 interaxle driveline. * Extended Warranty requires the use of an SPL driveline.	$307	-24#
2406205	Driveline: 1 Dana SPL250XL W/ no centerbearing requires 3500057 interaxle driveline. Low maintenance offering from Spicer. On-highway 350K mi first service interval, 100K mi subsequent service interval on U-joint, splines lubed for life for life, quick disconnect end caps. * An SPL250, SPL350, or RPL25SD driveline is required when an 18-speed transmission is requested with engine torque greater than 1849 ft-lbs. * Extended Warranty requires the use of an SPL driveline. * When a battery box back of cab between the rails is specified the centerbearing will at times interfere the box installation. When this occurs the dealer will be contacted by engineering regarding increased wheelbase requirements.	$429	0#
2406254	Driveline: 2 SPL250XL no centerbearing for use w/auxiliary transmission or transfer case. Low maintenance offering from Spicer. On-highway 350K mi first service interval, 100K mi subsequent service interval on U-joint, splines lubed for life for life, quick disconnect end caps. * An SPL250, SPL350, or RPL25SD driveline is required when an 18-speed transmission is requested with engine torque greater than 1849 ft-lbs. * Extended Warranty requires the use of an SPL driveline. * When a battery box back of cab between the rails is specified the centerbearing will at times interfere the box installation. When this occurs the dealer will be contacted by engineering regarding increased wheelbase requirements.	$838	0#
2406452	Driveline: 2 SPL170XL 1 centerbearing requires 3500057 interaxle driveline. * Extended Warranty requires the use of an SPL driveline.	$1,060	46#
2406453	Driveline: 2 Dana SPL250XL 1 centerbearing requires 3500057 interaxle driveline. Low maintenance offering from Spicer. On-highway 350K mi first service interval, 100K mi subsequent service interval on U-joint, splines lubed for life for life, quick disconnect end caps. * An SPL250, SPL350, or RPL25SD driveline is required when an 18-speed transmission is requested with engine torque greater than 1849 ft-lbs. * Extended Warranty requires the use of an SPL driveline. * When a battery box back of cab between the rails is specified the centerbearing will at times interfere the box installation. When this occurs the dealer will be contacted by engineering regarding increased wheelbase requirements.	$910	0#
2406454	Driveline: 4 Dana SPL250XL 3 centerbearing requires 3500057 interaxle driveline. Low maintenance offering from Spicer. On-highway 350K mi first service interval, 100K mi subsequent service interval on U-joint, splines lubed for life for life, quick disconnect end caps. * An SPL250, SPL350, or RPL25SD driveline is required when an 18-speed transmission is requested with engine torque greater than 1849 ft-lbs. * Extended Warranty requires the use of an SPL driveline. * When a battery box back of cab between the rails is specified the centerbearing will at times interfere the box installation. When this occurs the dealer will be contacted by engineering regarding increased wheelbase requirements.	$3,104	298#
2406455	Driveline: 2 SPL170XL; no centerbearing Medium-duty: for use w/auxiliary transmission.	$474	71#

Option	Description	Price	Weight
	Driveline		
2406802	Driveline: 3 SPL170XL 2 centerbearing requires 3500057 interaxle driveline. * Extended Warranty requires the use of an SPL driveline.	$1,901	152#
2406803	Driveline: 3 Dana SPL250XL W/ 2 centerbearings Requires 3500057 interaxle driveline. Low maintenance offering from Spicer. On-highway 350K mi first service interval, 100K mi subsequent service interval on U-joint, splines lubed for life for life, quick disconnect end caps. * An SPL250, SPL350, or RPL25SD driveline is required when an 18-speed transmission is requested with engine torque greater than 1849 ft-lbs. * Extended Warranty requires the use of an SPL driveline. * When a battery box back of cab between the rails is specified the centerbearing will at times interfere the box installation. When this occurs the dealer will be contacted by engineering regarding increased wheelbase requirements.	$1,644	0#
2406820	Driveline: 4 SPL170XL 3 centerbearing requires 3500057 interaxle driveline. * Extended Warranty requires the use of an SPL driveline.	$2,722	235#
2408201	DRIVELINE:1 MERITOR RPL25; NO CTRBRG REQ 3500058 W/ Tandem Rear Axles * When a battery box back of cab between the rails is specified the centerbearing will at times interfere the box installation. When this occurs the dealer will be contacted by engineering regarding increased wheelbase requirements	$303	-4#

	Driveline Equipment		
2406005	45 degree yokes on interaxle drivelines. * YOKES; the combination of SPL170 interaxle, RT463 rear suspension, D46-170 rear axle require the 45 deg yoke.	$418	11#
2410100	Two guards for dual drivelines. * Driveline guard for dual drivelines. * For chassis hauling flammable liquids driveline guards are recommended to help retain the driveline position in the event of U-joint failure.	$191	8#

Option	Description	Price	Weight

Driveline

Driveline Equipment

2410103	Guards: (3) for 3 drivelines. * Driveline guards for three drivelines. * For chassis hauling flammable liquids driveline guards are recommended to help retain the driveline position in the event of U-joint failure.	$927	0#
2410105	One guard for single driveline. * Driveline guard for single drivelines. * For chassis hauling flammable liquids driveline guards are recommended to help retain the driveline position in the event of U-joint failure.	$98	4#
2499010	Full round driveline yokes replacing 1/2 round for any number of drivelines. * Full round yokes are not an option for SPL series drivelines. The yoke on these drivelines is superior to half round.	$285	8#
3500037	Interaxle driveline:1 Dana 1710 Series	$380	0#
3500057	Interaxle driveline 1 Dana SPL170XL * When an SPL main driveline is specified an SPL interaxle driveline is required on tandem rear axles other than D46-590/D52-590 or tridem rear axles other than with the Hendrickson Primaax suspension with 54 inch axle spacing. * YOKES; the combination of SPL170 interaxle, RT463 rear suspension, D46-170 rear axle require the 45 deg yoke.	$428	-4#
3500068	Interaxle driveline: 1 Dana SPL250XL *Use with Tandem Axles Only	$733	0#

Centerbearing Crossmembers

2495016	Steel centerbearing crossmember installed with heavy-duty steel gussets replacing standard. * Upgrading the centerbearing crossmember specification is applicable to chassis where the driveline has a single centerbearing.	$5	52#
2495017	Two steel centerbearing crossmembers installed with heavy-duty steel gussets replacing standard. * Upgrading the centerbearing crossmember specification is applicable to chassis where the driveline has two centerbearings.	$10	103#
2495022	Steel centerbearing crossmember installed with heavy-duty aluminum gussets replacing standard. * Centerbearing crossmember options are not for use on chassis specifying a single driveline.	$19	26#
2495023	Two steel centerbearing crossmembers installed with heavy-duty aluminum gussets replacing standard. * Centerbearing crossmember options are not for use on chassis specifying a single driveline.	$27	70#

Transmission Oil Cooler

2460004	Eaton Fuller transmission oil filter. *Filter is frame mounted at Kenworth plant. * This transmission oil filter not available on Fuller FR transmissions with an internal cooler. Can be used on FR transmissions with an external cooler, or other manual transmission models. Requires a transmission cooler in all cases. * Transmission filter not available with T680 & RHUC Behind Fairing exhaust systems 1247156, 1247174, 1247175, 1247180, 1247185, 1247187, 1247188 or 1247191.	$346	11#

Option	Description	Price	Weight
	Transmission Oil Cooler		
2460015	Oil to air cooler for transfer case to 8500 lb-ft.	$199	0#
	* A transfer case oil cooler is required when an overdrive main transmission is used with engines rated over 400 hp.		
	* An auxiliary transmission oil cooler is required with engines of 400 hp or greater.		
2460021	Oil to water cooler for transfer case to 8500 lb-ft.	$654	17#
	* A transfer case oil cooler is required when an overdrive main transmission is used with engines rated over 400 hp.		
	* An auxiliary transmission oil cooler is required with engines of 400 hp or greater.		
	* Not available with 2017 MX engines.		
	* The oil to water type auxiliary transmission cooler is not available when an auxiliary cab heater is specified.		
2460024	Internal cooler for Fuller FR/FRO/FRLO series main transmission under 1550 lb-ft.	$417	11#
	* Internal cooler option for small Fuller FR transmissions. Not 1500/1600/1700/1800/2000 series transmissions which require a cooler.		
2460048	14 in. Eaton Fuller high capacity oil to water cooler optional for transmission under 1550 lb-ft pump included.	$678	22#
	* For 1100-1400 series Fuller transmissions only.		
	* Fuller or Meritor transmissions coupled with an engine of 400 hp or more where engine torque exceeds 1350 lb ft require a transmission oil cooler of some type.		

Option	Description	Price	Weight

Front Axles

12K to 13.2K

2502240	Dana Spicer E-1252IL Front Axle rated 12.5K 3-1/2in. drop. NOT W9L/C5.	$131	-24#
	* Not available on W900L. * The E-1252IL, E1252IR, and D-1251IL light weight front axles are not available with lift axles. These versions can be rated to 12,500 lbs and are available only for services of linehaul and regional haul. * This axle has a 3.5 inch drop height. A 5 inch drop height is required on W900L chassis specified with a rear suspension ride height under 10 inches. * This front axle is not available on the W900S or with lift axles.		
2502241	Dana Spicer E-1252LW Front Axle rated 12.5K 3-1/2in. drop, wide track. NOT W9L/C5.	$231	-17#
	* Not available on W900L. * The E-1252LW and E-1252RW front axles with 3.5 inch drop are not available on the W900S or on other W900 models with a rear suspension that has less than a 10 inch ride height. No lift axles are permitted with this axle. * Wide track front axles require rubber fender extenders when used with front tire widths greater than 12 inches.		
2502323	Dana Spicer E-1322I Front Axle rated 13.2K 5in. drop.	$323	28#
	* 12K, 13.2K or 14.6K front axles used with wide based tires on chassis with wheelbase in excess of 244 inches are unavailable due to turn angle limitation resulting from steering geometry. * Dana Spicer 13.2K front axles with 5 inch drop are not for use on W900S. Maximum of one lift axle. * Front axles with capacity under 14.6K are limited to brake size of 15 x 4 inch or 16.5 x 5 inch, or 16.5 x 6 RSD brakes and related outer ends due to pilot diameter.		
2502330	Dana Spicer E-1302IL Front Axle rated 13K 3-1/2in. drop.	$319	27#
	* Dana Spicer 13.2K front axles with 3.5 inch drop are not for use on W900S. Also restricted from W900L with low mount rear suspensions [under 10 inch ride height] due to rake issues - see 5 inch drop version for this application. Maximum of one lift axle.		
2502331	Dana Spicer E-1322IL Front Axle rated 13.2K 3-1/2in. drop.	$260	-15#
	* Dana Spicer 13.2K front axles with 3.5 inch drop are not for use on W900S. Also restricted from W900L with low mount rear suspensions [under 10 inch ride height] due to rake issues - see 5 inch drop version for this application. Maximum of one lift axle.		
2502332	Dana Spicer E-1322LW Front Axle rated 13.2K 3-1/2in. drop, wide track for better turning radius.	$472	-8#
	* Dana Spicer 13.2K front axles with 3.5 inch drop are not for use on W900S. Also restricted from W900L with low mount rear suspensions [under 10 inch ride height] due to rake issues - see 5 inch drop version for this application. Maximum of one lift axle. * Wide track front axles require rubber fender extenders when used with front tire widths greater than 12 inches.		
2512042	Meritor MFS12E PLUS 12.5K 3.5in. drop standard track	$0	0#
2512043	Meritor MFS12E PLUS 12.5K 3.5n. drop wide track	$94	19#
2512048	Meritor MFS13 PLUS 13.2K 3.5in. drop standard track.	$161	0#
2512049	Meritor MFS13 PLUS 13.2K 3.5in. drop wide track.	$209	19#

Option	Description	Price	Weight

Front Axles

14.6K to 18K

2503463	Dana Spicer E-1462I Front Axle rated 14.6K 3-1/2in. drop.	$443	30#
	* 12K, 13.2K or 14.6K front axles used with wide based tires on chassis with wheelbase in excess of 244 inches are unavailable due to turn angle limitation resulting from steering geometry. * Front axles with a 3.5 inch drop are not available with rear suspension ride height of less than 10 inches on the W900L. There is a 5 inch drop version of this axle for use on the W900L. * Front axles with capacity of 14.6K are limited to brake size of 15 x 4 inch or 16.5 x 5 inch and related outer ends due to pilot diameter, or can be used with 16.5 x 6 inch Reduced Stopping Distance * This front axle is not available on the W900S model.		
2503466	Dana Spicer E-1462I Front Axle rated 14.6K 5 in. drop.	$749	35#
	* 12K, 13.2K or 14.6K front axles used with wide based tires on chassis with wheelbase in excess of 244 inches are unavailable due to turn angle limitation resulting from steering geometry. * Front axles with capacity of 14.6K are limited to brake size of 15 x 4 inch or 16.5 x 5 inch and related outer ends due to pilot diameter, or can be used with 16.5 x 6 inch Reduced Stopping Distance * This front axle is not available on the W900S model.		
2503467	Dana Spicer E-1462W Front Axle rated 14.6K 3-1/2in. drop, wide track for better turning radius.	$540	50#
	* 12K, 13.2K or 14.6K front axles used with wide based tires on chassis with wheelbase in excess of 244 inches are unavailable due to turn angle limitation resulting from steering geometry. * Front axles with a 3.5 inch drop are not available with rear suspension ride height of less than 10 inches on the W900L. There is a 5 inch drop version of this axle for use on the W900L. * Front axles with capacity of 14.6K are limited to brake size of 15 x 4 inch or 16.5 x 5 inch and related outer ends due to pilot diameter, or can be used with 16.5 x 6 inch Reduced Stopping Distance * This front axle is not available on the W900S model. * Wide track front axles require rubber fender extenders when used with front tire widths greater than 12 inches.		
2503469	Dana Spicer E-1462W Front Axle rated 14.6K 5in. drop, wide track for better turning radius.	$1,184	57#
	* 12K, 13.2K or 14.6K front axles used with wide based tires on chassis with wheelbase in excess of 244 inches are unavailable due to turn angle limitation resulting from steering geometry. * Front axles with capacity of 14.6K are limited to brake size of 15 x 4 inch or 16.5 x 5 inch and related outer ends due to pilot diameter, or can be used with 16.5 x 6 inch Reduced Stopping Distance * This front axle is not available on the W900S model. * Wide track front axles require rubber fender extenders when used with front tire widths greater than 12 inches.		
2513010	Meritor MFS14 14.6K 3.74in. drop wide track.	$535	68#
2513014	Meritor MFS14 14.6K 3.5in. drop standard track.	$438	39#

20K & Over

2506181	Dana Spicer D2000 Front Axle rated 20K standard track.	$1,819	120#
	* Front axles with a 20-22K capacity are limited to 16.5 x 6 inch, 16.5 x 7 inch drum brakes or disc brakes due to pilot diameter. * Not available with full truck ESP when a tank body, pintle hook, or trailer connections are specified. * The Alcoa 83462 front wheel interferes with the steer arm in the D2000 axle installation. D2200 is not an issue.		

Option	Description	Price	Weight

Front Axles

20K & Over

2507182	Dana Spicer D2200 Front Axle rated 22K standard track.	$2,238	120#
	* Front axles with a 20-22K capacity are limited to 16.5 x 6 inch, 16.5 x 7 inch drum brakes or disc brakes due to pilot diameter.		
	* Not available with full truck ESP when a tank body, pintle hook, or trailer connections are specified.		
	* Severe Service Warranty is required for front steer axles rated over 22,000 lbs GAWR, except in Ready Mix Concrete service.		
2516006	MERITOR MFS20 20K 3.74in. drop wide track.	$2,086	167#
	* Front axles with a 20-22K capacity are limited to 16.5 x 6 inch, 16.5 x 7 inch drum brakes or disc brakes due to pilot diameter.		
2517020	Meritor MFS20 Front Axle rated 20K 3.5in. DROP. Standard Track.	$1,795	150#
	* Front axles with a 20-22K capacity are limited to 16.5 x 6 inch, 16.5 x 7 inch drum brakes or disc brakes due to pilot diameter.		

Outer End Equipment

Brakes

12K to 13.2K

2601605	Front Brakes: 13.2K Bendix RSD HP-ES S-Cam 16.5x5 in. drum brake.	($73)	-62#
	* Brake code 2601605 is for any RSD-Compliant vehicle with single or tandem rear axle and without pusher.		
	* Maximum axle GAWR for this code: 13,200 lbs		
	* Not available with a lift axle and RSD brakes.		
	* Required with tridem rear axle without pusher with steer GAWR over 18,000 lbs and 194-315 inch wheelbase.		
	* RSD Compliant brakes are for use in the U.S. and Canada.		
	* RSD vehicles with Bendix brakes are not available with multiple lift axles or with tag axles. One pusher (other than 8k or 10k) is allowed.		
2621190	Front Brakes: 13.2K Bendix ES S- cam 15x4in.	($540)	-86#
	* 15 x 4 inch front brakes are only for use on tractors. Use 16.5 x 5 inch minimum brake size for full trucks.		
	* Bendix 15X4 inch front brakes. Not for use in logger or oilfield service. No class D road service. Single steer axles, not for twin steer. Not available with request for Extended Warranty.		
	* Eaton 15 x 4 inch front brakes are not available for use with any class C or D road service.		
	* These front brakes are available with any axle up to 13.2K.		
	* This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine with under 29k per axle rear GAWR). Use an RSD-compliant brake code instead.		
2640165	Front Brakes: 12K Meritor Q-Plus 15x4 in. brakes.	($364)	-64#
	* 15 x 4 inch front brakes are only for use on tractors. Use 16.5 x 5 inch minimum brake size for full trucks.		
	* Meritor 15 x 4 inch front brakes for single steer axles are not compatible with logger or oilfield service. No class D road service. Not available with request for extended warranty.		
	* These front brakes are available with any axle up to 13.2K.		
	* This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine with under 29k per axle rear GAWR). Use an RSD-compliant brake code instead.

Outer End Equipment

Miscellaneous

2659047	Front dustshield: for drum brakes: all front axles.	$70	6#
	* Dust shields are not available with Marmon, Sisu, Clark, SPRC, or Kessler.		
	* Front axle dust shields are recommended on all chassis that will operate in Canada.		
	* Front axle dust shields are required on chassis registered in Canada requesting a Severe Service package.		
	* Front axle dust shields not for use with air disc brakes on the same axle. Sales code is not for use with EFA-24T5 front axle which includes dust shields as standard.		
2659144	FR Meritor Platinum Shield Brakes Addon Platinum shield is only a shoe change	$39	0#
	* Available with Meritor drum brakes only.		
2690028	Integral Knuckle for Air Disc Brake, for use on Meritor MFS PLUS Steer Axle	$0	0#
2690029	Drum Brake Knuckle for use on Meritor MFS PLUS Steer Axle	$0	20#
2900916	FRONT DISC BRK PAD/ROTOR DUST SHIELDS AIR DISC BRAKES ONLY	$275	0#
	* 2900903 not compatible with 2900916.		
	* Requires a Dana or Meritor 12k-14.6k steer axle		
	* Requires Bendix steer axle disc brakes		

Slack Adjusters

2765001	Front Auto Slack Adjuster.	$0	0#
	* Automatic front slack adjusters for use on a single steer axle when air disc brakes are not specified. Use the included with axle or brake slack adjuster code with air disc brakes.		
2769000	Slack Adjusters included w/ front axle or brake.	STD	0#
	* Front slack adjusters are included with brake packages, front drive axles, Meritor FF980 series axles, and Dana Spicer EFA-24T5 axles, or air disc brakes.		

Front Springs

12K to 14.6K Capacity

2863012	Front Springs: Taperleaf 12K w/ shock absorbers w/ maintenance-free elastomer spring pin bushings. Standard with rubber pins except for C500 which has threaded pins. Not available on W900L.	STD	0#
	* 12K and 12.35K taperleaf front springs cannot be used with tank bodies when a Kenworth Airglide rear suspension is specified.		
	* It is strongly recommended that vehicles which will operate on steep downgrades, twisty roads, or on soft surfaces be specified with 16,000 lbs minimum front spring capacity.		
	* Springs for use with front axle capacity of 12K through 13.2K.		
	* This front spring is not compatible on W900L or W900S.		
2864012	Front Springs: Taperleaf 13.2K w/ shock absorbers w/ maintenance-free elastomer spring pin bushings. Standard with rubber pins. Not available on W900L.	$37	9#
	* 13.2K taperleaf springs are not a good choice for logging service.		
	* It is strongly recommended that vehicles which will operate on steep downgrades, twisty roads, or on soft surfaces be specified with 16,000 lbs minimum front spring capacity.		
	* Springs for use with front axle capacity up to 14.6K.		
	* These front springs are not available on the W900S.		
	* These springs are not for use on the W900L.		

Option	Description	Price	Weight

Front Springs

12K to 14.6K Capacity

2864019	Front Springs Taperleaf 14.6K w/shock absorbers 2-leaf. With maintenance-free elastomer spring pin bushings. Standard with rubber pins. Not available on W900L or W900S. * 14.6K taperleaf front spring not for use on W900S or W900L. * It is strongly recommended that vehicles which will operate on steep downgrades, twisty roads, or on soft surfaces be specified with 16,000 lbs minimum front spring capacity. * Springs for use with front axles capacity of 20k or less. * The 14.6,000 lb. taperleaf spring is not available with anti-lock brakes that includes pre-wire for full truck ESP in a mixer or dump truck application.	$440	25#

15K & Over Capacity

2864016	Front Springs: Taperleaf 16K w/shock absorbers w/ maintenance-free elastomer spring pin bushings. Standard with rubber pins except for C500 which has threaded pins. Not available on W900L. * Aluminum front drive bracket is not for use with front springs rated at 16k or greater.. * Iron shackle brackets are standard with a spring capacity of 16K or greater , no code required. * Springs for use with front axles capacity of 20k or less. * These front springs are not available on the W900S. * These front springs are not for use on W900L. Available on the W900B with 2007+ engines only.	$585	121#
2865018	Front Springs: Taperleaf 18K w/shock absorbers w/ maintenance-free elastomer spring pin bushings. Standard with rubber pins. Not available on W900L. * Aluminum front drive bracket is not for use with front springs rated at 16k or greater.. * Iron shackle brackets are standard with a spring capacity of 16K or greater , no code required. * Springs for use with front axles capacity of 20k or less. * These front springs are not available on the W900S. * These springs are not for use on the W900L.	$1,079	184#
2866020	Front Springs: Taperleaf 20K w/ shock absorbers w/ maintenance-free elastomer spring pin bushings. Standard with rubber pins except for C500 which has threaded pins. W900S only. Not available on W900L. W900B use 2866021. * Aluminum front drive bracket is not for use with front springs rated at 16k or greater.. * Iron shackle brackets are standard with a spring capacity of 16K or greater , no code required. * Springs for use with 20K capacity or greater front axles. * The 20K taperleaf front springs are available on the W900 only with the set forward front axle option. * These springs are not for use on the W900L.	$1,104	241#
2867022	Front Springs: Taperleaf 22K w/shock absorbers. C500 standard with a single stage spring and threaded pins. T800/T880/T440/T470/W900B standard with a multi-stage spring and rubber pins. For T800/T880/T440/T470/W9B, this is a three stage spring. The spring rate increases when loaded closer to the full capacity of the spring. Not available on W900L or W900S. * 22K rated taperleaf front spring are not for use on C500 with front drive axle * Aluminum front drive bracket is not for use with front springs rated at 16k or greater.. * Iron shackle brackets are standard with a spring capacity of 16K or greater , no code required. * Springs for use with 20K capacity or greater front axles. * These front springs are not available on the W900S. * These springs are not for use on the W900L.	$1,993	426#

Front Spring Equipment

2900020	Front Frame Raised: 1/2 in. * Available with T4 and these front springs (2864016, 2865018, 2866020, 2867022) * Available with T800, T880 and these front springs (2884000, 2864016, 2865018, 2866020, 2867022, 2866025, 2867027) * Available with W900S and front springs 2866020	$18	0#
2900024	Front Frame Raised: 1 in. * Available with T4 and these front springs (2864016, 2865018, 2866020, 2867022) * Available with T800, T880 and these front springs (2884000, 2864016, 2865018, 2866020, 2867022, 2866025, 2867027) * Available with W900B and these front springs (2864016, 2864019, 2865018, 2866021, 2867022) * Available with W900S and front springs 2866020	$28	0#
2900615	Threaded bushings for taperleaf springs 12K - 14.6K replacing rubber: T6/T8 & W9B only. W9L gets as standard: code not required. Not available with W9S. * Front spring threaded bushing code 2900615 is only available with 12K-14.6K taperleaf springs. * Front spring threaded bushings are standard on W900L, no code required. * Threaded spring bushings not available with AG130 front air suspension.	$47	0#
2900616	Threaded Bushings for taperleaf spring 16K, 18/20K, 22K, 40K replacing rubber. * Front spring threaded bushing code 2900616 is only available with 16K, 18K, 20K, 22K and 40K taperleaf springs. * Front spring threaded bushings are standard on W900L, no code required.	$95	0#

Power Steering

Single Gear

2893651	Single power steering gear: 13.2K TRW TAS65. * Creep loading of the front axle with pushers raised may compromise park-steer performance with a TAS65, M100P, or HD94 single gear is used with a single lift axle, or a TAS85, SD110 or M110P single gear is used with more than one lift axle. * Single light weight steering gears are not for use with 2900702 (setback axle W900S). * Single power steering gear rated to 13.2K is compatible with front axle capacities under 20K. * Steering gear for single front axle installations only.	$188	-1#

Option	Description	Price	Weight

Power Steering

Single Gear

2893881 Single power steering gear: 16K TRW TAS85 W9B available, but not available W9S, W9L or T3. — $495 — 18#

* Creep loading of the front axle with pushers raised may compromise park-steer performance with a TAS65, M100P, or HD94 single gear is used with a single lift axle, or a TAS85, SD110 or M110P single gear is used with more than one lift axle.
* Iron front drive brackets are required on T4 Series, T660, T800, T880 and W900B models when a single TAS85 power steering gear is specified. The upgraded drive bracket is standard with front spring capacities over 14.6K.
* Single light weight steering gears are not for use with 2900702 (setback axle W900S).
* Single power steering gear rated to 16K is compatible with front axle capacities up to 20K.
* Single TAS85 power steering gear is not available on W900S or W900L.
* Steering gear for single front axle installations only.
* The creep loading of the front axle [load with lift axle raised] may compromise park-steer performance with a single power steering gear and a non-steerable pusher. Consider using dual steering gears in this application.

2895121 Single power steering gear: 13.2K Sheppard M100P. — STD — 0#

* Creep loading of the front axle with pushers raised may compromise park-steer performance with a TAS65, M100P, or HD94 single gear is used with a single lift axle, or a TAS85, SD110 or M110P single gear is used with more than one lift axle.
* Single light weight steering gears are not for use with 2900702 (setback axle W900S).
* Single power steering gear rated to 13.2K is compatible with front axle capacities under 20K.
* Steering gear for single front axle installations only.
* The Sheppard M100P gear is not available with spring capacities over 14,600 lbs.

Dual Gear

2893622 Dual power steering gears: 20K TRW TAS65. — $1,323 — 60#

* Dual power steering gears rated to 20K are not compatible with axles rated at 14.6K or below, except on the W900L. Will derate the D2200 front axle to 20K.
* Dual, triple, or quadruple power steering gears require the use of a power steering cooler.
* Steering gear for single front axle installations only.
* The creep loading of the front axle [load with lift axle raised] may compromise park-steer performance with this capacity power steering gears and three pushers. Consider using larger capacity dual gears in this application.

2893662 Dual power steering gears: 22K TRW TAS65. — $1,323 — 60#

* Dual power steering gear rated at 22K is available with the D2200 front axle only.
* Dual, triple, or quadruple power steering gears require the use of a power steering cooler.
* Steering gear for single front axle installations only.
* The creep loading of the front axle [load with lift axle raised] may compromise park-steer performance with this capacity power steering gears and three pushers. Consider using larger capacity dual gears in this application.

Option	Description	Price	Weight

Power Steering

Dual Gear

2895202	Dual power steering gears: 20K Sheppard M100P.	$1,085	70#

* Dual power steering gears rated to 20K are not compatible with axles rated at 14.6K or below, except on the W900L. Will derate the D2200 front axle to 20K.
* Dual, triple, or quadruple power steering gears require the use of a power steering cooler.
* Steering gear for single front axle installations only.
* The creep loading of the front axle [load with lift axle raised] may compromise park-steer performance with this capacity power steering gears and three pushers. Consider using larger capacity dual gears in this application.
* The Sheppard M100P gear is not available with spring capacities over 14,600 lbs.

Miscellaneous

2899336	Power Steering Cooler:Radiator Mounted Air-to-Oil 2007 and later engines only.	$281	11#

* Cooling module mounted power steering fluid cooler for use only with 2007+ engines. Optional for single steering gears, required with more than one gear.
* On the T470 the fuel cooler and power steering cooler are a single unit. Add a power steering cooler when a fuel cooler is specified.
* Power steering cooler required for 2.1 meter cabs with ISX12 and ISX12G engine.

Miscellaneous

2790035	Maximum length wheel studs for hub pilot wheels only. Option is standard length w/ dual aluminum wheels, code not required.	$14	2#

* Maximum length wheel studs for use with steel wheels when dealer may opt to change the wheel material to aluminum after the truck leaves the factory. Available with hub pilot mounting style only. Not available for twin steer configurations. Not compatible with front drive axles.

Option	Description	Price	Weight

Single Drive Rear Axles

20K & Under

3031172	Single Dana Spicer S21-170 single reduction rear axle. Single rear axle rated at 20K.	$0	0#

21K to 23K

3031094	Single Dana Spicer P22060S single reduction rear axle. T300/K300: use with/air brakes. Single rear axle 22K capacity rated at 21K.	($497)	-181#

* Available for intended services of linehaul, regional haul, or pick-up and delivery only.
* For single rear axle installations the manufacturer's application guideline will be the final authority on ratio approval.
* In most cases single rear axles are available with engines where torque does not exceed 1650 ft lbs.
* P22060S rear axle cannot be specified with PX-9 engines with torque in excess of 950 ft lbs.
* Pusher axles aren't available with single rear axles.
* RSD compliant chassis with single rear axles are not available with steer axle GAWR greater than 14.6K.
* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.
* RSD compliant vehicles with single rear axle are not available with any lift axles.
* This rear axle is incompatible with intermediate duty drivelines.
* With a single rear axle and a tag, both rear axle and rear suspension must be rated at 26k or higher. Final approval of this setup is contingent upon creep rating review and approval by Kenworth Technical Support.

3031170	Single Dana Spicer S21-170 single reduction rear axle. Single rear axle rated at 21K.	STD	0#

* Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles.
* For single rear axle installations the manufacturer's application guideline will be the final authority on ratio approval.
* In most cases single rear axles are available with engines where torque does not exceed 1650 ft lbs.
* Pusher axles aren't available with single rear axles.
* RSD compliant chassis with single rear axles are not available with steer axle GAWR greater than 14.6K.
* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.
* RSD compliant vehicles with single rear axle are not available with any lift axles.
* With a single rear axle and a tag, both rear axle and rear suspension must be rated at 26k or higher. Final approval of this setup is contingent upon creep rating review and approval by Kenworth Technical Support.

Option	Description	Price	Weight

Single Drive Rear Axles

21K to 23K

3041170	Single Dana Spicer S23-170 single reduction axle, single rear axle rated at 23K. * Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles. * For single rear axle installations the manufacturer's application guideline will be the final authority on ratio approval. * In most cases single rear axles are available with engines where torque does not exceed 1650 ft lbs. * Pusher axles aren't available with single rear axles. * RSD compliant chassis with single rear axles are not available with steer axle GAWR greater than 14.6K. * RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs. * RSD compliant vehicles with single rear axle are not available with any lift axles. * With a single rear axle and a tag, both rear axle and rear suspension must be rated at 26k or higher. Final approval of this setup is contingent upon creep rating review and approval by Kenworth Technical Support.	$250	0#
3041172	Single Dana Spicer S23-170H single reduction axle single rear axle rated at 23K. Heavy wall. * Pusher axles aren't available with single rear axles. * RSD compliant chassis with single rear axles are not available with steer axle GAWR greater than 14.6K. * RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs. * RSD compliant vehicles with single rear axle are not available with any lift axles. * With a single rear axle and a tag, both rear axle and rear suspension must be rated at 26k or higher. Final approval of this setup is contingent upon creep rating review and approval by Kenworth Technical Support.	$1,327	42#
3041190	Single Dana Spicer S23-190 single reduction rear axle. Single rear axle rated at 23K. * Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles. * For single rear axle installations the manufacturer's application guideline will be the final authority on ratio approval. * In most cases single rear axles are available with engines where torque does not exceed 1650 ft lbs. * Pusher axles aren't available with single rear axles. * RSD compliant chassis with single rear axles are not available with steer axle GAWR greater than 14.6K. * RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs. * RSD compliant vehicles with single rear axle are not available with any lift axles. * With a single rear axle and a tag, both rear axle and rear suspension must be rated at 26k or higher. Final approval of this setup is contingent upon creep rating review and approval by Kenworth Technical Support.	$783	74#

Option	Description	Price	Weight

Single Drive Rear Axles

21K to 23K

3042160 Single Meritor R23-160 rear axle rated at 23K. ($17) 3#

* For single rear axle installations the manufacturer's application guideline will be the final authority on ratio approval.
* In most cases single rear axles are available with engines where torque does not exceed 1650 ft lbs.
* Meritor RS23-160 rear axle is not for use with GCW exceeding 105,000 lbs.
* Pusher axles aren't available with single rear axles.
* RSD compliant chassis with single rear axles are not available with steer axle GAWR greater than 14.6K.
* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.
* RSD compliant vehicles with single rear axle are not available with any lift axles.
* The Meritor RS23-160 rear axle has a GCW limit of 100,000 lbs.
* The RS23-160 axle is not allowed with Neway ADZ or Hendrickson HAS suspensions due to housing thickness requirements. Use the RS23-161 instead.
* With a single rear axle and a tag, both rear axle and rear suspension must be rated at 26k or higher. Final approval of this setup is contingent upon creep rating review and approval by Kenworth Technical Support.

3042161 Single Rear Axle 23,000 lbs. Meritor RS23-161 $314 27#

* For single rear axle installations the manufacturer's application guideline will be the final authority on ratio approval.
* In most cases single rear axles are available with engines where torque does not exceed 1650 ft lbs.
* RSD compliant chassis with single rear axles are not available with steer axle GAWR greater than 14.6K.
* RSD compliant vehicles with single rear axle are not available with any lift axles.
* The RS23-160 axle is not allowed with Neway ADZ or Hendrickson HAS suspensions due to housing thickness requirements. Use the RS23-161 instead.
* With a single rear axle and a tag, both rear axle and rear suspension must be rated at 26k or higher. Final approval of this setup is contingent upon creep rating review and approval by Kenworth Technical Support.

24K & Above

3061190 Single Dana Spicer S26-190 rear axle; 26K capacity rated at 26K. Single rear axle. $1,348 144#

* Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles.
* For single rear axle installations the manufacturer's application guideline will be the final authority on ratio approval.
* In most cases single rear axles are available with engines where torque does not exceed 1650 ft lbs.
* Raer suspension 26K and below.
* RSD compliant chassis with single rear axles are not available with steer axle GAWR greater than 14.6K.
* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.
* RSD compliant vehicles with single rear axle are not available with any lift axles.
* This component requires a long lead-time. Refer to the long lead-time report for potential delivery date availability.
* With a single rear axle and a tag, both rear axle and rear suspension must be rated at 26k or higher. Final approval of this setup is contingent upon creep rating review and approval by Kenworth Technical Support.

Option	Description	Price	Weight

Single Drive Rear Axles

24K & Above

3081093	Single Dana Spicer S30-190 rear axle; 30K capacity rated at 30K. Single rear axle with 74in. track, outer ends included w/ axle.	$6,562	148#

* Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles.
* For single rear axle installations the manufacturer's application guideline will be the final authority on ratio approval.
* In most cases single rear axles are available with engines where torque does not exceed 1650 ft lbs.
* Raer suspension 26K and below.
* RSD compliant chassis with single rear axles are not available with steer axle GAWR greater than 14.6K.
* RSD compliant vehicles with single rear axle are limited to a maximum rear GAWR of 23,000 lbs.
* RSD compliant vehicles with single rear axle are not available with any lift axles.
* The Dana S30-190 rear axle is configured to have the hub included with the axle, no options.
* The Dana S30-190 rear axle is configured to include axle outer ends, no options.
* This component requires a long lead-time. Refer to the long lead-time report for potential delivery date availability.
* With a single rear axle and a tag, both rear axle and rear suspension must be rated at 26k or higher. Final approval of this setup is contingent upon creep rating review and approval by Kenworth Technical Support.

Tandem Drive Rear Axle

40K & Under

3103173	Meritor FUELite MA40-165 34K DualTrac; dead axle tandem; rear axle rated at 34K. with 12.7 mm heavy-wall housing. Use with 3511401 Driver Controlled Differential Lock (cross lock).	$8,186	405#

* Lift axles are not allowed in combination with dead axle tandem drive axle configurations.
* Meritor FUELite dead axle tandem available with AG380 or AG400L suspensions.
* Meritor FUELite dead axle tandem requires differential lock code 3511401.

3121170	Dual Dana Spicer D40-170 rear axle rated at 40K. (Super 40) w/ 11mm housing and 2.06in. shaft diameter. Tandem rear axles.	$11,378	2,357#

* 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K.
* Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles.

3121171	Dual Dana Spicer D40-170P rear axle rated at 40K. (Super 40) w/ 11mm housing and 2.06in. shaft diameter. Includes pump. Tandem rear axles.	$11,608	2,362#

* 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K.
* Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles.

Option	Description	Price	Weight

Tandem Drive Rear Axle

40K & Under

3121444 Dual Dana Spicer DSH40 rear axle rated at 40K w/ 11mm housing and 1.81in. shaft diameter. Tandem rear axles. — $9,592 — 2,023#

* 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K.
* Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles.
* Rear axles rated at 40K are insufficient for use in most multiple lift axle applications.
* The DSH40 or DSH40/P axles are not for use with GCWs exceeding 110K.
* The DSH40 rear axle has engine and/or GCW restrictions for vocations other than linehaul. Written application approval may be required from the vendor.

3121446 Dual Dana Spicer DSH40P rear axle rated at 40K w/ 11mm housing and 1.81in. shaft diameter. Includes pump. Tandem rear axles. — $9,832 — 2,041#

* 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K.
* Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles.
* Rear axles rated at 40K are insufficient for use in most multiple lift axle applications.
* The DSH40 or DSH40/P axles are not for use with GCWs exceeding 110K.
* The DSH40 rear axle has engine and/or GCW restrictions for vocations other than linehaul. Written application approval may be required from the vendor.
* The DSH40P rear axle is insufficient for use in the refuse packer application.

3122154 Dual Meritor RT41-145A rear axle rated at 40K w/ bolt-on ring gears. (RT40-145A w/ 11mm. wall thickness). Tandem rear axles. — $9,986 — 1,885#

* 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K.
* Meritor RT40-145 rear axles are not available with Chalmers suspensions or Hendrickson 40K rear suspensions.
* Meritor RT41-145A and RT40-145A not available with Crosslock.

3122155 Dual Meritor RT40-145A rear axle rated at 40K. Tandem rear axles. — $9,936 — 1,849#

* 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K.
* Meritor RT40-145 rear axles are not available with Chalmers suspensions or Hendrickson 40K rear suspensions.
* Meritor RT41-145A and RT40-145A not available with Crosslock.
* Rear axles rated at 40K are insufficient for use in most multiple lift axle applications.
* The Meritor RT40-145 rear axle is available in linehaul service with engine torque up to 1850 ft lbs. For other services engine torque up to 1850 ft lbs is acceptable only when GCW doesn't exceed 80K. When GCW exceeds 80K then engine torque limit drops to 1650 ft lbs. Cannot be used as a full truck in dump, mixer, or refuse service with GVWR exceeding 66K. Not available with Hendrickson air suspensions or HMX.

Option	Description	Price	Weight

Tandem Drive Rear Axle

40K & Under

3122158	Dual Meritor RT40-145A DualTrac rear axle rated at 40K Tandem rear axles. 9.5mm housing.	$10,509	1,891#
	* 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K.		
	* Meritor Dualtrac axles using single wheels/tires require one of the following wheels: 5245278 or 5245215. Dual wheels and tires are also allowed.		
	* Meritor RT40-145 rear axles are not available with Chalmers suspensions or Hendrickson 40K rear suspensions.		
	* Meritor RT41-145A and RT40-145A not available with Crosslock.		
3122162	Dual Rear Axle 40,000 lbs. Meritor RT40-160	$11,136	2,357#
	* Not available with AG380 or AG400L suspensions.		
3122164	Dual Rear Axle 40,000 lbs. Meritor RT40-160P	$11,463	2,357#
	* Not available with AG380 or AG400L suspensions.		
3122245	Dual Meritor MT40-14X3 Hypoid rear axle rated at 40K. Tandem rear axle.	$8,753	1,949#
	* 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K.		
	* A Meritor MT40-14 drive axle with any suspension other than AG380 and AG400L and axle ratio between 2.64-7.17 requires the use of hypoid gearing.		
	* A Meritor MT40-14 drive axle with the combination of AG380 or AG400L suspension, axle ratio between 2.47-4.11 and diff lock requires the use of hypoid gearing.		
	* A Meritor MT40-14 drive axle with the combination of AG380 or AG400L suspension, axle ratio between 4.33-7.17 requires the use of hypoid gearing.		
	* Not compatible with Hendrickson Primaax, Hendrickson HAS, Neway AD, Chalmers or Hendrickson Beam rear suspensions.		
	* The MT40-14x3 and MT40-14x4 rear axles can be used in Linehaul operation with engine torque up to 2050 ft-lb with GCWR up to 80,000 lbs or 1850 ft-lb with GCWR up to 105,000 lbs. Engine torque limit for Pickup & Delivery applications is 1850 ft-lb. All other applications is 1650 ft-lb. Contact Kenworth Application Engineering for GCWR limits for applications other than Linehaul.		
	* Wide base single tires are not available on Meritor MT40-14x3, MT40-14x4, MP40-14x3, MP40-14x4, MT44-14x5 or MP44-14x5 standard axles.		

Option	Description	Price	Weight

Tandem Drive Rear Axle

40K & Under

3122246 Dual Meritor MT40-14X3 Hypoid DualTrac rear axle rated at 40K. Tandem rear axles. $9,249 1,981#

* 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K.
* A Meritor MT40-14 drive axle with any suspension other than AG380 and AG400L and axle ratio between 2.64-7.17 requires the use of hypoid gearing.
* A Meritor MT40-14 drive axle with the combination of AG380 or AG400L suspension, axle ratio between 2.47-4.11 and diff lock requires the use of hypoid gearing.
* A Meritor MT40-14 drive axle with the combination of AG380 or AG400L suspension, axle ratio between 4.33-7.17 requires the use of hypoid gearing.
* Meritor Dualtrac axles using single wheels/tires require one of the following wheels: 5245278 or 5245215. Dual wheels and tires are also allowed.
* Not compatible with Hendrickson Primaax, Hendrickson HAS, Neway AD, Chalmers or Hendrickson Beam rear suspensions.
* The MT40-14x3 and MT40-14x4 rear axles can be used in Linehaul operation with engine torque up to 2050 ft-lb with GCWR up to 80,000 lbs or 1850 ft-lb with GCWR up to 105,000 lbs. Engine torque limit for Pickup & Delivery applications is 1850 ft-lb. All other applications is 1650 ft-lb. Contact Kenworth Application Engineering for GCWR limits for applications other than Linehaul.

3122247 Dual Meritor MT40-14x4 Hypoid rear axle rated at 40K, with heavy-wall housing. Tandem rear axles. $8,824 1,989#

* 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K.
* A Meritor MT40-14 drive axle with any suspension other than AG380 and AG400L and axle ratio between 2.64-7.17 requires the use of hypoid gearing.
* A Meritor MT40-14 drive axle with the combination of AG380 or AG400L suspension, axle ratio between 2.47-4.11 and diff lock requires the use of hypoid gearing.
* A Meritor MT40-14 drive axle with the combination of AG380 or AG400L suspension, axle ratio between 2.47-4.11 and without diff lock requires the use of amboid gearing.
* A Meritor MT40-14 drive axle with the combination of AG380 or AG400L suspension, axle ratio between 4.33-7.17 requires the use of hypoid gearing.
* Can be used in Linehaul operation with engine torque up to 2050 ft-lb with GCWR up to 80,000 lbs or 1850 ft-lb with GCWR up to 105,000 lbs. Engine torque limit for Pickup & Delivery applications is 1850 ft-lb. All other applications is 1650 ft-lb. Contact Kenworth Application Engineering for GCWR limits for applications other than Linehaul.
* Maximum Vocational Warranty coverage may not be available from Meritor with this rear axle used in Logger, Construction, or Heavy Haul vocations. Contact Meritor for further information.
* The MT40-14x3 and MT40-14x4 rear axles can be used in Linehaul operation with engine torque up to 2050 ft-lb with GCWR up to 80,000 lbs or 1850 ft-lb with GCWR up to 105,000 lbs. Engine torque limit for Pickup & Delivery applications is 1850 ft-lb. All other applications is 1650 ft-lb. Contact Kenworth Application Engineering for GCWR limits for applications other than Linehaul.
* Wide base single tires are not available on Meritor MT40-14x3, MT40-14x4, MP40-14x3, MP40-14x4, MT44-14x5 or MP44-14x5 standard axles.

Tandem Drive Rear Axle

40K & Under

3122248	Dual Meritor MT40-14x4 Hypoid DualTrac rear axle rated at 40K. w/heavy-wall housing. Tandem rear axles. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * A Meritor MT40-14 drive axle with any suspension other than AG380 and AG400L and axle ratio between 2.64-7.17 requires the use of hypoid gearing. * A Meritor MT40-14 drive axle with the combination of AG380 or AG400L suspension, axle ratio between 2.47-4.11 and diff lock requires the use of hypoid gearing. * A Meritor MT40-14 drive axle with the combination of AG380 or AG400L suspension, axle ratio between 4.33-7.17 requires the use of hypoid gearing. * Meritor Dualtrac axles using single wheels/tires require one of the following wheels: 5245278 or 5245215. Dual wheels and tires are also allowed. * The MT40-14x3 and MT40-14x4 rear axles can be used in Linehaul operation with engine torque up to 2050 ft-lb with GCWR up to 80,000 lbs or 1850 ft-lb with GCWR up to 105,000 lbs. Engine torque limit for Pickup & Delivery applications is 1850 ft-lb. All other applications is 1650 ft-lb. Contact Kenworth Application Engineering for GCWR limits for applications other than Linehaul.	$9,429	2,021#
3122250	Dual Meritor MP40-14x3 rear axle rated at 40K. Tandem rear axles with pump. * Can be used in Linehaul operation with engine torque up to 2050 ft-lb with GCWR up to 80,000 lbs or 1850 ft-lb with GCWR up to 105,000 lbs. Engine torque limit for Pickup & Delivery applications is 1850 ft-lb. All other applications is 1650 ft-lb. Contact Kenworth Application Engineering for GCWR limits for applications other than Linehaul. * Maximum Vocational Warranty coverage may not be available from Meritor with this rear axle used in Logger, Construction, or Heavy Haul vocations. Contact Meritor for further information. * Not compatible with Hendrickson Primaax, Hendrickson HAS, Neway AD, Chalmers or Hendrickson Beam rear suspensions. * Wide base single tires are not available on Meritor MT40-14x3, MT40-14x4, MP40-14x3, MP40-14x4, MT44-14x5 or MP44-14x5 standard axles.	$8,908	1,959#
3122251	Dual Meritor MP40-14x3 DualTrac rear axle rated at 40K. Tandem rear axles with pump. * Can be used in Linehaul operation with engine torque up to 2050 ft-lb with GCWR up to 80,000 lbs or 1850 ft-lb with GCWR up to 105,000 lbs. Engine torque limit for Pickup & Delivery applications is 1850 ft-lb. All other applications is 1650 ft-lb. Contact Kenworth Application Engineering for GCWR limits for applications other than Linehaul. * Maximum Vocational Warranty coverage may not be available from Meritor with this rear axle used in Logger, Construction, or Heavy Haul vocations. Contact Meritor for further information. * Meritor Dualtrac axles using single wheels/tires require one of the following wheels: 5245278 or 5245215. Dual wheels and tires are also allowed. * Not compatible with Hendrickson Primaax, Hendrickson HAS, Neway AD, Chalmers or Hendrickson Beam rear suspensions.	$9,513	1,991#
3122252	Dual Meritor MP40-14x4 rear axle rated at 40K. w/ heavy-wall housing with pump. Tandem rear axles. * Can be used in Linehaul operation with engine torque up to 2050 ft-lb with GCWR up to 80,000 lbs or 1850 ft-lb with GCWR up to 105,000 lbs. Engine torque limit for Pickup & Delivery applications is 1850 ft-lb. All other applications is 1650 ft-lb. Tandem Drive Rear Axle

40K & Under

3123001	Dual Paccar axle rated at 40K, standard track, 9.5 mm housing. Tandem rear axle.	$8,746	0#
	* 45 Degree yokes is not available for PACCAR 40K Dual rear axles.		
	* Between rail battery box is not allowed with PACCAR 40K Dual rear axle due to driveline clearance issues.		
	* Linehaul or Regional haul with PACCAR 40K Dual rear axle has a max GCWR of 80K.		
	* PACCAR 40K Dual rear axle are only compatible with 22.5" wheels.		
	* PACCAR 40K Dual rear axle engine torque limit. Straight torque engines: 1650 ft/lb max. Multi-torque engines: 1550-1750 ft/lb max. EXCEPTION: Multi-torque engine 1650/1850 ft/lb may be used for Linehaul service with a multi-torque Fuller Advantage transmission.		
	* PACCAR 40K Dual rear axle is compatible with super single wheels with offset of 0.56" or less.		
	* PACCAR 40K Dual rear axle is not compatible with these drivelines: Dana 1810, 1760, SPL350		
	* PACCAR 40K Dual rear axle road class restrictions. Class A - 90% or greater. Class B - 10% or less. Road Class C or Class D is not allowed.		
	* PACCAR 40K tandem rear axle is only available for the following intended services: Linehaul, Regional haul and Pickup & Delivery.		
	* PACCAR 40K Tandem rear axle requires AG380 or AG400L rear suspension.		
3124400	Dual Dana Spicer DSP40 rear axle rated at 40K. w/ 9.5mm housing and 1.88in. shaft diameter. Tandem rear axles.	$8,711	1,948#
	* 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K.		
	* Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles.		
	* DSP40 / DSP40P rear axles can be used with Reyco, Hendrickson, or Kenworth Airglide rear suspensions.		
	* DSP40/P rear axles are not for use with Hendrickson HAS 402, Hendrickson Primaax, or Hendrickson beam-type rear suspensions.		
	* Engines with torque exceeding 1650 lb ft, or with greater than 475 hp, may limit rear axle ratios based upon rear tire size when coupled with a DSP40 or DSP41 rear axle. Contact Application Engineering if you require a rear axle ratio faster than 3.55.		
	* Rear axles rated at 40K are insufficient for use in most multiple lift axle applications.		
	* The DSP40 rear axle has insufficient housing thickness for use with super single rear tire and wheel configurations.		
	* The DSP40 rear axle is not for use in vocations of oil field, logging, construction, agriculture, refuse packer, mining service or as a mining hauler.		
	* The DSP40, DSP40P, DSP41, or DSP41P rear axles cannot be used with engine torque exceeding 1850 lb ft or with horsepower in excess of 550.		
	* This rear axle is not available with engine torque in excess of 1650 ft lbs. when GCW exceeds 80,000 lbs.

3124416	Dual Dana Spicer D40-155 ADVANTEK40 rear axle rated at 40K. w/ 9.5mm housing. Tandem rear axles.	$9,000	1,933#
	* Advantek D40-155 axles are available with AG380, AG400 and AG400L rear suspenions.		
	* Manufacturer guidelines do not permit engines in excess of 485hp or 1650 ft lbs torque, except multi-torque 1550/1750.		
	* Manufacturer guidelines do not permit engines in excess of 485hp or 1650 ft lbs torque.		
	* Maximum GCWR 80,000 lbs.		
	* Maximum rear tire SLR must not exceed 19,8 inches for use in Linehaul or Regional Haul service.		
	* Maximum rear tire SLR must not exceed 19,8 inches for use in Pickup and Delivery service.		
	* Requires SPL250 or SPL350 driveline series.		
	* This axle is limited to vocations of Linehul, Regional Haul or Pickup and Delivery service.		
	* Wide-base rear tires require the Selec-Trac version of Advantec axle family.		
3124417	Dual Dana Spicer D40-155P ADVANTEK40 rear axle rated at 40K w/ 9.5mm housing. Tandem rear axles.	$9,230	1,951#
	* Advantek D40-155 axles are available with AG380, AG400 and AG400L rear suspenions.		
	* Manufacturer guidelines do not permit engines in excess of 485hp or 1650 ft lbs torque, except multi-torque 1550/1750.		
	* Manufacturer guidelines do not permit engines in excess of 485hp or 1650 ft lbs torque.		
	* Maximum GCWR 80,000 lbs.		
	* Maximum rear tire SLR must not exceed 19,8 inches for use in Linehaul or Regional Haul service.		
	* Maximum rear tire SLR must not exceed 19,8 inches for use in Pickup and Delivery service.		
	* Requires SPL250 or SPL350 driveline series.		
	* This axle is limited to vocations of Linehul, Regional Haul or Pickup and Delivery service.		
	* Wide-base rear tires require the Selec-Trac version of Advantec axle family.

Tandem Drive Rear Axle

40K & Under

3124421 Dual Dana Spicer D40-155HS ADVANTEK40 rear axle rated at 40K w/ 11mm housing with SELECTRAC. Tandem rear axles. — $9,690 — 1,981#

* Advantek D40-155 axles are available with AG380, AG400 and AG400L rear suspenions.
* Manufacturer guidelines do not permit engines in excess of 485hp or 1650 ft lbs torque, except multi-torque 1550/1750.
* Manufacturer guidelines do not permit engines in excess of 485hp or 1650 ft lbs torque.
* Maximum GCWR 80,000 lbs.
* Maximum rear tire SLR must not exceed 19,8 inches for use in Linehaul or Regional Haul service.
* Maximum rear tire SLR must not exceed 19,8 inches for use in Pickup and Delivery service.
* Requires SPL250 or SPL350 driveline series.
* This axle is limited to vocations of Linehul, Regional Haul or Pickup and Delivery service.

3124422 Dual Dana Spicer D40-155PS ADVANTEK40 rear axle rated at 40K w/ 9.5mm housing with pump/SELECTRAC. Tandem axles. — $9,780 — 1,868#

* Advantek D40-155 axles are available with AG380, AG400 and AG400L rear suspenions.
* Manufacturer guidelines do not permit engines in excess of 485hp or 1650 ft lbs torque, except multi-torque 1550/1750.
* Manufacturer guidelines do not permit engines in excess of 485hp or 1650 ft lbs torque.
* Maximum GCWR 80,000 lbs.
* Maximum rear tire SLR must not exceed 19,8 inches for use in Linehaul or Regional Haul service.
* Maximum rear tire SLR must not exceed 19,8 inches for use in Pickup and Delivery service.
* Requires SPL250 or SPL350 driveline series.
* This axle is limited to vocations of Linehul, Regional Haul or Pickup and Delivery service.

3124423 Dual Dana Spicer D40-155HPS ADVANTEK40 rear axle rated at 40K w/ 11mm housing with pump/SELECTRAC. Tandem rear axles. — $9,970 — 1,999#

* Advantek D40-155 axles are available with AG380, AG400 and AG400L rear suspenions.
* Manufacturer guidelines do not permit engines in excess of 485hp or 1650 ft lbs torque, except multi-torque 1550/1750.
* Manufacturer guidelines do not permit engines in excess of 485hp or 1650 ft lbs torque.
* Maximum GCWR 80,000 lbs.
* Maximum rear tire SLR must not exceed 19,8 inches for use in Linehaul or Regional Haul service.
* Maximum rear tire SLR must not exceed 19,8 inches for use in Pickup and Delivery service.
* Requires SPL250 or SPL350 driveline series.
* This axle is limited to vocations of Linehul, Regional Haul or Pickup and Delivery service.

Tandem Drive Rear Axle

44K

3131446	Dual Dana Spicer DSH44P rear axle rated at 44K w/ 12.5mm housing and 1.88in. shaft diameter. Includes pump. Tandem rear axles. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles. * For use on full trucks with a GVWR not exceeding 72K. Not available in a tractor configuration. * The DSH44 has a 475 hp limit when used in construction service. * The DSH44P rear axle is applicable to full trucks only and not available with trailer connections.	$10,290	2,073#
3132245	Dual Meritor MT44-14x5 rear axle rated at 44K. Tandem rear axles. * Can be used in Linehaul operation with engine torque up to 2050 ft-lb with GCWR up to 80,000 lbs or 1850 ft-lb with GCWR up to 105,000 lbs. Engine torque limit for Pickup & Delivery applications is 1850 ft-lb. All other applications is 1650 ft-lb. Contact Kenworth Application Engineering for GCWR limits for applications other than Linehaul. * Maximum Vocational Warranty coverage may not be available from Meritor with this rear axle used in Logger, Construction, or Heavy Haul vocations. Contact Meritor for further information. * Wide base single tires are not available on Meritor MT40-14x3, MT40-14x4, MP40-14x3, MP40-14x4, MT44-14x5 or MP44-14x5 standard axles.	$9,395	2,048#
3132250	Dual Meritor MP44-14x5 rear axle rated at 44K. Tandem rear axles with pump. * Can be used in Linehaul operation with engine torque up to 2050 ft-lb with GCWR up to 80,000 lbs or 1850 ft-lb with GCWR up to 105,000 lbs. Engine torque limit for Pickup & Delivery applications is 1850 ft-lb. All other applications is 1650 ft-lb. Contact Kenworth Application Engineering for GCWR limits for applications other than Linehaul. * Maximum Vocational Warranty coverage may not be available from Meritor with this rear axle used in Logger, Construction, or Heavy Haul vocations. Contact Meritor for further information. * Wide base single tires are not available on Meritor MT40-14x3, MT40-14x4, MP40-14x3, MP40-14x4, MT44-14x5 or MP44-14x5 standard axles.	$10,015	2,057#

46K

3142160	Dual Meritor RT46-160 rear axle rated at 46K. Tandem rear axles. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * This axle may have warranty limited to one year for use in export operating areas or with certain vocations operating in Canada.	$10,880	2,400#
3142161	Dual Meritor RT46-160P rear axle rated at 46K. Tandem rear axles. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * This axle may have warranty limited to one year for use in export operating areas or with certain vocations operating in Canada.	$10,772	2,430#
3142170	Dual Rear Axle 46,000 lbs. Meritor RT46-164EH Heavy wall housing * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K.	$11,523	2,477#

Option	Description	Price	Weight

Tandem Drive Rear Axle

46K

3142171	Dual Meritor RT46-164PEH rear axle rated at 46K w/ heavy wall housing. Tandem rear axles. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * This axle may have warranty limited to one year for use in export operating areas or with certain vocations operating in Canada.	$12,628	2,507#
3142172	Dual Meritor RT46-164EH rear axle rated at 46K; wide track tandem rear axles w/ heavy wall housing. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * For mixer chassis, wide track rear axles cannot be combined with super single rear wheels. Use dual wheel mounting style for greater roll stability. * Meritor RT46-164EH wide track rear axles are incompatible with the Kenworth AG380 rear suspension * Special delivery requirements may be required due to potential for vehicle over width due to wide track rear axle. See shipping policy TA005. * This axle may have warranty limited to one year for use in export operating areas or with certain vocations operating in Canada. * Wide track axles are often over the legal width of 102 inches and may require special delivery arrangements.	$12,216	2,608#
3142173	Dual Meritor RT46-164PEH rear axle rated at 46K. wide track tandem rear axles w/ heavy wall housing. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * For mixer chassis, wide track rear axles cannot be combined with super single rear wheels. Use dual wheel mounting style for greater roll stability. * Meritor RT46-164EH wide track rear axles are incompatible with the Kenworth AG380 rear suspension * Special delivery requirements may be required due to potential for vehicle over width due to wide track rear axle. See shipping policy TA005. * This axle may have warranty limited to one year for use in export operating areas or with certain vocations operating in Canada. * Wide track axles are often over the legal width of 102 inches and may require special delivery arrangements.	$12,604	2,639#
3144170	Dual Dana Spicer D46-170 rear axle rated at 46K. Tandem rear axles. w/ 12.5mm housing and 2.06in. shaft diameter. Tandem rear axles. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * D46-170/P rear axles are available for use in linehaul, pick-up & delivery, fire truck or EMT/rescue services only. Standard wall housing thickness version of the D46 product offering. * D46-170/P rear axles are not for use with the Chalmers, Neway, Hendrickson beam or HMX rear suspensions. * YOKES; the combination of SPL170 interaxle, RT463 rear suspension, D46-170 rear axle require the 45 deg yoke.	$11,008	2,443#

Option	Description	Price	Weight

Tandem Drive Rear Axle

46K

3144171	Dual Dana Spicer D46-170P rear axle rated at 46K. w/ 12.5mm housing and 2.06in. shaft diameter. Includes pump. Tandem rear axles. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * D46-170/P rear axles are available for use in linehaul, pick-up & delivery, fire truck or EMT/rescue services only. Standard wall housing thickness version of the D46 product offering. * D46-170/P rear axles are not for use with the Chalmers, Neway, Hendrickson beam or HMX rear suspensions. * YOKES; the combination of SPL170 interaxle, RT463 rear suspension, D46-170 rear axle require the 45 deg yoke.	$11,266	2,448#
3144172	Dual Dana Spicer D46-170H rear axle rated at 46K. w/ 16mm housing and 2.06in. shaft diameter. Tandem rear axles. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles. * YOKES; the combination of SPL170 interaxle, RT463 rear suspension, D46-170 rear axle require the 45 deg yoke.	$11,666	2,526#
3144173	Dual Dana Spicer D46-170HP rear axle rated at 46K. w/ 16mm housing and 2.06in. shaft diameter. Includes pump. Tandem rear axles. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles. * YOKES; the combination of SPL170 interaxle, RT463 rear suspension, D46-170 rear axle require the 45 deg yoke.	$12,946	2,531#
3144177	Dual Dana Spicer D46-170HPW rear axle rated at 46K. Wide track tandem rear axles w/ pump. w/ 16mm housing and 2.06in. shaft diameter. Wide track tandem rear axle, includes pump. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles. * For mixer chassis, wide track rear axles cannot be combined with super single rear wheels. Use dual wheel mounting style for greater roll stability. * Special delivery requirements may be required due to potential for vehicle over width due to wide track rear axle. See shipping policy TA005. * Wide track axles are often over the legal width of 102 inches and may require special delivery arrangements. * YOKES; the combination of SPL170 interaxle, RT463 rear suspension, D46-170 rear axle require the 45 deg yoke.	$13,201	2,565#

Option	Description	Price	Weight

Tandem Drive Rear Axle

46K

3144590	Dual Dana Spicer D46-590HP double reduction rear axle rated at 46k w/ 16mm housing and 2.25in. shaft diameter. Includes pump. Tandem rear axles. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * D46-590HP rear axles are not for use with the Chalmers or Hendrickson beam low mount rear suspension with 54 inch axle spacing. Double reduction gearing.	$20,787	2,754#
3147480	Dual Dana Spicer DT463P rear axle rated at 46K. dual range tandem axle w/ 14mm housing and 2.06in. shaft diameter. Includes pump. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles. * Dana DT521 and DT463 requires a 12" ride height on the Neway ADZ suspension. * In dash PTO controls, LNG readout, fifth wheel air kingpin release, auxiliary heater, two speed rear axle and NavPlus HD all occupy the same dash space. No two are allowed in combination. * The Dana Spicer DT463P rear axle is not available with GCWs in excess of 185,000 lbs. * The speedometer does not receive accurate road speeds from the Cummins ECU when the 2-speed rear axle is operating in low range. * Two speed rear axles not available with PRIMAAX suspensions. * Two-speed rear axles have dash mounted controls that eliminate four optional gauge spots.	$16,191	2,574#

50K to 52K

3154190	Dual Dana Spicer D52-190P rear axle rated at 52K. w/ 16mm housing and 2.25in. shaft diameter. Includes pump. Tandem rear axles. * 6S/6M ABS systems are required on RSD tractors (all US, Canada, or Mexico (with EPA2010+ engines) chassis with factory- or customer-installed fifth wheel with rear GAWR under 29K per axle, except twin steer chassis) with the following configuration: Tandem rear axle with steer axle GAWR up to and including 14.6K and drive axle GAWR over 40K. * Dana axles with export operating areas or class C or D road use in excess of 11% with a rear axle ratio numerically higher [slower] then 4.33 require raised lube level in the axles. * This component requires a long lead-time. Refer to the long lead-time report for potential delivery date availability. * This rear axle is not for use with Kenworth Airglide rear suspensions.	$18,298	659#

Option	Description	Price	Weight

Single Axle Outer End Equipment

Brakes

3302001	Single rear Bendix air disc brakes for single rear axles to 23K capacity.	$0	20#
	* Air disc brakes on rear axle requires the use of air disc brakes on the front axle of the chassis.		
	* Maximum capacity for single axle air disc brakes is 23K with aluminum hubs and 26K with iron hubs.		
	* Rear air disc brakes are not compatible with HAS or Reyco rear suspensions.		
	* Single rear axle air disc brake. The disc brakes require splined rotors. Requires Preset Plus oil seals. Slack adjusters are included.		
	* Specifying air disc brakes on any axle requires that the wheels on all axles be air disc brake compatible, including any lift axles.		
	* The maximum GVWR for a single rear axle chassis equipped with air disc brakes is 47K.		
	* The static loaded radius of the rear tires cannot exceed 21.9 inches when air disc brakes are specified. This SLR is typical with tires smaller than 48 inches in diameter.		
	* This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.		
3304010	Rear Brakes, Bendix RSD-Compliant HP-ES S-Cam 16.5x7 in. single axle drum brake, Max GAWR 23k.	($41)	10#
	* Maximum axle GAWR for this code: 23,000 lbs.		
	* RSD vehicles with Bendix brakes are not available with multiple lift axles or with tag axles. One pusher (other than 8k or 10k) is allowed.		
3306012	Rear Brakes, Bendix RSD-Compliant ADB22X Disc brake for single axle, Max GAWR 23k.	$0	20#
	* Air disc brakes on rear axle requires the use of air disc brakes on the steer axle as well.		
	* Maximum axle GAWR for this code: 23,000 lbs.		
	* Rear air disc brakes are not compatible with HAS or Reyco rear suspensions.		
	* RSD vehicles with Bendix brakes are not available with multiple lift axles or with tag axles. One pusher (other than 8k or 10k) is allowed.		
	* Single rear axle air disc brake. The disc brakes require splined rotors. Requires Preset Plus oil seals. Slack adjusters are included.		
3330004	Single Rear Brakes 16-1/2x7 in. Bendix ES- extended service S-cam.	STD	0#
	* Bendix ES 16-1/2 x 7 inch rear brakes are not available with request for Extended Warranty.		
	* These rear brakes are applicable for use with a single rear axle.		
	* This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.		
3350007	Single Rear Brakes 16-1/2x7 in. Meritor Q-Plus extended service S-cam.	($4)	8#
	* Meritor Q plus single axle rear brakes are not available with request for Extended Warranty.		
	* These rear brakes are applicable for use with a single rear axle.		
	* This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.

Single Axle Outer End Equipment

Brakes

3354022	Rear Brakes, Meritor RSD-Compliant S-Cam 16.5x 8.625 in., single axle drum brake, Max GAWR 21k.	$45	24#
	* For RSD chassis with single rear axles and Meritor brakes, 16.5x8.625 brakes are not available for any of the following configurations: Steer axle GAWR of 12,001 - 14,6K.		
	* For RSD chassis with single rear axles and Meritor brakes, 16.5x8.625 brakes are not available for any of the following configurations: Steer axle GAWR up to and including 12k and drive axle GAWR 21,001 - 23K		
	* Maximum axle GAWR for this code: 21,000 lbs		
	* Meritor brakes are not available on RSD chassis with lift axles..		
	* Meritor brakes are not available on RSD chassis with over 16,000 lb steer axle GAWR.		
	* On RSD chassis with single rear axles and Meritor brakes, 16.5x7 rear brakes are required with steer axle GAWR of 12,001 - 14,6K.		
	* On RSD chassis with single rear axles and Meritor brakes, 16.5x7 rear brakes are required with steer axle GAWR up to and including 12k and drive axle GAWR 21,001 - 23K.		
	* On RSD chassis with single rear axles and Meritor brakes, 16.5x8.625 inch brakes are required for chassis with steer axle GAWR 12K or less and drive axle GAWR 21K or less.		
	* Specifying Meritor RSD brakes on one axle requires the use of Meritor RSD brakes on all axles.		
3354023	Rear Brakes, Meritor RSD-Compliant S-Cam 16.5x 7 in. single axle drum brake, Max GAWR 23k.	($2)	8#
	* For RSD chassis with single rear axles and Meritor brakes, 16.5x8.625 brakes are not available for any of the following configurations: Steer axle GAWR of 12,001 - 14,6K.		
	* For RSD chassis with single rear axles and Meritor brakes, 16.5x8.625 brakes are not available for any of the following configurations: Steer axle GAWR up to and including 12k and drive axle GAWR 21,001 - 23K		
	* Maximum axle GAWR for this code: 23,000 lbs.		
	* Meritor brakes are not available on RSD chassis with lift axles..		
	* Meritor brakes are not available on RSD chassis with over 16,000 lb steer axle GAWR.		
	* On RSD chassis with single rear axles and Meritor brakes, 16.5x7 rear brakes are required with steer axle GAWR of 12,001 - 14,6K.		
	* On RSD chassis with single rear axles and Meritor brakes, 16.5x7 rear brakes are required with steer axle GAWR up to and including 12k and drive axle GAWR 21,001 - 23K.		
	* On RSD chassis with single rear axles and Meritor brakes, 16.5x8.625 inch brakes are required for chassis with steer axle GAWR 12K or less and drive axle GAWR 21K or less.		
	* Specifying Meritor RSD brakes on one axle requires the use of Meritor RSD brakes on all axles.		
	* This code is not available with steer axle GAWR of 12k or less and drive axle GAWR of 21k or less.		

Brake Drums

3392001	Single rear heavy duty Brake Drums: cast. Use HD Gunite Drum when single axle with GAWR over 23,000 lbs is selected.	$147	0#
3392007	Single Rear Brake Drums: cast.	STD	0#
	* These rear axle outer end components are applicable for use on a single rear axle only		
	* This brake drum cannot be used with rear axle capacity of 23,001 lbs or greater.		
3392025	RR BRK DRUM: TRUTURN LITE 16.5x7 SINGLE	$53	-10#
3392031	RR BRK DRUM: TRUTURN LITE 16.5X8.6 SINGLE	$69	-4#
3392116	Single Rear Brake Drums Meritor X30 light weight. Contact Applications Engineering for maximum GAWR.	$185	-32#
	* These rear axle outer end components are applicable for use on a single rear axle only		

Option	Description	Price	Weight

Single Axle Outer End Equipment

Rotors

3392204	Splined rotor for single rear air disc brakes for use with aluminum hubs. * Maximum capacity for single axle air disc brakes is 23K with aluminum hubs and 26K with iron hubs.	$1,365	-104#
3392205	Splined rotor for single rear air disc brakes for use with iron hubs.	$1,310	-104#

Hubs

3401010	Single Rear Hubs: Aluminum hub pilot 23K; 11-1/4 in. bolt circle. * Aluminum 11-1/4 inch bolt circle hub piloted hub for use on single rear axles.	STD	0#
3403220	Single Rear Hubs: Iron hub pilot 11-1/4 in. bolt circle. * These rear axle outer end components are applicable for use on a single rear axle only	$36	52#

Oil Seals

3441971	ConMet PreSet Plus Hub package; single rear axle. * Oil seals for use on single rear axles with aluminum hubs or iron hubs with air disc brakes.	STD	0#

Spring Brakes & Parking Brakes

3485004	Spring brakes included w/ single rear air disc brakes. * Spring brakes for use only, and required, with air disc brakes on single rear axle chassis.	$0	0#
3485007	Spring Brake: 3030 long stroke single 3 in. travel replace standard 2-1/2 in. travel. Helps keep brakes in adjustment longer. * 3030 spring brake chambers for use on a single rear axle installation. Not for use on axles with capacity over 23k. * Long stroke brake chambers are not compatible with Neway AD rear suspensions. There is no option for inverted or high mounting these chambers. * Long stroke brake chambers are required for RSD-compliant chassis with drum brakes. * Spring brake chambers for use with single rear axle installations.	$12	2#
3485008	Spring Brake: 3036 single. * 3036 spring brake chambers for use on a single rear axle installation. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use long stroke brake chambers instead.	$85	8#
3485009	Spring Brake: 3030 high output single. * Spring brake chambers for use with single rear axle installations. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use long stroke brake chambers instead.	STD	0#

Slack Adjusters

3465001	Single Rear axle automatic slack adjusters. * Automatic slack adjusters for single rear axles.	STD	0#

Option	Description	Price	Weight

Single Axle Outer End Equipment

Wheel Differential Locks & Limited Slip

3511080	Meritor driver controlled differential lock for single rear axle. * Meritor Crosslock for single rear axles only. * Traction control device for use only with Meritor rear axles.	$780	0#
3531000	Wheel Differential Lock for Dana Spicer Axle P22060S; changes S to D to the axle part number.	$1,356	15#
3531001	Wheel Differential Lock for Dana Spicer Axles S21-170, S21-190, S23-170, S23-190, S26-190 & S30-190; adds D to the end of the axle part number. * Bendix eTrac traction enhancement system requires differential lock code 3531001 (Dana) OR 3511401 (Meritor).	$1,140	28#

Miscellaneous

3490901	Rear air disc brake dustshields for single axle; includes pads and rotor shields. * Rear disc pads for use with air disc brakes.	$296	6#

Tandem Axle Outer End Equipment

Brakes

3304012	RR BRK:BENDIX RSD 16.5X7 DUAL 46K CAP REDUCED STOPPING DISTANCE TRACTOR ONLY. RSD-Compliant HP-ES S-Cam, tandem axle drum brake. * Bendix ES 16-1/2 x 7 inch rear brakes are not compatible with rear axles rated over 52K. * Maximum axle GAWR for this code: 46,000 lbs * RSD vehicles with Bendix brakes are not available with multiple lift axles or with tag axles. One pusher (other than 8k or 10k) is allowed.	($8)	24#
3304013	RR BRK: BENDIX RSD 16.5X7S DUAL 46,001-52,000 REDUCED STOPPING DIST TRACTOR ONLY,RSD-Compliant HP-ES S-Cam, (Heavy Duty) tandem axle drum brake. * Maximum axle GAWR for this code: 52,000 lbs. Minimum GAWR: 46,001 lbs * RSD vehicles with Bendix brakes are not available with multiple lift axles or with tag axles. One pusher (other than 8k or 10k) is allowed.	$1,619	32#
3304016	RR BRK: BENDIX RSD 16.5X8.625 DUAL 46K CAP REDUCED STOPPING DISTANCE TRACTOR ONLY. RSD-Compliant HP-ES S-Cam, tandem axle drum brake. * Maximum axle GAWR for this code: 46,000 lbs * RSD vehicles with Bendix brakes are not available with multiple lift axles or with tag axles. One pusher (other than 8k or 10k) is allowed.	$221	32#

Option	Description	Price	Weight

Tandem Axle Outer End Equipment

Brakes

46K & Under

3306001	Dual rear Bendix air disc brakes for dual rear axles to 46K capacity. * Air disc brakes on rear axle requires the use of air disc brakes on the front axle of the chassis. * Maximum capacity for tandem axle air disc brakes is 46K with aluminum hubs and 52K with iron hubs. * Meritor Ultramount hubs are not for use with air disc brakes or with Sisu rear axles. * Rear air disc brakes are not compatible with Hendrickson PRIMAAX with 52K axles, Hendrickson HAS, or Reyco rear suspensions. * Rear air disc brakes require Preset Plus oil seals code 3441972. * Specifying air disc brakes on any axle requires that the wheels on all axles be air disc brake compatible, including any lift axles. * Tandem rear axle air disc brake. The disc brakes require splined rotors. Requires Preset Plus oil seals. Slack adjusters are included. * The static loaded radius of the rear tires cannot exceed 21.9 inches when air disc brakes are specified. This SLR is typical with tires smaller than 48 inches in diameter. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.	$0	40#
3306014	Rear brakes, Bendix RSD-Compliant ADB22X Disc brake for tandem axle, Max GAWR 46k. * Air disc brakes on rear axle requires the use of air disc brakes on the steer axle as well. * Maximum axle GAWR for this code: 46,000 lbs * Maximum capacity for tandem axle air disc brakes is 46K with aluminum hubs and 52K with iron hubs. * Rear air disc brakes are not compatible with Hendrickson PRIMAAX with 52K axles, Hendrickson HAS, or Reyco rear suspensions. * Rear air disc brakes require Preset Plus oil seals code 3441972. * RSD vehicles with Bendix brakes are not available with multiple lift axles or with tag axles. One pusher (other than 8k or 10k) is allowed. * The maximum GVWR for a chassis equipped with tandem axles using air disc brakes and a single spring brake is 66K. Dual spring brake installations with yield a higher GVWR limit.	$0	40#
3334004	Dual Rear Brakes 16-1/2x7 in. to 46K; Bendix ES-extended service S-cam. * Bendix ES 16-1/2 x 7 inch rear brakes are not compatible with rear axles rated over 52K. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.	$0	0#
3334050	Dual Rear Brakes 16-1/2x8-5/8 in. to 44K; Bendix ES-extended service S-cam. * 16.5 x 8.625 inch rear brakes for use on tandem rear axles rated under 52K. Maximum rear GAWR will be 44K. * Meritor X30 light weight fused drums for use with tandem axles with maximum GAWR of 46K. Not for use with spoke wheels, 16.5 x 8.625 inch rear brakes, or with the LMS brake package. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.	$391	32#

Option	Description	Price	Weight

Tandem Axle Outer End Equipment

Brakes

46K & Under

3354004 Dual Rear Brakes 16-1/2x7 in. to 46K; Meritor Q-Plus S-cam stamped spider. — $62 — 16#

* 50R/22.5 or 55R/22.5 rear tires require the use of a brake camshaft tube brace in applications other than with Meritor rear brakes, air disc brakes on rear axle, or with a Reyco rear suspension.
* Kenworth Airglide rear suspensions and Meritor stamped spider rear brakes cannot be converted to super singles tires and wheels in the aftermarket.
* Meritor Q plus tandem axle rear brakes with stamped spider for use with axles rated under 52k. Not available for use in mixer, dump, logger, oil field, refuse, or fire truck service. Not compatible with Primaax rear suspensions. No class C or class D road service. Not available with request for Extended Warranty.
* Meritor stamped spiders are not available on Neway ADZ suspension, which requires cast spiders.
* This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.

3354007 Dual Rear Brakes 16-1/2x7 in. to 46K; Meritor Q- plus-extended service S-cam. — $164 — 16#

* 50R/22.5 or 55R/22.5 rear tires require the use of a brake camshaft tube brace in applications other than with Meritor rear brakes, air disc brakes on rear axle, or with a Reyco rear suspension.
* Meritor Q plus rear brakes for use on tandem rear axles rated under 52K. Not available with request for Extended Warranty.
* This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use an RSD-compliant brake code instead.

3354046 Rear Brakes, Meritor Q+ RSD-Compliant S-Cam 16.5x8.625 in. tandem axle drum brake, Max GAWR 46k. — $287 — 48#

* For RSD chassis with single rear axles and Meritor brakes, 16.5x8.625 brakes are not available for any of the following configurations: Steer axle GAWR of 12,001 - 14,6K.
* For RSD chassis with tandem rear axles and Meritor brakes, 16.5x7 brakes are not available (16.5x8.625 required instead) for any of the following configurations: Steer axle GAWR of 14,601 - 16k and drive axle GAWR up to and including 40,000 lbs
* For RSD chassis with tandem rear axles and Meritor brakes, 16.5x7 brakes are not available (16.5x8.625 required instead) for any of the following configurations: Steer axle GAWR up to and including 14.6k and drive axle GAWR 44,001 - 46K.
* For RSD chassis with tandem rear axles and Meritor brakes, 16.5x7 brakes are required for rear GAWR over 46K.
* For RSD chassis with tandem rear axles and Meritor brakes, 16.5x8.625 brakes are required for any of the following configurations (for other configurations not listed below, 16.5x7 or 16.5x8.625 inch brakes are available): Steer axle GAWR of 14,601 - 16k and drive axle GAWR up to and including 40,000 lbs
* For RSD chassis with tandem rear axles and Meritor brakes, 16.5x8.625 brakes are required for any of the following configurations (for other configurations not listed below, 16.5x7 or 16.5x8.625 inch brakes are available): Steer axle GAWR up to and including 14.6K and drive axle GAWR 44,001 - 46K
* Maximum axle GAWR for this code: 46,000 lbs
* Meritor brakes are not available on RSD chassis with lift axles..
* Meritor brakes are not available on RSD chassis with over 16,000 lb steer axle GAWR.
* On RSD chassis with single rear axles and Meritor brakes, 16.5x7 rear brakes are required with steer axle GAWR of 12,001 - 14,6K.
* On RSD chassis with single rear axles and Meritor brakes, 16.5x7 rear brakes are required with steer axle GAWR up to and including 12k and drive axle GAWR 21,001 - 23K.
* On RSD chassis with single rear axles and Meritor brakes, 16.5x8.625 inch brakes are required for chassis with steer axle GAWR 12K or less and drive axle GAWR 21K or less.
* Specifying Meritor RSD brakes on one axle requires the use of Meritor RSD brakes on all axles.

Brakes

52K

3354050	Rear Brakes, Meritor Q+ RSD-Compliant S-Cam 16.5x7 in.tandem axle drum brake, Max GAWR 50k.	$73	16#

* For RSD chassis with single rear axles and Meritor brakes, 16.5x8.625 brakes are not available for any of the following configurations: Steer axle GAWR of 12,001 - 14,6K.
* For RSD chassis with tandem rear axles and Meritor brakes, 16.5x7 brakes are not available (16.5x8.625 required instead) for any of the following configurations: Steer axle GAWR of 14,601 - 16k and drive axle GAWR up to and including 40,000 lbs
* For RSD chassis with tandem rear axles and Meritor brakes, 16.5x7 brakes are not available (16.5x8.625 required instead) for any of the following configurations: Steer axle GAWR up to and including 14.6k and drive axle GAWR 44,001 - 46K.
* For RSD chassis with tandem rear axles and Meritor brakes, 16.5x7 brakes are required for rear GAWR over 46K.
* For RSD chassis with tandem rear axles and Meritor brakes, 16.5x8.625 brakes are required for any of the following configurations (for other configurations not listed below, 16.5x7 or 16.5x8.625 inch brakes are available): Steer axle GAWR of 14,601 - 16k and drive axle GAWR up to and including 40,000 lbs
* For RSD chassis with tandem rear axles and Meritor brakes, 16.5x8.625 brakes are required for any of the following configurations (for other configurations not listed below, 16.5x7 or 16.5x8.625 inch brakes are available): Steer axle GAWR up to and including 14.6K and drive axle GAWR 44,001 - 46K
* Maximum axle GAWR for this code: 50,000 lbs
* Meritor brakes are not available on RSD chassis with lift axles..
* Meritor brakes are not available on RSD chassis with over 16,000 lb steer axle GAWR.
* On RSD chassis with single rear axles and Meritor brakes, 16.5x7 rear brakes are required with steer axle GAWR of 12,001 - 14,6K.
* On RSD chassis with single rear axles and Meritor brakes, 16.5x7 rear brakes are required with steer axle GAWR up to and including 12k and drive axle GAWR 21,001 - 23K.
* On RSD chassis with single rear axles and Meritor brakes, 16.5x8.625 inch brakes are required for chassis with steer axle GAWR 12K or less and drive axle GAWR 21K or less.
* Specifying Meritor RSD brakes on one axle requires the use of Meritor RSD brakes on all axles.

Brakes

52K

3354052	Rear Brakes, Meritor Q+ Heavy Duty RSD-Compliant S-Cam 16.5x7 in. tandem axle drum brake, For GAWR 50,001 - 52k. * For RSD chassis with single rear axles and Meritor brakes, 16.5x8.625 brakes are not available for any of the following configurations: Steer axle GAWR of 12,001 - 14,6K. * For RSD chassis with tandem rear axles and Meritor brakes, 16.5x7 brakes are not available (16.5x8.625 required instead) for any of the following configurations: Steer axle GAWR of 14,601 - 16k and drive axle GAWR up to and including 40,000 lbs * For RSD chassis with tandem rear axles and Meritor brakes, 16.5x7 brakes are not available (16.5x8.625 required instead) for any of the following configurations: Steer axle GAWR up to and including 14.6k and drive axle GAWR 44,001 - 46K. * For RSD chassis with tandem rear axles and Meritor brakes, 16.5x7 brakes are required for rear GAWR over 46K. * For RSD chassis with tandem rear axles and Meritor brakes, 16.5x8.625 brakes are required for any of the following configurations (for other configurations not listed below, 16.5x7 or 16.5x8.625 inch brakes are available): Steer axle GAWR of 14,601 - 16k and drive axle GAWR up to and including 40,000 lbs * For RSD chassis with tandem rear axles and Meritor brakes, 16.5x8.625 brakes are required for any of the following configurations (for other configurations not listed below, 16.5x7 or 16.5x8.625 inch brakes are available): Steer axle GAWR up to and including 14.6K and drive axle GAWR 44,001 - 46K * Maximum axle GAWR for this code: 52,000 lbs. Minimum GAWR is 50,001 lbs * Meritor brakes are not available on RSD chassis with lift axles.. * Meritor brakes are not available on RSD chassis with over 16,000 lb steer axle GAWR. * On RSD chassis with single rear axles and Meritor brakes, 16.5x7 rear brakes are required with steer axle GAWR of 12,001 - 14,6K. * On RSD chassis with single rear axles and Meritor brakes, 16.5x7 rear brakes are required with steer axle GAWR up to and including 12k and drive axle GAWR 21,001 - 23K. * On RSD chassis with single rear axles and Meritor brakes, 16.5x8.625 inch brakes are required for chassis with steer axle GAWR 12K or less and drive axle GAWR 21K or less. * Specifying Meritor RSD brakes on one axle requires the use of Meritor RSD brakes on all axles.	$1,357	16#

Brake Drums

3392002	Dual rear heavy duty Brake Drums: cast. Use HD Gunite Drum when tandem axle with GAWR over 46,000 lbs is selected.	$293	0#
3392005	Dual Rear Brake Drums: cast. * Cast drums for tandem rear axles rated under 52k. * This brake drum cannot be used with rear axle capacity of 46,002 lbs or greater.	$0	0#
3392010	Dual Rear Brake Drums: cast included w/ axle or brake. * Rear brake drums are included with some tandem axles with capacity exceeding 52K.	$0	0#
3392026	RR BRK DRUM: TRUTURN LITE 16.5x7 DUAL	$106	-26#
3392032	RR BRK DRUM: TRUTURN LITE 16.5X8.6 DUAL	$139	-14#
3392130	Dual Rear Brake Drums Meritor X30 light weight. Use w/ 16-1/2x7 in. brakes. Limits GAWR to 46K maximum. Requires dual spring brakes. Not for spoke wheels * Meritor X30 light weight fused drums for use with tandem axles with maximum GAWR of 46K. Not for use with spoke wheels, 16.5 x 8.625 inch rear brakes, or with the LMS brake package.	$371	-64#

Option	Description	Price	Weight

Tandem Axle Outer End Equipment

Brake Drums

3392131	Dual Rear Brake Drums Meritor X30 light weight. Use w/ 16-1/2X8-5/8 in. brakes. Limits GAWR to 46K maximum. Requires dual spring brakes. Not for spoke wheels	$532	-32#
	* Meritor X30 light weight fused drums for use with tandem axles with maximum GAWR of 46K. Not for use with spoke wheels, 16.5 x 7 inch rear brakes, or with the LMS brake package.		

Rotors

3392604	Splined rotor for dual rear air disc brake for use with aluminum hubs.	$3,362	-208#
	* Maximum capacity for tandem axle air disc brakes is 46K with aluminum hubs and 52K with iron hubs.		
3392605	Splined rotor for dual rear air disc brakes for use with iron hubs.	$3,017	-208#
	* Maximum capacity for tandem axle air disc brakes is 46K with aluminum hubs and 52K with iron hubs.		

Hubs

3403460	Dual Rear Hubs: Iron hub pilot 11-1/4 in. BC.	$71	104#
	* For use on tandem rear axles rated under 52k. Incompatible with LMS brake package.		
3407050	Dual Rear Hubs: Aluminum hub pilot 46K 11-1/4 in. bolt circle.	$0	0#
	* Rear axle outer end equipment for a tandem axle installation rated up to and including 46,000 lbs.		

Oil Seals

3441972	ConMet PreSet Plus Hub package; dual rear axle.	$0	0#
	* Preset Plus oil seals for tandem rear axles are available for use with aluminum or iron hub pilot hubs on axles with capacity of 52K or less.		

Spring Brake & Service Chambers

Single on Dual

3485101	Spring Brake: 3030 long stroke single spring brake on dual axle. This option reduces rear tandem GAWR to 36,000 lbs.	($23)	-20#
	* Long stroke brake chambers are not compatible with Neway AD rear suspensions. There is no option for inverted or high mounting these chambers.		
	* Single axle parking brake for use on tandem rear axles. Insufficient for use on full trucks. Not available with a pusher axle.		
3485103	Spring brakes included w/ rear air disc brakes single spring brake on dual axle installation. Derates tandem to 38,000 lbs.	($37)	-20#
	* Single axle parking brake for use on tandem rear axles. Insufficient for use on full trucks. Not available with a pusher axle.		
	* Spring brake code for use with air disc brakes used to specific to single on dual installations where spring brake deletion is acceptable on one of the axles. Tractors rated to 46K only.		
	* The maximum GVWR for a chassis equipped with tandem axles using air disc brakes and a single spring brake is 66K. Dual spring brake installations with yield a higher GVWR limit.		

Dual

3485002	Spring brakes included w/ dual rear air disc brakes.	$0	0#
	* Neway AD378 and AD390 rear suspensions require high output spring brakes when used drum brakes on axles other than Sisu. Sisu rear axles utilize a spring brake that is acceptable for use with these suspensions.		
	* Spring brakes for use only with, and required for air disc brakes on tandem rear axle chassis.		
	* The air disc brakes require a generic spring brake code.		

Option	Description	Price	Weight

Tandem Axle Outer End Equipment

Spring Brake & Service Chambers

Dual

3485207	Spring Brake: 3030 long stroke dual 30 square inches travel; replaces standard 2-1/2 in. travel. Helps keep brakes in adjustment longer. * 3030 high output spring brakes for tandem rear axles when no more than one pusher axle is specified. * Long stroke brake chambers are not compatible with Neway AD rear suspensions. There is no option for inverted or high mounting these chambers. * Long stroke brake chambers are required for RSD-compliant chassis with drum brakes. * Spring brakes with 3030 chamber size for use on tandem rear axle with capacities up to 52K. Not for use in fire service.	$25	4#
3485208	Spring Brake: 3036 dual 30 square inches; 36 square inches spring chamber. * 3036 spring brake chambers for use on tandem rear axle capacities up to 58K. Not available for fire service, see 3636 chamber size. * Multiple lift axles require the use of 3036 spring brake chambers. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use long stroke brake chambers instead.	$173	16#
3485209	Spring Brake: 3030 high output dual. * 3030 high output spring brakes for tandem rear axles when no more than one pusher axle is specified. * Neway AD378 and AD390 rear suspensions require high output spring brakes when used drum brakes on axles other than Sisu. Sisu rear axles utilize a spring brake that is acceptable for use with these suspensions. * This code not available with any RSD-Compliant vehicle (Tractor for US, Canada, or Mexico with 2010+ EPA engine). Use long stroke brake chambers instead.	$0	0#
3485213	Spring Brake: 3036 long stroke dual 30 square inches; 36 square inches spring chamber. * 3036 Longstroke brake chambers are not available with Neway ADZ suspensions. * 3036 spring brake chambers for use on tandem rear axle capacities up to 58K. Not available for fire service, see 3636 chamber size. * Long stroke brake chambers are not compatible with Neway AD rear suspensions. There is no option for inverted or high mounting these chambers. * Long stroke brake chambers are required for RSD-compliant chassis with drum brakes. * Not available with Kenworth AG380 rear suspension.	$280	16#

Brake Equipment

3500006	Inverted chambers for 16-1/2 x 7 in. brakes; Replaces standard mount w/ higher mount. * Inverted rear brake chambers are only available on Chalmers or Hendrickson beam type rear suspensions. The option will not work with Chalmers low mount suspension requesting 3036 brake chambers. Not available with Hendrickson HMX with saddle height below 17.5 inches. * Recommended for asphalt spreaders. * The option to invert rear brake chambers is not available with an LMS brake package or with axle capacities of 58K or greater. Not for use with air disc brakes.	$11	0#
3500012	Replace standard mount w/ high mount for rear rear axle brake chambers. * High mount brake chambers are not available with some high capacity rear axles where the chambers are already in the highest possible position. * High mounted rear brake chambers are applicable to high mount Chalmers, standard height Hendrickson HMX except with 3036 chamber size, or Hendrickson beam suspensions other than HMX with 16.5 inch [low] saddle height.	$0	0#

Option	Description	Price	Weight

Tandem Axle Outer End Equipment

Brake Equipment

3500021	Brake cam tube bracket required w/ wide base tires w/ Airglide 380, 400, 400L, 460, 690 & Primaax suspension. * 50R/22.5 or 55R/22.5 rear tires require the use of a brake camshaft tube brace in applications other than with Meritor rear brakes, air disc brakes on rear axle, or with a Reyco rear suspension. * Brake camshaft tube brace is not available with Reyco rear suspensions, rear air disc brakes, axles rated over 46K, or Meritor rear brakes.	$0	4#

Differential Lock & Crosslock

3511400	Driver Controlled Differential Lock (Crosslock) for Meritor Axles 40K to 52K forward rear axle. Under Speed Interlock is standard on T680. * Crosslock for tandem rear axles rated under 58k. Not available on dead axle tandem installations.	$1,148	19#
3511410	Driver Controlled Differential Lock (Crosslock) for Meritor Axles 40K to 58K rear rear axle. Under Speed Interlock is standard on T680. * Crosslock for tandem rear axles rated under 58k. Not available on dead axle tandem installations.	$1,232	19#
3511420	Driver Controlled Differential Lock (Crosslock) for Meritor Axles 40K to 52K forward rear & rear rear axle. Under Speed Interlock is standard on T680. * Crosslock for tandem rear axles rated under 58k. Not available on dead axle tandem installations. * Engagement of both traction control devices may seriously impair the steering of the vehicle. Use code 3573110, 3573111, or 3573112 to provide separate switches and help alleviate the issue.	$2,146	39#
3511500	Driver Controlled Differential Lock (Crosslock) for Paccar Axles 40K rated, forward rear axle, with cab control.	$1,125	19#
3532120	Wheel Differential Lock for Dana Spicer axles DSH40(P)/DSH44(P)/DSP40(P)/DSP41(P)/D40-145(P)(H)(S)/D40-155 forward rear axle. Under Speed Interlock is standard on T680.	$1,139	22#
3532125	Wheel Differential Lock for Dana Spicer axles DSP40/DSP41(P)/DSH40(P)/DSH44(P)/D40-155 rear rear axle. Under Speed Interlock is standard on T680. * Wheel diff lock option in rearmost tandem axle for use on DS404, DS405, DS454, DSH40,DSH44, DSP40, or DSP41 rear axles.	$1,200	15#
3532130	Wheel Differential Lock for Dana Spicer axles DSP40/DSP41(P)/DSH40(P)/DSH44(P)/D40-155 forward rear axle & rear rear. Under Speed Interlock is standard on T680. * Engagement of both traction control devices may seriously impair the steering of the vehicle. Use code 3573110, 3573111, or 3573112 to provide separate switches and help alleviate the issue. * Wheel diff lock option in both tandem axles for use on DS404, DS405, DS454, DSH40,DSH44, DSP40, DSP41 or Advantec rear axles.	$2,204	37#
3532190	Wheel Differential Lock for Dana Spicer axles D40-170(P)/D46-170(H)(P)(WT) forward rear axle. Under Speed Interlock is standard on T680. * Traction control device for use with Dana Spicer D40-170 or D46-170 rear axles.	$1,163	55#
3532191	Wheel Differential Lock for Dana Spicer axles D52-190P or D46-590HP forward rear axle. * Traction control device for use with Dana Spicer D52-190 or D46-590 rear axles.	$995	19#
3532192	Wheel Differential Lock for Dana Spicer axles D40-170(P)/D46-170(H)(P)(WT) rear rear axle. Under Speed Interlock is standard on T680. * Traction control device for use with Dana Spicer D40-170 or D46-170 rear axles.	$1,155	55#
3532193	Wheel Differential Lock for Dana Spicer axles D52-190P or D46-590HP rear rear axle. Under Speed Interlock is standard on T680. * Traction control device for use with Dana Spicer D52-190 or D46-590 rear axles.	$1,211	20#

Option	Description	Price	Weight

Tandem Axle Outer End Equipment

Differential Lock & Crosslock

3532194	Wheel Differential Lock for Dana Spicer axles D40-170(P)/D46-170(H)(P)(WT) forward rear axle & rear rear axle.	$2,225	112#
	* Engagement of both traction control devices may seriously impair the steering of the vehicle. Use code 3573110, 3573111, or 3573112 to provide separate switches and help alleviate the issue.		
	* Traction control device for use with Dana Spicer D40-170 or D46-170 rear axles.		
3532195	Wheel Differential Lock for Dana Spicer axles D52-190P, D46-590HP or D52-590P forward rear axle & rear rear axle.	$1,916	39#
	* Engagement of both traction control devices may seriously impair the steering of the vehicle. Use code 3573110, 3573111, or 3573112 to provide separate switches and help alleviate the issue.		
	* Traction control device for use with Dana Spicer D52-190 or D46-590 rear axles.		

Slack Adjusters

3465002	Dual Rear axle automatic slack adjusters.	$0	0#
	* Automatic slack adjusters for tandem rear axles.		

Miscellaneous

3490902	Rear air disc brake dustshields for tandem axles; includes pads and rotor shields.	$592	12#
	* Rear disc pads for use with air disc brakes.		
3500022	Brake cam tube bracket w/ dual tires	$87	4#
	* Brake camshaft tube brace is not available with Reyco rear suspensions, rear air disc brakes, axles rated over 46K, or Meritor rear brakes.		
	* If the potential for aftermarket rear wheel mounting to switch from dual to super singles exists then a rear camshaft support brace should be specified. This recommendation does not apply to Meritor Q-plus brakes, rear axle air disc brakes, or Kenworth Airglide suspensions with stamped spider brakes .		

Tridem Axle Outer End Equipment

Brake Drums

3392027	RR BRK DRUM: TRUTURN LITE 16.5x7 TRIDEM	$176	-42#
3392033	RR BRK DRUM: TRUTURN LITE 16.5X8.6 TRIDEM	$208	-24#

Oil Seals

3441973	ConMet PreSet Plus Hub package; tridem rear axle	$0	0#
	* Preset Plus oil seals for tridem rear axles and aluminum hubs or iron hubs.		

Anti-Lock Brake System

4-Channel

3495226	Bendix 4S/4M anti-lock brake system.	STD	0#
3495228	Bendix 4S/4M anti-lock brake system w/ air traction control (ATC).	$581	2#

Option	Description	Price	Weight

Anti-Lock Brake System

4-Channel

3495229	Bendix 4S/4M anti-lock brake system w/ air traction control (ATC) & electronic stability program (ESP) for tractor. * Anti-lock brakes with Electronic Stability Programming require a 12-14.6K front spring. Reference TE1644. * Anti-lock with ESP on Tractors are only for use with TRW TAS65/85, THP60 or Sheppard M100P, HD64, SD110 single or dual power steering gears. See TE1644 or ESP Applications Guidelines at Truck Sales/Product Information/Applications Guidelines. * ESP is restricted based on the following specifications: -Model -Towing Connections -Drive Configuration -Wheelbase -Front Axle -Front Axle GAWR -Front Suspension -Steering Gear -Front Brakes -Rear Axle(s) GAWR -Rear Suspension -Rear Brakes -Auxiliary Axle(s) See ESP Guidelines at Truck Sales/Product Information/Applications Guidelines for restrictions	$2,014	11#
3495233	Bendix 4S/4M anti-lock brake system w/ air traction control (ATC) and electronic stability program (ESP) for full truck. Must code for additional body information. * Antilock brakes with ESP on a truck with AG380, AG400 or AG460 rear suspension can have a maxium front spring of 16K. * Antilock brakes with ESP on a West coast style tanker is limited to front GAWR of 12-14.6K. * Antilock with ESP on a single rear axle requires specific combinations of axles and suspensions. See Application Guidelines in Dealer Net. * ESP is restricted based on the following specifications: -Model -Vocation -Towing Connections -Drive Configuration -Wheelbase -Front Axle -Front Axle GAWR -Front Suspension -Steering Gear -Front Brakes -Rear Axle(s) GAWR -Rear Suspension -Rear Brakes -Auxiliary Axle(s) See ESP Guidelines at Truck Sales/Product Information/Applications Guidelines for restrictions	$2,014	0#

6-Channel

3495227	Bendix 6S/6M anti-lock brake system.	$756	5#
3495230	Bendix 6S/6M anti-lock brake system w/ air traction control (ATC).	$1,046	6#

Option	Description	Price	Weight

Anti-Lock Brake System

6-Channel

3495231 Bendix 6S/6M anti-lock brake system w/ air traction control (ATC) and electronic stability program (ESP) for tractor. — $2,978 — 15#

* Anti-lock brakes with Electronic Stability Programming require a 12-14.6K front spring. Reference TE1644.
* Antilock brakes with ESP on a tridem tractor require 18K front taperleaf springs
* Anti-lock with ESP on Tractors are only for use with TRW TAS65/85, THP60 or Sheppard M100P, HD64, SD110 single or dual power steering gears. See TE1644 or ESP Applications Guidelines at Truck Sales/Product Information/Applications Guidelines.
* ESP is restricted based on the following specifications:
  -Model
  -Towing Connections
  -Drive Configuration
  -Wheelbase
  -Front Axle
  -Front Axle GAWR
  -Front Suspension
  -Steering Gear
  -Front Brakes
  -Rear Axle(s) GAWR
  -Rear Suspension
  -Rear Brakes
  -Auxiliary Axle(s)

  See ESP Guidelines at Truck Sales/Product Information/Applications Guidelines for restrictions
* Not available on W900B with Sheppard M100P. See TE1644 or ESP Applications Guidelines at Truck Sales/Product Information/Applications Guidelines.

3495232 Bendix 6S/6M anti-lock brake system w/ air traction control (ATC) and electronic stability program (ESP) for full truck. Must code for additional body information. — $2,069 — 15#

* Anti-lock brakes systems that include ESP for full truck chassis on the W900S and T880S are applicable to bridge formula mixers, tanks, fire service, or dump truck service.
* Antilock brakes with ESP on a truck with AG380, AG400 or AG460 rear suspension can have a maxium front spring of 16K.
* ESP is restricted based on the following specifications:
  -Model
  -Vocation
  -Towing Connections
  -Drive Configuration
  -Wheelbase
  -Front Axle
  -Front Axle GAWR
  -Front Suspension
  -Steering Gear
  -Front Brakes
  -Rear Axle(s) GAWR
  -Rear Suspension
  -Rear Brakes
  -Auxiliary Axle(s)

  See ESP Guidelines at Truck Sales/Product Information/Applications Guidelines for restrictions

Other

3495242 Bendix eTrac traction enhancement — $780 — 9#

* Bendix eTrac traction enhancement and brake proportioning valve code 9140245 cannot be used together.
* Bendix eTrac traction enhancement system is available with AG380 and AG400L suspensions.
* Bendix eTrac traction enhancement system requires 6S/6M ABS with ATC.
* Bendix eTrac traction enhancement system requires differential lock code 3531001 (Dana) OR 3511401 (Meritor).

Option	Description	Price	Weight

Anti-Lock Brake System

Body Builder ESP Information

3500072	Tanker height less than 75 in. from top of frame rail	$0	0#
3500073	Tanker height between 75 in. and 85 in. from top of frame rail.	$0	0#
3500096	Flatbed top of deck not more than 20 in. above top of deck or frame rail. Guidelines associated with anti-lock brakes systems that include ESP for full truck chassis can be found in Kenworth TE1647 on DealerNet.	$0	0#
3500097	Van body top of deck not more than 20 in. above top of rail-Guidelines associated with anti-lock brakes systems that include ESP for full truck chassis can be found in Kenworth TE1647 on DealerNet.	$0	0#

Miscellaneous

3367001	Rear brake included w/ rear axle.	$0	0#
3407026	Rear hub: included w/ axles 11-1/4 in. b.c. hub-pilot.	$0	0#
	* The Dana S30-190 rear axle is configured to have the hub included with the axle, no options.		
3407046	Longer studs for aluminum wheels w/ steel hub pilot wheels.	$20	6#
	* Long length studs on rear axles are the standard design for aluminum inner and outer duals.		
	* Maximum wheel studs are only available with hub pilot outer ends.		
3440100	Oil seals included w/ axle.	$0	0#
	* Non-LMS oil seals for use with 58k or greater hubs. These seals are packaged with the hub. The seals are applicable to the 24 inch spoke when coupled to the 150k Axle Tech rear axle.		
3465900	Rear slack adjusters included w/ axle or air disc brakes.	$0	0#
	* Slack adjusters are included with many tandem rear axles rated over 52K, LMS packages, or with air disc brakes.		
3490047	Dustshields for drum brakes: all rear axles.	$101	11#
	* Dust shields are not available with Marmon, Sisu, Clark, SPRC, or Kessler. They are integrated into the axle.		
	* Rear axle dust shields are not for use with air disc brakes on the same axle.		
	* Rear axle dust shields are recommended on all chassis that will operate in Canada.		
	* Rear axle dust shields are required on chassis registered in Canada requesting a Severe Service package.		
3491495	Hubodometer.	$195	3#
3495144	RR Meritor Platinum Shield Brakes Addon Platinum shield is only a shoe change.	$77	0#
	* Available with Meritor 16.5" drum brakes only.		
3510000	Tapered axle shaft holes.	$49	0#
	* A sales code for tapered axle shaft holes is not required for D46-590, D52-190, D52-590, RT58-185, RT58-380, RT70-380 series rear axles. These axles are standard with the feature.		
	* A sales code for tapered axle shaft holes is not required for S21-170, S23-170, S23-190, S26-190, D40-170/P, D46-170 series rear axles. These axles are standard with the feature.		
	* Tapered axle shaft holes replacing straight are applicable to Dana Spicer and Meritor axles.		

Option	Description	Price	Weight

Miscellaneous

3533000	Raised oil levels for rear rear axle for use on 12% or greater continuous grades. * Raised oil level in Eaton rear axles is available for vocations with some class B/C/D road service. Incompatible with Kenworth AG380 or Hendrickson air suspensions. * Raised oil levels for rear rear axles for use on 12% or greater continuous grades.	$56	20#
3573100	Xlock/differential lock plumbed to low side of low side of transmission (manual). * Crosslock plumbed to low side of the transmission requires a code for a traction control device. Not for use with Allison automatic, Ultrashift or Autoshift transmissions.	$108	0#
3573101	Xlock/differential lock plumbed to low side of transmission (automatic); includes plumbing and wiring. * Crosslock plumbed to low side of the transmission requires a code for a traction control device. * Option available on Allison RDS or OFS transmissions only.	$334	2#
3573110	Separate flip valve for dual axles: differential lock or crosslock. * Engagement of both traction control devices may seriously impair the steering of the vehicle. Use code 3573110, 3573111, or 3573112 to provide separate switches and help alleviate the issue. * Flip valve, switch and wiring can be used for tandem or tridem - controls 2 of the 3 axles. Requires a code for a traction control device.	$52	0#

Pusher Axles

Non-Steerable Pushers

Suspensions

3808025	Non-steerable pusher axle: Watson-Chalin AL2200 23K Standard track. * This pusher should not be combined with a wide track rear axle in most cases. Contact Kenworth Application Engineering with any concerns.	$11,591	2,296#

Brakes

3820348	16.5x7 in. Bendix Non-RSD brakes for use with 21K or 23K non-steerable pusher assembly (included w/ axle).	$0	0#
3820353	16.5x7 in. Bendix RSD brakes for use with 21K or 23K axle non-steerable pusher assembly.	$110	0#

Brake Drums

3820698	Cast brake drums 16.5x7 for non-steerable 21K or 23K pusher axle.	$0	0#

Hubs

3821703	Non-steerable pusher Hubs Iron hub pilot 10-hole 11.25 in. bolt circle for use with 21K or 23K axle.	$0	0#
3821704	Non-steerable pusher Hubs Aluminum hub pilot 10-hole 11.25 in. bolt circle for use with 21K or 23K axle.	$495	0#

Miscellaneous

3825011	Non-steerable pusher: optional dustshields. * Outer end components for use with WCAL Atlas pusher assemblies.	$44	3#

Steerable Pushers

Suspensions

3808027	1 Steerable Pusher Watson Chalin Tru Track 23K SL2200 includes axle. * RSD compliant vehicles with single rear axle are not available with any lift axles.	$23,635	1,594#

Option	Description	Price	Weight

Pusher Axles

Steerable Pushers

Suspensions

3808109	1 Steerable Pusher: Watson Chalin 8K SL0893SSR Super Lite; includes axle. * Not applicable with Reduced Stopping Distance brakes. See codes 3808802, 3808119, or 3808027.	$10,022	969#
3808118	1 Steerable Pusher: Watson Chalin 10K SL1093SSR Super Lite; includes axle. * Not applicable with Reduced Stopping Distance brakes. See codes 3808802, 3808119, or 3808027.	$10,869	984#
3808119	1 Steerable Pusher Watson-Chalin Tru Track 13.5K SL1190SSR Alumilite; includes axle. * RSD compliant vehicles with single rear axle are not available with any lift axles.	$10,316	1,271#
3808802	1 Steerable Pusher Watson Chalin Tru Track 20K; SL2065 * RSD compliant vehicles with single rear axle are not available with any lift axles.	$14,046	2,086#

Brakes

3820027	1 Steerable Pusher Brakes: Non-RSD 325x100 Use with 8K OR 10K axle.	$0	0#
3820036	1 Steerable Pusher Brakes: Bendix Non-RSD 15x4 Use with 13.5Kaxle.	$0	0#
3820041	1 Steerable Pusher Brakes:BendixRSD 16.5x5 in. Use with 13.5K axle.	$46	0#
3820042	16.5x7 in. Bendix Non-RSD brakes for use with 23K 1 steerable pusher assembly (included w/ axle).	$0	0#
3820044	16.5x7 in. Bendix RSD brakes for use with 23K 1 steerable pusher assembly (included w/ axle)	$110	0#
3820048	1STEERABLE PUSHER DISC BRAKES AND SPLINED ROTOR: BENDIX RSD USE WITH 13.5K AXLE	$3,731	42#
3820050	1STEERABLE PUSHER DISC BRAKES AND SPLINED ROTOR: BENDIX NON-RSD USE WITH 13.5K AXLE	$3,731	42#
3820083	1 Steerable Pusher brakes: Bendix Non-RSD 16.5x6 in.; Use with 20K axle.	$0	0#
3820087	1 Steerable Pusher Brakes: Bendix RSD 16.5x6 in. Use with 20K axle.	$65	0#

Brake Drums

3820500	1 Steerable Pusher cast brake drums. 16.5X7 in. for use with 23K axle.	$0	0#
3820501	1 Steerable Pusher brake drums 325x100 included with 8K axle 205mm BC.	$0	0#
3820508	1 Steerable Tag cast brake drums. 16.5X7 in. for use with 23K axle.	$0	0#
3820511	1 Steerable Pusher brake drums 325x100 included with 10K axle 275mm BC.	$0	0#
3820523	1 Steerable Pusher brake drum 15x4 for use with 13.5K axle.	$0	0#
3820533	1 Steerable Pusher cast brake drums. 16.5X5 in. for use with 13.5K axle.	$41	0#
3820562	1 Steerable Pusher cast brake drums. 16.5X6 in. for use with 20K axle.	$0	0#

Hubs

3821003	1 Steerable pusher iron hubs included for 10K axle.	$0	0#
3821112	1 Steerable pusher iron hubs included for 8K axle.	$0	0#

Option	Description	Price	Weight

Tag Axles

Non-Steerable Tags

Suspensions

3818025	Non-steerable tag axle: Watson-Chalin AL2200 23K Standard track. * RSD vehicles with Bendix brakes are not available with multiple lift axles or with tag axles. One pusher (other than 8k or 10k) is allowed.	$11,591	2,296#

Brakes

3820349	16.5x7 in. Bendix Non-RSD brakes for use with 21K or 23K non-steerable tag assembly (included w/ axle).	$0	0#

Brake Drums

3820699	Cast brake drums 16.5x7 for non-steerable 21K or 23K pusher axle.	$0	0#

Hubs

3821708	Non-steerable tag Hubs Iron hub pilot 10-hole 11.25 in. bolt circle for use with 21K or 23K axle.	$0	0#
3821709	Non-steerable tag Hubs Aluminum hub pilot 10-hole 11.25 in. bolt circle for use with 21K or 23K axle.	$495	0#

Miscellanous

3825009	Non-steerable tag: optional dustshields.	$44	2#

Steerable Tags

Suspensions

3818027	1 Steerable Tag Watson Chalin Tru Track 23K SL2200 includes axle. * 13.5K, 20K and 23K steerable tags require a kit to lock caster steering when the transmission is operating in high range. * RSD vehicles with Bendix brakes are not available with multiple lift axles or with tag axles. One pusher (other than 8k or 10k) is allowed.	$23,635	1,594#
3818109	1 Steerable Tag: Watson Chalin 8K SL0893SSR Super Lite; includes axle. * RSD vehicles with Bendix brakes are not available with multiple lift axles or with tag axles. One pusher (other than 8k or 10k) is allowed.	$10,506	969#
3818118	1 Steerable Tag: Watson Chalin 10K SL1093SSR Super Lite; includes axle. * RSD vehicles with Bendix brakes are not available with multiple lift axles or with tag axles. One pusher (other than 8k or 10k) is allowed.	$10,877	984#
3818119	1 Steerable Tag Watson-Chalin Tru Track 13.5K SL1190SSR Alumilite; includes axle. * 13.5K, 20K and 23K steerable tags require a kit to lock caster steering when the transmission is operating in high range. * RSD vehicles with Bendix brakes are not available with multiple lift axles or with tag axles. One pusher (other than 8k or 10k) is allowed.	$10,354	1,271#
3818802	1 Steerable Tag Watson Chalin Tru Track 20K; SL2065 * 13.5K, 20K and 23K steerable tags require a kit to lock caster steering when the transmission is operating in high range. * Consider either a 6S/6M anti-lock brake system or an LQ-5 valve with a 4S/4M anti-lock system with this lift axle to help prevent pusher axle brake lockup during lightly loaded operation. * RSD vehicles with Bendix brakes are not available with multiple lift axles or with tag axles. One pusher (other than 8k or 10k) is allowed.	$13,869	2,083#

Brakes

Customer-Installed Lift Axles

Kenworth-Offered Lift Axles

Customer-Installed Information Codes

3840221	Customer-installed: Steerable pusher information. Watson Chalin SL1093SSR. Kenworth will provide frame and driveline layout the same as for a factory installed axle. The rail will be drilled for the installation. Clearances and design are based upon the Kenworth standard tire and a location code	$0	0#

Clear Frame Request

3840005	Clear frame: For 1 customer-installed steerable Kenworth offered pusher axle. Kenworth will provide frame and driveline layout the same as for a factory installed axle. The rail will not be drilled for the installation. Clearances and design are based upon the Kenworth standard tire, the selected lift axle type, and a location code. Type and axle spacing required. * Vehicles with lift axles have special engineering needs. It is not uncommon to be asked to add wheelbase, an additional driveline centerbearing, or to relocate components on these chassis.	$918	0#
3840010	Clear frame for 2 customer-installed steerable Kenworth offered pusher axles. Type and axle spacing required. * Contigent on acceptable frame strength and creep loading. GAWR and GVW may need to be limited to be compliant. * Vehicles with lift axles have special engineering needs. It is not uncommon to be asked to add wheelbase, an additional driveline centerbearing, or to relocate components on these chassis.	$918	0#
3840015	Clear frame: For 3 customer-installed steerable Kenworth offered pusher axles. Type and axle spacing required. * Contigent on acceptable frame strength and creep loading. GAWR and GVW may need to be limited to be compliant. * Vehicles with lift axles have special engineering needs. It is not uncommon to be asked to add wheelbase, an additional driveline centerbearing, or to relocate components on these chassis.	$1,118	0#
3840020	Clear frame: For 1 customer-installed non-steerable Kenworth offered pusher axle. Kenworth will provide frame and driveline layout the same as for a factory installed axle. The rail will not be drilled for the installation. Clearances and design are based upon the Kenworth standard tire, the selected lift axle type, and a location code. Type and axle spacing required. * Vehicles with lift axles have special engineering needs. It is not uncommon to be asked to add wheelbase, an additional driveline centerbearing, or to relocate components on these chassis.	$918	0#

Non-Kenworth-Offered Lift Axles

Clear Frame Request

3840300	Clear frame: For 1 customer-installed non-Kenworth offered steerable pusher. Kenworth will provide clear frame 34 inches ahead and 24 inches behind the coded location. Intermediate, centerbearing and forward suspension crossmembers may be located within the clear frame area. The driveline will be installed as if there were no lift axle on the truck. The lift axle installer must address any driveline clearance issues. * Vehicles with lift axles have special engineering needs. It is not uncommon to be asked to add wheelbase, an additional driveline centerbearing, or to relocate components on these chassis.	$918	0#
3840350	Clear frame: For 1 customer-installed non steerable, non-Kenworth offered pusher. Kenworth will provide clear frame 29 inches ahead and 24 inches behind the coded location. Intermediate, centerbearing and forward suspension crossmembers may be located within the clear frame area. The driveline will be installed as if there were no lift axle on the truck. The lift axle installer must address any driveline clearance issues. * Vehicles with lift axles have special engineering needs. It is not uncommon to be asked to add wheelbase, an additional driveline centerbearing, or to relocate components on these chassis.	$918	0#
3840400	Clear frame: For 1 customer-installed steerable non-Kenworth offered tag axle. Kenworth will provide clear frame 34 inches ahead and 24 inches behind the coded location. Intermediate and suspension crossmembers may be located within the clear frame area. * Roll-off/back body types are generally prohibited with tag axles. OAR review can be requested when customer need dictates the tag axle.	$918	0#

31K & Under

3626478	Rear suspension: single Reyco 79KB taperleaf 21K. Unladen Height: 11.0 in. Laden Height: 9.4 in. Not available with shocks or swaybars. * Rear air disc brakes are not compatible with HAS or Reyco rear suspensions. * Rear air disc brakes are not compatible with Reyco 79KB rear suspensions. * Reyco 79KB rear suspension for the T4 series with axles rated at 23K or less. Not appropriate for fire apparatus body. * Reyco 79KB rear suspensions are not for use with a lift axle.	STD	0#
3630023	Rear suspension: single Kenworth Airglide 230 23K 4-bag air suspension w/10.5 in. ride height. Includes shocks and torque rods. Includes air suspension dump valve. * Air suspensions are not available for use in mixer service. * Air suspensions used on dump trucks, trailer dumps, or with no tilt fifth wheels will require the feature which automatically dumps the air from the suspension when PTO is engaged. This allows the suspension to deflate while hoist is up and helps alleviate any imbalance that can occur with air bags inflated. * The AG230 rear suspension is limited in application. Services of logger, concrete ready-mix, mining hauler, mining service, heavy equipment transport, refuse packer, and oil field rig move are not permitted. Refer to DealerNet for detailed information. * The Kenworth AG230 is not available with dual leveling valves or over inflation valve. * This rear suspension is for use with Dana S21/S23/S26 series or Meritor RS23- 160/161 rear axles. * This rear suspension is not available with body types of concrete mixer, booster-axle mixer, logger, oil field rig-up, refuse loader/packer, stone slinger, super dump, transfer dump, coil tubing unit, cotton module, crane/boom, or self-loading logger are not permitted. Refer to DealerNet for detailed information. * This rear suspension is not available with trailer types of end dump or logger. Refer to DealerNet for detailed information.	$2,131	113#
3632270	Rear suspension: single Hendrickson HAS230 23K. W/aluminum crossmembers & gussets. Air suspension w/10 in. height. Maximum torque is 1350 lb-ft. Includes air suspension dump valve. * Air suspensions are not available for use in mixer service. * Air suspensions used on dump trucks, trailer dumps, or with no tilt fifth wheels will require the feature which automatically dumps the air from the suspension when PTO is engaged. This allows the suspension to deflate while hoist is up and helps alleviate any imbalance that can occur with air bags inflated. * Engineering review and/or vendor approval will be required for Hendrickson air suspensions used as fire trucks. * Hendrickson air suspensions are not available with body types that have a high center of gravity such as logger, mixer, roll-off, concrete pump, oil field rig-up, oil well service, drilling derrick, or crane/boom operation. * Hendrickson HAS single axle rear suspensions cannot exceed 1350 ft. lb. engine torque. * Hendrickson HAS suspensions are not available with rear axle ratios numerically greater [slower] than 4.60. * Hendrickson HAS suspensions are not available with refuse packer applications. * Rear air disc brakes are not compatible with HAS or Reyco rear suspensions. * Rear air disc brakes are not compatible with Hendrickson HAS or Reyco 102 rear suspensions * Without an EDGE kit the Hendrickson HAS230 can be used with engine torque up to 1050 ft lbs. The EDGE kit option 3832020 is required when engine torque exceeds this limit. Reference TE1461.	$674	-83#

Tandem

40K & Under

Kenworth

3730026 Rear suspension: Tandem Kenworth Airglide 400L 40K. 54 in. axle spacing. Air suspension w/ 8.5 in. ride height. Includes single leveling valve. Includes air suspension dump valve. — $2,658 — 258#

* Air suspensions used on dump trucks, trailer dumps, or with no tilt fifth wheels will require the feature which automatically dumps the air from the suspension when PTO is engaged. This allows the suspension to deflate while hoist is up and helps alleviate any imbalance that can occur with air bags inflated.
* Engineering will review orders specifying the Kenworth AG400L rear suspension and a lift axle to evaluate creep rating. For questions contact Application Engineering prior to submitting the DTPO.
* For use with engine torque up to and including 1850 ft lbs. No class C road use in excess of 2%. No class D road use.
* Kenworth AG400L rear suspension can be ordered with a single light weight steerable pusher axle. Application Engineering review required.
* Kenworth AG400L rear suspension is available with rail material of 10-5/8 or 10-3/4 inches only.
* Kenworth AG400L rear suspension is compatible with axles: DSP40/41, DSH40/44, RT40-145, RT41-145, MT40-14x3, MT40-14x4, MP40-14x3, MP40-14x4, MT44-14x5, MP44-14x5, Pro40 or dead axle tandem.
* Kenworth AG400L rear suspension is for use with body types of beverage, dry bulk, fire truck, flat bed, flat bed utility crane, roll back flatbed, service body, tank, van, reefer van and wrecker. Refer to application guidelines on DealerNet for complete definition of body types.
* Kenworth AG400L rear suspension is for use with trailer types of dry van, reefer van, doubles, triples, bottom dump, flatbed, auto carrier, and tank. Refer to application guidelines on DealerNet for complete definition of trailer types.
* Kenworth air suspensions are not available for use in mixer service.
* Kenworth Airglide rear suspensions and Meritor stamped spider rear brakes cannot be converted to super singles tires and wheels in the aftermarket.
* Kenworth Airglide rear suspensions can be used with a maximum of one full frame insert.
* Kenworth Airglide rear suspensions used in tractor service cannot be specified with a pintle hook, other than the 15K rated PH-30RP41 used for yarding dollies.
* Optional dual air suspension leveling valves are not available on Kenworth AG380, Kenworth AG400L, or Hendrickson HAS. This is not an option for Neway ADZ tridem, Kenworth AG690 or Primaax tridem suspensions which are standard with dual valves.
* Tractor units that specify a Kenworth Airglide tandem axle rear suspension must have an end of frame cutoff dimension no longer than 70 inches.
* When specifying a lift axle the maximum GVWR cannot exceed the sum of the capacity of the steer and drive axles.

Tandem

40K & Under

Kenworth

3730030 Rear suspension: Tandem Kenworth Airglide 400 40K 52 in. axle spacing. Air suspension w/ 9 in. ride height. Includes air suspension dump valve. — $4,505 — 230#

* Air suspensions used on dump trucks, trailer dumps, or with no tilt fifth wheels will require the feature which automatically dumps the air from the suspension when PTO is engaged. This allows the suspension to deflate while hoist is up and helps alleviate any imbalance that can occur with air bags inflated.
* Incompatible with rear axles rated over 46K.
* Kenworth AG400 rear suspension is not for use with mixers, oil field, refuse packer. Refuse hauler is limited to class C road service under 5% with no class D service allowed.
* Kenworth AG400/AG460 rear suspensions are not for use with auto carrier trailer or vacuum tank body.
* Kenworth air suspensions are not available for use in mixer service.
* Kenworth Airglide rear suspensions and Meritor stamped spider rear brakes cannot be converted to super singles tires and wheels in the aftermarket.
* Kenworth Airglide rear suspensions are limited in application. Refer to Truck Sales/Product Information/Application Guidelines posted on DealerNet for definition.
* Kenworth Airglide rear suspensions can be used with a maximum of one full frame insert.
* Kenworth Airglide rear suspensions used in tractor service cannot be specified with a pintle hook, other than the 15K rated PH-30RP41 used for yarding dollies.
* Kenworth rear suspension approval guidelines limit the creep rating on AG400 rear suspensions equipped with a single lift axle to 50K.
* No more than a single light weight pusher permitted with a Kenworth AG400 rear suspension. No tag axles are approved.
* Tractor units that specify a Kenworth Airglide tandem axle rear suspension must have an end of frame cutoff dimension no longer than 70 inches.

3730032 Rear suspension: Tandem Kenworth Airglide 400 40K 54 in. axle spacing. Air suspension w/ 9 in. ride height. Includes air suspension dump valve. — $4,543 — 232#

* Air suspensions used on dump trucks, trailer dumps, or with no tilt fifth wheels will require the feature which automatically dumps the air from the suspension when PTO is engaged. This allows the suspension to deflate while hoist is up and helps alleviate any imbalance that can occur with air bags inflated.
* Incompatible with rear axles rated over 46K.
* Kenworth AG400 rear suspension is not for use with mixers, oil field, refuse packer. Refuse hauler is limited to class C road service under 5% with no class D service allowed.
* Kenworth AG400/AG460 rear suspensions are not for use with auto carrier trailer or vacuum tank body.
* Kenworth air suspensions are not available for use in mixer service.
* Kenworth Airglide rear suspensions and Meritor stamped spider rear brakes cannot be converted to super singles tires and wheels in the aftermarket.
* Kenworth Airglide rear suspensions are limited in application. Refer to Truck Sales/Product Information/Application Guidelines posted on DealerNet for definition.
* Kenworth Airglide rear suspensions can be used with a maximum of one full frame insert.
* Kenworth Airglide rear suspensions used in tractor service cannot be specified with a pintle hook, other than the 15K rated PH-30RP41 used for yarding dollies.
* Kenworth rear suspension approval guidelines limit the creep rating on AG400 rear suspensions equipped with a single lift axle to 50K.
* No more than a single light weight pusher permitted with a Kenworth AG400 rear suspension. No tag axles are approved.
* Tractor units that specify a Kenworth Airglide tandem axle rear suspension must have an end of frame cutoff dimension no longer than 70 inches.

Option	Description	Price	Weight

Tandem

40K & Under

Kenworth

3730053 Rear suspension: Tandem Kenworth Airglide 380 38K 52 in. axle spacing. Air suspension with 8.5 in. ride height. Includes single leveling valve and air suspension dump valve. Compatible with drum or air disc brakes. — $3,506 — 155#

* Kenworth AG380 rear suspensions are not for use with no-tilt fifth wheels. This style of fifth wheel is indicative of a frameless dump application, which is undesirable for use with this air suspension.
* Kenworth AG380 tandem rear suspension is not available with any class C or D road use or with a GCW over 80K. The upper engine torque limit is 1850 ft lbs.
* Kenworth Airglide rear suspensions and Meritor stamped spider rear brakes cannot be converted to super singles tires and wheels in the aftermarket.
* Lift axles are not permitted with Kenworth AG380 rear suspensions.
* Optional dual air suspension leveling valves are not available on Kenworth AG380, Kenworth AG400L, or Hendrickson HAS. This is not an option for Neway ADZ tridem, Kenworth AG690 or Primaax tridem suspensions which are standard with dual valves.
* Services for the AG380 include full trucks with a body type of beverage distributor, tank, van, flatbed, automobile rack, service body or refer van. Full trucks are not available with a trailer combination.
* The Kenworth AG380 is not available with inserted rails. If frame strength of this magnitude is required select another Airglide suspension.
* The Kenworth AG380 is not compatible with 10-11/16 inch or 11-5/8 inch rails.
* The Kenworth AG380 rear suspension is available use in for linehual or pick-up & delivery services only.
* The Kenworth AG380 rear suspension is available with DSP40, DSP41, DSH40, DSH41, DSH44, RT40 - 145, RT41-145, RT44 - 145 or MA40-165 rear axles only.
* The Kenworth AG380 rear suspension requires a 5 inch drop axle when used on W900L model.
* Wirebraid air piping is not available on the Kenworth AG380.

Reyco

3726405 Rear suspension: Tandem Reyco 102 38K. 4-spring multileaf & 52 in. axle spacing. Steel crossmembers & gussets. Unladen Height: 10.8 in. Laden Height: 9.2 in. — $2,076 — 482#

* Rear air disc brakes are not compatible with Hendrickson HAS or Reyco 102 rear suspensions
* Reyco 102 rear suspension for tandem rear axles rated up to 46K.
* Reyco 4-spring rear suspensions are not for use with a lift axle.
* Tandem axle rear suspension for use with axles rated up to 52K.

3736418 Rear suspension: Tandem Reyco 102 40K. 4-spring multileaf & 52 in. axle spacing. Steel crossmembers & gussets. Unladen Height: 10.8 in. Laden Height: 9.2 in. — $2,082 — 500#

* Rear air disc brakes are not compatible with Hendrickson HAS or Reyco 102 rear suspensions
* Reyco 102 rear suspension for tandem rear axles rated up to 46K.
* Reyco 4-spring rear suspensions are not for use with a lift axle.

Hendrickson

3732105 Rear suspension: Tandem Hendrickson HAS402 40K. 52 in. axle spacing. Aluminum crossmember & gussets w/shocks at 10 in. height. Includes air suspension dump valve. — $4,418 — 467#

* Advertised axle spacing for this rear suspension is a nominal value. Actual spacing may be up to two inches greater than noted. This is important in situations where the body is likely to be pre-built before the chassis is delivered. Tire to body or bracket to body interference may be encountered. Communicate clear space requirements on the sales order.
* Air suspensions are not available for use in mixer service.
* Air suspensions used on dump trucks, trailer dumps, or with no tilt fifth wheels will require the feature which automatically dumps the air from the suspension when PTO is engaged. This allows the suspension to deflate while hoist is up and helps alleviate any imbalance that can occur with air bags inflated.
* DSP40/P rear axles are not for use with Hendrickson HAS 402, Hendrickson Primaax, or Hendrickson beam-type rear suspensions.
* Engineering review and/or vendor approval will be required for Hendrickson air suspensions used as fire trucks.
* Hendrickson air suspensions are not available with body types that have a high center of gravity such as logger, mixer, roll-off, concrete pump, oil field rig-up, oil well service, drilling derrick, or crane/boom operation.
* Hendrickson HAS suspensions are not available with rear axle ratios numerically greater [slower] than 4.60.
* Hendrickson HAS suspensions are not available with refuse packer applications.
* Optional dual air suspension leveling valves are not available on Kenworth AG380, Kenworth AG400L, or Hendrickson HAS. This is not an option for Neway ADZ tridem, Kenworth AG690 or Primaax tridem suspensions which are standard with dual valves.
* Rear air disc brakes are not compatible with Hendrickson HAS or Reyco 102 rear suspensions
* The EDGE kit option 3832020 is required by Hendrickson to help combat frame rise during torque application on HAS402 rear suspensions.
* The Hendrickson HAS402 rear suspension is not compatible with multiple lift axles.
* The maximum front axle rating for the use with the Hendrickson HAS rear suspension is 16,000 lbs. This is the assigned rating, not a limitation of the component capacities.
* The upper torque limit for Hendrickson HAS402 suspensions is 1650 ft lbs. No GCW in excess of 80K is acceptable.
* This rear suspension is not available with anti-lock that includes ESP on a W900B.

Tandem

44K to 52K

Hendrickson

3742025 Rear suspension: Tandem Hendrickson Primaax EX462 46K. Steel crossmember & gussets. 60 in. axle spacing. 10 in. ride height. — $6,579 — 569#

* ADB not availible on 78K rear axle with Primaax rear suspension.
* Advertised axle spacing for this rear suspension is a nominal value. Actual spacing may be up to two inches greater than noted. This is important in situations where the body is likely to be pre-built before the chassis is delivered. Tire to body or bracket to body interference may be encountered. Communicate clear space requirements on the sales order.
* DSP40/P rear axles are not for use with Hendrickson HAS 402, Hendrickson Primaax, or Hendrickson beam-type rear suspensions.
* Hendrickson Primaax 46K rear suspensions for use with tandem rear axles capacities up to and including 46K. Not available in services of mixer or oil field rig-up.
* Hendrickson Primaax rear suspensions are available with tandem rear axle capacities under 52K.
* Primaax rear suspensions can not be used with air disc brakes when the rear axle capacity is over 46,000 lbs.
* Special torque rod code 3832001 is required on PRIMAAX suspensions when air disc brakes are specified.
* This rear suspension is not available with anti-lock that includes ESP on a W900B.
* Two speed rear axles not available with PRIMAAX suspensions.
* Ultrarod Plus track rods are required for use in services other than linehaul, regional haul, pick-up and delivery, wrecker, EMT/rescue or when the vehicle will operate outside the U.S.

3742030 Rear suspension: Tandem Hendrickson Primaax EX462 46K. Steel crossmember & gussets. 72 in. axle spacing. 10 in. ride height. — $6,714 — 569#

* ADB not availible on 78K rear axle with Primaax rear suspension.
* Advertised axle spacing for this rear suspension is a nominal value. Actual spacing may be up to two inches greater than noted. This is important in situations where the body is likely to be pre-built before the chassis is delivered. Tire to body or bracket to body interference may be encountered. Communicate clear space requirements on the sales order.
* DSP40/P rear axles are not for use with Hendrickson HAS 402, Hendrickson Primaax, or Hendrickson beam-type rear suspensions.
* Hendrickson Primaax 46K rear suspensions for use with tandem rear axles capacities up to and including 46K. Not available in services of mixer or oil field rig-up.
* Hendrickson Primaax rear suspensions are available with tandem rear axle capacities under 52K.
* Primaax rear suspensions can not be used with air disc brakes when the rear axle capacity is over 46,000 lbs.
* Special torque rod code 3832001 is required on PRIMAAX suspensions when air disc brakes are specified.
* The Primaax tandem rear suspension with 72 inch axle spacing requires an over bogie or full frame insert when used in a tractor application.
* The Primaax tandem rear suspension with 72 inch axle spacing requires an under cab to end of frame or full frame insert when a tag axle is specified.
* The Primaax tandem rear suspension with 72 inch axle spacing requires an under cab to over bogie or full frame insert when a pusher axle is specified.
* This rear suspension is not available with anti-lock that includes ESP on a W900B.
* Two speed rear axles not available with PRIMAAX suspensions.
* Ultrarod Plus track rods are required for use in services other than linehaul, regional haul, pick-up and delivery, wrecker, EMT/rescue or when the vehicle will operate outside the U.S.

Tandem

44K to 52K

Hendrickson

3742970 Tandem Hendrickson HAULMAAX (HMX) 460 46K. 54 in. axle spacing. With shocks, track rods, rubber bolster bushings and 16.5 in. saddle height. Unladen Height: 10.6 in. Laden Height: 9.5 in. — $5,419 — 543#

* Advertised axle spacing for this rear suspension is a nominal value. Actual spacing may be up to two inches greater than noted. This is important in situations where the body is likely to be pre-built before the chassis is delivered. Tire to body or bracket to body interference may be encountered. Communicate clear space requirements on the sales order.
* DSP40/P rear axles are not for use with Hendrickson HAS 402, Hendrickson Primaax, or Hendrickson beam-type rear suspensions.
* Hendrickson approval guidelines limit creep rating for chassis utilizing a lift axle with the 46K rated HMX suspension to 60,000 lbs. If the GVWR of this vehicle exceeds 80,000 lbs you may compromise the capacity of the suspension. Contact Application Engineering for specifics.
* Hendrickson HMX rear suspensions are approved for tank service only when the commodity is water, milk, liquefied gas, or compressed gas.
* The body type of 'other' is not available, the manufacturer requires definition of what the vehicle body will be installed.
* The Hendrickson HMX rear suspensions are not for use on tractor chassis. Available with tandem rear axles up to 52K capacity. Incompatible with front drive axles, or quantity two inserts on 11-5/8 inch rail material.
* When used with 10-5/8 inch rails a HMX suspension requires a frame insert through the rear suspension area, either full or partial.
* With cutoff 60" or less customer or body builder must install structural end of frame crossmember with Chalmers or Hendrickson beam rear suspensions. Use code 6679995 for full trucks when the crossmember will be installed by the body builder.

3742972 Tandem Hendrickson HAULMAAX (HMX) 460 46K. 54 in. axle spacing. With shocks, track rods, rubber bolster bushings and 17.5 in. saddle height. Unladen Height: 11.6 in. Laden Height: 10.5 in. — $5,560 — 549#

* Advertised axle spacing for this rear suspension is a nominal value. Actual spacing may be up to two inches greater than noted. This is important in situations where the body is likely to be pre-built before the chassis is delivered. Tire to body or bracket to body interference may be encountered. Communicate clear space requirements on the sales order.
* DSP40/P rear axles are not for use with Hendrickson HAS 402, Hendrickson Primaax, or Hendrickson beam-type rear suspensions.

3747465	Rear suspension: Tandem Hendrickson RT463 46K. 60 in. axle spacing. 6.0 in. saddle height. Steel beams & barpin bushing. Standard w/ track rods. Unladen Height: 11.1 in. Laden Height: 10 in.	$4,654	1,203#
	* Advertised axle spacing for this rear suspension is a nominal value. Actual spacing may be up to two inches greater than noted. This is important in situations where the body is likely to be pre-built before the chassis is delivered. Tire to body or bracket to body interference may be encountered. Communicate clear space requirements on the sales order.		
	* DSP40/P rear axles are not for use with Hendrickson HAS 402, Hendrickson Primaax, or Hendrickson beam-type rear suspensions.		
	* Hendrickson RT463 beam suspensions for use with tandem axle capacity up to and including 52K.		
	* YOKES; the combination of SPL170 interaxle, RT463 rear suspension, D46-170 rear axle require the 45 deg yoke.		

Neway

3744150	Rear suspension: Tandem Neway ADZ246 46K. 54 in. axle spacing. Air suspension w/ 10 in. ride height. Includes air suspension dump valve, single leveling valve & cast brake spiders.	$6,754	592#
	* Advertised axle spacing for this rear suspension is a nominal value. Actual spacing may be up to two inches greater than noted. This is important in situations where the body is likely to be pre-built before the chassis is delivered. Tire to body or bracket to body interference may be encountered. Communicate clear space requirements on the sales order.		
	* ADZ suspensions with 10 inch ride height are not available with Dana DT463 or DT521 axles or Meritor RT52-185 ,RT52-380 or RZ-XX-188 series axles. Use 12 inch ride height instead.		
	* Air suspensions are not available for use in mixer service.		
	* Air suspensions used on dump trucks, trailer dumps, or with no tilt fifth wheels will require the feature which automatically dumps the air from the suspension when PTO is engaged. This allows the suspension to deflate while hoist is up and helps alleviate any imbalance that can occur with air bags inflated.		
	* Dual leveling valves required on Single or Tandem ADZ suspensions with the following intended services: Logger w/ full truck, snowplow, mining hauler, mining serv w/ full truck, refuse hauler, oil field rig move, fire truck, construction. OR with the following body types: Roll-on/roll-off, end dump, tank.		
	* Meritor stamped spiders are not available on Neway ADZ suspension, which requires cast spiders.		
	* Neway ADZ suspension combined with Accuride 9" steel wheels are not compatible with any 315/80R22.5 tire.		
	* Neway ADZ suspensions are not compatible with 12R24, 14R20, 14R24, or 14R25 tires.		
	* Not available with Sisu axles.		
	* Steel wheels with Michelin XDN2 GRIP 315/80R22.5 tires or Goodyear G289 315/80R22.5 tires are not available with Neway ADZ suspension.		
	* Tandem rear suspension for use with axles rated up to 52K.		
	* This component requires a long lead-time. Refer to the long lead-time report for potential delivery date availability.

Suspension Equipment

3830502	Delete dash mounted control for air suspension dump valve. Only available with an air suspension. * Delete dash control for air suspension dump valve is not available with suspension over inflation valve code 3839002, suspension air retention code 3834100 or traction enhancement code 3830500.	$0	0#
3830505	Dual leveling valves for single air suspension. * Only applicable with single axle ADZ suspensions.	$129	0#
3830510	Dual leveling valves for tandem air suspension. * Optional dual air suspension leveling valves are not available on Kenworth AG380, Kenworth AG400L, or Hendrickson HAS. This is not an option for Neway ADZ tridem, Kenworth AG690 or Primaax tridem suspensions which are standard with dual valves. * Optional equipment for air suspensions only. * The Kenworth AG230 is not available with dual leveling valves or over inflation valve.	$165	2#
3832001	Torque rods for 46K PRIMAAX EX using disc brakes. Replacing standard.	$415	23#
3832004	Heavy-duty track rods for Neway AD tandem or Hendrickson beam suspensions rated up to 46K. * Heavy-duty track rods are standard when a rear suspension sub-frame is specified. The option code is not required. * Track rods for tandem Neway AD tandem rear suspensions or Hendrickson beam styles other than HMX. * Transverse track rods are required when optional heavy-duty track rods are requested. RT/RTE rear suspensions with axle spacing of 60 and 72 inches are standard with track rods.	$155	0#
3832008	Heavy-duty torque rods for Hendrickson beam. 46K and under suspensions. * Heavy-duty torque rods for Hendrickson beam suspensions. Code is not available on Hendrickson beam suspensions with capacity over 46k, where the feature is standard.	$306	15#
3832018	Delete shock absorbers. Hendrickson HAULMAAX (HMX) suspension. * Option to delete standard shock absorbers on Hendrickson HMX rear suspensions for mixer chassis only.	($212)	-30#

Suspension Equipment

Option	Description	Price	Weight
3832020	Edge kit for HAS single or tandem rear suspension	$118	10#
	* EDGE [Efficient Driveline Geometry] kit offered by Hendrickson to correct frame rise issues encountered with high torque engines and torque reactive rear suspensions.		
	* The EDGE kit option 3832020 is required by Hendrickson to help combat frame rise during torque application on HAS402 rear suspensions.		
	* Without an EDGE kit the Hendrickson HAS230 can be used with engine torque up to 1050 ft lbs. The EDGE kit option 3832020 is required when engine torque exceeds this limit. Reference TE1461.		
3832026	Chalmers shock absorbers. 52K and under suspension.	$441	35#
	* Rear axle shock absorbers for use with a Chalmers rear suspension. There is no option to relocate these shocks.		
	* Rear shock absorbers are recommended for use on tractors that specify a Chalmers rear suspension.		
3832030	Bronze center bushings for Hendrickson 403.	$209	6#
3832072	Transverse track rods for Hendrickson RT/RTE suspensions w/52 or 54 in. axle spacing.	$532	108#
	* An end of frame crossmember is required for use with transverse track rods on Hendrickson beam suspensions.		
	* On 46-52K suspensions this option replaces the standard bronze center bushings with rubber bushings.		
	* The Hendrickson RT463 or RT523 rear suspension requires the addition of transverse track rods when used as a mining hauler. RT/RTE rear suspensions with axle spacing of 60 and 72 inches are standard with track rods.		
	* Track rods for use only on Hendrickson beam rear suspensions rated at 52k or less.		
3832098	Track rods: heavy duty for Hendrickson Primaax EX tandem. Replaces standard duty track rods.	$63	24#
	* Ultrarod Plus track rods are required for use in services other than linehaul, regional haul, pick-up and delivery, wrecker, EMT/rescue or when the vehicle will operate outside the U.S.		
	* Ultrarod Plus track rods for use on tandem 46K Primaax EX rear suspensions only. 52K Primaax EX comes standard with Ultrarod Plus.		
3834100	Air retention kit for rear suspension for use w/ outriggers.	$236	4#
	* Delete dash control for air suspension dump valve is not available with suspension over inflation valve code 3839002, suspension air retention code 3834100 or traction enhancement code 3830500.		
	* For use with air suspensions only.		
	* The air retention option is not for use with the over-inflation option (S/C 3839002).		
3836500	Heavy-duty gussets for forward suspension crossmember on Airglide 400/460, Chalmers, or Hendrickson beam suspensions. This replaces the standard gussets.	$59	12#
	* Mexico registry requires three hole gussets in the forward suspension crossmember when a Kenworth AG400/AG460, Hendrickson or Chalmers rear suspension is specified.		
	* Three hole gussets for forward suspension crossmember for use with Hendrickson, Chalmers or KW Airglide rear suspensions other than AG380 or AG400L.		
3839002	Air suspension over-inflation valve w/warning light to temporarily raise the frame.	$285	0#
	* Delete dash control for air suspension dump valve is not available with suspension over inflation valve code 3839002, suspension air retention code 3834100 or traction enhancement code 3830500.		
	* The air suspension over inflation valve is available for Neway, Hendrickson Primaax, or with Kenworth Airglide rear suspensions other than the AG380 or AG400L.		
	* The Kenworth AG230 is not available with dual leveling valves or over inflation valve.		
3839140	Chalmers 40K severe service upgrade. Use with Chalmers 8xx-40 series suspensions. Separate suspension code required.	$286	16#

Option	Description	Price	Weight
	Suspension Equipment		
3839146	Chalmers 46K severe service upgrade. Use with Chalmers 8xx-46 series suspensions. Separate suspension code required.	$525	30#
3839152	Chalmers 52K severe service upgrade. Use with Chalmers 8xx-52 series suspensions. Separate suspension code required.	$2,184	87#
	Suspension Miscellaneous		
3839046	Heavy duty barpin brackets for tandem Hendrickson beam rear suspensions.	$431	0#
	* Canadian logging trucks require heavy-duty barpin brackets when a D40-170 or D46-170 rear axle is specified with a Hendrickson beam rear suspension.

Front & Rear Axle Tires

Tube Type

Bridgestone Rear

4277071	Rear tires: Bridgestone L320 12R24 18PR. 48.6 in. diameter, all position. 22.5 in. SLR. Code is priced per pair of tires.	$1,095	176#

Michelin Rear

4211733	Rear tires: Michelin XZY 12R24 16PR. 48.1 in. diameter, all position. Includes tubes & flaps. 22.4 in. SLR. Code is priced per pair of tires. * Extra-wide rear mud flaps are required with Sisu wide track rear axles, or with 12R24 and 315/80R22.5 rear tires. Not available as an option for other configurations. * The tires selected must be ECE stamped when used on a Russian Compliant chassis. Add code 4880008 to ensure ECE compliance. * These off highway rear tires require a long lead-time that will significantly impact the schedule date of chassis. * This tire requires a wide track rear axle when used with a Hendrickson Primaax rear suspension.	$1,724	118#

Wheel Equipment

Wheel Treatments

5859012	Dual rear axle wheels: 4 wheels Dura-Bright Buffed. Dura-Bright outboard surface of outer dual or single aluminum wheels. * Dura bright on the inboard surface of tandem rear wheels requires Dura Bright on the outside of the wheels as well. * DuraBright wheel finish is not available for use on 88560, 83364, 82360, 98567, 82262, 98560, or 41362 wheels.	$755	0#
5859013	SING RR: DURA-BRIGHT INBD SURF OF INNER WHLS(2)-2DB*REQ WHLGRDS*USE W/5859011	$628	0#
5859014	Single front axle wheels Dura-Bright Buffed both outboard & inboard surfaces of aluminum wheels.	$376	0#
5859015	Dual rear axle wheels Dura-Bright Buffed both outboard & inboard surfaces of outboard dual or single aluminum wheels.	$802	0#
5859016	Dual rear axle wheels Dura-Bright Buffed inboard surface of inner dual aluminum wheels. * Dura bright on the inboard surface of tandem rear wheels requires Dura Bright on the outside of the wheels as well.	$667	0#
5859017	Dual rear axle wheels:Dura-Bright Buffed both inboard and outboard surface of inner dual aluminum wheels.	$751	0#
5859024	Tridem rear axle wheels Dura-Bright Buffed both outboard & inboard surfaces of outboard dual or single aluminum wheels.	$1,127	0#
5859025	2 pusher or tag wheels:Dura-Bright Buffed outboard surface of outboard wheels mounted same as rear axle. For use on 2 non-steerable lift axles.	$588	0#
5859027	Dual rear axle Dura-Bright Buffed wide base singles, outboard surface (quantity 4) -1DB.	$559	0#
5859028	Single rear axle Dura-Bright Buffed wide base singles, outboard surface (quantity 2) -1DB.	$253	0#
5859031	1 pusher: 2 wheels Dura-Bright Buffed. Dura-Bright outboard surface of outboard wheels mounted same as front axle. For use on 1 steerable or 1 non-steerable pusher axles w/ single wheel. * Wheel treatment for one pusher mounted same as front: Use with single tires on steerable axle (without 5800001) or on non-steerable axle with 5800000.	$253	0#
5859033	3 pushers: 3 wheels Dura-Bright Buffed. Dura-Bright outboard surface of outboard wheels mounted same as front axle. For use on 3 steerable or 3 non-steerable pusher axle w/ single wheel. * Wheel treatment for three pushers mounted same as front: 2-4 standard width on non-steerable axle or standard width on steerable axles.	$759	0#
5859034	1 tag: 2 wheels Dura-Bright Buffed. Dura-Bright outboard surface of outboard wheels mounted same as front axle. For use on 1 steerable or 1 non-steerable tag axles w/ single wheel. * Wheel treatment for one tag mounted same as front: 2-4 standard width non-steerable axle or standard width on steerable axle.	$253	0#
5859040	1 Non-steerable Dura-Bright Buffed inner wheels - Non-steerable (quantity 2) -1DB.	$253	0#
5859041	1 pusher: 2 wheels Dura-Bright Buffed. Dura-Bright surface of outboard wheels. For use on 1 non-steerable pusher axle w/ single or dual wheel. * Wheel treatment for one pusher mounted same as rear: Use with single tires on non-steerable axle (without 5800000), single tires on steerable axle with 5800001, or with dual tires.	$294	0#
5859042	2 pushers: 4 wheels Dura-Bright Buffed. Dura-Bright outboard surface of outboard wheels. For use 2 non-steerable pusher axle w/ single or dual wheel. * Wheel treatment for two pushers mounted same as rear: 2-4 wide based on non-steerable axle, 4-4 mounting on non-steerable axle, or wide based steerable axles.	$588	0#

Rails & Inserts

Rail Material

10.625 x 3.5 x 0.3125 Steel Frame

6054200	Frame Rails: 10-5/8 x 3-1/2 x 5/16 in. Steel to 284 in. Truck frame weight is 2.91 lb.-in. per pair of rails. Section modulus is 14.80, RBM is 1,776,000 in-lbs per rail. Frame rail availability may be restricted based upon application, axle/suspension capacity, fifth wheel setting, or component/dimensional specifications. The results of the engineering review may result in a change to the requested frame rail. If a change is required Kenworth Application Engineering will advise the dealer of the appropriate material specification for a substitute rail. * 10-5/8 inch rails are appropriate for axles rated at 52K or less. Both frame strength considerations and physical fit of the suspension with a 10-5/8 inch rail can be a problematic. * A T800 (72 or 86 inch sleeper) or T680/T880 (76 inch sleeper) with 10-5/8 single frame rail and wheelbase 242 or greater has adequate frame strength but may result in frame beaming and associated ride quality concerns. Alleviate this potential by increasing frame size or adding frame inserts. * Rear fifth wheel settings exceeding 36 inches ahead of bogie require an inserted frame, or larger frame material. * Tridem rear axles require a minimum rail of 10-3/4 with full insert, 10-11/16, or 11-5/8 inch material. * W900 models with 10-5/8 single frame rail and 72 or 86 inch sleeper and wheelbase 256 or greater has adequate frame strength but may result in frame beaming and associated ride quality concerns. Alleviate this potential by increasing frame size or adding frame inserts. * When specifying a lift axle this rail material in not sufficient without an insert. The minimum single rail size is 10-3/4 inch. * With front axle capacities over 14.6k this rail material in not sufficient without an insert. The minimum single rail size is 10-3/4 inch.	STD	0#
6054400	Frame Rails: 10-5/8 x 3-1/2 x 5/16 in. Steel to 285 in. to 336 in. Truck frame weight is 2.91 lb.-in. per pair of rails. Section modulus is 14.80, RBM is 1,776,000 in-lbs per rail. Frame rail availability may be restricted based upon application, axle/suspension capacity, fifth wheel setting, or component/dimensional specifications. The results of the engineering review may result in a change to the requested frame rail. If a change is required Kenworth Application Engineering will advise the dealer of the appropriate material specification for a substitute rail. * 10-5/8 inch rails are appropriate for axles rated at 52K or less. Both frame strength considerations and physical fit of the suspension with a 10-5/8 inch rail can be a problematic. * A T800 (72 or 86 inch sleeper) or T680/T880 (76 inch sleeper) with 10-5/8 single frame rail and wheelbase 242 or greater has adequate frame strength but may result in frame beaming and associated ride quality concerns. Alleviate this potential by increasing frame size or adding frame inserts. * Rear fifth wheel settings exceeding 36 inches ahead of bogie require an inserted frame, or larger frame material. * Tridem rear axles require a minimum rail of 10-3/4 with full insert, 10-11/16, or 11-5/8 inch material. * W900 models with 10-5/8 single frame rail and 72 or 86 inch sleeper and wheelbase 256 or greater has adequate frame strength but may result in frame beaming and associated ride quality concerns. The minimum single rail size is 10-3/4 inch. * With front axle capacities over 14.6k this rail material in not sufficient without an insert. The minimum single rail size is 10-3/4 inch.	$163	0#

Option	Description	Price	Weight

Rails & Inserts

Rail Material

10.625 x 3.5 x 0.3125 Steel Frame

6054600 Frame Rails: 10-5/8 x 3-1/2 x 5/16 in. Steel to 337 in. to 416 in. Truck frame weight is 2.91 lb.-in. per pair of rails. Section modulus is 14.80, RBM is 1,776,000 in-lbs per rail. Frame rail availability may be restricted based upon application, axle/suspension capacity, fifth wheel setting, or component/dimensional specifications. The results of the engineering review may result in a change to the requested frame rail. If a change is required Kenworth Application Engineering will advise the dealer of the appropriate material specification for a substitute rail. — $391 — 0#

* 10-5/8 inch rails are appropriate for axles rated at 52K or less. Both frame strength considerations and physical fit of the suspension with a 10-5/8 inch rail can be a problematic.
* A frame insert is required with 10-5/8 inch rails on a W900 model.
* A T800 (72 or 86 inch sleeper) or T680/T880 (76 inch sleeper) with 10-5/8 single frame rail and wheelbase 242 or greater has adequate frame strength but may result in frame beaming and associated ride quality concerns. Alleviate this potential by increasing frame size or adding frame inserts.
* Not available with W900S
* Rear fifth wheel settings exceeding 36 inches ahead of bogie require an inserted frame, or larger frame material.
* Tridem rear axles require a minimum rail of 10-3/4 with full insert, 10-11/16, or 11-5/8 inch material.
* W900 models with 10-5/8 single frame rail and 72 or 86 inch sleeper and wheelbase 256 or greater has adequate frame strength but may result in frame beaming and associated ride quality concerns. Alleviate this potential by increasing frame size or adding frame inserts.
* When specifying a lift axle this rail material in not sufficient without an insert. The minimum single rail size is 10-3/4 inch.
* With front axle capacities over 14.6k this rail material in not sufficient without an insert. The minimum single rail size is 10-3/4 inch.

6054602 Frame Rails: 10-5/8 x 3-1/2 x 5/16 in. Steel to 417 in. to 480 in. Truck frame weight is 2.91 lb.-in. per pair of rails. Section modulus is14.80, RBM is 1,776,000 in-lbs per rail. Frame rail availability may be restricted based upon application, axle/suspension capacity, fifth wheel setting, or component/dimensional specifications. The results of the engineering review may result in a change to the requested frame rail. If a change is required Kenworth Application Engineering will advise the dealer of the appropriate material specification for a substitute rail. — $708 — 0#

* 10-5/8 inch rails are appropriate for axles rated at 52K or less. Both frame strength considerations and physical fit of the suspension with a 10-5/8 inch rail can be a problematic.
* A T800 (72 or 86 inch sleeper) or T680/T880 (76 inch sleeper) with 10-5/8 single frame rail and wheelbase 242 or greater has adequate frame strength but may result in frame beaming and associated ride quality concerns. Alleviate this potential by increasing frame size or adding frame inserts.
* Full frame inserts are required on the T4 series chassis with 10-5/8 inch rails when overall rail length exceeds 416 inches. A lighter weight alternative is to use a 10-3/4 inch main rail.
* Rear fifth wheel settings exceeding 36 inches ahead of bogie require an inserted frame, or larger frame material.
* The overall length of this rail compromises the material strength when the parent rail is not accompanied by an insert.
* Tridem rear axles require a minimum rail of 10-3/4 with full insert, 10-11/16, or 11-5/8 inch material.
* W900 models with 10-5/8 single frame rail and 72 or 86 inch sleeper and wheelbase 256 or greater has adequate frame strength but may result in frame beaming and associated ride quality concerns. Alleviate this potential by increasing frame size or adding frame inserts.
* When specifying a lift axle this rail material in not sufficient without an insert. The minimum single rail size is 10-3/4 inch.
* With front axle capacities over 14.6k this rail material in not sufficient without an insert. The minimum single rail size is 10-3/4 inch.

Frame rail availability may be restricted based upon application, axle/suspension capacity, fifth wheel setting, or component/dimensional specifications. The results of the engineering review may result in a change to the requested frame rail. If a change is required Kenworth Application Engineering will advise the dealer of the appropriate material specification for a substitute rail. * 11-5/8 inch rail material is not for use with Airglide with 9 inch ride height in combination with any inserts. Also not available with a front engine PTO. This rail material can be used on the T440, but not the T470. * The 11-5/8 inch rail material is not for use on AeroCabs other than the C500 inch 38 inch AeroCab. Incompatible with cab/sleeper air suspension for cab heights lower than the C500. There is no option to delete the cab/sleeper suspension on AeroCabs. * When two inserts are used with 11-5/8 inch rails rear suspensions are limited to either Chalmers or Hendrickson beam style.	$1,316	0#

Option	Description	Price	Weight

Rails & Inserts

Rail Material

11.625 x 3.875 x 0.375 Steel Frame

6057680	Frame Rails: 11-5/8 x 3-7/8 x 3/8in. Steel 448in. to 480 in. Truck frame weight is 3.80 lb.-in. per pair of rails. Section modulus is 21.43, RBM is 2,572,000 in-lbs per rail. Frame rail availability may be restricted based upon application, axle/suspension capacity, fifth wheel setting, or component/dimensional specifications. The results of the engineering review may result in a change to the requested frame rail. If a change is required Kenworth Application Engineering will advise the dealer of the appropriate material specification for a substitute rail. * 11-5/8 inch rail material is not for use with Airglide with 9 inch ride height in combination with any inserts. Also not available with a front engine PTO. This rail material can be used on the T440, but not the T470. * The 11-5/8 inch rail material is not for use on AeroCabs other than the C500 inch 38 inch AeroCab. Incompatible with cab/sleeper air suspension for cab heights lower than the C500. There is no option to delete the cab/sleeper suspension on AeroCabs. * When two inserts are used with 11-5/8 inch rails rear suspensions are limited to either Chalmers or Hendrickson beam style.	$1,459	0#

Full Frame Inserts

9.875 x 2.875 x 0.25 Steel Insert

6141200	Full Steel Insert: for 10-5/8 in. or 10-3/4 in. Steel to 284 in. or 2nd insert for 11-5/8 in. steel frame. Adds 1,149,000 lb.-in. to main rail RBM. Truck insert weight is 2.05 lb.-in. per pair of rails. Full frame insert length is equal to wheelbase plus rear frame cutoff plus dimension forward of front axle by model: T660, T680, T800, T880 = 21.26 in.; C500B = bumper setting minus 0.79 in.; W900B = 5.27 in., W900L = 1.50 in., W900S = 3.27 in.; T440/T470 50 in. bumper setting = 21.26 in., T470 73 in. bumper setting = 72.3 in. * A partial insert located over bogie or full frame insert is required with Hendrickson rear suspensions with 60 inch axle spacing. * A partial insert located over bogie or full frame insert is required with Kenworth rear suspensions with 60 inch axle spacing. * Primary insert material for use with a 10-5/8 inch or 10-3/4 inch main rail.	$1,245	0#
6141400	Full Steel Insert: for 10-5/8 in. or 10-3/4 in. Steel 285 in. to 336 in. or 2nd insert for 11-5/8 in. steel frame. Adds 1,149,000 in-lb to main rail RBM. Truck insert weight is 2.05 lb.-in. per pair of rails. Full frame insert length is equal to wheelbase plus rear frame cutoff plus dimension forward of front axle by model: T660, T680, T800, T880 = 21.26 in.; C500B = bumper setting minus 0.79 in.; W900B = 5.27 in., W900L = 1.50 in., W900S = 3.27 in.; T440/T470 50 in. bumper setting = 21.26 in., T470 73 in. bumper setting = 72.3 in. * A partial insert located over bogie or full frame insert is required with Hendrickson rear suspensions with 60 inch axle spacing. * A partial insert located over bogie or full frame insert is required with Kenworth rear suspensions with 60 inch axle spacing. * Primary insert material for use with a 10-5/8 inch or 10-3/4 inch main rail.	$1,444	0#
6141600	Full Steel Insert: for 10-5/8 in. or 10-3/4 in. Steel 337 in. to 416 in. or 2nd insert for 11-5/8 in. steel frame. Adds 1,149,000 in-lb to main rail RBM. Truck insert weight is 2.05 lb.-in. per pair of rails. Full frame insert length is equal to wheelbase plus rear frame cutoff plus dimension forward of front axle by model: T660, T680, T800, T880 = 21.26 in.; C500B = bumper setting minus 0.79 in.; W900B = 5.27 in., W900L = 1.50 in., W900S = 3.27 in.; T440/T470 50 in. bumper setting = 21.26 in., T470 73 in. bumper setting = 72.3 in. * A partial insert located over bogie or full frame insert is required with Hendrickson rear suspensions with 60 inch axle spacing. * A partial insert located over bogie or full frame insert is required with Kenworth rear suspensions with 60 inch axle spacing. * Primary insert material for use with a 10-5/8 inch or 10-3/4 inch main rail.	$1,581	0#

Rails & Inserts

Full Frame Inserts

9.875 x 2.875 x 0.25 Steel Insert

6141615 Full Steel Insert: for 10-5/8 in. or 10-3/4 in. Steel 417 in. to 480 in. or 2nd insert for 11-5/8 in. steel frame. Adds 1,149,000 in-lb to main rail RBM. Truck insert weight is 2.05 lb-in per pair of rails. Full frame insert length is equal to wheelbase plus rear frame cutoff plus dimension forward of front axle by model: T660, T680, T800, T880 = 21.26 in.; C500B = bumper setting minus 0.79 in.; W900B = 5.27 in., W900L = 1.50 in., W900S = 3.27 in.; T440/T470 50 in. bumper setting = 21.26 in., T470 73 in. bumper setting = 72.3 in. — $1,695 — 0#

* A partial insert located over bogie or full frame insert is required with Hendrickson rear suspensions with 60 inch axle spacing.
* A partial insert located over bogie or full frame insert is required with Kenworth rear suspensions with 60 inch axle spacing.
* Primary insert material for use with a 10-5/8 inch or 10-3/4 inch main rail.

10.75 x 3.5 x 0.375 Steel Insert

6144615 Full Steel Insert: for 11-5/8 in. steel rail to 480 in. Adds 2,132,000 in-lb to main rail RBM. 120K PSI. 11-5/8 in. primary insert RBM 4,704,000 in-lbs, section modulus is 39.20. Full frame insert length is equal to wheelbase plus rear frame cutoff plus dimension forward of front axle by model: T800, T880 = 21.26 in.; C500B = bumper setting minus 0.79 in.; W900B = 5.27 in., W900L = 1.50 in., W900S = 3.27 in.; T440/T470 50 in. bumper setting = 21.26 in., T470 73 in. bumper setting = 72.3 in. — $2,615 — 0#

* A partial insert located over bogie or full frame insert is required with Hendrickson rear suspensions with 60 inch axle spacing.
* A partial insert located over bogie or full frame insert is required with Kenworth rear suspensions with 60 inch axle spacing.
* Primary insert material for use with a 11-5/8 inch main rail.

Partial Frame Inserts

Inserts for 10.625 or 10.75 Main Rail

6279310 Partial Steel Insert: 10-5/8 in. or 10-3/4 in. Steel to 10 ft or partial 2nd insert for 11-5/8 in. steel rail. — $958 — 227#

* A partial insert located over bogie or full frame insert is required with Hendrickson rear suspensions with 60 inch axle spacing.
* A partial insert located over bogie or full frame insert is required with Kenworth rear suspensions with 60 inch axle spacing.
* Can be used as a second insert for 11-5/8 inch rail with a 10-3/4 inch insert, or as a primary insert for 10-3/4 or 10-5/8 inch rails.
* If you have a partial frame insert you need a location code.
* Insufficient to cover the bogie area on Kenworth AG460 with 60 inch axle spacing, Kenworth AG690, or Hendrickson PRIMAAX with 72 inch axle spacing.
* The partial insert material measuring up to 10 feet is unlikely to span the required distance for use with pusher axles.

6289325 Partial Steel Insert: 10-5/8 in. or 10-3/4 in. main rail. Insert length is 10 - 25 ft. Adds 1,149,000 in-lb to main rail RBM. Insert weight is 2.05 lb.-in. per pair of rails. — $1,469 — 570#

* A partial insert located over bogie or full frame insert is required with Hendrickson rear suspensions with 60 inch axle spacing.
* A partial insert located over bogie or full frame insert is required with Kenworth rear suspensions with 60 inch axle spacing.
* Can be used as a second insert for 11-5/8 inch rail with a 10-3/4 inch insert, or as a primary insert for 10-3/4 or 10-5/8 inch rails.
* If you have a partial frame insert you need a location code.

Option	Description	Price	Weight

Rails & Inserts

Partial Frame Inserts

Inserts for 11.625 Main Rail

6289400 Partial Steel Insert: for 11-5/8in. steel rail to 10 ft. — $2,008 — 253#

* 10 ft partial frame insert for use with 11-5/8 inch parent rail. This option is too short to be used in under cab to over bogie or under cab to end of frame locations, with pusher axles, or on tridem rear axle chassis.
* If you have a partial frame insert you need a location code.
* Insufficient to cover the bogie area on Kenworth AG460 with 60 inch axle spacing, Kenworth AG690, or Hendrickson PRIMAAX with 72 inch axle spacing.
* The partial insert material measuring up to 10 feet is unlikely to span the required distance for use with pusher axles.

6289425 Partial Steel Insert: for 11-5/8 in. steel rail over 10 ft to 25 ft. — $2,963 — 630#

* If you have a partial frame insert you need a location code.
* Partial frame insert over 10 ft long for use with 11-5/8 inch parent rail.

Partial Frame Insert Location

6279000 Locate Partial Frame Inserts under cab to BOC. — $0 — 0#

* Partial inserts located under the back of cab, over bogie, or under cab to over bogie cannot be used be used in a full truck mixer application.
* Under cab insert location requires insert material code. Not for use on tractors which have a longer required coverage area.

6279001 Locate Partial Frame Inserts over bogie. — $0 — 0#

* Over bogie insert location requires insert material code. For use on tractors only. Insufficient to cover lift axle area.
* Partial inserts located under the back of cab, over bogie, or under cab to over bogie cannot be used be used in a full truck mixer application.

6279003 Locate Partial Frame Inserts under cab to over bogie. — $0 — 0#

* Any insert used with a pusher axle must be a partial located under the cab to over bogie or full frame insert.
* Partial inserts located under the back of cab, over bogie, or under cab to over bogie cannot be used be used in a full truck mixer application.
* Under cab to EOF location requires code for insert material as well.

6279005 Locate Partial Frame Inserts under cab to end-of-frame. — $0 — 0#

* Under cab to EOF location requires code for insert material as well.

Bumpers

Bumper Style

Contoured

6308660 Bumper: T440 contoured 3-piece, aluminum/fiberglass. Painted cab base color A. — $98 — -50#

* Contoured 3-piece painted bumper for use only on the T440.

Aluminum Channel

6309360 Bumper: 3-piece. Natural aluminum finish on ends, & a painted steel center section. For T470. Requires 73 in. bumper setting code. — $791 — -55#

* The 3-piece offset bumpers are for use only on the T470.

Option	Description	Price	Weight

Bumpers

Bumper Style

Steel Channel

6302460 Bumper: Tapered painted steel channel. Requires a bumper setting code. — STD — 0#

* Requires a code for a bumper setting in addition to the bumper style sales code.
* The W900L model with 82362/82365 front wheels and 445/65R22.5 tires may encounter tire rub when used with a steel channel bumper. The combination is not acceptable.
* This bumper is not for use on the T800W or T800 with extended frame rails.

6302461 Bumper: Tapered chrome steel channel. Requires a bumper setting code. — $673 — 5#

* Requires a code for a bumper setting in addition to the bumper style sales code.
* The W900L model with 82362/82365 front wheels and 445/65R22.5 tires may encounter tire rub when used with a steel channel bumper. The combination is not acceptable.
* This bumper is not for use on C500 twin steer, T800 with extended frame rails, T800W, the W900S, or on W900B/L with cast center mounted tow hook.

6309460 Bumper: For T470. 3-piece off-set. Painted steel. Requires 73 in. bumper setting code. — $332 — -15#

* The 3-piece offset bumpers are for use only on the T470.

Other Bumper Style

6309910 Delete bumper: Requires a bumper setting code. — ($310) — -94#

* Package for customer installed Braden winch is for use only with T470 hood with 50.5 inch bumper setting. The bumper must be deleted when the winch frame drill is requested.
* Special delivery requirements may be required when bumper deletion is requested. See shipping policy TA005.

Bumper Setting

6319050 50 in. Bumper setting. Requires a bumper code. — $0 — 0#

* The 50 inch bumper setting is applicable to the T800 with export engines, or the T440.

6319073 73 in. Bumper setting. Requires a bumper code. — $0 — 0#

* T470 with front engine PTO requires the 73 inch bumper setting.
* The 66 and 73 inch bumper settings for the T800 are applicable only to pre-2010 EPA platform engines using the short hood or 2010+ engine with straight split-fender hood with extended rails or front engine PTO provision.
* The 66 and 73 inch bumper settings are available in the T800SH only in a front engine PTO application.
* The 73" bumper setting on the T470 will receive the extended rails. A sales code is added to the order so that the dealer/customer is aware of what they are receiving.
* The extended front frame rail option is available only with the 73 inch bumper setting.

6319505 50.5in. Bumper setting. Requires a bumper code. — $0 — 0#

* The 50.5 inch bumper setting is exclusive to T470 model.

Bumper Equipment

6321005 Removable Front Tow Hooks: 2. — $261 — 15#

* If this chassis is being delivered to a body builder you may want to consider ordering tow pins to help facilitate undecking per TA005 Section 7.
* Requires a 48.5 inch bumper setting when used on the T800 model.
* This tow hook is NFPA compliant when specified on the T440, T470, or T800 models.

Option	Description	Price	Weight

Bumpers

Bumper Equipment

6324025	Front tow hook: Center mounted, cast. Requires iron front drive brackets. * Extra duty radiator support crossmember is standard with cast front tow hook option, without the sales code. The hook is not available on the W900S. * For T440 only available with 50 inch bumper setting. * For T470 only available with 50.5" bumper setting. * For the W900 models with export engines requesting a cast center mount tow hook with 12K front springs requires the use of steel front drive brackets. The upgraded drive bracket is standard with higher capacity springs or with Severe Service, no code required. * If this chassis is being delivered to a body builder you may want to consider ordering tow pins to help facilitate undecking per TA005 Section 7. * Iron front drive brackets are required when a cast center tow hook is specified. Iron drive brackets are included when front spring capacity is 16K or greater, with requests for Severe Service, or when the upgraded drive bracket code is specified. * Not for use with a front engine PTO configuration. * The center mounted front tow hook requires selection of steel front drive brackets (6390305) with C500 or iron front drive brackets (6390312) with T800/T880 except with a 16K or greater front spring rating or request for severe service. * The W900 is available with a cast center tow hook when a 31.5 or 35 inch bumper setting is specified. * This tow hook is NFPA compliant when specified on the T800 model. * W900L with front center mounted tow hook requires a Straight Steel Box Bummper. Use 6303360 or 6303428.	$248	28#
6482102	Customer installed Braden winch: includes frame drill. Braden winch installation will add 1153 lbs. to the chassis at 60 inches ahead of the front axle C/L. Use the 'Additional Payload' feature of Prospector's weight distribution workscreen to observe the effect of this additional weight on axle loads. (Enter 1153 lbs. at -60 from the front axle C/L.). * Package for customer installed Braden winch is for use only with T470 hood with 50.5 inch bumper setting. The bumper must be deleted when the winch frame drill is requested.	$178	-6#

Front Frame Miscellaneous

6390021	Iron shackle brackets. Code is not required with front springs greater than or equal to 16,000 lbs. * Iron shackle brackets are standard on W900L and C500 for all front suspension ratings. * Iron shackle brackets are standard with a spring capacity of 16K or greater , no code required. * The iron shackle bracket option is available with front spring capacities of 14.6K or less. * W900B chassis with an export engine requires iron shackle brackets. For springs rated under 16K sales code 6390021 must be used. Springs rated at 16K or greater include iron brackets without an additional sales code. * W900B with a 2007+ engine will be built with the iron shackle brackets in all configurations, no code required.	$122	11#
6390033	T470 W/ extended front frame rail. Must code for rail separately. * T4 series snowplows utilizing extended frame rails require a single parent rail of 10-11/16. The 10-5/8 or 10-3/4 inch rails can be used only when combined with an insert. * The 73" bumper setting on the T470 will receive the extended rails. A sales code is added to the order so that the dealer/customer is aware of what they are receiving. * The extended front frame rail option is available only with the 73 inch bumper setting.	$0	0#
6390103	Front mudflaps. * Not available on Aerodynamic models with split fender hood. Split Fender provides necessary coverage.	STD	0#

Option	Description	Price	Weight
	Front Frame Miscellaneous		
6390110	Mudflaps, Front: Extra wide for use w/ tires that are wide base singles.	$54	6#
	* Extra wide front mud flaps are for use with either wide base front tires or rubber fender extenders.		
	* Extra wide front mud flaps are not for use with sheet metal hood, on the C500 model, on the T800 twin steer, or T800 short hood configurations.		
6390304	Brackets, Front Drive: Aluminum up to 15,999 lbs.	STD	0#
	* Aluminum front drive bracket is not for use with front springs rated at 16k or greater..		
6390312	Brackets: Iron front spring drive. Included with front spring capacity of 16,000 lbs or greater; code not required.	$78	47#
	Mixer Equipment		
6340110	Side plate on chassis rail for mixer boost-a-load	$159	46#
	* Dual side of cab exhaust not available with mixer side plates.		
	* Minimum size for tanks located under the cab is 22 inch diameter x 60 gallons, or 24.5 inch diameter x 75 gallons, or 28.5 inch diameter x 105 gallons.		
	* Side plate reinforcement for rails can be used for C5 with 1430 sq inch radiator, T800, T880, and W900S. Requires code for mixer service. Required with coding for a Boost-a-load mixer. Not for use with LNG. Not for use on T800 twin steer chassis with 2007+ EPA engine.		
6350105	Front engine skid protector. C500B requires 56.5in. bumper setting.	$552	79#
	* Front engine protector skid plate option is available on C5 with 56.5" bumper setting, C5 twin steer with 92.5" bumper setting, and on T8 or T4 with steel bumper.		
	* Skid plate front engine protector is not available with a mixer packer or a T800 with Allison transmission.		
	* The front skid plate for the T440 can be used with a steel bumper or with an Allison transmission		
	* The front skid plate for the T470 can be used with an Allison transmission.		
	Battery Boxes		
	Parallel		
6403678	Battery box: Aluminum parallel BOC w/ ABS cover.	$142	22#
	* Parallel aluminum box with ABS cover used behind the cab. Aluminum material is not for use with Severe Service. Not for twin steer because they have a box between the steer axles. Not for 62 inch AeroCab on T660 with full chassis fairings due to fairing group and bracket spacing. Severe Service requires a steel battery box.		
	* This box style is incompatible with full length chassis fairings.		
	* When a pusher axle is specified the battery box behind the cab will always be located forward of the lift axle. Requests for the box to be located between the pusher and the forward drive axles will not be approved.		
6404207	Battery box: Steel parallel BOC w/ ABS cover.	$123	11#
	* Parallel steel battery box with ABS cover. Not for use C500 or T800 twin steer due to required box location between the steer axles. Not full length chassis fairings.		
	* This box style is incompatible with full length chassis fairings.		
	* When a pusher axle is specified the battery box behind the cab will always be located forward of the lift axle. Requests for the box to be located between the pusher and the forward drive axles will not be approved.		

Option	Description	Price	Weight

Battery Boxes

Parallel

6405002	Battery box: Aluminum parallel module BOC w/ step, aluminum diamond plate cover. Up to 2 air tanks may be mounted to bottom of box. Batteries will be oriented perpendicular to the frame rail in a single row. * Aluminum battery box material is not applicable to Severe Service requests. * Cantilever battery boxes are also known as COE style. The aluminum version of the boxes are not applicable to Severe Service. This box style wont fit behind full chassis fairings. Not for twin steers which have the battery box located between the steer axles. * The following right hand frame access steps may not be mounted next to under frame DPF/SCR: ladder steps, battery/tool box w/ steps, or steps on a 28.5" fuel tank or hydraulic tank. * When a pusher axle is specified the battery box behind the cab will always be located forward of the lift axle. Requests for the box to be located between the pusher and the forward drive axles will not be approved.	$264	44#
6405048	Battery box module: Short length aluminum parallel under cab, aluminum diamond plate cover w/ step. Up to 2 air tanks may mount to bottom of box. Batteries will be oriented perpendicular on rail. * Aluminum battery box material is not applicable to Severe Service requests. * Parallel integral step boxes are not for use on twin steers because they have a box between the steer axles. Aluminum boxes are not for use with severe service.	STD	0#
6405080	T8 parallel non-polished aluminum battery box module w/ integral step. Extended length for use w/ 2010 SCR style exhaust. Up to 2 air tanks may mount to bottom of box. Batteries will be oriented perpendicular on rail. * Aluminum battery box material is not applicable to Severe Service requests. * Dual AeroCab style exhaust requires that any battery box used in the LH under cab location be the extended length. This style includes an accommodation for the LH side of cab vertical tailpipe, when present. * Matching the cover lengths between battery box and DPF/SCR cover under the cab can be achieved using an extended length battery box. * T660/T680: Available only with split fender option.	$70	72#
6405102	Short length steel parallel battery box module under cab, aluminum integral step, diamond plate cover. Up to 2 air tanks may mount to bottom of box. Batteries will be oriented perpendicular on rail.	$36	53#
6405103	Steel parallel battery box module: BOC w/ aluminum diamond plate cover w/step. Up to 2 air tanks may be mounted to bottom of box. Batteries oriented perpendicular.	$334	92#
6405180	T8 parallel non-polished steel battery box module w/ integral step. Extended length for use w/ 2010 SCR style exhaust. Up to 2 air tanks may mount to bottom of box. Batteries will be oriented perpendicular on rail. * Dual AeroCab style exhaust requires that any battery box used in the LH under cab location be the extended length. This style includes an accommodation for the LH side of cab vertical tailpipe, when present. * Matching the cover lengths between battery box and DPF/SCR cover under the cab can be achieved using an extended length battery box. * Steel battery box for single steer axle chassis. No twin steer configurations.	$223	125#

Cantilever

6400636	Battery box cantilever aluminum BOC w/ fiberglass cover. * Cantilever battery boxes are also known as COE style. The aluminum version of the boxes are not applicable to Severe Service. This box style wont fit behind full chassis fairings. Not for twin steers which have the battery box located between the steer axles. * When a pusher axle is specified the battery box behind the cab will always be located forward of the lift axle. Requests for the box to be located between the pusher and the forward drive axles will not be approved.	$86	8#

Battery Boxes

Cantilever

Option	Description	Price	Weight
6401200	Battery box cantilever steel BOC w/ fiberglass cover.	$220	24#
	* Cantilever battery boxes, also known as COE style, wont fit behind full chassis fairings. Not for twin steers which have the battery box located between the steer axles.		
	* When a pusher axle is specified the battery box behind the cab will always be located forward of the lift axle. Requests for the box to be located between the pusher and the forward drive axles will not be approved.		
6401233	Steel cantilever battery box BOC w/ smooth aluminum cover. Vocational Style.	$468	39#
	* Battery box insulation not available for vocational battery boxes.		
	* This cantilever style box is labeled vocational and is 3 inches narrower than a regular cantilever style box. The batteries are positioned parallel to the frame rail with a maximum quantity of three. Jumpstart terminals or disconnect switches cannot be located on this box.		
	* When a pusher axle is specified the battery box behind the cab will always be located forward of the lift axle. Requests for the box to be located between the pusher and the forward drive axles will not be approved.		

Across or Between Rails BOC

6400500	Battery box: Aluminum between the rails BOC w/ FMCSR cover.	$748	11#
	* Battery box between the rails is not practical for most full truck applications.		
	* Between rails battery boxes are not for use on C500 or T800 twin steer chassis. These chassis utilize a battery box between the steer axles.		
	* Considerable wheelbase must be added to accommodate a between rails battery box when used with an auxiliary transmission. In many cases the solution is not preferable.		
	* The SPL350 and single shaft SPL250 drivelines cannot be used in combination with a battery box behind the cab located between the rails. A center bearing is required with SPL250 to maneuver beyond the box position.		
	* When a pusher axle is specified the battery box behind the cab will always be located forward of the lift axle. Requests for the box to be located between the pusher and the forward drive axles will not be approved.		
6400508	Battery box: Aluminum between the rails BOC w/ aluminum cover.	$460	-8#
	* Battery box between the rails is not practical for most full truck applications.		
	* Between rails battery boxes are not for use on C500 or T800 twin steer chassis. These chassis utilize a battery box between the steer axles.		
	* Considerable wheelbase must be added to accommodate a between rails battery box when used with an auxiliary transmission. In many cases the solution is not preferable.		
	* The SPL350 and single shaft SPL250 drivelines cannot be used in combination with a battery box behind the cab located between the rails. A center bearing is required with SPL250 to maneuver beyond the box position.		
	* When a pusher axle is specified the battery box behind the cab will always be located forward of the lift axle. Requests for the box to be located between the pusher and the forward drive axles will not be approved.		
6400631	Battery box: Temporary across the rails.	$142	-110#
	* The temporary battery box is for use on full trucks only, as the body builder would be responsible for locating the batteries. No tractors are allowed [complete or incomplete].		
	* When a pusher axle is specified the battery box behind the cab will always be located forward of the lift axle. Requests for the box to be located between the pusher and the forward drive axles will not be approved.

Battery Boxes

In-Cab

6405000	In-cab steel battery box: under rider seat or in stand alone box. Requires appropriate AGM battery code, which varies by model, and appropriate rider seat code be selected prior to entering the workscreen. Includes 1 battery disconnect switch. * 1.9 meter cabs with in cab battery box require Optima batteries. * An in cab battery box on T680 and T880 requires specific AGM batteries (1821271 or 1821275). * Dual exhaust not available in combination with Rear Engine PTO and an in-cab battery box. * In-cab battery box is not available with 52 inch or 76 inch sleepers. * In-cab battery box is not compatible with requests for Body Builder Battery Power Prewire (s/c 1901084). * Not available with 42 inch modular sleepers due to interference with HVAC lines. * On 1.9M cab, when lime green seat belt code 8496561 is selected in combination with in cab battery box, only the driver seat belt will be green. Rider's belt will be black. * Specific batteries (1825612, 1825623, 1821271 or 1821275) required for an in-cab battery box. * The in-cab battery box can be used with either a passenger side battery box style seat or with deletion of the passenger seat. * The in-cab battery box cannot be used with optional disconnect switches, box insulation, steel battery hold downs, or the Canadus battery energizer. * The in-cab battery box is incompatible with records holder on seat base, fire extinguisher mounted outboard, or trailer battery charge circuits.	$1,737	-9#

Battery Box Locations

6409901	Battery box location: LH Side. * This location is not available with an in-cab battery box.	$0	0#
6409902	Battery box location: RH Side. * This location is not available with an in-cab battery box.	$92	15#
6409903	Battery box location: BOC between the rails. * Battery disconnect switches located on the battery box end are not for use with full length chassis fairings or with a battery box located BOC between the rails. * This location is not available with an in-cab battery box.	$0	0#
6409906	In-Cab battery box location: Under rider seat. * 1.9 meter cabs with in cab battery box require Optima batteries. * An in cab battery box on T680 and T880 requires specific AGM batteries (1821271 or 1821275). * Dual exhaust not available in combination with Rear Engine PTO and an in-cab battery box. * In-cab battery box is not available with 52 inch or 76 inch sleepers. * Specific batteries (1825612, 1825623, 1821271 or 1821275) required for an in-cab battery box.	$0	0#
6409908	Battery box location: BOC across the rails. * This location is not available with an in-cab battery box.	$0	0#

Battery Box Equipment

6409136	Insulate battery box w/ acid-resistant & cross-linked polyolefin foam sheets. * Battery box insulation not available for vocational battery boxes. * The battery box required on Aerodynamic models is located LH under the cab and is not available with steel hold downs or battery box insulation.	$99	2#

Option	Description	Price	Weight

Center Frame Equipment

Frame Access

Grabhandles

6410010	Frame access grabhandle(s) LH mounted. Placement and quantity of grabhandles may vary due to FMCSR frame access requirements. * All orders must have complete frame access if any one of the three components is selected. Step and grab handle on the same side of the vehicle accompanied by deck plate. * Any changes to the rear cab or sleeper area that impact grab handle position or access must comply with FMCSR 399. * Code for a grab handle mounted to the back of cab or sleeper cannot be used in combination with other styles of frame mounted grab handles.	$50	0#
6410011	Frame access grabhandle(s) RH mounted. Placement and quantity of grabhandles may vary due to FMCSR frame access requirements. * All orders must have complete frame access if any one of the three components is selected. Step and grab handle on the same side of the vehicle accompanied by deck plate. * Any changes to the rear cab or sleeper area that impact grab handle position or access must comply with FMCSR 399.	$50	0#
6410028	Frame access grabhandle, additional LH mounted in side extender. Placement and quantity of grabhandles may vary due to FMCSR frame access requirements. * Requesting an additional grab handle requires a primary handle that can be mounted on the back of the cab, or if coded for side extenders the primary handle will be inside the extenders. * The additional grab handle located in the side extender is for use only with side extenders and a primary grab handle mounted to the back of cab or sleeper on the same side. Not available as the only handle option.	$86	2#
6410029	Frame access grabhandle, additional RH mounted on side extender. Placement and quantity of grabhandles may vary due to FMCSR frame access requirements. * The additional grab handle located in the side extender is for use only with side extenders and a primary grab handle mounted to the back of cab or sleeper on the same side. Not available as the only handle option.	$86	2#
6418508	Ladder step access handle LH mounted to battery box /toolbox. Placement and quantity of grabhandles may vary due to FMCSR frame access requirements. * All orders must have complete frame access if any one of the three components is selected. Step and grab handle on the same side of the vehicle accompanied by deck plate. * Any changes to the rear cab or sleeper area that impact grab handle position or access must comply with FMCSR 399. * Battery or toolbox frame access grab handle can be used only with an integral step box on the LH rail. * Code for a grab handle mounted to the back of cab or sleeper cannot be used in combination with other styles of frame mounted grab handles.	$221	8#
6418509	Ladder step access handle: RH mounted to battery box/toolbox. Placement and quantity of grabhandles may vary due to FMCSR frame access requirements. * All orders must have complete frame access if any one of the three components is selected. Step and grab handle on the same side of the vehicle accompanied by deck plate. * Any changes to the rear cab or sleeper area that impact grab handle position or access must comply with FMCSR 399. * Battery or toolbox frame access grab handle can be used only with an integral step box on the RH rail.	$221	8#

Option	Description	Price	Weight

Center Frame Equipment

Frame Access

Grabhandles

6418510	Ladder step access handle: LH mounted to frame step. Narrate location. Placement and quantity of grabhandles may vary due to FMCSR frame access requirements. * All orders must have complete frame access if any one of the three components is selected. Step and grab handle on the same side of the vehicle accompanied by deck plate. * Any changes to the rear cab or sleeper area that impact grab handle position or access must comply with FMCSR 399. * Code for a grab handle mounted to the back of cab or sleeper cannot be used in combination with other styles of frame mounted grab handles. * When using the grab handle mounted to the ladder step you must also code for a ladder step on the same side of the vehicle.	$177	8#
6418512	Ladder step access handle: RH mounted to frame step. Narrate location. Placement and quantity of grabhandles may vary due to FMCSR frame access requirements. * All orders must have complete frame access if any one of the three components is selected. Step and grab handle on the same side of the vehicle accompanied by deck plate. * Any changes to the rear cab or sleeper area that impact grab handle position or access must comply with FMCSR 399. * Ladder step frame access grab handle can be used only with a ladder step on the RH rail.	$177	8#

Deckplate

6414002	Short aluminum frame access deck plate, 24 in. unless only 12 in. fits.	$108	10#
6414003	Medium aluminum frame access deck plate, 36 in.	$191	15#
6414006	Full aluminum frame access deck plate. Provides up to 72 in. of deck plate filling the space from hoses to fifth wheel.	$273	24#

Steps

6417007	Frame access steps: 2 ladder-type, RH mount. Available when rear of tank extends less than 24 in. behind rear of cab, sleeper, or side extender. * Frame mounted ladder steps cannot be used in combination with wheel to wheel full chassis fairings on the same side. * Ladder style frame access steps cannot be used with full length chassis fairings. Not for use with extended steps for frame access mounted to a tank under cab. Not T8 non-sleeper chassis with 22 x 120 gal tank RH under or 24 x 135 or 24 x 150 gal RH under as the step will be located too far behind the cab to make the grab handle accessible. * The following right hand frame access steps may not be mounted next to under frame DPF/SCR: ladder steps, battery/tool box w/ steps, or steps on a 28.5" fuel tank or hydraulic tank. * Use of a tank larger than 120 gallons under 38 inch AeroCab or 42 inch modular sleeper will not permit the use of ladder style frame access steps. The step position will be too far from the grab handle on the back of the sleeper. * Use of a tank larger than 135 gallons under 62 inch AeroCab sleeper will not permit the use of ladder style frame access steps. The step position will be too far from the grab handle on the back of the sleeper.	$139	15#
6417009	Frame access steps: 2 for fuel/hydraulic tank BOC, RH mount. Available when rear of tank under extends more than 14 in. behind rear of cab, sleeper, or side extender. For tanks located totally behind a cab or sleeper the front of the tank must be within 14 in. from the rear of cab, sleeper, or side extender. * Tank mounted frame access steps RH behind the cab require that a tank be selected in the same location. * The following right hand frame access steps may not be mounted next to under frame DPF/SCR: ladder steps, battery/tool box w/ steps, or steps on a 28.5" fuel tank or hydraulic tank. * This component is not available with full length chassis fairings due to interference issues.	$153	6#

Option	Description	Price	Weight

Center Frame Equipment

Frame Access

Steps

6418006	Frame access steps: 2 ladder-type, LH mount. Available when rear of tank extends less than 24 in. behind rear of cab, sleeper, or side extender. * Frame mounted ladder steps cannot be used in combination with wheel to wheel full chassis fairings on the same side. * Ladder style frame access steps cannot be used with full length chassis fairings. Not for use with extended steps for frame access mounted to a tank under cab. Not T8 non-sleeper chassis with 22 x 120 gal tank RH under or 24 x 135 or 24 x 150 gal RH under as the step will be located too far behind the cab to make the grab handle accessible. * Use of a tank larger than 120 gallons under 38 inch AeroCab or 42 inch modular sleeper will not permit the use of ladder style frame access steps. The step position will be too far from the grab handle on the back of the sleeper. * Use of a tank larger than 135 gallons under 62 inch AeroCab sleeper will not permit the use of ladder style frame access steps. The step position will be too far from the grab handle on the back of the sleeper. * When using the grab handle mounted to the ladder step you must also code for a ladder step on the same side of the vehicle.	$139	15#
6418008	Frame access steps: 2 for fuel/hydraulic tank BOC, LH mount. Available when rear of tank under extends more than 14 in. behind rear of cab, sleeper, or side extender. For tanks located totally behind a cab or sleeper the front of the tank must be within 14 in. from the rear of cab, sleeper, or side extender. * Tank mounted frame access steps LH behind the cab require that a tank be selected in the same location. * This component is not available with full length chassis fairings due to interference issues.	$153	6#
6418020	Extended frame access step: LH mounted, 2 ladder-type steps. Available when rear of tank extends less than 24 in. behind rear of cab, sleeper, or side extender. * Frame mounted ladder steps cannot be used in combination with wheel to wheel full chassis fairings on the same side. * Use of a tank larger than 120 gallons under 38 inch AeroCab or 42 inch modular sleeper will not permit the use of ladder style frame access steps. The step position will be too far from the grab handle on the back of the sleeper. * Use of a tank larger than 135 gallons under 62 inch AeroCab sleeper will not permit the use of ladder style frame access steps. The step position will be too far from the grab handle on the back of the sleeper. * When using the grab handle mounted to the ladder step you must also code for a ladder step on the same side of the vehicle.	$349	28#
6418021	Extended frame access steps: RH mounted, 2 ladder-type steps. Available when rear of tank extends less than 24 in. behind rear of cab, sleeper, or side extender. * Frame mounted ladder steps cannot be used in combination with wheel to wheel full chassis fairings on the same side. * Ladder style frame access steps cannot be used with full length chassis fairings. Not for use with extended steps for frame access mounted to a tank under cab. Not T8 non-sleeper chassis with 22 x 120 gal tank RH under or 24 x 135 or 24 x 150 gal RH under as the step will be located too far behind the cab to make the grab handle accessible. * Use of a tank larger than 120 gallons under 38 inch AeroCab or 42 inch modular sleeper will not permit the use of ladder style frame access steps. The step position will be too far from the grab handle on the back of the sleeper. * Use of a tank larger than 135 gallons under 62 inch AeroCab sleeper will not permit the use of ladder style frame access steps. The step position will be too far from the grab handle on the back of the sleeper. * When using the grab handle mounted to the ladder step you must also code for a ladder step on the same side of the vehicle.	$349	28#

Option	Description	Price	Weight
	Center Frame Equipment		
	Box Step Options		
6451072	Battery box module step: Raised 3 in. aluminum under or BOC. * Requests for raised step options are not guaranteed to be approved. Engineering will evaluate the feasibility of this request on an individual basis. * This request will relocate air tanks from the bottom of the box to an alternate location. This is a deviation from standard installation practices. Communicate any clear frame requirements.	$17	0#
6451082	Module battery box: Raised 2 in. for box under cab. Not for W900L.	$35	0#
	Toolboxes		
6473637	Aluminum parallel toolbox: BOC w/ABS cover w/o step, w/o lock. Up to 2 air tanks may be mounted to bottom of box.	$1,879	90#
6475201	Short length aluminum toolbox module: Under cab, aluminum diamond plate cover w/step & lock. Up to 2 air tanks may be mounted to bottom of box. * A toolbox located under the cab is not available on twin steer chassis.	$703	108#
6475204	2nd Short length aluminum toolbox module: Under cab, aluminum diamond plate cover w/step & lock. Up to 2 air tanks may be mounted to bottom of box. * A second toolbox located under the cab is available only with a request for a companion toolbox on the opposite side of the chassis. * A toolbox located under the cab is not available on twin steer chassis.	$703	108#
6475335	Short length steel toolbox module: Under, aluminum diamond plate cover w/step & lock. Up to 2 air tanks may be mounted to bottom of box. * A toolbox located under the cab is not available on twin steer chassis.	$676	149#
6475349	Short length steel toolbox module: Under cab, step, w/o hinged cover, w/o lock. Up to 2 air tanks may be located on the bottom. hinged cover, w/o lock. Up to 2 air tanks may be mounted to bottom of box. * A toolbox located under the cab is not available on twin steer chassis.	$635	147#
6475638	Short length aluminum parallel toolbox module: BOC, aluminum diamond plate cover w/step & lock. Up to 2 air tanks may be mounted to bottom of box. * The following right hand frame access steps may not be mounted next to under frame DPF/SCR: ladder steps, battery/tool box w/ steps, or steps on a 28.5" fuel tank or hydraulic tank.	$760	108#
	Toolbox Locations		
6479901	Toolbox location: LH side.	$0	0#
6479902	Toolbox location: RH side.	$0	0#
6479905	Second toolbox location: LH side.	$0	0#
6479915	Second toolbox location: RH side.	$0	0#

Option	Description	Price	Weight
	DPF-SCR Covers		
6451090	T470,C5, T6, T8 non-polished DPF/SCR or CNG cover diamond plate w/ step. For use w/ 2010 or later exhaust systems. For T8, use extended length non-polished battery box on opposite rail to match the length of under cab components. End plates will be painted standard black frame color. * Material mismatch side to side under the cab is undesirable. A polished battery box cover and non-polished DPF/SCR cover is not allowed. * This new generation of DPF covers support SCR on the chassis as well. The cover has a new length, 51 inches for W900 models, and 42" for all other models. The cover matches the battery box length for 'extended' length battery boxes. AeroCab length boxes are not for use with 2010+ engines. * Under cab fairings are not compatible with the DPF/SCR step cover assembly.	STD	0#
6451094	T470, C5, T6, T8 polished DPF/SCR or CNG cover with step. For use w/ 2010 or later exhaust systems. For T8, use extended length polished battery box on opposite rail to match the length of under cab components. * Material mismatch side to side under the cab is undesirable. A non-polished battery box cover and polished DPF/SCR cover is not allowed. * This new generation of DPF covers support SCR on the chassis as well. The cover has a new length, 51 inches for W900 models, and 42" for all other models. The cover matches the battery box length for 'extended' length battery boxes. AeroCab length boxes are not for use with 2010+ engines. * Under cab fairings are not compatible with the DPF/SCR step cover assembly.	$398	0#
	Frame Crossmembers & Upgrades		
6390002	Two aluminum intermediate crossmembers with heavy-duty aluminum gussets. Includes one forward and one rear intermediate crossmember. * This is the standard installation with severe service kits, no code required. * Upgrading to 3-hole gussets on intermediate crossmembers is recommended for vehicles operating in Canada with GCWs exceeding 120K.	$128	19#
6421050	Steel intermediate frame crossmembers & gussets. Does not include suspension crossmembers.	$237	44#
6490012	Two steel intermediate crossmembers with heavy-duty aluminum gussets. Includes one forward and one rear intermediate crossmember.	$245	52#
6490018	Steel forward intermediate crossmember: One with heavy-duty aluminum gussets, replacing standard. * This option upgrades to material or gusset style it does not supply an additional crossmember.	$122	17#
6490028	Aluminum rear intermediate crossmember: One with heavy-duty aluminum gussets, replacing standard. * Severe Service packages include upgrading the crossmembers from the standard 2-hole to 3-hole gussets. There is no need to use an additional code to get this upgrade. * This option upgrades to material or gusset style it does not supply an additional crossmember.	$64	9#
6490033	Aluminum forward intermediate crossmember: One additional with standard-duty aluminum gussets.	$198	29#
6490034	Aluminum rear intermediate crossmember: One additional with standard-duty aluminum gussets. * In most cases a cutoff of at least 60 inches is required to locate an additional rear intermediate crossmember with tandem rear axles. * Tandem axles with cutoff exceeding 65 inches, or single rear axles with cutoff exceeding 55 inches can add a rear intermediate crossmember.	$198	29#
6490086	Steel forward intermediate crossmember: One additional with standard-duty steel gussets.	$257	60#
6490088	Steel rear intermediate crossmember: One additional with standard-duty steel gussets. * Additional rear intermediate crossmember for use with tandem rear axle chassis with cutoff below 66 inches, or on single rear axle chassis with cutoff below 56 inches. Chassis with cutoff specified beyond the listed dimension will have a rear intermediate crossmember standard in most cases.	$257	60#

Option	Description	Price	Weight
	Frame Crossmembers & Upgrades		
6490089	Steel forward intermediate crossmember: One additional with heavy-duty aluminum gussets.	$316	81#
6490090	Aluminum forward intermediate crossmember: One additional with heavy-duty aluminum gussets.	$279	38#
6490091	Aluminum rear intermediate crossmember: One additional with heavy-duty aluminum gussets.	$279	38#
6490092	Aluminum forward intermediate crossmember: One with heavy-duty aluminum gussets, replacing standard. * Severe Service packages include upgrading the crossmembers from the standard 2-hole to 3-hole gussets. There is no need to use an additional code to get this upgrade. * This option upgrades to material or gusset style it does not supply an additional crossmember.	$64	9#
6490095	Steel rear intermediate crossmember: One with heavy-duty aluminum gussets, replacing standard. * This option upgrades to material or gusset style it does not supply an additional crossmember.	$122	17#
6490120	Invert rear intermediate crossmember. A separate sales code is required for one of the following: an additional crossmember; steel crossmember; and if crossmember is not standard aluminum gussets on non-severe service. * Rear intermediate crossmember requirement is suspension/cutoff dependent. If rear intermediate crossmember is not required this code will be deleted from order unless an additional rear intermediate crossmember is requested. * The option to invert the rear intermediate crossmembers requires that you upgrade from the standard 2-hole gussets to 3-hole gussets when Severe Service is not requested. * With double inserts requires the use of a steel crossmember.	$0	0#
6490416	Heavy-duty rear cab supports: W/steel crossmembers & aluminum gussets. * Heavy-duty rear cab support is not compatible with an air cab suspension. * The Severe Service kit on T800 models requires a heavy-duty rear cab support crossmember and reinforced cab sills.	$97	26#
6490440	Heavy-duty BOC crossmember assembly. * The heavy-duty back of cab crossmember assembly is restricted from use with front drive axles, transfer cases, auxiliary transmissions, and with a front engine PTO. * The heavy-duty crossmember assembly is required in the following conditions except when a front drive axle, transfer case, auxiliary transmission, front engine PTO, or T800SH with a rear engine PTO are specified: T800 logger with wheelbases in excess 259 inches, T800 dump truck with wheelbases in excess of 219 inches, W900 dump truck with wheelbases in excess of 239 inches, and for W900S or T800 mixer chassis.	$156	23#
	Center Frame Clear Space		
6491011	One clear frame space area without custom frame layout. Use with first clear frame space area code or customer-installed APU code when not using a custom frame layout code.	$306	0#
6491012	Two clear frame space areas without custom frame layout. Use with first and second clear frame space area codes or customer-installed APU code when not using a custom frame layout code.	$612	0#
	First Request Area		
6497101	First - LH outside rail only. Clear frame space area. Does not include fasteners or piping. Requires a supplemental length and location code. The actual chassis layout will be determined at time of engineering.	$0	0#
6497102	First - RH outside rail only. Clear frame space area. Does not include fasteners or piping. Requires a supplemental length and location code. The actual chassis layout will be determined at time of engineering.	$0	0#

6497204	Directly behind the battery box. First clear frame space location.	$0	0#
6497205	Directly behind the DPF/SCR box. First clear frame space location.	$0	0#
6497206	Directly behind the toolbox or temporary cab entry step for use with natural gas engines. First clear frame space location.	$0	0#
6497207	Directly forward of the rear suspension/quarter fender. First clear frame space location.	$0	0#
6497209	Directly behind the under cab component. First clear frame space location.	$0	0#
6497210	Directly behind BOC1 fuel/hydraulic tank or box. First clear frame space location.	$0	0#
6497211	Directly behind BOC2 fuel/hydraulic tank or box. First clear frame space location.	$0	0#

Second Request Area

6497109	Second - LH outside rail only. Clear frame space area. Does not include BOC crossmember, fasteners or piping. Requires a supplemental length and location code. The actual chassis layout will be determined at time of engineering.	$0	0#

Option	Description	Price	Weight

Center Frame Clear Space

Second Request Area

6497110	Second - RH outside rail only. Clear frame space area. Does not include BOC crossmember, fasteners or piping. Requires a supplemental length and location code. The actual chassis layout will be determined at time of engineering.	$0	0#
6497111	Second - LH below rail only. Clear frame space area. Does not include BOC crossmember, fasteners or piping. Requires a supplemental length and location code. Sales tool graphics do not depict interference between requested location and other frame-mounted components. The actual chassis layout will be determined at time of engineering.	$0	0#
6497112	Second - RH below rail only. Clear frame space area. Does not include BOC crossmember, fasteners or piping. Requires a supplemental length and location code. Sales tool graphics do not depict interference between requested location and other frame-mounted components. The actual chassis layout will be determined at time of engineering.	$0	0#
6497113	Second - LH outside and LH below rail only. Clear frame space area. Does not include BOC crossmember, fasteners or piping. Requires a supplemental length and location code. Sales tool graphics do not depict interference between requested location and other frame-mounted components. The actual chassis layout will be determined at time of engineering.	$0	0#
6497114	Second - RH outside and RH below rail only. Clear frame space area. Does not include BOC crossmember, fasteners or piping. Requires a supplemental length and location code. Sales tool graphics do not depict interference between requested location and other frame-mounted components. The actual chassis layout will be determined at time of engineering.	$0	0#
6497115	Second - between rails only. Clear frame space area. Does not include BOC crossmember, fasteners or piping. Requires a supplemental length and location code. Sales tool graphics do not depict interference between requested location and other frame-mounted components. The actual chassis layout will be determined at time of engineering.	$0	0#
6497116	Second - between and below rails only. Clear frame space area. Does not include BOC crossmember, fasteners or piping. Requires a supplemental length and location code. Sales tool graphics do not depict interference between requested location and other frame-mounted components. The actual chassis layout will be determined at time of engineering.	$0	0#

Second Request Length

6497510	Second - 10 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497512	Second - 12 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497514	Second - 14 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497516	Second - 16 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497518	Second - 18 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497520	Second - 20 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497522	Second - 22 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497524	Second - 24 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497526	Second - 26 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#

Option	Description	Price	Weight

Center Frame Clear Space

Second Request Length

6497528	Second - 28 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497530	Second - 30 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497532	Second - 32 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497534	Second - 34 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497536	Second - 36 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497538	Second - 38 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497540	Second - 40 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497541	Second - 41 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497550	Second - 50 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#
6497560	Second - 60 in. clear frame space length. The impact to other frame-mounted components will be determined at time of engineering.	$0	0#

Second Request Location

6497230	Directly behind the under fuel/hydraulic tank. Second clear frame space location.	$0	0#
6497231	Directly behind the BOC fuel/hydraulic tank. Second clear frame space location.	$0	0#
6497232	Directly forward of the rearmost fuel/hydraulic tank. Second clear frame space location.	$0	0#
6497233	Directly behind DEF tank. Second clear frame space location.	$0	0#
6497234	Directly behind the battery box. Second clear frame space location.	$0	0#
6497235	Directly behind the DPF/SCR box. Second clear frame space location.	$0	0#
6497236	Directly behind the toolbox or temporary cab entry step for use with natural gas engines. Second clear frame space location.	$0	0#
6497237	Directly forward of the rear suspension/quarter fender. Second clear frame space location.	$0	0#
6497239	Directly behind the under cab component. Second clear frame space location.	$0	0#
6497240	Directly behind BOC1 fuel/hydraulic tank or box. Second clear frame space location.	$0	0#
6497241	Directly behind BOC2 fuel/hydraulic tank or box. Second clear frame space location.	$0	0#

Miscellaneous Center Frame Equipment

6390501	Steel underbell housing crossmember.	$23	22#

Option	Description	Price	Weight
	Miscellaneous Center Frame Equipment		
6397001	Huck bolts throughout frame, where possible. * Export chassis require huckbolts in the frame. * Huckbolts throughout the frame, where possible. May not include fasteners in the suspension crossmembers.This code is not for use on W900S, which is standard with huckbolts throughout frame where ever possible [6397005].	$244	0#
6679904	Fifth wheel setting is outside standard range. Required when fifth wheel setting is more than 30 in. from bogie. * Fifth wheels positioned with a rear or fixed setting more than 30 inches from bogie are subject to an additional charge. This includes factory installed fifth wheels, angles or drillings for aftermarket fifth wheels.	$612	0#
	Body Builder Requirements		
6390091	Frame layout picture to dealer prior to build date. Information only, no changes. This provides basic frame layout illustration in a PDF file. Adobe Reader or other software capable of viewing PDF files is required on your computer. A copy of the frame layout can be obtained once the engineering work has been completed. This drawing will help the body builder define clearance requirements for the chassis. * A copy of the frame layout can be obtained once the engineering work has been completed. This drawing will help the body builder define clearance requirements for the chassis.	$612	0#
6390097	DXF frame layout to dealer prior to build date. Information only, no changes. This provides a frame layout in a .DXF format data file suitable for use w/ many CAD programs. * A copy of the frame layout can be obtained once the engineering work has been completed. This drawing will help the body builder define clearance requirements for the chassis. * With this option an electronic copy of the chassis frame layout will be forwarded to the dealership. The data is not viewable without the use of CAD oriented software. There is another option to have a paper copy of the chassis dimensions faxed to the dealership.	$1,225	0#
6391201	Custom Frame Layout: one chassis	$1,380	0#
6391202	Custom Frame Layout: two chassis	$690	0#
6391203	Custom Frame Layout: 3-4 chassis	$375	0#
6391205	Custom Frame Layout: 5-9 chassis	$200	0#
6391210	Custom Frame Layout: 10-24 chassis	$100	0#
6391225	Custom Frame Layout: 25-49 chassis	$40	0#
6391250	Custom Frame Layout: 50 or more chassis	$30	0#
6670120	C-Channel or I-Beam is Supplied By Body Builder and adds 1 to 999,999 lbs. RBM. * Body builders must frequently add sub-frame to meet rail RBM requirements with crane/cherry picker bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis.	$0	0#
6670121	C-Channel or I-Beam is Supplied By Body Builder and adds minimum 1MIL lbs. RBM. * Body builders must frequently add sub-frame to meet rail RBM requirements in services of oil field rig up or with oil field well service bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis. * Body builders must frequently add sub-frame to meet rail RBM requirements with crane/cherry picker bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis.	$0	0#

Body Builder Requirements

Option	Description	Price	Weight
6670122	C-Channel or I-Beam is Supplied By Body Builder and adds minimum 2MIL lbs. RBM. * Body builders must frequently add sub-frame to meet rail RBM requirements in services of oil field rig up or with oil field well service bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis. * Body builders must frequently add sub-frame to meet rail RBM requirements with crane/cherry picker bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis.	$0	0#
6670123	C-Channel or I-Beam is Supplied By Body Builder and adds minimum 3MIL lbs. RBM. * Body builders must frequently add sub-frame to meet rail RBM requirements in services of oil field rig up or with oil field well service bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis. * Body builders must frequently add sub-frame to meet rail RBM requirements with crane/cherry picker bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis.	$0	0#
6670124	C-Channel or I-Beam is Supplied By Body Builder and adds minimum 4MIL lbs. RBM. * Body builders must frequently add sub-frame to meet rail RBM requirements in services of oil field rig up or with oil field well service bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis. * Body builders must frequently add sub-frame to meet rail RBM requirements with crane/cherry picker bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis.	$0	0#
6670125	C-Channel or I-Beam is Supplied By Body Builder and adds minimum 5MIL lbs. RBM. * Body builders must frequently add sub-frame to meet rail RBM requirements in services of oil field rig up or with oil field well service bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis. * Body builders must frequently add sub-frame to meet rail RBM requirements with crane/cherry picker bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis.	$0	0#
6670440	Bodybuilder to install approved crossmember w/in 18 in. BOC prior to unit going into service. Specifications available from applications tech support.	$0	0#
6679850	Dealer acknowledges self loading crane or boom will be located behind the cab. * Use code 6679850 or 6679852 to describe the location of the crane or boom for purpose of frame strength analysis.	$0	0#
6679852	Dealer acknowledges self loading crane or boom will be located at the end-of-frame. * Use code 6679850 or 6679852 to describe the location of the crane or boom for purpose of frame strength analysis.	$0	0#
6679860	Final end-of-frame cut-off dimension will be modified to less than or equal to 65 inches. * Final cut-off dimension is used to assist in the evaluation of frame strength when and if the final end of frame may be reduced by the body builder for body types of end dump, super dump with flying tag, transfer dump, roll-on/roll-off, roll back flatbeds, or cotton modules. Required if cutoff exceeds 65 inches in these vocations.	$0	0#
6679862	Final end-of-frame cut-off dimension will be modified to 66 in. to 74 in. * Final cut-off dimension is used to assist in the evaluation of frame strength when and if the final end of frame may be reduced by the body builder for body types of end dump, super dump with flying tag, transfer dump, roll-on/roll-off, roll back flatbeds, or cotton modules. Required if cutoff exceeds 65 inches in these vocations.	$0	0#

Option	Description	Price	Weight
	Body Builder Requirements		
6679864	Final end-of-frame cut-off dimension will be modified to greater than or equal to 75 in. * Final cut-off dimension is used to assist in the evaluation of frame strength when and if the final end of frame may be reduced by the body builder for body types of end dump, super dump with flying tag, transfer dump, roll-on/roll-off, roll back flatbeds, or cotton modules. Required if cutoff exceeds 65 inches in these vocations.	$0	0#
6679901	Hydraulic end of tank is difficult to fill.	$0	0#
6679914	Any changes to rear cab/sleeper area must comply w/FMCSR 399.	$0	0#
6679915	Customer-installed bulkhead and/or headache rack.	$0	0#
6679995	Customer will install structural end-of-frame crossmember before vehicle is placed in service. * Warning for use when square end of frame without a crossmember is utilized with rear suspension configurations that require an end of frame crossmember. Provides dealer acknowledgement that the final-stage manufacturer must install the crossmember before placing the vehicle into service. * With cutoff 60" or less customer or body builder must install structural end of frame crossmember with Chalmers or Hendrickson beam rear suspensions. Use code 6679995 for full trucks when the crossmember will be installed by the body builder.	$0	0#
6790003	Special frame drill: dealer to provide drawing with dimensions and revision level. Acceptable hole diameters range from 10.2 mm to 40.4 mm. Preferred file format is .pdf. Not for use for rear suspension, fifth wheel or other published frame drilling code. Does not replace clear frame space requests or custom frame layout.	$1,225	0#
	Fifth Wheels		
	Holland Fixed Fifth Wheels		
6541104	Fifth Wheel: Fixed, Holland FW31Y600XL00 6.0 in. height. No lube, outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accomodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,813	356#
6541232	Fifth Wheel: Fixed, Holland FW17Y700XL00 7.12 in. height. Outboard mounting angles, 50K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,313	378#
6541234	Fifth Wheel: Fixed, Holland FW17Y800XL00 8.12 in. height. Outboard mounting angles, 50K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,311	383#
6541236	Fifth Wheel: Fixed, Holland FW17Y900XL00 9.12 in. height. Outboard mounting angles, 50K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,333	388#
6541272	Fifth Wheel: Fixed, Holland FW17Z600XL00 5.81 in. height. Outboard mounting angles, 50K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Aluminum mounting plate not available with integrated plate mount fifth wheels.	$1,184	333#
6541273	Fifth Wheel: Fixed, Holland FW17Z700XL00 6.81 in. height. Outboard mounting angles, 50K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Aluminum mounting plate not available with integrated plate mount fifth wheels.	$1,181	341#
6541275	Fifth Wheel: Fixed, Holland FW17Z800XL00 7.81 in. height. Outboard mounting angles, 50K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Aluminum mounting plate not available with integrated plate mount fifth wheels.	$1,179	351#

Option	Description	Price	Weight

Fifth Wheels

Holland Fixed Fifth Wheels

6541276	Fifth Wheel: Fixed, Holland FW17Z900XL00 8.81 in. height. Outboard mounting angles, 50K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Aluminum mounting plate not available with integrated plate mount fifth wheels.	$1,180	343#
6541548	Fifth Wheel: Fixed, Holland FW35-S10268-XL 8.5 in. Inboard w/ .5in. angles 55K. Accomodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,950	381#
6541551	Fifth Wheel: Fixed, Holland FW35-07690-1 9.5 in. Outboard mounting angles, heavy-duty mounting plate, 55K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$2,094	351#
6541570	Fifth Wheel: Fixed, Holland FW35-7727XL 11.76 in. height and Kompensator mechanism. Outboard mounting angles, 55K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$4,092	721#
6541572	Fifth Wheel: Fixed, Holland FW35-7727XL19 11.76 in. height. Kompensator with lockout feature. Outboard mounting angles, 55K vertical rating, LH release. Accomodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$4,276	736#
6541573	Fifth Wheel: Fixed, Holland FW35-7729XL19 9.76 in. height. Kompensator with lockout feature. Outboard mounting angles, 55K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$4,034	672#
6541670	Fifth Wheel: Fixed, Holland FW35Y600XL00 6.00 in. height. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,408	396#
6541672	Fifth Wheel: Fixed, Holland FW35Y700XL00 7.00 in. height. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,406	402#
6541673	Fifth Wheel: Fixed, Holland FW35Y700XR00 7.00 in. height. Outboard mounting angles, 55K vertical rating, RH release. The code for additional factory drilled settings is available. Accomodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,406	402#
6541675	Fifth Wheel: Fixed, Holland FW35Y800XL00 8.00 in. height. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,405	401#
6541678	Fifth Wheel: Fixed, Holland FW35Y900XL00 9.00 in. height. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,403	412#
6541685	Fifth Wheel: Fixed, Holland FW35Z600XL00 5.62 in. height. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,277	370#
6541687	Fifth Wheel: Fixed, Holland FW35Z700XL00 6.62 in. height. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Aluminum mounting plate not available with integrated plate mount fifth wheels.	$1,274	357#
6541689	Fifth Wheel: Fixed, Holland FW35Z800XL00 7.62 in. height. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Aluminum mounting plate not available with integrated plate mount fifth wheels.	$1,272	363#
6541690	Fifth Wheel: Fixed, Holland FW35Z800XR00 7.62 in. height. Outboard mounting angles, 55K vertical rating, RH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,311	363#

Fifth Wheels

Holland Fixed Fifth Wheels

6541691	Fifth Wheel: Fixed, Holland FW35Z800XL02 7.62 in. height. Manual secondary lock. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,251	383#
6541692	Fifth Wheel: Fixed, Holland FW35Z800XL80 7.62 in. height. Air operated KP release. Outboard mounting angles, 55K vertical rating. Accomodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,717	388#
6541693	Fifth Wheel: Fixed, Holland FW35Z900XL00 8.62 in. height. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accomodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Aluminum mounting plate not available with integrated plate mount fifth wheels.	$1,273	375#
6541694	Fifth Wheel: Fixed, Holland FW35Z900XL02 8.62 in. height. Manual secondary lock. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Aluminum mounting plate not available with integrated plate mount fifth wheels.	$1,335	367#
6541695	Fifth Wheel: Fixed, Holland FW35Z900XR00 8.62 in. height. Outboard mounting angles, 55K vertical rating, RH release. The code for additional factory drilled settings is available. Accomodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,335	381#
6541696	Fifth Wheel: Fixed, Holland FW35Z900XR48 8.62 in. height. Outboard mounting angles, 55K vertical rating, RH release. The code for additional factory drilled settings is available. Accomodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,356	364#
6541752	Fifth Wheel: No-Tilt Fixed, Holland FW35N800YL00 8.00 in. height. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$2,258	489#
6541753	Fifth Wheel: No-Tilt Fixed, Holland FW35N900YL00 9.00 in. height. Outboard mounting angles, 55K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$2,258	489#
6551060	Fifth Wheel: Fixed, Holland FW0070-7601XL03 9.50 in. height & 3-1/2in. kingpin w/ heavy-duty type 'A' lock. Outboard mounting angles, 70K vertical rating, LH release. * Not compatible with aluminum replacing standard steel fifth wheel angles. * This fifth wheel is well suited for situations where trailer load weight will exceed 140K.	$2,414	604#
6551061	Fifth Wheel: Fixed, Holland FW0070-7603XL 7.50 in. height & 2in. kingpin w/ heavy-duty type 'A' lock. Outboard mounting angles, 70K vertical rating, LH release. * Not compatible with aluminum replacing standard steel fifth wheel angles. * This fifth wheel is well suited for situations where trailer load weight will exceed 140K.	$2,415	593#
6551320	Fifth Wheel: Fixed, Holland FW0070-7601XL 9.50 in. height & 2in. kingpin w/ heavy-duty type 'A' lock. Outboard mounting angles, 70K vertical rating, LH release. * Not compatible with aluminum replacing standard steel fifth wheel angles. * This fifth wheel is well suited for situations where trailer load weight will exceed 140K.	$2,412	604#
6551322	Fifth Wheel: Fixed, Holland FW0070-7602XL 8.50in. height & 2in. kingpin w/ heavy-duty type 'A' lock. Outboard mounting angles, 70K vertical rating, LH release. * Not compatible with aluminum replacing standard steel fifth wheel angles. * This fifth wheel is well suited for situations where trailer load weight will exceed 140K.	$2,413	597#

Jost Fixed Fifth Wheels

6591006	Fifth Wheel: Fixed, Jost JSK37UWB-PM7X 7.16 in. height. Low lube, outboard mounting angles, 50K vertical rating, retractable LH handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * This top plate is not compatible with Jost fifth wheels.	$1,557	432#
6591007	Fifth Wheel: Fixed, Jost JSK37UWB-PM9X 9.16 in. height. Low lube, outboard mounting angles, 50K vertical rating, retractable LH handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * This top plate is not compatible with Jost fifth wheels.	$1,557	440#
6591008	Fifth Wheel: Fixed, Jost JSK37UWB-PM8X 8.16 in. height. Low lube, outboard mounting angles, 50K vertical rating, retractable LH handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * This top plate is not compatible with Jost fifth wheels.	$1,614	434#
6591036	Fifth Wheel: No-Tilt Fixed, Jost JSK37USLN-DB9X 8.85 in. height. Outboard mounting angles, 50K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Kenworth AG380 rear suspensions are not for use with no-tilt fifth wheels. This style of fifth wheel is indicative of a frameless dump application, which is undesirable for use with this air suspension. * This top plate is not compatible with Jost fifth wheels.	$1,548	385#
6591043	Fifth Wheel: Fixed, Jost JSK37USB-PM7X 7.16 in. height. Outboard mounting angles, 50K vertical rating, retractable LH handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * This top plate is not compatible with Jost fifth wheels.	$1,463	427#
6591045	Fifth Wheel: Fixed, Jost JSK37USB-PM8X 8.16 in. height. Outboard mounting angles, 50K vertical rating, retractable LH handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * This top plate is not compatible with Jost fifth wheels.	$1,463	438#
6591046	Fifth Wheel: Fixed, Jost JSK37USB-PM9X 9.16 in. height. Outboard mounting angles, 50K vertical rating, retractable LH handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * This top plate is not compatible with Jost fifth wheels.	$1,463	438#
6591059	Fifth Wheel: Fixed, Jost JSK37USB-DB6X 5.85 in. height. Outboard mounting angles, 50K vertical rating, retractable LH handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * This top plate is not compatible with Jost fifth wheels.	$1,335	359#
6591060	Fifth Wheel: Fixed, Jost JSK37USB-DB7X 6.85 in. height. Outboard mounting angles, 50K vertical rating, LH retractable handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * This top plate is not compatible with Jost fifth wheels.	$1,335	361#

Jost Fixed Fifth Wheels

6591061	Fifth Wheel: Fixed, Jost JSK37USB-DB8X 7.85 in. height. Outboard mounting angles, 50K vertical rating, LH retractable handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * This top plate is not compatible with Jost fifth wheels.	$1,376	365#
6591062	Fifth Wheel: Fixed, Jost JSK37USB-DB9X 8.85 in. height. Outboard mounting angles, 50K vertical rating, LH retractable handle. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * This top plate is not compatible with Jost fifth wheels.	$1,376	372#
6591135	Fifth Wheel: No-Tilt Fixed, Jost JSK37UWLN-DB9X 8.85 in. height. Outboard mounting angles, 50K vertical rating, w/ low lube, no-tilt. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Kenworth AG380 rear suspensions are not for use with no-tilt fifth wheels. This style of fifth wheel is indicative of a frameless dump application, which is undesirable for use with this air suspension. * This top plate is not compatible with Jost fifth wheels.	$1,740	385#
6591175	Fifth Wheel: Fixed, Jost JSK37USA-DB7X 6.85 in. height. Outboard mounting angles, 50K vertical rating, LH air kingpin release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * This top plate is not compatible with Jost fifth wheels.	$1,735	365#
6591176	Fifth Wheel: Fixed, Jost JSK37USA-DB8X 7.85 in. height. Outboard mounting angles, 50K vertical rating, LH air kingpin release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * This top plate is not compatible with Jost fifth wheels.	$1,646	368#
6591610	Fifth Wheel: Fixed, Jost JSK36NSL-DB6X 5.85 in. height. Lightweight top plate. Outboard mounting angles, 45K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,228	329#
6591611	Fifth Wheel: Fixed, Jost JSK36NSL-DB7X 6.85 in. height. Lightweight top plate. Outboard mounting angles, 45K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,228	331#
6591612	Fifth Wheel: Fixed, Jost JSK36NSL-DB8X 7.85 in. height. Lightweight top plate. Outboard mounting angles, 45K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,228	335#
6591613	Fifth Wheel: Fixed, Jost JSK36NSL-DB9X 8.85 in. height. Lightweight top plate. Outboard mounting angles, 45K vertical rating, LH release. The code for additional factory drilled settings is available. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,228	342#

Holland Air-Sliding Fifth Wheels

6542430	Fifth Wheel: ILS<=40K air Hol FW17J936XL00 36 in. slide, 8.8 in. height. Outboard mounting angles, 50K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. Limited to use with 40K & under suspensions. * Cannot be combined with lift axles. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Limited to suspensions 40K and below.	$1,965	544#

Fifth Wheels

Holland Air-Sliding Fifth Wheels

6543083	Fifth Wheel: ILS<=40K air Hol FW35J824XL80 24 in. slide, 7.8 in. height. Air operated king pin release. Outboard mounting angles, 55K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. Limited to use with 40K & under suspensions. * A fifth wheel that includes an air operated kingpin release is not for use in combination with an AutoShift transmission due to a dash space conflict. * Cannot be combined with lift axles. * Fifth wheels that include an air operated kingpin release feature have dash mounted controls that eliminate four optional gauge spots. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Limited to suspensions 40K and below.	$2,380	523#
6543086	Fifth Wheel: ILS<=40K air Hol FW31J812XL00 12 in. slide, 8.1 in. height. No lube. Outboard mounting angles. 55K. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. Limited to use with 40K & under suspensions. * Cannot be combined with lift axles. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Limited to suspensions 40K and below.	$2,202	496#
6543131	Fifth Wheel: Air, Holland FW17-8003T1L 10.7 in. slide, 6.75 in. height. Outboard mounting angles, 50K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Max GCW 95,000 lbs. No operations on Class C or Class D roads. No end dump, side dump, bottom dump or lowboy trailers. * This fifth wheel is for use only with rear suspensions rated over 40,000 lbs, or with lift axles. For other applications use an ILS fifth wheel.	$1,748	529#
6543161	Fifth Wheel: Air, Holland FW35-8003T1L 10.7 in. slide, 6.62 in. height. Outboard mounting angles, 55K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * This fifth wheel is for use only with rear suspensions rated over 40,000 lbs, or with lift axles. For other applications use an ILS fifth wheel.	$2,016	548#
6543177	Fifth Wheel: Air, Holland FW35-8003T2L80 16.8in. slide, 6.62 in. height. Outboard mounting angles, 55K vertical rating, air-operated kingpin release, occupies 4 gauge spots in dash. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * A fifth wheel that includes an air operated kingpin release is not for use in combination with an AutoShift transmission due to a dash space conflict. * Fifth wheels that include an air operated kingpin release feature have dash mounted controls that eliminate four optional gauge spots. * In dash PTO controls, LNG readout, fifth wheel air kingpin release, auxiliary heater, two speed rear axle and NavPlus HD all occupy the same dash space. No two are allowed in combination. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * This fifth wheel is for use only with rear suspensions rated over 40,000 lbs, or with lift axles. For other applications use an ILS fifth wheel.	$2,585	585#

Holland Air-Sliding Fifth Wheels

6543421	Fifth Wheel: ILS<=40K air Hol FW17J848XL00 48 in. slider, 7.8 in. height. Outboard mounting angles, 50K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Cannot be combined with lift axles. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Limited to suspensions 40K and below.	$2,225	589#
6543423	Fifth Wheel: ILS<=40K air Hol FW17J848XL80 48 in. slide, 7.8 in. height. Air operated king pin release. Outboard mounting angles, 50K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * A fifth wheel that includes an air operated kingpin release is not for use in combination with an AutoShift transmission due to a dash space conflict. * Cannot be combined with lift axles. * Fifth wheels that include an air operated kingpin release feature have dash mounted controls that eliminate four optional gauge spots. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Limited to suspensions 40K and below.	$2,821	594#
6543426	Fifth Wheel: ILS<=40K air Hol FW17J912XL80 12 in. slide, 8.8 in. height. Air operated king pin release. Outboard mounting angles, 50K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * A fifth wheel that includes an air operated kingpin release is not for use in combination with an AutoShift transmission due to a dash space conflict. * Cannot be combined with lift axles. * Fifth wheels that include an air operated kingpin release feature have dash mounted controls that eliminate four optional gauge spots. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Limited to suspensions 40K and below.	$2,282	454#
6543427	Fifth Wheel: ILS<=40K air Hol FW17J924XL00 24 in. slider, 8.8 in. height. Outboard mounting angles, 50K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. Limited to use with 40K & under suspensions. * Cannot be combined with lift axles. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Limited to suspensions 40K and below.	$1,652	497#
6543429	Fifth Wheel: ILS<=40K air Hol FW17J924XL80 24 in. slide, 8.8 in. height. Air operated king pin release. Outboard mounting angles, 50K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * A fifth wheel that includes an air operated kingpin release is not for use in combination with an AutoShift transmission due to a dash space conflict. * Cannot be combined with lift axles. * Fifth wheels that include an air operated kingpin release feature have dash mounted controls that eliminate four optional gauge spots. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Limited to suspensions 40K and below.	$2,179	502#

Fifth Wheels

Holland Air-Sliding Fifth Wheels

6543432	Fifth Wheel: ILS<=40K air Hol FW17J936XL80 36 in. slide, 8.8 in. height. Air operated king pin release. Outboard mounting angles, 50K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * A fifth wheel that includes an air operated kingpin release is not for use in combination with an AutoShift transmission due to a dash space conflict. * Cannot be combined with lift axles. * Fifth wheels that include an air operated kingpin release feature have dash mounted controls that eliminate four optional gauge spots. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Limited to suspensions 40K and below.	$2,560	549#
6543433	Fifth Wheel: ILS<=40K air Hol FW17J948XL00 48 in. slider, 8.8 in. height. Outboard mounting angles, 50K vertical rating, LH release. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Cannot be combined with lift axles. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Limited to suspensions 40K and below.	$2,223	593#
6543435	Fifth Wheel: ILS<=40K air Hol FW17J948XL80 48 in. slide, 8.8 in. height. Air operated king pin release. Outboard mounting angles, 50K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * A fifth wheel that includes an air operated kingpin release is not for use in combination with an AutoShift transmission due to a dash space conflict. * Cannot be combined with lift axles. * Fifth wheels that include an air operated kingpin release feature have dash mounted controls that eliminate four optional gauge spots. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified. * Limited to suspensions 40K and below.	$2,820	598#
6543581	Fifth Wheel: Air, Holland FW35-7201X4L19 41.3 in. slide, 13.2 in. height. Kompensator with lockout feature, inboard mounted, 55K. Accomodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$5,182	1,032#
6543589	Fifth Wheel: Air, Holland FW35-7053T6L 64.3 in. slide, 7.00 in. height. Outboard mounting angles, 55K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified.	$2,905	905#
6543594	Fifth Wheel: Air, Holland FW35-7051T6L 61.5 in. slide, 9.00 in. height. Outboard mounting angles, 55K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified.	$2,720	812#
6543595	Fifth Wheel: Air, Holland FW35-7052T6L 61.2 in. slide, 8.00 in. height. Outboard mounting angles, 55K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified.	$2,721	808#

Fifth Wheels

Holland Air-Sliding Fifth Wheels

Option	Description	Price	Weight
6543610	Fifth Wheel: ILS No-Tilt Air, Hol FW35N918YL00 18 in. slide, 9.00 in. height. No-tilt convertible w/ outboard mounting angles, 55K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$2,620	572#
6543612	Fifth Wheel: ILS No-Tilt Air, Hol FW35N930YL00 30 in. slide, 9.00 in. height. No-tilt convertible w/ outboard mounting angles, 55K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$2,801	605#
6543614	Fifth Wheel: ILS No-Tilt Air, Hol FW35N942YL00 42 in. slide, 9.00 in. height. No-tilt convertible w/ outboard mounting angles, 55K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$3,109	697#
6543687	Fifth Wheel: Air, Holland FW35-7002X6L11 61.2 in. slide, 7.93 in. height. Inboard mounting angles, 55K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Aluminum angles are not compatible with inboard mounted fifth wheels. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified.	$2,585	669#
6543688	Fifth Wheel: Air, Holland FW35-7002X7L11 73.4 in. slide, 7.93 in. height. Inboard mounting angles, 55K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * Aluminum angles are not compatible with inboard mounted fifth wheels. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified.	$2,920	739#
6543710	Fifth Wheel: Air, Holland FW35-8009T3L 20.0 in. slide, 10.11 in. height. Outboard mounting angles, 55K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified.	$2,141	590#
6543711	Fifth Wheel: Air, Holland FW35-8009T4L 32.0 in. slide, 10.11 in. height. Outboard mounting angles, 55K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections. * In most cases a fifth wheel that uses a retractable handle will be required if the slide length falls between the tandem axles and a rear suspension with a ride height under 10 inches is specified.	$2,454	638#
6543851	Fifth Wheel: ILS>40K air Hol FW17M712XL00 12 in. slide, 7 in. height. Outboard mounting angles, 50K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,751	495#
6543852	Fifth Wheel: ILS>40K air Hol FW17M712XL80 12 in. slide, 7 in. height. Air operated king pin release. Outboard mounting angles, 50K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$2,326	500#
6543854	Fifth Wheel: ILS>40K air Hol FW17M724XL00 24 in. slide, 7 in. height. Outboard mounting angles, 50K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$1,682	537#
6543855	Fifth Wheel: ILS>40K air Hol FW17JM24XL80 24 in. slide, 7 in. height. Air operated king pin release. Outboard mounting angles, 50K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$2,256	542#
6543856	Fifth Wheel: ILS>40K air Hol FW17M736XL00 36 in. slide, 7 in. height. Outboard mounting angles, 50K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$2,035	578#

6593713	Fifth Wheel: Air, Jost JSK36NSL-A9PX36 36.0 in. slide, 8.75 in. height. Lightweight top plate. Outboard mounting angles, 45K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$2,362	576#
6593715	Fifth Wheel: Air, Jost JSK36NSL-A8PX48 48.0 in. slide, 7.75 in. height. Lightweight top plate. Outboard mounting angles, 45K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$2,567	604#

Option	Description	Price	Weight

Fifth Wheels

Jost Air-Sliding Fifth Wheels

6593716	Fifth Wheel: Air, Jost JSK36NSL-A9PX48 48.0 in. slide, 8.75 in. height. Lightweight top plate. Outboard mounting angles, 45K vertical rating, LH release. Air slide control valve standard in dash. Accommodates a 2 in. SAE kingpin. Requires some style of trailer connections.	$2,660	609#

Fixed Fifth Wheel Placement

6607023	Fifth Wheel: Fixed angle drilled for 4 additional settings in 2 in. increments. Includes coded setting plus 2 settings ahead and 2 behind. Use with code 6670496-504 to determine the factory setting relative to the coded fixed setting.	$612	0#
6607024	Fifth Wheel: Fixed angle drilled for 8 additional settings in 2 in. increments. Includes coded setting plus 4 settings ahead and 4 behind. Use with code 6670494-508 to determine the factory setting relative to the coded fixed setting.	$612	0#
6670494	Fix fifth wheel placement at -6 in. from coded rear or fixed setting for use with 6607024 angle drill. Determines factory setting for fixed fifth wheels only. * Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel at the coded rear setting. That would allow for 5 optional settings ahead and no optional settings behind with 6607010 or 7 settings ahead and 1 settings behind with 6607019 , each spaced 2 inches apart. * User specified fifth wheel placement is for use only with a fixed fifth wheel and code for optional additional drillings.	$0	0#
6670495	Fix fifth wheel placement at -8 in. from coded rear or fixed setting for use with 6607024 angle drill. Determines factory setting for fixed fifth wheels only. * Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel at the coded rear setting. That would allow for 6 optional settings ahead and no optional settings behind with 6607010 or 8 settings ahead and no optional settings behind with 6607019 , each spaced 2 inches apart. * User specified fifth wheel placement is for use only with a fixed fifth wheel and code for optional additional drillings.	$0	0#
6670496	Fix fifth wheel placement at -4 in. from coded rear or fixed setting for use with 6607023 or 6607024 angle drill. Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel 4 inches behind the coded rear setting.That would allow for 4 optional settings ahead, each spaced 2 inches apart. * Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel at the coded rear setting. That would allow for 4 optional settings ahead and no optional settings behind with 6607010 or 6 settings ahead and 2 settings behind with 6607019 , each spaced 2 inches apart. * User specified fifth wheel placement is for use only with a fixed fifth wheel and code for optional additional drillings.	$0	0#
6670498	Fix fifth wheel placement at -2 in. from coded rear or fixed setting for use with 6607023 or 6607024 angle drill. Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel 2 inches behind the coded rear setting.That would allow for 3 optional settings ahead and 1 optional setting behind, each spaced 2 inches apart. * Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel at the coded rear setting. That would allow for 3 optional settings ahead and 1 optional setting behind with 6607010 or 5 settings ahead and 3 settings behind with 6607019 , each spaced 2 inches apart. * User specified fifth wheel placement is for use only with a fixed fifth wheel and code for optional additional drillings.	$0	0#

Option	Description	Price	Weight

Fifth Wheels

Fixed Fifth Wheel Placement

6670500	Fix fifth wheel placement at 0 in. from coded rear or fixed setting for use with 6607023 or 6607024 angle drill. Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel at the coded rear setting.That would allow for 2 optional settings ahead and two optional settings behind, each spaced 2 inches apart. * Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel at the coded rear setting. That would allow for 2 optional settings ahead and two optional settings behind with 6607010 or 4 settings ahead and 4 settings behind with 6607019 , each spaced 2 inches apart. * User specified fifth wheel placement is for use only with a fixed fifth wheel and code for optional additional drillings.	$0	0#
6670502	Fix fifth wheel placement at +2 in. from coded rear or fixed setting for use with 6607023 or 6607024 angle drill. Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel 2 inches ahead the coded rear setting.That would allow for 1 optional setting ahead and 3 optional settings behind, each spaced 2 inches apart. * Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel at the coded rear setting. That would allow for 1 optional setting ahead and 3 optional settings behind with 6607010 or 3 settings ahead and 5 settings behind with 6607019 , each spaced 2 inches apart. * User specified fifth wheel placement is for use only with a fixed fifth wheel and code for optional additional drillings.	$0	0#
6670504	Fix fifth wheel placement at +4 in. from coded rear or fixed setting for use with 6607023 or 6607024 angle drill. Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel 4 inches ahead the coded rear setting.That would allow for 4 optional settings behind, each spaced 2 inches apart. * Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel at the coded rear setting. That would allow for no optional settings ahead and 4 optional settings behind with 6607010 or 2 settings ahead and 6 settings behind with 6607019 , each spaced 2 inches apart. * User specified fifth wheel placement is for use only with a fixed fifth wheel and code for optional additional drillings.	$0	0#
6670506	Fix Fifth Wheel Placement at +6 in. from coded rear or fixed setting for use w/ 6607024 angle drill. Use to determine factory setting for fixed fifth wheels only. * Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel at the coded rear setting. That would allow for no optional settings ahead and 5 optional settings behind with 6607010 or 1 settings ahead and 7 settings behind with 6607019 , each spaced 2 inches apart. * MISC FRAME 5TH WHEEL; these options for use with an adjustable plate mount fifth wheel. * User specified fifth wheel placement is for use only with a fixed fifth wheel and code for optional additional drillings.	$0	0#
6670508	Fix Fifth Wheel Placement at +8 in. from coded rear or fixed setting for adjustable plate mount only. For use w/ 6607024 angle drill. Determines factory setting for fixed fifth wheels only. * Determines factory setting for fixed fifth wheels only. Use of this code will instruct the factory to place the fifth wheel at the coded rear setting. That would allow for no optional settings ahead and 6 optional settings behind with 6607010 or no optional settings ahead and 8 settings behind with 6607019 , each spaced 2 inches apart. * User specified fifth wheel placement is for use only with a fixed fifth wheel and code for optional additional drillings.	$0	0#

Option	Description	Price	Weight

Fifth Wheels

Fifth Wheel Equipment

6600033	Aluminum Fifth Wheel Angles Replacing Steel on fixed or outboard mounted sliding fifth wheels. * Aluminum angles are not compatible with inboard mounted fifth wheels. * Aluminum replacing standard steel fifth wheel angles. Not for use with Reyco, Neway, Hendrickson air, Hendrickson RT or Primaax rear suspensions. * For use only on tractors with a factory installed or customer installed fifth wheel. This option is not available on vehicles that will be placed into service as a truck. * This option is not available with rear axles rated over 52K or with GCWs in excess of 120K.	$178	-30#
6600052	Steel Angle for Customer-Installed Fifth Wheel. For outboard mounted fixed or up to 36.7in. slide fifth wheel w/ o plate drill. * Cannot be combined with options for extra drillings for additional settings. * Cannot be combined with other factory drillings for aftermarket fifth wheel. * Requesting fifth wheel angles for an aftermarket fifth wheel requires a code to describe the fifth wheel so that engineering knows how long the angles should be. * When ordering angles for aftermarket fifth wheel installations include a narrative line describing the attributes of the fifth wheel that will be used. The angles are not available on vehicles that will be placed into service as a truck.	$427	77#
6600053	Steel Angle for Customer-Installed Fifth Wheel. For outboard mounted fifth wheel. Narrate fifth wheel model & slide; w/ plate drill. * Requesting fifth wheel angles for an aftermarket fifth wheel requires a code to describe the fifth wheel so that engineering knows how long the angles should be. * When ordering angles for aftermarket fifth wheel installations include a narrative line describing the attributes of the fifth wheel that will be used. The angles are not available on vehicles that will be placed into service as a truck.	$858	77#
6602010	Fifth Wheel: Ramps. * Factory installed fifth wheel ramps require tractor taper end of frame with bent and welded taper ends. This option is not available with short or long tapers. * Fifth wheel ramps are only available for use with rear suspensions rated under 58K. * For use only on tractors with a factory installed or customer installed fifth wheel. This option is not available on vehicles that will be placed into service as a truck. * Not for use with Severe Service.	$276	22#
6603011	Mounting Plate: Aluminum for fixed fifth wheel replacing standard steel base plate. Adds 0.25 in. to height. * Aluminum mounting plate not available with integrated plate mount fifth wheels. * For use only on tractors with a factory installed or customer installed fifth wheel. This option is not available on vehicles that will be placed into service as a truck. * This option is not available with rear axles rated over 52K or with GCWs in excess of 120K.	$114	-35#

Rear Frame Equipment

Quarter Fenders

6734005	Quarter Fenders: Stainless Steel w/ Painted Steel brackets, single post mounted. * Frame mounted quarter fenders are not applicable with full length chassis fairings. Full fairings utilize an integral quarter fender. * Quarter fenders are located just ahead of the forward drive axle. * Single post mounted quarter fenders are incompatible with wide track rear axles when a Neway AD or Hendrickson PRIMAAX rear suspension is specified.	$322	55#

Option	Description	Price	Weight

Rear Frame Equipment

Quarter Fenders

6734008	Quarter Fenders: Stainless Steel Hogebuilt 30in. Nu Style w/ brackets, frame mounted. * Frame mounted quarter fenders are not applicable with full length chassis fairings. Full fairings utilize an integral quarter fender. * Hogebuilt stainless quarter fenders are not available with Kenworth AG230, AG380, AG400L, AG460 with 60 inch axle spacing, Neway , or Reyco four spring suspensions. * Quarter fenders are located just ahead of the forward drive axle.	$945	63#
6734016	Quarter Fenders: Stainless Steel Hogebuilt 30in. Nu Style w/ brackets, 30in. single post mount. * Frame mounted quarter fenders are not applicable with full length chassis fairings. Full fairings utilize an integral quarter fender. * Quarter fenders are located just ahead of the forward drive axle.	$803	48#
6737120	Quarter Fenders: Black Polypropylene w/ painted steel brackets, single post mounted, 21 in. white top flap with logo. * Frame mounted quarter fenders are not applicable with full length chassis fairings. Full fairings utilize an integral quarter fender. * Quarter fenders are located just ahead of the forward drive axle. * Single post mounted quarter fenders are incompatible with wide track rear axles when a Neway AD or Hendrickson PRIMAAX rear suspension is specified.	$175	43#
6738107	Quarter Fenders: Brackets Painted Steel For customer-installed fenders. * Frame mounted quarter fenders are not applicable with full length chassis fairings. Full fairings utilize an integral quarter fender. * Quarter fenders are located just ahead of the forward drive axle.	$33	11#

End-Of-Frame Configurations

Non-Towing Configuration

6741011	Square end-of-frame w/ crossmember; non-towing. * A square end of frame configuration is typically not the best solution for a tractor chassis. * Chalmers and Hendrickson beam suspensions without track rods do not have a standard rear suspension crossmember. When these suspensions are coded they require an end of frame or rear intermediate crossmember. For cutoff of 60 inches or less an EOF crossmember must be specified. There is an option for the body builder to install the crossmember, 6679995 must be used. * This end of frame style is not available with a pintle hook. Hooks for pulling trailers require a crossmember specifically designed for the hook installation, hooks for yarding dollies are installed in rear suspension crossmembers and an end of frame crossmember would interfere.	$200	30#
6742009	Square end-of-frame w/ o crossmember;non-towing. * A square end of frame configuration is typically not the best solution for a tractor chassis. * End of frame configurations which are applicable to hook at end of frame must code for the hook separately. * With cutoff 60" or less customer or body builder must install structural end of frame crossmember with Chalmers or Hendrickson beam rear suspensions. Use code 6679995 for full trucks when the crossmember will be installed by the body builder.	STD	0#

Option	Description	Price	Weight

Rear Frame Equipment

End-Of-Frame Configurations

Non-Towing Configuration

6743109	Tractor Taper w/ heavy-duty crossmember. Non-towing end-of-frame configuration. * Chalmers and Hendrickson beam suspensions without track rods do not have a standard rear suspension crossmember. When these suspensions are coded they require an end of frame or rear intermediate crossmember. For cutoff of 60 inches or less an EOF crossmember must be specified. There is an option for the body builder to install the crossmember, 6679995 must be used. * This end of frame style is not available with a pintle hook. Hooks for pulling trailers require a crossmember specifically designed for the hook installation, hooks for yarding dollies are installed in rear suspension crossmembers and an end of frame crossmember would interfere. * This option interferes with the ECE compliant under-run required for over the road use in Russia. Not Russian compliant. * Tractor taper end of frame configurations are not for use on full trucks.	$203	61#
6743111	Tractor Taper w/ crossmember. Non-towing end-of-frame configuration. * Chalmers and Hendrickson beam suspensions without track rods do not have a standard rear suspension crossmember. When these suspensions are coded they require an end of frame or rear intermediate crossmember. For cutoff of 60 inches or less an EOF crossmember must be specified. There is an option for the body builder to install the crossmember, 6679995 must be used. * Not available with an 11 5/8" rail. * Not for use with Severe Service. * This end of frame style is not available with a pintle hook. Hooks for pulling trailers require a crossmember specifically designed for the hook installation, hooks for yarding dollies are installed in rear suspension crossmembers and an end of frame crossmember would interfere. * This option interferes with the ECE compliant under-run required for over the road use in Russia. Not Russian compliant. * Tractor taper end of frames are applicable to tractors only. Chassis used for Severe Service require an end of frame configuration that includes a crossmember.	$110	13#
6743116	Tractor Taper bent & welded w/ heavy-duty cross member. Non-towing end-of-frame configuration. * Chalmers and Hendrickson beam suspensions without track rods do not have a standard rear suspension crossmember. When these suspensions are coded they require an end of frame or rear intermediate crossmember. For cutoff of 60 inches or less an EOF crossmember must be specified. There is an option for the body builder to install the crossmember, 6679995 must be used. * This end of frame style is not available with a pintle hook. Hooks for pulling trailers require a crossmember specifically designed for the hook installation, hooks for yarding dollies are installed in rear suspension crossmembers and an end of frame crossmember would interfere. * This option interferes with the ECE compliant under-run required for over the road use in Russia. Not Russian compliant. * Tractor taper end of frame configurations are not appropriate for use on full trucks.	$231	68#
6744001	Long Tractor Taper top flange bent & welded w/o crossmember. Taper is 4in. longer than standard. Non-towing end-of-frame configuration. * Long tractor taper end of frame configurations are not available with the Kenworth AG380 rear suspension. * Not for use with Severe Service. * This option interferes with the ECE compliant under-run required for over the road use in Russia. Not Russian compliant. * Tractor taper end of frame, not for full truck.	$35	-2#

Option	Description	Price	Weight

Rear Frame Equipment

End-Of-Frame Configurations

Non-Towing Configuration

6744002	Long Tractor Taper top flange bent & welded w/ crossmember. Taper is 4in. longer than standard. Non-towing end-of-frame configuration. * Chalmers and Hendrickson beam suspensions without track rods do not have a standard rear suspension crossmember. When these suspensions are coded they require an end of frame or rear intermediate crossmember. For cutoff of 60 inches or less an EOF crossmember must be specified. There is an option for the body builder to install the crossmember, 6679995 must be used. * Long tractor taper end of frame configurations are not available with the Kenworth AG380 rear suspension. * Not available with an 11 5/8" rail. * Not for use with Severe Service. * This end of frame style is not available with a pintle hook. Hooks for pulling trailers require a crossmember specifically designed for the hook installation, hooks for yarding dollies are installed in rear suspension crossmembers and an end of frame crossmember would interfere. * This option interferes with the ECE compliant under-run required for over the road use in Russia. Not Russian compliant. * Tractor taper end of frames are applicable to tractors only. Chassis used for Severe Service require an end of frame configuration that includes a crossmember.	$108	17#
6744121	Tractor Taper w/o crossmember. Non-towing end-of-frame configuration. * End of frame configured as a tractor taper without an EOF crossmember for is use on tractors only, no full trucks. * Not for use with Severe Service. * This option interferes with the ECE compliant under-run required for over the road use in Russia. Not Russian compliant. * Tractor taper end of frame not for use on full trucks.	$45	-6#
6744122	Short Tractor Taper w/o crossmember. Non-towing end-of-frame configuration. * Not for use with Severe Service. * Tractor taper end of frame not for use on full trucks.	$35	-4#
6744123	Short Tractor Taper bent & welded w/o cross member. Non-towing end-of-frame configuration. * Not for use with Severe Service. * Tractor taper end of frame, not for full truck.	$35	-2#
6745270	Top Flange of Rear Frame bent & welded w/ crossmember. Non-towing end-of-frame configuration. * Chalmers and Hendrickson beam suspensions without track rods do not have a standard rear suspension crossmember. When these suspensions are coded they require an end of frame or rear intermediate crossmember. For cutoff of 60 inches or less an EOF crossmember must be specified. There is an option for the body builder to install the crossmember, 6679995 must be used. * Not available with an 11 5/8" rail. * This end of frame style is not available with a pintle hook. Hooks for pulling trailers require a crossmember specifically designed for the hook installation, hooks for yarding dollies are installed in rear suspension crossmembers and an end of frame crossmember would interfere. * Tractor taper end of frame is not appropriate for use on full trucks. Not for use with Severe Service which requires an end of frame crossmember.	$97	17#
6746131	Top Flange of Rear Frame bent & welded w/o crossmember. Non-towing end-of-frame configuration. * Tractor taper end of frame, not for full truck.	$35	-2#

Option	Description	Price	Weight

Rear Frame Equipment

End-Of-Frame Configurations

Non-Towing Configuration

6747000	Shortest end-of-frame cutoff with specified end-of-frame configuration. Selecting this code will override the overhang dimension found in the Vocational Analysis of Prospector. * The code for shortest end of frame configuration does not apply to tag axles. These axles are always located to the rear of the suspension and a short cutoff is never an option.	$0	0#

Towing Configuration

6700005	Drop-type crossmember below frame pintle hook; square end-of-frame towing configuration. * A drop-type crossmember should be used when the pintle hook height will be more than 2 inches below the centerline of the frame rail. * A drop-type crossmember will move the pintle hook location below the frame rails. Provide a hook height sales code so that the hook can be properly located. * Chalmers and Hendrickson beam suspensions without track rods do not have a standard rear suspension crossmember. When these suspensions are coded they require an end of frame or rear intermediate crossmember. For cutoff of 60 inches or less an EOF crossmember must be specified. There is an option for the body builder to install the crossmember, 6679995 must be used. * Drop-type crossmember is only applicable with tail lamps that include a single backup light, not when two backup lights are located in the tail lamp assembly. * The drop-type crossmember for use with pintle hooks is incompatible with logger-style trailer connections. * This end of frame configuration is for use only with a pintle hook. * This option interferes with the ECE compliant under-run required for over the road use in Russia. Not Russian compliant.	$934	155#
6741005	Straight crossmember for pintle hook mounting; square end-of-frame towing configuration. * Chalmers and Hendrickson beam suspensions without track rods do not have a standard rear suspension crossmember. When these suspensions are coded they require an end of frame or rear intermediate crossmember. For cutoff of 60 inches or less an EOF crossmember must be specified. There is an option for the body builder to install the crossmember, 6679995 must be used. * This end of frame configuration is for use only with a pintle hook. * This option interferes with the ECE compliant under-run required for over the road use in Russia. Not Russian compliant.	$760	135#

Hooks & Chain Loops

6490044	2 Pro-Tech chain hangers 35-5950CP w/cable pins and removable lids. * Chain hangers require 20 inches of frame space. * Incompatible with full chassis fairings. * It is highly unlikely that partial chassis fairings with the rearmost section deleted will work with Pro-Tech chain hangers. To get access to the chains they will need to be located behind the fairing near the forward drive tires.	$387	30#
6490144	1 Pro-Tech chain hanger, 35-5950CP LH rail with removable lid & cable pin. * Chain hangers require 20 inches of frame space. * Incompatible with full chassis fairings. * It is highly unlikely that partial chassis fairings with the rearmost section deleted will work with Pro-Tech chain hangers. To get access to the chains they will need to be located behind the fairing near the forward drive tires.	$194	15#

Option	Description	Price	Weight

Rear Frame Equipment

Hooks & Chain Loops

6490145	1 Pro-Tech chain hanger, 35-5950CP RH rail with removable lid & cable pin.	$194	15#
	* Chain hangers require 20 inches of frame space.		
	* Incompatible with full chassis fairings.		
	* It is highly unlikely that partial chassis fairings with the rearmost section deleted will work with Pro-Tech chain hangers. To get access to the chains they will need to be located behind the fairing near the forward drive tires.		
6710029	Premier 370 hook air operated, rated at 90,000 lb horizontal, 18,000lb vertical.	$1,177	45#
	* Pintle hook requests must be accompanied by some form of trailer connections at the end of frame.		
	* This option interferes with the ECE compliant under-run required for over the road use in Russia. Not Russian compliant.		
6710080	Two rams horn open rear tow hooks, not for trailer towing.	$95	17#
	* Rams horn style tow hooks interfere with the outboard mounted logger kit connections.		
	* Rams horn tow hooks are only available with short tractor taper end of frame without a crossmember when requested as part of Russian compliance.		
6710157	Holland: PH-30RP41 pintle hook mounted on 15,000lb rear suspension crossmember for use w/ Airglide suspensions. For yarding dollies, no trailers. 6,000lb vertical rating.	$139	11#
	* Consider the option for short end of frame to ensure this hook is useful.		
	* Pintle hook is for use with Kenworth Airglide rear suspensions only.		
	* Requires end of frame configuration code 6744122 or 6742009.		
	* This option interferes with the ECE compliant under-run required for over the road use in Russia. Not Russian compliant.		
	* This pintle hook is not suitable for transporting a trailer over the road.		
	* Yarding hooks require an end of frame configuration without a crossmember.		
6710158	Holland: PH-30RP41 pintle hook mounted on 15,000lb rear suspension crossmember for use w/ Reyco, HAS, & Neway suspensions. For yarding dollies, no trailers. 6,000lb vertical rating.	$144	11#
	* Consider the option for short end of frame to ensure this hook is useful.		
	* Pintle hook is for use with Reyco, Hendrickson HAS, or Neway rear suspensions only.		
	* Requires end of frame configuration code 6744122 or 6742009.		
	* This option interferes with the ECE compliant under-run required for over the road use in Russia. Not Russian compliant.		
	* This pintle hook is not suitable for transporting a trailer over the road.		
	* Yarding hooks require an end of frame configuration without a crossmember.		
6792810	Safety chain loops - Dual.	$106	2#
	* Must use in combination w/ pintle hook codes 6710157 or 6710158 and the following conditions: AG380, AG400L, AG210L, or single Neway air suspension.		
	* Must use safety chain loops in combination w/ pintle hook codes 6710157 or 6710158 and the following conditions: T6/T8 and AG400/460 w/ 52" axle spacing and 54" minimum frame cutoff or T6/T8 and AG400/460 w/ 60" axle spacing and 59" minimum frame cutoff. Use code 6792810 for safety chain loops.		
	* Must use safety chain loops in combination w/ pintle hook codes 6710157 or 6710158 and the following conditions: T6/T8 and AG230 and 27" minimum frame cutoff.		
	* Use only in combination w/ pintle hook codes 6710157 or 6710158		

Option	Description	Price	Weight
	Rear Frame Equipment		
	Pintle Hook Height		
6712024	Maximum Unladen Rear Hook Height is 24 in. Use with a drop-type crossmember only. Kenworth will make every effort to meet the customer's specified trailer hook height above the road. Exact heights depend on wheelbase, front and rear suspensions, tires and frame material. If exact height is crucial, the hook must be installed by the body builder. * Rear hook height for use only with a drop hitch crossmember at end of frame.	$0	0#
6712025	Maximum Unladen Rear Hook Height is 25 in. Use with a drop-type crossmember only. Kenworth will make every effort to meet the customer's specified trailer hook height above the road. Exact heights depend on wheelbase, front and rear suspensions, tires and frame material. If exact height is crucial, the hook must be installed by the body builder. * Rear hook height for use only with a drop hitch crossmember at end of frame.	$0	0#
6712026	Maximum Unladen Rear Hook Height is 26 in. Use with a drop-type crossmember only. Kenworth will make every effort to meet the customer's specified trailer hook height above the road. Exact heights depend on wheelbase, front and rear suspensions, tires and frame material. If exact height is crucial, the hook must be installed by the body builder. * Rear hook height for use only with a drop hitch crossmember at end of frame.	$0	0#
6712027	Maximum Unladen Rear Hook Height is 27 in. Use with a drop-type crossmember only. Kenworth will make every effort to meet the customer's specified trailer hook height above the road. Exact heights depend on wheelbase, front and rear suspensions, tires and frame material. If exact height is crucial, the hook must be installed by the body builder. * Rear hook height for use only with a drop hitch crossmember at end of frame.	$0	0#
6712028	Maximum Unladen Rear Hook Height is 28 in. Use with a drop-type crossmember only. Kenworth will make every effort to meet the customer's specified trailer hook height above the road. Exact heights depend on wheelbase, front and rear suspensions, tires and frame material. If exact height is crucial, the hook must be installed by the body builder. * Rear hook height for use only with a drop hitch crossmember at end of frame.	$0	0#
6712029	Maximum Unladen Rear Hook Height is 29 in. Use with a drop-type crossmember only. Kenworth will make every effort to meet the customer's specified trailer hook height above the road. Exact heights depend on wheelbase, front and rear suspensions, tires and frame material. If exact height is crucial, the hook must be installed by the body builder. * Rear hook height for use only with a drop hitch crossmember at end of frame.	$0	0#
6712030	Maximum Unladen Rear Hook Height is 30 in. Use with a drop-type crossmember only. Kenworth will make every effort to meet the customer's specified trailer hook height above the road. 7216045	Fuel Tank: 45 US gallon 24.5in. aluminum BOC add. Class 8 fuel tanks w/ o locking caps include an anti-siphon device on the filler neck. Multiple tank installations include a fuel equalization system w/ dual draw and return lines with a splitter valve located within 6 inches behind the cab. Single draw and return is an option in some cases. * 7 inch wide supports will not fit on a 45 gallon tank. * Small tanks located behind the cab are not for use with full or partial length chassis fairings due to lack of tank fill access.	$1,484	92#
7216060	Fuel Tank: 60 US gallon 24.5in. aluminum BOC add. Class 8 fuel tanks w/ o locking caps include an anti-siphon device on the filler neck. Multiple tank installations include a fuel equalization system w/ dual draw and return lines with a splitter valve located within 6 inches behind the cab. Single draw and return is an option in some cases. * Small tanks located behind the cab are not for use with full or partial length chassis fairings due to lack of tank fill access.	$1,640	97#
7216075	Fuel Tank: 75 US gallon 24.5in. aluminum BOC add. Class 8 fuel tanks w/ o locking caps include an anti-siphon device on the filler neck. Multiple tank installations include a fuel equalization system w/ dual draw and return lines with a splitter valve located within 6 inches behind the cab. Single draw and return is an option in some cases.	$1,677	103#
7216090	Fuel Tank: 90 US gallon 24.5in. aluminum BOC add. Class 8 fuel tanks w/ o locking caps include an anti-siphon device on the filler neck. Multiple tank installations include a fuel equalization system w/ dual draw and return lines with a splitter valve located within 6 inches behind the cab. Single draw and return is an option in some cases.	$1,674	108#
7216100	Fuel Tank: 100 US gallon 24.5in. aluminum BOC add. Class 8 fuel tanks w/ o locking caps include an anti-siphon device on the filler neck. Multiple tank installations include a fuel equalization system w/ dual draw and return lines with a splitter valve located within 6 inches behind the cab. Single draw and return is an option in some cases.	$1,674	114#
7216110	Fuel Tank: 110 US gallon 24.5in. aluminum BOC add. Class 8 fuel tanks w/ o locking caps include an anti-siphon device on the filler neck. Multiple tank installations include a fuel equalization system w/ dual draw and return lines with a splitter valve located within 6 inches behind the cab. Single draw and return is an option in some cases.	$1,674	116#
7216120	Fuel Tank: 120 US gallon 24.5in. aluminum BOC add. Class 8 fuel tanks w/ o locking caps include an anti-siphon device on the filler neck. Multiple tank installations include a fuel equalization system w/ dual draw and return lines with a splitter valve located within 6 inches behind the cab. Single draw and return is an option in some cases.	$1,900	119#
7216135	Fuel Tank: 135 US gallon 24.5in. aluminum BOC add. Class 8 fuel tanks w/ o locking caps include an anti-siphon device on the filler neck. Multiple tank installations include a fuel equalization system w/ dual draw and return lines with a splitter valve located within 6 inches behind the cab. Single draw and return is an option in some cases. A third tank support is required with this tank unless heavy-duty 7 in. wide supports are specified.	$2,175	169#
7216150	Fuel Tank: 150 US gallon 24.5in. aluminum BOC add. Class 8 fuel tanks w/ o locking caps include an anti-siphon device on the filler neck. Multiple tank installations include a fuel equalization system w/ dual draw and return lines with a splitter valve located within 6 inches behind the cab. Single draw and return is an option in some cases. A third tank support is required with this tank unless heavy-duty 7 in. wide supports are specified.	$2,175	176#

Aluminum Diesel

28.5"

Under - Replace

7510090	Fuel Tank: 90 US gallon 28.5in. aluminum under replace. Class 8 fuel tank includes an anti-siphon device on the filler neck. * Full chassis fairings are not available with the 28 inch diameter fuel tanks. * Not available on the T400 or T8SH with extended steps. * This fuel tank size is not available on the T800 model with exhaust styles that include vertical tailpipes on the side of AeroCab sleepers. * With 28.5 inch fuel tanks specified, Kenworth Engineering's minimum ground clearance requirements may not be met. Contact Division Application Engineering for additional information and review if required.	$326	0#
7510120	Fuel Tank: 120 US gallon 28.5in. aluminum under replace. Class 8 fuel tank includes an anti-siphon device on the filler neck. * Full chassis fairings are not available with the 28 inch diameter fuel tanks. * Not available on the T400 or T8SH with extended steps. * With 28.5 inch fuel tanks specified, Kenworth Engineering's minimum ground clearance requirements may not be met. Contact Division Application Engineering for additional information and review if required.	$396	72#

Aluminum Split Diesel Fuel-Hydraulic

Under - Add

7212152	Fuel hydraulic 150 US gallon 24.5in. aluminum under add. Split fuel 100 gallon, hydraulic 50 gallon. Class 8 fuel tanks w/ o locking caps include an anti-siphon device on the filler neck. Multiple tank installations include a fuel equalization system w/ dual draw and return lines with a splitter valve located within 6 inches behind the cab. Single draw and return is an option in some cases. A third tank support is required with this tank unless heavy-duty 7 in. wide supports are specified. * A third fuel tank support is required with 24.5 x 150 gallon fuel tank on T680 split-fender hood daycab with extended steps on the fuel tank and aerodynamic side extenders. * Hydraulic tanks are not shipped with a vent. The tanks arrive with a top mounted filler neck and a 1.5 inch pipe flange ready for vent installation. To prevent damage to the tank the maximum vent capacity should always be used. * Only one hydraulic tank per order is available from the factory. This includes split fuel/hydraulic tanks. * Split fuel/hydraulic tanks cannot have fittings on both ends of the tanks, only one and has hydraulic fluid the other end is fuel. * This tank is not available on a T660 with fairings under the cab..	$2,058	189#

Hydraulic

Tanks

7701056	Hydraulic Tank: 56 US gallon 22in. aluminum add. * Only one hydraulic tank per order is available from the factory. This includes split fuel/hydraulic tanks. * Small tanks located behind the cab are not for use with full or partial length chassis fairings due to lack of tank fill access.	$1,365	99#

Hydraulic

Tanks

7721060	Hydraulic Tank: 60 US gallon 24.5in. Aluminum add.	$802	94#
	* Hydraulic tank is too short to provide a safe step under the cab. If the tank is located under the cab 75 gallons is the minimum suggested capacity.		
	* Hydraulic tanks located under the cab are not a good match for AeroCab style exhaust.		
	* Only one hydraulic tank per order is available from the factory. This includes split fuel/hydraulic tanks.		
	* Small tanks located behind the cab are not for use with full or partial length chassis fairings due to lack of tank fill access.		

Tank Location

7889801	Hydraulic tank location right side under cab.	$0	0#
	* Hydraulic tanks under the cab are available on the T800 with a minimum capacity of 75 gallons.		
7889802	Hydraulic tank location left side under cab.	$0	0#
	* Hydraulic tanks under the cab are available on the T800 with a minimum capacity of 75 gallons.		
7889803	Hydraulic tank location right side behind cab.	$0	0#
7889804	Hydraulic tank location left side behind cab.	$0	0#
7889807	Hydraulic tank location rearmost right side behind cab.	$0	0#
7889808	Hydraulic tank location rearmost left side behind cab.	$0	0#

Tank Fittings Location

7889810	2 hydraulic tank fittings, forward top, bottom.	$0	0#
	* Hydraulic fittings in the forward position are not available when the tank is located under the cab on either side. Use rear fittings with this tank location.		
7889811	2 hydraulic tank fittings, rear top, bottom.	$0	0#
7889812	2 hydraulic tank fittings, 1 forward bottom, 1 rear bottom.	$0	0#
	* Hydraulic tank fittings on forward end at bottom and rear end at bottom of the tank are only available with tanks located behind the cab. Not available on split fuel/hydraulic tanks in any position.		
	* Split fuel/hydraulic tanks cannot have fittings on both ends of the tanks, only one and has hydraulic fluid the other end is fuel.		
	* With hydraulic tank fittings on both ends of the tank there is a four inch additional clear frame requirement.		
7889819	4 Hydraulic tank fittings, 2 forward top/ bottom, 2 rear top/bottom.	$54	0#
	* Split fuel/hydraulic tanks cannot have fittings on both ends of the tanks, only one and has hydraulic fluid the other end is fuel.		
	* With hydraulic tank fittings on both ends of the tank there is a four inch additional clear frame requirement.

7840015	Polish only one aluminum tank.	$406	0#
7840029	Polish only two aluminum tanks.	$711	0#

Option	Description	Price	Weight

Bright Finish

Polished Stainless Steel

7889061	Polished stainless steel tank straps for 1 tank.	$77	0#
	* Polished fuel tank straps will not be visible with full chassis fairings.		
	* Polished fuel tank straps, not 7 inch wide supports, one tank only.		
	* When polished fuel tank straps are requested the customer may also want polished DEF straps [unless they request a polished tank cover].		
7889062	Polished stainless steel tank straps for 2 tanks.	$155	0#
	* Polished fuel tank straps will not be visible with full chassis fairings.		
	* Polished fuel tank straps, not 7 inch wide supports, two tanks only.		
	* When polished fuel tank straps are requested the customer may also want polished DEF straps [unless they request a polished tank cover].		
7889081	Polish only 7in. stainless steel straps for one 24.5in. tank; 2 straps per tank.	$136	0#
	* Polished straps when 7 inch wide tank supports and straps are coded for a single fuel tank. Must code separately for the options.		
	* When polished fuel tank straps are requested the customer may also want polished DEF straps [unless they request a polished tank cover].		
7889082	Polish only 7in. stainless steel straps for two 24.5in. tanks; 2 straps per tank.	$271	0#
	* Polished straps when 7 inch wide tank supports and straps are coded for two fuel tanks. Must code separately for the options.		
	* When polished fuel tank straps are requested the customer may also want polished DEF straps [unless they request a polished tank cover].		
7889083	Polish only 7in. stainless steel straps for three 24.5in. tanks; 2 straps per tank.	$407	0#
	* Polished fuel tank straps, with 7 inch wide supports, three tanks only.		
	* When polished fuel tank straps are requested the customer may also want polished DEF straps [unless they request a polished tank cover].		

Fuel Tank Equipment

Fuel Tank Steps

7831006	6in. wide lower fuel tank step, for one 22in. or 24.5in. or T300 rectangular tank RH.	$33	2#
	* 6 inch wide bottom step for tanks located under the cab. For use with 22 inch or 24 inch tank diameters only. Not available with heavy-duty 7 inch wide fuel tank supports.		
	* Option for 6 inch wide bottom step on tank under the cab is incompatible with request for tanks steps extended behind the cab for frame access.		
	* This step option requires a RH under cab fuel tank.		
7831007	6in. wide lower fuel tank step, for two 22in. or 24.5in. tanks.	$66	4#
	* 6 inch wide bottom step for tanks located under the cab. For use with 22 inch or 24 inch tank diameters only. Not available with heavy-duty 7 inch wide fuel tank supports.		
	* Option for 6 inch wide bottom step on tanks under the cab is incompatible with request for tanks steps extended behind the cab for frame access.		
7831008	6in. wide lower fuel tank step, for one 22in. or 24.5in. tank LH.	$33	2#
	* 6 inch wide bottom step for tanks located under the cab. For use with 22 inch or 24 inch tank diameters only. Not available with heavy-duty 7 inch wide fuel tank supports.		
	* Option for 6 inch wide bottom step on tank under the cab is incompatible with request for tanks steps extended behind the cab for frame access.		
	* This step option requires a LH under cab fuel tank.

Fuel Tank Equipment

Fuel Tank Steps

7831030	Fuel Tank Steps: 6in. wide upper & lower F/1 RH under round tank 22in. NFPA Compliant. * Not for use with tanks steps extended BOC for frame access. Not for use with heavy-duty 7 inch wide tank supports. * This step option requires a RH under cab fuel tank.	$256	8#
7831032	Fuel Tank Steps: 6in. wide upper & lower F/1 LH under round tank 22in. NFPA Compliant. * Not for use with tanks steps extended BOC for frame access. Not for use with heavy-duty 7 inch wide tank supports. * This step option requires a LH under cab fuel tank.	$256	8#
7831034	Fuel Tank Steps: 6in.wide upper & lower 1RH/1LH under round tank 22in. Only NFPA Compliant. * Not for use with tank steps extended BOC for frame access. Not for use with heavy-duty 7 inch wide tank supports. * Option for 6 inch wide bottom step on tanks under the cab is incompatible with request for tanks steps extended behind the cab for frame access. * This step option requires both a LH and RH under cab fuel tank.	$512	16#
7831040	Fuel Tank Steps: 6in. wide upper & lower F/1 RH under round tank 24.5in. NFPA Compliant. Includes fuel tank crossbrace. * Not for use with tanks steps extended BOC for frame access. Not for use with heavy-duty 7 inch wide tank supports. * This step option requires a RH under cab fuel tank.	$255	8#
7831042	Fuel Tank Steps: 6in. wide upper & lower F/1 LH under round tank 24.5in. NFPA Compliant. Includes fuel tank crossbrace. * Not for use with tanks steps extended BOC for frame access. Not for use with heavy-duty 7 inch wide tank supports. * This step option requires a LH under cab fuel tank.	$255	8#
7831044	Fuel Tank Steps: 6in.wide upper & lower 1RH/1LH under round tank 24.5in. NFPA Compliant. Includes fuel tank crossbrace. * Not for use with tank steps extended BOC for frame access. Not for use with heavy-duty 7 inch wide tank supports. * This step option requires both a LH and RH under cab fuel tank.	$510	16#

Option	Description	Price	Weight

Fuel Tank Equipment

Fuel Tank Steps

7839400 Extended steps on fuel tank LH under for access; 2 steps/1 tank. $54 2#

* All orders must have complete frame access if any one of the three components is selected. Step and grab handle on the same side of the vehicle accompanied by deck plate.
* Extended fuel tank steps require a 24.5 x 150 gallon tank under cab on T680 with under cab fairings.
* Extended fuel tank steps require a third tank support on T680 with under cab fairings.
* Extended steps on fuel tank under the cab for LH frame access are not available with dual independent exhaust.
* Extended steps on fuel tanks located under the cab cannot be used with a sleeper. These steps do not extend far enough back with a vertical independent DPF/SCR exhaust system to constitute frame access, the options are not available together.
* Extended steps under the cab for frame access require a minimum fuel tank size of 22 inch diameter x 100 gallons, or 24.5 inch diameter x 120 gallons on the T800 daycab.
* Extended steps under the cab for frame access require a minimum fuel tank size of 22 inch diameter x 120 gallons, or 24.5 inch diameter x 150 gallons on the W900 daycab.
* Left hand under cab extended steps for frame access are not compatible with the clear back of cab [CBOC] DEF tank. Right hand extended steps are fine.
* On T680 split-fender hood daycab with aerodynamic side extenders requesting extended steps on tanks under cab requires a 24.5 x 150 gallon fuel tank. Smaller capacities are not available.
* On T680 split-fender hood daycab without aerodynamic side extenders requesting extended steps on 22 inch diameter tanks under cab requires a minimum capacity of 100 gallons.
* On T680 split-fender hood daycab without aerodynamic side extenders requesting extended steps on 24.5 inch diameter tanks under cab with quantity 2 tank supports requires a minimum capacity of 120 gallons.
* On T680 split-fender hood daycab without aerodynamic side extenders requesting extended steps on 24.5 inch diameter tanks under cab with quantity 3 tank supports requires a minimum capacity of 110 gallons.
* On T680 split-fender hood daycab without aerodynamic side extenders requesting extended steps on 28 inch diameter tanks under cab requires a minimum capacity of 135 gallons.

7839405 Extended steps on fuel tank RH under for access; 2 steps, 1 tank. $54 2#

* All orders must have complete frame access if any one of the three components is selected. Step and grab handle on the same side of the vehicle accompanied by deck plate.
* Extended fuel tank steps require a 24.5 x 150 gallon tank under cab on T680 with under cab fairings.
* Extended fuel tank steps require a third tank support on T680 with under cab fairings.
* Extended steps on fuel tanks located under the cab cannot be used with a sleeper. These steps do not extend far enough back with a vertical independent DPF/SCR exhaust system to constitute frame access, the options are not available together.
* Extended steps under the cab for frame access require a minimum fuel tank size of 22 inch diameter x 100 gallons, or 24.5 inch diameter x 120 gallons on the T800 daycab.
* Extended steps under the cab for frame access require a minimum fuel tank size of 22 inch diameter x 120 gallons, or 24.5 inch diameter x 150 gallons on the W900 daycab.
* On T680 split-fender hood daycab with aerodynamic side extenders requesting extended steps on tanks under cab requires a 24.5 x 150 gallon fuel tank. Smaller capacities are not available.
* On T680 split-fender hood daycab without aerodynamic side extenders requesting extended steps on 22 inch diameter tanks under cab requires a minimum capacity of 100 gallons.
* On T680 split-fender hood daycab without aerodynamic side extenders requesting extended steps on 24.5 inch diameter tanks under cab with quantity 2 tank supports requires a minimum capacity of 120 gallons.
* On T680 split-fender hood daycab without aerodynamic side extenders requesting extended steps on 24.5 inch diameter tanks under cab with quantity 3 tank supports requires a minimum capacity of 110 gallons.
* On T680 split-fender hood daycab without aerodynamic side extenders requesting extended steps on 28 inch diameter tanks under cab requires a minimum capacity of 135 gallons.

Fuel Tank Equipment

Tank Plumbing Equipment

7882104	Insulated fuel draw lines.	$114	0#

Tank Supports

7814005	Steel raised tank supports 2.7 in. BOC for 22in. fuel, hydraulic tanks.	$216	0#

* Fuel tank supports raised 2.7 inches for 22 inch diameter tanks located behind the cab. Not for use with 7 inch wide supports due to tanks diameter restriction.
* Request for raised fuel tank supports is available only for tanks behind the cab.
* The clear back of cab [CBOC] DEF tank is incompatible with raised fuel tank supports.

7821100	Heavy-duty 7in. steel supports/straps for one 24.5 in tank. Two supports per tank.	$284	18#

* 7 inch wide heavy-duty fuel tank supports cannot be used with side of cab exhaust and 24.5 inch diameter fuel tanks sizes of 75 gallon through 110 gallon mounted LH under cab with the split-fender hood.
* 7 inch wide supports will not fit on a 45 gallon tank.
* 7 wide supports for a single tank installation. For use without full chassis fairings.
* Heavy-duty 7 inch wide fuel tank supports are available only with 24.5 inch diameter fuel tanks.
* Heavy-duty 7 inch wide fuel tank supports will not fit on a 75 gallon tank located under the T800 with side of cab exhaust.
* Heavy-duty 7 inch wide tank supports cannot be used with the clear back of cab [CBOC] DEF tank option.
* Heavy-duty strap anchors are not for use with 7 inch wide tank supports. Not for use with severe service. Not available with the clear back of cab [CBOC] DEF tank.
* In export operating areas tanks may tend to rotate and require 7 inch tank supports or mechanical anti roll for all fuel tanks on the order.
* In the Canadian oil field or in Canadian logging service areas tanks may tend to rotate and require 7 inch tank supports or mechanical anti-roll for all fuel tanks on the order.

7821300	Heavy-duty 7in. steel supports/straps for two 24.5in. tanks. Two supports per tank.	$568	36#

* 7 inch wide heavy-duty fuel tank supports cannot be used with side of cab exhaust and 24.5 inch diameter fuel tanks sizes of 75 gallon through 110 gallon mounted LH under cab with the split-fender hood.
* 7 inch wide supports for two tank installation. For use without full chassis fairings.
* 7 inch wide supports will not fit on a 45 gallon tank.
* Heavy-duty 7 inch wide fuel tank supports are available only with 24.5 inch diameter fuel tanks.
* Heavy-duty 7 inch wide fuel tank supports will not fit on a 75 gallon tank located under the T800 with side of cab exhaust.
* Heavy-duty 7 inch wide tank supports cannot be used with the clear back of cab [CBOC] DEF tank option.
* Heavy-duty strap anchors are not for use with 7 inch wide tank supports. Not for use with severe service. Not available with the clear back of cab [CBOC] DEF tank.
* In export operating areas tanks may tend to rotate and require 7 inch tank supports or mechanical anti roll for all fuel tanks on the order.
* In the Canadian oil field or in Canadian logging service areas tanks may tend to rotate and require 7 inch tank supports or mechanical anti-roll for all fuel tanks on the order.

Option	Description	Price	Weight

Fuel Tank Equipment

Tank Miscellaneous

7880009	Mechanical anti-roll channel for one tank.	$36	6#
	* In export operating areas tanks may tend to rotate and require 7 inch tank supports or mechanical anti roll for all fuel tanks on the order.		
	* In the Canadian oil field or in Canadian logging service areas tanks may tend to rotate and require 7 inch tank supports or mechanical anti-roll for all fuel tanks on the order.		
	* Mechanical anti-roll channel for a single tank. Incompatible with 7 inch wide supports and straps.		
7880010	Mechanical anti-roll channel for two tanks.	$73	13#
	* In export operating areas tanks may tend to rotate and require 7 inch tank supports or mechanical anti roll for all fuel tanks on the order.		
	* In the Canadian oil field or in Canadian logging service areas tanks may tend to rotate and require 7 inch tank supports or mechanical anti-roll for all fuel tanks on the order.		
	* Mechanical anti-roll channel for use with quantity two fuel tanks. Incompatible with 7 inch wide supports and straps.		
7881300	Welded-in fitting w/ gasket & cover plate for mounting customer-installed fuel tank heater.	$27	0#
7883701	Heavy-duty tank strap anchors. Only available with 28.5 in. fuel tanks.	$35	4#
	* Heavy-duty strap anchors are not for use with 7 inch wide tank supports. Not for use with severe service. Not available with the clear back of cab [CBOC] DEF tank.		
	* Only available when 28.5 inch fuel tank diameter is used.		
7884051	CNG BOC, BOS Cabinet Height - Low. Measurement is less than or equal to low roof range.	$0	0#
	* Natural gas tank mounting positions and cab height codes are only available with natural gas engines.		
7884052	CNG BOC, BOS Cabinet Height - Mid. Measurement is greater than low roof but less than high roof range.	$0	0#
	* Natural gas tank mounting positions and cab height codes are only available with natural gas engines.		
7884053	CNG BOC, BOS Cabinet Height - High. Measurement is greater than or equal to high roof range.	$0	0#
	* Natural gas tank mounting positions and cab height codes are only available with natural gas engines.		
7884054	CNG/LNG Frame Rail Mounted Tank Only.	$0	0#
	* A natural gas fueled chassis requires the selection of a tank mounting position sales-code.		
	* Natural gas tank mounting positions and cab height codes are only available with natural gas engines.		
	* Only BOC/BOS mounted natural gas fuel tanks will require a cabinet height sales-codes selection.		
7884055	CNG Body Mounted Cabinet Only.	$0	0#
	* A natural gas fueled chassis requires the selection of a tank mounting position sales-code.		
	* Natural gas tank mounting positions and cab height codes are only available with natural gas engines.		
	* Only BOC/BOS mounted natural gas fuel tanks will require a cabinet height sales-codes selection.		
7884056	CNG Body Mounted Cabinet with Frame Mounted Tank.	$0	0#
	* A natural gas fueled chassis requires the selection of a tank mounting position sales-code.		
	* Natural gas tank mounting positions and cab height codes are only available with natural gas engines.		
	* Only BOC/BOS mounted natural gas fuel tanks will require a cabinet height sales-codes selection.		

Option	Description	Price	Weight

Fuel Tank Equipment

Tank Miscellaneous

7884057	CNG BOC, BOS Mounted Cabinet Only.	$0	0#
	* A natural gas fueled chassis requires the selection of a tank mounting position sales-code.		
	* Back of sleeper, or back of cab mounted natural gas fuel placements require a sales-code indicating the height of the fuel cabinet.		
	* Natural gas tank mounting positions and cab height codes are only available with natural gas engines.		
	* Only BOC/BOS mounted natural gas fuel tanks will require a cabinet height sales-codes selection.		
7884058	CNG BOC, BOS Mounted Cabinet with Frame Mounted Tank.	$0	0#
	* A natural gas fueled chassis requires the selection of a tank mounting position sales-code.		
	* Back of sleeper, or back of cab mounted natural gas fuel placements require a sales-code indicating the height of the fuel cabinet.		
	* Natural gas tank mounting positions and cab height codes are only available with natural gas engines.		
	* Only BOC/BOS mounted natural gas fuel tanks will require a cabinet height sales-codes selection.		
7889003	Fuel fill rear tank(s) under.	$0	0#
	* Rear fill for under cab fuel tanks is not available with the clear back of cab [CBOC] DEF tank.		
	* Rear fill is not available on 24.5 x 100 gallon fuel tanks LH under cab combined with side of cab exhaust on left side for a T680 split-fender hood.		
	* The minimum tank capacity to ensure the filler neck is located behind the cab is 24.5 x 120 gallons.		
	* This option relocates the filler neck from under the door to the rear of the tank.		
7889006	Fuel fill forward tank(s) BOC.	$0	0#
	* Forward fuel fill for tanks located behind the cab is not for use with full chassis fairings. If a sleeper is specified the fill position will be under the sleeper.		
7889021	Fuel tank locking cap(s). Not available w/ hydraulic tank. Tank lock does not match ignition/cab/sleeper locks.	$52	0#
	* Fuel cap keys will not match the key for cab or sleeper door locks.		
	* Locking fuel caps are incompatible with the fuel anti-siphon device. When the locking caps are ordered the anti-siphon device will not be present.		
	* Locking fuel tank caps for use with any number of fuel tanks. Hydraulic tanks never receive a locking cap.		
	* Requests for matching keys for fuel caps must always be accompanied with a code for the locking caps.		
	* The fuel cap key will not match the key for cab or sleeper doors. If more than one chassis is specified consider keying tank caps for all chassis in the fleet alike.		
7889227	Fuel tank caps for a fleet keyed alike. Use w/ locking fuel tank cap code 7889021.	$25	0#
	* Fuel cap keys will not match the key for cab or sleeper door locks.		
	* Requests for matching keys for fuel caps must always be accompanied with a code for the locking caps.		
7889245	Anti-siphon device swaged in place. For any number of fuel tanks.	$58	1#
	* Anti-siphon will not fit in steel fuel tank filler necks.		
	* The anti-siphon device is standard on all heavy-duty models with aluminum fuel tanks, sales code is required.

DEF Tanks & Equipment

Tanks

7722005	DEF tank 6.9 clear BOC [CBOC], requires LH under cab fuel tank. This tank has 6.9 gallons of useable volume. The tank will be located inboard of the LH under cab fuel tank. There is no frame space required to locate this tank. Not for use on sleeper chassis. Standard capacity is calculated by fuel capacity of the vehicle and will accommodate two diesel fill-ups for every DEF fill-up. For 1:1 DEF fuel fill ratio, add 7889204. * Heavy-duty 7 inch wide tank supports cannot be used with the clear back of cab [CBOC] DEF tank option. * Incompatible with a sleeper. DEF capacity is very low with this tank and would not be appropriate for the fuel volume that supports most sleeper units. * Left hand under cab extended steps for frame access are not compatible with the clear back of cab [CBOC] DEF tank. Right hand extended steps are fine. * Not available for use with dual side of cab exhaust. * Only for use with a fuel tank diameter of 22 or 24.5 inches. * Rear fill for under cab fuel tanks is not available with the clear back of cab [CBOC] DEF tank. * The Clear Back Of Cab [CBOC] DEF tank is incompatible with any heated fuel tank. * The clear back of cab [CBOC] DEF tank can only be used in the LH under cab position with a fuel tank in the same location. * The clear back of cab [CBOC] DEF tank cannot be used with low left hand back of cab components such as pusher controls. * The clear back of cab [CBOC] DEF tank is incompatible with raised fuel tank supports. * The clear back of cab [CBOC] DEF tank is incompatible with side extenders. * This option is only for use with a fuel tank LH under cab. The standard under cab battery box will not work.	$52	-23#

Option	Description	Price	Weight

DEF Tanks & Equipment

Tanks

7722011	Small round DEF tank. 11 gallons of useable volume. The DEF tank will be located on the side you specified. If you have specific configuration or body builder concerns, please utilize the Custom Frame Layout option. Standard capacity is calculated by fuel capacity of the vehicle and will accommodate two diesel fill-ups for every DEF fill-up. For 1:1 DEF fuel fill ratio, add 7889204.	STD	0#
7722019	Medium round DEF tank. 20.7 gallons of useable volume. The DEF tank will be located on the side you specified. If you have specific configuration or body builder concerns, please utilize the Custom Frame Layout option. Standard capacity is calculated by fuel capacity of the vehicle and will accommodate two diesel fill-ups for every DEF fill-up. For 1:1 DEF fuel fill ratio, add 7889204.	$188	32#
7722031	Large round DEF tank. 31.1 gallons of useable volume. The DEF tank will be located on the side you specified. If you have specific configuration or body builder concerns, please utilize the Custom Frame Layout option. Standard capacity is calculated by fuel capacity of the vehicle and will accommodate two diesel fill-ups for every DEF fill-up. For 1:1 DEF fuel fill ratio, add 7889204. * Most truck stop fuel fill islands have DEF fill capability only on the LH side. For ease of filling a LH DEF tank location should be considered.	$385	39#

DEF Tank Miscellaneous

7840038	Polished cover for 1 DEF tank any size. * The options for DEF tank polish are for use only with the round tanks. Not available with the clear back of cab [CBOC] or aerodynamic style DEF tanks. * The polished DEF tank cover obstructs the view of the DEF tank/straps. There is no provision to order polished straps in combination with the polished cover.	$275	3#
7889098	Polished straps for 1 DEF Tank any size. * The options for DEF tank polish are for use only with the round tanks. Not available with the clear back of cab [CBOC] or aerodynamic style DEF tanks. * The polished DEF tank cover obstructs the view of the DEF tank/straps. There is no provision to order polished straps in combination with the polished cover. * When polished fuel tank straps are requested the customer may also want polished DEF straps [unless they request a polished tank cover].	$73	0#
7889203	Standard DEF to fuel fill ratio: 2:1 or greater.	$0	0#
7889204	Optional DEF to fuel fill ratio between 1:1 and 2:1.	$0	0#

DEF Tank Location

7889603	DEF tank location is on the RH. * Most truck stop fuel fill islands have DEF fill capability only on the LH side. For ease of filling a LH DEF tank location should be considered.	$0	0#
7889604	DEF tank location is on the LH. * On T680/T880 day cabs without deck plates, LH DEF tank will have the DEF lines will be routed above the rail. * This location is not available on the T660 with a 22 inch diameter 120 gallon fuel tank located LH under the cab when RH under cab exhaust is specified.	$0	0#

Fuel Tank Miscellaneous

7210000	Delete base model gallon aluminum fuel tank. Hardware & plumbing deleted. * ISL-G and ISX12-G engines do not utilize any diesel tanks.	($1,205)	-81#

Option	Description	Price	Weight

Cabs

8024310	Cab: Curved Glass Conventional. Cab Includes aluminum & fiberglass fully hucked cab w/ all aluminum bulkhead doors & continuous stainless steel piano-style door hinges. Single electric horn standard. Incandescent exterior lights include diagnosable bulb detection and warning. Trailer cable on tractors includes integrity detection. Standard features include multiplex wiring for interior lights, automated pre-trip inspection, short and open check diagnostics. Warning alarm will sound when lights are left on. * Curved glass daycab can be coupled with optional modular sleeper. Includes heavy-duty reinforcements on the C500, no separate code required. Okay for T4 series chassis. Cannot be used with AeroCab sleeper, see 8025300. * T660 daycab/extended daycab only available with export engine. * The curved glass cab is not compatible with sheet metal hoods.	STD	0#
8025300	Cab: AeroCab Curved Glass Conventional. AeroCab includes aluminum & fiberglass fully hucked cab w/ all aluminum bulkhead doors & continuous stainless steel piano-style door hinge & pins. Available only w/ AeroCab sleepers. Not for use on W900 w/ set forward axle. C500B: 123 in. BBC. 74 in. FA to BOC. T660B: 122 in. BBC. 74 in. FA to BOC. T800B: 121 in. BBC. 74 in. FA to BOC. W900B: 120 in. BBC. 90 in. FA to BOC. W900L: 130in. BBC. 100 in. FA to BOC. Incandescent exterior lights include diagnosable bulb detection and warning. Trailer cable on tractors includes integrity detection. Standard features include multiplex wiring for interior lights, automated pre-trip inspection, short and open check diagnostics, and programmable daytime running lights. Warning alarm will sound when lights are left on. * AeroCab curved glass cab always requires an AeroCab sleeper sales code. Not twin steer chassis. Expanded availability to both the T4 series and the C500 for 2010. * AeroCab sleeper on the T4 series requires 8-1/2 foot wide mirror brackets or aerodynamic mirrors. * The W900S model is not for use in an AeroCab sleeper configuration.	$0	0#
8049001	Cab: Extended Day Cab w/ Curved Glass. Includes aluminum & fiberglass fully hucked cab w/ all aluminum bulkhead doors & continuous stainless steel piano-style door hinge & pins. C500B: 129 in. BBC. 80 in. FA to BOC. T660B: 128 in. BBC. 80 in. FA to BOC. T800B: 127 in. BBC. 80 in. FA to BOC. W900B: 126 in. BBC. 96 in. FA to BOC. W900L: 136in. BBC. 106 in. FA to BOC.Incandescent exterior lights include diagnosable bulb detection and warning. Trailer cable on tractors includes integrity detection. Standard features include multiplex wiring for interior lights, automated pre-trip inspection, short and open check diagnostics, and programmable daytime running lights. Warning alarm will sound when lights are left on. * 2017 emissions horizontal under frame exhaust with back of sleeper tailpipes is not available with day cabs or 40" sleepers on 2.1m product and is also not available with day cabs, extended day cabs, 38" sleepers, or 42" sleepers on 1.9m product. * Stowable armrests are not available on the extended daycab. Seats will come with a single inboard flip-able armrest. No code required, and no options. * T660 daycab/extended daycab only available with export engine. * The extended daycab is not available with a sleeper. * The extended daycab requires some type of rear cab window. * This option is not available with a 2-man bench seat replacing the passenger seat.	$3,866	174#

Option	Description	Price	Weight

Sleepers

8077538	Sleeper: 38 in. AeroCab FlatTop sleeper.	$10,360	544#
	* 2017 emissions horizontal under frame exhaust with back of sleeper tailpipes is not available with day cabs or 40" sleepers on 2.1m product and is also not available with day cabs, extended day cabs, 38" sleepers, or 42" sleepers on 1.9m product.		
	* AeroCab sleepers must use cab code 8025300. Sleeper style is incompatible with twin steer configurations.		
	* Not available with ISL-G engines.		
	* Sleeper cab requires 160 amp mimimum alternators.		
	* The 38 inch AeroCab sleeper can be approved with up to 20% class C road use. Other size AeroCab sleepers are limited to 3% combined class C and class D service.		

Windows

Rear Cab

8871438	Rear Cab Stationary Window 17 in. x 36 in.	STD	0#
	* If the body or trailer exterior will have a highly polished finish consider purchasing dark tint windows to reduce glare and heat transference into the cab.		
8871445	Rear cab stationary window 17 in. x 36 in. dark tint.	$31	0#
8873795	Rear cab sliding window 17 in. x 36 in.	$134	2#
	* If the body or trailer exterior will have a highly polished finish consider purchasing dark tint windows to reduce glare and heat transference into the cab.		
	* Not available on Russian Compliant vehicles.		
8873796	Rear cab sliding window 17 in. x 36in. dark tint.	$132	2#
	* Not available on Russian Compliant vehicles.		
8879922	Solid rear wall. Deletes rear cab window.	$0	-8#
	* Requesting a solid rear cab wall will delete standard rear window. Not required for sleeper chassis, where any rear window would be optional. Not available for the extended day cab.		

Corner & Rear Cab

8879911	Two corner & one rear cab stationary windows 17.5 in. x 16 in. (two) & 17 in. x 36 in. (one).	$535	15#
	* Cab speakers interfere with corner window placement for daycabs. Corner windows and speakers can be used in combination with the extended daycab.		
	* For best visibility a low back passenger seat is recommended for use with rear cab corner windows.		
	* If the body or trailer exterior will have a highly polished finish consider purchasing dark tint windows to reduce glare and heat transference into the cab.		
	* Rear cab corner windows are not for use with side extenders as the options cover the cab corners.		
8879913	Two corner & one rear cab sliding windows 17.5 in. x 16 in. (two) & 17 in. x 36 in. (one).	$671	17#
	* Cab speakers interfere with corner window placement for daycabs. Corner windows and speakers can be used in combination with the extended daycab.		
	* For best visibility a low back passenger seat is recommended for use with rear cab corner windows.		
	* If the body or trailer exterior will have a highly polished finish consider purchasing dark tint windows to reduce glare and heat transference into the cab.		
	* Not available on Russian Compliant vehicles.		
	* Rear cab corner windows are not for use with side extenders as the options cover the cab corners.		

Option	Description	Price	Weight

Windows

Rear Sleeper

8873729	Rear Sleeper Sliding Window 17 in. x 28 in. tinted, w/ curtains.	$422	19#
	* Not available on Russian Compliant vehicles.		
	* Rear sleeper window is not for use with sofa beds, or on 86 inch Studio AeroCab without request for sofa bed deletion.		
8873750	Rear sleeper stationary window 17 in. x 28 in. dark tint, w/ curtains.	$373	19#
	* Rear sleeper window is not for use with sofa beds, or on 86 inch Studio AeroCab without request for sofa bed deletion.		

RH Peeper Door

8879590	Fresnel lens for peeper window, RH door 10-1/8 in. X 11-1/8 in. Replaces standard peeper window.	$64	0#
	* Not available on Russian compliant vehicles.		

Hoods, Fenders & Grilles

Hoods, Fenders & Grilles

8090410	Hood: T470 Sloped Hood for straight rail. Includes radiator mounted grille, split fenders, mudflaps, & separate bumper.	$550	0#
	* On the T470 the fuel cooler and power steering cooler are a single unit. Add a power steering cooler when a fuel cooler is specified.		
	* On the T470 the fuel cooler and power steering cooler are a single unit. The power steering cooler must be added to orders specifying a single fuel tank, since a fuel cooler in required is this instance.		
	* T470 model is applicable to daycab, extended daycab, or AeroCab chassis.		
	* T470 with front engine PTO requires the 73 inch bumper setting.		
	* The 50.5 inch bumper setting is exclusive to T470 model.		
8090450	Hood: Sloped Aerodynamic T440 Hood. Includes hood and mounted grille, split fenders w/ mudflaps, & separate bumper.	STD	0#
	* The 1300 sq inch radiator can be used on W900S or T440 sloped hood.		
	* The high intensity discharge headlights can only be used with an air suspension on the T440. The chassis must meet Kenworth rake guidelines, and front frame height cannot exceed 32.4 inches to the bottom of the rail. Verify using the Frame Rake report in PROSPECTOR.		
	* This T440 hood can be used with curved glass daycab, extended daycab, or with the AeroCab accompanied by a 38 inch sleeper.		

Other

8890351	2 in. rubber wheelwell fender extension.	$163	8#
	* Extra wide front mud flaps are required when using wide tires on the front axle. Along with rubber fender extenders use code 6390110.		
	* Wide track front axles require rubber fender extenders when used with front tire widths greater than 12 inches.		
8890353	4 1/2in. rubber wheelwell fender extension.	$255	11#
	* Extra wide front mud flaps are required when using wide tires on the front axle. Along with rubber fender extenders use code 6390110.		
	* Wide track front axles require rubber fender extenders when used with front tire widths greater than 12 inches.		

Option	Description	Price	Weight

Cab & Sleeper Aerodynamic Devices

8829612	Side Extenders: 19 Inch Wide W/Rubber Edges. Rubber Edges Are 7 Inches Wide. Actual Dimension Are 19.25 Inches For Daycabs and 19.75 Inches For Sleepers.	$471	52#
	* Rear cab corner windows are not for use with side extenders as the options cover the cab corners.		
	* Roof fairings and side extenders are products that provide improved aerodynamics. In theory if one is selected the other option is desired to complement it.		

VARASHIELD Wind Deflector

8820221	Varashield wind deflector w/ manual angle control.	$1,175	61#
	* Marker lights integrated in the exterior sunvisor are required with a cab mounted roof faring.		
	* Rooftop mounted air horns are not available with Varashield.		
	* The structure of daycabs prohibits cab mounted roof fairings when specified front spring capacity is 18,000 lbs. or greater.		
	* The Varashield wind deflector is not for use with AeroCab or Aerodyne style sleepers. Incompatible with a sunroof on daycabs. Not for use with cab mounted Qualcomm tracking unit.		

Airshield Roof Fairing

8823001	One piece Cab roof fairing with side trim tabs and ship loose 7 inch rubber extender. Roof fairing and trim tabs are shipped to dealer from supplier for paint and installation. Use with 19 inch side extender code 8829612. *REPLACES CODE 8823000.	$1,551	92#
	* For use with side extenders.		
	* Marker lights integrated in the exterior sunvisor are required with a cab mounted roof faring.		
	* Not available with cab roof marker lights or cab roof air horns.		
	* The structure of daycabs prohibits cab mounted roof fairings when specified front spring capacity is 18,000 lbs. or greater.		
8823010	One piece roof fairing without side trim tabs. Brackets are painted and installed at plant. Roof fairing is shipped to dealer from supplier for paint and installation. *No rubber extender included.	$983	88#
	* Daycab air shield is not compatible with a sunroof. Requires that the cab roof marker lights be the style that is integrated into the external sunvisor.		
	* Daycab air shield without side trim tabs is for use without side extenders.		
	* Marker lights integrated in the exterior sunvisor are required with a cab mounted roof faring.		
	* Not available with an extended daycab.		
	* Roof fairings and side extenders are products that provide improved aerodynamics. In theory if one is selected the other option is desired to complement it.		
	* The structure of daycabs prohibits cab mounted roof fairings when specified front spring capacity is 18,000 lbs. or greater.		
8891004	Roof fairing for flattop sleeper. 38 inch, 62 inch, or 72 inch sleepers only. Factory painted and includes ship loose 7 inch rubber extender. Use with 19 inch side extender code 8829612. *REPLACES CODE 8890996.	$2,727	94#
	* No roof fairings or roof fairing brackets on T660 with 72 inch or 86 inch flattop or aerodyne sleepers.		

Option	Description	Price	Weight

Cab & Sleeper Aerodynamic Devices

Other

8821916	Brackets only for ONE-piece roof fairing. *Dealer to source roof fairing.	$182	11#

* Brackets for an aftermarket air shield installation are available on flattop sleepers only.
* Marker lights integrated in the exterior sunvisor are required with a cab mounted roof faring.
* No roof fairings or roof fairing brackets on T660 with 72 inch or 86 inch flattop or aerodyne sleepers.
* Roof fairings and side extenders are products that provide improved aerodynamics. In theory if one is selected the other option is desired to complement it.
* The structure of daycabs prohibits cab mounted roof fairings when specified front spring capacity is 18,000 lbs. or greater.

Cab Structure Miscellaneous

8080137	Cab door bearing blocks, top & bottom.	$29	0#

* Cab door bearing blocks are required on all chassis operating in Canada in the logging or oil field vocations. This is included as part of a Severe Service kit.
* Cab door bearing blocks are required on all export operating area chassis. This feature is included in Severe Service kits.
* Cab door bearing blocks or a Severe Service kit is recommended on all heavy haulers operating in Canada with GCW over 120K.

8800439	Grabhandle RH 36 in. BOC.	$69	2#

* 36 inch tubular grab handles mounted to the back of cab or sleeper are not for use with independent exhaust or exhaust with BOC/S mounted tailpipe
* All orders must have complete frame access if any one of the three components is selected. Step and grab handle on the same side of the vehicle accompanied by deck plate.
* Tubular style back of cab mounted grab handles will not fit on the extended daycab due to the structure of the cab.

8800440	Grabhandle LH 36 in. BOC.	$69	2#

* 36 inch tubular grab handles mounted to the back of cab or sleeper are not for use with dual independent exhaust, dual exhaust with BOC/S mounted tailpipe, or LH single independent exhaust.
* All orders must have complete frame access if any one of the three components is selected. Step and grab handle on the same side of the vehicle accompanied by deck plate.
* Tubular style back of cab mounted grab handles will not fit on the extended daycab due to the structure of the cab.

8890869	Severe service reinforcements for aluminum cab sill.	$197	17#

* Severe Service reinforcement for the aluminum cab sill. Not for use on C500 which has a cab code specific to this need. Not for use on AeroCabs.
* Severe Service vehicles operating in Canada require the reinforced cab sill option on daycab chassis.
* The Severe Service kit on T800 models requires a heavy-duty rear cab support crossmember and reinforced cab sills.

8890872	Kenworth cab/sleeper air suspension for use w/ 38/62/72/86 in. AeroCabs only.	$0	0#

* AeroCab air cab/sleeper suspension is not for use with 11-5/8 inch rails due to distance between rail and cab, except on C500 with 38 inch sleeper due to cab height.
* AeroCab cab/sleeper suspension is standard on Studio sleeper without a sales code.
* AeroCab sleeper suspension is required on all AeroCab sleeper chassis. The suspension is not for use with modular sleepers.
* Air shifted 4-speed auxiliary transmissions are not compatible with air cab or sleeper suspensions due to physical interference issues.
* Heavy-duty rear cab support is not compatible with an air cab suspension.

Option	Description	Price	Weight
	Cab Structure Miscellaneous		
8890898	Link Cabmate suspension.	$594	22#
	* Air shifted 4-speed auxiliary transmissions are not compatible with air cab or sleeper suspensions due to physical interference issues.		
	* Heavy-duty rear cab support is not compatible with an air cab suspension.		
	* Link Cabmate cab air suspension for non-AeroCabs only. Not for use with top mounted PTO.		
	* The cab air suspension is not available on the C500 model used with a front drive axle.		
	* The rear cab or sleeper air suspension cannot be used with an ATO1750-4C auxiliary transmission.		
8890939	LH Loadlock holder brackets. Mounted on back of cab or sleeper.	$189	11#
	* Loadlock holders are offered only on tractors. Not available for use with BOC mounted tailpipe or independent tailpipe BOS on same side. Not available with independent DPF/SCR BOC or BOS.		
	* Loadlock holders may interfere with Qualcomm MCP200 Satellite (SDM) antenna bracket at upper LH corner BOS.		
	* On models T400, T440, T470, T700, T660, T800, W900 and C500 Loadlock holders impede access to the standard grab handle on the back of cab or sleeper. Coding for side extenders [grab handle inside the extender] or a frame mounted grab handle is required with this option.		
8890940	RH Loadlock holder brackets. Mounted on back of cab or sleeper.	$189	11#
	* Loadlock holders are offered only on tractors. Not available for use with BOC mounted tailpipe or independent tailpipe BOS on same side. Not available with independent DPF/SCR BOC or BOS.		
	* On models T400, T440, T470, T700, T660, T800, W900 and C500 Loadlock holders impede access to the standard grab handle on the back of cab or sleeper. Coding for side extenders [grab handle inside the extender] or a frame mounted grab handle is required with this option.		
	Stainless Steel Miscellaneous		
8700405	Stainless steel permit panels on cab.	$113	13#
	* Stainless steel permit panels under the cab door are not compatible with twin steer chassis configurations.		
	Cab Access		
8800200	Cab access contoured grabhandles, LH/RH.	STD	0#
	* The T4 series models require contoured grab handles on LH/RH sides.		
8800377	LH & RH NFPA Compliant Grabhandles	$280	2#
	* Intended Service must be Fire Related (Fire Truck Service with NFPA Compliance Kit *or* EMT/ Rescue Service)		
	* NFPA compliant grab handles cannot be used in conjunction with side of cab mounted exhaust. The tailpipe position interferes with handle access.		
	* The NFPA compliant grab handles are required with the NFPA kit in all cases where SOC exhaust is not specified. The grab handle installation interferes with side of cab exhaust, so in that instance the body builder is responsible for installing compliant handles.		
8800400	Grabhandle LH inside door frame above dash.	STD	0#
	* These grab handles are required on C500, T660, T800 and W900 models.		
8800401	Grabhandle RH inside door frame above dash.	STD	0#
	* These grab handles are required on C500, T660, T800 and W900 models.		

Option	Description	Price	Weight
	Cab Access		
8800733	Grabhandle LH w/ short extension over door.	$56	4#
	* Grab handles with extension over doors available on day cabs only.		
	* Not available with dual SOC exhaust on T680.		
	* The option for a grab handle with short extension over the door does not permit a duplicate handle in same spot.		
8800734	Grabhandle RH w/ short extension over door.	$56	2#
	* Grab handles with extension over doors available on day cabs only.		
	* Not available with dual SOC exhaust on T680.		
	* T680: Not available with exhaust up right hand side of cab.		
	* The option for a grab handle with short extension over the door does not permit a duplicate handle in same spot.		
	Horns		
8845101	DELETE STD AIR HORN	($61)	0#
	Air Horns		
8841303	Single Rectangular Air Horn 23 in. LH Top of Roof Includes Air Horn Cover.	$75	0#
	* Roof mounted air horns are not available with roof fairing code 8823012.		
8841411	Single air horn under cab.	STD	0#
	* Air horns under the cab floor are required on the T660 model.		
	* Single air horn mounted under the cab floor is not available with T800 twin steer configurations.		
8841618	Dual rectangular air horn 23 in. LH & RH top of roof. Includes air horn covers.	$197	4#
	* Roof mounted air horns (8841618 and 8841628) are not available with roof fairing code 8823011.		
	* Roof mounted air horns are not available with roof fairing code 8823012.		
	Mirrors & Equipment		
	Dual Rear View Mirrors		
8862101	Mirror: Dual Prutsman mirror 7 in. x 16 in. polished stainless steel, and non-heated.	STD	0#
	* Heated convex mirrors are available only with primary mirrors which include heat.		
8865000	Mirror: Dual Kenworth aerodynamic heated motorized 7 in. x 13 in. mirrors. Mirror shell painted cab color, mirror arms black. LH/RH convex mirrors 5 in. x 7 in. heated. Mirror brackets set for 8-1/2 ft load width. Switch located on door pad.	$704	26#
	* Floodlights for the mirror brackets require a code for mirror bracket location. Not for use with aerodynamic mirrors since they have no mounting provision for the bracket		
	* Incompatible with cowl mounted air cleaners.		
	* There are no optional mirror brackets for use with aerodynamic style mirrors.		

Option	Description	Price	Weight

Mirrors & Equipment

Dual Rear View Mirrors

8865001	Mirror: Dual Kenworth aerodynamic heated motorized 7 in. x 13 in. mirror w/ chrome shell. LH/RH convex mirrors 5 in. x 7 in. heated. Mirror brackets set for 8 1/2 ft load width. Switch located on door pad. * Floodlights for the mirror brackets require a code for mirror bracket location. Not for use with aerodynamic mirrors since they have no mounting provision for the bracket * Incompatible with cowl mounted air cleaners. * There are no optional mirror brackets for use with aerodynamic style mirrors.	$789	26#
8866100	Mirror: Dual Prutsman fixed heated mirrors 7 in. x 16 in. includes 7-1/2 in. convex mirror, RH. * These mirrors include a RH convex mirror which mounts on the RH mirror bracket. No optional bracket mounted convex mirrors are allowed.	$40	0#
8866101	Mirror: Dual Prutsman mirror 7 in. x 16 in. polished stainless steel, thermostatically controlled. switch located on door pad.	$44	0#
8866102	Mirror: Dual Prutsman Lighted Mirrors 7 in. x 16 in. Polished Stainless Steel, Thermostatically Controlled & Lighted. Switch Located On Door Pad.	$55	0#
8867200	Mirror: Dual Moto Heated Mirrors 7 in. x 16 in. LH Fixed, RH Remote Controlled. Switch Located On Door Pad.	$484	4#
8867202	Mirror: Dual Moto heated mirrors 7 in. x 16 in. LH & RH remote controlled. Switch located on door pad.	$540	4#

Mirror Brackets

8869005	Mirror brackets 8-1/2 ft load width. * AeroCab sleeper on the T4 series requires 8-1/2 foot wide mirror brackets or aerodynamic mirrors. * Stainless tubular style mirror brackets. Not for use with Aerodynamic mirrors. 8.5 ft overall width. * This mirror bracket can be used for twin steer chassis.	STD	0#
8869010	Mirror brackets 10 ft load width. * This mirror bracket can be used for twin steer chassis.	$228	24#

Diminishing Convex Mirror

Rider Side

8850300	Look-Down, Pass. Door, Stainless 8.5x4.4 * The RH downward facing convex mirror is required on all chassis. This code must be present on all orders except with requests for Russian Compliance, which includes an ECE approved mirror package.	STD	0#

Bracket Mounted Below Regular Mirror

8850235	Dual convex mirror 8.5 inch w/ offset mounting below regular mirror, and non-heated. * These convex mirrors are not available with aerodynamic mirrors due to bracket style. Aerodynamic mirrors have convex mirrors and brackets included, no options.	$47	8#
8863570	Dual convex heated mirror 8.5 inch w/ offset mounting below regular mirror. * Dual convex mirrors mounted on mirror brackets are not for use on aerodynamic style mirrors. Aerodynamic mirrors have an integral convex mirror. * Heated convex mirrors are available only with primary mirrors which include heat.	$76	11#

Option	Description	Price	Weight

Mirrors & Equipment

Diminishing Convex Mirror

Fender Mounted

8850134	RH Fender Mtd, Blind Spt, Htd	$247	2#
	* Fender or hood tripod mounted convex mirrors are incompatible with a sheet metal hood.		
	* Heated convex mirrors are available only with primary mirrors which include heat.		
8850717	RH Fender Mtd, Blind Spt	$93	8#
	* Fender or hood tripod mounted convex mirrors are incompatible with a sheet metal hood.		
8850720	LH Fender Mtd, Blind Spt, Htd	$246	2#
	* Fender or hood tripod mounted convex mirrors are incompatible with a sheet metal hood.		
	* Heated convex mirrors are available only with primary mirrors which include heat.		
	* Multiple fender mounted tripod mirrors cannot be used in combination.		
8850817	Dual Fender Mtd, Blind Spt	$193	15#
	* Fender or hood tripod mounted convex mirrors are incompatible with a sheet metal hood.		
	* Multiple fender mounted tripod mirrors cannot be used in combination.		

Hood Mounted

8850131	RH Hood Mtd, Dual View, K-10	$159	4#
8850141	LH Hood Mtd, Dual View, K-10	$159	4#

Window Equipment

Door Window Lifts

8879200	Manual LH & electric-powered RH door window. Switch located on door.	STD	0#
8879213	Electric-powered LH & RH door window lifts. Switch located on door.	$311	0#

Windshield & Equipment

8890100	One-piece windshield, w/ curved glass.	STD	0#
8890105	Two-Piece Roped-In Windshield, W/ Curved Glass.	$147	2#

Exterior Sunvisors

8890134	Exterior aerodynamic sunvisor w/ integral marker lights.	$268	0#
	* An external sunvisor is required on all chassis used in export operating areas.		
	* Exterior sunvisor with integral marker lights is not available not for use on W900L or with 5 Medium-Duty style marker lights on T4 series models.		
	* This option is not available on Russian compliant chassis.		
	* This sunvisor is not Russian compliant.		

Option	Description	Price	Weight

Window Equipment

Exterior Sunvisors

8890135	Exterior stainless steel sunvisor.	$541	11#
	* An external sunvisor is required on all chassis used in export operating areas.		
	* Not available on T680 and T880 Daycab with roof fairing.		
	* Only available in a daycab or 40in sleeper configuration on the T680 and T880.		
	* Required on a T680 and T880 in Export Operating Areas.		
	* This sunvisor is not Russian compliant.		

Doors & Equipment

Doors

8832115	DAYLITE DOOR: LH/RH INCL RH PEEPER WINDOW	STD	0#

Door Lock Options

8203060	5 sets of keys. Replaces standard 2 sets of keys.	$28	0#
8203088	All chassis on this order keyed alike. Only includes ignition & doors.	$110	0#
	* This code is not required in combination with a customer specified key number.		
8203190	Key Lock: Customer Specified Tumbler Part Number. Only Includes Ignition and Doors.	$306	0#

Other

8700186	Electric LH & RH door locks.	STD	0#
	* Electric powered door locks are standard on the C500, T660, T800 and W900 models except with request for Russian Compliance.		
	* This option is not available on Russian compliant chassis.		
8700188	Remote Keyless Entry	$388	0#

Option	Description	Price	Weight

Cabs & Sleepers

Interior

8331140	Cab Interior: Summit. T440/T470 Only. Includes smooth upholstered side & back panels w/stitched accent lines, upholstered door pads, full vinyl headliner, black dash panels & black rubber floormats. * Interior lining code for use only on daycabs.	STD	0#
8332040	Interior: Cab/38 in. sleeper Summit. T440/T470 only. Includes smooth upholstered side & back panels w/stitched accent lines, upholstered door pads, full vinyl headliner, black dash panels & black rubber floormat. Sleeper includes cab door & windshield privacy curtain, rolled & pleated upholstered wall panels w/accent lines,full vinyl headliner, black rubber floormat in sleeper & tool compartments. * This lining is for use on T4 series chassis with 38" sleeper.	$0	0#

Interior Color

8343304	Interior color: Slate Gray w/trim Dark Slate Gray	STD	0#
8343305	Interior color: Jet Black w/Dark Slate Gray.	$0	0#

Interior Lights

8700118	Dome lamp in sleeper for 38 inch AeroCab. *Lamp is standard on 62 inch, 72 inch, 75 inch, and 86 inch sleepers (this code not required).	$113	0#

Heaters & Air Conditioning

8104004	Cab heater: W/integral defrosters. 5 mode rotary control in dash. 45,000 btu cab heater w/o AC. No sleeper heater/AC. Includes 5 mode rotary control. * Requesting HVAC in the cab only is not recommended when a sleeper larger than the 38 inch AeroCab is specified.	($553)	-68#
8108010	Cab heater: W/integral defrosters & A/C 45,000 btu cab heater. No sleeper heater/AC. Includes 5 mode rotary control. T660 include filter media. * Cab HVAC without sleeper heat or AC is for use on daycabs or 38 inch AeroCabs. Not available with any other sleeper sizes. * R134a excise tax is required on Canadian registered vehicles whenever air conditioning is requested.	STD	0#

Miscellaneous

8109472	Roof mounted condenser for air conditioning. * If frame access is required when using a roof mounted condenser you must also code for side extenders. * Metal ground plate/bracket for an aftermarket radio antenna is not available with a sunroof or for use with a roof mounted condenser. * Not available on an extended daycab or with an AeroCab sleeper. * Only available on the W900 model with an export engine. * Roof mounted condenser is incompatible with trip tracking when there is not a sleeper. This is not an option when sleeper air conditioning is specified.	$1,004	90#
8190564	Air Conditioning Excise Tax: Canadian Registry * Air conditioning refrigerant excise tax is required in Canada, not required anywhere else.	$175	0#

Steering Wheels & Equipment

8201013	Steering wheel: 18 in. 4-spoke. * 18 inch 4-spoke steering wheel is not available on RH steer chassis.	STD	0#

Option	Description	Price	Weight

Steering Wheels & Equipment

8201041	Steering wheel: 18 in.4-spoke leather. Smartwheel multiplex steering wheel controls. * Requires a tilt-telescoping steering column. * Requires Compression Brake/Retarder (1700149) on T400 Models * This steering wheel includes the Smartwheel multiplexing functionality. Not available on the W900S model.	$595	2#

Other

8201200	Adjustable telescoping tilt steering column. * Required for the T800 twin steer configuration.	$364	10#

Instruments & Controls

8240620	Canadian instrument package: KPH speedometer replaces MPH. * Metric gauges are required for Russian compliance. * With this option miles per hour vehicle speed will be listed as the secondary scale.	$0	0#
8282004	KW Driver Information Center: Includes fuel economy, RPM display, trip information, truck information, diagnostics, gear display, alarm clock. * The Kenworth Driver Information Center includes instantaneous and average fuel economy, full screen rpm reading, ignition countdown timer, trip odometer and trip readings, truck configuration information, diagnostics for warning lights, current gear display with AutoShift or UltraShift transmissions, clock with alarm, modification of settings such as time zone / unit of measure / language. The display does not impact total gauge or switch count. * The Kenworth Driver Information Center is standard on all models that use a 2007+ engine.	STD	0#
8282006	Odometer units locked to match speedometer dial. Locks instrumentation to record the units of measure indicated by the primary scale. For instance, U.S. Domestic trucks would not be able to toggle from miles to kilometers on the trip odometer.	$15	0#
8282009	Instrument package: Includes speedometer, tachometer, fuel gauge, engine coolant temperature gauge, engine oil pressure, voltmeter. Class 8 also includes primary & secondary air reservoir gauges & an air application gauge. DEF level gauge and warning lamp are included with 2010+ engines. Engine hour meter and outside air temperature readouts are standard. Primary read out will be MPH. Add 8240620 to switch primary scale to KPH in Canada. * The standard speedometer reads in mph on the primary scale. * The T4 Series dash accommodates twelve gauges. You may select up to four additional gauges with a manual transmission or three optional gauges with an Allison transmission [which includes a transmission oil temperature gauge]. * Two speed rear axle controls, Vorad, 3 inch hydraulic pressure gauge, small flat panel on the dash, air operated kingpin release, in-dash auxiliary heater controls, large in-dash PTO controls, and air shifted auxiliary transmission controls all occupy a 4 gauge spot in the dash, effectively lowering maximum gauge count by four. * With ISL-G and ISX12-G engines, the fuel level and DEF fluid level gauges will not be part of the standard dash. In this case six [6] gauges are standard with the instrument panel.	STD	0#

Gauges

8220106	Gauge: Dash mounted air filter restriction gauge.	$127	0#
8221100	Gauge: 2 air suspension pressure gauges. For use w/air suspension w/dual leveling valves. * Optional equipment for air suspensions only. * Two air pressure valves for use with air suspensions that have dual leveling valves. Neway and Kenworth AG690 tridem are standard with dual valves. Hendrickson Primaax tandem and Kenworth AG400 and AG460 can option for dual valves.	$251	0#

Option	Description	Price	Weight

Instruments & Controls

Gauges

8221136	Gauge: Trailer reservoir air pressure gauge.	$61	0#
8221137	Gauge: Trailer air application gauge.	$45	0#
8221138	Gauge: Air suspension pressure gauge. For dual leveling valves, not dual read. * An air suspension pressure monitoring gauge is available with request for an air suspension. This gauge is for use with a dual leveling valves air suspensions on suspensions that have a single valve with request for optional dual leveling valves. * Optional equipment for air suspensions only.	$233	0#
8221144	Gauge: Air suspension pressure gauge. * An air suspension pressure monitoring gauge is available with request for an air suspension. This gauge is for use with a single leveling valve and is not for use with tridem rear suspensions which always employ dual valves. Incompatible with other air suspensions with requests for optional dual leveling valves. * Optional equipment for air suspensions only. * The request for dual valves is not available for use with a single air pressure gauge.	$88	0#
8222115	Gauge: All metric gauges. * Metric gauges are not available for U.S. operation. * Metric gauges are required for Russian compliance. * Not available on T680 by its self. Must use with Canadian Istrument Package 8240620.	$0	0#
8222708	Delete fuel & DEF tank gauges replace w/plugs. Only for CNG engine only. * CNG does not utilize the fuel level or DEF level gauges. This code should be added to all 1.9M model orders requesting a CNG engine to credit back 2 gauge spots. The standard fuel level gauge spot will always be plugged, the unused DEF gauge position is available for reuse	($56)	0#
8222712	Gauge: Fuel filter restriction gauge. * Engine oil temperature gauge is not available with ISL-G. * Fuel filter restriction and additional fuel level gauges are not available with ISL-G or ISX12-G engines.	$125	0#
8222722	Gauge: Manifold Pressure Gauge. The NavPlus HD unit includes a virtual manifold pressure gauge.	$27	0#
8222794	Hour meter mounted in dash for PTO. * PTO hour meter gauge reqiures a transmission mounted or split shaft PTO to be on the order. * The Kenworth Driver Information Center includes an engine controlled PTO hour meter feature. This option may be a good choice if the application will include an auxiliary PTO that is not controlled by the engine.	$59	0#
8224401	Gauge: Ammeter gauge in addition to voltmeter. W/integral warning light. * Alternators over 160A are not for use with an ammeter as the gauge only senses up to 150A. * Not available with an in-cab battery box at this time in the T680 and T880 * The ammeter is not for use with an in-cab battery box.	$82	0#
8225626	Gauge: Axle oil temperature gauge. Single drive axle or forward rear axle w/integral warning light. * When requesting this option with tandem rear axles you will receive a single gauge with the sensor located in forward axle. A single gauge may be advantageous when dash space limits gauge count.	$175	0#

Option	Description	Price	Weight

Instruments & Controls

Gauges

8225658	Gauge: Axle oil temperature, dual-drive axle. (2 gauges) w/integral warning light. * Rear axle oil temperature gauges for tandem axles. Provides one gauge for each axle.	$213	0#
8226667	Gauge: Oil Temperature Gauge Transmission. The NavPlus HD unit includes a virtual transmission oil temperature gauge.	$34	0#

Controls

8203044	Four position ignition switch, keyless. Available for fire truck service & EMT/emergency service only. * The four position keyless ignition switch is an option for use in Fire or EMT/Rescue service only.	$46	0#
8203072	Flip Valve/LT/Piping To End-of-Frame: Air Acc . Dash Mounted	$110	0#
8204998	Hand valve & piping for winch w/trailer connection. Not self-returning. * Hand valve for winch requires trailer connections. * Work station between seats is not compatible with a bench seat, a 26 inch wide seat, or an in-cab battery box seat. Also unavailable with beverage holder or fire extinguisher between the seats. Not for use with auxiliary heater between seats, PTO/Winch controls between seat bases, or with a records holder on rear cab wall. Not available with a sleeper.	$256	0#
8205015	Hand valve on steering column to actuate rear service brake. Not self-returning to off position. * Hand control for rear service brakes is not for use with tractor kit. Not available for vocations of oil well service, oil rig move, wrecker, heavy equipment transport, or oil field bed truck.	$326	6#
8205018	Hand valve on steering column to actuate rear service brake. Self-returning to off position. * Hand control for rear service brakes can be used on an oil field bed truck without tractor kit. * This option is not available with Russian compliance.	$325	11#
8205038	Controls on dash for pintle hook. Includes piping. * Flip valves in dash for use on full trucks only.	$50	2#
8205067	Controls on dash for trailer dump gate. Includes piping & indicator light. * T680/T880 available with speed interlock (8208603)	$92	0#
8205069	Dash Controls:Tailgate or Dump Gate, Includes Piping and Telltale * Flip valves in dash for use on full trucks only.	$53	1#
8205076	Controls On Dash (Qty. 2) For Forward and Rear Trailer Dump Gates. For A Straight Truck. Includes Piping & Indicator Lights. Optional Speed Interlock Available With T680/T880. See Databook for Code.	$140	0#
8205082	Controls on dash for trailer air suspension. Includes piping & indicator light. * Dash controls for trailer functions require that you add trailer connections to the order. * This trailer air suspension valve provides an air control. There is an option for trailer hotwire that provides an electric control wired to a dash switch. * Optional speed interlock available on T660/T680 models. * Dash controls for trailer functions require that you add trailer connections to the order. * This trailer air suspension valve provides an air control. There is an option for trailer hotwire that provides an electric control wired to a dash switch.	$121	0#
8205089	Park brake interlock for air suspension dump. (Truck/Tractor). Parking brake interlock option for air suspensions other than Hendrickson HAS or Primaax. Air suspension will not dump unless park brakes are engaged. Trailer suspension dump interlock is available * Parking brake interlock option for air suspensions other than Hendrickson HAS or Primaax.	$132	0#

Option	Description	Price	Weight

Instruments & Controls

PTO Related

8205087	Auto Suspension Dump W/PTO Engagement Interlock. This feature automatically dumps air from the truck suspension when any PTO is engaged. Required with air suspensions used on dump trucks, trailer dumps, or with no tilt fifth wheels. This allows the suspension to deflate while hoist is up and helps alleviate any imbalance that can occur with air bags inflated. Required with roll back flat bed or roll on/off with air suspensions. This allows the suspension to deflate while body is up and helps alleviate tipping and imbalance that can occur with air bags inflated. Auto air suspension dump with PTO engagement is not for use without a PTO. PTO controls must be installed by the factory. * Air suspensions used on dump trucks, trailer dumps, or with no tilt fifth wheels will require the feature which automatically dumps the air from the suspension when PTO is engaged. This allows the suspension to deflate while hoist is up and helps alleviate any imbalance that can occur with air bags inflated. * Auto air suspension dump with PTO engagement is not for use without a PTO. PTO controls must be installed by the factory. * Auto suspension dump with PTO code 8205087 is not available with toolbox or floor mounted PTO air valve codes 8205053, 8205054 or 8205057. * Not available with customer installed or air PTO controls. * Roll back flat bed or roll on/off with air suspensions will require this feature that automatically dumps the air from the suspension when the PTO is engaged. This allows the suspension to deflate while body is up and helps alleviate tipping and imbalance that can occur with air bags inflated.	$55	2#
8205092	Information for customer-installed PTO Chelsea 100/221/260/381/410/420/440 6-bolt. * Chelsea and Muncie 6-bolt PTO style is incompatible with Fuller FR transmissions that include an internal cooler. * These info codes for aftermarket PTO installations will not work with Allison transmissions. * With customer installed PTO there is an option for factory installed controls. Seats

Seat Miscellaneous

8498554	Sears Rider seat: Stowable armrest inboard only.	$81	2#
	* Stowable armrests are not available on the extended daycab. Seats will come with a single inboard flip-able armrest. No code required, and no options.		
	* Stowable armrests on Sears seats are available in the single inboard position only. The seat is wider than other brands and the outboard armrest would interfere with the door, so there is no option for dual armrests on these seats.		

Cab Accessories

Storage

8700044	Beverage holder between seats.	$98	0#
	* Beverage holder between the seats is not available with sleepers due to pass-thru interference.		
	* Beverage holder is not available with the two-man bench seat.		
	* Work station between seats is not compatible with a bench seat, a 26 inch wide seat, or an in-cab battery box seat. Also unavailable with beverage holder or fire extinguisher between the seats. Not for use with auxiliary heater between seats, PTO/Winch controls between seat bases, or with a records holder on rear cab wall. Not available with a sleeper.		
8700049	Logbook holder under dash.	$36	0#
	* The log book holder under the dash occupies the same space as the valve for pusher controls in dash [control is mounted under dash].		
8700091	Ashtray insert: W/cigar lighter located in center console. Deletes 1 12V outlet & 1 cupholder.	$32	0#
8700092	Workstation between seats: Includes cupholder, 2 accessory power outlets, hanging file space & writing surface.	$665	19#
	* Not available with Air Cushion Premium Plus rider seats as the seat includes a flip out cup holder that interferes with the workstation.		
	* Work station between seats is not compatible with a bench seat, a 26 inch wide seat, or an in-cab battery box seat. Also unavailable with beverage holder or fire extinguisher between the seats. Not for use with auxiliary heater between seats, PTO/Winch controls between seat bases, or with a records holder on rear cab wall. Not available with a sleeper.		
	* Work station between the seats not for use with the APO/ATO 4-speed auxiliary transmission.		
8700101	Black dash: Replacing trim color dash. W/Diamond trim the dash top, area by the glovebox & lower dash will be black. The trim around the main dash area, above the glove box, the header spear & trim on the doors will be woodgrain.	$32	0#
8700108	Under dash center console: Includes one cupholder & two 12V outlets. For use w/Autoshift, Ultrashift, & Allison Gen IV only.	$26	0#
	* This center console is for use only with an Allison automatic or Eaton UltraShift or AutoShift transmission. Driver's side cup holder is replaced with the shift control.		
8700109	Ashtray insert: W/cigar lighter located in center console. Deletes 1 12V outlet.	$15	0#
	* This ashtray is for use on console which is applicable to chassis with an AutoShift, UltraShift, or Allison transmission. The cobra head shifter for these transmissions occupies the driver's side cup holder position. This option will eliminate all console mounted beverage holders.		
8716000	Two holders: For 2 removable front tow hooks. Rider seat must be toolbox style seat.	$96	0#
	* Incompatible with an in-cab battery box in a 2.1 meter cab.		
	* Recommend sleeper tow hook holders when in cab holders are specified on a sleeper spec.		
	* This tow hook holder option requires that the passenger seat be the toolbox style. Incompatible with an in-cab battery box. Not for bumpers which include a cast center tow hook.		

Cab Accessories

Option	Description	Price	Weight

Storage

8890003	1.5in x 11.5in Plastic Records Holder Mounted On Rear Cab Panel	$35	2#
	* Records holder on rear panel cannot be used with a sleeper.		
	* The in-cab battery box is incompatible with records holder on seat base, fire extinguisher mounted outboard, or trailer battery charge circuits.		
	* This option is not available with a 2-man bench seat replacing the passenger seat.		
	* Work station between seats is not compatible with a bench seat, a 26 inch wide seat, or an in-cab battery box seat. Also unavailable with beverage holder or fire extinguisher between the seats. Not for use with auxiliary heater between seats, PTO/Winch controls between seat bases, or with a records holder on rear cab wall. Not available with a sleeper.		
8890017	Aluminum records holder: Mounted on toolbox seat base.	$28	0#
	* In-cab battery box seat base is not available with an aluminum records holder on the side of the seat base.		
	* Records compartment mounted to seat base requires a toolbox or utility box on passenger side. Unavailable with heater between the seats due to interference.		
	* Work station between seats is not compatible with a bench seat, a 26 inch wide seat, or an in-cab battery box seat. Also unavailable with beverage holder or fire extinguisher between the seats. Not for use with auxiliary heater between seats, PTO/Winch controls between seat bases, or with a records holder on rear cab wall. Not available with a sleeper.		

Cab Package

8891000	Quiet Cab Package: For Non-VIT Interiors. Includes Firewall Insulation & Floor Covering w/ Sound Deadening Materials and Cowl Blanket	$170	77#
	* Quiet cab kit is optional for use with non-VIT lining only. VIT interior and Studio sleepers are all standard with the quiet cab kit.		
	* Russian compliant chassis require a quiet cab kit. Use 8891000 or code for VIT lining.		
	* This code does not include the cowl blanket when specified on a flat glass cab.		

Inside Window Equipment

8879438	Cab door & windshield window cover. *Code for 38 INCH Aerocab only.	$0	0#
	* Privacy curtain for use with a 38 inch AeroCab sleeper.		

Other

8699169	Additional accessory power supply wiring. In header.	$16	0#
8721405	Nameplates shipped loose: French. In addition to standard or optional nameplates.	$0	0#
	* French language nameplates and manuals are not for US or Canada outside of Quebec		
8721410	Spanish nameplates.	$291	0#
	* Spanish nameplates for use outside the U.S. and Canada.		
8721455	Delete shipped loose French nameplates. In addition to standard or optional nameplates.	$0	0#
	* French language nameplates and manuals are not for US or Canada outside of Quebec		
9399996	Kenworth operator manual: Spanish.	$0	0#
	* There is an option for Spanish language nameplates. See sales code 8721410.		
9399997	Kenworth operator manual: Delete French. Replace w/standard English.	$0	0#
	* French language nameplates and manuals are not for US or Canada outside of Quebec		

Option	Description	Price	Weight

Cab Accessories

Other

9399998	Kenworth operator manual: French replacing English.	$0	0#
	* French language nameplates and manuals are not for US or Canada outside of Quebec		
	* There is an option for French language name plates. See sales code 8721405.		

Sleeper Accessories

Lower Bunk & Sofabed

8520038	Liftable lower bunk: 38 in. AeroCab standard.	$0	0#

Mattress

8520141	Premium pocket innerspring mattress on lower bunk.	$0	0#

Sound Systems

Kenworth Radios

8601420	Kenworth Radio with AM/FM/WB	$307	4#
8601421	Kenworth Radio with AM/FM/WB/USB and Bluetooth	$410	4#
	* For definition of radio features see the Sound Systems section of the Kenworth Data Book Addendum		
8601422	Kenworth Radio with AM/FM/WB/CD/USB and Bluetooth	$493	4#
	* For definition of radio features see the Sound Systems section of the Kenworth Data Book Addendum		
8601423	Kenworth Radio with AM/FM/WB/CD/USB, Bluetooth, and Sirius-XM Satellite	$654	4#
	* For definition of radio features see the Sound Systems section of the Kenworth Data Book Addendum		
	* Satellite radio signal is not available in many regions outside the U.S. Contact the provider to see if the service is available in your area.		

Sound System Speakers

Options for Customer-Installed Radios

Two-Way Speakers

8699502	Speakers: Two 4 in. x 6 in. high performance. For customer-installed radio. Located in cab header.	$51	0#
	* Aftermarket radio installation or speakers is not for use in combination with a factory installed radio.		
	* Aftermarket radio installation or speakers is not for use in combination with NavPlus.		
8699504	Speakers: Four 4 in. x 6 in. high performance. For customer-installed radio. Located in cab header & rear cab corners.	$94	0#
	* Aftermarket radio installation or speakers is not for use in combination with a factory installed radio.		
	* Aftermarket radio installation or speakers is not for use in combination with NavPlus.		
	* Cab speakers interfere with corner window placement for daycabs. Corner windows and speakers can be used in combination with the extended daycab.		
	* NFPA compliance kit interferes with these radio speaker locations.		

Option	Description	Price	Weight

Sound System Speakers

Options for Kenworth Radios

8699514	Speakers: Four 4 in. x 6 in. high performance. Adds 2 speakers to the Panasonic standard 2. Located in cab header & rear cab corners. * Cab speakers interfere with corner window placement for daycabs. Corner windows and speakers can be used in combination with the extended daycab. * NFPA compliance kit interferes with these radio speaker locations.	$91	0#

Sound System Equipment

8699017	Telescoping Antenna: Mounted Behind LH Door. Replaces Top-of-Cab Antenna. * Radio antenna mounted on B-pillar behind door is not available on T680/T880 with sleeper. * Telescoping radio antenna mounted on LH side behind the cab door requires a code for factory installed radio, antenna lead, or installation kit with antenna lead. Does not fit on AeroCabs.	$66	0#
8699042	Constant Power Supply To Sound System: For Use W/Battery Disconnect. * Constant power for radio memory when the battery is disconnected maintains clock and radio pre-sets , and is only be used with factory installed disconnect switches. * Constant power to the radio to maintain pre-sets is not available with an in-cab battery box or with the Kenworth NavPlus HD option. NavPlus HD includes a battery back-up that saves pre-sets in memory when the battery power is disconnected.	$28	0#
8699109	Antenna, wiring, radio cut-out & bracket: For din-mounted radio. * Aftermarket radio installation or speakers is not for use in combination with a factory installed radio. * Aftermarket radio installation or speakers is not for use in combination with NavPlus. * The aftermarket installation kit does not include speakers for the radio. To ease the installation process consider adding them to the chassis from the factory.	$79	2#
8699147	Solid post antenna: Mounted on LH cowl. Replaces top-of-cab antenna. Recommended for dump trucks, loggers, & where overcab clearance is limited. * Radio antenna mounted to the LH cowl using a solid post interferes with aerodynamic mirrors.	$23	0#
8699900	Metal ground plate: Two-way radio. For customer-installed antenna located in center of cab roof. * Metal ground plate/bracket for an aftermarket radio antenna is not available with a sunroof or for use with a roof mounted condenser. * Not available with 52", 76" or 40" sleepers. * Not available with MX engines.	$111	0#

CB & Equipment

CB Radio

8601880	CB Radio: Cobra 29. Includes weatherband w/header mounted quick release. Includes transceiver & separate speaker remote-mounted in headliner & dual CB antennas. Includes sound tracker & illuminated panel.	$464	11#
8601881	CB Radio: Cobra 29. W/header mounted quick release. Includes transceiver & separate speaker remote-mounted in headliner & dual CB antennas. Includes sound tracker & illuminated panel.	$464	11#

CB Installation Kit

8699926	CB installation kit: Center mounted of header. W/header mounted quick release CB mount. One red power post & one black ground post. Includes dual antenna leads located on the mirror brackets. Includes dual antenna & separate speaker. * The aftermarket CB installation kits and the factory installed CB occupy the same position. The two codes cannot be used in combination.	$242	0#

Option	Description	Price	Weight

CB & Equipment

CB Installation Kit

8699927	CB installation kit: Center mounted of header. W/header mounted quick release CB mount. One red power post & one black ground post. Single antenna lead located on the mirror bracket. Includes single antenna & separate speaker. * Location code for a single CB antenna is for use only with a CB radio assembly that has a single lead. * The aftermarket CB installation kits and the factory installed CB occupy the same position. The two codes cannot be used in combination. * The CB installation kit with a single antenna lead requires a location code so that the wire can be run to either the LH or RH side of cab.	$192	0#

CB Binding Posts

8699149	CB binding posts: Located above cupholder console. Includes one red power post & one black ground post. Wiring protected for 10 amps.	$28	0#

Location Codes

8699111	Locate CB antenna: LH. * Location code for a single CB antenna is for use only with a CB radio assembly that has a single lead. * Location codes are for use with single antennas only, not dual antennas.	$0	0#
8699112	Locate CB antenna: RH. * Factory installed CBs and CB installation kits that include wiring for 2 antennas do not require an antenna location code. The location codes are required only for use with a single antenna. * Location code for a single CB antenna is for use only with a CB radio assembly that has a single lead. * Location codes are for use with single antennas only, not dual antennas.	$0	0#

Information & Communication Systems

8700758	Glove box door bracket. * Glove box door bracket for Qualcomm requires wiring for either the new [IMCT] or old [MCT] style systems. * With this Qualcomm wiring it is recommended that the display cable be routed to the glove box by using code 8700786.	$24	0#
8700766	Wiring only for Qualcomm MCP110T or MCP200T. Pre-Wiring for Qualcomm MCP110T or MCP200T. Pre-Wire with Cellular Service only. Includes wiring only. Use 8700896 for mounting bracket. * If mounting brackets are desired, mounting bracket 8700896 must be used. * Loadlock holders may interfere with Qualcomm MCP200 Satellite (SDM) antenna bracket at upper LH corner BOS. * Not available with natural gas fuel systems, or russian export. * Restrict s/c 8700767 and 8700766 with any Allison transmission using generation 4/5 controls.	$1,033	7#
8700767	Wiring Only for Qualcomm MCP200 Pre-Wiring for Qualcomm MCP200T. Pre-Wire with Both Cellular and Terrestrial Service. Includes wiring only. Use 8700896 and 8700897 for mounting brackets. * If mounting brackets are desired, then both mounting brackets 8700896 and 8700897 are required. * Loadlock holders may interfere with Qualcomm MCP200 Satellite (SDM) antenna bracket at upper LH corner BOS. * Not available with natural gas fuel systems, or russian export. * Restrict s/c 8700767 and 8700766 with any Allison transmission using generation 4/5 controls.	$1,236	10#

Option	Description	Price	Weight
	Information & Communication Systems		
8700774	Mounting bracket: On sleeper roof. For customer-installed Qualcomm antenna.	$234	4#
	* Mounting bracket on sleeper roof for Qualcomm antenna can be used only with flattop AeroCab or modular sleepers.		
	* Not available with Qualcomm MCP110 or MCP200.		
	* There is a potential that metallic paint will interfere with satellite or radio type signals.		
	* This option is not available with Russian compliance.		
8700785	Wiring only: For Qualcomm IMCT tracking system. Two piece system; antenna harness coiled. Trailer Tracs (AKA Q-TRACS) wiring is standard on T680/T880 models.	$625	11#
	* Sensor track is not available with this Qualcomm version.		
	* There is a potential that metallic paint will interfere with satellite or radio type signals.		
	* This pre-wire is for a Qualcomm system that can only read J1587 canbus signals so will need an additional canbus J1587 to J1939 converter box if the customer wishes to read engine data. Please contact Qualcomm for the appropriate converter.		
	* Trip tracking is not applicable to Russian compliance.		
	* VORAD, Qualcomm, and Cummins Road Relay are not supported by ISL-G and ISX12-G engines.		
8700787	Mounting bracket: For customer-installed Qualcomm antenna. Located Back-of Sleeper wall *OR* Center Rear of Daycab roof. Not for T680.	$174	4#
	* Not available with Qualcomm MCP110 or MCP200.		
	* There is a potential that metallic paint will interfere with satellite or radio type signals.		
	* This option is not available with Russian compliance.		
	* This Qualcomm antenna mounting bracket is not available with the 42 inch modular sleepers.		
	* When specifying this antenna mounting bracket be aware that a roof fairing will produce interference with the satellite signals.		
8700789	Mounting bracket: For customer-installed Qualcomm antenna. On cab roof.	$95	4#
	* Mounting bracket on cab roof for Qualcomm antenna. Not for use on daycabs with a roof fairing or a roof mounted condenser. Not for use with sunroof or 26 inch long air horns. Incompatible with AeroCab sleepers or with Varashield on extended daycabs.		
	* Not available with Qualcomm MCP110 or MCP200.		
	* This option is not available with Russian compliance.		
8700793	Message waiting light: For Qualcomm.	$20	0#
	* Message waiting light for Qualcomm trip tracking. Requires separate code for wiring the Qualcomm unit.		
	* There is a potential that metallic paint will interfere with satellite or radio type signals.		
	* Trip tracking is not applicable to Russian compliance.		
8700824	Wiring only: For Qualcomm MCP100. Trailer Tracs (AKA Q-TRACS) wiring is standard on T680/T880 models.	$909	11#
	* This pre-wire, used with older Qualcomm IMCT systems, may not be compatible with J1939 engine canbus signals. If the customer is porting a Qualcomm system used with a pre-2010 emission level engine then an additional canbus J1587 to J1939 converter box will be needed to read engine data. Please verify with the customer what system will be used and contact Qualcomm for the appropriate converter if necessary.		
	* Trip tracking is not applicable to Russian compliance.		
8700870	Mounting brackets: two for customer-installed Qualcomm MCP200 system antennae on cab.	$315	0#
8700895	Exterior Initiation or Inhibition of Regen Thru J1939 BCan Communications.	$35	0#

Option	Description	Price	Weight

Information & Communication Systems

8700896	MTG BRKT:Cust Installed Qualcomm Terrestrial Ant. Provision for mounting antenna with customer installed Qualcomm tracking system. For use with cellular antenna (WIB). DayCab Location: Top of roof, BOC. Sleeper Location: Left Hand, Back-of-Sleeper (NOT with dual Back-of-Sleeper Exhaust). Requires 8700766. Aerocab Restrictions: NA with Dual BOS exhaust. Daycabs and Extended Daycabs Restrictions: NA with Single beacon lamp roof mounted at rear on centerline (sales codes 9080026 or 9080027), NA with Roof Condenser, NA with Sunroof, NA with Inboard Air Horns, NA with Varashield, NA with Collapsible 2 piece Airshield on Daycabs (OK on Extended Daycabs) * Loadlock holders may interfere with Qualcomm MCP200 Satellite (SDM) antenna bracket at upper LH corner BOS. * Not available with Qualcomm MCP110 or MCP200 antenna bracket(s) mounted on top of cab roof. * Qualcomm mounting brackets require trip reporting systems (8700766 or 8700767). Use 8700766 with single bracket 8700896. If using two brackets code 8700767. * Qualcomm mounting brackets without a sleeper are not available with roof mounted condenser s/c 8109472. * Qualcomm mounting brackets without a sleeper are not available with varashield 8820221. * When used with a daycab, Qualcomm mounting brackets are not compatible with collapsable two-piece roof fairings. * When used with a sleeper, Qualcomm mounting brackets are not compatible with dual back of sleeper exhaust.	$125	4#
8700897	MTG BRKT:Cust. Installed Qualcomm Satellite Ant. Provision for mounting antenna for customer installed Qualcomm tracking system. For use with satellite antenna (SDM). DayCab Location: Top of roof, BOC. Sleeper Location: Left Hand, Back-of-Sleeper (NOT with dual Back-of-Sleeper Exhaust). Requires 8700766 or 8700767. Aerocab Restrictions: NA with Dual BOS exhaust. Warning for Aerocabs: Satellite Antenna bracket may interfere with Customer Installed LH BOS Loadlock Holders; recommend to change LoadLock Holders brackets to RH. Daycabs and Extended Daycabs Restrictions: NA with Single beacon lamp roof mtd at rear on Centerline (S/C 9080026 or 9080027), NA with Roof Condenser, NA with Sunroof, NA with Inboard Air Horns, NA with Varashield, NA with Collabsable 2 piece Airshield on Daycabs (OK on Extended Daycabs). * Loadlock holders may interfere with Qualcomm MCP200 Satellite (SDM) antenna bracket at upper LH corner BOS. * Not available with Qualcomm MCP110 or MCP200 antenna bracket(s) mounted on top of cab roof. * Qualcomm mounting brackets require trip reporting systems (8700766 or 8700767). Use 8700766 with single bracket 8700896. If using two brackets code 8700767. * Qualcomm mounting brackets without a sleeper are not available with roof mounted condenser s/c 8109472. * Qualcomm mounting brackets without a sleeper are not available with varashield 8820221. * When used with a daycab, Qualcomm mounting brackets are not compatible with collapsable two-piece roof fairings. * When used with a sleeper, Qualcomm mounting brackets are not compatible with dual back of sleeper exhaust.	$176	5#
8700908	OnLane Lane Departure Warning System: Safetrak Technology by Meritor Wabco.	$1,625	10#
8700966	Kenworth NavPlus HD Navigation System: Vantage, Splendor, APEX, Summit, or Pinnacle interior. System hardware includes: head unit that mounts in radio opening and 7in. high resolution touchscreen display mounted in dash area four. Includes: Truck specific navigation by ALK, Sirius and XM satellite radio receiver. * Virtual NavPlus HD Gauge(s) requires NavPlus or Diamond interior.	$2,163	0#

Option	Description	Price	Weight
	Headlamps		
9010401	Headlamps: High Intensity Discharge (Xenon) Projector Module Low Beam, Halogen Complex Reflector High Beam.	$396	0#
	* Frame rake as well as the use of an air ride cab or sleeper suspension can impact the angle of the lights and their ability to project onto the roadway. Maximum front frame height for use with High Intensity Discharge headlights is 43.15 inches.		
	* The high intensity discharge headlights can only be used with an air suspension on the T440. The chassis must meet Kenworth rake guidelines, and front frame height cannot exceed 32.4 inches to the bottom of the rail. Verify using the Frame Rake report in PROSPECTOR.		
9010801	Headlamps: Halogen Projector Low Beam, Halogen Complex Reflector High Beam	STD	0#
	Marker Lights		
9020164	Marker Lights: with small round base, Five cab roof mounted.	STD	0#
	* Roof fairing 8823001 interferes with marker lights 9020164.		
	* The small marker light option (9020164) can not be used with any sunvisor option.		
9022135	Marker Lights: Five rectangular.	$20	0#
	* Five rectangular marker lights mounted on cab roof. Not available with sunvisor styles which includes integral marker lights		
	* This option is not available for Russian compliant chassis.		
9022137	Marker Lights: Five, rectangular, LED	$100	0#
	* Five rectangular marker lights mounted on cab roof. Not available with sunvisor styles which includes integral marker lights		
	* This option is not available for Russian compliant chassis.		
9026200	Marker Lights: Five aerodynamic mounted in sunvisor.	$0	0#
	* Aerodynamic marker lights integrated into the sunvisor on daycabs, extended daycabs, or AeroCab chassis.		
	* These cab marker lights are integrated into the external sunvisor and require a visor style which accommodates them.		
	* This option is not available for Russian compliant chassis.		
9026205	Marker Lights: Five aerodynamic, LED mounted in sunvisor.	$21	0#
	* Aerodynamic marker lights integrated into the sunvisor on daycabs, extended daycabs, or AeroCab chassis.		
	* These cab marker lights are integrated into the external sunvisor and require a visor style which accommodates them.		
	* This option is not available for Russian compliant chassis.		
9090037	Trailer Marker Lights w/ Separate Switch	$30	0#
	* This option is not available for Russian compliant chassis.		
9090039	Marker Lights: Interrupter Switch. Included in Turn Signal For All Models Except T3. The T3 Switch Is In The Dash.	STD	0#
	* The marker light interrupter switch is a standard function of the Smartwheel. This code is not required with a Smartwheel.		
	* This option is not available for Russian compliant chassis.		

Option	Description	Price	Weight

Marker Lights

9090115	Reflectors: Two Midframe	$20	0#
	* Mid-frame mounted reflectors for use on full trucks only. Meeting FMVSS 108 would be the responsibility of the body builder or final stage manufacturer.		
	* This component is not available with full length chassis fairings due to interference issues.		
	* This option is not available for Russian compliant chassis.		
	* Trucks over 30 feet in length require mid frame reflectors, sales code 9090115.		

Turn Signal Lights

9030010	Turn Signal Lights: Mounted on fender	STD	0#
	* This option is not available on Russian compliant chassis.		

Foglights

Other

9049825	Customer-installed road/fog lights switch & wiring.	$31	0#
	* This option is not available on Russian compliant chassis.		
	* Use 9049825 if only one switch for a single set of aftermarket lights are required. A switch and wiring for a second set of fog lights requires a first set of fog lights to also be spec'd.		
9049826	Switch & Wiring: For second foglights.	$88	2#
	* This option is not available on Russian compliant chassis.		

Spotlights

9060011	Halogen Spotlight: LH mounted.	$155	4#
	* This option is not available on Russian compliant chassis.		
9060055	Halogen Spotlight: LH & RH mounted. T680 and T880 models include dash switch for RH spot lamp as standard.	$248	11#
	* This option is not available on Russian compliant chassis.		
9060093	Spotlight: RH wired to dash switch; LH standard wiring.	$30	0#
	* Code not required on T680/T880, dash switch for RH spot light is standard.		
	* RH spot light wired to a switch on the dash. Must code for dual spot lights.		
	* This option is not available on Russian compliant chassis.		

Taillights

9030051	LED Stop,Turn,Tail: With One Non LED Backup Light and With An LED License Plate.	$64	-3#
	* This tail light style is for use only with a drop-type hitch at end of frame. Drop hitches are used for pintle hook mounting only.		
9030052	LED Stop,Turn,Tail: With Two LED Backup Lights and With An LED License Plate.	$93	2#
	* Drop-type crossmember is only applicable with tail lamps that include a single backup light, not when two backup lights are located in the tail lamp assembly.		
9030053	LED Stop,Turn,Tail: With One LED Backup Light With One LED Backup Light and With An LED License Plate	$178	-3#
	* This tail light style is for use only with a drop-type hitch at end of frame. Drop hitches are used for pintle hook mounting only.		

Option	Description	Price	Weight
	Taillights		
9030054	Stop,Turn,Taillight: Trucklite 44 Series 6 LED Red With Two LED Backup Lights. Flange Mounted. Taillights Come On When Fog Lights Are On. With An LED License Plate. * Drop-type crossmember is only applicable with tail lamps that include a single backup light, not when two backup lights are located in the tail lamp assembly.	$137	2#
9030056	Stop,Turn,Taillight: Trucklite 44 Series 6 LED red with two LED backup lights and LED License Plate. Grommet mounted. Taillights come on when fog lights are on. * Drop-type crossmember is only applicable with tail lamps that include a single backup light, not when two backup lights are located in the tail lamp assembly.	$230	3#
9070138	Combination Stop, Tail, Turn & Backup Lights RH & LH.	STD	0#
	Miscellaneous		
9090000	Daytime Running Lamps. * Override switch for daytime running lights requires a code for daytime running lamps. * This option is not available on Russian compliant chassis.	$147	0#
9090007	Override Switch: For daytime running lamps. * Override switch for daytime running lights requires a code for daytime running lamps. * The override switch for daytime running lights is not an option with any Canadian registration. * This option is not available on Russian compliant chassis.	$42	0#
9090027	Headlamps to turn on when wipers are active. * Headlights on with wipers available only with 2010+ EPA diesel engines.	$0	0#
9090058	Switch & Wiring: For customer-installed plow light. Includes circuit breaker. * Plow lights are not available with fog lights.	$193	0#
9090060	LH Courtesy Lamp: On upper skirt to light up step. * Courtesy lamps to illuminate cab entry steps are required on twin steer chassis. * LH courtesy light; use this code for single or 9090065 for dual, never both in combination. * This option is not available on Russian compliant chassis.	$85	0#
9090126	Electric Backup Alarm: Meets SAE J994 & OSHA requirements.	$132	4#
9090142	Wiring Only: For customer-installed backup alarm.	$50	0#
9090148	Prewire: Exterior Notification of Regen Prewire leftside of firewall for Customer Installed beacon lamp to notify operator of Regen. Fused to 10A.	$114	1#
9090151	Wiring:Cust. Install Trlr Elec. Brake Controller. Class 8/T4 Content Includes Dash Signals: Ignition Power (20A), Ground, Stop Lamp and Electric Trailer Brake Controller Wired To EOF Junction Box. These Signals Are Located Near The NavPlus HD Area. No Need To Code For An Additional End of Frame Junction Box. EOF Junction Box Signals Are: Ground, Tail Lamp, Marker Lamp, Left Turn, Right Turn, Stop Lamp and Electric Trailer Brake Controller Wired To Dash. Medium Duty (not T4) Content Includes A MP 280 Series Connector In Dash Near Driver Door Connections With Signals: Battery Power (40A), Ground, Stop Lamp and Electric Trailer Brake Controller Wired To Chassis Connector. Medium Duty (not T4) 2 Way Deutsch Chassis Connector Located Near Back of Cab, With Signals: Ground and Electric Trailer Brake Controller Wired To Dash Connector. * Not available with any other Hotline option in class 8.	$170	4#

Option	Description	Price	Weight
	Miscellaneous		
9090301	Junction Box: Under cab	$157	1#
	* Junction box located under the cab is an option on daycabs or extended daycabs only. Incompatible with dual side of cab exhaust systems.		
9090302	Junction Box: Mounted Behind Cab or Sleeper Not Mounted at End of Frame.	$127	1#
9090316	Junction Box: End of Frame	$104	1#
9090845	Circuit Breakers: Replacing fuses. Does not apply to any 5-amp fuse box position. Breakers include stop/brake/turn, tail lamp, high & low beams, marker/clearance lamps, horn, fuel heat, gauges, air dryer, HVAC controls, panel lamps. Some circuits will remain fuses.	$42	0#
	Beacon Lights		
	Single		
9080026	Amber Beacon Lamp:Single strobe,12V, daycab roof, mounted at rear on centerline of roof without bracket. SAE J1318 Class 2.	$292	8#
	* Single center mid-roof or single center rear roof mounted beacon light [amber strobe SAE J1318 Class 2]. Not for use on extended day cabs. Impractical for use on sleeper chassis, do not code for sleeper. Cannot be used in conjunction with a cab roof fairing of any type.		
	* This option is not available on Russian compliant chassis.		
9080027	Amber Beacon Lamp: Single Revolving, Daycab Roof Mounted At Rear On Centerline of Roof Without Bracket.	$200	8#
	* Single center mid-roof or single center rear roof mounted beacon light [amber strobe SAE J1318 Class 2]. Not for use on extended day cabs. Impractical for use on sleeper chassis, do not code for sleeper. Cannot be used in conjunction with a cab roof fairing of any type.		
	* This option is not available on Russian compliant chassis.		
	Dual		
9080126	Amber Beacon Lamp: Dual strobe, 12V centered over cab door w/ stainless steel brackets. SAE J1318 Class 2.	$912	15#
	* Dual amber strobes [SAE J1318 Class 2] centered over cab door on polished brackets. Cannot be used in conjunction with a cab roof fairing of any type.		
	* This option is not available on Russian compliant chassis.		
9080128	Dual Revolving Amber Roof Lights: Centered over cab door w/ stainless steel bracket.	$656	15#
	* This option is not available on Russian compliant chassis.		
	Customer-Installed		
9080200	Switch & Wiring: Customer-installed beacon lights w/ additional coiled wire to 20ft. coiled BOC.	$191	0#
9080201	Switch & Wiring: Customer-installed beacon lights mounted on non-Aerodynamic mirrors.	$123	0#
	* Switch and wiring for customer installed beacons that are to be located on the mirrors. This installation is not possible with aerodynamic mirrors.		
	* This option is not available on Russian compliant chassis.		
9080202	Switch & Wiring: Customer-installed dual beacon lights w/o insulators. Coiled wire behind dash.	$85	1#
9080205	Stainless Steel Brackets, Switch & Wiring: Customer-installed dual beacon lights mounted over door of cab with insulators.	$259	4#

Option	Description	Price	Weight

Floodlights

First Set

9052011	Dual Flush Floodlights: First set.	$124	2#

* Dual flush mounted flood lights are not available in a pedestal mounted location.
* Dual sleeper mounted floodlights are not for use with dual independent exhaust
* Flush mounted flood lights in the high position interfere with the Kenworth Idle Management System. Select pedestal mounted floods, or choose another location for the flush mounted floods.
* The structure of daycabs on models T440, T470, T700, T660, T800, W900 and C500 prohibits high mounted flush floodlight locations when specified front spring capacity is 18,000 lbs. or greater.
* This option is not available on Russian compliant chassis.

9056140	Dual Pedestal Floodlights: First set.	$238	2#

* On models T440, T470, T700, T660, T800, W900 and C500 dual pedestal mounted floods are available in the high mount location only.
* These dual pedestal floodlights are not available with the a low floodlight location (codes 9059921, 9059923, 9059924).
* This option is not available on Russian compliant chassis.

Switches for Customer-Installed

9058037	Switch & Wiring for Customer-installed Floodlight w/o electrical pass-through - 1st set. Wire coiled BOC/BOS.	$77	0#

* Coding for switch and wire for a set of aftermarket flood lights requires definition as the primary lights. Any additional flood lights must use a code that is specific to a second or third set.
* Coiled wire is available for use with floodlight switch for aftermarket light installations.

Location Codes

9059901	Floodlight Location: Located high - first set	$0	0#

* High mounted flood light location is not compatible on extended daycabs with a roof fairing of any style, or brackets for the roof fairing, or with independent exhausts.
* High pedestal mounted floodlights are not available with the Kenworth Idle Management System combined with a Slidebar/BOS tractor kit.
* Only one set of floodlights are available in each location on models T440, T470, T700, T660, T680, T880, T800, W900 and C500.
* The structure of daycabs on models T440, T470, T700, T660, T800, W900 and C500 prohibits high mounted flush floodlight locations when specified front spring capacity is 18,000 lbs. or greater.
* This location is not available with the T680/T880 daycab with flush mounted floodlights, or on the T680/T880 daycab with pedestal mounted floodlights in combination with roof fairing.

9059905	Floodlight Location: Located high stanchion - first set.	$0	0#

* Only one set of floodlights are available in each location on models T440, T470, T700, T660, T680, T880, T800, W900 and C500.
* Stanchion mounted flood lights require independent exhaust or exhaust with stanchion mounted tailpipes.

9059909	Floodlight Location: Located high outboard of side extender - first set.	$0	0#

* Flood light location on the side extenders requires a sales code for side extenders on T800 or W900 models. For T660 this location is not available with requests to delete the standard side extenders.
* Only one set of floodlights are available in each location on models T440, T470, T700, T660, T680, T880, T800, W900 and C500.

Option	Description	Price	Weight

Floodlights

First Set

Location Codes

9059911	Floodlight Location: Located mid - first set.	$0	0#

* Flush mounted flood lamps w/ vertical independent DPF/SCR are available in the high location only.
* Not available with vertical independent DPF/SCR style exhaust.
* Only one set of floodlights are available in each location.
* This location is not available with pedestal mounted floodlights, use for flush mount only.

Miscellaneous

9058020	Coiled Wire BOC/BOS: Additional 30ft. for customer-installed floodlights - 1st set.	$22	0#

* Coiled wire is available for use with floodlight switch for aftermarket light installations.

9058030	Dual Floodlights: Top-Mirror Mounted - First Set.	$338	4#

* Flood lights will be located on the mirror brackets.
* Floodlights for the mirror brackets require a code for mirror bracket location. Not for use with aerodynamic mirrors since they have no mounting provision for the bracket
* This option is not available on Russian compliant chassis.

Second Set

Switches for Customer-Installed

9058052	Switch & Wiring for Customer-installed Floodlight : w/o electrical pass-through - 2nd set. Wire coiled BOC/BOS.	$97	0#

* Codes for secondary set of flood lights or wiring require a primary set be selected in combination. Any additional flood lights must use a code that is specific to a third set.

Third Set

Switches for Customer-Installed

9058056	Switch & Wiring for Customer-installed Floodlight : w/o electrical pass-through - 3rd set. Wire coiled BOC/BOS.	$132	0#

* Codes for third set of flood lights or wiring require that two other sets be selected in combination.

Air Drying Equipment

Moisture Ejection Valve

9102009	Moisture ejection valve: Midland automatic use w/ AD-IS only.	$99	2#
9102040	Moisture ejection valve: Two Bendix DV-2 drain valves on service tanks use w/ AD-IS only. Heated.	$268	0#
9108001	Moisture ejection valve w/ pull cable drain.	STD	0#

Air Dryer

9101215	Air Dryer Bendix AD-IS heated Puraguard	STD	0#
	* AD-IS air dryers are not approved for services of linehaul, pick-up and delivery, or heavy haul with GCWs exceeding 110K. Logging and construction vocations cannot exceed 90K.		
	* Bendix air application guidelines indicate that lowboy trailers, mixer bodies, and dump trucks with lift axles have increased air dryer requirements. The AD-IS air dryer is not sufficient for these applications.		
9101235	Air Dryer: Bendix AD-IS Extended Purge heated. with PuraGuard	$131	4#
	* 37.4 cfm air compressor coupled with a Bendix AD-SP, AD-IP, or AD-IS air dryer is not for use in continuous dry-air bulk unloading operation. Consider a dual dryer with Everflow for this use.		
	* AD-IS air dryer is not for use in dry bulk trailer unload. Not available with request for Extended Warranty.		
9101245	Air Dryer: Bendix Dual AD-IS Everflow heated. PuraGuard	$1,149	46#
	* Everflow air dryers are too large to mount inside the rail.		
	* The AD-IS Everflow air dryer is available with air compressors rated at 28cfm or greater.		
	* The dual AD-IS Everflow air dryer doesn't qualify for extended warranty.		

Air System Miscellaneous

9140020	Nylon air tubing in frame & cab, excluding hoses subject to excessive heat or flexing.	STD	0#
9140060	Air oil & fuel hose to -60 degree F.	$2,898	60#
	* AG130 front suspension is not available with wirebraid air hoses or -60 degree (arctic) hoses.		
	* In tractor service arctic piping should be accompanied by Philatron coiled air lines.		
	* Not available on Tractors with ESP.		
9140084	Byp. Air Sys:For Wet Bulk Trailer Unload(7)Gauges	$960	12#
	* This air connection option is not ECE compliant for over the road use in Russia.		
9140085	Bendix LQ-5 ratio valve:for Kenworth-installed pusher/tag. LQ-5 valve limits the amount of air applied to the pusher brakes. Helps prevent lockup in lightly loaded conditions.	$236	2#
9140092	Schrader valve to charge air system.	$102	2#
9140101	Charging gladhand: Frame bracket & air line to wet tank.	$130	2#
	* This air connection option is not ECE compliant for over the road use in Russia.		
9140236	Locate air dryer outside LH rail BOC. This code requires the use of a custom frame layout code.	$0	0#
9140238	Locate air dryer outside RH rail BOC. This code requires the use of a custom frame layout code.	$0	0#
9140248	Locate air dryer under LH rail BOC This code requires the use of a custom frame layout code.	$0	0#

Option	Description	Price	Weight

9140288	Air tanks: clear of transmission area. This code requires the use of a custom frame layout code.	$0	0#
9140289	Air tanks: mounted inside frame flanges where possible. This code requires the use of a custom frame layout code.	$0	0#
9140290	Air tanks: mounted inside frame flanges where possible.	$1,531	0#
	Air Tank Options		
9150170	Air tanks: aluminum replacing steel all tanks. *NOT AIR TANKS ON LIFT AXLES	$348	-44#
	* This air connection option is not ECE compliant for over the road use in Russia.		
9150210	Straps for mounting air tank module under box. For steel air tanks only. Straps on all air tanks.	$84	2#

Option	Description	Price	Weight

Air & Electrical Supply Kits

Tractor

9110037	Air & Electrical Supply Kits: Tractor BOC-mounted kit w/ slidebar, spring hanger and composite gladhand/light plug holder mounted on back of cab/sleeper. Kit includes dash mounted trailer air supply valve, trailer hand control valve, and hoses/fittings for the valves. Dash mounted parking brake valve and tractor protection valve are standard. Air lines are detachable at one end only, light lines are detachable at both ends. Conspicuity components are standard. * Air and light lines 15 feet or longer may be required with this tractor kit to accommodate trailer swing. * Back of cab mounted tractor kits are not available with the NFPA compliance kit. * Not available with single back of sleeper vertical tailpipe. * Not available with single back of sleeper vertical tailpipe. * Not for use with exhaust codes 1247110, 1247132, 1247175, 1247176, 1247184, or 1247187. * Slide bar is not available with tailpipes mounted behind the cab/sleeper, with stanchion mounted tailpipes, or with vertical independent DPF/SCR exhaust. Can only be used on tractors without a drom box or auto carrier body. Not available on the extended daycab. * This trailer connection is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$607	19#
9110063	Air & Electrical Supply Kits: Tractor BOC mounted kit at beltline w/ coiled air and light lines, w/o slidebar, w/ composite gladhand/light plug holder. Kit includes dash mounted trailer air supply valve, trailer hand control valve, and hoses/fittings for the valves. Dash mounted parking brake valve and tractor protection valve are standard. Air lines are detachable at one end only, light lines are detachable at both ends. Conspicuity components are standard. * Air and light lines 15 feet or longer may be required with this tractor kit to accommodate trailer swing. * Belt-line mounting is not available with dual independent exhaust or vertical independent DPF/SCR exhaust. Not available on the extended daycab. * Not for use with exhaust codes 1247110, 1247132, 1247175, 1247176, 1247184 or 1247187. * This trailer connection is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$1,049	19#
9110068	Air & Electrical Supply Kits: Tractor LH frame- mounted kit w/ hosetenna. Includes composite gladhand/light plug holder. Kit includes dash mounted trailer air supply valve, trailer hand control valve, and hoses/fittings for the valves. Dash mounted parking brake valve and tractor protection valve are standard. Air lines are detachable at one end only, light lines are detachable at both ends. Conspicuity components are standard. Use code 9140177 for short hosetenna option, this is not available on the T3 series. * A non-standard hosetenna location of 2 ft back minimum is required when used w/ 38 inch AeroCab and 40 inch sleepers and either horizontal crossover or horizontal underframe exhaust systems (1247120 or 1247127). * A non-standard hosetenna location of 2 ft back minimum is required when used w/ 62 inch AeroCab sleepers and exhaust w/ independent tailpipe BOS, codes 1247110, 1247115, 1247128, and 1247132 * A non-standard hosetenna location of 2 ft back minimum is required when used w/ vertical independent DPF/SCR exhaust codes 1227110, 1227116, 1227120, and 1227124. * For trailer connections that are appropriate for use on a chassis that will have a body installed consider a full truck kit. * Frame mounted hosetenna should always include some form of hosetenna location coding. * The LH frame mounted tractor kit is not available with a battery box located between the rails behind the cab. Use outboard location or center frame mounted behind the battery box. * This trailer connection is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines. * Tractor kits can be used only on tractors.	$685	24#

Option	Description	Price	Weight

Air & Electrical Supply Kits

Tractor

9110071 Tractor kit: Center frame-mounted w/ hosetenna. Includes composite gladhand/light plug holder. Kit includes dash mounted trailer air supply valve, trailer hand control valve, and hoses/fittings for the valves. Dash mounted parking brake valve and tractor protection valve are standard. Air lines are detachable at one end only, light lines are detachable at both ends. Conspicuity components are standard. — $716 — 24#

* A non-standard hosetenna location of 2 ft back minimum is required when used w/ 38 inch AeroCab and 40 inch sleepers and either horizontal crossover or horizontal underframe exhaust systems (1247120 or 1247127).
* A non-standard hosetenna location of 2 ft back minimum is required when used w/ vertical independent DPF/SCR exhaust codes 1227110, 1227116, 1227120, and 1227124.
* Frame access equipment is required when a center mounted hosetenna is specified.
* Frame mounted hosetenna should always include some form of hosetenna location coding.
* This trailer connection is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.
* Tractor kits can be used on tractors only.

9110072 Tractor kit: LH outboard frame-mounted w/ hosetenna. Includes composite gladhand/light plug holder. Kit includes dash mounted trailer air supply valve, trailer hand control valve, and hoses/fittings for the valves. Dash mounted parking brake valve and tractor protection valve are standard. Air lines are detachable at one end only, light lines are detachable at both ends. Conspicuity components are standard. Use code 9140177 for short hosetenna option. — $642 — 24#

* A non-standard hosetenna location of 2 ft back minimum is required when used w/ 38 inch AeroCab and 40 inch sleepers and either horizontal crossover or horizontal underframe exhaust systems (1247120 or 1247127).
* A non-standard hosetenna location of 2 ft back minimum is required when used w/ vertical independent DPF/SCR exhaust codes 1227110, 1227116, 1227120, and 1227124.
* Frame mounted hosetenna should always include some form of hosetenna location coding.
* This trailer connection is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.
* Tractor kits can be used only on tractors.

9110081 Tractor kit: BOC-mounted kit w/ slidebar, spring hanger and composite gladhand/light plug holder mounted on back of extended daycab. Kit includes dash mounted trailer air supply valve, trailer hand control valve, and hoses/fittings for the valves. Dash mounted parking brake valve and tractor protection valve are standard. Air lines are detachable at one end only, light lines are detachable at both ends. Conspicuity components are standard. Not available w/ dual independent exhaust. — $741 — 19#

* Air and light lines 15 feet or longer may be required with this tractor kit to accommodate trailer swing.
* Back of cab mounted tractor kits are not available with the NFPA compliance kit.
* Slide bar is not available with dual tailpipes mounted behind the sleeper, dual independent exhaust, or vertical independent DPF/SCR exhaust. Can only be used on tractors without a drom box or auto carrier body. Available only on the extended daycab.
* This trailer connection is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.

Full Truck

9110020 Full truck kit: Gladhands mounted at end-of- frame.Seven-way female receptacle mounted at end-of-frame in taillamp bracket. Kit includes dash mounted trailer air supply valve, trailer hand control valve, and hoses/fittings for the valves. Dash mounted parking brake valve, tractor protection valve, and spring brake inversion/relay valves are standard. — $600 — 15#

* This style of trailer connection does not require an air and light line length code.
* This trailer connection is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.

Option	Description	Price	Weight

Air & Electrical Supply Kits

Full Truck

9110034	Full truck/tractor kit combined: Center frame mounted. 7-way female receptacle and air connection gladhands are mounted BOC on center frame bracket & mounted at end-of-frame in taillamp bracket. Kit includes dash mounted trailer air supply valve, trailer hand control valve, and hoses/fittings for the valves. Dash mounted parking brake valve, tractor protection valve, and spring brake inversion/relay valve are standard. * 1.9 and 2.3 meter cabs include hosetenna (pogo stick) with attached composite gladhand/ light plug holder for use as tractor kit. Customer may opt-out by adding S/C 9140193. * For the full truck/tractor kit combination coiled lines or straight lines longer than 12 feet are not allowed due to brake timing regulations. * Full truck/tractor kits are typically used for full trucks pulling a trailer, single bunk log trucks, or in oil field service. With other services consult with Application Engineering to verify compatibility. * This trailer connection is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines. * Trailer air and light lines are not included with this kit. Must code separately for air and light lines if desired.	$491	15#

Air & Light Line Options

9120010	Air & light line length: 10 feet, Straight lines * Line length codes are not required without trailer connections. * This light line is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$0	0#
9120012	Air & light line length: 12 feet, Straight lines * Line length codes are not required without trailer connections. * This light line is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$0	0#
9120014	Air & light line length: 14 feet, Straight lines * Line length codes are not required without trailer connections. * This light line is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$0	0#
9120016	Air & light line length: 16 feet, Straight lines * Line length codes are not required without trailer connections. * This light line is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$0	0#
9121008	Phillips 12ft coiled light line w/ metal plugs & 6 in. lead. Must code for tractor kit. * Phillips 12 ft coiled lines with metal plugs for use with on tractors with trailer connections or on full trucks with full truck/tractor combination kits. Requires an additional code for 12 ft coiled line length. * This light line is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$32	2#
9121043	Phillips 15ft coiled light line w/ metal plugs & 6 in. lead. Must code for tractor kit. * Phillips 15 ft coiled lines with metal plugs for use with on tractors with trailer connections or on full trucks with full truck/tractor combination kits. Requires an additional code for 15 ft coiled line length. * This light line is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$92	4#

Option	Description	Price	Weight

Air & Electrical Supply Kits

Air & Light Line Options

9121047	Phillips 12ft straight light line w/ metal plugs & 12 in. lead. Must code for tractor kit. * Phillips 12 ft straight lines with metal plugs for use with on tractors with trailer connections or on full trucks with full truck/tractor combination kits. Requires an additional code for 12 ft straight line length. * This light line is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$32	0#
9121051	Philatron 15 ft Coiled Air Line. Must code for tractor kit. use code 9121115 * 15 foot coiled cord air lines are for use only with a coded trailer connection, and not with full truck/tractor combination kits. * In tractor service arctic piping should be accompanied by Philatron coiled air lines. * Line length codes are not required without trailer connections. * Must select 15 foot air line length code 9121115 in order to upgrade lines to code 9121051 or 9140354.	$132	4#
9121112	Coiled air & light lines replacing straight lines . Included in tractor kit. 12ft working length. * Line length codes are not required without trailer connections. * This light line is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$78	0#
9121115	Coiled air & light lines replacing straight lines Included in tractor kit. 15ft working length. * Line length codes are not required without trailer connections. * This light line is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$122	2#
9140005	Straight air & light lines: for semitrailer application. Air lines detachable one end only; light line detachable both ends. Use w/ code 9110030. Note must code separately for straight air & light line lengths. Requires 12ft straight air & light. * Detachable straight air/light lines are available in a 10 ft or 12 ft straight line length configurations only. * For use with combination full truck/tractor combination kits only.	$167	8#

Kit Accessories

9121057	Additional 7-way electrical receptacle w/ tractor kit wired to 3 dash switches & back-up lamp switch. *Spare Switch 1 is wired to Pin YEL, Spare Switch 2 is wired to Pin GRN, Spare Switch 3 is wired to Pin BRN and Backup Lamp Switch is wired to pin BLK. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$297	0#
9127022	Indicator light for trailer battery charge circuit wired thru key switch, use w/ 9127021. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$75	0#
9140177	Short Hosetenna: for use w/ code 9110068, 9110071 9110072 or 9110090 * Short hosetenna replacing standard can only be used with a tractor kit which includes a hosetenna as standard, typically frame mounted trailer connections.	$12	0#
9140188	Slide bar: for air & light lines, cab/sleeper mounted. * Air and light lines 15 feet or longer may be required with this tractor kit to accommodate trailer swing. * Not for use with European [African] air system. * Slide bar for trailer connections located on the back of the cab or sleeper cannot be used with independent or stanchion mounted exhaust with inboard routed tailpipes. * Slide bar on back of cab is for use only on Tractors with specified trailer connections	$42	2#

Option	Description	Price	Weight

Air & Electrical Supply Kits

Kit Accessories

9140193	Delete hosetenna. Must code for a tractor kit. * 9110100 represents the combination of S/C 9110072 + 9140188 + 9140193. Delete hosetenna 9140193 is already included in 9110100. * A hose tending device must be installed prior to placing the vehicle in service. * Gladhand Holder not provided on chassis with Full Truck/Tractor Kit and code for Delete Hosetenna. Gladhand Holder not provided on chassis with Frame Mounted Tractor Kit and code for Delete Hosetenna unless code for slidebar is added and hosetenna location is less than 4 feet. In these cases Gladhand Holder will be on rear face of Cab/Sleeper. * Not for use with European [African] air system. * This option deletes the hosetenna from trailer connections where a hosetenna is standard, typically with frame mounted trailer connections.	($35)	-8#
9140196	Double spring replacing single spring hanger. *Must code for Trac Kit w/Slide Bar. * Double spring hanger for use as hose tender is available only with a tractor kit that includes a slide bar or slide bar 9140188 * Not for use with European [African] air system.	$34	2#
9140200	Delete trailer hand valve. Must code for tractor kit. * Deleting the trailer hand valve is for use only with trailer connections. Can be used with either tractor or full truck end of frame trailer connections. * Not for use with European [African] air system. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	($64)	0#
9140225	Bendix trailer hand valve: spring loaded/self- returning, replacing standard. * Requires trailer connections. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$0	0#
9140245	BPR-1 relay valve: replacing R12. * An optional BPR1 valve is available when anti-lock brakes are not specified. The valve is incompatible with full truck kits or tuck/tractor kit combinations. * Bendix eTrac traction enhancement and brake proportioning valve code 9140245 cannot be used together. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$0	0#

Optional Hosetenna Bracket Location

9140700	Standard hosetenna Bracket Location. Hosetenna bracket will be located plus or minus six inches from standard location of eight inches. * For use only with frame mounted tractor kits that normally include a hosetenna. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * With exhaust stanchions behind the cab the hosetenna must be relocated more than one foot back to prevent interference.	$0	0#

Option	Description	Price	Weight

Air & Electrical Supply Kits

Optional Hosetenna Bracket Location

9140701	Optional Hosetenna Bracket Location 1ft BOC/sleeper. Hosetenna bracket will be located plus or minus six inches from any non-standard location requested * For use only with frame mounted tractor kits that normally include a hosetenna. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines. * With exhaust stanchions behind the cab the hosetenna must be relocated more than one foot back to prevent interference.	$15	0#
9140702	Optional Hosetenna Bracket Location 2ft BOC/sleeper. Hosetenna bracket will be located plus or minus six inches from any non-standard location requested * For use only with frame mounted tractor kits that normally include a hosetenna. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$15	0#
9140703	Optional Hosetenna Bracket Location 3ft BOC/sleeper. Hosetenna bracket will be located plus or minus six inches from any non-standard location requested * For use only with frame mounted tractor kits that normally include a hosetenna. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$15	0#
9140704	Optional Hosetenna Bracket Location 4ft BOC/sleeper. Hosetenna bracket will be located plus or minus six inches from any non-standard location requested * For use only with frame mounted tractor kits that normally include a hosetenna. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$15	0#
9140705	Optional Hosetenna Bracket Location 5ft BOC/sleeper. Hosetenna bracket will be located plus or minus six inches from any non-standard location requested * For use only with frame mounted tractor kits that normally include a hosetenna. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$15	0#
9140706	Optional Hosetenna Bracket Location 6ft BOC/sleeper. Hosetenna bracket will be located plus or minus six inches from any non-standard location requested * Available only with a tractor kit that includes a hosetenna, and not available when the hosetenna is deleted. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$15	0#
9140707	Optional Hosetenna Bracket Location 7ft BOC/sleeper. Hosetenna bracket will be located plus or minus six inches from any non-standard location requested * Available only with a tractor kit that includes a hosetenna, and not available when the hosetenna is deleted. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$15	0#

Air & Electrical Supply Kits

Optional Hosetenna Bracket Location

9140708	Optional Hosetenna Bracket Location 8ft BOC/sleeper. Hosetenna bracket will be located plus or minus six inches from any non-standard location requested * Available only with a tractor kit that includes a hosetenna, and not available when the hosetenna is deleted. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$15	0#
9140709	Optional Hosetenna Bracket Location 9ft BOC/sleeper. Hosetenna bracket will be located plus or minus six inches from any non-standard location requested * Available only with a tractor kit that includes a hosetenna, and not available when the hosetenna is deleted. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$30	0#
9140710	Optional Hosetenna Bracket Location 10ft BOC/sleeper. Hosetenna bracket will be located plus or minus six inches from any non-standard location requested * Available only with a tractor kit that includes a hosetenna, and not available when the hosetenna is deleted. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$30	0#
9140712	Hosetenna bracket: 12ft BOC. Hosetenna bracket will be located plus or minus six inches from any non-standard location requested * Available only with a tractor kit that includes a hosetenna, and not available when the hosetenna is deleted. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$30	0#
9140714	Hosetenna bracket: 14ft BOC. Hosetenna bracket will be located plus or minus six inches from any non-standard location requested * Available only with a tractor kit that includes a hosetenna, and not available when the hosetenna is deleted. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$45	0#
9140716	Hosetenna bracket: 16ft BOC. Hosetenna bracket will be located plus or minus six inches from any non-standard location requested * Available only with a tractor kit that includes a hosetenna, and not available when the hosetenna is deleted. * Hosetenna bracket will be located plus or minus six inches from standard location of 8 inches. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$45	0#

Air & Electrical Supply Kits

Trailer ABS Provisions

9140321	Additional 7-way ISO 3731 connector for trailer ABS power One additional, w/ o light line, for full truck & tractor. * Additional 7-way ISO #3731 connector to supply the trailer ABS power. Requires a code for anti-lock brake system. Primary trailer connections must be coded. Not for use with full truck/tractor kit combination, which requires 2 additional connectors [see 9140336 or 9140337]. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$147	6#
9140322	Additional 7-way ISO 3731 connector for trailer ABS power One additional, w/ 15ft coiled light line, for full truck & tractor w/ dual light plug holders. * Additional 7-way ISO #3731 connector to supply the trailer ABS power. Requires a code for anti-lock brake system. Primary trailer connections must be coded. Not for use with full truck/tractor kit combination, which requires 2 additional connectors [see 9140336 or 9140337]. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$310	8#
9140326	Additional 7-way electrical receptacle mounted end-of-frame. * Additional 7-way electrical receptacle mounted at end of frame. Full truck/tractor combination kit is unavailable with this option. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$502	2#
9140328	Trailer ABS electric supply through SAE J560 7-pin connector per TMC RP137). * If anti-lock brakes are specified a trailer ABS provision will be required on all tractors. * Not ECE compliant for over the road use in Russia. * Trailer ABS supply will be in the center pin of the standard 7-way when trailer connections and an anti-lock brake system are specified.	$0	0#
9140329	Trailer ABS malfunction lamp for use w/ second ISO 3731 connector For non-PLC trailers. * Not for use with European [African] air system. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines. * Trailer ABS malfunction light is available with any trailer ABS provision.	$38	0#
9140333	Two spare circuits through trailer ABS ISO 3731 connector Requires sales code 9140321 or 9140322. * Spare circuits in ISO #3731 trailer ABS connector for use only with a trailer ABS provision which includes an additional plug. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$0	0#
9140339	7-way electrical receptacle wired to battery circuit, center pin requires additional ISO 3731 connector. * The request to wire an additional 7-way receptacle to the battery circuit must be accompanied by at least one additional 7-way plug. See 9140321 or 9140322. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	($21)	0#

Air & Electrical Supply Kits

Trailer ABS Provisions

9140341	Two spare circuits through trailer ABS ISO 3731 connector, one spare circuit wired to one dash switch . Requires sales code 9140321, 9140322 or 9140336. Spare Switch 1 is wired to Pin 4, Spare Switch 2 is wired to Pin 5 * Requests for spare circuits must be accompanied by a code for the circuit ID which is included with the switch code. * Spare circuits require that corresponding spare circuit switch be specified, along with a second 7-way plug. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$56	0#
9140342	Two spare circuits through trailer ABS ISO 3731 connector, spare circuits wired to two dash switch es. Requires sales code 9140321 or 9140322. Spare Switch 1 is wired to Pin 4, Spare Switch 2 is wired to Pin 5 * Requests for spare circuits must be accompanied by a code for the circuit ID which is included with the switch code. * Spare circuits require a second 7-way plug. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$55	0#
9140343	Two spare circuits through trailer ABS ISO 3731 connector wired to standard spare switch es. Requires sales code 9140321 or 9140322. Spare Switch 1 is wired to Pin 4, Spare Switch 2 is wired to Pin 5 * Spare circuits in ISO #3731 trailer ABS connector for use only with a trailer ABS provision which includes an additional plug. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines.	$55	0#

Miscellaneous

9127026	Trailer battery charging circuit w/ 125 amp fuse w/ detach trailer charge line. * This trailer connection option is not ECE compliant for over the road use in Russia. ECE has separate air system with ISO light lines. * Wiring for aftermarket APU can not be used with a trailer battery charge circuit.	$186	8#
9140252	Locate air dryer inside LH rail BOC. This code requires the use of a custom frame layout code.	$0	0#
9140254	Locate air dryer inside RH rail BOC. This code requires the use of a custom frame layout code.	$0	0#

Option	Description	Price	Weight
	Severe Service Packages		
9462002	Domestic severe service package. Domestic severe service is required on any chassis operating within the 50 United States and Canada where the application includes class C road service 10% or more of the operation, or when vehicle will operate predominately on privately maintained, unimproved, or roughly prepared road surfaces. Specific vocations include, but are not limited to, oilfield service and Canadian logging service. * A Severe Service kit is required on all chassis operating in the Canadian oil fields. * Canadian logging or oil field service requires the use of heavy-duty 7 inch wide fuel tank supports when a Severe Service kit is specified. * Severe service applications require that the battery box material be steel, except on twin steer chassis which have a box between the steer axles. * Severe Service includes cab door bearing blocks as standard, do not add code 8080137. * Severe Service kits require either full round yokes or SPL series drivelines. * Severe Service packages include upgrading the crossmembers from the standard 2-hole to 3-hole gussets. There is no need to use an additional code to get this upgrade. * Severe Service vehicles operating in Canada require the reinforced cab sill option on daycab chassis. * Steel battery hold downs are standard with severe service, no code required. * Steel front drive brackets are always standard with severe service [no code required]. Optional on C500 with springs rated under 16k. Included and code required on all W900 except with 12k front spring [optional unless severe service is requested]. * The conditions of road use which require severe service are: Class C 10%+, or Class D 5%+, or Class C 9%+ with Class D 1%+, or Class C 8%+ with Class D 2%+, or Class C 7%+ with Class D 3%+, or Class C 6%+ with Class D 4%+, or Class C 5%+ with class D 5%+. * The Severe Service kit on T800 models requires a heavy-duty rear cab support crossmember and reinforced cab sills. * Transmission support springs are upgraded when required, except with PACCAR MX engines, when Severe Service is coded. * With request for Severe Service the minimum rail size without using an insert is 10-3/4 inch.	$548	180#
	Safety Equipment		
9490206	Warning triangle reflector kit: Shipped loose. Kit consists of 3 triangles in plastic carrying case. Not floor mounted.	$43	4#
9490213	Warning triangle reflector kit: Floor mounted parallel to back wall between seats. Kit consists of 3 triangles in plastic carrying case. For day cab only. * Not available with any RD SEAT: W/ TOOLBOX codes. This installation interferes with the seat belt tether on the toolbox seat. * Not available with any RD SEAT: W/ TOOLBOX codes. This installation interferes with the seat belt tether on the toolbox seat. * Not available with beverage holder between seats, code 8700044. * Not available with fire extinguisher mounted inboard of seat, codes 9490417 and 9490408. * Not available with in cab battery box, codes 6405000 and 6409906. * Not available with passenger in-cab battery box (S/C 8480105, 8480106, 8480107, 8480108, 8480109, 8480110) * Not available with work station between seats, code 8700092. * Not compatible with inboard mounted fire extinguishers (S/C 9490408, 9490406, 9490417)	$46	12#

Option	Description	Price	Weight
	Safety Equipment		
9490404	One 5 lb. dry chemical type fire extinguisher mounted outboard of driver seat. Class ABC.	$124	11#
	* A fire extinguisher on the driver's side floor is incompatible with battery disconnects in the same location.		
	* Air line fitting left of driver's seat not available with fire extinguisher or PTO/pusher controls LH side of drivers seat due to occupying the same space.		
	* Allison transmissions are incompatible with items mounted on the floor LH side of the drivers seat.		
	* Driver seat mounted outboard fire extinguisher and driver seat mounted inboard fire extinguisher are not available together.		
9490406	One 5 lb. Dry Chemical Type Fire Extinguisher Mounted Outboard of Rider Seat. Class ABC.	$124	11#
	* A fire extinguisher mounted outboard of the passenger seat is not compatible with in-cab battery box.		
	* An auxiliary heater between the seats cannot be used in combination with an in-cab battery box or fire extinguisher on the floor next to the passenger seat due to interference.		
	* Available on T680 or T880 with GT100 toolbox rider seat only.		
	* Heater shutoff valves cannot be used with the option for a fire extinguisher located outboard of the rider seat.		
9490408	One 5 lb. dry chemical type fire extinguisher mounted inboard of rider seat. Class ABC.	$124	11#
	* Fire extinguisher mounted inboard on the passenger seat for use only with in-cab battery box.		
	* Not available with a rider seat mounted records holder in a 2.1 meter cab.		
	* Work station between seats is not compatible with a bench seat, a 26 inch wide seat, or an in-cab battery box seat. Also unavailable with beverage holder or fire extinguisher between the seats. Not for use with auxiliary heater between seats, PTO/Winch controls between seat bases, or with a records holder on rear cab wall. Not available with a sleeper.

Option	Description	Price	Weight
	Warranty		
9200002	Severe Service Warranty.	$0	0#
	* Class C or D road service greater than 9% requires a Severe Service Warranty.		
	* Extended Warranty requests are not available with Severe Service Warranty.		
	* Severe Service Warranty is required for front steer axles rated over 22,000 lbs GAWR, except in Ready Mix Concrete service.		
	* Severe service warranty is required if you have a rear axle rated at 52,000 lbs. or greater, or when rear axle ratio slower than 4.60 is specified for use in a heavy haul vocation. Rear axle ratio faster [numerically lower] than 4.60 can use either warranty when used in heavy haul vocation.		
	* Severe service warranty is required if you have the specified components: Front drive axle, single rear axle rated over 23k, dual reduction rear axles, or twin steer axle chassis. Coding for Severe Service kit does not automatically require the use of a Severe Service warranty, only when the products dictate the necessity.		
	* Specifying a rear axle ratio slower than 4.60 requires a Severe Service Warranty when used in heavy haul vocation. All other vocations using a 52,000 lb plus rear axle require the severe service warranty.		
	* The Severe Service Warranty is not a requirement unless you have the specified components that dictate its use.		
9200021	Standard Warranty.	STD	0#
	* Severe service warranty is required if you have a rear axle rated at 52,000 lbs. or greater, or when rear axle ratio slower than 4.60 is specified for use in a heavy haul vocation. Rear axle ratio faster [numerically lower] than 4.60 can use either warranty when used in heavy haul vocation.		
	* Standard warranty is not available with front drive axles, large capacity planetary rear axles rated at 52,000 lbs. or greater, single rear axles rated over 23K, or twin steer axles.		
9200022	Medium-duty Warranty: 1-year/unlimited mi.	STD	0#
	* T4 series chassis with GCW over 33K require Heavy-Duty warranty codes.		
	* T4 series chassis with GCW up to 33K require Medium-Duty warranty codes.		
9200113	Severe Service Medium-duty Warranty: 1-year/ 50,000 miles.	$0	0#
	* Severe service warranty is required if you have the specified components: Front drive axle, single rear axle rated over 23k, dual reduction rear axles, or twin steer axle chassis. Coding for Severe Service kit does not automatically require the use of a Severe Service warranty, only when the products dictate the necessity.		
	* T4 series chassis with GCW up to 33K require Medium-Duty warranty codes.		
	* The Severe Service Warranty is not a requirement unless you have the specified components that dictate its use.

	BASE MODEL PRICE		
0000800	T800 Series Conventional. Elastomer bushed front spring pins & heavy-duty shock absorber brackets, 16mm. fasteners from rear cab support to end-of-frame, except tractor taper crossmember. Vinyl inside sunvisors, driver side includes strap & mirror, rider side includes strap; Under-dash center console w/ 2 cup holders, 2-12V outlets & a storage compartment, Glove box door with locking latch.	$165,601	15,145#
	ENGINES		
	PACCAR		
0700656	PACCAR MX-13 455 2017 455@1600 1650@900 with engine brake	$0	0#
	ENGINE EQUIPMENT		
	Air Compressor		
1006003	Air Compressor: WABCO 25.9 CFM PACCAR MX 2017 440cc Air Compressor	$0	0#
	Air Intake System		
1051086	Air cleaner: Powercore engine mount 10 in. w/constant torque SS clamps, pop-up air restriction indicator. Holds 10% more fine dust than 2500. Pop-up indicator is standard.	$0	0#
	Cooling System		
1125640	Cooling module: T8SH/T8B/W9S 1440 square inches. Includes aluminum radiator core, aluminum charge air cooler, translucent surge tank and washer bottle, silicone hoses, and extended life coolant. Drain valve is not available w/Allison transmissions.	$0	0#
	Cooling System Equipment		
1105211	Fan Hub: Horton On/Off for PACCAR MX	$0	0#
	Exhaust Systems		
1247166	EXH: RH UNDER DPF/SCR W/ RH SIDE OF CAB VERTICAL TAILPIPE WITH DAYCABS, EXTENDED DAYCABS, OR MODULAR SLEEPERS, 2017 EPA	$0	0#
	Filters		
1321109	Fuel Filter:PACCAR Standard Service Interval Fuel/Water Separator. 2017 Emissions	$0	0#
1321205	Run Aid:Fuel Heat *For Fuel Filter	$0	0#
1321300	Start Aid:None *For Fuel Filter	$0	0#
	Starting & Recharging		
1816260	Alternator: PACCAR 160 amp, brush type	$0	0#
1821210	Batteries: 3 PACCAR GP31 threaded post (700) 2100 CCA dual purpose.	$0	0#
1836100	Starter: PACCAR 12 volt electrical system. W/ centralized power distribution incorporating plug-in style relays. Circuit protection for serviceability, 12-volt light system w/circuit protection circuits number & color coded.	$0	0#
	TRANSMISSIONS		
	Eaton		
2058368	Transmission: Fuller FRO16210C 10-speed w/internal oil cooler; no pump. Standard with synthetic lubricant. Includes severe-duty pilot bearing on all class 8 models. *Torque Limit: 1650 pound-feet.	$0	0#
	Clutch		
2250600	Clutch: Eaton 4 paddle ceramic 1650 lb-ft Eaton 15-1/2 in. Easy Pedal Advantage Manual Adjust Clutch cover. Torque limiting clutch brake. Severe duty pilot bearing. Synthetic lubrication for Eaton Fuller & axles. Extended grease fitting.	$0	0#

Option	Description	Price	Weight

TRANSMISSIONS

Driveline

3500058	DRIVELINE:1 MERITOR RPL20 INTERAXLE; REPLACING I/A *USE W/ RPL 25 MAIN D/L	$0	0#

FRONT AXLE

Front Axles

2512042	Meritor MFS12E PLUS 12.5K 3.5in. drop standard track	$0	0#

Outer End Equipment

2607001	Front Brakes: 14.6K Bendix air disc brakes lube free.	$0	0#
2690024	Splined rotor for front air disc brakes for use with aluminum hubs.	$0	0#
2701300	Front Hub: aluminum hub pilot 13,200 lbs. 10-Bolt, 11-1/4 in. bolt circle .	$0	0#
2741970	ConMet PreSet Plus Hub package; front axle.	$0	0#
2769000	Slack Adjusters included w/ front axle or brake.	$0	0#

Front Springs

2863012	Front Springs: Taperleaf 12K w/ shock absorbers w/ maintenance-free elastomer spring pin bushings. Standard with rubber pins except for C500 which has threaded pins. Not available on W900L.	$0	0#

Power Steering

2895121	Single power steering gear: 13.2K Sheppard M100P.	$0	0#

REAR AXLE

Tandem Drive Rear Axle

3123001	Dual Paccar axle rated at 40K, standard track, 9.5 mm housing. Tandem rear axle.	$0	0#

Tandem Axle Outer End Equipment

3334004	Dual Rear Brakes 16-1/2x7 in. to 46K; Bendix ES-extended service S-cam.	$0	0#
3392005	Dual Rear Brake Drums: cast.	$0	0#
3407050	Dual Rear Hubs: Aluminum hub pilot 46K 11-1/4 in. bolt circle.	$0	0#
3441972	ConMet PreSet Plus Hub package; dual rear axle.	$0	0#
3485209	Spring Brake: 3030 high output dual.	$0	0#
3465002	Dual Rear axle automatic slack adjusters.	$0	0#

Anti-Lock Brake System

3495226	Bendix 4S/4M anti-lock brake system.	$0	0#

REAR SUSPENSION

Tandem

3726405	Rear suspension: Tandem Reyco 102 38K. 4-spring multileaf & 52 in. axle spacing. Steel crossmembers & gussets. Unladen Height: 10.8 in. Laden Height: 9.2 in.	$0	0#

TIRES & WHEELS

Front & Rear Axle Tires

4070020	FR BR R283A ECOPIA 295/75R22.5 14PR	$0	0#

Option	Description	Price	Weight

TIRES & WHEELS

Front & Rear Axle Tires

4270020	RR BR R283A ECOPIA 295/75R22.5 14PR	$0	0#

Front & Rear Axle Wheels & Rims

5042264	Front wheel: Accuride 50487 22.5x8.25 steel Steel Armor[TM] powder coat, hub pilot mount. 7400lb. maximum rating. 5-hand hole. Air disc brake compatible.	$0	0#
5242264	Rear wheel: Accuride 50487 22.5x8.25 steel Steel Armor[TM] powder coat, hub pilot mount. 7400lb. maximum rating. 5-hand hole. Air disc brake compatible. Code is priced per pair of wheels.	$0	0#

FRAME & EQUIPMENT

Rails & Inserts

6054200	Frame Rails: 10-5/8 x 3-1/2 x 5/16 in. Steel to 284 in. Truck frame weight is 2.91 lb.-in. per pair of rails. Section modulus is 14.80, RBM is 1,776,000 in-lbs per rail. Frame rail availability may be restricted based upon application, axle/suspension capacity, fifth wheel setting, or component/dimensional specifications. The results of the engineering review may result in a change to the requested frame rail. If a change is required Kenworth Application Engineering will advise the dealer of the appropriate material specification for a substitute rail.	$0	0#

Bumpers

6301360	Bumper: Straight Aluminum Channel. Requires a bumper setting code.	$0	0#

Front Frame Miscellaneous

6390103	Front mudflaps.	$0	0#

Battery Boxes

6405048	Battery box module: Short length aluminum parallel under cab, aluminum diamond plate cover w/ step. Up to 2 air tanks may mount to bottom of box. Batteries will be oriented perpendicular on rail.	$0	0#

DPF-SCR Covers

6451090	T470,C5, T6, T8 non-polished DPF/SCR or CNG cover diamond plate w/ step. For use w/ 2010 or later exhaust systems. For T8, use extended length non-polished battery box on opposite rail to match the length of under cab components. End plates will be painted standard black frame color.	$105	0#

Rear Frame Equipment

6742009	Square end-of-frame w/ o crossmember;non-towing.	$0	0#
6721102	Rear mudflap arms: Betts B-25 standard-duty, straight. Includes B1732 mounting brackets as standard.	$0	0#
6722000	Rear mudflap shields: White plastic antisail w/ Kenworth logo.	$0	0#

FUEL TANKS & EQUIPMENT

Round

7210100	Fuel Tank: 100 US gallon 24.5in. aluminum under replace. Class 8 fuel tanks w/ o locking caps include an anti-siphon device on the filler neck.	$0	0#

Fuel Tank Equipment

7889245	Anti-siphon device swaged in place. For any number of fuel tanks.	$0	0#

DEF Tanks & Equipment

7722011	Small round DEF tank. 11 gallons of useable volume. The DEF tank will be located on the side you specified. If you have specific configuration or body builder concerns, please utilize the Custom Frame Layout option. Standard capacity is calculated by fuel capacity of the vehicle and will accommodate two diesel fill-ups for every DEF fill-up. For 1:1 DEF fuel fill ratio, add 7889204.	$0	0#

Option	Description	Price	Weight

CAB EXTERIOR

Cabs

8024310	Cab: Curved Glass Conventional. Cab Includes aluminum & fiberglass fully hucked cab w/ all aluminum bulkhead doors & continuous stainless steel piano-style door hinges. Single electric horn standard. Incandescent exterior lights include diagnosable bulb detection and warning. Trailer cable on tractors includes integrity detection. Standard features include multiplex wiring for interior lights, automated pre-trip inspection, short and open check diagnostics. Warning alarm will sound when lights are left on.	$0	0#

Windows

8871438	Rear Cab Stationary Window 17 in. x 36 in.	$0	0#

Hoods, Fenders & Grilles

8090103	Hood: Sloped Metton Hood W/ Grille & Shell Use For T800B 1-Piece Requires Engine Mounted Air Cleaner, 1440 Square In. Radiator & 2007+ Engines.	$0	0#

Cab Access

8800271	Long grabhandle RH side of cab.	$0	0#
8800373	Long grabhandle LH side of cab.	$0	0#
8800400	Grabhandle LH inside door frame above dash.	$0	0#
8800401	Grabhandle RH inside door frame above dash.	$0	0#

Horns

8841411	Single air horn under cab.	$0	0#

Mirrors & Equipment

8866100	Mirror: Dual Prutsman fixed heated mirrors 7 in. x 16 in. includes 7-1/2 in. convex mirror, RH.	$0	0#
8869005	Mirror brackets 8-1/2 ft load width.	$0	0#
8850300	Look-Down, Pass. Door, Stainless 8.5x4.4	$0	0#

Window Equipment

8879200	Manual LH & electric-powered RH door window. Switch located on door.	$0	0#
8890100	One-piece windshield, w/ curved glass.	$0	0#
8890134	Exterior aerodynamic sunvisor w/ integral marker lights.	$0	0#

Doors & Equipment

8832115	DAYLITE DOOR: LH/RH INCL RH PEEPER WINDOW	$0	0#
8700186	Electric LH & RH door locks.	$0	0#

CAB INTERIOR

Cabs & Sleepers

8331100	Cab interior: Splendor. Includes smooth upholstered side & back panels w/stitched accent lines, upholstered door pads, full vinyl headliner, black dash panels & black rubber floormats.	$0	0#
8343304	Interior color: Slate Gray w/trim Dark Slate Gray	$0	0#

Heaters & Air Conditioning

8108010	Cab heater: W/integral defrosters & A/C 45,000 btu cab heater. No sleeper heater/AC. Includes 5 mode rotary control. T660 include filter media.	$0	0#

Option	Description	Price	Weight

CAB INTERIOR

Steering Wheels & Equipment

8201013	Steering wheel: 18 in. 4-spoke.	$0	0#

Instruments & Controls

8282004	KW Driver Information Center: Includes fuel economy, RPM display, trip information, truck information, diagnostics, gear display, alarm clock.	$0	0#
8282009	Instrument package: Includes speedometer, tachometer, fuel gauge, engine coolant temperature gauge, engine oil pressure, voltmeter. Class 8 also includes primary & secondary air reservoir gauges & an air application gauge. DEF level gauge and warning lamp are included with 2010+ engines. Engine hour meter and outside air temperature readouts are standard. Primary read out will be MPH. Add 8240620 to switch primary scale to KPH in Canada.	$0	0#
8700168	Non-self cancelling turn signal: W/column-mounted headlight dimmer switch & intermittent wiper control.	$0	0#

Seats

8410091	Driver seat: Kenworth Air cushion Plus HB cloth. Standard features includes 7 in. fore and aft slide adjustment w/isolator, 6-23 degree recline, air suspension with cover, dual armrests, and single chamber air lumbar support. Seat cushion is 20 inches wide w/ 2-position tilt and 2-position front cushion extension. Seat material has a horizontal stitch pattern and is 2-tone in color. Seat back is carpeted and includes a map pocket. Seat is manufactured by National. Includes inside visor and retractable 3-point matching seat belts. Grey seat belts.	$0	0#
8480090	Rider seat: Kenworth Toolbox Plus HB cloth. Standard features include fixed base and backrest, tool box seat base w/ door, and dual armrests. Seat cushion is 19.5 inches. Seat material has a horizontal stitch pattern and is 2-tone in color. Seat back is carpeted with a map pocket. Seat is manufactured by National. Includes inside visor and retractable 3-point matching seat belts. Grey seat belts.	$0	0#
8490110	Seat color: Dark Slate Gray.	$0	0#

Cab Accessories

8879438	Cab door & windshield window cover. *Code for 38 INCH Aerocab only.	$0	0#

Information & Communication Systems

8700663	Kenworth TruckTech+ The Kenworth Remote Diagnostics system provides the Worlds Best reporting of engine and aftertreatment fault codes, as well as enhanced support for the truck owner through rapid communication of fault severity and recommended actions. This option is Standard on all Kenworths with an MX engine.	$0	0#

LIGHTS & SIGNALS

Headlamps

9010802	Headlamps: Dual Rectangular, extended life halogen	$0	0#

Marker Lights

9026200	Marker Lights: Five aerodynamic mounted in sunvisor.	$0	0#
9090039	Marker Lights: Interrupter Switch. Included in Turn Signal For All Models Except T3. The T3 Switch Is In The Dash.	$0	0#

Turn Signal Lights

9030010	Turn Signal Lights: Mounted on fender	$0	0#

Taillights

9030052	LED Stop,Turn,Tail: With Two LED Backup Lights and With An LED License Plate.	$0	0#

Option	Description	Price	Weight

Intended Service

0093000	Linehaul: Vehicles (trucks or tractors) used in over-the-road freight hauling. Pickup to delivery distance is typically over 300 miles, & annual mileage is typically over 60,000 miles per year. Operation is typically on-highway. Road usage: minimum 1% Class B, do not code for Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for linehaul service should be: CLASS A 25-99% ; CLASS B 1-100% ; CLASS C 0-90% ; CLASS D 0%	$0	0#
0093005	Local pickup & delivery: Vehicles which haul freight, typically operating within a 100-mile radius, on public streets & highways, & other paved surfaces, including limited Class C roads. Includes package & freight delivery, as well as fuel oil or petroleum distribution, etc. Road usage: minimum 3% Class B, do not code for Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for pick-up and delivery service should be: CLASS A 0-97% ; CLASS B 3-100% ; CLASS C 0-20% ; CLASS D 0% * This intended service strongly suggests a Horton 2-speed Fan Clutch. Benefits include reduced fan cycling (especially fan cycling due to A/C) resulting in increased friction liner life, increased belt life, reduced vibration and reduced dust generation.	$0	0#
0093007	Regional Haul: Vehicles used to haul freight on public roads consisting of a mixture of over the road, urban and/or suburban hauling. Pickup to delivery distance typically in the 100 to 300 miles range but some LTL applications may exceed 300 mile limit (FedEx for example). Road usage: minimum 19% Class B, do not code for Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road class profile for chassis in regional haul service is: CLASS A 0-81% ; CLASS B 19-100% ; CLASS C 0-20% ; CLASS D 0% * This intended service strongly suggests a Horton 2-speed Fan Clutch. Benefits include reduced fan cycling (especially fan cycling due to A/C) resulting in increased friction liner life, increased belt life, reduced vibration and reduced dust generation.	$0	0#
0093010	Logger: Vehicles which haul logs from the forest to the mill, or from mill to mill. Typically includes some operation off of paved roads. Road usage: any combination, which includes some Class C. * A steel bumper with center mounted tow hook is required on Canadian chassis used in logging or oil field service. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for logger service should be: CLASS A 0-97% ; CLASS B 0-99% ; CLASS C 1-100% ; CLASS D 0-99%	$0	0#
0093015	Concrete ready mix: Vehicles which deliver Ready-Mix concrete from batch plant to job site. Typically includes some operation off of paved roads. Road usage: any combination, which includes minimum 5% Class B. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for mixer service should be: CLASS A 0-95% ; CLASS B 5-100% ; CLASS C 0-10% ; CLASS D 0-5%	$0	0#
0093025	Snowplow: Vehicles which are configured for mounting a snowplow to the front. May also have dump or other body. Typically includes some operation off of paved roads. Road usage: majority of Class A & B, do not code for Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for snowplow service should be: CLASS A 0-95% ; CLASS B 5-100% ; CLASS C 0-10% ; CLASS D 0%	$0	0#

Option	Description	Price	Weight
	Intended Service		
0093030	Mining haulers: Vehicles used for hauling ore or overburden, either from the pit or face or from a stockpile. Generally used on private haul roads, rather than public highways. Typically includes some operation off of paved roads. Road usage: do not code for Class A, some Class C required. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for service as a mining hauler should be: CLASS A 0% ; CLASS B 0-95% ; CLASS C 1-100% ; CLASS D 0-99%	$0	0#
0093035	Mining service: Vehicles used to service earthmoving & mining equipment. Includes bodies such as mechanic's service bodies, tire hoists, fuel/lube, etc. Typically includes some operation off of paved roads. Road usage: any combination, which includes some Class C. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for mining service should be: CLASS A 0-97% ; CLASS B 0-95% ; CLASS C 1-100%; CLASS D 0-99%	$0	0#
0093071	Heavy equipment transport: Vehicles used to transport heavy, non-divisible loads, such as earthmoving equipment, electrical transformers, pressure vessels, etc. GCW can be from 80,000 lbs. to extremely heavy. Road usage: any combination, which includes some Class B. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for heavy equipment transport should be: CLASS A 0-99% ; CLASS B 1-100% ; CLASS C 0-99% ; CLASS D 0-99%	$0	0#
0093091	Refuse hauler: Vehicles which haul refuse, recycled material, etc. Includes Roll-on/roll-off container movement, as well as hauling refuse from transfer stations to landfills. Typically includes operation in landfills, over rough, uneven surfaces. Road usage: any combination, which includes some Class B. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * In off-road areas where tanks may tend to rotate the 7 inch tank supports or mechanical anti-roll options are recommended. * The road use profile for refuse haulers should be: CLASS A 0-99% ; CLASS B 1-100% ; CLASS C 0-99% ; CLASS D 0-99%	$0	0#
0093095	Refuse packer: Vehicles which pick up refuse or recycled material from curbside containers in residential areas. Operation typically includes very frequent stops & starts. Unloading can be at transfer station or at landfill. Road usage: some Class B required, with maximum of 5% Class D. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * Intended service of refuse packer requires use of a 37.4 CFM air compressor on ISX * Intended service refuse packer requires use of a 30.4 CFM air compressor. * MX engines not approved for refuse loader/packer applications except for the following MX-11 engines: 0700198 and 0700199. * Refuse loader/packer body type is only for use with refuse packer intended service. * The DSP41/P rear axle is not for use in refuse packer service per TE1568. * The road use profile for refuse packer service should be: CLASS A 0-80% ; CLASS B 1-100% ; CLASS C 0-99% ; CLASS D 0-5%	$0	0#

Option	Description	Price	Weight

Intended Service

0093101	Oil field rig move: Vehicles used in the transport & erection of oil well equipment. Includes bed trucks, winch trucks, rig-up trucks, etc. Trucks typically move heavy loads over poorly-prepared surfaces, & do considerable maneuvering on the jobsite to place or pick up loads. Road usage: minimum 5% Class C, w/no Class A or B required. * A Severe Service kit is required on all chassis operating in the Canadian oil fields. * A steel bumper with center mounted tow hook is required on Canadian chassis used in logging or oil field service. * Body builders must frequently add sub-frame to meet rail RBM requirements in services of oil field rig up or with oil field well service bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis. * Cab door bearing blocks are required on all chassis operating in Canada in the logging or oil field vocations. This is included as part of a Severe Service kit. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * In off-road areas where tanks may tend to rotate the 7 inch tank supports or mechanical anti-roll options are recommended. * The road use profile for oil field rig move service should be: CLASS A 0-50% ; CLASS B 0-90% ; CLASS C 5-100% ; CLASS D 0-95%	$0	0#
0093105	Oil field well servicing: Vehicles which carry well servicing equipment, e.g., pumpers, blenders, cementers, data loggers, etc. Typically involve considerable hours of stationary operation, but low mileage. Typically operate on prepared (although often unpaved) roadways. Road usage: any combination, w/minimum 5% Class C. * A Severe Service kit is required on all chassis operating in the Canadian oil fields. * A steel bumper with center mounted tow hook is required on Canadian chassis used in logging or oil field service. * Accurate body data is required to help engineering determine the vehicle application. Specification of oil field service or oil well service covers a broad spectrum and requires a narrative line that describes the body type. * Body builders must frequently add sub-frame to meet rail RBM requirements in services of oil field rig up or with oil field well service bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis. * Cab door bearing blocks are required on all chassis operating in Canada in the logging or oil field vocations. This is included as part of a Severe Service kit. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for oil field well service should be: CLASS A 0-80% ; CLASS B 0-95% ; CLASS C 5-100% ; CLASS D 0-95%	$0	0#
0093111	Wrecker service: Vehicles w/ recovery bodies used for recovering & towing stranded vehicles & equipment. Road usage: minimum 5% Class B & maximum 10% Class D. * Body manufacturer's often have specific RBM requirements in excess of Kenworth standards. It is the dealer's responsibility to contact the body builder and communicate the frame RBM or section modulus requirements to Kenworth engineering. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * For the purpose of frame strength analysis the body load is assumed to be a distributed load. It is further understood that the load of the crane and it's payload will be supported by outriggers in contact with the ground during operation of the crane. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance. * The road use profile for use with wrecker service should be: CLASS A 0-95% ; CLASS B 5-100% ; CLASS C 0-95% ; CLASS D 0-10%	$0	0#

Option	Description	Price	Weight
	Intended Service		
0093121	Fire truck service: Vehicles used in fighting fires. Typically have pumps, etc., mounted in the body. Road usage: minimum 5% Class B & maximum 5% Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * NFPA compliance 1901 kit is required with Fire service. * The road use profile for fire or EMT service should be: CLASS A 0-80% ; CLASS B 5-100% ; CLASS C 0-95% ; CLASS D 0-5% * With fire truck service an ember separator may be required to meet local or NFPA compliance.	$0	0#
0093122	EMT/rescue service: Vehicles used responding to emergencies & rescue operations. Typically configured for rapid response, & carry medical & other rescue equipment. Road usage: minimum 5% Class B & maximum 5% Class D. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for fire or EMT service should be: CLASS A 0-80% ; CLASS B 5-100% ; CLASS C 0-95% ; CLASS D 0-5%	$0	0#
0093125	Crane/cherry picker: Vehicles equipped w/ cranes, man-lifts, hoists, cherry-pickers, bridge inspection units, etc. Road usage: any combination, w/minimum 5% Class B. * Body builders must frequently add sub-frame to meet rail RBM requirements with crane/cherry picker bodies. Adding the sales code when applicable will assist in the engineering evaluation of these chassis. * Body manufacturer's often have specific RBM requirements in excess of Kenworth standards. It is the dealer's responsibility to contact the body builder and communicate the frame RBM or section modulus requirements to Kenworth engineering. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for crane/cherry picker service should be: CLASS A 0-95% ; CLASS B 5-100% ; CLASS C 0-80% ; CLASS D 0-80% * When Crane/Cherry Picker is listed as the intended service the vehicle is considered to be used exclusively in crane operation. If this does not describe your application consider using pick up and delivery or construction as your intended service.	$0	0#
0093130	Construction: Vehicles used in the construction industry, other than those listed above. Use typically involves operating on the jobsite, to pick up or deliver construction materials, or to position the vehicle for its intended use at the construction site. Includes such activities as delivery of precast concrete, concrete pumpers, flatbeds or roll-offs for delivery of construction materials or equipment, etc. Typically includes some operation off of paved roads. Road usage: any combination, which includes some Class C. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for construction service should be: CLASS A 0-97% ; CLASS B 0-99% ; CLASS C 1-100% ; CLASS D 0-99%	$0	0#
0093135	Agriculture: Vehicles used in the agriculture industry, other than those listed above. Use typically involves transportation of agricultural & dairy products to/from/on/around farm sites, & includes operation off of improved surfaces while on the farm. Includes applications such as milk tankers for farm pickup, feed trucks, grain haulers which load in the field, etc. Can be trucks or tractors. Road usage: any combination, which includes both Class C & D. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * For assistance determining applicable body or trailer types for this service refer to DealerNet/Product Information/Body and Trailer Guidelines. * The road use profile for chassis in agriculture service should be: CLASS A 0-95% ; CLASS B 0-98% ; CLASS C 1-95% ; CLASS D 1-95%	$0	0#

Option	Description	Price	Weight

Commodity Hauled

Building Materials

0091010	Pre-cast concrete (blocks, pavers, etc.).	$0	0#
	* Precast concrete commodity is applicable with intended service codes of regional haul, pickup and delivery, construction or agriculture.		
0091020	Ready-mix concrete.	$0	0#
	* Ready-mix concrete commodity is applicable with intended service codes of mixer, pickup and delivery, construction or crane/cherry picker [pumper trucks].		
0091030	Lumber.	$0	0#
	* Lumber commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, construction or crane/cherry picker.		
0091040	Other building materials.	$0	0#
	* Other/building material commodity is applicable with intended service codes of heavy equipment transport, line haul, regional haul, pickup and delivery, construction or crane/cherry picker.		
0091041	Asphalt.	$0	0#
	* Asphalt commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, or construction. * Beam or spring rear suspensions are typically used with an asphalt spreader. * For dump trucks used to spread asphalt there is an option to switch ABS off to improve performance on loose surfaces. Use 8205012 if the road conditions require this. * Vocations of snowplow, mining haulers, construction, pick-up and delivery or regional haul are appropriate for this commodity.		
0091042	Gravel/crushed rock/sand.	$0	0#
	* Gravel/crushed rock commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, snowplow, mining hauler, or construction. * Vocations of snowplow, mining haulers, construction, pick-up and delivery or regional haul are appropriate for this commodity.		
0091043	Topsoil/bark.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found. * The commodity of bark or topsoil most closely matches the intended service of pick-up and delivery, agriculture, or construction.		

Food-Farm Products

0091130	Grain.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Grain commodity is applicable to intended services of agriculture, pickup and delivery or regional haul.		
0091135	Livestock feed.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found. * The commodity of livestock feed is most closely matched with intended services of agriculture, pick-up and delivery, or linehaul [flatbed sacked feed].		

Option	Description	Price	Weight

Commodity Hauled

Food-Farm Products

0091140	Hay.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Hay commodity is applicable to intended services of agriculture, line haul, regional haul, or pickup and delivery.		
0091150	Livestock.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Livestock commodity is applicable to intended services of agriculture, line haul, regional haul, or pickup and delivery.		
0091160	Hanging meat.	$0	0#
	* Hanging meat commodity is applicable to intended services of agriculture, line haul, regional haul, or pickup and delivery.		
0091170	Other food/farm products.	$0	0#
	* Farm products commodity is applicable to intended services of agriculture, line haul, regional haul, or pickup and delivery.		

Bulk Goods

0091050	Dry bulk goods.	$0	0#
	* Dry bulk goods commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, construction or agriculture.		
0091060	Dairy products - milk.	$0	0#
	* Dairy commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, or agriculture.		
0091070	Liquid petroleum products.	$0	0#
	* For chassis hauling flammable liquids driveline guards are recommended to help retain the driveline position in the event of U-joint failure. * Liquid petroleum commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, mining service, oil field well service, or oil field rig move. * The Hendrickson HMX rear suspension is not available for use as a petroleum tanker.		
0091080	Other bulk goods.	$0	0#
	* Dry bulk commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, snowplow, mining hauler, refuse hauler, or EMT/rescue.		
0091115	Compressed gas.	$0	0#
	* Compressed gas commodity is applicable with intended service codes of regional haul, pickup and delivery, oil field rig move, or mining service.		
0091121	Water.	$0	0#
0091122	Crude oil.	$0	0#
	* Crude oil commodity is applicable with intended service codes of regional haul, pickup and delivery, oil field rig move or mining service.		
0091123	Liquefied gas.	$0	0#
	* Liquid gas commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, or oil field rig move.		

Option	Description	Price	Weight

Commodity Hauled

Bulk Goods

0091125	Steel structural/coil.	$0	0#
	* Structural/coiled steel commodity is applicable to intended services of construction, pickup and delivery, line haul, regional haul, or heavy equipment transport.		

Forest Products

0091180	Logs.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found.		
	* A minimum front spring capacity of 16,000 lbs is recommended for use on trucks in logging service.		
	* A Severe Service kit is required on all chassis operating in the Canadian logging vocation.		
	* A steel bumper with center mounted tow hook is required on Canadian chassis used in logging or oil field service.		
	* Any type of logger which codes for class C or D road usage requires a minimum rear axle capacity of 46,000 lbs.		
	* Cab door bearing blocks are required on all chassis operating in Canada in the logging or oil field vocations. This is included as part of a Severe Service kit.		
	* Logs commodity is applicable to intended services of logger or crane/cherry picker.		
0091190	Wood chips.	$0	0#
	* In some chip hauling vocations the entire chassis is inclined during unloading. For this operation a front filler neck on fuel tanks is important.		
	* Wood chips commodity is applicable to intended services of agriculture, construction, line haul, regional haul, or pickup and delivery.		
0091200	Other forest products.	$0	0#
	* Other forest products commodity is applicable to intended services of agriculture, construction, line haul, regional haul, or pickup and delivery.		

Minerals

0091210	Coal.	$0	0#
	* Coal commodity is applicable to intended services of agriculture, construction, line haul, regional haul, or pickup and delivery.		
	* Vocations of snowplow, mining haulers, construction, pick-up and delivery or regional haul are appropriate for this commodity.		
0091220	Excavated earth.	$0	0#
	* Vocations of snowplow, mining haulers, construction, pick-up and delivery or regional haul are appropriate for this commodity.		
0091230	Rock.	$0	0#
	* Rock commodity is applicable to intended services of mining hauler or snowplow.		
	* Vocations of snowplow, mining haulers, construction, pick-up and delivery or regional haul are appropriate for this commodity.		
0091240	Other minerals.	$0	0#
	* Other minerals commodity is applicable to intended services of mining hauler or snowplow.		
	* Vocations of snowplow, mining haulers, construction, pick-up and delivery or regional haul are appropriate for this commodity.		

Option	Description	Price	Weight

Commodity Hauled

Dry Goods

0091090	General freight.	$0	0#
	* General freight commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, construction or agriculture.		
0091100	Heavy machinery.	$0	0#
	* Heavy machinery commodity is applicable with intended service codes of snowplow, heavy equipment transport, crane/cherry picker, regional haul, pickup and delivery, oil field rig move, mining service, oil field well service, wrecker or EMT/rescue.		
0091110	Oil field equipment.	$0	0#
	* A steel bumper with center mounted tow hook is required on Canadian chassis used in logging or oil field service.		
	* Oil field equipment commodity is applicable with intended service codes of heavy equipment transport, oil field rig move, oil field well service, or mining service.		
0091120	Other dry goods.	$0	0#
	* Other/dry goods commodity is applicable with intended service codes of line haul, regional haul, pickup and delivery, construction or agriculture.		
0091124	Auto transporter.	$0	0#
	* Automobile transport commodity is applicable with intended service codes of wrecker, heavy equipment transport, line haul, regional haul, pickup and delivery, or EMT/rescue.		

Miscellaneous

0091250	Empty cans.	$0	0#
	* Empty cans commodity is applicable with intended service codes of regional haul, pickup and delivery, oil field rig move, or refuse hauler.		
0091260	Refuse/recycled material.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found.		
	* Refuse/recycle commodity is applicable to intended services of oil field rig move, refuse hauler, or refuse packer.		
0091270	Fire apparatus.	$0	0#
	* Fire apparatus commodity is applicable to intended services of fire truck, oil field well service, construction or agriculture.		
	* NFPA compliance 1901 kit is required with Fire service.		
0091271	EMT/rescue.	$0	0#
	* EMT/rescue equipment commodity is applicable with intended service code of EMT/rescue.		

Option	Description	Price	Weight

Body Type

0095010	End dump.	$0	0#

* End dump body type is for use in the following services: linehaul, local P&D, regional haul, snowplow, mining hauler, oil field well service, construction, refuse hauler or agriculture.
* For the purpose of frame strength analysis the body load is assumed to be a distributed load and also as a two-point load supported on a lifting ram located approximately 2ft behind the cab and at the hinge point at the end of the frame. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance.
* Not approved for use with AG400L rear suspensions.
* The road use profile for dump truck service should be: CLASS A 0-97% ; CLASS B 0-99% ; CLASS C 1-100% ; CLASS D 0-99%
* This body type is generally prohibited with tag axles. OAR review can be requested when customer need dictates the tag axle.

0095015	Super dump with flying tag axle.	$0	0#

* A super dump body type is used for commodities of asphalt, gravel, topsoil, coal, excavated earth, rock, other minerals.
* For the purpose of frame strength analysis the body load is assumed to be a distributed load and also as a two-point load supported on a lifting ram located approximately 2ft behind the cab and at the hinge point at the end of the frame. It is understood that the chassis will be equipped with a lift axle of 12000lb capacity located approximately 12.5ft from the centerline of the rear drive axle. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance.
* Not approved for use with AG400L rear suspensions.
* Super dump body type is for use in the following services: linehaul, local P&D, regional haul, construction or agriculture
* Super dump with flying tag axle is not available for use with an AutoShift transmission.
* This body type is generally prohibited with tag axles. OAR review can be requested when customer need dictates the tag axle.

0095030	Transfer dump.	$0	0#

* AutoShift transmission are not suited for use in transfer dump applications.
* For the purpose of frame strength analysis the body load is assumed to be a distributed load and also as a two-point load supported on a lifting ram located approximately 2ft behind the cab and at the hinge point at the end of the frame. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance.
* Not approved for use with AG400L rear suspensions.
* This body type is generally prohibited with tag axles. OAR review can be requested when customer need dictates the tag axle.
* Transfer dump body type is for use in the following services: linehaul, local P&D, mining hauler or construction.

0095035	Stone slinger.	$0	0#

* A stone slinger body type is used for the commodities of rock or other minerals.
* Not approved for use with AG400/AG460/AG690 rear suspensions.
* Not approved for use with AG400L rear suspensions.
* Stone slinger body type is for use in the following services: local P&D, regional haul or construction
* This body type is compatible with full trucks only.

Option	Description	Price	Weight

Body Type

0095040 Concrete mixer, non-booster-axle. $0 0#

* For mixers other than boost-a-load the minimum rail material for use without an insert is 10-11/16 inch
* For the purpose of frame strength analysis the body load is assumed to be a two-point load. The forward pedestal is located close to the back of cab and the rear pedestal is located near the end of the frame. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance.
* Mixer body manufacturers often have very specific requirements regarding frame strength and crossmember placement. This should be discussed with the customer and communicated to engineering using sales codes or narrative lines on the DTPO.
* Non-booster axle concrete mixer body is for use in the following services: concrete ready mix or construction.
* Not approved for use with AG400L rear suspensions.
* PX-9 with this body type is not available with a GCW over 80,000 lbs.

0095050 Booster axle mixer w/ approved frame reinforcement. $0 0#

* Boost-a-load mixers require that reinforcement side plates for the frame be installed at the factory.
* Booster axle concrete mixer is for use in the following services: concrete ready mix or construction.
* Concrete mixers that will use a lift axle must specify an 11-5/8 inch main rail.
* Concrete mixers with a wheelbase over 260 inches require a minimum rail material of 11-5/8 inches when there is no lift axle specified.
* Concrete mixers with a wheelbase under 261 inches require a minimum rail material of 10-3/4 inches when there is no lift axle specified.
* For the purpose of frame strength analysis the body load is assumed to be a two-point load. The forward pedestal is located approximately 4ft from the back of cab and the rear pedestal is located near the end of the frame. It is understood that the chassis will be equipped with a lift axle of 12000lb capacity located approximately 12.5ft from the centerline of the rear drive axle. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance.
* Mixer body manufacturers often have very specific requirements regarding frame strength and crossmember placement. This should be discussed with the customer and communicated to engineering using sales codes or narrative lines on the DTPO.
* Not approved for use with AG400L rear suspensions.
* PX-9 with this body type is not available with a GCW over 80,000 lbs.

0095055 Concrete pump. $0 0#

* Concrete pump body type is for use in the following services: local P&D, regional haul, concrete ready mix, or construction.
* Concrete pumper body type is used for the commodity of ready mix concrete only.
* If this concrete pump is equipped with an aerial boom the body manufacturer may have RBM requirements in excess of Kenworth's frame requirements. The dealer should contact the body manufacturer and communicate the requirements in a narrative line on the DTPO.
* Not approved for use with AG400/AG460/AG690 rear suspensions.
* Not approved for use with AG400L rear suspensions.
* This body type is compatible with full trucks only.

0095056 Volumetric mixer. $0 0#

* PX-9 with this body type is not available with a GCW over 80,000 lbs.
* Volumetric mixer body is for use in the following services: local P&D, regional haul, concrete ready mix, oil field well service or construction.

Option	Description	Price	Weight

Body Type

0095060	Roll on/roll off.	$0	0#
	* For the purpose of frame strength analysis the body load is assumed to be a distributed load and also as a point load supported on the tail roller at the end of the frame. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance. * Not approved for use with AG400/AG460/AG690 rear suspensions. * Not approved for use with AG400L rear suspensions. * Roll on/roll off body type are for use in the following services: local P&D, regional haul, mining hauler, mining service, heavy equipment transport, refuse hauler, oil field rig move, oil field well service, wrecker service, EMT/rescue service, construction or agriculture * Roll-off/back body types are generally prohibited with tag axles. OAR review can be requested when customer need dictates the tag axle.		
0095065	Roll back flatbed.	$0	0#
	* For the purpose of frame strength analysis the body load is assumed to be a distributed load and also as a point load supported on the tail roller at the end of the frame. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance. * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained. * Roll back flat bed body is for use in the following services: local P&D, regional haul, mining hauler, mining service, heavy equipment transport, refuse hauler, oil field rig move, oil field well service, wrecker service, EMT/rescue service, construction or agriculture. * Roll-off/back body types are generally prohibited with tag axles. OAR review can be requested when customer need dictates the tag axle. * This body type is compatible with full trucks only.		
0095070	Refuse loader/packer.	$0	0#
	* 18.7 CFM compressor N/A with body type refuse loader/packer. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Body type refuse loader/packer requires 30.4 CFM compressor * Body type refuse loader/packer requires use of the 37.4 CFM air compressor on MX engines. * Hendrickson recommends track rods on refuse loader or packer vehicles specifying a beam suspension with axle spacing of 52 or 54 inches. * MX engines not approved for refuse loader/packer applications except for the following MX-11 engines: 0700198 and 0700199. * Not approved for use with AG400/AG460/AG690 rear suspensions. * Not approved for use with AG400L rear suspensions. * PX-9 with this body type is not available with a GCW over 80,000 lbs. * Refuse loader/packer body type is only for use with refuse packer intended service.		
0095080	Refuse, other.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found. * Not approved for use with AG400L rear suspensions. * Other refuse body types are for use in the following services: local P&D, regional haul, or refuse hauler.		

Option	Description	Price	Weight

Body Type

0095084 Logger, single bunk. $0 0#

* A minimum front spring capacity of 16,000 lbs is recommended for use on trucks in logging service.
* A Severe Service kit is required on all chassis operating in the Canadian logging vocation.
* A steel bumper with center mounted tow hook is required on Canadian chassis used in logging or oil field service.
* Any type of logger which codes for class C or D road usage requires a minimum rear axle capacity of 46,000 lbs.
* Cab door bearing blocks are required on all chassis operating in Canada in the logging or oil field vocations. This is included as part of a Severe Service kit.
* Not approved for use with AG400/AG460/AG690 rear suspensions.
* Not approved for use with AG400L rear suspensions.
* Single bunk logger body type is for use in the following services: linehaul or logger.

0095085 Logger, multiple bunks. $0 0#

* A minimum front spring capacity of 16,000 lbs is recommended for use on trucks in logging service.
* A Severe Service kit is required on all chassis operating in the Canadian logging vocation.
* A steel bumper with center mounted tow hook is required on Canadian chassis used in logging or oil field service.
* Any type of logger which codes for class C or D road usage requires a minimum rear axle capacity of 46,000 lbs.
* Cab door bearing blocks are required on all chassis operating in Canada in the logging or oil field vocations. This is included as part of a Severe Service kit.
* Multi-bunk logger body type is for use in the following services: linehaul or logger.
* Not approved for use with AG400/AG460/AG690 rear suspensions.
* Not approved for use with AG400L rear suspensions.

0095090 Oil field rig-up. $0 0#

* A Severe Service kit is required on all chassis operating in the Canadian oil fields.
* A steel bumper with center mounted tow hook is required on Canadian chassis used in logging or oil field service.
* Cab door bearing blocks are required on all chassis operating in Canada in the logging or oil field vocations. This is included as part of a Severe Service kit.
* For the purpose of frame strength analysis the body load is assumed to be a distributed load and also as a point load supported on the tail roller at the end of the frame. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance.
* Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained.
* Not approved for use with AG400/AG460/AG690 rear suspensions.
* Not approved for use with AG400L rear suspensions.
* Oil field rig up body type is for use in the following services: mining hauler, heavy equipment transport, oil field rig move, oil field well service or crane.
* The body installed on oil field rig up or oil field well servicing trucks may make a substantial contribution to the available frame RBM. To assist in engineering these vehicle a narrative line should be added to the DTPO describing the body sub-frame characteristics. Contact Application Engineering for assistance as needed.

0095095 Beverage. $0 0#

* Beverage body type is for use in the following services: linehaul, regional haul, l or local P&D.

Option	Description	Price	Weight

Body Type

0095099	Oil Field Winch/Equipment BOC for use w/Tractors. * For use with intended service of Oil Field Rig Move. * For use with tractors. * Requires the selection of oil field equipment for commodity hauled.	$0	0#
0095100	Oil well servicing equipment. * A Severe Service kit is required on all chassis operating in the Canadian oil fields. * Accurate body data is required to help engineering determine the vehicle application. Specification of oil field service or oil well service covers a broad spectrum and requires a narrative line that describes the body type. * Cab door bearing blocks are required on all chassis operating in Canada in the logging or oil field vocations. This is included as part of a Severe Service kit. * Not approved for use with AG400/AG460/AG690 rear suspensions. * Not approved for use with AG400L rear suspensions. * Oil field well service equipment body type is for use in the following services mining service, oil field rig move, oil field well service or crane. * The body installed on oil field rig up or oil field well servicing trucks may make a substantial contribution to the available frame RBM. To assist in engineering these vehicle a narrative line should be added to the DTPO describing the body sub-frame characteristics. Contact Application Engineering for assistance as needed.	$0	0#
0095102	Coil Tubing Unit.	$0	0#
0095105	Drilling derrick. * Body manufacturer's often have specific RBM requirements in excess of Kenworth standards. It is the dealer's responsibility to contact the body builder and communicate the frame RBM or section modulus requirements to Kenworth engineering. * Drilling derrick body type is for use in the following services: mining service, oil field rig move, oil field well service or construction. * For the purpose of frame strength analysis the body load is assumed to be a distributed load. It is further understood that the load of the crane and it's payload will be supported by outriggers in contact with the ground during operation of the crane. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance. * Not approved for use with AG400/AG460/AG690 rear suspensions. * Not approved for use with AG400L rear suspensions. * This body type is compatible with full trucks only.	$0	0#
0095110	Tank. * Tank bodies should specify a commodity the is a liquid or some other type of bulk product. * Tanker body type is for use in the following services: linehaul, local P&D, regional haul, snowplow, mining service, refuse hauler, oil field well service, fire truck, EMT/rescue, construction or agriculture.	$0	0#
0095115	Dry bulk hopper. * A clog resistant radiator is recommended for operation in environments where high dust levels are found. * A dry bulk hopper body type is used for the commodities of bark/topsoil, dry bulk goods, other food/farm products, other forest products, grain, dry bulk, or feedlot type commodities * Dry bulk hopper body type is for use in the following services: linehaul, pickup & delivery, regional haul, mining hauler, construction or agriculture. * This body type is compatible with full trucks only.	$0	0#

Option	Description	Price	Weight

Body Type

0095120	Van.	$0	0#
	* Van body type is for use in the following services: linehaul, local P&D, regional haul, mining hauler, mining service, refuse hauler, EMT/rescue, construction or agriculture.		
0095125	Service body.	$0	0#
	* Service body type is for use in the following services: local P&D, regional haul, snowplow, mining service, oil field well service, wrecker, EMT/rescue, crane or construction. * This body type is compatible with full trucks only.		
0095130	Dromedary box or automobile rack.	$0	0#
	* Drom box or automobile rack body type are for use in the following services: linehaul, local P&D, regional haul, wrecker or construction. * If using a drom box with trailer connections you may consider relocating the hosetenna and TP valve from the standard location using codes 9140702-9140711. * Not approved for use with AG400L rear suspensions. * This body type can be used in tractor or full truck configurations.		
0095135	Cotton module.	$0	0#
	* A clog resistant radiator is recommended for operation in environments where high dust levels are found. * A cotton module body is used for commodities of 'other' food/farm products . 'other' bulk goods, or dry bulk goods * Cotton module body type is for use in the following services: agriculture. * For the purpose of frame strength analysis the body load is assumed to be a distributed load and also as a point load supported on the tail roller at the end of the frame. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance. * Not approved for use with AG400L rear suspensions. * This body type is compatible with full trucks only. * This body type is generally prohibited with tag axles. OAR review can be requested when customer need dictates the tag axle.		
0095140	Flatbed.	$0	0#
	* Flatbed body type is for use in the following services: linehaul, local P&D, regional haul, snowplow, mining hauler, mining service, heavy equipment transport, refuse hauler, oil field rig move, oil field well service, EMT/rescue, crane, construction or agriculture. * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained.		
0095145	Flatbed with utility crane.	$0	0#
	* Flatbed with utility crane body type is for use in the following services: linehaul, local P&D, regional haul, snowplow, mining hauler, mining service, heavy equipment transport, refuse hauler, oil field rig move, oil field well service, EMT/rescue, crane, construction or agriculture. * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained. * PX-9 with this body type is not available with a GCW over 80,000 lbs. * This body type is compatible with full trucks only.		

Option	Description	Price	Weight

Body Type

0095146 Wrecker. $0 0#

* A wrecker body for commodities of auto transporter or heavy machinery.
* This body type is compatible with full trucks only.
* Wrecker body type is for use in the following services: local P&D, regional haul, mining service, heavy equipment transport, oil field rig move, wrecker, EMT/rescue or crane.

0095151 Crane/boom. $0 0#

* Body manufacturer's often have specific RBM requirements in excess of Kenworth standards. It is the dealer's responsibility to contact the body builder and communicate the frame RBM or section modulus requirements to Kenworth engineering.
* Crane or boom body types are for use in the following services: local P&D, regional haul, mining service, heavy equipment transport, oil field rig move, oil field well service, crane or construction.
* For the purpose of frame strength analysis the body load is assumed to be a distributed load. It is further understood that the load of the crane and it's payload will be supported by outriggers in contact with the ground during operation of the crane. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance.
* Not approved for use with AG400L rear suspensions.
* PX-9 with this body type is not available with a GCW over 80,000 lbs.

0095153 Logger, self-loading crane/boom. $0 0#

* A minimum front spring capacity of 16,000 lbs is recommended for use on trucks in logging service.
* A Severe Service kit is required on all chassis operating in the Canadian logging vocation.
* A steel bumper with center mounted tow hook is required on Canadian chassis used in logging or oil field service.
* Any type of logger which codes for class C or D road usage requires a minimum rear axle capacity of 46,000 lbs.
* Body manufacturer's often have specific RBM requirements in excess of Kenworth standards. It is the dealer's responsibility to contact the body builder and communicate the frame RBM or section modulus requirements to Kenworth engineering.
* Cab door bearing blocks are required on all chassis operating in Canada in the logging or oil field vocations. This is included as part of a Severe Service kit.
* For the purpose of frame strength analysis the body load is assumed to be a distributed load. It is further understood that the load of the crane and it's payload will be supported by outriggers in contact with the ground during operation of the crane. If these assumptions don't accurately represent the body load please contact Application Engineering for assistance.
* Not approved for use with AG400/AG460/AG690 rear suspensions.
* Not approved for use with AG400L rear suspensions.
* Self loading crane logger body type is for use in the following services: local P&D, regional haul, or logger.
* Self loading loggers can have the crane/boom installed at the back of cab or at the end of frame. Communicate the crane location using a narrative line on the DTPO.
* Self-loading loggers are available for full truck applications only.
* Use code 6679850 or 6679852 to describe the location of the crane or boom for purpose of frame strength analysis.

0095155 Fire truck-pumper. $0 0#

* Fire truck pumper body type is for use in the following services: local P&D, regional haul, mining service, oil field well service, fire truck. Removed EMT/Rescue per M Hampson
* NFPA compliance 1901 kit is required with Fire service.

Option	Description	Price	Weight
	Body Type		
0095160	OTHER - NARRATIVE REQUIRED	$0	0#
	* Accurate body data is required to help engineering determine the vehicle application. Specification of 'other' as the body type requires a narrative line that describes the body type or vehicle usage.		
	* This body or trailer type will result in engineering review if a Kenworth air suspension is specified. Consider using a narrative to help define actual vehicle use.		
0095165	Vacuum tank.	$0	0#
	* Not approved for use with AG400L rear suspensions.		
	* Vacuum tank body type is for use in the following services: local P&D, regional haul. mining service, refuse hauler, oil field well service, construction or agriculture.		
0095175	Reefer van.	$0	0#
	* Reefer van body is applicable to line haul, local pickup and delivery, or regional haul intended services		
	Trailer Type		
0096010	Doubles.	$0	0#
	* Double trailers are for use in the following services: linehaul, local P&D, regional haul, construction or agriculture.		
	* Trailer types of doubles, triples, bottom dump or automobile carrier are for use with tractors only.		
0096015	Triples.	$0	0#
	* Trailer types of doubles, triples, bottom dump or automobile carrier are for use with tractors only.		
	* Triple trailers are for use in the following services: linehaul or local P&D, mining hauler, or refuse hauler only.		
0096020	End dump.	$0	0#
	* End dump trailer type is for use in the following services: linehaul, local P&D, regional haul, mining hauler, refuse hauler, construction or agriculture.		
0096025	SIDE DUMP	$0	0#
	* For use with: Local Pickup & Delivery 0093005 Regional Haul 0093007 Mining Haulers 0093030 Refuse Hauler 0093091 Construction 0093130 Agriculture 0093135		
	* Not for use with AG400L (3730026, 3730028) or AG380 (3730053)		
0096030	Bottom dump.	$0	0#
	* Bottom dump trailer type is for use in the following services: line haul, local P&D, regional haul, mining hauler, construction or agriculture.		
	* Trailer types of doubles, triples, bottom dump or automobile carrier are for use with tractors only.		
0096040	Flatbed.	$0	0#
	* Flatbed trailer type is for use in the following services: linehaul, local P&D, regional haul, mining hauler, heavy equipment transport, refuse hauler, oil field rig move, oil field well service, wrecker, crane, construction or agriculture.		
	* Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained.		
	* This trailer type is for use in tractors or full truck pulling a trailer configurations.		

Option	Description	Price	Weight

Trailer Type

0096045	Beverage.	$0	0#
0096050	Lowboy. * Installation of an aftermarket headache rack is frequently required for this vocation. The rack may impede access to grab handles mounted on the back of the cab. Compliance with FMCSR 399 must be maintained. * Lowboy trailer type is for use in the following services: linehaul, local P&D, regional haul, mining hauler, heavy equipment transport, oil field rig move, oil field well servicing, wrecker, crane, construction or agriculture * Not approved for use with AG400L rear suspensions. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#
0096055	Automobile/marine carrier. * Auto or marine carrier trailer is for use in the following services: linehaul, local P&D, regional haul, heavy equipment transport, wrecker, or crane. * Trailer types of doubles, triples, bottom dump or automobile carrier are for use with tractors only.	$0	0#
0096060	Reefer van. * Reefer van trailer type is for use in the following services: linehaul, local P&D, regional haul or agriculture. * Reefer van trailers typically have increased swing clearance requirements. Contact Kenworth Application Engineering if you have concerns. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#
0096070	Tank. * Tank trailers should specify a commodity the is a liquid or some other type of bulk product. * Tanker trailer is for use in the following services: linehaul, local P&D, regional haul, mining hauler, mining service, oil field well service, fire truck, EMT/Rescue, construction or agriculture. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#
0096075	OIL FIELD WELL SERVICE * For use with Oil Field Well Servicing 0093105 * Not for use with AG400L (3730026, 3730028) or AG380 (3730053)	$0	0#
0096080	Dry van beverage trailer, curtain trailer, chip trailer. * Dry van trailer type is for use in the following services: linehaul, local P&D, regional haul, refuse hauler, EMT/Rescue, construction or agriculture. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#
0096085	Logger, single bunk or semi-trailer. * A minimum front spring capacity of 16,000 lbs is recommended for use on trucks in logging service. * A Severe Service kit is required on all chassis operating in the Canadian logging vocation. * Any type of logger which codes for class C or D road usage requires a minimum rear axle capacity of 46,000 lbs. * Cab door bearing blocks are required on all chassis operating in Canada in the logging or oil field vocations. This is included as part of a Severe Service kit. * Not approved for use with AG400L rear suspensions. * Semi-trailer or single bunk logger trailer types are for use in the following services: linehaul or logging service. * This trailer type is for use in tractors or full truck pulling a trailer configurations.	$0	0#

Option	Description	Price	Weight
	Trailer Type		
0096090	OTHER - NARRATIVE REQUIRED	$0	0#
	* This body or trailer type will result in engineering review if a Kenworth air suspension is specified. Consider using a narrative to help define actual vehicle use.		
	* This trailer type is for use in tractors or full truck pulling a trailer configurations.		
	Special Requirements		
0098010	California Registry	$0	0#
0098015	Mexico registry.	$0	0#
	* Specifying Mexico registry requires that operator manuals be written in Spanish.		
	* Vehicles registered in Mexico should use metric gauges.		
0098025	U.S. Domestic registry, 50-state.	$0	0#
0098030	Export: Off-highway - exempt from US regulations.	$0	0#
	* An external sunvisor is required on all chassis used in export operating areas.		
	* An extra duty radiator support crossmember is required on T800 chassis used in export service. Use 6324027 or a center mounted tow hook to meet the requirement.		
	* Cab door bearing blocks are required on all export operating area chassis. This feature is included in Severe Service kits.		
	* Chassis which are specified to be exported out of North America require a code for destination country.		
	* Export chassis require huckbolts in the frame.		
	* In export operating areas tanks may tend to rotate and require 7 inch tank supports or mechanical anti roll for all fuel tanks on the order.		
	* Per Kenworth policy TA003 contact the PACCAR International sales manager to review approval for export specific issues.		
	* Special delivery requirements may be required when certain options for Export operating areas are requested. See shipping policy TA005.		
0098032	Export: On-highway chassis.	$0	0#
	* An external sunvisor is required on all chassis used in export operating areas.		
	* An extra duty radiator support crossmember is required on T800 chassis used in export service. Use 6324027 or a center mounted tow hook to meet the requirement.		
	* Cab door bearing blocks are required on all export operating area chassis. This feature is included in Severe Service kits.		
	* Chassis which are specified to be exported out of North America require a code for destination country.		
	* Export chassis require huckbolts in the frame.		
	* In export operating areas tanks may tend to rotate and require 7 inch tank supports or mechanical anti roll for all fuel tanks on the order.		
	* Per Kenworth policy TA003 contact the PACCAR International sales manager to review approval for export specific issues.		
	* Special delivery requirements may be required when certain options for Export operating areas are requested. See shipping policy TA005.		
0098033	On-highway chassis for use in off-shore.	$0	0#
	* Off-shore operating area applies to Puerto Rico.		

Option	Description	Price	Weight

Special Requirements

0098050	Canadian registry.	$0	0#
	* Daytime running lights are required with any Canada registration.		
	* Special permits may be required for tractors operating in Canada with wheelbase in excess of 244 inches.		
0098060	Quebec registry.	$0	0#
	* Chassis registered in Quebec must code for French language documentation, or replace those documents with English. There are additional options to select a preference for name plates and manuals as well.		
	* Daytime running lights are required with any Canada registration.		
	* Special permits may be required for tractors operating in Canada with wheelbase in excess of 244 inches.		

Export Destination

0098035	Russian compliant chassis.	$0	0#
	* Chassis fairings interfere with ECE compliant lighting required for over the road use in Russia.		
	* Chassis going to Russia must incorporate an ECE compliant fifth wheel, if one is installed at the factory.		
	* Fixed lower bunk replacing sofa bed is required on the 86 inch studio sleeper when Russian Compliance is requested.		
	* Ignition and doors are keyed separate on Russian compliant vehicles.		
	* Metric gauges are required for Russian compliance.		
	* No CB radio is compliant for use in Russia.		
	* Rams horn tow hooks are only available with short tractor taper end of frame without a crossmember when requested as part of Russian compliance.		
	* Russian Compliance code is only applicable with Russian operating destination.		
	* Russian compliant chassis require Russian language nameplates		
	* Russian compliant chassis require special European approved headlights.		
9400071	Specify Ship Destination by Narrative.	$0	0#
9481000	Export Destination: Chile.	$0	0#
9481001	Export Destination: Colombia.	$0	0#
	* The countries of Colombia and Peru require front hubs with big bearings.		
9481002	Export Destination: Ecuador.	$0	0#
9481003	Export Destination: Indonesia.	$0	0#
	* Air assist for the clutch is required on units going to Thailand or Indonesia. Add code 2294004.		
9481004	Export Destination: Peru.	$0	0#
	* The countries of Colombia and Peru require front hubs with big bearings.		
9481005	Export Destination: Puerto Rico.	$0	0#

Stationary Application

0072000	Chassis operation will not include a stationary application. Stationary operation is defined as running the engine under load while stationary at a substantial fraction of engine gross horsepower (60% or greater) for an extended period of time (longer than 5 - 10 minutes). * Stationary application use codes are required when vehicle service or components are indicative applications requiring special cooling review. Vocations where stationary operation may exist include concrete pumper, oil well service, Coil Tubing Unit, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO.	$0	0#
0072001	Chassis operation will include stationary application used in lower 48 states [US only]. Stationary operation is defined as running the engine under load while stationary at a substantial fraction of engine gross horsepower (60% or greater) for an extended period of time (longer than 5 - 10 minutes). * Required for Cummins engines with single fuel tank; for PACCAR PX-9 with single fuel tank Restricted for PACCAR MX engines w/o stationary applications (ref 0072001, 0072002, and 0072003) * Stationary application use codes are required when vehicle service or components are indicative applications requiring special cooling review. Vocations where stationary operation may exist include concrete pumper, oil well service, Coil Tubing Unit, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO. * Stationary cooling definition for US lower 48 states only. Indicates that the chassis will not be operating in conditions considered to be a stationary application. Vocations where stationary operation may exist include concrete pumper, oil well service, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO.	$0	0#
0072002	Chassis operation will include stationary application used in Canada or Alaska. Stationary operation is defined as running the engine under load while stationary at a substantial fraction of engine gross horsepower (60% or greater) for an extended period of time (longer than 5 - 10 minutes). * Required for Cummins engines with single fuel tank; for PACCAR PX-9 with single fuel tank Restricted for PACCAR MX engines w/o stationary applications (ref 0072001, 0072002, and 0072003) * Stationary application use codes are required when vehicle service or components are indicative applications requiring special cooling review. Vocations where stationary operation may exist include concrete pumper, oil well service, Coil Tubing Unit, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO.	$0	0#
0072003	Chassis operation will include export stationary application. Stationary operation is defined as running the engine under load while stationary at a substantial fraction of engine gross horsepower (60% or greater) for an extended period of time (longer than 5 - 10 minutes). * Required for Cummins engines with single fuel tank; for PACCAR PX-9 with single fuel tank Restricted for PACCAR MX engines w/o stationary applications (ref 0072001, 0072002, and 0072003) * Stationary application use codes are required when vehicle service or components are indicative applications requiring special cooling review. Vocations where stationary operation may exist include concrete pumper, oil well service, Coil Tubing Unit, drilling derrick, fire pumper, vacuum tank, chassis with a front engine PTO used other than as a snowplow, or chassis using a split-shaft PTO.	$0	0#

0090221	Non-Sleeper w/Dual Front Axle 59K or less rear axle capacity.	$0	0#
0090224	42 in. Modular Sleeper & Dual Front Axle w/ 59K+ rear axle capacity or w/Sisu rear axles.	$0	0#
0090225	42 in. Modular Sleeper & Dual Front Axle w/rear axle capacity less than 59K.	$0	0#
0090230	Non-Sleeper & Dual Front Axle & Tridem rear Axle.	$0	0#

CARB Emission Reduction Feature

Option	Description	Price	Weight
0080055	CARB Idle Emissions Reduction Feature. Cummins engines.	$100	0#
	* Anti-idle feature for Cummins engines. California and Georgia require an idle emissions reduction feature for trucks primarily intended for operation or registration within their borders. North Carolina requires an idle emissions reduction feature for trucks leased or registered within its borders. Other states may adopt similar requirements. This option includes a sticker affixed to the exterior of the driver's side door which indicates this vehicle complies with the restriction of 30 grams/hour NOx emissions. Use this sales code if your operating area dictates the necessity.		
	* Dealer must add one of the sales codes which either identifies the chassis as containing a 50-state CARB idle/anti-idle compliant engine or declines the need.		
0080066	CARB Idle Emissions Reduction Feature. Paccar MX engines - Low NOx Idle.	$100	0#
	* Anti-idle feature for PACCAR MX engines. California and Georgia require an idle emissions reduction feature for trucks primarily intended for operation or registration within their borders. North Carolina requires an idle emissions reduction feature for trucks leased or registered within its borders. Other states may adopt similar requirements. This option includes a sticker affixed to the exterior of the driver's side door which indicates this vehicle complies with the restriction of 30 grams/hour NOx emissions. Use this sales code if your operating area dictates the necessity.		
	* Dealer must add one of the sales codes which either identifies the chassis as containing a 50-state CARB idle/anti-idle compliant engine or declines the need.		
0080070	CARB Exempt Application Emergency Vehicle Only.	$0	0#
	* The exemption for CARB labeling can be added to fire truck or emergency service/rescue vehicles but must accompany a CARB feature code.		
	* The exemption for CARB labeling must accompany a CARB feature code.		
0080075	Dealer/Customer declines engine w/CARB Idle Emissions Reduction Feature.	$0	0#
	* Dealer must add one of the sales codes which either identifies the chassis as containing a 50-state CARB idle/anti-idle compliant engine or declines the need.		
0080085	CARB Idle - Alternative fuel exempt from CARB anti-idle.	$0	0#
	* Dealer must add one of the sales codes which either identifies the chassis as containing a 50-state CARB idle/anti-idle compliant engine or declines the need.		
	* Engine idle shutdown not required with CNG/LNG engines. This alternative fuel source is exempt from the CARB idle regulations add should be branded as Alternative Fuel Exempt.		
	* ISL-G / ISX12G engines should always be labeled as alternative fuel use.		

Option	Description	Price	Weight

PACCAR

MX

0700191 PACCAR MX-11 2017 335 335@1600 1150@900 with engine brake ($500) -376#

* An anti-lock brake system is required with PACCAR MX engines.
* For vehicles operating in fuel rich environments an engine overspeed shutdown device is strongly recommended.
* MX engines are not for use on T800 twin steer chassis, T800 wide hood models, or on the W900L. Cannot be used as a fire truck [no fire ratings].
* MX-11 engines 0700191, 0700192, and 0700198 are not approved for GCW over 80,000.
* MX-11 is not compatible with W900B or W900L
* Not available with Allison 3000EVS or 3500 transmissions.
* PACCAR MX engines are not available on twin steer chassis.
* PACCAR MX engines are not suited for Fire or EMT/Rescue. Contact Application Engineering for assistance with these vocations.
* T800 MX-11 only available with FEPTO
* The engine harness for PACCAR MX engines includes a multi-function connector. This is standard on 2.1 M cab models (T680/T880).
* The PACCAR MX engine when coupled with any type of PTO must have the PTO engine speed set no higher than 2000 rpm.

0700192 PACCAR MX-11 2017 355 355@1600 1250@900 with engine brake ($500) -376#

* An anti-lock brake system is required with PACCAR MX engines.
* For vehicles operating in fuel rich environments an engine overspeed shutdown device is strongly recommended.
* MX engines are not for use on T800 twin steer chassis, T800 wide hood models, or on the W900L. Cannot be used as a fire truck [no fire ratings].
* MX-11 engines 0700191, 0700192, and 0700198 are not approved for GCW over 80,000.
* MX-11 is not compatible with W900B or W900L
* Not available with Allison 3000EVS or 3500 transmissions.
* PACCAR MX engines are not available on twin steer chassis.
* PACCAR MX engines are not suited for Fire or EMT/Rescue. Contact Application Engineering for assistance with these vocations.
* T800 MX-11 only available with FEPTO
* The engine harness for PACCAR MX engines includes a multi-function connector. This is standard on 2.1 M cab models (T680/T880).
* The PACCAR MX engine when coupled with any type of PTO must have the PTO engine speed set no higher than 2000 rpm.

0125833	ISX12 425V 2013 425@1800 398@2100 1650@1100, w/Engine Retarder. Diagnostic Plug for data link, Oil Cooler, Aluminum Flywheel Housing. Replaces code 0125828.	$6,064	10#
0125850	ISX12 450EV 2013 450@1800 414@2100 1550@1100 w/Engine Retarder. For Emergency Vehicles Diagnostic Plug for data link, Oil Cooler, Aluminum Flywheel Housing. Replaces code 0125851.	$6,307	10#
0125902	ISX12 500EV 2013 500@1800 460@2100 1645@1100 w/Engine Retarder. For Emergency Vehicles Diagnostic Plug for data link, Oil Cooler, Aluminum Flywheel Housing. Replaces code 0125900.	$7,174	10#

Option	Description	Price	Weight
	Engine Parameters		
1000233	Powertrain Protect with SmartAccel - ISX15/ISX12 Torque Rate Limiting	$0	0#
1000329	Cummins ISX engine parameters for split shaft PTO For use with vacuum tank bodies and Cummins ISX engines. Enables PTO parameters to prevent engine instability issues with vacuum tank applications. Locates vehicle speed sensor on output of transmission instead of transfer case. * Requires transmission driven split shaft PTOs that have irregular loads requires a Cummins ISX12 or X15 engine with transmission driven split shaft PTO.	$0	0#
	Engine Idle Shutdown Timers		
1000679	Effective VSL Setting 64.6 MPH (USA)	$0	0#
1000856	Enable Most Fuel Efficient EIST	$0	0#
