

**All Public Work Projects are required to use the Louisiana Uniform Public Work Bid Form**

All prices must be held firm unless an escalation provision is requested in this bid. Jefferson Parish will allow one escalation during the term of the contract, which may not exceed the U.S. Bureau of Labor Statistics National Index for all Urban Consumers, unadjusted 12 month figure. The most recently published figure issued at the time an adjustment is requested will be used. A request must be made in writing by the vendor, and the escalation will only be applied to purchases made after the request is made.

Are you requesting an escalation provision?

YES \_\_\_\_\_ NO \_\_\_\_\_

MAXIMUM ESCALATION PERCENTAGE REQUESTED \_\_\_\_\_%

INITIAL BID PRICES WILL REMAIN FIRM THROUGH THE DATE OF END of Year 2017

For the purposes of comparison of bids when an escalation provision is requested, Jefferson Parish will apply the maximum escalation percentage quoted by the bidder to the period to which it is applied in the bid. The initial price and the escalation will be used to calculate the total bid price. It will be assumed, for comparison of prices only, that an equal amount of material or labor is purchased each month throughout the entire contract.

**Serious trucks.™**

# THE END OF COMPROMISE HAS BEEN ACHIEVED.

You don't want the almost right truck. You want the right truck. Which is just another way to say a Western Star®. It's designed to flat out work, every single day. No excuses. No complaints. That's because this is the work truck that was built to be a work truck. And we have a whole family of them that can be customized to do whatever you need.

In fact, a Star is so well-built, it's going to keep running long after the others stop. And the low cost of operation you get over the life of your Western Star truck makes it a true long-term investment. That's how we've been doing it since we built our first one over 40 years ago. With this kind of value, no wonder Stars are the trucks real pros turn to.

## Body builder friendly.

We make trucks with the body builder-specific options that are designed to reduce installation time and ensure years of trouble-free operation. Plus, since we build each truck to your specifications, anything is possible. Pre-punched frame rails, front frame extensions, point-to-point power distribution, ample room between the seats to install controls – the list goes on. Just ask your dealer.

## A NICE PLACE TO CALL WORK.

The cab of the Western Star is built to make the job easier and more comfortable. Large, waterproof switches that let you work with gloves on. A quiet, insulated cab that's easy to get in and out of. Greater visibility. More leg room. More storage. More space between seats. Your drivers might feel spoiled. Almost.

## WIRING MADE EASY.

Our 4700 features a number of body builder-friendly features that make connections easier. Like in-cab wiring and interface connectors. A bolt-in pass-through plate in the cab floor to eliminate unnecessary drilling. And a dedicated floor channel with an easy-to-remove top that provides plenty of room to run your own wiring. Like we said, easy.

## SET FORWARD OR SET BACK. YOUR CHOICE.

Whichever model you need, with Western Star, you decide on front axle placement. Specify set back (SB) front axles for maximum maneuverability or choose set forward (SF) to maximize bridge law formulas.

## LET IT SNOW.

When you're operating a plow, you don't want snow getting into your engine. In-cab controlled snow doors with optional underhood air cleaners keep snow out in the harshest conditions, so you can stay working.

## All hail the steel cab.

No aluminum or rivets here. Our galvanized steel cabs are built to keep you safe. Extra gussets and reinforcements, bonded instead of riveted, precision welded for strength, then dipped and protected with a 17-stage e-coat process for long-lasting corrosion resistance and a superior paint finish. And for extreme-duty applications, Western Star also offers a severe service cab option with additional reinforcements to withstand anything you can throw at it.

# READY, WILLING AND MORE THAN ABLE.

Western Star® trucks are built to perform, with the high-quality components that stand up to the challenge of hard work. Sure, you can buy a less expensive truck. But that only costs you in the long run.

## The answer is yes.

The question, well, you'll have to supply that. With thousands of options and a work force dedicated to hand building the truck you need, Western Star delivers true factory customization all backed by a single factory warranty. If there's something you need, just ask.

## Close enough just isn't good enough.

When it comes to choosing an engine, close enough should never enter the conversation. So for municipal applications, we offer a variety of engines with horsepower and torque ratings to match your job. Getting what you want has never been easier.

ENGINE	HORSEPOWER	TORQUE
DETROIT™ DD13*	350-470	1250-1650lb.-ft.
DETROIT™ DD15* TC	455-505	1550-1750lb.-ft.
DETROIT™ DD16*	475-600	1850-2050lb.-ft.
CUMMINS ISL	260-380	720-1250lb.-ft.
CUMMINS ISX15	400-600	1450-2050lb.-ft.

DETROIT DD13

## DEMAND POWER AND EFFICIENCY.

Detroit™ engines are engineered to deliver the excellent power and fuel economy you depend on while still meeting today's efficiency requirements. That's why each engine we build is 2013 OBD (OBD13) Certified and compliant with 2014 Greenhouse Gas (GHG14) regulations. So you can count on a powerplant that will run clean and strong for many miles to come.

## EASY MAINTENANCE. GREATER UPTIME.

We engineer our trucks to be simple to work on. From changing air filters or replacing fuses to accessing major components, a Star is made to keep you on the road and running.

## ALL CONDITIONS ARE WORKING CONDITIONS.

A Western Star truck is built to perform no matter how hot or how cold. So you'll find options like heated windshields, arctic wiper blades and access hatches in the hood to keep you running even when the conditions are less than ideal.

**Serious trucks.™**

# DESCENDED FROM A LONG LINE OF WORKAHOLICS.

If you're looking for a truck that delivers quality and performance – even with today's tightening budgets – you've found it. The Western Star® 4700 tractor is the ideal solution for bulk haul, local delivery and construction operations. That's because it was built with input from you – the people who know what your company needs in a truck.

Of course, just like our other models, this truck is still every bit a Western Star. Hand built with an unmatched attention to detail, just like we've done for nearly 50 years. Durable, reliable and rugged, designed to be lighter weight to save you money today and for years to come. So meet the new Star. Everything you need. Nothing you don't.

## The all-steel, corrosion-resistant office.

Our galvanized steel cabs are built to keep you safe. Bonded instead of riveted, precision welded for strength, then dipped and protected with a multi-stage e-coat process for long-lasting corrosion resistance and a superior paint finish. Strength and longevity are the goals. We'd say they've been exceeded.

## AN INTERIOR DESIGNED TO KEEP DRIVERS HAPPY.

The interior of the Western Star 4700 isn't built just to look pretty. It's built to make a day on the job more enjoyable. With features like a 72-inch-wide cab with plenty of shoulder room, and barium foam insulation paired with an extra-thick floor pad for incredible comfort and reduced noise. Just the kind of environment to boost driver retention.

## FRAME RAILS BUILT FOR THE LONG HAUL.

Like all of our tractors, the 4700 features tapered frame ends and bolt-in crossmembers with recessed fasteners to minimize trailer damage, as well as make replacement easy.

**Heavyweight performance.  
Without the heavy.**

Yes, you can get strong and light. The 4700 is available with a number of options to reduce weight without sacrificing performance. Lightweight bumpers, aluminum fifth wheels, underhood air cleaners, plus a host of other choices to build your truck how you want it. Just see your dealer for the full story.

**Excellent maneuverability, meet big power.**

When it comes to choosing an engine, close enough should never enter the conversation. We offer engines from both Detroit and Cummins, with the specifications to give you the power you need for your application. And matching that power to the 110-inch BBC of the 4700 gives you a tractor that's perfect for regional hauling, no matter what your business.

**CUMMINS ISL**  
260-380HP, 720-1250lb-ft.

**DETROIT™ DD13®**  
350-505HP, 1250-1850lb-ft.

**DETROIT**

**DEMAND POWER AND EFFICIENCY.**

Detroit™ engines are engineered to deliver the excellent power and fuel economy you depend on while still meeting today's efficiency requirements. That's why each engine we build is 2016 OBD (OBD16) Certified and compliant with 2017 Greenhouse Gas (GHG17) regulations. So you can count on a powerplant that will run clean and strong for many miles to come.

**THE RIGHT SIZE TO GO  
JUST ABOUT ANYWHERE.**

With a newly designed sloped hood and a 110-inch BBC, the 4700 offers unobstructed sightlines with incredible visibility. Plus, its 50-degree wheel cut gives you the maneuverability to get into – and out of – some pretty tight spots.

**Part II Certification**

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

**General Instructions**

Section references are to the Internal Revenue Code unless otherwise noted.  
 Future developments. Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at [www.irs.gov/fw9](http://www.irs.gov/fw9).

**Purpose of Form**

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)

- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding?* on page 2.

By signing the filled-out form, you:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
- Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting?* on page 2 for further information.

### Interactive TIN Session:Interactive Results

This screen provides you with the results of your TIN Match request. The 'Match Indicator' displays a code next to the TIN and name combination. Use the codes below to interpret your results:

- 0 = TIN and Name combination matches IRS records.
- 1 = TIN was missing or TIN not 9-digit numeric.
- 2 = TIN entered is not currently issued.
- 3 = TIN and Name combination does not match IRS records.
- 4 = Invalid TIN Matching request.
- 5 = Duplicate TIN Matching request.
- 6 = TIN and Name combination matches IRS SSN records.
- 7 = TIN and Name combination matches IRS EIN records.
- 8 = TIN and Name combination matches IRS SSN and EIN records.

**Important:** Before leaving this screen, you may want to do a Print Screen of the results. Once you exit this screen, the interactive results will no longer be available for viewing.

Using the TIN Matching system allows you to verify the accuracy of taxpayer TIN and name information prior to submitting information to IRS. Internal Revenue Code 6724 provides any penalties under Section 6721 may be waived if the filer shows the failure to file a correct TIN on an information return was due to reasonable cause and not willful neglect. Filers may prove due diligence and receive a waiver from proposed penalties if they prove the TIN and name combination they submitted matched IRS records. Providing a copy of the Print Screen of your Interactive Results will be considered proof of due diligence.
