

SHAW CONTRACT FLOORING SERVICES, INC.

D/B/A SHAW SPORTS TURF

The undersigned, James Kirkpatrick, being the duly elected, qualified, and acting Vice President of Shaw Contract Flooring Services, Inc. d/b/a Shaw Sports Turf, a Georgia Corporation (the "Company"), does hereby certify that the following named individual has the respective title set forth opposite his name.

Name

Matthew E. Gruetter

Office

Director of Operations, Shaw Sports Turf

Further, I do hereby certify that Matthew E. Gruetter has had the title of Director of Operations, Shaw Sports Turf, having continuously served in that position since July 9, 2018. The Officers of the Company have approved and authorize that Matthew E. Gruetter has the authority to execute documents on behalf of the Company and to bind the Company in that regard, without any further action by the Company.

IN WITNESS WHEREOF, the undersigned does hereby execute this Certificate as of July 17, 2018.

James Kirkpatrick  
Vice President, Corporate Finance

## State Licensing Board for Contractors

This is to Certify that

SHAW CONTRACT FLOORING SERVICES, INC.  
P.O. Box 2128, MD95-03  
Dalton, GA 30722

is duly licensed and entitled to practice the following classifications

SPECIALTY: ARTIFICIAL TURF; SPECIALTY: CARPET AND RESILIENT FLOORS; SPECIALTY: FLOORING  
AND DECKING; SPECIALTY: RECREATION & SPORTING FACILITIES & GOLF COURSES; SPECIALTY:  
WATERPROOFING, COATING, SEALING, CONCRETE/MASONRY REPAIR

Expiration Date: April 04, 2020

License No: 54153

Witness our hand and seal of the Board dated,  
Baton Rouge, LA 5th day of April 2017

  
Director

  
Chairman

This License Is Not Transferrable

  
Treasurer

# AMERICAN SPORTS BUILDERS ASSOCIATION

*Through Its Certification Board  
Has Conferred Upon*

**Patrick Remke**

*The Designation*

**CERTIFIED FIELD BUILDER - Synthetic Turf**

FOR EFFORTS TO RAISE THE PROFESSIONAL  
STANDARDS OF TENNIS COURT CONSTRUCTION  
AND FOR HAVING SUCCESSFULLY FULFILLED THE  
CONDITIONS OF ELIGIBILITY AND PASSED THE  
REQUIRED EXAMINATION.

In witness whereof we have set our hands on  
this 15th day of September, 2017.

Certification valid for a period of 3 years.

  
Executive Vice-President  
  
Certification Chairman

# *Certificate of Membership*

*This is to certify that*

**Shaw Sports Turf**  
Is a Member of the Supplier Division  
of the

*American Sports Builders Association*

a nonprofit association, is a national organization for builders, designers, and suppliers of materials for tennis courts, running tracks, synthetic turf fields, indoor and outdoor synthetic sports surfaces. It is recognized as a centralized source for technical information, including construction guidelines.

The membership hereby conferred entitles the above named to use the name and membership mark of the Association on all proper forms, notices, and advertising subject to the conditions set forth in the By-Laws of the Association.

In Witness Whereof, The American Sports Builders Association has caused this certificate to be executed and its seal affixed by the Chairman and Secretary on June 23, 2014.

  
Secretary

  
Chairman

# ★ AMERICAN-OWNED & AMERICAN-MADE ★

---

---

Shaw Sports Turf is the largest synthetic turf company in the world that is both American-owned and offers American-made products. Our products are subjected to the most stringent quality standards in the industry. Each field we make undergoes a minimum of 450 scheduled quality checks. When we offer a product, we know it will perform and will last. We believe this is important to you as a customer and to our integrity as a business.

First, the competitiveness of the United States economy is, to a large degree, dependent upon the competitive of corporations based in the United States. For over five decades, Shaw has worked to be one of the most competitive American companies and the overall leader in the markets the company serves, including the synthetic turf market.

Shaw Sports Turf is owned by Berkshire-Hathaway, one of the largest and most respected companies in the world. As such, we can offer the highest quality products, as well as an investment in research and development to bring innovation to the synthetic turf market.

Being American-owned and offering American-made products allows us to fulfill our vision of creating a better future for our customers, our people, our company, and our communities.

HYBRID SYNTHETIC TURF SYSTEM

# LEGION®

A team is a collection of players that work together to achieve a common goal. Just as teams have different positions for different roles, so does each part of Shaw Sports Turf's Legion fiber system. Combining slit film and monofilament fibers into one complete system, Legion provides the benefits of both: not only does it look like natural grass and allow for better ball roll, but it also has added durability and infill control. Legion is available in different configurations, each with its own distinct benefits **to make athletes play in a whole different league.**

## ★★★ LEGION PRO

Premium construction of both Bolt monofilament and slit film fibers

Optimized face weight for performance and infill flyout control

## ★★ LEGION HP

Our best selling product

Slit film and diamond-shaped monofilament construction

Optimized weight

## ★ LEGION SD

Slit film and diamond-shaped monofilament construction

Standard ounce weight

### All systems come with:

- Ultraloc backing system that provides dimensional stability and improved tuft bind
- Designed for optimal performance characteristics and allows for control of infill flyout
- Great balance of traction, foot stability and aesthetics
- Shaw backed warranty

## ALL OF OUR SYSTEMS ARE DESIGNED AROUND 6 CRITICAL PERFORMANCE TESTS

## COLOR OPTIONS

The colors shown are not intended for exact color matching purposes, please refer to actual sample swatches for accurate hues.

## CROSS SECTION

### FIBER\*

Monofilament / slit film

### INFILL

Mixture of materials (sand, rubber and/or GeoFill) to create preferred performance characteristics

### ULTRALOC® COMPOSITE BACKING\*\*

Multiple layers of backing provide:

- Added UV stabilizers for up to 5x more protection
- High strength to withstand forces endured in the tufting, coating & installation process
- 24% thicker primary backing yarns
- 39% higher grab tear strength
- Polyurethane secondary backing exceeds synthetic turf tuft bind standards at 10 lb-F (min. avg.)

\* Legion Pro uses Bolt, a premium lightning bolt shaped monofilament fiber. Legion HP and SD use diamond shaped monofilament fibers.

\*\* Legion SD uses a 2-layer backing.

## Test Summary

Company:	Shaw Sports Turf	Report Number:	72507
Address:	616 E. Walnut Ave	Lab Test Number:	2974-4793, 2963-4389, 4391
	Dalton, GA 30720	Test Completion Date:	12/28/2017 Turf, 11/2/2017 Yarn
		Report Date:	1/5/2018
Requested By:	Drew McDowell		

### TEST MATERIAL:

Material Type:	Synthetic Turf	Dates Received:	11/17/2017 Turf, 10/9/2017 Yarn
Material Condition:	EXCELLENT: XXX GOOD:	POOR:	REJECTED:
Style:	Legion HP 2.25		
Roll #:	N/A		

### TESTING METHODS REQUESTED:

Testing Services Inc. was instructed by the client to test for the following...			
Standard:	ASTM D1907	Test Method:	Standard Test Method for Liner Density of Yarn by the Skein Method
Standard:	ASTM D3218	Test Method:	Standard Test Method for Specification of Polyolefin Monofilaments
Standard:	ASTM D2256	Test Method:	Standard Test Method for Tensile Properties of Yarns by the Single Strand Method
Standard:	ASTM D5848	Test Method:	Standard Test Method for Mass Per Unit Area of Pile Yarn Floorcoverings
Standard:	ASTM D5823	Test Method:	Standard Test Method for Tuft Height of Pile Yarn Floorcoverings
Standard:	ASTM D1335	Test Method:	Standard Test Method for Tuft Bind of Pile Yarn Floorcoverings
Standard:	ASTM D5034	Test Method:	Standard Test Method for Breaking Strength of Textile Fabrics (Grab)
Standard:	ASTM D5793	Test Method:	Standard Test Method for Binding Sites per Unit Length or Width of Pile Yarn Floorcoverings
Standard:	ASTM D2859	Test Method:	Standard Test Method for Ignition Characteristics of Finished Textile Pile Yarn Floorcoverings
Standard:	ASTM D3385	Test Method:	Standard Test Method for Infiltration Rates of Soils in Field Using Double Ring Infiltrometer
Standard:	ASTM F355	Test Method:	Standard Test Method for Impact Attenuation of Playing Surface Systems and Materials

### SAMPLING PLAN:

- Specimen sampling is performed in the sampling department at TSI.
- The sampling size of specimens is determined by the test method requirements.
- In the event a specific sampling size is not called for, a determination will be made based on previous testing experience, and approved for use by an authorized manager.
- All samples are subjected to the outside environmental conditions of temperature and relative humidity.
- Sample requiring pre-determined exposure to specified environmental conditions based on a specific test method, take place in the departments in which they are tested

### DEVIATION FROM TEST METHOD:

State reason for any Deviation from, Additions to, or Exclusions From Test Method.
None

TEST METHOD		TEST DESCRIPTION	TEST RESULT - MONOFILAMENT	
Yarn Testing	ASTM D1907	Yarn Denier	7,349	
	ASTM D3218	Filament Thickness	0.0096" / 244 microns (x4)	
	ASTM D2256	Yarn Breaking Strength / Elongation	11.58 lbs/force	59.70%

TEST METHOD		TEST DESCRIPTION	TEST RESULT	
Product Testing	ASTM D5848	Total Product Weight	71.55 oz/yd2	
	ASTM D5848	Pile Yarn Weight	44.85 oz/yd2	
	ASTM D5848	Primary Backing Weight	7.98 oz/yd2	
	ASTM D5848	Secondary Backing Weight	18.72 oz/yd2	
	ASTM D5823	Average Pile Height	2.25"	
	ASTM D1335	Average Tuft Bind Strength	16.3 lbs/force	
	ASTM D5034	Avg Grab Tear Strength of L & W Direction	313.0 lbs/force	
	ASTM D5793	Stitch Count / Gauge	3.0 stitches per 1"	1/2"

TEST METHOD		TEST DESCRIPTION	TEST RESULT
Performance Testing	ASTM D2859	Pill Flammability	8 out of 8 passes
	ASTM F355a	Gmax	95
	ASTM D3385	Infiltrometer Drainage Rate	61 inches/hour

➤ Infill System: 3.65 lbs/ft² Rubber Mixed with 3.65 lbs/ft² Sand

### Uncertainty:

We undertake all assignments for our clients on a best effort basis. Our findings and judgments are based on the information using the latest test methods available. TSI can only ensure the test results for the specific items tested. Unless otherwise noted in the deviations sections of this report, all tests performed are in compliance with stated test method.

### Test Report Approval:

Erle Miles, Jr. VP, Testing Services Inc

TSi Accreditation: Our code # is: NVLAP 100108-0. TSi is a certified independent testing laboratory by the Synthetic Turf Council  
Our laboratory is ISO9001: 2008 Technical Testing of Textiles accredited.

# BERKSHIRE HATHAWAY INC.

2018  
ANNUAL REPORT

Here's one example drawn from the table above: Berkshire's holdings of American Express have remained unchanged over the past eight years. Meanwhile, our ownership increased from 12.6% to 17.9% because of repurchases made by the company. Last year, Berkshire's portion of the \$6.9 billion earned by American Express was \$1.2 billion, about 96% of the \$1.3 billion we paid for our stake in the company. When earnings increase and shares outstanding decrease, owners – over time – usually do well.

A third category of Berkshire's business ownership is a quartet of companies in which we share control with other parties. Our portion of the after-tax operating earnings of these businesses – 26.7% of Kraft Heinz, 50% of Berkadia and Electric Transmission Texas, and 38.6% of Pilot Flying J – totaled about \$1.3 billion in 2018.

In our fourth grove, Berkshire held \$112 billion at yearend in U.S. Treasury bills and other cash equivalents, and another \$20 billion in miscellaneous fixed-income instruments. We consider a portion of that stash to be untouchable, having pledged to always hold at least \$20 billion in cash equivalents to guard against external calamities. We have also promised to avoid *any* activities that could threaten our maintaining that buffer.

Berkshire will forever remain a financial fortress. In managing, I will make expensive mistakes of commission and will also miss many opportunities, some of which should have been obvious to me. At times, our stock will tumble as investors flee from equities. But I will never risk getting caught short of cash.

In the years ahead, we hope to move much of our excess liquidity into businesses that Berkshire will permanently own. The immediate prospects for that, however, are not good: Prices are sky-high for businesses possessing decent long-term prospects.

That disappointing reality means that 2019 will likely see us again expanding our holdings of marketable equities. We continue, nevertheless, to hope for an elephant-sized acquisition. Even at our ages of 88 and 95 – *I'm the young one* – that prospect is what causes my heart and Charlie's to beat faster. (Just writing about the possibility of a huge purchase has caused my pulse rate to soar.)

My expectation of more stock purchases is *not* a market call. Charlie and I have no idea as to how stocks will behave next week or next year. Predictions of that sort have *never* been a part of our activities. Our thinking, rather, is focused on calculating whether a portion of an attractive business is worth more than its market price.

\* \* \* \* \*

I believe Berkshire's intrinsic value can be *approximated* by summing the values of our four asset-laden groves and then subtracting an appropriate amount for taxes eventually payable on the sale of marketable securities.

You may ask whether an allowance should not also be made for the major tax costs Berkshire would incur if we were to sell certain of our wholly-owned businesses. Forget that thought: It would be foolish for us to sell any of our wonderful companies even if *no* tax would be payable on its sale. Truly good businesses are exceptionally hard to find. Selling any you are lucky enough to own makes no sense at all.

The interest cost on *all* of our debt has been deducted as an expense in calculating the earnings at Berkshire's non-insurance businesses. Beyond that, much of our ownership of the first four groves is financed by funds generated from Berkshire's fifth grove – a collection of exceptional insurance companies. We call those funds "float," a source of financing that we expect to be cost-free – or maybe even better than that – over time. We will explain the characteristics of float later in this letter.

Finally, a point of key and lasting importance: Berkshire's value is maximized by our having assembled the five groves into a single entity. This arrangement allows us to seamlessly and objectively allocate major amounts of capital, eliminate enterprise risk, avoid insularity, fund assets at exceptionally low cost, occasionally take advantage of tax efficiencies, and minimize overhead.

At Berkshire, the whole is greater – considerably greater – than the sum of the parts.

## *Building Products*

### Clayton Homes

Clayton Homes, Inc. (“Clayton”), headquartered near Knoxville, Tennessee, is a vertically integrated housing company utilizing manufactured, modular and site built methods. Clayton’s homes are marketed in 48 states through a network of 2,149 retailers, including 366 company-owned home centers and 280 subdivisions. Home finance and insurance products are offered through its subsidiaries primarily to purchasers of manufactured and modular homes.

Clayton acquired its first site builder in 2015 and, thereafter, added seven additional site builders. Clayton delivered 51,569 homes in 2018 at various price points. Clayton competes based on price, service, delivery capabilities and product performance and considers the ability to make financing available to retail purchasers a factor affecting the market acceptance of its products.

Clayton’s financing programs support company-owned home centers and select independent retailers. Proprietary loan underwriting guidelines have been developed and include ability to repay calculations, including debt to income limits, consideration of residual income and credit score requirements, which are considered in evaluating loan applicants. Currently, approximately 61% of the loan originations are home-only loans and the remaining 39% have land as additional collateral. The average down payment is approximately 15%, which may be from cash, trade or land equity. Certain loan types require an independent third-party appraisal. Originated loans are at fixed rates and for fixed terms. Loans outstanding include non-government originations, bulk purchases of contracts and notes from banks and other lenders. Clayton also provides inventory financing to certain independent retailers and community operators and services housing contracts and notes that were not purchased or originated. The bulk contract purchases and servicing arrangements may relate to the portfolios of other lenders or finance companies, governmental agencies, or other entities that purchase and hold housing contracts and notes. Clayton also acts as an agent on physical damage insurance policies, homebuyer protection plan policies and other programs.

### Shaw Industries

Shaw Industries Group, Inc. (“Shaw”), headquartered in Dalton, Georgia, is a leading carpet manufacturer based on both revenue and volume of production. Shaw designs and manufactures over 3,900 styles of tufted carpet, wood and resilient flooring for residential and commercial use under about 30 brand and trade names and under certain private labels. Shaw also provides project management and installation services. Shaw’s manufacturing operations are fully integrated from the processing of raw materials used to make fiber through the finishing of carpet. In 2018, Shaw acquired Sanquahar Tile Services in Scotland, which manufactures and distributes carpet tile throughout Europe. Shaw also manufactures or distributes a variety of hardwood, vinyl and laminate floor products (“hard surfaces”). In 2016, Shaw acquired USFloors, Inc., which is a leading innovator and marketer of wood-plastic composite luxury vinyl tile flooring, as well as cork, bamboo and hardwood products. Shaw’s carpet and hard surface products are sold in a broad range of patterns, colors and textures. Shaw operates Shaw Sports Turf and Southwest Greens International, LLC, which provide synthetic sports turf, golf greens and landscape turf products.

Shaw products are sold wholesale to over 39,000 retailers, distributors and commercial users throughout the United States, Canada and Mexico and are also exported to various overseas markets. Shaw’s wholesale products are marketed domestically by over 2,700 salaried and commissioned sales personnel directly to retailers and distributors and to large national accounts. Shaw’s seven carpet, seven hard surface and two sample full-service distribution facilities and 26 redistribution centers, along with centralized management information systems, enable it to provide prompt and efficient delivery of its products to both its retail customers and wholesale distributors.

Substantially all carpet manufactured by Shaw is tufted carpet made from nylon, polypropylene and polyester. In the tufting process, yarn is inserted by multiple needles into a synthetic backing, forming loops, which may be cut or left uncut, depending on the desired texture or construction. During 2018, Shaw processed approximately 95% of its requirements for carpet yarn in its own yarn processing facilities. The availability of raw materials continues to be good but costs are impacted by petro-chemical and natural gas price changes. Raw material cost changes are periodically factored into selling prices to customers.

The floor covering industry is highly competitive with more than 100 companies engaged in the manufacture and sale of carpet in the United States and numerous manufacturers engaged in hard surface floor covering production and sales. According to industry estimates, carpet accounts for approximately 50% of the total United States consumption of all flooring types. The principal competitive measures within the floor covering industry are quality, style, price and service.

<sup>(1)</sup> Includes after-tax investment and derivative gains/losses of \$(17.7) billion in 2018, \$1.4 billion in 2017, \$6.5 billion in 2016, \$6.7 billion in 2015 and \$3.3 billion in 2014. Beginning in 2018, investment gains/losses include the changes in fair values of equity securities during the period. Previously, investment gains/losses of equity securities were recognized in earnings when securities were sold or were other-than-temporarily impaired. Net earnings in 2017 includes a one-time net benefit of \$29.1 billion attributable to the enactment of the Tax Cuts and Jobs Act of 2017.

<sup>(2)</sup> Represents net earnings per average equivalent Class A share outstanding. Net earnings per average equivalent Class B common share outstanding is equal to 1/1,500 of such amount.

## Management's Discussion and Analysis (Continued)

### Utilities and Energy ("Berkshire Hathaway Energy Company") (Continued)

#### Corporate interest and income taxes (Continued)

BHE's consolidated effective income tax rates were (18.3)% in 2018, 5.9% in 2017 and 12.9% in 2016. BHE's effective income tax rates regularly reflect significant production tax credits from wind-powered electricity generation placed in service by our domestic regulated utilities and other energy businesses. The decrease in the effective income tax rate in 2018 compared to 2017 was attributable to the reduction in the U.S. Federal corporate income tax rate, the impacts of rate making, adjustments to the amounts recorded for the repatriation tax on foreign earnings, higher production tax credits and lower U.S. income taxes on foreign earnings. The effective income tax rate in 2017 decreased versus 2016 primarily due to an increase in production tax credits.

#### Manufacturing, Service and Retailing

A summary of revenues and earnings of our manufacturing, service and retailing businesses follows (dollars in millions).

	Revenues			Earnings *		
	2018	2017	2016	2018	2017	2016
Manufacturing . . . . .	\$ 61,883	\$ 57,645	\$ 52,969	\$ 9,366	\$ 8,324	\$ 7,735

	<u>\$ 140,809</u>	<u>\$ 134,639</u>	<u>\$ 127,436</u>			
Pre-tax earnings . . . . .				12,308	10,927	10,224
Income taxes and noncontrolling interests . . . . .				2,944	3,645	3,421
	<u>\$ 9,364</u>	<u>\$ 7,282</u>	<u>\$ 6,803</u>			
Effective income tax rate . . . . .	<u>23.4%</u>	<u>32.8%</u>	<u>33.0%</u>			

\* Excludes certain acquisition accounting expenses, which primarily related to the amortization of identified intangible assets recorded in connection with our business acquisitions. The after-tax acquisition accounting expenses excluded from earnings above were \$932 million in 2018, \$937 million in 2017 and \$814 million in 2016. These expenses are included in "Other" in the summary of earnings on page K-32 and in the "Other" earnings section on page K-53.

#### Manufacturing

Our manufacturing group includes a variety of industrial, building and consumer products businesses. Industrial products group includes specialty chemicals (The Lubrizol Corporation ("Lubrizol")), complex metal products for aerospace, power and general industrial markets (Precision Castparts Corp. ("PCC")), metal cutting tools/systems (IMC International Metalworking Companies ("IMC")), equipment and systems for the livestock and agricultural industries (CTB International ("CTB")), and a variety of industrial products for diverse markets (Marmon, Scott Fetzer and LiquidPower Specialty Products ("LSPI")). Marmon includes UTLX Company ("UTLX"), which provides various products and services (including equipment leasing) for the rail and mobile crane industries.

The building products group includes homebuilding and manufactured housing finance (Clayton Homes), flooring (Shaw), insulation, roofing and engineered products (Johns Manville), bricks and masonry products (Acme Building Brands), paint and coatings (Benjamin Moore), and residential and commercial construction and engineering products and systems (MiTek). The consumer products group includes leisure vehicles (Forest River), several apparel and footwear operations (including Fruit of the Loom, Garan, H.H. Brown Shoe Group and Brooks Sports) and the Duracell Company ("Duracell"), a manufacturer of high performance alkaline batteries. This group also includes custom picture framing products (Larson Juhl) and jewelry products (Richline). A summary of revenues and pre-tax earnings of our manufacturing operations follows (dollars in millions).

	Revenues			Pre-tax earnings		
	2018	2017	2016	2018	2017	2016

	<u>\$ 61,883</u>	<u>\$ 57,645</u>	<u>\$ 52,969</u>	<u>\$ 9,366</u>	<u>\$ 8,324</u>	<u>\$ 7,735</u>

## Management's Discussion and Analysis (Continued)

### *Manufacturing, Service and Retailing (Continued)*

#### *Industrial products (Continued)*

IMC's pre-tax earnings increased significantly in 2018 compared to 2017, reflecting a combination of higher sales, increased manufacturing efficiencies, the effects of business acquisitions and ongoing expense control efforts, partly offset by higher raw material costs. CTB's pre-tax earnings in 2018 were lower, primarily due to lower gross sales margins attributable to raw material cost increases and higher other operating expenses.

#### 2017 versus 2016

Industrial products revenues were approximately \$28.6 billion in 2017, an increase of approximately \$1.6 billion (6.1%) versus 2016, reflecting increased revenues at several of our businesses. PCC's revenues increased \$754 million (8.6%) in 2017 compared to the eleven-month post-acquisition period in 2016. On a comparable full year-to-date basis, PCC's revenues increased approximately 2.3% compared to 2016.

In 2017, PCC generated revenue increases from structural castings, airfoils and forged products and from business acquisitions, partly offset by lower revenues from airframe products and industrial gas turbine products used in power markets. Revenue increases associated with PCC's transition into products for new aerospace programs were partly offset by revenue decreases from the winding down of prior programs. Lubrizol's revenues increased \$165 million (2.6%) compared to 2016, primarily due to higher unit volumes, partly offset by effects of the disposition of an underperforming business.

Marmon's revenues increased \$305 million (4.1%) in 2017 versus 2016, primarily due to business acquisitions and higher average metal prices, partly offset by lower overall volumes, changes in mix and lower leasing revenues from the Rail Products and Services sector. Railcar leasing revenues declined due to fewer railcars on lease at lower rates. During 2017, railcars available for lease exceeded demand, which contributed to the lower lease rates.

IMC's revenues increased 13.3%, primarily due to increased customer demand and from business acquisitions. The global demand for cutting tools was generally higher in 2017. CTB's revenues increased 5.3% in 2017 compared to 2016. The increase reflected the impact of a bolt-on business acquisition, partly offset by weak demand in the U.S. egg and poultry production markets and selling price pressures for grain storage systems.

Industrial products pre-tax earnings were approximately \$5.1 billion in 2017, an increase of \$76 million (1.5%) compared to 2016. Overall, pre-tax earnings as a percentage of revenues were 17.7% in 2017 and 18.5% in 2016.

PCC's pre-tax earnings declined 12.5% in 2017 compared to the post-acquisition period in 2016, primarily due to certain one-time inventory and impairment charges. Lubrizol's pre-tax earnings increased 17.3% in 2017 compared to 2016, due to the disposition in 2016 of an underperforming bolt-on business and ongoing cost containment efforts, partly offset by lower gross sales margins, which were primarily attributable to higher average raw material prices. In 2017, average raw material prices at Lubrizol, including base oil feedstock and petrochemicals, increased about 9% versus 2016.

Marmon's earnings in 2017 declined 3.5% compared to 2016, primarily due to lower earnings of the Rail Products and Services sector, partially offset by the effects of business acquisitions and ongoing cost control efforts.

#### *Building products*

#### 2018 versus 2017

Revenues of the building products group in 2018 were approximately \$18.7 billion, an increase of 10.2% compared to 2017. Pre-tax earnings of the building products group were approximately \$2.3 billion in 2018, an increase of 8.8% versus 2017. Overall, pre-tax earnings as a percentage of revenues were 12.5% in 2018 and 12.7% in 2017. The pre-tax earnings increase was primarily due to higher earnings from Clayton Homes and Shaw, partly offset by lower earnings from Johns Manville.

Clayton Homes' revenues were \$6,046 million in 2018, an increase of \$1,036 million (20.7%) over 2017. The increase was driven by an increase in revenues from home sales of \$971 million (28.2%), primarily due to a 105% increase in unit sales of site built homes attributable to businesses acquired over the last two years. Unit sales of manufactured homes in 2018 also increased 4.9% compared to 2017. Average unit prices of site built homes are considerably higher than traditional manufactured homes. In addition, interest income from lending activities increased 4% in 2018 compared to 2017 primarily due to increased average outstanding loan balances.

## Management's Discussion and Analysis (Continued)

### *Manufacturing, Service and Retailing (Continued)*

#### *Building products (Continued)*

Clayton Homes pre-tax earnings were \$911 million in 2018, an increase of \$145 million (19.0%) compared to 2017. The increase in earnings in 2018 was primarily attributable to a significant increase in earnings from home building (manufactured housing and site built homes) activities, which reflected the impact of increased home sales and margins, as well as increased earnings from lending activities. A significant part of Clayton Homes' earnings derives from manufactured housing lending activities. Pre-tax earnings from lending activities in 2018 declined 2% compared to 2017, reflecting increased interest expense, attributable to higher average debt balances and interest rates and higher operating costs, which more than offset the increase in interest income. As of December 31, 2018 and 2017, aggregate loan balances outstanding were approximately \$14.7 billion and \$13.7 billion, respectively.

Revenues of our other building products businesses increased 5.8% in 2018 to approximately \$12.6 billion compared to 2017. In 2018, Shaw's sales increased 7.9% and Johns Manville's sales increased 7.2% as compared to 2017. The increases reflected higher average selling prices, product mix changes and overall unit volume increases.

Raw material and production costs of our building products businesses were generally higher in 2018. In particular, costs for steel, titanium dioxide and petrochemicals were substantially higher in 2018 than in 2017, as were product delivery costs, due in part to the shortage of truck drivers in the U.S. These cost increases precipitated sales price increases, although such increases have lagged the increases in raw materials costs. As a result, the increase in pre-tax earnings in 2018 of our other building products businesses (\$43 million or 3.1%) lagged the 5.8% increase in revenues.

#### 2017 versus 2016

Building products revenues were approximately \$16.9 billion in 2017, an increase of approximately \$1.9 billion (13.0%) compared to 2016. The increase was primarily attributable to bolt-on business acquisitions by Clayton, Shaw and MiTek. The remainder of the increase reflected sales volume increases at MiTek, Benjamin Moore and Johns Manville, partly offset by changes in prices and product mix.

Clayton Homes' revenues were approximately \$5.0 billion in 2017, an increase of \$780 million (18%) compared to 2016. The increase was primarily due to sales from newly-acquired site built home businesses, an increase in overall unit sales (9%) and higher average prices. Interest income from lending activities and other and financial services revenues increased 2% in 2017 compared to 2016.

Building products pre-tax earnings were \$2.1 billion in 2017, an increase of \$225 million (11.7%) compared to 2016. Pre-tax earnings as a percentage of revenues were 12.7% in 2017 and 12.8% in 2016. Clayton Homes' pre-tax earnings increased \$21 million (2.8%) in 2017 compared to 2016. Pre-tax earnings in 2017 from manufacturing, retailing and site built activities increased, while earnings from finance activities declined slightly. Clayton Homes' earnings in 2017 also included a gain from a legal settlement, offset by increased employee healthcare, technology, marketing and other expenses. The comparative earnings increase reflected the effects of asset impairment, pension settlement and environmental claim charges of \$107 million recorded in 2016 by Shaw and Benjamin Moore. The comparative earnings increase also was a result of bolt-on acquisitions, partly offset by comparative declines in average gross sales margin rates due to higher raw material and other production costs.

#### *Consumer products*

#### 2018 versus 2017

Consumer products revenues were approximately \$12.5 billion in 2018, an increase of \$394 million (3.2%) compared to 2017, which was primarily due to revenue increases of Forest River and of our apparel and footwear businesses. Forest River's revenues increased 2.6% in 2018, reflecting relatively unchanged unit sales versus 2017. However, over the second half of the year, comparative sales declined 5%, reflecting a 7% decline in units sold. Management attributes the slowing of sales, in part, to the effects of U.S. tariffs on steel products. Apparel and footwear revenues increased 4.6% to approximately \$4.3 billion, primarily due to increased sales volume at Brooks Sports and Garan.

Pre-tax earnings were \$1,208 million in 2018, an increase of \$96 million (8.6%) compared to 2017. Pre-tax earnings as a percentage of revenues were 9.6% in 2018 and 9.2% in 2017. The increase in earnings reflected increases from Duracell and the apparel and footwear businesses, partly offset by lower earnings from Forest River and Larson Juhl.

## Item 8. Financial Statements and Supplementary Data

### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of  
Berkshire Hathaway Inc.  
Omaha, Nebraska

#### Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of Berkshire Hathaway Inc. and subsidiaries (the “Company”) as of December 31, 2018 and 2017, the related consolidated statements of earnings, comprehensive income, changes in shareholders’ equity, and cash flows, for each of the three years in the period ended December 31, 2018, and the related notes (collectively referred to as the “financial statements”). We also have audited the Company’s internal control over financial reporting as of December 31, 2018, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2018 and 2017, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2018, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2018, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by COSO.

#### Change in Accounting Principle

As discussed in Note 1 to the financial statements, the Company has changed its method of accounting for investments in equity securities (excluding equity method investments) in 2018 due to the adoption of ASU 2016-01 “Financial Instruments – Recognition and Measurement of Financial Assets and Financial Liabilities.”

#### Basis for Opinions

The Company’s management is responsible for these financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on these financial statements and an opinion on the Company’s internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the financial statements included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures to respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

**Definition and Limitations of Internal Control over Financial Reporting**

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**BERKSHIRE HATHAWAY INC.**  
**and Subsidiaries**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2018**

**(1) Significant accounting policies and practices**

*(a) Nature of operations and basis of consolidation*

Berkshire Hathaway Inc. (“Berkshire”) is a holding company owning subsidiaries engaged in a number of diverse business activities, including insurance and reinsurance, freight rail transportation, utilities and energy, manufacturing, service, retailing and finance. In these notes the terms “us,” “we,” or “our” refer to Berkshire and its consolidated subsidiaries. Further information regarding our reportable business segments is contained in Note 26. Information concerning significant business acquisitions completed over the past three years appears in Note 2. The Consolidated Financial Statements for periods before 2018 reflect reclassifications to conform to 2018 presentations. Most significantly, line items previously reported under the sub-caption Finance and Financial Products in our Consolidated Financial Statements were reclassified to corresponding line items in the Insurance and Other section. We continue to believe that reporting the Railroad, Utilities and Energy subsidiaries separately is appropriate given relative significance of long-lived assets, capital expenditures and debt, which is not guaranteed by Berkshire. In addition, certain amounts related to equity method investments were reclassified to conform to current year presentations.

The accompanying Consolidated Financial Statements include the accounts of Berkshire consolidated with the accounts of all subsidiaries and affiliates in which we hold a controlling financial interest as of the financial statement date. Normally a controlling financial interest reflects ownership of a majority of the voting interests. We consolidate variable interest entities (“VIE”) when we possess both the power to direct the activities of the VIE that most significantly affect its economic performance, and we (a) are obligated to absorb the losses that could be significant to the VIE or (b) hold the right to receive benefits from the VIE that could be significant to the VIE. Intercompany accounts and transactions have been eliminated.

*(b) Use of estimates in preparation of financial statements*

The preparation of our Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States (“GAAP”) requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. In particular, estimates of unpaid losses and loss adjustment expenses are subject to considerable estimation error due to the inherent uncertainty in projecting ultimate claim costs. In addition, estimates and assumptions associated with the amortization of deferred charges on retroactive reinsurance contracts, determinations of fair values of certain financial instruments and evaluations of goodwill and identifiable intangible assets for impairment require considerable judgment. Actual results may differ from the estimates used in preparing our Consolidated Financial Statements.

*(c) Cash and cash equivalents and short-term investments in U.S. Treasury Bills*

Cash equivalents consist of demand deposit and money market accounts and investments with maturities of three months or less when purchased. Short-term investments in U.S. Treasury Bills with remaining maturities exceeding three months at the time of purchase are stated at amortized cost, which approximates fair value.

*(d) Investments in fixed maturity securities*

We classify investments in fixed maturity securities at the acquisition date and re-evaluate the classification at each balance sheet date. We carry held-to-maturity investments at amortized cost, reflecting the ability and intent to hold the securities to maturity. Trading investments are securities acquired with the intent to sell in the near term and are carried at fair value with changes in fair value reported in earnings. All other fixed maturity securities are classified as available-for-sale and are carried at fair value with net unrealized gains or losses reported as a component of accumulated other comprehensive income. As of December 31, 2018, substantially all of our investments in fixed maturity securities were classified as available-for-sale. We amortize the difference between the original cost and maturity value of a fixed maturity security to earnings using the interest method.
