

## Zilin Wang, MD

**Dr. Zilin Wang** is CEO of W.M.D, Heart Care, LLC and a noninvasive cardiologist in Mississippi.

Dr. Wang was Chief of Medicine and a member of the Executive Medical Staff Committee at Madison County Medical Center in Canton, MS. He has been practicing with Heart Care Plus in Flowood, MS since Sept. 2009. He has held positions at various healthcare organizations in New York, California and Wisconsin. While in New York, he was an attending cardiologist and Director of Correlative Cardiac Imaging and Physician Executive Board member with Bassett Healthcare System, where he made various executive decisions and managed operations in excess of \$20,000,000.00 per year.

Dr. Wang received his medical doctorate from the Harbin Medical University in China, and completed residencies in internal medicine at the First Teaching Hospital, Norman Bethune University of Medical Sciences, Changchun, China, and at Stony Brook University, Stony Brook, NY. He also completed fellowships in invasive cardiology at Kitasato University Hospital, Sagamiono, Japan, and in noninvasive cardiology in The Third Teaching Hospital at Norman Bethune University of Medical Sciences. In

Indianapolis, Indiana, he completed a fellowship in cardiac imaging at the Heart Center of Indiana.

During his 21 years of practice, Dr. Wang has gained not only clinical experience but also different levels of administrative experience, from medical practice management to hospital and health care system to physician network. He has strong interpersonal communication skill, understanding the major trends in healthcare and management care and is adaptable with strong collaborative management style and negotiation skills. Dr. Wang has developed a team player attitude and uses creative thinking in our complex medical system. Other strengths include being able to multi-task often conflicting projects and meet their deadlines. He is an effective leader, encouraging and disciplining his team to accomplish difficult and complex tasks in a timely manner.

In his private practice, as well as large healthcare systems, like Bassett Healthcare System and Kaiser Permanente, Dr. Wang has participated in cost control, budget planning and execution, protocol set-up and monitoring as well as regular board meetings. He has experience in hospital and clinical acquisitions, clinic/department shut-down, physician recruitment, EHR implantation, medical equipment like CT and MRI purchasing, various programs (like outpatient lipid management program, CHF program, Hypertension management program, obesity management program, Home cardiac rehab program, etc.)

As a Cardiac Imaging Director in Bassett Healthcare System, Dr. Wang has built a successful cardiac imaging center. In the past 10 years, he has run his clinical practice, and has successfully developed and tested his plaque burden reduction treatment model.

In the past 10 years, while 80% of his patients have had plaque regression, the heart attack rate and stroke rate have been dramatically reduced. His stenting rate has dropped from 70-80% 10 years ago, down to 1 patient per year in the past 3 consecutive years. He has also built a network in

many hospitals in China, and since 2013, he has founded and operated Agape Medical Tourism Center in Mississippi and Agape Healthcare Consultant& Management company, which provided healthcare consultation services overseas and domestically.

Dr. Wang's company has been awarded 3 consecutive governor's awards (2016, 2017 and 2018), and he's provided consultation services to Former Governor Phil Bryant's Governor Office (for a medical school expansion project and other healthcare zone projects) and Mayor Mary Hawkins, City of Madison, MS.

Agape Medical Tourism Center has been services affluent patients from overseas. Patients have the option to be treated by doctors domestically or online after initial assessment.

Dr. Zilin Wang has been invited to be a speaker and consultant and visited 23 hospitals and many companies and government agencies internationally. Due to his success, Dr. Wang was invited to be a speaker at 8<sup>th</sup> World Medical Tourism & Global Healthcare Congress in Orlando, FL from 09/27-30/2015 and in Guilin, China from 11/14-17/2015. His company is currently being promoted globally by Department of Commerce in South region and Mississippi Development Authority as a medical tourism destination.

Dr. Wang was invited as a speaker for Mississippi Association of Self-Insured (MASI) in March 2017, and he has been appointed as a member of the Medical Council of the Global Surgeons Foundation in 2018. He was a speaker at Health Tourism Industry Conference & Expo as part of International Mediterranean Tourism Market from 2/12-13/2019 at Tel-Aviv, Israel. He has visited 5 medical centers there and established great relationship with them. He has had one to one meeting with executives of European healthcare companies, and has been appointed as Medical Director of Physician Services, Lead Investigator of CCT global Trials. This is to lead phase I-IV clinical trials internationally. He was invited to speak

on the same stage with Drs. Oz, Drew, Marc Siegel and 15<sup>th</sup> surgeon general, Dr. Joycelyn Elders at CNN Center from 8/6 - 8/9/2020.
