Ms. Brenda Bellow
Jefferson Parish
PO Box 9
Gretna, LA 70054-0009

Dear Brenda:

Enclosed is the bid for the "One Time Purchase of Scoreboards for Jefferson Parish Westbank Parks & Recreation", bid number 50-00135716. The bid is for the equipment and signage exactly as specified. Please call me at 1-800-443-4701 if you have any questions or need additional information.

By selecting a Fair-Play as your scoreboard, you will receive all of these benefits:

- 1) 100% Solid-State Scoreboard.
- 2) Computerized microprocessor controller.
- 3) Exclusive LED lighting system.
- 4) "State of Art" Electronic Technology.
- 5) 10-Year Parts and Labor Warranty.
- 6) Quality Installations.
- 7) Much More!

Rainey Electronics, Inc. appreciates your interest in Fair-Play Scoreboards and is looking forward to supplying your scoreboard needs.

Sincerely,

Jerry Larsson

FAIR-PLAY BASKETBALL SCOREBOARD

Model: **BB-1660-4**

DIMENSIONS:

HEIGHT:	5'0"	LENGTH:	9'0"	DEPTH:	4"	WEIGHT:	105 lbs
---------	------	---------	------	--------	----	---------	---------

STANDARD EQUIPMENT:

- Energy efficient LED designs
- Three distinct LED digit colors to visually organize critical game information
- Heavy-duty, vibrating horn (103 dB)
- Free Help Desk Support
- Free project design renderings
- Factory authorized national and local sales, service and installation
- Choose from 10 durable paint colors
- Choose from 15 popular vinyl trim colors
- Over 75 years of sports scoring experience
- Sport-specific control console inserts
- HB-800 data connection kit
- Choice of Fair-Play's scorekeeper approved control systems*
- Changeable scoreboard game captions*
- 5-year limited warranty
- ETL/CETL listed to UL standard
- Convenient built-in service points for easy-access
- Durable, corrosion resistant aluminum construction
- Complete, safe and durable display mounting system

OPTIONAL EQUIPMENT:

- Custom paint and vinyl trim colors
- Personalized vinyl home team name
- Illuminated and non-illuminated identification and sponsorship signage
- Custom, unique signage options
- Programmable electronic team name message centers*
- Mono- or full-color electronic message display with Fair-Play's exclusive ProLine control system
- Carrying case for scoreboard console
- Wireless data transmission (includes receiver and transmitter)
- Portable, battery-operated scoreboard control
- Integrated, second operator statistics control*
- Fully-integrated or stand-alone shot and game timers Plug-and-play clock, shot time and horn hand switches
- Illuminated backboard goal lights
- Scorer's table with built-in BB-1600-4 scoreboard
- Synchronized locker room game / time of day clocks
- Protective net

OPERATING TEMPERATURES:

Scoreboard display: -22° to 131° Fahrenheit (-30° to 55° Celsius)

Control console: 32° to 131° Fahrenheit (0° to 55° Celsius)

WIRELESS

The **MP-80** is wireless and comes preloaded with multiple sports.

SCOREBOARD INTERFACING

The **MP-80** has the capability to interface with virtually all models of FAIR-PLAY scoreboards.

LITHIUM-ION BATTERY

The battery charges through an USB connector that is plugged into a wall charger or computer. A full charge should last at least 30 hours for tournament play.

WIRELESS DUAL-HAND CONTROLLER

The **MP-80** interfaces with the multi functional wireless handswitches for timer or game clock control.

MP-80 Specifications:

Dimensions: 2" x 9.75" x 8"

Weight: 2 pounds 5 ounces

Power Requirements: 5 VDC @ 1 Amp

Included: 120 VAC-USB-A Charger with a 6' USB Cable

Handswitch Specifications:

Dimensions: 1.75" x 1.875" x 5.625"

Weight: 5 ounces

Power Requirements: 3 VDC @ 250 mA

Battery Requirements: 2 AA (Included)

WIRELESS CONTROL

SYSTEM BY TRANS-LUX/FAIR-PLAY

A NEW OPTIONAL SYSTEM DEVELOPED SPECIFICALLY FOR FAIR-PLAY INDOOR AND OUTDOOR SCOREBOARDS

The graphic below illustrates the layout of the wireless control system. A transmitter with antenna is required in the MP-70 control console and one receiver with antenna is required in each scoreboard, shot timer or field timer included in the system.

INDOOR- Basketball, Volleyball and Hockey

OUTDOOR- Baseball, Football and Soccer

Operation of the wireless system is identical to a wire-connected scoreboard. In a dual scoreboard installation, one scoreboard can be connected to the control via wire and the other(s) using the wireless design as long as the control has the transmitter/antenna incorporated in it and the wireless scoreboard has a receiver/antenna. The wireless system can synchronize nearly all Fair-Play models of scoreboards from the same control!

Our wireless system functions with all new Fair-Play outdoor scoreboards and with our new indoor Bar Digit and L.E.D. digit indoor scoreboards and shot clocks. It also can be added at a later date into these products. Retrofit of existing scoreboards is possible in many circumstances.

CUSTOMER BENEFITS FROM OUR WIRELESS SYSTEM

1. It allows control operation from any location in a gym or on an athletic field where power is available.
2. No remote control cable is needed avoiding the costs and "clutter" of cable, trenching and conduit.
3. Allows high reliability and trouble free operation.
4. Can operate an unlimited number of scoreboards, with similar display information, and shot or field timers from one wireless control.
5. Long range of operation---300 feet indoors and 1000 feet outdoors.
6. Can operate adjacent scoreboard systems without interference.

WHY THE NEW FAIR-PLAY WIRELESS SYSTEM IS SUPERIOR

- This system was developed by Fair-Play for the unique requirements of scoreboards operation and is not an "off the shelf" system.
- To insure the reliability and security of operation required in athletic competition for timing and scoring, we designed our system using Spread Spectrum Technology.
- This design allows quick adaptation from synchronized scoreboards operating from one control to the same scoreboards operation independently from separate controls. There's no need to climb a ladder to change modes.
- Fair-Play's wireless operates fast enough for 1/10th of a second operation in the last minute of the game.

TRANS·LUX
Fair-Play

WHAT IS SPREAD SPECTRUM TECHNOLOGY AND WHY IS IT OF GREAT VALUE TO YOU IN TIMING AND SCORING OF ATHLETIC EVENTS?

Fair-Play's data transmission system utilizes a signal from the control console that continually "refreshes" the data displayed on the scoreboard or shot/field timers. The centralized control of the data formation insures accurate synchronization of two scoreboard systems (especially valuable in basketball installations) as well as very accurate timing and scoring on all our single scoreboard installations. Therefore, our wireless design must give our scoreboard users the same reliability and accuracy they have experienced in our wire-connected installations. This is why we utilized the Spread Spectrum Technology.

Our spread spectrum technology sends each "bit" of data 16 times over a wide frequency range, and does so over 10 times per second. If several of the radio bits are interrupted by an outside source, the receiver automatically "selects" and utilizes the correct data. This transmission design insures against interference from cell phones, cordless devices, microwaves and other RF devices as well as security from jamming. The graphic below demonstrates how Fair-Play's wireless system uses a wider bandwidth compared to conventional narrow band radio systems to send redundant data.

Spread Spectrum Technology was originally developed for U.S. military use to attain a high level of reliability. Now it is ready to work for you in insuring a reliable wireless operating system for your new scoreboards and timers!

WHY THE NEW FAIR-PLAY WIRELESS SYSTEM IS SUPERIOR

- Each control console furnished with one transmitter and one flexible antenna.
- Each display (scoreboard or timer) furnished with one receiver and one antenna.
- System allows for synchronized operation of two or more scoreboards from one control or independent operation of multiple scoreboards from independent controls all closely located.
- System utilizes Spread Spectrum Technology redundantly transmitting the same data at least 16 times.
- System refreshes the scoreboard with new data no less than 10 time per second for smooth and accurate operation of game clocks, including 1/10 second timing.
- System has 14 selectable channels.
- System has Radio Link Indicator Light to indicate transmission link is operational.
- System has a minimum transmission range of 300 feet indoors and 1000 feet outdoors.
- System allows unlimited scoreboards to be operated from one control console.
- System FCC certified.
- Transmitter and receiver are built into the control and scoreboard and do not require additional mounting provisions or special placement.

Fair-Play **10 Year
Warranty**
A TRANS·LUX® COMPANY

10 YEAR WARRANTY (Scoreboard)

Rainey Electronics, Inc. provides a limited ten (10) year warranty on Fair-Play scoreboard equipment when its Fair-Play products are operated and maintained according to the instructions furnished with the equipment. This warranty covers all electronic components and repair labor for the warranty duration from the date of delivery that proves to be defective in material or workmanship.

Excluded from this warranty are data cable and on-site service call and on-site labor charges. Also excluded from this 10 year warranty is the outdoor horn which will be warranted for 5 years.

Defective assemblies or components are to be returned postage prepaid to Rainey Electronics, Inc. for repair or replacement. Any warranted components will be return shipped UPS ground to customer. Any other shipping method will be charged to customer. Shipping charges for loaner equipment will be the responsibility of the customer.

Rainey Electronics, Inc. shall not be liable for any incidental or consequential damages nor any special damages or any further loss which may arise in connection with its warranted equipment or any claims under this warranty.

Under no circumstances shall this warranty apply if the warranted products have been subject to abuse, misuse, neglect, negligence, accident, or any casualties or abnormal conditions, including without limitation fire, civil disorders, war, flood, or other acts of God. Nor does this warranty cover service calls or damages resulting from or problems caused by any repair, modification, or adjustment of the warranted scoreboard(s) not performed by Rainey Electronics, Inc.

This warranty extends only to the original purchaser of the warranted products, and is not transferable. In the event there is a delinquent balance owed on the warranted scoreboard, then this warranty will be suspended until balance has been fully settled.

WARRANTY (042213)
