BID FORM
Non Public Works

All Public Work Projects are required to use the Louisiana Uniform Public Work Bid Form

All prices must be held firm unless an escalation provision is requested in this bid. Jefferson Parish will allow one escalation during the term of the contract, which may not exceed the U.S. Bureau of Labor Statistics National Index for all Urban Consumers, unadjusted 12 month figure. The most recently published figure issued at the time an adjustment is requested will be used. A request must be made in writing by the vendor, and the escalation will only be applied to purchases made after the request is made.

Are you requesting an escalation provision?

YES _____ NO X

MAXIMUM ESCALATION PERCENTAGE REQUESTED 0 %

INITIAL BID PRICES WILL REMAIN FIRM THROUGH THE DATE OF January 21, 2023

For the purposes of comparison of bids when an escalation provision is requested, Jefferson Parish will apply the maximum escalation percentage quoted by the bidder to the period to which it is applied in the bid. The initial price and the escalation will be used to calculate the total bid price. It will be assumed, for comparison of prices only, that an equal amount of material or labor is purchased each month throughout the entire contract.

that will govern changes in waste oil prices and royalties. Use the following specifications as a guide to filling out the table below.

- ▶ **Waste Oil Pricing Formula:** The vendor must generate a formula for prescribed use in determining the cost of waste oil removal services. We advise that the formula be based on the above referenced EIA's West Texas Intermediate (WTI) index. Using the formula, the Parish must be able to review changes in the price charged for waste oil removal services.
- ▶ **Price per Barrel Threshold:** Because used oil can also be a profitable commodity, the Parish requires that royalties be paid for material if and when the price per barrel of crude oil reaches a specified amount. The vendor must identify a threshold for the price of a barrel of crude oil over which it will agree to pay Jefferson Parish a royalty fee per net gallon of used oil (for all used oil which contains 5% or less water).
- ▶ **Waste Oil Royalties Amount/Formula:** The vendor must specify an amount, or a formula to determine an amount, that it will agree to pay per gallon of oil in royalties if the price per barrel of oil reaches the agreed upon threshold. The vendor must also specify an amount for a transportation fee should the price per barrel of oil
