All prices must be held firm unless an escalation provision is requested in this bid. Jefferson Parish will allow one escalation during the term of the contract, which may not exceed the U.S. Bureau of Labor Statistics National Index for all Urban Consumers, unadjusted 12 month figure. General Instructions

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

Brand Identity

Extensive equipment customization options are key to augment your brand.

Chances are you have been hearing more and more about "brand identity" in recent years, but here at AAE we have been manufacturing products to tie in with brand identity for over 50 years. It began with our standard eight hurdle tube colors along with matching logos on the boards and has expanded to a multitude of AAE products offered in a broader color spectrum with custom decals or silkscreens.

While schools and universities throughout the country have become focused on creating (or recreating) their public image, AAE has been keeping the pace. Now that team uniforms are no longer the sole vehicle to communicate a sports program's identity, AAE is ready to colorize and logotize whatever equipment you need.

AAE is proud to partner with customers in their quest for the ultimate equipment customization. Several of our product lines continue to be popular brand identity agents: hurdles; batons; DONKEY® press boxes; sideline shelters; award stands; team benches; field hockey bottomboards; football goal post pads; lacrosse goals; high jump and pole vault landing pads; multi-purpose towers; removable outfield walls; track and field surface savers; ShotStoppers; Uni-Body Scorer's Tables and windscreens. And we're always willing to add more to that list.

Contact AAE to discuss the details of your school's brand identity in conjunction with your equipment needs.

Ball Stopper[®] Netting

The late 1980s saw an increase in multi-purpose sports fields – especially the inside track area used for everything from football and soccer to lacrosse and field hockey. This congestion of crossover practices created a ball containment problem that AAE solved with our Ball Stopper sports netting. Unique safety aspects of this backstop netting help protect other athletes, bystanders and property from the danger of stray balls.

Field Equipment

Stadiums and fields host more than just athletes. Make sure you have the peripheral equipment you need for a successful athletic program. Our video/band towers, portable bleachers, scorer's tables, team benches, and team shelters are indispensable... and our DONKEY® elevated sports platform and portable press box products make sure coaches and media have the best seats in the house.

Field Hockey

With popularity of our football goal posts, soccer goals and lacrosse goals swelling, field hockey goals were added to complete our goal line in the mid 70s. But we had to improve the design – so ours were the first offered with a bottom board cushioning system that substantially increased the life of our field hockey goals over competitors' models. And we didn't stop there because today you can even customize your bottomboards to compliment your school's branding.

Lacrosse

The sport of lacrosse is growing fast around the nation. What is the newest trend in lacrosse? Our portable press boxes (also known as DONKEYs.) They are equipped with built in storage and even a penalty bench... for your "more aggressive" players. However, we are here for all your lacrosse needs whether it is lacrosse goals, lacrosse nets or lacrosse backstop nets.

Baseball & Softball

AAE decided to branch out in the early 1990s with its own batting tunnels, backstop netting, outfield wall padding and baseball foul poles. We're building the equipment teams need to make the great American pastime even better. With field equipment like team benches and bleachers, your fans and players will be comfortable all the way through the bottom of the 9th.

Track & Field

The world's first aluminum rocker hurdle, invented by company founder John Marzucco in 1949 and patented in 1952, is what started it all. But that was just the beginning for AAE. We soon expanded our line of track and field equipment and pride ourselves as the "best in the business" from our high quality, customization and branding to our customer service. We understand track & field events inside and out.
