

J&J Exterminating Pest & Termite Control bid - Jefferson Parish JEFFCAP Head Start:

The following costs are associated with the Jefferson Parish Head Start program at 5 locations. As described in the bid packet there will be two different costs for each location as pest control and termite control are two separate services. I was instructed that the location at 3420 N. Causeway Blvd., suite B in Metairie, LA 70002 would not be considered for termite control because the building is attached to suite A and C and any termite protection agreement would cover the entire building. For that location we could possibly do a spot treatment if termites are found on the property (more information on that under the Metairie location bid below).

In regards to the pest control program all protocol set by the state's IPM (Integrated Pest Management) will be followed. Because kids are present at each location from 8:15am to 3:30pm Monday through Friday, all pest services will be scheduled at 3:30pm on a weekday. There must be 8 to 10 hours between any pest control chemicals being used on the property and when the children return the next day. All activity will be logged by the technician assigned to each location that records what pesticides were used and the date the services were done. Each location will have a one bait station inside and one outside the building.

In regards to the termite control services there are two options. One is the Sentricon termite bait system which includes bait stations installed in the ground around the building. The stations are locked and flush to the ground so the stations are not any threat to safety in any way. The second option is to dig and trench around the building and pump a liquid treatment around the building. The Sentricon system is the better protection program of the two and that is what the bid includes. The liquid treatment will increase the labor costs.

1. Beechgrove Head Start at 721 Tricia Ct. Westwego, LA 70094:

- Pest Control bid = \$65 monthly
- Termite Control bid = \$950 year 1 & \$290 annual renewal (Sentricon Bait System)

2. Causeway Head Start at 3420 N. Causeway Blvd. Metairie, LA 70002:

- Pest Control bid = \$85 monthly
- As instructed there will be no termite control bid for this location because the suite B is also connected to suite A & C which requires the entire building to be covered.

3. Jutland Head Start at 1821 Jutland Dr. Harvey, LA 70058:

- Pest Control bid = \$80 monthly
- Termite Control bid = \$1750 year 1 & \$350 annual renewal (Sentricon Bait System)

4. Lapalco Head Start at 2001 Lincolnshire Dr. Marrero, LA 70072:

- Pest Control bid = \$90 monthly
- Termite Control bid = \$2,650 year 1 & \$545 annual renewal (Sentricon Bait System)

5. Terrytown Head Start at 2315 Park Place Dr. Gretna, LA 70056:

- Pest Control bid = \$90 monthly
- Termite Control bid = \$1,895 year 1 & \$450 annual renewal (Sentricon Bait System)
