Addendum No. 2

GENERAL CLARIFICATIONS/COMMENTS

1. The reinforced concrete box culvert Typical Section detail "D" on Plan Sheet CD-4, #57 limestone or #57 crushed concrete is utilized as the side bedding. Would #57 limestone or #57 crushed concrete which has similar gradation to the "lightweight aggregate" (expanded shale) be accepted as an approved equal for the 3' feet bedding material?

***No, #57 stone cannot be used instead of lightweight aggregate. The lightweight aggregate is specified to reduce the overall load on the foundation soil to mitigate subsidence of the box. No. 57 stone is almost three times as heavy as the lightweight fill.***

2. Will we be allowed to use trench boxes for shoring on this job?

***Yes. This falls under means and methods, for which the Contractor is responsible. Maintaining the safety of the trench at all times is the responsibility of the contractor, regardless of how he chooses to construct the project.***

3. Sheet C0-4, Note #2: "Remove dirt, muck, and other soft material to a depth necessary to establish a firm foundation." Per Note #1 on the same page, the 57 stone and lightweight aggregates are included in the price of the box, and there is no separate pay item for the stone and lightweight aggregate. Due to the inability to predict how much excavation will be needed to get to a firm foundation, would you consider creating separate pay items for the stone and lightweight aggregate and remove those materials from the box pay item?

***The stone and lightweight aggregate are to remain included in the cost of the box culvert.***

4. Please confirm that the silt fence on the project is to be "wire-backed."

***See Detail B, Sheet CD-4, which shows welded wire fabric.***

5. Will the penetration into the box culvert for drainage tie-ins be allowed as "bust in" or will it need to have a pre-cast window?

***Saw cutting is allowed per details B & C on Sheet CD-6.***

6. Will contractor be responsible for inspector over-time?

***The Important Notice To Bidders defines the contractor's responsibility as related to the cost of inspection.***

7. Will pump sand be acceptable for embankment for pay item #203(03)? It would be a non-plastic embankment.

***Spillway sand is acceptable. A plastic soil blanket (Section 203.10) is to be provided.***

Bid Proposal Number 50-113128  
Addendum No. 2

8. Listed below is an alternate gradation submitted for the lightweight aggregate:

	Required
Passing 1" sieve	100% by weight
Passing ½" sieve	85-100% by weight
Passing 3/8 sieve	50-100% by weight
Passing #4	10-65% by weight
Passing #30	0-20% by weight
Passing #100	0-10% by weight

Material consists of 5/8", 3/8", ¼", 3/16" blended together that is well graded.  
The wet loose unit weight ranges between 43lbs ft<sup>3</sup> to 50lbs ft<sup>3</sup> delivered depending on moisture.

*The deviation from the lightweight fill gradation is not allowed. The lightweight fill gradation was specified to reduce the potential for over compaction and exceeding allowable in-place density.*

**General Instructions**

Section references are to the Internal Revenue Code unless otherwise noted.

**Purpose of Form**

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

**Definition of a U.S. person.** For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

**Special rules for partnerships.** Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,
