

**BID FORM**  
Non Public Works

**All Public Work Projects are required to use the Louisiana Uniform Public Work Bid Form**

All prices must be held firm unless an escalation provision is requested in this bid. Jefferson Parish will allow one escalation during the term of the contract, which may not exceed the U.S. Bureau of Labor Statistics National Index for all Urban Consumers, unadjusted 12 month figure. The most recently published figure issued at the time an adjustment is requested will be used. A request must be made in writing by the vendor, and the escalation will only be applied to purchases made after the request is made.

Are you requesting an escalation provision?

YES \_\_\_\_\_ NO X

MAXIMUM ESCALATION PERCENTAGE REQUESTED 0 %

INITIAL BID PRICES WILL REMAIN FIRM THROUGH THE DATE OF JAN. 31, 2025

For the purposes of comparison of bids when an escalation provision is requested, Jefferson Parish will apply the maximum escalation percentage quoted by the bidder to the period to which it is applied in the bid. The initial price and the escalation will be used to calculate the total bid price. It will be assumed, for comparison of prices only, that an equal amount of material or labor is purchased each month throughout the entire contract.

### **CONCRETE READY MIX SPECS (WESTBANK)**

Two (2) year contract for a supply of ready-mix concrete for the Jefferson Parish Department of Public Works – Streets and all Jefferson Parish agencies and municipalities.

Ready mix concrete on an as need basis – Two (2) year contract (Westbank).

The contract prices are firm during the entire two (2) year contract period.

#### **GENERAL SPECIFICATIONS:**

These specifications are prepared for the supply of ready mix concrete products on the basis of self-haul or delivered in cubic yard quantity amounts only as may be needed by different departments of Jefferson Parish to be picked up by the parish owned trucks from batching plant.

1. In the interest of safety, economy, and quality assurance of Jefferson Parish, prospective bidders must deliver within 30 minutes of 5701 Belle Terre Rd., Marrero, LA 70072, (travel time to and from – in a nine (9) yard cement mixer). This requirement is due to the parish's limited number of mixers available to pick up and deliver mix to project site.
2. The vendor shall be responsible for the design, control and loading of the mixtures into parish trucks at vendor's plant within 30 minutes of 5701 Belle Terre Rd., Marrero, LA 70072, (travel time to and from - in a nine (9) yard cement mixer).
3. Vendors are requested to quote a written unit price and its corresponding extension price as provided in the bid proposal forms.
4. Any products which do not conform to these specifications will be rejected. Any removal and/or replacement shall be at the expense of the vendor.
5. Cubic yard quantities shown in the bid proposal form are for purposes of bid comparison and for establishing a contract. Actual quantities purchased may be higher or lower than the quantities shown hereon in order to meet Parish needs via Parish pick-up or vendor delivery of at least two (2) cubic yards per purchase request. Vendor's plant shall be available to deliver concrete mix in properly designed concrete agitator trucks or load parish owned trucks from a batching plant throughout a normal working day (excluding holidays) from Monday through Friday of each week. A normal working day is considered to be between the hours of 7:00 AM and 3:00 PM.
6. Jefferson Parish reserves the right to award contracts or place orders on a lump sum or individual item basis, or such combinations, as its judgment shall be in the best interest of Jefferson Parish.
7. The contract will be awarded for the Westbank of Jefferson Parish. However, all parish agencies have the rights to purchase Portland cement concrete from either vendor (east bank or west bank), at their convenience.
8. All invoices against this order shall be sent to the respective department authorizing delivery. Payment to be made on a monthly basis by such departments. Invoices must show the corresponding purchase order number, the department's requisition number and the bid proposal number. The vendor is required to specify and certify the strength and type of concrete supplied.

9. On delivery items, prices shall include thirty (30) minute period allowance on arrival at job site to unload concrete. Any standby time in excess of this allowance will be compensated on minute rate quoted in the bid proposal under referenced items.
10. Quoted prices shall remain firm until the expiration of the contract.
11. Every effort will be made to provide sufficient advance notice for the required amount of concrete. However, it is required by the vendor to supply the order of concrete with a minimum of two (2) hours notice either for parish pick-up from plant or vendor's own delivery: Westbank.
12. The added delivery charge is to compensate for driver man/hour and truck equipment/hour when the required order is less than 8 Cu. Yd. Price for Portland-cement concrete will be compensated at bid unit price for parish pick-up from plant. As for parish pick-up from plant, contractor shall bid per each delivery.
13. Vendor will allow use of his wash-down area for cleaning trucks after load up and prior to driving away.

**SPECIFICATIONS:**

All ready mix concrete shall achieve minimum compression strength of 4000 PSI at 24 hours, 72 hours and 28 days, as required. All concrete must conform to Section 901 of the Louisiana Standard Specifications for Roads and Bridges, Latest Edition and any revisions.

**NOTE:**

1. Reduction in price per Cu. Yd. for fly ash cement concrete for all mixes shall be bid at the line item for Westbank when fly ash is used as an admixture at the request of the parish. Fly ash allowed only up to 20% of cement content or as stipulated by Section 901.08(a) of Louisiana Standard Specifications for Roads and Bridges, Latest Edition and any revisions.
2. All concrete shall contain Type I Portland cement.
3. Superplasticizer concrete contains an approved high range water reducing admixture. (HRWR/Superplasticizer): Vendor assures no greater than 3" slump to mix delivered at the site and no greater than 7" slump after the addition of superplasticizer. Bid price per cubic yard shall include all the admixtures to achieve 4000 PSI in 24 hours and 72 hours.
4. An approved set retarding admixture shall be used to facilitate placing and finishing when concrete temperature exceeds 85 degrees F.
5. An approved non-corrosive, non-chloride set-accelerating admixture shall be used to facilitate placing and finishing concrete as requested by Jefferson Parish Personnel – see attached brochure.
6. For temperature control, ice shall be added when concrete temperature reaches 95 degrees F.
7. The successful vendor shall submit for approval, a mix design for concrete per above requirements by a qualified quality control technician. The approved mix design shall be followed at all times. Any modification, changes or revisions shall be done only with the

written approval of the director of Public Works – Streets Department, Jefferson Parish, Louisiana.

**BIDS SHALL BE ON:**

Portland cement ready-mix concrete self-hauled and delivered to project (job) locations on the Westbank of Jefferson Parish.

In the interest of safety, economy, and quality assurance of Jefferson parish, prospective bidders must deliver within 30 minutes of 5701 Belle Terre Rd., Marrero, LA 70072, (travel time to and from - in a nine (9) yard cement mixer). This requirement is due to the parish's limited number of mixers available to pick up and deliver mix.

Jefferson Parish has the right to request cylinders to be cast for compression testing at any time.

**DELIVERY:**

Material is to be delivered to the project (job) location as requested within the limits of the Westbank of Jefferson Parish.

Concrete vendors must be able to deliver concrete within a 30 minute time frame to the project (job) site which could be located anywhere on the Westbank of Jefferson Parish (excluding Grand Isle.)

## POLARSET<sup>®</sup>

Non-corrosive, non-chloride set-accelerating admixture

ASTM C494 Type C

### Product Description

PolarSet<sup>®</sup> is a non-corrosive, non-chloride admixture for concrete. It accelerates cement hydration resulting in shortened setting times and increased early compressive strengths. PolarSet does not contain calcium chloride and is completely non-corrosive to reinforcing steel, metal decks and all metal components of your admixture storage and dispensing system. It is formulated to comply with ASTM C494 Type C and can be used at any dosage to comply with ACI 318 guidelines for chloride content of concrete. One gallon of PolarSet weighs approximately 11.25 lbs (1.35 kg/L).

### Uses

PolarSet is specially formulated to reduce concrete setting times and increase early strengths for concrete in very cold conditions, and may be used to reduce the time that concrete must be protected against freezing in ambient temperatures as low as 20°F (-7°C). For conditions not subject to freezing, PolarSet may be used to speed finishing operations and/or form removal, leading to savings in concrete construction costs.

### Special Feature

PolarSet provides set time acceleration and early strength development similar to that provided by calcium chloride, but without the potential corrosive effects. PolarSet can,

- Reduces set time and increases early strengths
- Can be used at high dosages
- Complies with ASTM C494 Type C

### Product Advantages

- Designed for cold weather concreting at temperatures as low as 20°F (-7°C)
- Completely non-corrosive

therefore, be used where potential corrosion of embedded or stressed steel must be avoided. It can also be used in concrete that is to be placed on steel clad or zinc coated steel decks where corrosion must be similarly avoided.

## Performance

In concrete mixes, PolarSet accelerates the chemical reaction between Portland cement and water. It speeds up the formation of **gel**- the binder that bonds concrete aggregates together. Accelerated gel formation in turn shortens the setting time of concrete, compensates for the set-slowing effects of cold weather and contributes to the development of higher strengths. Gel formation promotes heat generation within the mix- helping to protect the concrete from freezing during the critical first hours after placement.

## Addition Rates

The amount of PolarSet used will depend on specific job conditions, on local materials and on the degree of set acceleration and early

strength development required. Typical addition levels range from 8 to 60 fl oz/100 lbs (520 to 3910 mL/100 kg) of cement, but levels as high as 100 fl oz/100 lbs (6520 mL/100 kg) of cement can be used. For freeze protection purposes typical addition rates are between 60 to 80 fl oz/100 lbs (3910 to 5220 mL/100 kg) of cement.

### Compatibility with Other Admixtures and Batch Sequencing

PolarSet is compatible with most Grace admixtures as long as they are added separately to the concrete mix, usually through the water holding tank discharge line. In general, it is recommended that PolarSet be added to the concrete mix near the end of the batch sequence for optimum performance. Different sequencing may be used if local testing shows better performance. Please see Grace Technical Bulletin TB-0110, *Admixture Dispenser Discharge Line Location and Sequencing for Concrete Batching Operations* for further recommendations. PolarSet should not come into contact with any other admixture before or during the batching process, even if diluted in mix water.

Pretesting of the concrete mix should be performed before use, and as conditions and materials change in order to assure compatibility, and to optimize dosage rates, addition times in the batch sequencing and concrete performance. For concrete that requires air entrainment, the use of an ASTM C260 air-entraining agent (such as Daravair™ or Darex™ product lines) is recommended to provide suitable air void parameters for freeze-thaw resistance. Please consult your Grace representative for guidance.

### M Adjustment

Since PolarSet may be used at high dosages, the concrete producer should account for the water contained in the PolarSet. Each gallon

of PolarSet added to a concrete mix will contribute 6.5 lbs (0.78 kg/L) of water to that mix.

### Packaging & Handling

PolarSet is currently available in bulk quantities by Grace metered systems, or in 55 gal (208 L) drums. PolarSet freezes at approximately -10°F (-23°C), but its set acceleration, strength gain and non-corrosive properties are completely restored by thawing and thorough agitation.

### Dispensing Equipment

A complete line of accurate dispensers is available. PolarSet may be introduced on the sand, in the water, or at the end of the batch cycles. Similar to all concrete admixtures, PolarSet should not come in contact with other admixtures prior to entering the concrete.

### Specifications

The set-accelerating admixture shall be PolarSet, non-corrosive, non-chloride set accelerator, as manufactured by Grace Construction Products. The admixture shall be used in strict accordance with the manufacturers' recommendations. The admixture shall comply with ASTM Designation C494 Type C and will not contain purposely added chlorides or contribute to steel corrosion. Certification of compliance will be made available upon request.

Concrete shall be proportioned in accordance with *Recommended Practice for Selecting Proportions for Normal Weight Concrete*, ACI 211.1 or *Recommended Practice for Selecting Proportions for Structural Lightweight Concrete*, ACI 211.2, or in accordance with ACI 318.

Note to Specifier: For use in freeze protection, request sample specification available from your Grace Engineering Services representative.

## **Non-Public Works Bid Affidavit Instructions**

- **Affidavit is supplied as a courtesy to Affiants, but it is the responsibility of the affiant to insure the affidavit they submit to Jefferson Parish complies, in both form and content, with federal, state and parish laws.**
- **Affidavit must be signed by an authorized representative of the entity or the affidavit will not be accepted.**
- **Affidavit must be notarized or the affidavit will not be accepted.**
- **Notary must sign name, print name, and include bar/notary number, or the affidavit will not be accepted.**
- **Affiant MUST select either A or B when required or the affidavit will not be accepted.**
- **Affiants who select choice A must include an attachment or the affidavit will not be accepted.**
- **If both choice A and B are selected, the affidavit will not be accepted.**
- **Affidavit marked N/A will not be accepted.**
- **It is the responsibility of the Affiant to submit a new affidavit if any additional campaign contributions are made after the affidavit is executed but prior to the time the council acts on the matter.**

*Instruction sheet may be omitted when submitting the affidavit*

## STANDARD INSURANCE REQUIREMENTS FOR BIDDING PURPOSES

All required insurance under this bid shall conform to Jefferson Parish Resolution No. 113646 or No. 113647, as applicable. Contractors may not commence any work under any ensuing contract unless and until all required insurance and associated evidentiary requirements thereto have been met, along with any additional specifications contained in the **Invitation to Bid**. Except as where otherwise precluded by law, the Parish Attorney or his designee, with the concurrence of the Director of Risk Management or his designee, may agree on a case-by-case basis, to deviate from Jefferson Parish's standard insurance requirements, as provided in this Section. Vendors requesting deviation therefrom shall submit such requests in writing, along with compelling substantiation, to the Purchasing Department prior to the bid's due date. Any changes to the insurance requirements will be reflected in the bid specifications and addenda. Prior to contract execution and at all times thereafter during the term of such contract, contractors must provide and continuously maintain all coverages as required by the foregoing Resolutions, and the contract documents. Failure to do so shall be grounds for suspension, discontinuation or termination of the contract.

---

For bidding purposes, bidders must submit with bid submission a current (valid) insurance certificate evidencing the required coverages. Failure to comply will cause bid to be rejected. The current insurance certificate will be used for proof of insurance at time of evaluation. Thereafter, and prior to contract execution, the low bidder will be required to provide final insurance certificates to the Parish which shall name **the Jefferson Parish, its Districts Departments and Agencies under the direction of the Parish President and the Parish Council** as additional insureds regarding negligence by the contractor for the Commercial General Liability and the Comprehensive Automobile Liability policies. Additionally, said certificates should reflect the name of the Parish Department receiving goods and services and reference the respective Jefferson Parish bid number.

---

### JEFFERSON PARISH REQUIRED STANDARD INSURANCE

#### WORKER'S COMPENSATION INSURANCE

As required by Louisiana State Statute, exception; Employer's Liability, Section B shall be \$1,000,000 per occurrence when Work is to be over water and involves maritime exposures to cover all employees not covered under the State Worker's Compensation Act, otherwise this limit shall be no less than \$500,000 per occurrence.

**Note: If your company is not required by law to carry workmen's compensation insurance, i.e. not a Louisiana company, sole employee of the company, then bidders must request a workmen's compensation insurance declaration affidavit prior to the bid opening date. This insurance declaration affidavit must be fully completed, signed, properly notarized and submitted with the bid. A scanned copy may be submitted with the bid; however, the successful bidder must submit the original affidavit in its original format and without material alteration upon contract execution. Failure to comply will result in the bid submission being**

rejected as non-responsive. The Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event.

**COMMERCIAL GENERAL LIABILITY**

Shall provide limits not less than the following: \$1,000,000.00 Combined Single Limit per Occurrence for bodily injury and property damage.

**COMPREHENSIVE AUTOMOBILE LIABILITY**

Bodily injury liability \$1,000,000.00 each person; \$1,000,000.00 each occurrence.  
Property Damage Liability \$1,000,000.00 each occurrence.

**Note: This category may be omitted if bidders do not/will not utilize company vehicles for the project or do not possess company vehicles. Bidder must request an automobile insurance declaration affidavit prior to the bid opening date. This insurance declaration affidavit must be fully completed, signed, properly notarized and submitted with the bid. A scanned copy of the completed, signed and properly notarized affidavit may be submitted with the bid; however, the successful bidder must submit the original affidavit in its original format and without material alteration upon contract execution. Failure to comply will result in the bid submission being rejected as non-responsive. The Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event.**

**DEDUCTIBLES** - The Parish Attorney with concurrence of the Director of Risk Management have waived the deductible section of the Terms and Conditions for all Invitations to Bid, until further notice.

**UMBRELLA LIABILITY COVERAGE**

An umbrella policy or excess may be used to meet minimum requirements.

**FOR CONSTRUCTION AND RENOVATION PROJECTS:**

The following are required if selected below. Such insurance is due upon contract execution.

**OWNER'S PROTECTIVE LIABILITY**

To be for the same limits of liability for bodily injury and property damage liability established for commercial general liability.

**BUILDER'S RISK INSURANCE**

The contractor shall maintain Builder's Risk Insurance at his own expense to insure both the owner (Parish of Jefferson) and contractor as their interest may appear.
