PUBLIC NOTICE
SOQ 23-001

Deadline for Submissions: 3:30 p.m. January 19, 2023

The Parish of Jefferson, authorized by **Resolution No.140999** is hereby soliciting the submittal of a Statement of Qualifications (Technical Evaluation Committee (TEC) Questionnaire) from persons or firms interested and qualified to provide Professional Architectural and Engineering Services on an as-needed basis for architectural type projects located throughout the Parish for an approximate two-year period.

General

Specific Scope of Services includes providing design, construction administration and related supplemental services on an as-needed basis for architectural type projects located throughout the Parish for an approximate two-year period.

The firms submitting a Statement of Qualifications (TEC Questionnaire) must identify all sub-consultant firms which they expect to use to provide professional services, and submit a Statement of Qualifications (TEC Questionnaire) for each sub-consultant firm. (Refer to Jefferson Parish Code Ordinance, Section 2-928).

All services shall be provided on an “as-needed” basis, and there shall be no guarantee as to the amount of work the firm or firms will be given during the term of the contract.

The Council, at its discretion, may choose one or more qualified firms to provide the services.

Compensation

Compensation for the required services will be made on an hourly rate basis or a fixed fee basis, or a combination of both, depending on scope and complexity of the work. The Parish reserves the right to determine the method of payment (hourly or fixed) for each individual assignment.

For hourly rate work, the firm shall be compensated by the appropriate Jefferson Parish Department on the basis of their certified and itemized salary costs plus a fee to cover overhead costs and profit in accordance with guidelines established in Attachment “A” to the Standard Professional Services Agreement for Jefferson Parish. A copy of Attachment “A” may be obtained by calling the Jefferson Parish Department of Capital Projects at (504) 736-6833.

For fixed fee work, the fee shall be negotiated with the firm by the appropriate Jefferson Parish Department and shall be mutually agreeable to both parties.

All costs associated with this project shall be subject to Jefferson Parish review and approval.

A maximum yearly cap established by Jefferson Parish based on anticipated needs for these services shall be \$500,000.00, and the established cap shall not be increased without Council approval.

Minimum Requirements for Selection

1. The persons or firms under consideration shall have at least one (1) principal who is a licensed, registered architect or a professional engineer in the State of Louisiana. A subcontractor may not be used to meet this requirement. (Section C. of TEC Professional Services Questionnaire);
2. The persons or firms under consideration shall have a professional in charge of the Project who is a licensed, registered architect in the State of Louisiana with a minimum of five (5) years' experience. A subcontractor may not be used to meet this requirement. (Section K. **"PROFESSIONAL IN CHARGE OF PROJECT:"** of TEC Professional Services Questionnaire);
3. The persons or firms under consideration shall have one (1) employee who is a licensed, registered architect or professional engineer in the State of Louisiana in the applicable discipline involved. A subcontractor may meet this requirement only if the advertised Project involves more than one discipline (Section D. of TEC Professional Services Questionnaire).

Evaluation Criteria

The following criteria will be used to evaluate each firm submitting a Statement of Qualifications:

- (1) Professional training and experience in relation to the type of work required for the architectural or engineering services. (Maximum points awarded shall be 35).
- (2) Size of firm considering the number of professional and support personnel required to perform the type of architectural or engineering tasks, including project evaluation, project design, drafting of technical plans, development of technical specifications and construction administration. (Maximum points awarded shall be 20).

- (3) Capacity for timely completion of newly assigned work, considering the factors of type of architectural or engineering task, current unfinished workload, and person or firm's available professional and support personnel. (Maximum points awarded shall be 20).
- (4) Past Performance by person or firm on projects of or similar comparable size, scope, and scale. Assertions of fault by a person or firm, which shall include time delays, cost over-runs, and or design inadequacies in prior work completed for the Parish shall be evidenced by substantiating documentation provided by the Director of Public Works for the requesting department or the Director of Engineering and received by the Chairman of the Evaluation Committee a minimum of two (2) weeks prior to the scheduled date of the Technical Evaluation Committee meeting. (Maximum points awarded shall be 10).
- (5) Location of the principal office. Preference shall be given to persons or firms with a principal business office as follows: (1) Jefferson Parish, including municipalities located within Jefferson Parish (15 points); (2) Neighboring Parishes of the Greater New Orleans Metropolitan Region, which includes Orleans, Plaquemines, St. Bernard, St. Charles and St. Tammany Parishes (12 Points); (3) Parishes other than the foregoing (10 Points); (4) Outside the State of Louisiana (6 Points). (Maximum points awarded shall be 15).
- (6) Adversarial legal proceedings between the Parish and the person or firm performing professional services, in which the Parish prevailed or any ongoing adversarial legal procedures between the Parish and the person or firm performing professional services, excluding those instances or cases where the person or firm was added as an indispensable party, or where the person or firm participated in or assisted the public entity in prosecution of its claim. In the event that the person or firm fails to provide accurate and detailed information regarding legal proceedings with the Parish, including the absence of legal proceedings, the person or firm shall be deemed unresponsive with regard to this category, and zero (0) points shall be awarded. (Maximum points awarded shall be 15 for the lack of any such adversarial proceedings as defined).
- (7) Prior successful completion of projects of the type and nature of the architectural or engineering services, as defined, for which firm has provided verifiable references. (Maximum points awarded shall be 15).

Only those persons or firms receiving an overall cumulative score of at least seventy percent (70%) or greater, with their highest and lowest score not counted, of the total possible points for all categories to be assigned by the participating Technical Evaluation Committee members shall be deemed qualified to perform architectural or engineering tasks.

The person or firm submitting a Statement of Qualification (Technical Evaluation Committee (TEC) Questionnaire) must identify all subcontractors who will assist in providing professional services for the project, in the professional services questionnaire. Each subcontractor shall be required to submit a (Technical Evaluation Committee (TEC) Questionnaire) and all documents and information included in the questionnaire. (Refer to Jefferson Parish Code Ordinance, Section 2-928)

All persons or firms (including subcontractors) must submit a Statement of Qualifications (Technical Evaluation Committee (TEC) Questionnaire) by the deadline. The latest professional services questionnaire may be obtained by contacting the Purchasing Department at (504) 364-2678 or via the Jefferson Parish website at www.jeffparish.net. This questionnaire can be accessed by hovering over "Business and Development" on the website and clicking on the Professional Services Questionnaires option under "Doing Business in Jefferson Parish".

Submissions will only be accepted electronically via Jefferson Parish's e-Procurement site, Central Bidding at www.centraauctionhouse.com or www.jeffparishbids.net. Registration is required and free for Jefferson Parish vendors by accessing the following link: www.centraauctionhouse.com/registration.php.

No submittals will be accepted after the deadline.

Affidavits are not required to be submitted with the Statement of Qualifications, but shall be submitted prior to contract approval.

Disputes/protests relating to the decisions by the evaluation committee or by the Jefferson Parish Council shall be brought before the 24th Judicial Court.

ADV: The New Orleans Advocate: January 4 & 11, 2023

Technical Evaluation Committee (TEC) Questionnaire

Instructions

- The Technical Evaluation Committee (TEC) Questionnaire shall be used for professional services related to architecture, engineering, or survey projects.
- **The TEC Questionnaire should be completely filled out. Complete and attach ALL sections. Insert “N/A” or “None” if a section does not apply or if there is no information to provide.**
- Questionnaire must be signed by an authorized representative of the Firm. Failure to sign the questionnaire shall result in disqualification of proposer pursuant to J.P. Code of Ordinances Sec. 2-928.
- All subcontractors must be listed in the appropriate section of the Questionnaire. Each subcontractor must provide a complete copy of the TEC Questionnaire, applicable licenses, and any other information required by the advertisement. Failure to provide the subcontractors' complete questionnaire(s), applicable licenses, and any other information required by the advertisement shall result in disqualification of proposer pursuant to J.P. Code of Ordinances Sec. 2-928.
- If additional pages are needed, attach them to the questionnaire and include all applicable information that is required by the questionnaire.

TEC Professional Services Questionnaire

A. Project Name and Advertisement Resolution Number:

Professional Architectural and Engineering Services for Architectural Type Projects
SOQ No. 23-001 No. 140999

B. Firm Name & Address:

Blitch Knevel Architects, LLC

If necessary, please attach additional documentation (i.e. resume) that demonstrates the employment history and experience of the Firm's key persons that may assist in the completion of this Project. Please attach additional pages if necessary.

PROFESSIONAL IN CHARGE OF PROJECT:

Name & Title:

Jamie L. Saxon, PE
President

Project Assignment:

Professional in Charge
Principal Project Manager

Name of Firm with which associated:

Morphy, Makofsky, Inc.

Years' experience with this Firm:

29

Education: Degree(s)/Year/Specialization:

Bachelor of Engineering, Civil Engineering, 1992
University of Adelaide, Australia

Active registration: Year first registered/discipline:

Professional Engineer Louisiana License No. 30529 - 2003

Other experience and qualifications relevant to the proposed Project:

Jamie Saxon has been responsible for foundation and structural design and analysis on residential, commercial, military, industrial, levee structures (earthen and pile supported T-walls), and drainage pump stations. Many of these projects have included dock and wharf structures. His designs have included many complex and unique foundation systems. He has also designed temporary and permanent cantilevered and anchored sheet pile bulkheads and cofferdams as part of the Hurricane Protection systems in the post Katrina landscape. Mr. Saxon also has experience with damaged wharves. His duties have included field investigations to assess damages, formulation and detailing of necessary repairs, cost estimation, and supervision of the repairs. These wharves are located along the Mississippi River, canals, and the Mississippi Delta region.

| Morphy, Makofsky, Inc. |
| Years' experience with this Firm: |
| 28 |
| Education: Degree(s)/Year/Specialization: |
| Bachelor of Science, Civil Engineering, 1994 Tulane University, New Orleans, Louisiana |
| Active registration: Year first registered/discipline: |
| Professional Engineer Louisiana License No. 28228 – 1999 Also Licensed in 15 other states |
| Other experience and qualifications relevant to the proposed Project: |
| During his tenure with MMI, Jonathan Sofranko has worked his way from Junior Engineer to Partner. He has been responsible for the design and production of construction documents for buildings and structures ranging in size from large residential homes to mid-rise hotel towers. He is proficient in designing the super-structures of buildings in steel, conventionally reinforced concrete, post tensioned concrete, and wood. His structural experience includes the design and analysis of reinforced concrete, post-tensioned concrete, structural steel, and composite framing systems, as well as foundations. Mr. Sofranko has performed wind, seismic, and adaptive reuse analyses for multiple types of structures including various high rise hotels, medical facilities, and corporate facilities. He has extensive experience and knowledge in three dimensional modeling. |

| Name & Title: |
| Shishir C. Pedamkar, EIT Civil Engineer |
| Project Assignment: |
| Civil Engineer |
| Name of Firm with which associated: |
| Morphy, Makofsky, Inc. |
| Years' experience with this Firm: |
| 14 |
| Education: Degree(s)/Year/Specialization: |
| Master of Engineering, Lamar University, 2003 Bachelor of Science, Civil Engineering, Mumbai University, 2000 |
| Active registration: Year first registered/discipline: |
| Texas Engineer in Training, 2015 |
| Other experience and qualifications relevant to the proposed Project: |
| <p>Prior to working at Morphy, Makofsky, Inc., Mr. Pedamkar had spent four years working in and around the construction industry in different districts of Florida and Georgia. He possesses a broad range of technical and leadership skills and uses rigorous logic to come up with effective design solutions to meet the client's requirements.</p> <p>Mr. Pedamkar's experience in the design requirements of Environmental Protection permit programs (DEP, TPDES, TCEQ and NPDES) has proven to be valuable asset to MMI. Mr. Pedamkar is also very proficient with relevant civil engineering design software's such as AutoCAD, Civil 3D, and Storm-Sewer Extensions to Civil 3D.</p> |

TEC Professional Services Questionnaire

| KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT: |
|---|
| Name & Title: |
| Greg Eckert, AIA, NCARB Technical Assistant |
| Project Assignment: |
| Specification Writer/Project Coordination |
| Name of Firm with which associated: |
| Morphy, Makofsky, Inc. |
| Years' experience with this Firm: |
| 14 |
| Education: Degree(s)/Year/Specialization: |
| Bachelor of Arts, Architecture, 2003 Louisiana State University, Baton Rouge, Louisiana |
| Active registration: Year first registered/discipline: |
| Louisiana Architectural License No. 8239 – 2015 NCARB Certificate No. 80339 |
| Other experience and qualifications relevant to the proposed Project: |
| Mr. Eckert is responsible for the production of MMI's construction specifications as a written counterpart to the construction drawings. This role requires a thorough understanding of structural and civil materials with an emphasis in concrete, steel, and pile supported construction as well as an understanding of the quality of construction required by each client. Mr. Eckert is familiar with all MasterSpec formats and ensures that each set of project specifications is tailored to the meet the client's needs and the requirements of the code. Mr. Eckert is practiced in authoring not only the structural and civil components of the project manual, but also coordinating the addition of sub-consultant specifications, Division 00 Procurement & Contracting Documents, and Division 01 General Requirements for the client. |

N. Use this space to provide any additional information or description of resources supporting Firm's qualifications for the proposed project.

Morphy, Makofsky, Inc.'s consulting services include design, studies, estimates, contract administration of engineering projects, and the structural phases of architectural projects. MMI currently employs twenty-two structural, foundation, and civil engineers; CAD technicians; construction observers; specification writers; and administrators. Professional personnel are appropriately registered as professional engineers or engineers in training. It is our goal to execute designs which will simplify construction and minimize construction schedules, while maintaining an impeccable standard of care during and after the construction process. The MMI administrative team works closely with all disciplines to ensure that deadlines are met and that projects remain on schedule and on budget. MMI's expert team of drafters produces the highest-quality and most accurate drawings using cutting-edge software including the latest release of Autodesk Revit Structure, AutoCAD, AutoCAD Civil 3D, and Microstation. It has been, and will continue to be, the aim of Morphy, Makofsky, Inc. to render its services in accordance with the highest moral and ethical standards. This knowledge, together with the vast experience accumulated over the years, provides clients with the assurance that Morphy, Makofsky, Inc. is uniquely qualified to render professional engineering services.

O. To the best of my knowledge, the foregoing is an accurate statement of facts.

K. List the professional in charge, key persons, specialists, and individual consultants anticipated for this Project and provide their relevant information below. If necessary, please attach additional documentation (i.e. resume) that demonstrates the employment history and experience of the Firm's key persons that may assist in the completion of this Project. Please attach additional pages if necessary.

PROFESSIONAL IN CHARGE OF PROJECT:

Name & Title:

David C. Code, P.E., Principal

Project Assignment:

Principal-in-Charge of Mechanical Design

Name of Firm with which associated:

GVA Engineering, L.L.C.

Years' experience with this Firm:

With this firm: 27 years (39 total years experience)

Education: Degree(s)/Year/Specialization:

Tulane University - 1983, BS in Mechanical Engineering

Active registration: Year first registered/discipline:

LA Professional Mechanical Engineer, 1988
National Council of Examiners for Engineers and Surveying
LEED Accredited Professional: 2008

Other experience and qualifications relevant to the proposed Project:

David remained at Guillot-Vogt until the establishment of GVA Engineering, L.L.C. in 1995. GVA Engineering, L.L.C., was established to continue the mechanical and electrical departments of Guillot-Vogt upon the retirement of its founder, E. Carlton "Corky" Guillot. David serves the firm as the principal in charge of mechanical design. He conducts design and quality control reviews for GVA's projects throughout the design process. He also immerses himself in considerable hands-on activities during programming, design, and construction administration phases.

David has served as project mechanical engineer and principal-in-charge for numerous Jefferson Parish and Indefinite Delivery projects including:

- Jefferson Parish Indefinite Delivery Contract Dept. of Gen. Services and Procurement (2001-2004)
- Jefferson Parish Emergency Telecommunications and Emergency Operations Center Gretna, LA - New Facility
- Jefferson Parish 24th Judicial Courthouse Renovations
- Keesler Air Force Base; Biloxi, MS 12-year Indefinite Delivery Contract
- Indefinite Delivery Contract for LSU Health Sciences Center New Orleans Downtown Campus

Mr. Code has served as Project Mechanical Engineer for numerous projects involving design of HVAC, plumbing and fire protection systems, including the following:

- Renovations to the Louisiana State Supreme Courthouse – 400 Royal Street, New Orleans, Louisiana

TEC Professional Services Questionnaire

- Numerous projects at West Jefferson Medical Center including the New Central Plant completed in 2006.
- St. Bernard Hospital Replacement Project
- New school projects in Jefferson, St. Charles, Orleans and St. Bernard Parishes
- Katrina Repairs to the USPS Mail Handling Facility – New Orleans
- Ten Story Elmwood Towers (opposite the Yenni Building) Katrina Repairs and Renovations

David is a LEED Accredited Professional for the Green Building Certification Institute and is currently working on several certified (Green) buildings.

N. Use this space to provide any additional information or description of resources supporting Firm's qualifications for the proposed project.

BACKGROUND - GVA Engineering L.L.C. is a mechanical and electrical engineering firm that provides planning, design, and construction administration services for commercial, institutional, and governmental facilities in Louisiana, Mississippi, and surrounding states. These services include mechanical, electrical, fire suppression systems, medical gas systems, construction phase administration, and construction phase analysis. Leon R. Pesses P.E. and David C. Code P.E. established GVA in May 1995. Both Mr. Pesses and Mr. Code had served as department heads at Guillot-Vogt Associates prior to their organization of GVA Engineering. With its roots in the decades-old company of Guillot-Vogt Associates, GVA has experience and resources beyond its years. Since Hurricane Katrina in 2005, GVA has played a key role in numerous rebuilding projects throughout the Gulf Coast region.

MANAGEMENT/ORGANIZATION/PRODUCTION/QUALITY CONTROL CAPABILITY - GVA Engineering, L.L.C. has completed numerous projects for buildings throughout the New Orleans area. Many of these projects entail specialized climate control to accommodate archival storage, libraries, or museum exhibits. David Code P.E. would serve as the principal-in-charge of the project. David would be GVA's direct point of contact for the work. David would attend project meetings and would stay fully engaged throughout the term of the work. David would be assisted by Chris Cox P.E. Chris is one of GVA's registered professional mechanical engineers and serves the firm as Lead Engineer / Project Manager for many of our projects. Any necessary electrical engineering support would be provided by Leon Pesses, P.E. or Jonathan Bernard P.E. Principals David Code P.E. and Leon Pesses P.E. are actively involved in the design and review of all projects. With over 60 years combined experience, these men are experts in their field. They, along with their team, aim to deliver the highest quality of professional services to all clients. The Principal-In-Charge takes a hands-on approach in each project from conception to completion. Design is reviewed for technical accuracy, constructability, cost, and conformance with client goals.

CAPACITY FOR TIMELY COMPLETION OF NEWLY ASSIGNED WORK - GVA's Principals are involved in critical decision making and continuously oversee project schedules, providing additional staff and resources when necessary. One of GVA's primary strengths is its ability to work on a large range of projects. GVA provides professional mechanical and electrical services on both large and small projects in all types of facilities. GVA's engineers have worked on hospitals, outpatient and surgical centers, medical imaging centers, cancer treatment centers, elementary and secondary schools, university campus projects, historic buildings, central plants, and a multitude of other project types. These projects include new construction, renovations, additions, and multiple types of updates. This immense diversity of experience allows GVA to effectively approach each new task by calling on knowledge from all areas of the construction industry. GVA completes an average of 90 - 100 projects annually.

O. To the best of my knowledge, the foregoing is an accurate statement of facts.

ATTACHMENT "A" TO THE STANDARD PROFESSIONAL
SERVICES AGREEMENT FOR JEFFERSON PARISH
(Amended per Ord. No. 21593. dated June 5, 2002)

This attachment shall be a part of all professional service agreements for engineering and architectural services in Jefferson Parish.

The Statewide "DOTD Average Salary Rate" document [average rate plus one (1) standard deviation], hereinafter referred to as "DOTD Document", is to be used for establishing Maximum Direct Hourly Rate, Maximum Payable Hourly Rate, maximum overhead rate and, indirectly, the maximum multiplier for each new professional services agreement, using the then current official publication of the "DOTD Document".

For all hourly rate services, including supplementary services, where payments are made on the basis of hourly rates, the **ENGINEER/ARCHITECT**, hereinafter **ENGINEER**, shall be paid on the basis of their certified and itemized direct salary costs (Direct Hourly Rates) times a **multiplier** to determine Payable Hourly Rates, which shall cover direct salary, overhead and 15% profit.

The **multiplier** shall be established from the overhead rate resulting from an audit of the **ENGINEER** performed by a Federal or State agency, or from an audit performed by a Certified Public Accountant (CPA) hired by the **ENGINEER**, provided the CPA certifies that their audit complies with the latest applicable FAR's and CFR's. In the event a satisfactory audit is not provided, the multiplier shall be 2.3.

The **DIRECTOR** shall have the right to require the **ENGINEER** to provide sufficient documentation to support the approved multiplier.

In no case shall the overhead rate utilized to determine the multiplier be greater than the applicable overhead rate shown on the then current official publication of the "DOTD Document".

In no case shall the Direct Hourly Rate and Payable Hourly Rate used to pay for professional services exceed the Maximum Direct Hourly Rate and Maximum Payable Hourly Rate shown herein that have been derived from the then current official publication of the "DOTD Document".

For this agreement, the approved multiplier shall be established at the time the services are required.

The rates payable to sub-consultants shall be governed by the same regulations as those for the **ENGINEER**, with an overhead rate and multiplier established for each sub-consultant.

If a Personnel Classification required for a Parish project is not included in the "DOTD Document", the Parish Administration shall establish a new Personnel Classification and appropriate maximum direct and payable hourly rates, which would be consistent with personnel categories of similar expertise found within the "DOTD Document", and include herein.

Once contract fees are negotiated using the "DOTD Document" in effect at the time of negotiation, those fees will be unaffected by subsequent versions of the "DOTD Document", except that the rates for Resident Inspection services will be those in the "DOTD Document" in effect at the time those services begin. The rates in effect for this contract are included herein.

The **ENGINEER** shall be reimbursed for costs incurred by sub-consultants at the rate of 1.10 times the actual invoices of sub-consultants, up to a total amount of \$200,000.00. Thereafter, the rate shall be reduced to 1.05.

The **ENGINEER** shall be reimbursed for other direct costs charged to the project at a rate not to exceed 1.10 times the direct expenses. No reimbursement will be made without satisfactory documentation. The **DIRECTOR** reserves the right to have the **ENGINEER** provide proof that direct expenses charged to the project are not included in **ENGINEER'S** overhead.

The **ENGINEER** shall be reimbursed for actual mileage expenses incurred while performing work directly related to this contract; however, the reimbursement rate shall not exceed the Jefferson Parish mileage rate in effect at that time.

On all contracts for which the Council has selected two or more consultants to share the work, the Council shall specify the prime, or lead, consultant, and this consultant shall perform a larger percentage of the basic design services than any of the sub-consultants, but in no case shall the prime, or lead, consultant perform less than forty (40) percent of the basic design services.

The MAXIMUM DIRECT HOURLY RATE and MAXIMUM PAYABLE HOURLY RATE for each Personnel Classification shall not exceed the rates in the following chart, regardless of the audited overhead rate of the **ENGINEER**. These rates will also apply to firms incorporated out of State.

The MAXIMUM DIRECT HOURLY RATES shown below are equivalent to the Statewide DOTD Average Salary Rates, plus one (1) standard deviation, which were current at the time fees for this agreement were negotiated.

The MAXIMUM PAYABLE HOURLY RATES shown below are a product of the appropriate Maximum Multiplier (field or non-field) and the MAXIMUM DIRECT HOURLY RATE.
