dmevans@jeffparish.net

Dear Ms. Evans –

ADANI Systems, Inc. is pleased to submit our response to BID 50-00132518.

We are a world leader in the design and manufacture of X-Ray Security Screening Systems to prevent the introduction of weapons, drugs, and other threat items into your facilities. Combining innovative threat detection technologies with intelligent and flexible system designs, ADANI's screening and inspection systems provide exceptional automated processing, threat recognition, and throughput rates. Bottom line, our automatic detection software, only available from ADANI Systems, color codes potential threats making it easier for operators to detect contraband.

Per Jefferson Parish's Instructions to Bidders, Paragraph B, ADANI Systems "USE OF BRAND NAMES AND STOCK NUMBERS" Adani is submitted our comparable Model BV5030CA for your consideration.

ADANI counts hundreds of city and county courthouses and more than half of Departments of Corrections in the United States as customers with over 1,000 installations to date. Our scanners are manufactured to the highest standard and are built with rugged materials designed to handle high traffic and moderate abuse all while maintaining precision and making the best images in the industry.

We are a certified small business incorporated in the Commonwealth of Virginia in October 2006. We have offices in Alexandria, VA, Miami Lakes, FL and Conroe, TX. The Conroe facility is our base of operations for manufacturing, sales, service, and training supporting the US, Canada, Mexico, and Latin America.

ADANI Systems employs a full-time staff which comprises the Field Service Engineers, Warehouse, Production, Sales, Shipping, and Administrative functions. Over the course of the past 14 years, ADANI Systems has built a sustainable business based on great people delivering best-in-class x-ray scanners with a commitment to world-class training and service.

Our commitment to excellence is a standard by which we mark progress. Our 1,000+ customers also stand as a testament to ADANI's ability to perform with excellence for our existing customers while building a secure future with our future customers.

Sincerely,

Emily Fain

Non-Public Works Bid

AFFIDAVIT

STATE OF TEXAS

PARISH/COUNTY OF MONTGOMERY

BEFORE ME, the undersigned authority, personally came and appeared: EMILY FAIN
_____, (Affiant) who after being by me duly sworn, deposed and said that
he/she is the fully authorized REPRESENTATIVE of ADANI SYSTEMS, INC. (Entity),
the party who submitted a bid in response to Bid Number 50-00132518 to the Parish of
Jefferson.

Affiant further said:

Campaign Contribution Disclosures

(Choose A or B, if option A is indicated please include the required attachment):

Choice A _____ Attached hereto is a list of all campaign contributions, including the date and amount of each contribution, made to current or former elected officials of the Parish of Jefferson by Entity, Affiant, and/or officers, directors and owners, including employees, owning 25% or more of the Entity during the two-year period immediately preceding the date of this affidavit or the current term of the elected official, whichever is greater. Further, Entity, Affiant, and/or Entity Owners have not made any contributions to or in support of current or former members of the Jefferson Parish Council or the Jefferson Parish President through or in the name of another person or legal entity, either directly or indirectly.

Choice B X there are **NO** campaign contributions made which would require disclosure under Choice A of this section.

Debt Disclosures

(Choose A or B, if option A is indicated please include the required attachment):

Choice A _____ Attached hereto is a list of all debts owed by the affiant to any elected or appointed official of the Parish of Jefferson, and any and all debts owed by any elected or appointed official of the Parish to the Affiant.

Choice B X There are **NO** debts which would require disclosure under Choice A of this section.

Affiant further said:

That Affiant has employed no person, corporation, firm, association, or other organization, either directly or indirectly, to secure the public contract under which he received payment, other than persons regularly employed by the Affiant whose services in connection with the construction, alteration or demolition of the public building or project or in securing the public contract were in the regular course of their duties for Affiant; and

[The remainder of this page is intentionally left blank.]

That no part of the contract price received by Affiant was paid or will be paid to any person, corporation, firm, association, or other organization for soliciting the contract, other than the payment of their normal compensation to persons regularly employed by the Affiant whose services in connection with the construction, alteration or demolition of the public building or project were in the regular course of their duties for Affiant.

Section 6.0 Unit Description:

HI-SCAN™ 5030si X-ray Inspection System:

- Tunnel dimensions 530 (W) x 320 (H) [mm] • 20.9" (W) x 12.6" (H) **EXCEED - 20.9" x 13.0"**
- Max. object size 530 (W) x 320 (H) [mm] • 20.9" (W) x 12.6" (H) **EXCEED - see above**
- Conveyor height approx. 190 mm (7.4") / 782,5 mm (30.6") with carriage **COMPLY**
- Conveyor speed at mains frequency approx. 0.18 / 0.22 [m/s] 50 Hz/ 60 Hz **COMPLY**
- Max. conveyor load (evenly distributed) 60 kg (132 lbs.) **EXCEED – 110kg (242 lbs)**
- Resolution (wire detectability) Standard: 38 AWG (0.1 mm) • typical: 39 AWG (0.09 mm) **COMPLY**
- Resolution (wire detectability) Typical : 44 AWG (0.05 mm) **COMPLY**
- Penetration (steel) Standard: 14 mm • typical: 16 mm **COMPLY**
- X-ray dose (typical) HI-M AT: 0,8 µSv (0.08 mrem) **COMPLY**
- Film safety Guaranteed even for high speed films up to ISO 1600 (33 DIN) **COMPLY**
- Duty cycle 100%, no warm-up procedure required **COMPLY**

X-ray Generator

- Anode voltage • cooling 100 kV cp •hermetically sealed oil bath **COMPLY**
- Beam direction diagonal **COMPLY**

Image Generating System

- X-ray converter L-shaped detector line, high resolution **COMPLY**
- Grey levels stored 4096 **EXCEED – 65,536 Grey levels**
- Image presentation B/W, color **COMPLY**
- Digital video memory 1280 x 1024 / 24 bit
- Image evaluation functions B/W, HIGH, LOW, NEG, VARI -MAT, 02, OS electronic zoom: stepless enlargement up to 16-times **EXCEED – Zoom up to 96x**
- Monitor Flat Panel LCD Monitor **COMPLY**

Additional Features

- Luggage counter, user-id number, display of operating mode, REVIEW-feature to recall previously visible image areas, zoom overview, free programmable keys **COMPLY**
- HI-TIP, HI-SPOT, SEN, Xport, X-ACT, IMS (Image Management System) **COMPLY**

Installation Data

- X-ray leakage meets all applicable laws and regulations with respect to X-ray emitting devices **COMPLY**
- CE-labelling in compliance with directives 2004/108/EC, 2006/42/EC, 2006/95/EC **COMPLY**
- Sound pressure level < 56 dB(A) **COMPLY**
- Operating-/ storage temperature 0° - 40°C / -20°C - +60°C
- Humidity 10% - 90% (non-condensing) **COMPLY**
- Power supply standard: 110 VAC +10% / -15% • 50 Hz/ 60 Hz± 3 Hz **COMPLY**
- Power consumption approx. 0.4 kVA **Less than 0.6 kVA**
- Protection class system/ keyboard **COMPLY**
- Dimensions 47.3" (L)2 x 27.7" (W) x 28.6" (H) • approx. 352 lbs. **COMPLY**

Section 6.1 Unit Description: Continued

HI-PE Plus Enhanced Walk-Through Multi-Zone Metal Detector:

Features

- Compliant with the strictest detection and discrimination standards for EMDs (Enhanced Metal Detectors). **COMPLY**
- 4 display bars each programmable as zone indicators and/or pacing lights. **COMPLY**
- 60 localization zones (20 vertical x 3 lateral) with left, center, and right indication. **COMPLY**
- Chip Card Reader **COMPLY**
- Bluetooth, infrared and RS-232 communication **COMPLY**
- Programmable Random Alarm capability **COMPLY**
- 3-Level Password and hardware key access protection **COMPLY**
- Met-Identity technology (separate Ferrous and Non-Ferrous alarm signaling) **COMPLY**
- One Touch Automatic Self Installation (OTS) **COMPLY**
- Automatic Operational Functional Verification (OFV) **COMPLY**
- Automatic Vibration Compensation (AVS, EVA) **COMPLY**
- Automatic Channel Search (CS) **COMPLY**
- Automatic Floor Gain Adjustment (FGA) **COMPLY**
- Automatic Technical Functional Verification (TFV) **COMPLY**
- Automatic Environmental Noise Compensation (ENA) **COMPLY**
- Powered by safe low voltage DC **COMPLY**
- Anti-tamper on/off switch **COMPLY**
- High precision transit counter **COMPLY**
- Minimum 32.3" passage width **COMPLY**
- ADA Compliant **COMPLY**
- Wide range of threat detection from guns to 1/2" cutter blade **COMPLY**
- Automatic Environmental Noise Compensation (ENA) **COMPLY**
- Excellent discrimination of personal metal effects **COMPLY**
- Met-Identity technology identifies and signals the metal type in realtime **COMPLY**
- 60 localization zones (20 vertical x 3 lateral) with left, center and right indication **COMPLY**
- High precision bidirectional counter with automatic rescreening compensation **COMPLY**
- One touch automatic self-installation (OTS) **COMPLY**
- Chip Card capability for fast, simple, and secure programming **COMPLY**
- Automatic Operational Functional Verification (OFV) **COMPLY**
- Random alarm capability programmable from 0% to 100% **COMPLY**
- Automatic Vibration Compensation (AVS,EVA) **COMPLY**
- Exceptional Immunity to external interferences **COMPLY**
- Automatic Channel Search (CS) **COMPLY**
- Powered by safe low voltage DC **COMPLY**
- Automatic Floor Gain Adjustment (FGA) **COMPLY**
- Standard Interfaces: RS-232, Bluetooth, Infrared **COMPLY**
- Automatic Technical Functional Verification (TFV) **COMPLY**
- Other available interfaces: Wi-Fi, Ethernet, USB **COMPLY**

- Power Supply: 100...240V~ -10/+15%, 47...63Hz, 40 VA max **COMPLY**
- Operating temperature: -4°F to 158°F (-35°F to 158°F upon request) **COMPLY**
- Storage temperature: -35°F to 158°F **COMPLY**
- Relative humidity: 0 to 95% (without condensation) **COMPLY**

Section 6.1 Unit Description: Continued

HI-PE Plus Enhanced Walk-Through Multi-Zone Metal Detector:

- Multi-zone display bar for "height on person" localization **COMPLY**
- 4 light bars with selectable entry/exit and pacing indication **COMPLY**
- Green and red metering signals proportional to the mass of the detected target **COMPLY**
- 10 selectable continuous and pulsed tone plus 34 special tones **COMPLY**
- 10 selectable sound intensities ranging from 0 to 90 dbA at 1m **COMPLY**
- 60 distinct zones (20 vertical x 3 lateral) entry and exit side **COMPLY**
- Up to 50 built-in security programs (up to 30 International Standards, up to 20 Customizable Levels) **COMPLY**
- Remote via RS-232, Infrared Remote Control Unit, Bluetooth or Ethernet 10/100 base T (option) interface **COMPLY**
- Test Samples Kits Part# EMO-SK-GAL Part# EMD-SK-GDML **COMPLY**

1. INTENDED USE

The ADANI **BV 5030CA** is intended for visual inspection of various objects (mail, hand-held baggage, luggage and other items) without opening them.

Dual-energy imaging provides automatic color coding of materials with different atomic numbers so that screening staff can easily identify within any parcel dangerous objects or objects that are prohibited for importing (exporting) or are not declared.

The **BV 5030CA** is an ideal solution for the inspection of handbags and small baggage within the limited space and unequipped inspection area. It can be easily relocated without any need for special equipment.

2. GENERAL SPECIFICATIONS

DIMENSIONS

Tunnel dimensions	
- Width	532 ± 3 mm [20.9 in]
- Height	332 ± 5 mm [13.0 in]
* Overall dimensions, not more than	
- Width	695 mm [27.4 in]
- Height	710 mm [28.0 in]
- Length	1240 mm [48.8 in]
*Weight, no more than	160 kg [353 lbs]
Trolley height	370 mm [14.6 in]

* Without trolley and retractable touchscreen

CONVEYOR BELT

Maximum distributed load on the conveyor belt, max	110 kg [242.5 lbs]
Conveyor height, without trolley	150 mm [5.9 in]
Conveyor speed	0.22±0.03 m/s [43.3 ft./min]
Noise level	0 - 65 dB(A)

X-RAY UNIT

Anode voltage	100 kV
Angle of radiation	77°
Beam direction	diagonally downward
Cooling system	oil bath
Anode type	stationary
Film safety	up to ISO 1600 (33 DIN)

DETECTOR UNIT

Detector type	L-shaped multiunit array	
Dual-energy detector	Yes	
Grey levels	65 536	
Type of x-ray sensitive element	solid-state photodiode with scintillation coating	
Number of detection elements in array	960	
**Wire detectability (minimum diameter of copper wire/standard operating mode)	0.08 mm (40 AWG)	
**Steel penetration,	14 mm guaranteed;	16 mm typical
** Spatial resolution, mm (lp/mm)	1.5 in the direction of scanning	1.0 along the detector
Visible contrast levels, more than	24	

** Stated performance as measured by ADANI Test Kit

TECHNICAL SPECIFICATIONS OF THE OPERATOR'S AWS ***

Processor	At least Intel Pentium G3460
Storage device	SSD 240 GB
RAM	DDR3, 4 GB
Graphics	Integrated
Display and control	LCD 21,5" (1920x1080) touchscreen or Retractable LCD touchscreen 18.5" (1366x768) or LCD 19,5" (1600x900) with specialized keyboard or LCD 21.5" (1920x1080) with specialized keyboard
UPS - optional	External
Operation system	MS Windows 8.1 Industry, the fault-tolerant configuration
Image archiving	100.000 images

*** Specifications can be changed on request

POWER SUPPLY

Circuit type	single-phase, general purpose
Line voltage	230 VAC \pm 10% / 120 VAC \pm 5%
Line frequency	50 / 60 Hz
Power consumption	less than 0.6 kVA

ENVIRONMENTAL REQUIREMENTS

****Operation:	
- ambient temperature	0° to +40 °C
- atmospheric pressure, kPa (mm Hg)	84.0 to 106.7 (630-800)
- max. relative humidity (at + 20 °C)	up to 90%, non condensing
Transportation:	

- ambient temperature	-20° to +50 °C
Storage:	
- air temperature	-10° to +50 °C
- max. relative humidity (at + 35 °C)	up to 98%, non condensing

**** Operating temperature can be expanded up to +50°C (option)

3. KEY FEATURES

- Compact size and Light weight	The system can be easily relocated by several persons. It can easily pass through the majority of standard doorways. It can be installed at any place suitable for the user or even on the table.
- Maximum ease of operation	Even a freshman can operate the system. A number of functions for automatic dangerous objects detection is applied for convenient and easy application.
- Retractable touchscreen	The system is standardly equipped with a convenient touchscreen display, that can be folded inside the top cover and locked to avoid interference or damage.
- Automatic identification of suspicious objects (drugs, explosives) and Highlighting of optically dense objects	Algorithms used in software enable automatic highlighting of such objects as weapons, explosives, narcotics, as well as opaque areas, where dangerous object may be concealed. These functions improve operating efficiency.
- Automatic gun detection Software	Automatic gun detection software can detect standard pistols and revolvers of the small size and weighting minimum 300 g. The automatic evaluation function marks dangerous objects in the images displayed to the operator in real-time mode.
- Availability 7 and 3 colors imaging	Operator is free to choose whether to use 3 colours imaging (organics/inorganics/metals), which is familiar by experience, or 7 colours imaging, which is more detailed one and which enables material discrimination on effective atomic number more precisely. New colours help the operator to stay attentive and his/her perception to remain not "overloaded" when working during a long period of time. This improves the performance quality of the operator and a through-flow rate of inspection points.

- Adaptive cooling system	The operation of the cooling fans is automatically adjusted depending on the intensity of scanner operation. This results in reduction of the scanner noise.
- User friendly interface	The set of self-intuitive tools and settings make it possible for the operator to master the system control quickly and easily making thus his/her daily work more comfortable.
- Multilanguage interface	Including English, German, Russian, Italian, French, Spanish, Portuguese, Polish, Arabic, Chinese and any other language on request.
- Quick start-up and shutdown	Due to the new configuration of hardware the system becomes ready for operation within 30 seconds. Instant shutdown of the System is now also possible.
- Safety	Application of the low radiation dose operation mode - 100 kV – makes it possible in some cases to operate the system without special permit.
- Real-time self-diagnostics	State of all important assemblies and components is controlled in the on-line mode allowing the system to be kept operational and the operator to be informed about any changes in good time.
- The fault-tolerant configuration of Acquisition/Analysis Workstation	A special configuration of the Operator's Workstation makes its software resistant to viruses and other harmful interference. The system shutdown occurs immediately and safe for the equipment and data.

Material Type	Atomic No.	3 Colors	7 Colors	Example	Possible Threat
Light Organic	1-6	Bronze	Red	Polyethylene, light hydrocarbons	Natural gas, gasoline
Organic	6-8	Bronze	Bronze	Timber, oil	Explosives
Low Density Organic	8-10	Bronze	Olive	Paper, alcohol	Narcotic
Mixed	10-12	Green	Lime	Glass	Jewelry, gems
Light Metals	12-18	Green	Green	Aluminum, silicon	Powder, detonators
Heavy Metals	18-30	Blue	Blue	Iron, steel	Weapons, ammunition, knives
Dense Metals	30+	Blue	Purple	Gold, silver	Contraband
Impenetrable	—	Black	Black	Lead	Masked dangerous object

4. SOFTWARE FEATURES

The purpose of the system software is to control the operation of the **BV 5030CA** as well as to provide the opportunity to acquire, visualize and process digital X-ray images. To facilitate the work of the operator, a control panel is provided. The panel makes it possible to access all the software features.

HARDWARE CONTROL FUNCTIONS:

- Controlling the conveyor belt drive, the X-ray generator
- Acquiring data from the X-ray detector
- Automatically calibrating and normalizing the X-ray detector
- Turning off the X-ray generator in case of emergency
- Adaptive cooling system

DIGITAL X-RAY IMAGE ACQUISITION, VISUALIZATION, AND PROCESSING FUNCTIONS:

- Acquiring images without additional algorithmic processing
- Highlighting optically dense objects
- Adjusting contrast of strongly absorbing objects
- Inverting images
- Gamma-correction of images
- Optimizing the overall contrast: combination of edge enhancement and local contrast enhancement algorithms
- Coloring according to calculated values of atomic numbers of substances which compose objects under inspection
- Coloring substances with atomic numbers from a selected range
- Pseudocoloring objects with a possibility of selection of various palettes
- Displaying organic objects with atomic numbers equal to 7, 8, and 9
- Displaying substances according to a selected range of signal strength
- Zooming images up to 96x
- Automatically saving X-ray images in archive

ADDITIONAL FUNCTIONS:

- Saving X-ray images in original or JPEG format
- Browsing the image archive
- Copying images on external storage media (flash-drives)
- Preparing service reports
- Controlling quality of operator's performance with the TIP program module
- Counting inspected baggage

5. OPTIONS

- Entry / exit folding rollers
- Environmental protection kits (tropical or arctic)
- Marine climate proofing kit
- Trolley
- Operator's desk
- Remote operation functionality
- Two monitor operation functionality
- Keyboard operation option
- Set of test objects
- Uninterruptible Power Supply

CONFIDENTIAL

6. CERTIFICATES AND STANDARDS

6.1 ISO 9001:2008 Certified

6.2 CE conformity.

The product conform with essential safety requirements of the following EC/EU New Approach Directives as amended:

2006/42/EC Machinery Directive

2014/35/EU Low Voltage Directive

2014/30/EU Electromagnetic compatibility

6.3 Compliant with standards for cabinet X-ray systems - US FDA, Center for Devices and Radiation Health, 21-CFR 1020.40

Accession number of 1510571-000

7. RADIATION SAFETY

The design of the system provides radiation leakage attenuation limited to 1.0 $\mu\text{Sv/hr}$ (0.1 mR/hr) or lower at any accessible point at the distance of 0.1 m from the external surface of the system. The dose rate intensity at the workstations of the personnel does not exceed 1.0 $\mu\text{Sv/hr}$.

8. GENERAL LAYOUT (SPECIFY TYPES OF LAYOUT)

BV 5030CA without trolley, rollers and retractable touchscreen

BV 5030CA with trolley

BV 5030CA with trolley and retractable touchscreen

BV 5030CA with folding rollers, retractable touchscreen and trolley

9. TRAINING COURSE for Engineers

Factory training course for baggage inspection systems is intended for maintenance, service, troubleshooting and repair; provided for Buyer's engineers at the Factory in Minsk, Belarus. Max number of engineers per 1 training course is not more than 5 persons. Duration – 3 working days.

Training course program:

- General information about BV X-ray screening systems (Theoretical lesson)
- BV composition and design: (mechanical parts, X-ray source, major electronic components, operator's workstation) (Practical lesson)
- BV product installation, adjustment and pre-operation procedures (Practical lesson)
- BV software system and operation (Practical lesson)
- BV operator duties (Practical lesson)
- BV service engineer duties (Practical lesson)
- BV system testing and calibration (Practical lesson)
- BV maintenance procedures (Practical lesson)
- BV repair and troubleshooting

HI-PE Plus

ENHANCED WALK-THROUGH MULTI-ZONE METAL DETECTOR

- Accurate Detection of all Metallic Threat Items
- High Discrimination and Throughput
- Exceptional Immunity to external interferences
- Compliant with and Certified to the Strictest Security Standards for weapons detection
- Unmatched Reliability
- Rapid Installation
- Panel Design

* Data available upon request

Certified by
Governmental
Laboratories*

GSA Contract Holder

www.ceia-usa.com

Threat Detection through Electromagnetics

The **HI-PE Plus Multi-Zone Metal Detector** provides accurate detection of all metals, high level of discrimination of non-threat items, full compliance with the latest Security Standards and exceptional immunity to external interferences.

FEATURES

VERY HIGH
SENSITIVITY

- Capability to detect the full range of metal weapon threats even within body cavities

The **HI-PE Plus** detects firearms and knives of this type, even when they are hidden within body cavities, and accurately indicate the position of the threat, its intensity and its prevalent composition. Inspection personnel thereby acquire thorough knowledge of the metal item and can act, according to procedures, with maximum effectiveness and security.

HIGH
RESOLUTION
AND PRECISION

- 60 localization zones: ▶ 20 vertical ▶ 3 lateral
- Met-Identity technology for Identification of Threat Composition

MET-IDENTITY TECHNOLOGY

With Met-Identity technology, the HI-PE Plus allows you to know where, how much and what type of metal is being brought into the secure area.

Ferr **noFe**
• FERROUS METAL • NON FERROUS METAL

60 LOCALIZATION ZONES WITH LEFT, CENTER AND RIGHT INDICATION

The **HI-PE Plus** has a **very low nuisance alarm rate** even at the strictest Security Levels requested today, and therefore allows high transit flow rates and the minimum need for intervention by inspection personnel.

BENEFITS

VERY HIGH
THROUGHPUT

- Cutting-edge discrimination technology allows personal effects to be ignored, creating rapid transit flow

The transit volume magnetic scanning system, invented by CEIA and applied since production of the first zonal Metal Detectors in 1986, allows state-of-the-art detection and discrimination results.

The **HI-PE Plus** has a very low nuisance alarm rate even at the strictest Security Levels requested today, and therefore allows high transit flow rates and the minimum need for intervention by security personnel.

UNIQUE ALARM SIGNALING

PROGRAMMABLE
DISPLAY BARS

- 4 Multi-Zone Display Bars, each programmable as entry Stop/Go and/or local alarm indication
- High visibility of the control unit and the zone indication independent from the operator position and the installation environment

The HI-PE Plus provides the user with fully-programmable signaling. Both entry-points can indicate with a high level of accuracy, even simultaneously, the vertical and lateral areas of transit of the threats detected, and can also be configured as 'traffic lights' to control transits through the detector.

INTENSITY
LEVELS

- Flexible Acoustic Alarm Signaling System:
 - 10 Continuous and Pulsed Tones
 - 34 Special Sounds
- 10 Alarm Volume Levels

A complete acoustic alarm system allows personalization of the alarm tones and volume, with a wide choice of continuous, pulsed and special tones. The wide volume control dynamic allows operation even in very noisy environments.

ALARM

NO ALARM

HIGH PRECISION
TRANSIT COUNTER

The Metal Detector provides an automatic count of the people passing through the access point in both directions and the related nuisance alarm percentage:

- In-Bound Transits
- Out-Bound Transits
- Alarm Rate
- Automatic Compensation for repeated transits of the same person

Setting the Security Levels could not be easier and more versatile than in the HI-PE Plus.

Users can choose directly from the known International Standards or request implementation of a Standard personalized to their own requirements. Users can also create their own program and save it in internal memory for later use.

MOST POWERFUL AND VERSATILE SECURITY FEATURES

- Up to 50 built-in Security Programs
 - Up to 30 International Standards
 - Up to 20 Customizable Levels

Setting the Security Levels could not be easier and more versatile than in the HI-PE Plus. Users can choose directly from the known International Standards or request implementation of a Standard personalized to their own requirements. Users can also create their own work program and save it in internal memory provided for the purpose.

- Chip Card for automatic selection of Security Levels and parameter changes.
- Any security standard can be enhanced with selectable random alarm probability

RAPID INSTALLATION

- One touch guided automatic installation [OTS]
Innovative function assisting the installation through an automatic step-by-step procedure.
- Continuous self diagnostics assures monitored performance reliability

CHIP CARD SYSTEM

The system allows the Head of Security to set the Security Level quickly, reliably and without having to program the device in any way.

IMMUNITY

Exceptional immunity to environmental interferences makes the Metal Detector easy to use even when electrical noise is encountered.

HI-PE Plus/PZ MODEL CONFIGURATION

Compliant with the strictest detection and discrimination standards for EMDs [Enhanced Metal Detectors]	•
4 display bars each programmable as zone indicators and/or pacing lights	•
60 localization zones (20 vertical x 3 lateral) with left, center and right indication	•
High precision transit counter	•
Chip Card Reader	•
Bluetooth, infrared and RS-232 communication	•
Programmable Random Alarm capability	•
3-Level Password and hardware key access protection	•
Met-Identity technology (separate Ferrous and Non-Ferrous alarm signaling)	•
One Touch Automatic Self Installation [OTS]	•
Automatic Operational Functional Verification [OFV]	•
Automatic Vibration Compensation [AVS, EVA]	•
Automatic Channel Search [CS]	•
Automatic Floor Gain Adjustment [FGA]	•
Automatic Technical Functional Verification [TFV]	•
Automatic Environmental Noise Compensation [ENA]	•
Powered by safe low voltage DC	•
Anti-tamper on/off switch	•
Integrated web-server & logger (includes Ethernet and USB interface)	○
Weather resistant protection	○
Anti-vandalism, anti-tampering protection [with IP65 control unit]	○
IP65 protection [IP65 control unit, IP68 power supply adapter, anti-vandalism protections, weatherproof gate structure, compliant with IEC 60950-22]	○
Embedded battery charger and under-voltage protection	○
Long life crossbar battery back-up	○
32.3" useful passage width	○
STANDARD • OPTION ○	

DIMENSIONS

FRONT

TOP

LATERAL

OPTIONS / UPGRADE KITS

WEATHER RESISTANT PROTECTION

Kit for upgrading the standard version to outdoor applications according to IEC 60950-22; this kit includes shelters, crossbars, protection covers for power supply and IP68 mains power supply adapter.

- 28.3" passage width [part # 55630]
- 32.3" passage width [part # 55633]

ANTI-VANDALISM, ANTI-TAMPERING PROTECTION

This option includes stainless steel control unit, IP68 mains power supply adapter, protection covers for power supply and antenna connection compartments, equipped with screws requiring tools for removal.

Part # 55629

IP65 PROTECTION

This option comprises the Weather Resistant and the Anti-vandalism kits.

- 28.3" passage width [part # 55631]
- 32.3" passage width [part # 55632]

32.3" USEFUL PASSAGE WIDTH

Part # 55635

LONG LIFE CROSSBAR BATTERY BACK-UP

Crossbar battery back-up in stainless steel case.

- Up to 13 h of autonomous working time
- 5 hours typical charging time.

Part # 76866

EMBEDDED BATTERY CHARGER AND UNDER-VOLTAGE PROTECTION

Advanced power supply module with anti-tamper on/off switch, RS-232 interface, internal battery back-up and 12 hours mains disconnection diagnostic alarm.

Part # APSM2Plus/P

INTEGRATED WEB-SERVER & LOGGER, BATTERY BACK-UP AND CHARGER

Anti-tamper on/off switch, RS-232, USB, 10/100 baseT Ethernet interface, data logger, real-time clock, integrated web-server, transit statistical data analysis, 20' internal battery back-up with 12 hours mains disconnection diagnostic alarm.

Part # APSIM2Plus/P

ACCESSORIES

CHIP CARDS

Chip cards for simple and secure selection of Security Levels and parameter setting.

List of chip-cards available on request.

MD-SCOPE

Powerful, PC based installation and service Software. Includes oscilloscope and terminal functionality (part # MD-SCOPE2).

The connection is performed via bluetooth [standard] or via cable connection (part # 3805).

MBSU-2

Independent, compact size, long life power supply in weatherproof stainless steel case, with embedded fast charger:

- 12 hours typical (up to 17 h) continuous operation with HI-PE Plus
- 7 hours typical charging time.

Part # MBSU-2

RCU2

Control unit for full remote access, including alarm signalling and programming of CEIA Metal Detectors (part # RCU2).

The connection is performed via bluetooth [standard] or via cable connection (part # 3618).

VISUAL ALARM
WITH ZONE
INDICATION

IRC-1

Infrared Remote Controller for wireless remote programming of the control unit.

Part # 47180

WHEEL KIT - LONG RANGE

For heavy duty, longer range movement of the walk-through metal detector.

Part # 70796

WHEEL KIT - SHORT RANGE

For short range movement of the walk-through metal detectors.

Part # 75459U

UPPER CONNECTION MODULE

This extension cable allows the connection of power supply and serial communication to personal computers or CEIA accessories, such as RCU-2.

Part # 46650

RRU

Remote relay unit (RRU) to repeat the detection alarms of the gate through a relay contact. The RRU module can be used for integration of the Metal Detector in interlocked door systems.

Part # RRU-0003

WATERPROOF MAINS POWER SUPPLY

IP68 power supply for outdoor applications. It is provided with flanges for simple installation.

Part # 64610

METAL DETECTOR DIVESTING TABLE

In combination with CEIA Walk-Through Metal Detectors, it is a temporary location of personal metal effects for people to be screened.

- Standard length: 24" (Part # 18074)
- Extended length: 47" (Part # 39491)
- Outdoor version: 51" (Part # 67021U)

TEST SAMPLES KIT

Reference Samples for accurate verification of the Security Level.

Includes guided procedures and certificate of calibration:

Part # 23870, 64435

SPECIFICATIONS

KEY FEATURES	Wide range of threat detection from guns to ½ cutter blade	
	Excellent discrimination of personal metal effects	
	60 localization zones (20 vertical x 3 lateral) with left, center and right indication	
	Met-Identity technology identifies and signals the metal type in real time	
	High precision bidirectional counter with automatic rescreening compensation	
	Random alarm capability programmable from 0% to 100%	
	Exceptional Immunity to external interferences	
Standard Interfaces: Bluetooth, Infrared . Other available interfaces: Ethernet, USB		
QUALITY	Continuous self diagnostic system	
	Proven reliability	
	No periodic re-calibration and preventive maintenance required	
	No scheduled maintenance	
Fully digital design		
GATE STRUCTURE	State-of-the-art, robust and washable panels	
	Protected against aging, weather and wear	
CENTRAL CONTROL UNIT	Ergonomic and robust design	
	High visibility alphanumeric display and programming keyboard	
	Made of advanced plastics or stainless steel and anti-vandalism construction (option)	
	Access to the front panel protected by hardware key and 3 levels of passwords	
ALARM SIGNALING	VISUAL SIGNALS	Multi-zone display bar for “height on person” localization
		4 light bars with selectable entry/exit and pacing indication
		Green and red metering signals proportional to the mass of the detected target
	AUDIO SIGNALS	10 selectable continuous and pulsed tone plus 34 special tones
		10 selectable sound intensities ranging from 0 to 90 dbA at 1m
TYPE OF SIGNALING	VISUAL	Fixed or proportional to the mass in transit - visible from 6m under lighting of 4000lux
	VISUAL ZONE INDICATION	60 distinct zones (20 vertical x 3 lateral) entry and exit side
PROGRAMMING	Up to 50 built-in Security Programs	
	Remote via Infrared Remote Control Unit, Bluetooth™ or Ethernet 10/100 base T (option) interface	
	SECURITY LEVEL	International Standard (IS) command
		Chip card
	Local by Control Unit alphanumeric display and keyboard	
Programming and chip card access protected by user and super-user passwords		
OPERATIONAL FEATURES	High discrimination and transit flow rates five or more times greater than other metal detection systems	
	Quick reset time as short as 0.2 seconds for high throughput rate	
	Very high detection speed (up to 50 ft/sec.)	
	Built-in operational functional verification	
One-touch key reading of inbound, outbound and Security Level Data		
INSTALLATION DATA	Automatic synchronisation between two or more metal detectors with distance of down to 2" without the use of external cables	
	Automatic Installation function (OTS)	

APPLICATIONS

- ✓ GOVERNMENT BUILDINGS
- ✓ INDUSTRIES [SECURITY]
- ✓ NUCLEAR FACILITIES [SECURITY]
- ✓ PRISONS [VISITORS]
- ✓ PUBLIC EVENTS
- ✓ AMUSEMENT PARKS
- ✓ COURTS
- ✓ CRUISE SHIPS
- ✓ DATA PROCESSING CENTERS [EDP]
- ✓ HOTELS
- ✓ SCHOOLS SECURITY

ENVIRONMENTAL DATA

- POWER SUPPLY : 100...277V- ±10%, 47...63Hz, 40 VA typical consumption
- OPERATING TEMPERATURE: -4°F to 149°F (-34°F to 158°F upon request)
- STORAGE TEMPERATURE: -34°F to 158°F
- RELATIVE HUMIDITY: 0 to 95% (without condensation)

CERTIFICATION AND COMPLIANCE

- Compliant with and certified to the applicable Standards for Enhanced Metal Detectors (EMD)
- Compliant with the applicable electromagnetic Standards on Human Exposure and Pacemaker Safety
- Compliant with all Airport Security Standards worldwide
- Compliant with applicable International Standards for electrical safety and EMC
- Harmless to magnetic media (CD, tapes, etc.)

COMPREHENSIVE SUPPORT

- CEIA USA provides full operational and technical training support by certified personnel either at CEIA USA facility or at customer location

CEIA USA Ltd - 9155 Dutton Drive, Twinsburg OH - 44087

SERVICE CONTRACT TERMS AND CONDITIONS

This Contract sets forth the entire agreement between ADANI Systems, Inc., ("ADANI", "us", "our" or "we") and the purchaser ("you" or "your") of the product specified in this Contract ("Product"). No other representation, promise or condition shall modify this Contract. We are contractually obligated to provide you service under this Contract in accordance with, and as allowed by, state law.

What is Covered: We will furnish labor and parts necessary to repair operational or mechanical breakdowns of the Product, provided such service is necessitated by Product failure during normal usage. The Product includes only equipment as originally specified and charged for in this Contract. Coverage also applies to the parts and accessories that are necessary for the Product's functionality, but does not apply to the accessories that are used in conjunction with or to enhance the performance of the Product.

Important Notes: If you request a service call for a non-covered repair, you will be responsible for time and materials associated with the repair. In the event you are unable to meet the servicer, you must call to cancel the appointment in advance of the agreed upon time of service or you will be responsible for paying for the second trip for the rescheduled repair. **This Contract must be paid in full prior to services being rendered.**

Location and Time for Service: This Contract covers on-site service on all equipment. After we authorize your request, services will be performed during normal working hours by an authorized technician.

Parts: Parts used to repair the Product will be genuine replacement parts whenever possible, designed to work with the Product. However, at our option, we may use refurbished parts that perform to the factory specifications of the Product.

Deductible: No deductible applies to this Contract.

Renewal: This Contract is renewable at our sole discretion.

Preventive Maintenance: This Contract covers Preventive Maintenance as required by law or per agreed upon terms .

Limitations of Coverage - This Contract Does Not Cover:

- a) Service required as a result of any alteration of the Product, or repairs made by anyone other than an authorized service technician.
- b) Damage or other Product failure due to causes beyond our control including, but not limited to, operator negligence, the failure to maintain the Product according to the owner's guide, misuse, abuse, vandalism, theft, fire, flood, wind, freezing, power failure, voltage fluctuation, power surges, improper electrical connections or service, acts of war, or acts of God.
- c) Service necessary because of improper storage, improper relocation, or ventilation, including failure to place the Product in an area that complies with the manufacturer's published space or environmental requirements.
- d) Any installation that prevents normal service, including inaccessible Products or parts.
- e) Cosmetic damage such as, but not limited to, scratches, dents, rust or stains. Nonfunctional parts such as, but not limited to, plastics, internal and external finishes including paint, chrome, and metal covers. Expendable or lost items.
- f) Operational or mechanical failure not reported prior to the expiration of this Contract.
- g) Pre-existing conditions (incurred prior to the effective date of coverage) known to you.
- h) Products where the attached serial plate is removed, defaced or made illegible.
- i) Damage resulting from unauthorized repair, or caused during delivery or removal, by improper relocation of the unit, or by misuse or abuse whether willful or not.
- j) Consequential or incidental damages due to Product failure or due to delays or failures in furnishing parts or services for any reason beyond our control.

Modification / Transfer: No modification or change of this Contract can be made, including transfer of ownership of the Product, except with our written consent.

This Contract is provided by, and the obligations of the provider under this Contract are backed by the full faith and credit of, **ADANI Systems, Inc.**

COMPREHENSIVE SERVICE AGREEMENT

Items Covered Under This Agreement:

- Necessary Repair Parts
- Labor (Mon. – Fri. 8:00 AM – 5:00 PM /As described in Schedule A)
- Travel Time to and from Equipment Location (Mon. – Fri. 8:00 AM – 5:00 PM /As described in Schedule A)
- Shipping and Freight of Replacement Parts (Ground Freight Only)
- Airfare, Lodging, Meals, Etc.
- Preventative Maintenance (Two Times per Year)
- Annual Radiation Safety Surveys

ADANI Systems Inc. (“ADANI”), a corporation organized and existing under the laws of the Delaware, hereby agrees to maintain all purchased equipment in accordance with the terms and conditions of this Agreement:

1. Equipment.

Equipment is defined as electronic equipment and systems as identified on Schedule C, “Equipment Locations”. Customer agrees not to modify equipment without prior consent from ADANI. Equipment, attachments, or features added by the customer are not to be maintained under this agreement. Relocation or removal of equipment must be requested in writing from the customer and must be approved by ADANI.

2. Installation Site.

Installation Site is defined as the equipment location. Customer shall provide and maintain a clean operating environment at installation site meeting the operating specifications of the installed equipment.

3. Equipment Inspection.

ADANI reserves the right to pre-inspect equipment for proper operating condition prior to maintenance agreement coverage acceptance. Equipment determined not meeting the manufacturer specifications may be refused maintenance service coverage. Any necessary repairs, modifications, and adjustments to make equipment acceptable for coverage will be at an additional charge prior to an approved agreement.

4. Maintenance Service.

Maintenance Service is defined as onsite remedial maintenance performed by ADANI to repair or replace equipment, on a time and materials basis, where the customer has followed the procedures established by ADANI to identify and report suspected problems. Maintenance Service may include the furnishing of necessary replacement parts, which may be provided on an exchange basis at ADANI’s option. ADANI reserves the right to modify the design and specifications of the equipment covered under this agreement, provided the modification does not adversely affect the operational performance of the equipment. ADANI reserves the right to replace any item of equipment deemed by ADANI as not functionally capable of performing its intended use with a functionally serviceable item of equivalent performance rating and value. Maintenance Service requests resulting from service or repair by other parties shall be billable at the service rates identified on Schedule A, “Time and Material Rates”. Preventive Maintenance shall be performed bi- annually or two times per year with radiation surveys performed on an annual basis.

5. Equipment Relocation.

Customer shall provide ADANI with a thirty-day (30-day) written notice of customer’s intent to relocate equipment. Any re-installation or repair service requested for relocated equipment shall be billable at the service rates identified on Schedule A, “Time and Material Rates”. In no event shall there be any interruption in maintenance charges or payment. ADANI shall reserve the right to refuse maintenance service on any relocated equipment.

GOLD SERVICE AGREEMENT (cont.)

6. Refusal of Maintenance Service.

Customer is responsible for proper use and operation of equipment. ADANI reserves the right to refuse maintenance service on equipment due to:

- a) Unauthorized equipment alterations or modifications.
- b) Neglect, misuse, or failure of electrical power.
- c) Damage from water, liquid spillage, electrical storms, interconnecting devices (unless approved in writing by ADANI) or other physical damage.
- d) Customer arrears on payments due ADANI or otherwise in breach of this agreement.

7. Principal Period of Maintenance ("PPM").

PPM is defined as the time period in which maintenance service shall be performed. ADANI maintenance service hours are Monday – Friday 8:00 AM – 5:00 PM, customer's local time, excluding ADANI designated holidays, as identified on Schedule B. Service requested during ADANI designated holidays are not covered under this agreement and shall be at an additional charge. Such charges shall be in accordance with the rates specified on Schedule A, "Time and Material Rates".

8. Service Requests.

The customer shall notify ADANI customer service at **1-844-989-6789** and select option one for customer service or direct at 1-936-703-5756 or by e-mail at service@adanisystems.us when requesting maintenance service. ADANI agrees to respond to service requests, during the PPM, on a best effort basis normally not to exceed twenty- four (24) hours from receipt of the service request.

9. Annual Maintenance Charges.

Annual Maintenance Charges, if applicable, are listed on Schedule E and are in effect on the date of this agreement. Annual Maintenance Charges are subject to change at the end of the initial term. At the end of the initial term, the Annual Maintenance Charges may be increased by an amount not to exceed ten percent (10%) of the previous charge rate.

10. Payment.

Payment of these annual maintenance charges, plus any additional billable service charges as defined herein, shall be made in full and in advance for each quarter of the maintenance service contract agreement unless otherwise specified.

11. Initial Term.

This agreement and any amendment hereto shall commence as indicated on Schedule E for the initial term and effective start date.

12. Excusable Delay.

ADANI's maintenance organization shall not be responsible for non-performance of its obligations hereunder to the extent and for such periods of time as such non-performance, defective performance or late performance is due to causes beyond its control and occurring without its fault or negligence. Excusable delays include, but are not limited to, acts of God, war (including civil war) acts of any government in either its sovereign or contractual capacity, fire, explosions, the elements, epidemics, quarantine restrictions, strikes, lockout, embargoes, unusually severe weather, delays in transportation, airline schedule, fuel shortages, or delays of suppliers or subcontractors for like causes.

13. ADANI's Remedies.

- a) It shall be a default hereunder if the customer:
 - 1) Fails to pay any charge when due.
 - 2) Fails to perform any customer obligations under this agreement and such failure shall continue for (10) days after notice from ADANI.
 - 3) Falls subject to any proceeding under the Bankruptcy Act or other insolvency.
- b) On customer's default, ADANI as its sole option shall have the right to exercise concurrently or separately any or all of the following remedies:
 - 1) Declare due and payable all charges due.
 - 2) Terminate this agreement.
 - 3) Pursue any other remedy at law or in equity.

GOLD SERVICE AGREEMENT (cont.)

14. Disclaimer of Warranty.

THIS AGREEMENT IS FOR PROVISION OF PARTS AND SERVICES NECESSARY TO MAINTAIN THE EQUIPMENT DURING THE TERM OF THIS AGREEMENT. ADANI MAKES NO OTHER WARRANTY OF ANY KIND, EXPRESSED OR IMPLIED WITH RESPECT TO ANY PARTS OR SERVICE PROVIDED IN CONNECTION WITH THIS AGREEMENT, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. ADANI SHALL NOT BE LIABLE FOR ANY OTHER DAMAGES, INCLUDING, BUT NOT LIMITED TO INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF OR IN CONNECTION WITH FURNISHING OF MAINTENANCE SERVICE TO BE PERFORMED BY ADANI PURSUANT TO THE TERMS HEREOF, OR PARTS TO BE SUPPLIED HEREUNDER, OR THE PERFORMANCE, USE OF, OR INABILITY TO USE THE EQUIPMENT.

15. Miscellaneous.

- a) This agreement and the attached schedules constitute the entire understanding between the customer and ADANI with respect to the maintenance service to be provided as described herein. The terms and conditions contained within this agreement shall override all proposals, oral or written, and all printed terms and conditions contained on any purchase order or acknowledgment form issued by the customer. This agreement may not be amended except in writing between the parties.
- b) This agreement shall be governed and construed under the laws of the State of California.
- c) Should any provision of the agreement be found to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

Items Not Covered Under This Agreement:

- Labor and Travel on ADANI Holidays
- Customer Requested Express or Air Freight of Replacement Parts (Billed at Cost)
- User Error, Neglect, Physical Damage or Abuse
- Relocation of Equipment
- Refurbishment of Equipment

**SCHEDULE A
TIME AND MATERIAL RATES**

Maintenance Services performed outside of ADANI's Principal Period of Maintenance (PPM defined as Monday – Friday / 8:00 AM – 5:00 PM) customer's local time, excluding ADANI designated holidays, as identified on Schedule B shall be billable as follows. Local Travel Mileage is defined as miles driven to or from the service location within a 100-mile radius.

<u>RATES AND SERVICES</u>	<u>STANDARD RATES</u>	<u>HOLIDAY RATES</u>	
REPAIR:	\$200.00	\$300.00	per / hour
TRAVEL:	\$150.00	\$225.00	per / hour
LOCAL TRAVEL MILEAGE:	0.54	0.54	per / mile

RADIATION SURVEY: No Charge if conducted with Bi-Annual PM
Dedicated Trip - \$1500.00

*Above listed rates only apply to billable calls only.

*Time and Material rates are subject to change without notice.

**SCHEDULE B
ADANI OBSERVED HOLIDAYS**

BID FORM
Non-Public Works**All Public Work Projects are required to use the Louisiana Uniform Public Work Bid Form**

All prices must be held firm unless an escalation provision is requested in this bid. Jefferson Parish will allow one escalation during the term of the contract, which may not exceed the U.S. Bureau of Labor Statistics National Index for all Urban Consumers, unadjusted 12-month figure. The most recently published figure issued at the time an adjustment is requested will be used. A request must be made in writing by the vendor, and the escalation will only be applied to purchases made after the request is made.

Are you requesting an escalation provision?

YES _____ NO X

MAXIMUM ESCALATION PERCENTAGE REQUESTED _____ %

INITIAL BID PRICES WILL REMAIN FIRM THROUGH THE DATE OF _____.

For the purposes of comparison of bids when an escalation provision is requested, Jefferson Parish will apply the maximum escalation percentage quoted by the bidder to the period to which it is applied in the bid. The initial price and the escalation will be used to calculate the total bid price. It will be assumed, for comparison of prices only, that an equal amount of material or labor is purchased each month throughout the entire contract.

DELIVERY: FOB JEFFERSON PARISH
