Job Name: Richard Honda

Exterior Aluminum Curtain Wall 1600 System (1) Framing Furnished and Installed:

- System: Kawneer Series Curtain Wall 1600 System (1) (2-1/2" X 6") or Architect Approved Equal
- Construction: Shear Block, Pressure Plate, Front Set, Exterior Glazed
- Infill: 1" Insulated Glass Units
- Finish: Standard Clear Anodized
- Warranty: Standard Manufacture Material and Finish Warranty Included In Bid Pricing.

Exterior Aluminum Storefront Framing Furnished and Installed:

- System: Kawneer Series Trifab "451" Thermal (2" X 4-1/2") or Architect Approved Equal
- Construction: Screw Spline Fabrication
- Center Set, Exterior Glazed
- Steel Reinforcement: Per Manufactures Suggestions To Meet Local Building Codes
- 1" Insulated Glass Units Per Glass Legends and Plan Notations
- Finish: Manufactures Standard Paint, Color: Black
- Warranty: Standard Manufactures Material and Finish Warranty Included In Bid Pricing.

Note: Exterior Storefront System is included in bid pricing as Center Set. Reason Aluminum Manufactures have informed Louisiana Glass, Inc. Exterior Storefront Framing will require Steel Reinforcement to meet Building Codes. Front Set Framing is not compatible with Steel Reinforcement, therefore Exterior Storefront Framing is required to be Center Set to allow for Steel Reinforcement.

Interior Aluminum Storefront Framing Furnished and Installed:

- System: Kawneer Series Trifab “450” Thermal (1-3/4” X 4-1/2”) or Architect Approved Equal
- Construction: Screw Spline Fabrication
- Center Set, Exterior Side Glazed
- 1/4” Glass Lites
- Finish: Manufactures Standard Paint, Color: Black
- Warranty: Standard Manufactures Material and Finish Warranty Included In Bid Pricing.

Note: All Fire Rated Aluminum Framing & Glazing is Strictly Excluded.

Except for Qty. 5 Total Units @ Window #28 & Door Type B2

(Acceptance of Change order add to bid price will be required to furnish Fire Rated Aluminum Framing & Glazing)
