Please do not hesitate to call us and we will gladly assist you in the support necessary in handling your service / warranty issues. As you may be aware, warranty and service work are performed by the manufacturer’s authorized service agencies and not by Hotel and Restaurant Supply. In most cases, the service agency will have to speak with you, the operator, directly.

**Direct Shipments**

Regarding all direct shipments: The receiving party is responsible for inspecting all deliveries for damage at the time of delivery. If any freight damage is discovered, you must inform the delivery driver and note the damage on the receiving paperwork, then contact your sales representative. (If the damage is extreme you may need to refuse the shipment completely) All damage must be noted at the time of delivery.
