Ursa Super Plus monograde heavy duty motor oils deliver value through:

- Managed oil costs -- Minimal piston crownland deposits and strong oxidation stability promote low oil consumption.
- Long engine life -- resulting from additives that protect highly loaded parts from scuffing and wear optimizing engine overhaul intervals.
- Outstanding engine cleanliness -- High detergency provides excellent deposit and sludge control in the piston ring belt area.
- Access to Chevron's lubrication and industry knowledge -- Helps maximize your bottom line business results.
