## JEFFERSON PARISH

PURCHASING DEPARTMENT  
P.O. BOX 9  
GRETN, LA. 70054-0009  
504-364-2678

VENDOR:

BUYER: SFOLSE

As per LSA-RS 47:301 et seq., all governmental bodies are excluded from payment of sales taxes to any Louisiana taxing body. Quotations shall be based on F.O.B. Agency warehouse or jobsite, anywhere within the Parish as designated by the Purchasing Department.

JEFFERSON PARISH reserves the right to cancel all or any part of an order if not shipped promptly. No charges will be allowed for parking or cartage unless specified in quotation. The order must not be filled at a higher price than quoted. JEFFERSON PARISH reserves the right to cancel at any time and for any reason by issuing a THIRTY (30) day written notice to the contractor.

JEFFERSON PARISH is expecting all products to be new and all work is to be done in a workman-like manner, according to standard practices. Any deviations or alterations from the specifications must be indicated and backup documentation supplied with your quotation.

To search, order or learn more about MSC, log on to www.mscdirect.com.

#### MSC TERMS AND CONDITIONS

1. Unless otherwise stated in comments or in your account profile, prices quoted are FOB SHIPPING POINT.

Freight charges will be prepaid and added to your invoice.

2. Unless otherwise stated in comments, standard payment terms are NET 30 DAYS from the date of the invoice.

3. All items will be manufactured to our vendors standard dimensions and tolerances unless otherwise specified.

4. Our vendors reserve the right to overship or undership by 10% or one piece. An additional charge may be imposed for quotes requesting exact quantities (no over or under) shipments.

5. Unless otherwise stated, this quote is valid for 30 days from the date of the quote.

6. Unless otherwise stated, Special Order Items are deemed non-returnable, unless there is a manufacturing fault.

7. This purchase is governed exclusively by MSC's Terms and Conditions that can be found in MSC's current catalog and at www.mscdirect.com. You can view the current terms at www.mscdirect.com/customer-service/terms. MSC's acceptance of your order is predicated on your assent to MSC's Terms and Conditions, unless you have entered into a separate product purchase agreement with MSC that continues to be in effect on the date of your order. Such agreement, depending upon its terms, may supersede MSC's Terms and Conditions.

**Hassle Free Guarantee**

We'll exchange or refund any product that doesn't meet your expectations.

**Features and Benefits**

- Taper chamfers also known as starter taps have a longer chamfer and require a less aggressive cutting action. They have 7 to 10 threads.
- High Speed Steel (HSS) provides good wear-resistance and can be used in general purpose applications for both ferrous and nonferrous materials.
- Bright provides a smooth, polished finish on the tool. It increases chip flow in softer materials such as aluminum, wood and plastic.

### Hassle Free Guarantee

We'll exchange or refund any product that doesn't meet your expectations.

### Features and Benefits

- High speed steel (HSS) provides good wear resistance and can be used in general purpose applications on both ferrous and nonferrous materials.
- Oxide coating prevents chip building, galling and welding on the workplace. It is commonly used on low carbon metals, stainless steel and ferrous metals.
- Straight shanks are used for general purpose applications. The shank is smaller than the drill bit diameter. They are used with portable drills and drill presses on ferrous and non-ferrous materials.

[See more Reciprocating Saw Blades ►](#)**Hassle Free Guarantee**

We'll exchange or refund any product that doesn't meet your expectations.

**Features and Benefits**

- Bi-metal blades feature a toothed edge made from high speed steel (HSS) attached to a flexible steel backing through an electron-beam welding process. This configuration results in a blade that makes precise cuts while resisting breakage. They are used on ferrous and nonferrous metals.
- Straight-backed blades are used for cutting straight edges.
- The cutting surface of a toothed edge is composed of a row of pointed teeth. Common tooth variations include the number of teeth per inch and pitch pattern. They are used on ferrous and nonferrous materials.

**Subject:** Question for Bid No. 50-00117557

On line 11 should it be 3/16"Tx1/2"Wx5"L vs. 3/16"Tx12"Wx5"L?
