**RE: Statement of Qualifications No. 22-034 Water Pipeline Infrastructure Improvements Project Management Capital Projects**

Dear Nicolle Whitney,

IMS Engineers, Inc., is elated at the opportunity to work with Jefferson Parish again. This request for project management of water pipeline infrastructure improvements is a project made for our firm. We will hit the ground running with our stellar project management team from the pre-design through the construction closeout. IMS is more than qualified to assist with the development of the required list along with budgets, preparation, negotiation, plan and specification reviews, invoices, scheduling design, construction permits, and more.

For more than 26 years, IMS has helped move people and communities forward by delivering proven solutions to challenges our clients face. Through hard work, partnerships and commitment, we have established ourselves as a firm of choice for excellence and quality service.

Our work history includes, but is not limited to consulting engineering, construction management, and operation services for potable water, wastewater, and water resource projects to serve the needs of our public, private-sector, and clients throughout the nation. For the past 10 years, we have worked with Jefferson Parish on projects and look forward to doing so again.

As the enclosed TEC Professional Services Questionnaire illustrates, our multi-disciplined team offers program management and extensive water and distribution experience with an unmatched commitment to getting jobs done on time and within budget. Thank you for the opportunity to submit our statement of qualifications. Should you have any additional questions, please feel free to contact me directly, at 504.561.7399 or [rlhill@imsengineers.com](mailto:rlhill@imsengineers.com).

Sincerely,

A handwritten signature in black ink, appearing to read 'Rod L. Hill'.

Rod L. Hill, P.E.  
President/Chief Operating Officer

## Firm History

Founded in 1996, IMS Engineers, Inc., is a full-service consulting engineering, management and operations firm assisting public and private clients to improve the environment and public infrastructure. Our service sectors include planning, civil and environmental engineering, transportation, structural, water and wastewater and a cadre of other design engineering and construction phase services. Our clients include local, state, and federal government agencies, education institutions as well as industries ranging from locally owned businesses to Fortune 500 companies.

IMS has established itself as the firm of choice for excellence, quality service, and precision. IMS works closely with our clients to eliminate the technical challenges they face. We have experience in planning, water/wastewater engineering, civil and environmental engineering, street and drainage design, transportation, aviation services, structural design and review, project management, and so much more. We have clients in Jefferson Parish, New Orleans, and other major cities in the Southeast and Southwest regions of the United States.

## Key Personnel

**Name:** Rod L. Hill, P.E.  
**Role:** Principal-In-Charge  
**Louisiana P.E. Number:** 29204  
**Years of Experience in discipline:** 26

**Name:** Larry Harper, P.E.  
**Role:** Project Manager  
**Louisiana P.E. Number:** 36872  
**Years of Experience in discipline:** 37

**Name:** Tommy J. Avant, P.E.  
**Role:** Project Engineer-Technical Staff  
**Louisiana P.E. Number:** 34226  
**Years of Experience in discipline:** 30

**Name:** Bernard LeBlanc  
**Role:** Project Manager-Clerical Support  
**Louisiana P.E. Number:** 36105  
**Years of Experience in discipline:** 20

**Name:** George Ford  
**Role:** Project Manager-Support Staff  
**Louisiana P.E. Number:** 25800  
**Years of Experience in discipline:** 20

## TEC Professional Services Questionnaire

### 1. Professional training and experience in relation to the type of work required for the program management services.

Our engineers hold Professional Engineering (P.E.) licenses in Louisiana and several states across the country. Additionally, our engineers have various experience with water systems in Louisiana and have worked on similar project management projects for clients. We specialize in water resource solutions to transport wet weather flow and urban stormwater, and wastewater treatment projects that fulfill the needs of our customers. For more than 15 years, we've had prime contracts with Corps of Engineers for U.S. Corps of Engineers for U.S. government. We employ state-of-the-art technologies to evaluate and select the most cost-effective water solutions.

The TEC Professional Services Questionnaire provides further in-depth details and supportive examples of the experience and training of both our firm and individual staff members in relation to project management and water/wastewater projects.

### 2. Size of firm considering the number of professional and support personnel required to perform the type of program management tasks, including project evaluation, review of project design, reviewing of technical plans, development of technical specifications and construction administration.

IMS Engineers, Inc. is a multi-disciplined engineering, consulting and management firm employing a staff of 55 professionals in civil, structural, transportation, and environmental engineers, surveyors, planners, and construction inspectors.

**3. Capacity for timely completion of the work, considering the factors of type of program management task, current unfinished workload, and person or firm's available professional and support personnel.**

**New Work**

Currently, no new prime work.

**Unfinished Workload**

West Bank Mississippi River Levee Bike Path (from Klein St. to Douglas Ave.)

IMS recognizes the importance of providing quality service on schedule and within budget. Our top priority is to exceed our clients' expectations on each project. As a result of these standards, we have a 98% client retention rate, exceeding industry standards for the past 26 years. Thus, we stand ready to commit all necessary resources to ensure that the project management of your water projects assigned to us are given the time and attention needed to bring them to a successful, timely closure, within budget, and without compromising quality.

**4. Past Performance by person or firm on public contracts including any problems with time delays, cost over-runs, and/or design inadequacies in prior work completed for the Parish shall be evidenced by substantiating documentation provided by the administration a minimum of two (2) weeks prior to the scheduled date of the Technical Evaluation Committee meeting.**

IMS Engineers, Inc. opened its New Orleans office nearly 18 years ago and has since worked with Jefferson Parish on four improvement projects as prime. IMS is in good standing on all of them as illustrated below.

- 1. Project Name:** Lapalco Headstart Construction  
**Project Number:** Resolution 115094  
**Current Status:** Completed in January 2012, on time and within budget.
- 2. Project Name:** West Bank Mississippi River Levee Bike Path (from Klein St. to Douglas Ave.) 81110  
**Project Number:** Resolution 113554  
**Current Status:** Project is ongoing and scheduled to be completed within budget.
- 3. Project Name:** Nine Mile Point Drainage Improvements  
**Project Number:** Resolution 119811  
**Current Status:** The project was completed on time and within budget.

**4. Project Name:** Parish Street Improvements South New Orleans Division 041510  
**Project Number:** Resolution 115094  
**Current Status:** This project was completed on time and within budget.

## **5. Location of the principal office.**

### **Address**

400 Poydras Street  
Suite 1170  
New Orleans, LA 70139

### **Phone**

504.561.7399

## **6. Adversarial legal proceedings between the Parish and the person or firm performing professional services, in which the Parish prevailed or any ongoing adversarial legal procedures between the Parish and the person or firm performing professional services, excluding those instances or cases where the person or firm was added as an indispensable party, or where the person or firm participated in or assisted the public entity in prosecution of its claim.**

IMS Engineers, Inc., has not been involved in any litigation, nor has it been disqualified by any agency, including, but not limited to, Jefferson Parish, Louisiana.

## **7. Prior successful completion of projects of the type and nature of the program manager services, as defined, for which firm has provided verifiable references.**

The following projects are representative of our related work. A brief description of each project is included in section L of the TEC Professional Services Questionnaire.

### **Client**

**City of Jackson**

### **Description**

IMS provided program management services for the City of Jackson, Mississippi's Municipal Sales Tax Funded Infrastructure Improvements Program.

### **Reference**

**Charles Williams, Ph.D., P.E.**  
601.960.2091

---

## **Client**

**New Orleans International Airport Board/Crescent City Aviation Team**

## **Description**

IMS provided master planning and design work with utilities (water and sewer) and worked on the following phases of the project: Concept Development, Schematic Design and Design Development. IMS worked on Design development plans for proposed water and sewer utilities for the approved terminal alternative.

## **Reference**

**David Schilling,**  
615.399.0289 Ext. 463/448

---

## **Client**

**Jefferson County Water and Wastewater Improvements**

## **Description**

IMS provided engineering and technical services for the design of approximately 27 miles of 6-inch, 8-inch, through 12-inch diameter water transmission and distribution mains to be constructed throughout Jefferson County.

## **Reference**

**Charles Evers**  
601.948.5835

---

## **Client**

**City of Democracy (West Africa)**

## **Description**

IMS managed and designed utility works to include water and wastewater to develop an integrated plan to address to city's infrastructure needs, providing water, wastewater, and drainage facilities to several projects.

## **Reference**

**Mohamad El-Hadi**  
+011-966-593937111

---

## **Client**

**Jefferson Parish Government**

## **Description**

IMS Engineers a design project to construct a bike path on the West Bank Mississippi River Levee from Klein Street to Douglas Avenue. The designs, plans, and specifications are in accordance with the Louisiana Department of Transportation and Development and Federal Highway Administration standards and with an incorporation of construction requirements provided by the West Jefferson Levee District and the US Army Corps of Engineers. IMS is also responsible for coordinating the topographic surveys and geotechnical investigations as part of the project.
