200 Derbigny Street
General Government Building, Suite 4400
Gretna, LA 70053

Dear Ms. Camardelle,

Thank you for allowing EBSCO Information Services to present this subscription proposal to Jefferson Parish Library Department. EBSCO is the leading provider of subscription services and databases. We service thousands of libraries in the United States and would welcome the opportunity to continue to manage your subscription account.

EBSCO is offering to handle subscriptions for Jefferson Parish Library Department at a 5.5% discount off publishers' list prices. This discount applies to every subscription you order through EBSCO. EBSCO intends to hold your discount firm throughout the entire contract term; however, we reserve the right to re-visit pricing for your account and initiate discussions with you if the Library's spend changes dramatically (greater than 15%) or EBSCO's agreed upon publisher terms and arrangements are significantly altered during the contract period.

As a company, our top priority is our customer. Your libraries will be assigned a personal representative who will manage your entire account; your libraries will have direct access to your representative by email or toll-free phone at any time. You will also have access to *EBSCONET*, our web interface for managing orders and claims. Complimentary training on *EBSCONET* and other EBSCO products is available to library staff and other users.

Continuing its tradition of working with libraries to help users quickly and conveniently access the content they want and need, EBSCO offers *Flipster* Digital Magazines as an easy way to access magazine content on the go. *Flipster* provides the ability for patrons to access many popular titles via computer, tablet and phone. Because EBSCO is currently your primary subscription agent, your libraries are receiving a 50% discount on *Flipster* digital magazine titles (currently valued at \$52,000+ based on your 2018 *Flipster* order).

We appreciate your review of our subscription proposal.

Best Regards,

THREE (3) YEAR CONTRACT FOR A SERIALS VENDOR (SUBSCRIPTION AGENCY) FOR A PUBLIC LIBRARY, INCLUDING A DIGITAL NEWSSTAND SERVICE

NOTE: A subscription vendor consolidates orders for magazines, journals, newspapers, and other serial publications, allowing a library to order its subscriptions from a single source, receive a single invoice for those subscriptions, and benefit from a single source of customer service, rather than maintaining hundreds of publisher contacts. Vendors provide collective reporting, historical account records, and tracking of subscriptions on order.

SPECIFICATIONS

Your Account Services Manager, Marsha Aucoin, is available to conduct on-site training on *EBSCONET* and any EBSCO subscription products or services as requested by the Library. She can customize training to fit your needs and consult on all aspects of EBSCO's services and how they integrate into your staff workflows.

8. Twenty-six management reports are available at no charge via *EBSCONET*. Of those, 16 are available online and generate in real time; the remaining 10 are on a request/retrieve, 24-hour turnaround basis (generated overnight). Also, *EBSCONET*'s report schedule allows you to set up recurring requests for reports. You can customize online reports to include specific data elements and export them easily in Excel, HTML, comma-delimited, tab-delimited and XML formats.

Additional reports are available upon request through your Customer Service Representative. Simply let her know what data you are interested in and she will request a special report to accommodate your needs.

Please see Appendix A for sample reports.

9. Vendor must submit address changes and service stops, starts and restarts in a timely manner, for new and reopening libraries. Vendor must provide proof that address changes have taken place.

We notify the publisher when we receive your notification of an order change. In some instances, publishers can take a long time to update their records, so we recommend that you notify us of address changes as soon as possible.

Our system sends delivery address notifications to publishers automatically, twice a week. Your Customer Service Representative is available to help, urging publishers for prompt address changes as needed. We will send confirmation of address changes once they are completed.

10. Vendor's website must include claims records that are retrievable by title and by library branch.

Claim records can be viewed in *EBSCONET* at the title level. Active claims can be viewed and sorted by title or library branch in the *EBSCONET Claim Checker*, and a record of all claims placed for the past two years can be accessed via My Claims in *EBSCONET*; "My Claims" can also be filtered and sorted by title or by location.

11. To ensure that service is not interrupted, subscriptions shall be placed so that renewals start in the months following the current expiration dates.

EBSCO can place subscription orders to start at expire. We can work to achieve a common expiration date if desired.

12. Vendor will, according to publisher compliance, arrange for common expiration dates for all titles ordered if requested by the library.

We will back-date starts during the year to the first issue/volume of the year, subject to publisher acceptance, or order partial year subscriptions, as allowed by publishers, in order to accommodate a common expiration date.

13. Vendor must clear all orders direct with publishers, not through other agents, middlemen, etc. There shall be no sub-contracting of orders or claims.

EBSCO will clear all orders directly with publishers and will not use any other agents for orders or claims.

14. Vendor must be able to provide subscriptions to any serial that is available from any other subscription agency.

EBSCO offers subscriptions to 360,000 titles from 95,000 publishers. We have the most extensive title database in the industry and should be able to provide subscriptions to any serial available from other agents.

15. As evidence of the comprehensiveness of their title file, vendor must provide access to their website.

Jefferson Parish Public Libraries currently have access to the title database via *EBSCONET*.

16. Vendor must provide assistance in locating missing issues when regular claiming does not yield copies needed.

EBSCO will work to secure replacements, free of charge, from publishers. If a publisher refuses to supply a replacement free of charge, then the cost to you will be whatever the publisher charges us to obtain the replacement issue.

If replacements are unavailable, we will try to obtain a credit from publishers on your behalf.

17. Vendor must maintain an online complimentary issue replacement service with an inventory of issues from the past year for at least 2,000 popular serial titles that includes inventory data and allows for electronic ordering.

If you are missing an issue of a publication or a publication is damaged beyond use, you can take advantage of the *EBSCO Missing Copy Bank*, a free service for EBSCO customers. The *Missing Copy Bank* is a one-year back file of 48,000 issues from approximately 2,000 serials titles, with more than 150,000 issues distributed to customers annually. You can search for needed issues via *EBSCONET* and order them online or call your Customer Service Representative to order missing issues by phone.

18. Via email, vendor must furnish itemized invoices arranged by library branch which include the following:

- a. Invoice number;
- b. Title of each serial;
- c. Cost of each serial;
- d. ISSN;
- e. Start date;
- f. Frequency of publication;
- g. Subscription term;
- h. Number of copies of each title;
- i. Handle/service charge, if any;
- j. Total cost for each library branch;
- k. Total cost of invoice;
- l. Total cost of entire order;
- m. Months of publication, when available;
- n. Costs before and after discount is applied for each library and entire order

EBSCO invoices are available in both print and electronic format; PDF or Excel formats of current and prior invoices are instantly available via *EBSCONET*.

In accordance with our efforts to be more environmentally conscious, and because our invoice is designed to be a payment document, we have reduced the number of fields on our standard invoice. A more comprehensive invoice is available via *EBSCONET*.

Your invoice includes the following information:

- **Bill-to Address**
- **Ship-to Address**
- **EBSCO Account Number**
- **ISSN/eISSN**
- **Title Name**

- EBSCO Title Number
- Frequency
- Format
- Purchase Order Number
- Term
- Start Date
- Volume/Coverage Information
- Quantity (if more than one)
- Fund Code
- ILS Number
- Price

Service charges or discounts are listed on the item level or at the end of each invoice.

The standard monthly account summary statement shows any open items and is available electronically as a PDF or Excel file. You can view invoices and current and previous monthly statements (which reflect payments and credits) via the Financial Information link under the Orders menus on *EBSCONET*. *EBSCONET* will also show whether a given invoice has been paid in full.

20. Invoices must also be accessible electronically via vendor's website and exportable in various formats and include the data listed above.

EBSCO's electronic invoices, which include the data listed above, are available via *EBSCONET* and can be exported via PDF or Excel.

21. Vendor must be willing to accept orders of any size at any time, without adding an additional processing fee above the handling/service charges set out in the bid.

EBSCO complies.

22. Vendor must be willing to accept cancellations at any time during the term of the subscription and try to obtain refunds.

EBSCO can accept cancellations at any time during the subscriptions, except where prevented by publisher policy. If an order is canceled, we will credit your account an amount equal to what we are refunded by the publisher, less a processing fee of \$15.00 per title. This processing fee does not apply if you elect to cancel the title at the time of renewal or if the publisher ceases publication.

In some cases, publishers will offer credits or other provisions in place of a refund. It is typical for publishers to not offer refunds on subscription terms with less than six months remaining.

Cancellations will be processed and acknowledged within two business days. Cancellation policies are included at the title level in *EBSCONET* for review prior to cancellation. The library will be notified promptly if cancellation is restricted by publisher policy.

23. All serials listed on each order must be delivered unless the publication has ceased, been suspended or the item is obtainable only from the publisher. In each instance, the vendor will indicate the reason for omitting the item.

Titles that are ceased, suspended, or must be ordered direct will be noted on an Invoice Action Letter sent with each invoice so the library can take appropriate action.

24. Vendor must notify the library of any changes concerning the periodical titles the vendor handles. This information should include the following:
- a. Discontinued, ceased and suspended titles;
 - b. Titles that must be ordered directly from the publisher;
 - c. Title mergers or splits;
 - d. Name changes;
 - e. Frequency of publication changes;
 - f. Titles delayed or behind in publication;
 - g. Titles that have resumed publication; and
 - h. New titles.

***EBSCONET* users will now be advised of important changes to subscriptions on a new *Notifications* page within the *EBSCONET* interface. Notifications will be displayed as *EBSCONET's* title database is updated, and users will receive weekly email alerts to advise when new notifications are available.**

Notifications will include changes in:

- Publisher
- Frequency
- Number of issues
- Format
- Title Status (for example, if a title changes from "Active" to "Discontinued")

Reported date, title name, publisher, type, previous and new values, and effective date will be included with each notification. Notifications can be filtered and sorted within the *Notifications* results list and exported to Excel or other popular formats.

In addition to the *Notifications* page, these changes will be displayed in a new "Title History" tab that will appear on the *Title Details* and *Order Details* pages.

This new feature increases the frequency by which we notify customers of changes that impact their subscription collections and also provides an easily accessible historical record of changes at the title or order level.

Users who prefer not to receive email alerts can unsubscribe from within *EBSCONET's Account Preferences*.

Changes can also be accessed via the EBSCO Bulletin of Serials Changes, a monthly report detailing changes to titles on your subscription list.

The report is organized by type of change (title changes, merged titles, etc.) and indexed for easy reference. It allows for review of serials changes that only apply to your collection. You can receive the report through *EBSCONET* or by contacting your Customer Service Representative.

This report is archived on *EBSCONET* for two years.

The Customized Bulletin of Serials Changes report includes the following sections:

1. Delivery Problems
2. Frequency Changes
3. Discontinued Titles
4. Suspended Titles
5. Split Titles
6. Merged Titles
7. Name Changes
8. Resumed Publication
9. Miscellaneous Information
10. New Titles
11. Additional Volumes
12. Title Number Changes

In addition, E-Journal Updates on *EBSCONET* helps you effectively organize your e-journal workflow by notifying you of the following changes to your e-journal collection:

- A format is discontinued
- A new, alternative format option becomes available
- An online version of a print subscription becomes available at no additional charge
- A title has moved from one publisher to another, noting both the previous and new publisher, as well as the effective date of the change
- A title is added or removed from an e-journal package purchased through EBSCO
- New Open Access titles are added to EBSCO's title database

25. When there is a title change, vendor must not make library responsible for adding the new titles and cancelling previous titles on their renewal lists.

EBSCO automatically handles ordering of titles that have changed names, merged, split or otherwise changed. If a significant change in content or price occurs as a result of the change, EBSCO will contact the Library for approval.

26. Vendor must provide notification when a publisher has a time limit for acceptance of claims.

Claim restriction information is displayed on the title detail page on *EBSCONET* and is also available via the *Titles with Claiming Restrictions* report. This report identifies the titles in your collection that have publisher claiming restrictions. This information helps you avoid unnecessary claims and informs you of the publisher-allotted time frame for submitting a claim.

27. Five to six months prior to annual renewal time, vendor must provide, via their website, interactive Renewal Lists detailing all titles previously ordered, indicating current status, including but not limited to active, direct only, ceased, name change, current prices, renewal dates, to be used for renewal order processing. Vendor must provide a Renewal List for each library branch.

EBSCO will always generate your renewal list at least six months prior to the annual renewal date of your subscriptions. For libraries choosing to manage the renewal process online, the renewal will be available on *EBSCONET*; an email will prompt you when renewals are ready for your review.

Your online renewal list includes the following information:

- Bill-to address
- Ship-to address(es)
- EBSCO Account Number(s)
- ISSN / eISSN
- Title Name (in alphabetical order)
- EBSCO Order Number
- EBSCO Title Number
- Publisher
- Frequency
- Format
- Title Status
- Start Date
- Order Term
- Quantity
- Fund Code
- ILS Number
- Publisher's current price
- Total price and number of titles

EBSCO's new online renewals interface features a more streamlined user experience including a simplified grid format, the ability to make format, quantity and other changes in-line without having to navigate to another page, and a new "shopping cart" checkout experience. All titles that can be renewed will be in your cart when you access your renewal. Titles can easily be added to the cart, removed (cancelled) from your cart, or placed on hold.

Any previously ordered titles that are no longer available for ordering, such as

direct order or ceased titles, will be clearly marked and will be automatically removed from your renewals shopping cart, but will remain visible under a separate tab specifically for items that have been removed from the cart. The removed items tab will also show any titles that you have opted to cancel, as well as ones that you have placed on hold.

The renewals interface includes renewal information for all ship-to addresses, however, it can be filtered by location (subscriber), start date, format and fund code, allowing for filtering for two of these parameters at the same time. The renewal can also be exported to a Microsoft Excel file for further data manipulation. Additionally, the new interface can be configured to allow users to view and modify titles for a specific branch or location, if desired.

28. Vendor must assign one individual to be responsible for the library's account. This individual must have the authority to act on the library's behalf with publishers as necessary. This dedicated representative must be assigned to the library and must be readily accessible via e-mail and phone, with a back-up plan in place so that when a representative is out, queries are handled in a timely manner.

April Harrison is the Customer Service Representative assigned to personally handle any questions you have concerning orders, delivery, claims, renewals, e-journal access and troubleshooting. She is also available to assist with management reports, invoices, credits and any other requests related to your subscription account. EBSCO's Customer Service Representatives are empowered to call publishers on your behalf to resolve claims and other issues. In addition, they are experts in e-resources and receive training specifically on managing e-journals and e-packages.

April also has access to invoice and order history records and can quickly locate information about your subscriptions. April works in EBSCO's Regional Office in Birmingham, Alabama, and can be reached via a direct toll-free number (855-580-0764) or by e-mail at aharrison@ebSCO.com.

All of EBSCO's Customer Service Representatives work in dedicated teams, sharing common issues and proposing solutions. Their team structure encourages collaboration and ensures the best service for your account. In addition, this structure enables us to provide a back-up Customer Service Representative who is familiar with your account and can assist when your primary Customer Service Representative is out of the office, ensuring consistently prompt response to communications.

29. Vendor must provide proof of payment. The invoice must be certification that publishers have been paid by the agent.

EBSCO sends full payment to publishers with your order to ensure prompt service. Generally, an EBSCO invoice serves as proof of payment for your subscriptions. Should additional proof of payment be required, your customer service representative can work with you or the publisher to provide this documentation.

 - Select a title, from the browser-based platform or within the app
 - Select Open in App (in-browser), or Download (in-app)
 - Once completed, the issue is available to read

Please refer to the following text below for more details on the steps listed above.

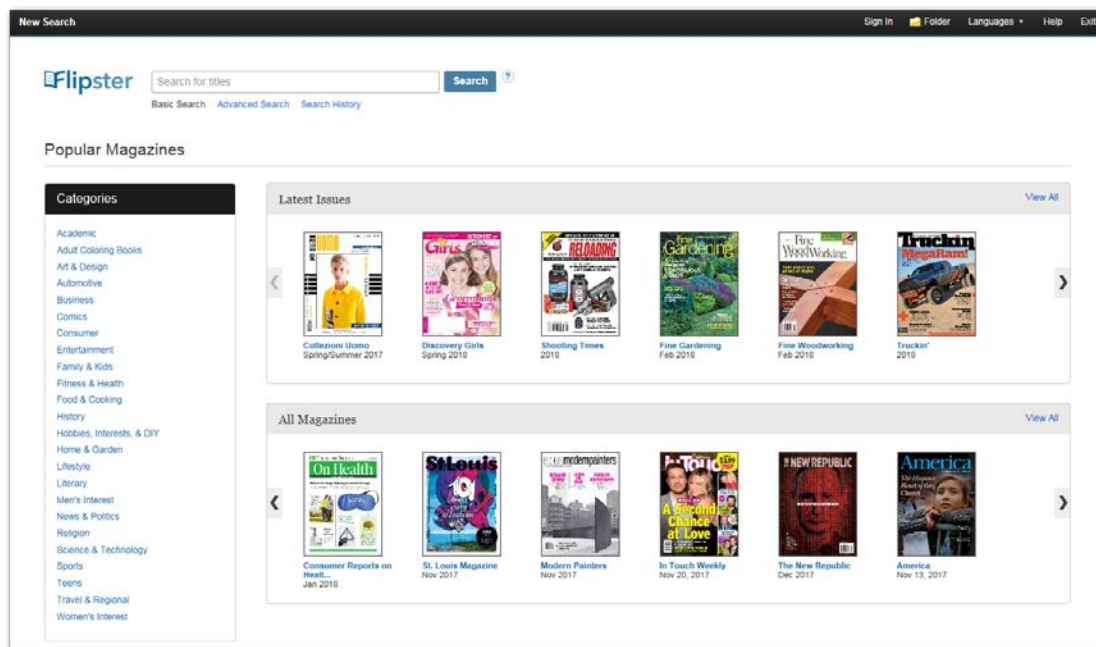

Platform Access and Authentication

To begin, the user must reach the *Flipster* platform point of entry. In-browser (desktop or mobile), this can be accomplished by selecting a hyperlink or icon, leading from the library’s website to the point of authentication. Alternatively, EBSCO provides various ways to display available content directly on the library’s website, such as a visual carousel of preferred titles, MARC-integrated catalog listings, or a custom search box experience. Upon encountering and selecting a title through any of these means, the user is also led to the point of authentication.

From this point, user credentials are entered or automatically verified, pending authentication method preference. For example, authentication is available via IP Address, Username/Password, Referring URL, Library Card or other, including options for single sign-on through any SAML-compliant identity solution. Regardless, authentication is simple and required only once per session.

Browsing, Searching and Reading Magazines

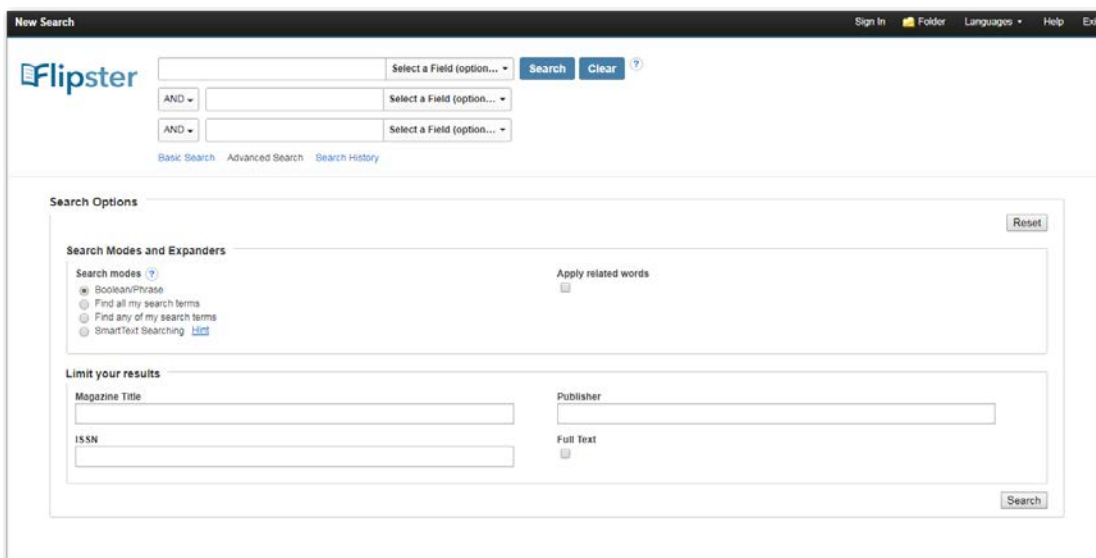

Once on-platform, *Flipster* users are greeted with several options for browsing and searching magazines, including basic and advanced search, as well as the ability to browse by category, or by visual carousel of Latest Issues and All Issues.

In-Browser Interface

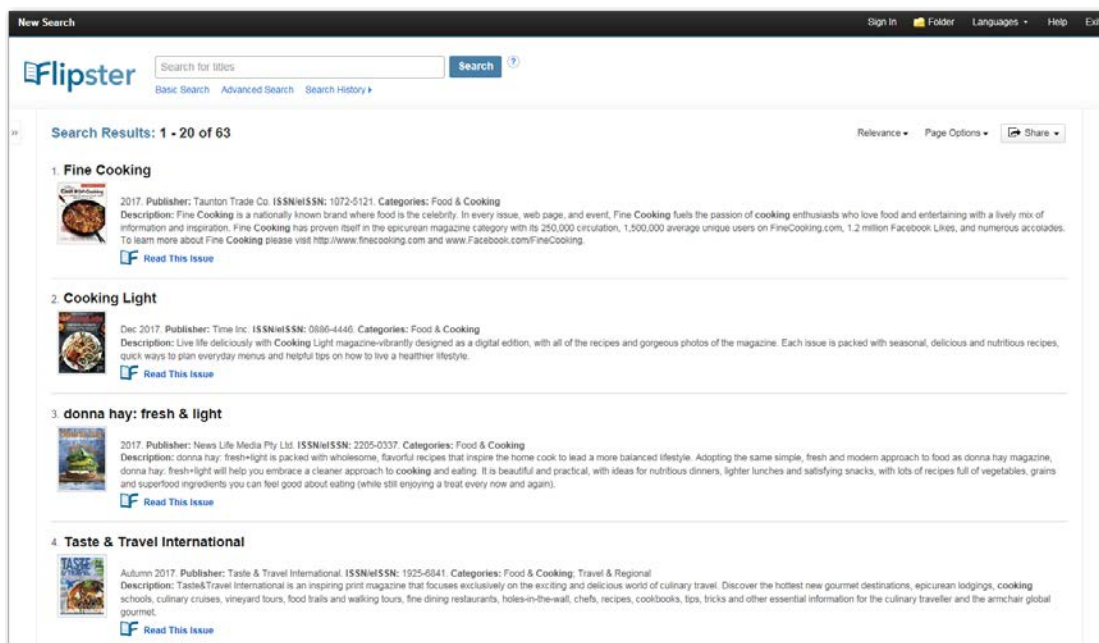

The most basic form of searching is by keyword, through a simple search box which features a clean, intuitive layout, similar to search engines encountered across the web. Search terms can be relevant to any aspect of interest, be it a specific magazine title, subject or other.

Through the Advanced Search, users have access to several added options, including choice of search modes, expanders and limiters/filters, such as Magazine Title, ISSN and Publisher. Users can also restrict keyword searches to particular fields within the index, using a drop-down menu of codes alongside the search bar. Indexed field searches can be issued in any of the following areas: All Text, Title, Category, ISSN and/or Publisher. They can also be combined with Boolean operators for a more targeted query.

Advanced Search Options

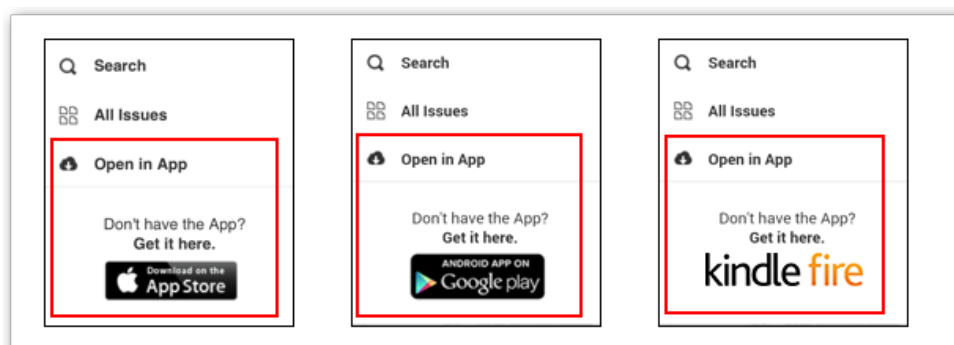

Once a search query is submitted, a category selected or a carousel expanded to “View All,” a Results List is presented. Each result includes bibliographic title information, a description of contents and link to view the full text in-browser (“Read This Issue”). Upon selecting a title’s cover or “Read This Issue,” the Full Text Viewer is launched, and the latest issue opens.

Sample Results List

Offline Download

The majority of titles are also available for offline download into the *Flipster* app. If accessing via mobile browser, users who select the option download a title will be presented an “Open in App” prompt. From here, they will be linked to the app, or asked to download if not already installed. Once title download is complete within the app, the issue is available to read for a select checkout period.

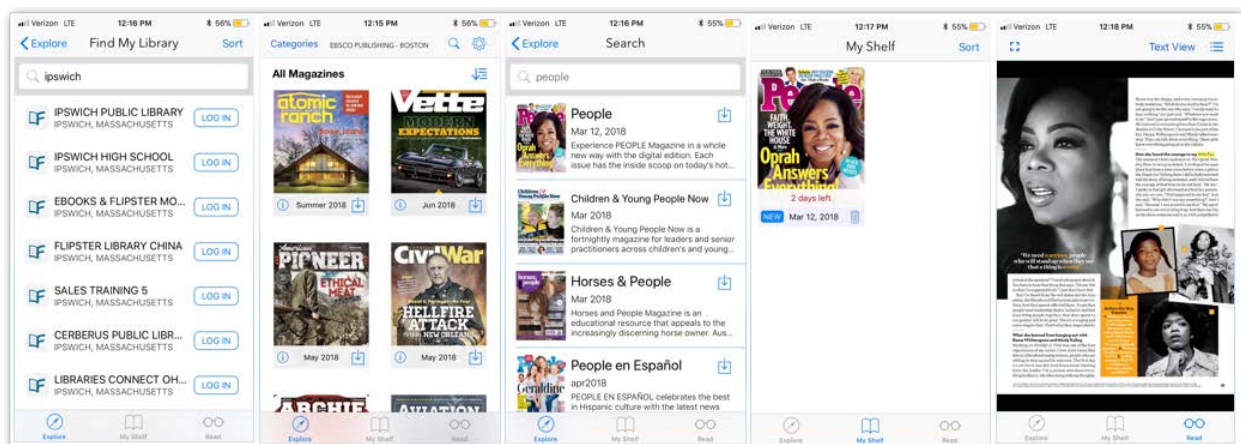

In-browser Mobile App Prompts

Alternative to the above, users may also enjoy the full end-to-end *Flipster* experience directly within the *Flipster* app. Through the app, users simply identify their library using the interactive Library Locator, authenticate once to access the library’s collection, and proceed to browse, search, read and download content. Additional benefits of the app include the

following capabilities:

- ✓ Browse for your library by name or location
- ✓ Add and toggle between multiple libraries
- ✓ Access the full range of your library's *Flipster* collection
- ✓ Browse by "All Magazines" or "Category"
- ✓ Download current and back issues in just one click
- ✓ Easily swipe left or right to flip through pages
- ✓ Tap highlighted areas, jumping to articles and websites
- ✓ Track percentage read
- ✓ Sort e-magazines by date downloaded or alphabetically
- ✓ Toggle between a shelf of all downloads and current reading
- ✓ Multiple viewing options, including text-view only

To facilitate in-app use, all icons and labels are also clear, meaningful and easily understood, often accompanied by images for added context and definition, as can be seen within the following figure:

Mobile App Experience

Administrators can customize these reports by selecting a specific date range, by month and by year. *EBSCOadmin* can run reports from the current date to two years prior. These can be scheduled to run at specific intervals or on demand by the library administrator 24/7. Administrators can also select their preferred report format, MS Excel or Tab Delimited.

E-Journal Package Change

Lists changes to subscribed e-journal packages; specifically, lists added or deleted component titles. Keep in mind that added titles may not be specifically ordered for the account—they may have simply been provided as a result of a change. Ordered titles, on the other hand, will have an order number or subscriber code listed.
