PROTECTOR™ SERIES

L-SHAPED SCREEN ASSEMBLY INSTRUCTIONS

INVENTORY

- (30) Carriage Bolts
- (30) Lock Nuts
- (1) 1/2-Inch Wrench
- (1) 1/2-Inch Socket Wrench
- (4) Legs
- (10) Frame Parts
- (15) Padded Sections
- (1) L-Shaped Netting

FRAME ASSEMBLY

Start by attaching 4 legs (B) to frame parts A and E using carriage bolts and lock nuts. (Lock Nuts should be on underside of legs).
Note: all remaining carriage bolts should enter frame tubing from the outside, with lock nut on the inside.

Next, connect leg assembly A together with parts D and C. Also connect leg assembly E with parts G, H and F. Finger tight nuts and bolts.

Join both sides together. Finger tight nuts and bolts.

Finally, join parts I, J and K together and attach to already assembled base. Finger tight nuts and bolts.

SECURELY tighten all Bolts using socket wrench.

Note: inside nut on part G must be tightened with 1/2-inch wrench.

PADDING

Using PADDING illustration, attach all padded sections to locations shown. Note: pad seams should all be on inside edge of frame.

Padding reference numbers are located on the inside of the padding vinyl cover.

NETTING

Stretch netting out, on the ground, in the same shape as the frame. Stand at the center of the frame and begin feeding the net onto the frame, like a pillowcase, alternating sides as you go. After the netting has been slipped over the frame, secure the netting around the bottom frame using the attached velcro strips.

Note: the side velcro strips attach below the legs (see photo above).

Note: new netting must be pulled and stretched to fit frame correctly—this is easier with two people.

JUGS Sports guarantees JUGS Protector™ Series netting and frame for (2) years unless damaged by snow, ice or other acts of God.

If you have any questions regarding this screen, contact JUGS Sports. USA and Canada, call toll free: 1-800-547-6843. International orders, call collect: 0-503-692-1635. Our fax number is 503-691-1100. Or, visit our website at jugssports.com

Transport Wheel Kit Installation Instructions

Note: This kit is for use with JUGS Protector Series Screens **ONLY**.

1. Assemble wheels to wheel bracket (figure 1.)

- Slide axel through wheel bracket.
- Slip wheels onto axel and insert retaining pins through the two holes at each end of the axel to secure wheels.

2. Join main screen bracket to wheel bracket assembly (figure 1.)

- Place washers between the top of the wheel bracket and the two lower arms of the main screen bracket.
- Place a washer on the $\frac{1}{2}$ " bolt and thread through both brackets to assemble the wheel bracket to the main screen bracket.
- Place washer and lock nut on opposite side of $\frac{1}{2}$ " bolt and tighten securely but just enough to allow rotation of the wheel bracket.

Figure 1.

3. Join main screen bracket to screen (figure 2.)

- Unfasten net at the bottom of the screen and undo vertical padding directly above the legs.

- Attach main bracket onto bare frame so that bolts will be located above and below the legs.
- Install top and bottom u-clamps on the inside of the screen as shown.
- Slip bolts through washer, then main screen bracket and through u-clamps.
- Thread lock nuts and washers onto bolts and tighten all bolts evenly for best results.

Figure 2.

4. Engage/Disengage transport wheel kit (figure 3.)

- To engage wheel kit, simply lift screen directly above the wheel kit and kick the wheels under the screen.
- For ease of transportation, lift screen from other side to move.

Figure 3.
