SPECIFICATIONS FOR CORRUGATED METAL PIPE

Corrugated Metal Pipe

It is the purpose of these specifications to furnish and deliver the various sizes of corrugated metal pipe culverts to be used as bridging for various Parish canals and ditches.

Coating

All pipe culvert and brands shall be BCCMP Bituminous coated pipe. Coating shall meet Louisiana Department of Transportation and Development specifications.

Certification

All pipe furnished under this contract shall be galvanized in accordance with AASHTO M 218; coated in accordance with AASHTOM 190; coating shall be type A, fully bituminous coated; lift lugs shall be provided in pipe 24" and above.

Location & Accessibility

Culverts are to be delivered to various locations. Installation by supplier(s) is not required. All locations are within a 15 mile radius of Port Allen, La. and are accessible via dirt roads. Insofar as weather and/or other factors permit, deliveries shall be made to each location.

When, in the opinion of the owner, ground conditions do not permit delivery to any or all locations, it shall be the responsibility of the supplier to deliver to a point nearest the installation site, as directed by the owner.
