URREA 3/8 in. Drive 12 Point 1/4 in. Chrome Socket

[Write the first Review](#)[Questions & Answers \(1\)](#)

Product Overview

The line of 3/8 inch sockets is used primarily for automotive maintenance and general mechanical work where there is not a lot of work space available and the torque requirements are not very high. They have the following ranges of application: Socket opening size: 1/4 inch to 1 inch a... See Full Description
