Suite 4400  
Gretna, LA 70053  
Attn: Ms. Melissa Ovalle

Dear Ms. Ovalle:

Waypoint Analytical is pleased to have the opportunity to provide *Jefferson Parish* with the following analytical RFP.

Waypoint offers the most cost-effective approach to analytical services in the industry by offering the highest quality data along with a proven track record of success. Our willingness to partner with our clients through pre-planning and information sharing assures that program objectives are met in a cost effective and timely manner. All requested analytical will be performed by Waypoint Analytical with the exception of Dioxins. This will be subcontracted to Enthalpy Laboratories, and it has been confirmed that they are Louisiana certified. All samples will be logged in and reported through the Waypoint LIMS system. Also, the reporting limit for Aluminum (2.5 ppb) is below our calibration range. We will make every effort to obtain this limit, however, if we cannot, we will subcontract those samples to a LA certified lab that can obtain that limit. Again, all samples will be logged in and reported through the Waypoint LIMS system.

On behalf of the staff at Waypoint, I thank you for consideration of our environmental analytical services and look forward to the opportunity to work with you in the near future. Should you have any questions, please contact me at (337) 658-0044.

Regards,

**Re: Annual Scope of Accreditation**

**Dear Mr. Albert:**

The Louisiana Department of Environmental Quality's laboratory accreditation program, in accordance with Louisiana Administrative Code, Title 33, Part I, Subpart 3, Laboratory Accreditation, accredits this laboratory for Fiscal Year 2022. This accreditation does not constitute an endorsement of the suitability of the listed methods for any specific purpose. The laboratory is accredited for the methods as identified on the application for accreditation; if the methods are partially identified on the application for accreditation, the laboratory is accredited for the versions listed on the current application or referenced in the laboratory standard operating procedure.

National Environmental Laboratory Accreditation Program (NELAP) accreditation is granted **only** for those methods/analytes for which "NELAP" is indicated as the type of accreditation. "STATE" is indicated as the type of accreditation for those methods/analytes for which accreditation by the Louisiana Environmental Laboratory Accreditation Program (LELAP) is granted. Accreditation of the environmental laboratory does not imply that a product, process, system, or person is approved by LELAP. Accreditation is dependent on the laboratory's successful ongoing compliance with regulations as outlined in the Louisiana Administrative Code, Title 33, Part I, Subpart 3, Laboratory Accreditation, and with the standards adopted by the NELAP Accreditation Council.

The accreditation certificate is the property of the State of Louisiana. Should your accreditation be suspended or revoked, your laboratory must return the certificate of accreditation to the department and delete any electronic copies until your accreditation status is restored.

LAC 33:I.5313.A and/or the 2009 TNI Standard require that the laboratory report include all relevant information. Therefore, the certificate number shall be placed in the upper right corner of all laboratory

reports. If the test report includes results of any test for which the laboratory is not accredited, the unaccredited results must be clearly identified as such.

We request that you examine the scope of accreditation attachment for accuracy and completeness. If you find that an analyte for which you expected to be accredited is not listed, please examine your records to ensure that:

1. You have met the requirements for successful participation in proficiency test studies as outlined in LAC 33:I.4711 and in the 2009 TNI Standard.
2. In the case of accreditation by recognition, the requested analyte must be listed for the requested method and matrix on both the certificate issued by the Primary Accreditation Body *and* on the Louisiana application form.

If after reviewing this information, the scope and/or certificate are inaccurate, please notify us immediately.

If you have any questions, please contact your assigned assessor Mr. Joseph Kieffer, Environmental Scientist at (225) 219-3302.

Sincerely,

Cheryl Sonnier Nolan

Re: Scope of Accreditation

Dear Dr. Medina:

On April 23, 2021, the Louisiana Environmental Laboratory Accreditation Program (LELAP) received a request for renewal of your Scope of Accreditation. No changes were requested to your scope of accreditation.

The Louisiana Department of Environmental Quality's laboratory accreditation program, in accordance with Louisiana Administrative Code, Title 33, Part I, Subpart 3, Laboratory Accreditation, accredits this laboratory for Fiscal Year 2022. This accreditation does not constitute an endorsement of the suitability of the listed methods for any specific purpose. Accreditation of the environmental laboratory does not imply that a product, process, system, or person is approved by LELAP. The laboratory is accredited for the methods as identified on the application for accreditation; if the methods are partially identified on the application for accreditation, the laboratory is accredited for the versions listed on the current application or referenced in the laboratory standard operating procedure.

National Environmental Laboratory Accreditation Program (NELAP) accreditation is granted only for those methods/analytes for which "NELAP" is indicated as the type of accreditation. "STATE" is indicated as the type of accreditation for those methods/analytes for which accreditation by the Louisiana Environmental Laboratory Accreditation Program (LELAP) is granted. Accreditation is dependent on the laboratory's successful ongoing compliance with regulations as outlined in the Louisiana Administrative Code, Title 33, Part I, Subpart 3, Laboratory Accreditation, and with the standards adopted by the NELAP Accreditation Council.

The accreditation certificate is the property of the State of Louisiana. Should your accreditation be suspended or revoked, your laboratory must return the certificate of accreditation to the department and delete any electronic copies until your accreditation status is restored.

LAC 33:I.5313.A and/or the 2009 TNI Standard require that the laboratory report include all relevant information. Therefore, the certificate number shall be placed in the upper right corner of all laboratory reports. If the test report includes results of any test for which the laboratory is not accredited, the unaccredited results must be clearly identified as such.

**We request that you examine the scope of accreditation attachment for accuracy and completeness.** If you find that an analyte for which you expected to be accredited is not listed, please examine your records to ensure that:

1. You have met the requirements for successful participation in proficiency test studies as outlined in LAC 33:I.4711 and in the 2009 TNI Standard.
2. In the case of accreditation by recognition, the requested analyte must be listed for the requested method and matrix on both the certificate issued by the Primary Accreditation Body **and** on the Louisiana application form.

If after reviewing this information, the scope and/or certificate are inaccurate, please notify us immediately.

If you have any questions, please contact your assigned assessor Elizabeth West, Environmental Scientist at (318) 676-7457.

Sincerely,

Cheryl Sonnier Nolan

## **Two (2) Year Contract for Environmental Laboratory Analytical Services for the Jefferson Parish Department of Environmental Affairs**

The Jefferson Parish Department of Environmental Affairs is seeking a Laboratory to serve on a contractual basis as back-up support to perform laboratory analyses. In the event the Parish Water Quality Laboratory and or Bacteriology Laboratory cannot perform required analyses due to unavailability of laboratory staff, missing or broken equipment or any other unforeseeable conditions, said support lab would perform such analyses.

Analyses shall be performed using any EPA approved method that achieves the required MQL and which is currently listed in 40 CFR Part 136 and provided that the Quality Assurance /Quality Control (QA/QC) requirements of the method that identifies the analyte are achieved. All QA/QC data shall be submitted with the analytical results. All analyses are to be completed in a standard 10 to 15 day turnaround. Analytical results must be provided no later than 21 days following receipt of the samples. Occasionally samples will be submitted with a request for expedited analysis or "rush turnaround". In this instance a 5-day turnaround for analysis completion and immediate analysis results may be requested.

Environmental laboratories submitting bids must be accredited in the state of Louisiana under the Louisiana Environmental Laboratory Accreditation Program (LELAP) for the specified parameter. The original laboratory contracted to perform the requested scope of testing must ensure that if any samples are subcontracted to a second environmental laboratory; that the second laboratory is also accredited to perform the requested scope of testing.

Any instances beyond that of a force majeure causing samples to not arrive at a subcontracted laboratory intact and within the holding time (such as a wrong address provided to the courier, FedEx, etc. by the main laboratory) shall constitute a penalty. The main contracted laboratory shall be penalized by analyzing the replacement sample free of charge.

- The penalty for a second incidence would be analyzing the replacement sample free of charge in addition to a monetary fine of twenty-five dollars (\$25).
- The penalty for a third incidence would be analyzing the replacement sample free of charge in addition to a monetary fine of fifty dollars (\$50).

- Additional incidences shall result in analyzing the replacement sample free of charge in addition to further escalating monetary fines in increments of twenty-five dollars (\$25).

If the successful bidder is located outside of the New Orleans metropolitan area, the bidder must furnish all containers and pay all shipping costs for these analyses or include the cost of shipping in the bid and the bidder must be able to meet the holding times for the required analytes. If the bidder has a local laboratory they intend to use for receipt of samples via drop off or courier service; the day(s) of the week and hours of the day for sample pick-up via courier shall be submitted with bid submission. Failure to submit this information with bid submission will result in a bid rejection.

Upon commencement of the laboratory contract, the successful bidding laboratory shall have personnel on site to receive samples from the Environmental field staff. The laboratory personnel shall inspect the samples as they receive them (in the presence of the Environmental staff), record the sample condition as per the Chain of custody (COC) and account for each sample bottle present prior to signing the COC.

Upon signing the COC a copy of the COC shall be presented to the Environmental field staff. If the receiving laboratory is a satellite or sub-contracted laboratory, the main contracted laboratory shall by way of email ([IndustrialPretreatment@jeffparish.net](mailto:IndustrialPretreatment@jeffparish.net)) notify the Environmental Affairs Industrial Pretreatment Division of receipt of samples at the time of their receipt. The sample condition and temperature shall be included in this email. If the transport of the samples to a sub-contracted lab is by courier, FedEx, etc., the tracking number shall be provided to the Environmental Affairs Industrial Pretreatment Division in the form of an email upon shipment by the main contracted laboratory.

The attached pages are a list of testing requirements required to satisfy the Wastewater Treatment Plant NPDES permits, the Industrial Pretreatment Program, Storm Water Program and any emergency testing to satisfy Public Service requests or Inter-departmental assistance. The approximate number of analyses per parameter is based upon the approximate number of analyses required or anticipated annually.

Payment under this contract shall be for the actual number of samples and the type of analyses requested at the agreed upon submitted unit prices. Invoices for billing shall be submitted at the same time interval as the final assembled analysis reports.

### INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

**A. AWARD OF CONTRACT:** JEFFERSON PARISH reserves the right to award contracts or place orders on a lump sum or individual item basis, or such combination, as shall in its judgment be in the best interest of JEFFERSON PARISH. Every contract or order shall be awarded to the LOWEST RESPONSIVE and RESPONSIBLE BIDDER, taking into consideration the CONFORMITY WITH THE SPECIFICATIONS and the DELIVERY AND/OR COMPLETION DATE. SPLIT AWARDS MADE TO SEVERAL VENDORS WILL ONLY BE GRANTED TO THOSE DEEMED RESPONSIVE AND RESPONSIBLE.

All bid prices shall remain valid for 45 days. Jefferson Parish and the lowest responsive and responsible bidder(s) by mutual written consent may mutually agree to extend the deadline for award by one (1) or more extensions of thirty (30) calendar days.

**PROTESTS:** Only those vendors that submit bids in response to this solicitation may protest any element of the procurement, in writing to the Director of the Purchasing Department. Written protest must be received within 48 hours of the release of the bid tabulation by the Purchasing Department. After consultation, the Parish Attorney's Office will then respond to protests in writing. (For more information, please see Chapter 2, Article VII, Division 2, Sec. 2-914.1 of the Jefferson Parish Code of Ordinances.)

**PREFERENCE:** Unless federal funding is directly spent by Jefferson Parish for this purchase, preference is hereby given to materials, supplies, and provisions produced, manufactured or grown in Louisiana, quality being equal to articles offered by competitors outside the state. "LSA – R.S. 38:2251-2261"

**B. USE OF BRAND NAMES AND STOCK NUMBERS:** Where brand names and stock numbers are specified, it is for the purpose of establishing certain minimum standards of quality. Bids may be submitted for products of equal quality, provided brand names and stock numbers are specified. Complete product data may be required prior to award.

**C. CANCELLATION OF CONTRACT:** JEFFERSON PARISH reserves the right to cancel all or any part if not shipped promptly. No charges will be allowed for parking or cartage unless specified in quotation. The order must not be filled at a higher price than quoted. JEFFERSON PARISH reserves the right to cancel any contract at anytime and for any reason by issuing a THIRTY (30) day written notice to the contractor.

For good cause and as consideration for executing a contract with Jefferson Parish, vendor conveys, sells, assigns and transfers to Jefferson Parish or its assigns all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of Louisiana, relating to the particular good or services purchased or acquired by Jefferson Parish.

**D. PRICES:** Jefferson Parish is exempt from paying sales tax under LSA-R.S. 47:301 (8)(c). All prices for purchases by Jefferson Parish of supplies and materials shall be quoted in the unit of measure specified and unless otherwise specified, shall be exclusive of state and local taxes. The price quoted for work shall be stated in figures. In the event there is a difference in unit prices and totals, the unit price shall prevail.

Quantities listed are for bidding purposes only. Actual requirements may be more or less than quantities listed.

Bidders are not to exclude from participation in, deny the benefits of, or subject to discrimination under any program or activity, any person in the United States on the grounds of race, color, national origin, or sex; nor discriminate on the basis of age under the Age Discrimination Act of 1975, or with respect to an otherwise qualified handicapped individual as provided in Section 504 of the Rehabilitation Act of 1973, or on the basis of religion, except that any exemption from such prohibition against discrimination on the basis of religion as provided in the Civil Rights Act of 1964, or Title VI and VII of the Act of April 11, 1968, shall also apply. This assurance includes compliance with the administrative requirements of the Revenue Sharing final handicapped discrimination provisions contained in Section 51.55 (c), (d), (e), and (k)(5) of the Regulations. New construction or renovation projects must comply with Section 504 of the 1973 Rehabilitation Act, as amended, in accordance with the American National Standard Institute's specifications (ANSI A17.1-1961).

**INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS**

### ADDENDUM # 2

Bid Number: 50-00136703

Bid Opening Date: February 10, 2022

**Description of Bid: Two (2) Year Contract for Environmental Laboratory Analytical Services for the Jefferson Parish Department of Environmental Affairs**

---

#### **CLARIFICATION OF SPECIFICATIONS:**

**Q1:** Please clarify p2 of 7 - Upon commencement of the laboratory contract, the successful bidding laboratory shall have personnel on site to receive samples from the Environmental field staff. The laboratory personnel shall inspect the samples as they receive them (in the presence of the Environmental staff), record the sample condition as per the Chain of custody (COC) and account for each sample bottle present prior to signing the COC. Is Parish requiring that lab/courier staff meet directly with Parish personnel?

**A1:** Yes, the lab must have a person available to accept the samples and sign the chain of custody form.

**Q2:** Will we be able to coordinate timing of these events?

**A2:** Per the specifications, labs shall provide a list of times and days samples can be dropped off on a routine basis. Refer to the bold and underlined section of the 2<sup>nd</sup> paragraph on page SP Page 2 of 7. Jefferson Parish will make every effort to provide advance notice at least 24 hours in advance of sampling. There may be occasions when this is not possible. Prior to the start of the contract, a meeting will be held between the successful bidder and Jefferson Parish Department of Environmental Affairs.

**Q3:** Due to the information on addendum no. 1 we would like to request on the price page a line item for a basic finger print analysis and an explanatory finger print analysis. Would that be possible? A basic finger print analysis is a short write up of results. An explanatory written result is a much longer explanation and requires more research on a report. We would like two line items on the price sheet to reflect the difference in price for a basic finger print analysis and an explanatory analysis.

**A3:** An additional line will not be added to the unit price bid form. This bid is not requesting a detailed report for the fingerprint analysis. Only the data is required and Jefferson Parish will be responsible for comparing the peaks. The same applies to any sample. To further clarify A3 from Addendum No. 1, all it means is that we just don't want the numerical results. All of the QA/QC data that would normally be included on a lab report is required.

**Q4:** A “TCLP ZHE extraction” cost is requested for Line item 60. But there is no line item requested for counterpart “NON ZHE extraction for TCLP. Would TCLP analytical costs for line items 62 through 66 be inclusive of NON ZHE costs? Line item 60 appears to be requesting just the TCLP/ZHE extraction for Volatiles. Is the intent to have a separate price for the prep? Maybe in the case of a prepare and hold? Line item 61 is for the Volatiles analysis – does this include the prep? As in line item 60? Or should we remove the prep cost from line item 61? Line items 62 thru 67 are for the various TCLP analyses – do these line items also include the TCLP prep, or do you want us to include a separate cost for that?

**A4:** Line item 60 (0060) is not just for the extraction of line item 61 (0061). Line item 60 (0060) shall be used to invoice extraction for analysis for other line items such as line items 62 (0062) thru 67 (0067). A separate extraction line is not required for each analysis line.

*Melissa Ovalle*
