<p>1. Professional Training and Experience :</p> <p>Bryant Hammett & Associates, LLC (BHA) is a Louisiana-based Limited Liability Corporation multi-disciplinary consulting land surveying, civil engineering, and disaster response firm which provides professional services for various governmental and private concerns. BHA was first organized in Concordia Parish in August 1984, starting as a small 4-member firm providing civil engineering and land surveying services to surrounding municipalities. Since then, the firm has grown to operate offices in Plaquemines, Jefferson, East Baton Rouge, and Concordia parishes.</p> <p>BHA employees licensed and experienced professional land surveyors and civil and environmental engineers and, each with decades of performance. The firm has been the surveyor and engineer of record for numerous types of projects; BHA provides civil engineering for the design of water treatment systems; water distribution systems; water supply systems; wastewater treatment systems; NPDES permitting; USCOE permitting; landfill permitting, design, inspection and construction staking; building site design; utility relocation; gas distribution systems; street and highway construction/reconstruction; bridge design; subdivision design</p>		

TEC Professional Services Questionnaire

BHA professionals have extensive experience in the services required to support water infrastructure design and improvements, including design of water system improvements, waterline relocation, ground storage tanks, water treatment plant improvements, new water plant construction.

Data is collected and utilized to capture the terrain, vegetation, drainage patterns, ground elevations, improvements, pavements, culverts, manholes, ground slopes, ditches, roadways and utilities to aid the drainage design work.

2. Capacity for Timely Completion:

Based on the current and projected project workload and schedule, BHA is capable of allocating the necessary resources and manpower required to fulfill the requirements of this engagement in a timely fashion. BHA currently has the professional and support personnel available to provide the required services and initiate those services once authorized to proceed. BHA maintains a strong working relationship with the client to protect their interests and accomplish project goals in a cost effective, responsive, and responsible manner.

BHA maintains a staff of highly qualified, experienced, and licensed engineers, surveyors, technicians, cost estimators, GIS managers, certified floodplain managers, administrators, disaster recovery subject matter experts, inspectors, CADD operators and clerical support ensuring availability of professional and support personnel no matter the project.

No project in which BHA has been involved has been jeopardized because of failure to meet schedules. BHA has not been involved in any projects that were jeopardized because of cost overruns, or because inadequate designs were rejected by parish, state, or federal review agencies.

3. Location of Principal Office Where Work Will be Performed:

BHA's central locations allow us to work easily throughout Louisiana, however all work for this project will be performed out of our Harahan, LA office in Jefferson Parish.

4. Adversarial Legal Proceedings between the Parish and the Person or Firm:

BHA has no prior or on-going litigation with Jefferson Parish.

5. Prior Successful Completion of Projects of the Type and Nature of the Engineering Services:

As illustrated in Section L, as well as in number 7 below, BHA has successfully completed dozens of projects providing professional services relating to the design of drainage projects.
