

WATERCARB

High Performance Powdered Activated Carbon

Description	Watercarb is a reliable, high quality powdered activated carbon manufactured by steam activation of select raw material.
-------------	--

Applications	Watercarb is especially tailored for taste and odor removal in the treatment of potable water. Watercarb products meet or exceed AWWA B600 specifications, and are certified to NSF/ANSI Standard 61.
--------------	---

Specifications / Properties	Iodine Number 500 mg/g min Moisture 8 % max Bulk Density 0.4 - 0.6 g/cc Passing 325 Mesh 90 % min
-----------------------------	---

Manufacturer	Donau Carbon US LLC is an innovative activated carbon manufacturing company focused on practical, environmentally-superior solutions to customers' needs. We develop and manufacture custom tailored, activated carbon products for removing contaminants from liquids and gases. Donau Carbon utilizes reclaimed raw material in many products, and uses only heat and steam for carbon activation.
--------------	--

Delivery	Watercarb is available for delivery in 50 lb. bags, palletized, and in bulk <i>via</i> polypropylene bulk sacks, pneumatic tanker trailer and pneumatic rail car.
----------	---

Safety and Handling	Wet activated carbon removes oxygen from the air. In closed, or partially closed containers and vessels, oxygen depletion may reach dangerously low levels. Workers should follow appropriate procedures when entering confined spaces containing activated carbon.
